

INTERCULTURAL STUDIES, PH.D.

Program Description

The purpose of the Doctor of Philosophy degree in the Cook School of Intercultural Studies (CSICS) is to equip scholars to be competent in research, writing, and reflective action from a holistically integrated Christian worldview in order to contribute to new understandings of cross-cultural and multicultural issues. The program prepares graduates for roles in higher education, cross-cultural leadership, and intercultural praxis.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Doctor of Philosophy in Intercultural Studies, students will be able to:

1. Demonstrate a mastery of relevant theories in intercultural studies and related disciplines associated with one's research area and/or ministry context (ULO 1).
2. Engage in and publish independent research in intercultural studies (ULO 1).
3. Generate new understandings and explanations (e.g., theoretical constructs) and apply them in culturally appropriate ways to the improvement of vocational outcomes in diverse contexts (ULO 2).
4. Discuss and analyze the integration of one's faith commitments, and theological understandings, within the discipline of intercultural studies (ULO 3).
5. Exemplify rigorous scholarship accompanied by Christ-honoring professionalism in all scholarly activities (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (<http://catalog.biola.edu/general-information/>) section of this catalog.

Requirements

Program Requirements

The Cook School of Intercultural Studies offers two Ph.D. degrees: the Ph.D. in Intercultural Education, and the Ph.D. in Intercultural Studies. Each program requires a minimum of 60 credits past the appropriate master's degree, including a minimum of 48 semester hours of coursework and a maximum of 12 semester hours of dissertation research.

The Ph.D. programs include five foundational courses (13 credits), four specialized courses (12 credits), three electives or tutorials (9 credits), three Bible/theology courses (9 credits), and two research methods courses (6 credits). The dissertation portion of the program includes two taught courses (6 credits) and allows students to devote up to 5 additional dissertation credits to independent research and writing. There is wide latitude for students to pursue their individual interests in elective courses (or tutorials) and ultimately in research for their doctoral dissertations.

If a student has completed a master's degree which does not contain the background necessary for the Ph.D. program, the total program will

be longer than 60 credits, as determined by the program director. If a student enters the Ph.D. program having completed a graduate degree in a field similar to intercultural studies and has been involved in extensive experience work they may be eligible to receive up to 9 competency credits toward the Foundational Core classes. Additionally, students with advanced work in Bible and theology may also be eligible for up to 9 credits of Bible/theology reductions for work completed as part of a D.Min. or D.I.S. degree, and up to 6 credits of reduction for students with a Th.M. degree. Requests for course reductions from other students with extensive coursework in Bible and theology will be considered on a case-by-case basis and will not normally exceed 6 credits of course reductions. At the recommendation of the Ph.D. academic advisor and with the approval of the doctoral committee, students with a previous doctoral degree may be granted course reductions of up to 24 credits but must complete at least 36 additional credits at Biola University, of which 24 credits must be new coursework and up to 12 credits may be devoted to dissertation research and writing. A faculty advisor will guide students in planning a program of study that serves their vocational aspirations. The degree offers a concentration in either intercultural or multicultural education. Students are expected to choose the concentration most appropriate to their research interest.

Time Limit for Degree Completion

All course and academic requirements for the Ph.D. degree should be completed within seven years, beginning on the date of the student's first registration. Petitions for extension beyond seven years will be considered on a case-by-case basis for students. At times students may need to interrupt their programs for a semester or more for a variety of personal or work-related reasons. This may be done with the consent of their respective Ph.D. Program Director. Students must be continuously enrolled unless on an official Leave of Absence. Students who fail to register in any given semester without a Leave of Absence will be dropped from their respective doctoral program. Also, students on Leave of Absence beyond two consecutive semesters must reapply to their respective doctoral program.

Withdrawal and Re-Admission Procedures

A student who must drop out of school must go through the formal withdrawal process. To return to active status the student should contact the program director and file a readmission form with the Office of Admissions.

Leave of Absence

Inactive students are those who have requested and been granted Leave of Absence from the program. A Leave of Absence may be granted upon petition for change of status if there is deemed sufficient reason for interrupting the program and intention to return to the program.

A Leave of Absence must be renewed by petition each semester and may not exceed two consecutive semesters. A Leave of Absence longer than two semesters will require withdrawal from the program and a petition for readmission if the student later wishes to regain active status. Each leave of absence must receive the approval of the student's program advisor and the Dean of the school. Students on leave are required to register for ISCL 893 Leave of Absence each term.

A Leave of Absence may be granted upon petition for change of status if there is deemed sufficient reason for interrupting the program and intention to return to the program. Inactive students are those who have requested and been granted Leave of Absence from the program. A Leave of Absence must be renewed by petition each semester and

may not exceed two consecutive semesters. A Leave of Absence longer than two semesters will require withdrawal from the program and a petition for readmission if the student later wishes to regain active status. Each Leave of Absence must receive the approval of the Program Advisor and the Dean of CSICS. Students on leave are required to register for ISCL 893 Leave of Absence each term.

Portfolios

CSICS has chosen to utilize a Portfolio Assessment System for its Ph.D. programs. This system is designed as a means to help monitor student progress toward one's development as a scholar. A variety of course materials will be collected periodically throughout the duration of the doctoral program. For further information, please consult the current Doctoral Programs Handbook.

Qualifying Examinations

Doctoral students are required to demonstrate a comprehensive knowledge of their field of study by examination. The content of the written qualifying exam includes material from the core areas of the curriculum and the student's particular specialization. These exams are normally taken at the conclusion of all the coursework.

Admission to Candidacy

Official Ph.D. candidacy indicates that students have completed all of the preliminary requirements and are now qualified to undertake original research contributing to scholarship in their respective fields through their doctoral dissertations.

To achieve candidacy, students must successfully complete the following:

1. Required coursework and the Graduation Procedures Check (or grad check)
2. Portfolio, approved by the doctoral committee
3. Qualifying examinations
4. Successful defense of the dissertation proposal

It is the responsibility of students to contact their advisors in order to ensure all candidacy requirements have been met. Upon completion of the requirements, students will be notified of their acceptance to candidacy. Candidates will select a chairperson from the graduate faculty to guide their dissertation research. Upon achieving candidacy, students may implement their proposed research plans under the supervision of the approved doctoral chairperson.

Students enrolled in ISCL 890 or ISCL 891 are considered full-time students. During the dissertation phase, doctoral students are considered full time for a maximum of four semesters. If doctoral candidates have not defended their dissertations by the time all required dissertation credits are completed, they must enroll continuously in ISCL 890 for 0 credits each semester until the successful defense of the dissertation. This enrollment carries no academic credit but maintains the student's continuous registration.

Students who fail to achieve candidacy may be offered a terminal M.A. degree and dropped from the Ph.D. program.

Dissertation

The dissertation process officially begins with the successful defense of a candidate's proposal before one's doctoral committee prior to beginning the student's field research.

The doctoral dissertation contributes to theory relevant to the candidate's concentration and must be conducted in some aspect of intercultural studies.

Dissertation Defense

The final examination is an oral defense of the dissertation before the doctoral committee and other invited professionals. Successful defense of the dissertation completes the candidate's responsibilities for the degree, which is conferred in the scheduled graduation ceremony immediately following the defense.

Graduation Requirements

All students must present an acceptable dissertation, have satisfactorily passed their qualifying exam and completed all required course work with a minimum 3.3 GPA to qualify for graduation. Students must meet with their department advisor and contact a Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (<http://catalog.biola.edu/general-information/admission-enrollment-graduation-requirements/>) section).

Residency Requirement

CSICS Ph.D. students taking coursework at Biola's CSICS extension centers must take at least 50% (normally 24 credits) of the coursework at Biola's main campus.

Program Specific Objectives

The Ph.D. in Intercultural Studies allows the student to engage in the study of issues and processes associated with cultural change, culture contact and transformation. This track equips graduates to critically analyze the practice and theory of intercultural and cross-cultural programs and processes that have contributed to contemporary globalization trends.

Ph.D. in Intercultural Studies

Prerequisites: M.A. degree with a strong emphasis in intercultural studies, the social sciences or a related field. Minimum of three years of cross-cultural experience.

Requirements: The program consists of a total of 60 credits, of which up to 11 may be devoted to dissertation research, including ISCL 872 and ISCL 891.

Curriculum Requirements

Code	Title	Credits
Foundational Courses		
ISAN 761	Culture and Transformation	3
ISCL 700	Orientation to Graduate Intercultural Studies	1
ISCL 709	Intercultural Communication	3
Select two courses from the following:		6

ISCL 742	History of the World Christian Movement	
ISCL 765	Cross-Cultural Leadership	
ISCL 703	Curriculum Design for Intercultural Contexts	
Intercultural Research Program Courses		
ISAN 751	Social Anthropology	3
ISCL 801	Method and Theory in Cross-Cultural Studies	3
ISCL 852	Contemporary Issues in Cognitive Anthropology and Worldview Studies	3
ISCL 853	Theoretical Issues in Cross-Cultural Engagement	3
Specialization Courses		
A total of 9 credits must be taken in:		
Education/ICS electives		3
Education/ICS electives or Tutorial		3
ISCL 873	Tutorial	3
Research Courses		
ISCL 803	Qualitative Research	3
ISCL 879	Research Design	3
Bible/Theology Courses		
Students may select Bible/Theology courses from a wide range of courses taught by the faculty at Talbot School of Theology or from among the theological integration courses offered by qualified faculty within the Cook School of Intercultural Studies. Students with no formal biblical/theological training prior to entering the program must have the selection approved by the program director. Students may also select:		9
ISCL 655	Contemporary Theology of Mission	
ISCL 701	Theology of Culture	
ISCL 722	Spiritual Conflicts in Cross-Cultural Context	
ISCL 724	Issues in Spiritual Warfare	
ISCL 744	Narrative in Scripture and Teaching	
ISCL 750	Issues in Contextualization/Cross-Cultural Theology	
ISCL 751	Theology of Mission	
ISCL 752	Acts: Biblical and Missiological	
ISCL 780	Topics in Biblical Theology from a Missiological Perspective	
Dissertation Writing		
ISCL 872	Foundations of Doctoral Research	3
ISCL 890	Ph.D. Dissertation Field Research	5
ISCL 891	Ph.D. Dissertation Proposal	3
Total Credits		60
