</table>
Carrying on a tradition of educational excellence that dates back over 100 years, Biola University now encompasses the following schools:

- Cook School of Intercultural Studies
- Crowell School of Business
- Rosemead School of Psychology
- School of Cinema and Media Arts
- School of Education
- School of Fine Arts and Communication
- School of Humanities and Social Sciences
- School of Science, Technology and Health
- Talbot School of Theology

Offering four baccalaureate degrees in 40 majors, 20 masters and eight doctoral degrees, Biola's commitment to academic excellence is firmly rooted in its adherence to an in-depth, knowledgeable and living Christianity. Each year, over 6,300 students find Biola's unique blend of faith and learning conducive to their academic and vocational goals.

Historical Sketch

Biola University traces its origins to the Bible Institute of Los Angeles established in 1908 by Lyman Stewart, founder and president of the Union Oil Company, and the Rev. T.C. Horton, two men of extraordinary vision and commitment to Christian higher education.

Dedicated to sharing and defending the Christian faith, Stewart and Horton established the Institute to educate and equip men and women to impact society at home and abroad with the truth of the gospel. The Institute’s influence was felt along the entire Western Seaboard from Mexico to Canada and across the Pacific to China. By 1909, over 540 extension courses were sponsored by the Bible Institute. In 1912, the school had grown sufficiently in its outreach and constituency to call R.A. Torrey, a leader in the field of Christian education, as its dean.

The cornerstone of the original Bible Institute building in Los Angeles was laid on May 31, 1913, and dedicated with these words from Stewart:

“For the teaching of the truths for which the Institute stands, its doors are to be open every day of the year, and all people, without reference to race, color or class will ever be welcome to its privileges.”

The following decades produced immense growth, development and outreach. Under the leadership of Dr. Louis T. Talbot, president from 1932 to 1935 and 1938 to 1952, the school moved from a two-year to a four-year program offering degrees in theology, Christian education, sacred music, and a one-year program in missionary medicine. By 1949, the Bible Institute had become a flourishing Bible college and in 1952 launched Talbot Theological Seminary to further serve the Christian community. Under Dr. Samuel H. Sutherland, who became president in 1952, the college continued to grow in size, programs and reputation. The demands imposed by the growing student body and the enlarged curriculum prompted the purchase of a 75-acre site in La Mirada in 1959, the same year it received accreditation from the Western Association of Schools and Colleges.

In the ensuing years, Biola College broadened its curricula in the arts, sciences, professions and seminary offerings while maintaining its strong foundation in biblical studies. Dr. J. Richard Chase became Biola’s sixth president in 1970, and continued to expand the program base, acquiring the Rosemead Graduate School of Professional Psychology in 1977. The undergraduate programs in psychology were merged with Rosemead’s graduate programs in the fall of 1981, forming the present Rosemead School of Psychology.

Biola College became Biola University on July 1, 1981, composed of the School of Arts and Sciences, Rosemead School of Psychology and Talbot Theological Seminary, later to become Talbot School of Theology. A year later, in 1982, Dr. Clyde Cook became the seventh president. The School of Intercultural Studies, with its outstanding program in world missions, was established in 1983 and renamed the Crowell School of Intercultural Studies in 2009. The School of Business was added in 1993 and renamed the Crowell School of Business in 2007. The School of Education was added in 2007. On May 11, 2007, the Board of Trustees selected the university’s eighth president, Dr. Barry H. Corey, to lead Biola into its second century. In 2016, Biola established a new school — the School of Science, Technology and Health.

Ranked by the Carnegie Commission on Higher Education as a Doctoral/ Research-Intensive Institution, Biola University offers more than 150 academic programs at the bachelor’s, master’s and doctoral degree levels. With an outstanding faculty, the university has distinguished itself in scholarship and academic excellence.

As it pursues an ambitious vision for the years ahead, the university continues to be recognized as a leader in Christian higher education. In 2014, Biola was ranked 10th on the list of America’s “up and coming” national universities by U.S. News and World Report and earned a position in the top tier of the prestigious national rankings. Meanwhile, enrollment continues to surpass 6,000 students — residential and online — with more students than ever seeking the benefits of a Biola education.

Since 1908, Biola has stood as a beacon of hope for the intellectual, spiritual and moral growth of its students. As the only national university to require a Christian commitment of its faculty, students and staff, Biola University is building on its legacy of impacting the world for the Lord Jesus Christ.

University Mission

The mission of Biola University is biblically centered education, scholarship and service — equipping men and women in mind and character to impact the world for the Lord Jesus Christ.

University Vision

The vision of Biola University is to be identified among the world’s foremost Christ-centered universities — a community abiding in truth, abounding with grace, and compelled by Christ’s love to be a relevant and redemptive voice in a changing world.

University Values

The values of Biola University are those essential things that guide how we carry out our mission. We summarize them in three words: Truth, Transformation and Testimony. Each value provides a focal point for the lifelong patterns we aim to develop in our students.

Truth: Patterns of Thought

We believe that participating in a Christian community of grace is important in the life of the believer. Our identity as children of the Triune God lies in our lives lived in and through community, holistic relationships, mutual interdependence upon the indwelling Spirit and members of the Body and seeking the unity of the Spirit.
We believe that through the renewing of the mind and care of the body we prepare our students to live within the culture in a loving and Christ-honoring way. Through a rigorous, Christ-centered and Spirit-led education we enable our students to grapple with and engage in the spiritual, intellectual, ethical and cultural issues of our time, their implications and application to everyday life.

We believe that through community and dependence upon the Spirit, character is sharpened and we grow in our ability to live our lives as the Lord Jesus Christ would. Interactions with fellow Christians provide one of the essential means of character development in the life of the believer.

We believe that integrity and authenticity should be hallmarks of every believer. Our relationships should be models of transparency, truth-telling and unwavering commitment to the example set by the Lord Jesus Christ.

**Transformation: Patterns of Heart**
Jesus Christ transforms individuals. As a Christ-serving university, the entire Biola experience is designed for life transformation in Christ. Our goal is that each graduate will have formed a personal value system — one that is firmly rooted in truth and is integrative, globally informed and compassionate — that will influence their lifelong affections, decisions and actions. Said differently, we want our students to develop patterns of heart that reflect the heart of God.

**Testimony: Patterns of Action**
Biola University's mission is to impact the world for the Lord Jesus Christ. This mission is fulfilled when our graduates demonstrate 'the obedience of faith' in service to others through words of wisdom, professional and personal competencies, hearts of compassion and acts of courage. We equip our students with patterns of action to lead in the face of unscripted problems for the good of a changing world, and to do so in the power of the Spirit, for the glory of God, to bring many to salvation in Christ.

**University Learning Outcomes**
Our mission and values provide the foundation for three University Learning Outcomes that all undergraduate and graduate degree programs are designed to support.

**University Learning Outcome 1:** Patterns of Thought - All students will be equipped with patterns of thought that are rigorous, intellectually coherent and thoroughly biblical.

**University Learning Outcome 2:** Patterns of Heart - All students will be equipped with patterns of heart that reflect the heart of God.

**University Learning Outcome 3:** Patterns of Action - All students will be equipped with patterns of action to lead in the face of unscripted problems for the good of a changing world.

**Accreditation and Affiliations**
Biola University holds institutional accreditation by the WASC Senior College and University Commission (1961). In addition, the institution and certain of its programs are accredited by:

- American Psychological Association (1980)
- Association of Collegiate Business Schools and Programs (1997)
- Association of Theological Schools (1977)

Biola University is authorized to train students under the Veteran's Bill of Rights. In addition, the university is affiliated with a number of professional organizations, of which the following are representative:

- American Anthropological Association
- American Association of Colleges for Teacher Education
- American Association of Collegiate Registrars and Admission Officers
- American Association of Health, Physical Education and Recreation
- American Association of Higher Education
- American Council on Education
- American Guild of Organists
- American Intercollegiate Athletic Women
- American Library Association
- American Psychological Association
- Associated Collegiate Press
- Association for Education in Journalism and Mass Communication
- Association of Christian Collegiate Media
- Association of Christian Schools, International
- Association of Collegiate Business Schools and Programs
- Association of College Unions International
- Association of Independent California Colleges and Universities
- Association of Schools and Colleges of Journalism and Mass Communication
- California Association of Health, Physical Education, and Recreation
- California College Media Association
- California Council on the Education of Teachers
- Choral Conductors' Guild (California)
- Christian Scholar’s Review
- College Entrance Examination Board
- Council for Christian Colleges and Universities
- Council on Post-secondary Accreditation
- Evangelical Press Association
- Evangelical Teacher Training Association
- Music Educator’s National Conference
- National Association of Intercollegiate Athletics
- National Communication Association
- Western Association of Graduate Schools
- Western Council on Higher Education for Nursing
- Western Interstate Commission for Higher Education
Biola University's Theological Positions

The Articles of Faith, presented here as originally conceived by the founders of the organization, have been and continue to be the stated theological position of Biola University and are an essential part of the Articles of Incorporation of the university. Where “man” is used referring to the human race it includes both genders.

Articles of Faith

Inasmuch as the University is interdenominational and yet theologically conservative, the Articles of Incorporation contain a doctrinal statement which is given below:

The Bible, consisting of all the books of the Old and New Testaments, is the Word of God, a supernaturally given revelation from God Himself, concerning Himself, His being, nature, character, will and purposes; and concerning man, his nature, need, duty and destiny. The Scriptures of the Old and New Testaments are without error or misstatement in their moral and spiritual teaching and record of historical facts. They are without error or defect of any kind.

There is one God, eternally existing and manifesting Himself to us in three Persons — Father, Son, and Holy Spirit.

Our Lord Jesus was supernaturally conceived by the power of the Holy Spirit and born of a virgin — Mary, a lineal descendant of David. He lived and taught and wrought mighty works and wonders and signs exactly as is recorded in the four Gospels. He was put to death by crucifixion under Pontius Pilate. God raised from the dead the body that had been nailed to the cross. The Lord Jesus after His crucifixion showed Himself to be alive to His disciples, appearing unto them by the space of forty days. After this, the Lord Jesus ascended into heaven, and the Father caused Him to sit at His right hand in the heavenly places, far above all rule and authority and power and dominion, and every name that is named, not only in this world, but also in that which is to come, and put all things in subjection under His feet, and gave Him to be Head over all things to the Church.

The Lord Jesus, before His incarnation, existed in the form of God, and of His own choice laid aside His divine glory and took upon Himself the form of a servant and was made in the likeness of men. In His pre-existent state, He was with God and was God. He is a divine person possessed of all the attributes of Deity, and should be worshiped as God by angels and man. “In Him dwelleth all the fullness of the Godhead bodily.” All the words that He spoke during His earthly life were the words of God. There is absolutely no error of any kind in them, and by the words of Jesus Christ the words of all other teachers must be tested.

The Lord Jesus became in every respect a real man, possessed of all the essential characteristics of human nature.

By His death on the cross, the Lord Jesus made a perfect atonement for sin, by which the wrath of God against sinners is appeased and a ground furnished upon which God can deal in mercy with sinners. He redeemed us from the curse of the law by becoming a curse in our place. He who Himself was absolutely without sin was made to be sin on our behalf that we might become the righteousness of God in Him. The Lord Jesus is coming again to this earth, personally, bodily and visibly. The return of our Lord is the blessed hope of the believer, and in it God’s purposes of grace toward mankind will find their consummation.

The Holy Spirit is a person and is possessed of all the distinctively divine attributes. He is God.

Man was created in the image of God, after His likeness, but the whole human race fell in the fall of the first Adam. All men, until they accept the Lord Jesus as their personal Savior, are lost, darkened in their understanding, alienated from the life of God through the ignorance that is in them, hardened in heart, morally and spiritually dead through their trespasses and sins. They cannot see, nor enter the kingdom of God until they are born again of the Holy Spirit.

Men are justified on the simple and single ground of the shed blood of Christ and upon the simple and single condition of faith in Him who shed His blood, and are born again by the quickening, renewing, cleansing work of the Holy Spirit, through the instrumentality of the Word of God. All those who receive Jesus Christ as their Savior and their Lord, and who confess Him as such before their fellow men, become children of God and receive eternal life. They become heirs of God and joint-heirs with Jesus Christ. At death their spirits depart to be with Christ in conscious blessedness, and at the second coming of Christ their bodies shall be raised and transformed into the likeness of the body of His glory.

All those who persistently reject Jesus Christ in the present life shall be raised from the dead and throughout eternity exist in a state of conscious, unutterable, endless torment and anguish.

The Church consists of all those who, in this present dispensation, truly believe on Jesus Christ. It is the body and bride of Christ, which Christ loves and for which He has given Himself.

There is a personal devil, a being of great cunning and power. “The prince of the power of the air” “The prince of this world.” “The god of this age.” He can exert vast power only so far as God suffers him to do so. He shall ultimately be cast into the lake of fire and brimstone and shall be tormented day and night forever.

Statement of Biblical Principles

Preamble

In continuity with centuries of Christians before us, we believe God’s vision for humanity, as embodied in the person of Jesus Christ and illuminated by the Holy Spirit through Scripture, is a source of great joy and provides the best understanding of life’s meaning and human flourishing.

From this overarching belief flow the affirmations of our unchanging Articles of Faith — which fix us inextricably to our doctrinal core — as well as the following biblical principles, which express Biola University’s convictions about how a biblically faithful university in the 21st century should manifest the gospel of Jesus Christ in how we live, learn and serve in God’s world.

In articulating our community’s biblical principles, categorized below in three sections, we acknowledge that some propose different ways to understand the Bible. We respect and protect the freedom of communities in a pluralistic society to differ on these matters. We do not seek to impose our convictions on other communities, and we also expect others will respect and protect the freedom of our community to believe and live as we do.

Biola University is a Christian community. Everything we do is framed by the reality that the Triune God, who reigns supreme over the immense universe, desires a personal relationship with us. He makes this possible by offering salvation that is initiated by the Father, secured by the Son and applied by the Spirit.

Two words sum up the Good News that has guided Biola University since our founding in 1908: Jesus saves. The implications of these words are
both intimate and vast. Jesus saves us individually, but Jesus also saves the world. Nothing in creation is too broken, too depraved, too ruined to be redeemed by Jesus. In Christ, and in Him alone, there is new hope, new life, new creation.

Jesus saves. They are the words that hold us, Biola University, together as a community of faith united in Christ, clear on who we are to be and how we ought to live.

I. God’s Intentional Design for Life
We believe God created all things and set in place the laws of nature, not according to random chance but according to His perfect, miraculous, and purposeful plan. Our understanding of the origin of life is enhanced by scientific observation, but not limited to material processes. The existence of the world cannot be explained adequately apart from the intelligent exercise of God’s supernatural power.

God created the natural world and called it “good,” and after he created male and female he declared his creation “very good.” The man, Adam, was formed by the Lord God from the dust of the ground and not from living ancestors, and God breathed into him the breath of life so that Adam became a living being. The woman, Eve, was created from Adam’s side with both made in the image of God.

We recognize that part of God’s good design is the way he created male and female in his image to flourish in community. In the beginning, God designed marriage as a covenantal bond between one man and one woman, which is affirmed by Jesus in the New Testament. It is in this marriage union that God blessed a special spiritual, emotional and sexual intimacy for joy, satisfaction and procreation. Further, we believe God’s intent for sexual intimacy is to occur only in the covenant of marriage between a man and a woman.

II. God’s Sacred Value for Life
We believe that our biblical calling to be good stewards of creation involves cultivating a sense of awe and reverence at the sacred mystery of human life made in the image of God. God is glorified by the rich mosaic of human cultures and ethnicities since men and women reflect his image and are equally precious in his sight. All human beings are created with intrinsic dignity and importance. There are no exceptions.

This understanding of human worth begins with the recognition that conception marks the start of human life and full personhood. Each person possesses a right to life and protection from harm. We uphold the value God has given to humanity by protecting the worth of persons from their beginnings until their final breaths. We are opposed to the taking of innocent life, from abortion to euthanasia.

Seeing human life as a seamless tapestry, we affirm the personhood and dignity of those who are medically and socially marginalized. Our vision of social justice is rooted in a biblical calling to care for vulnerable members of our society.

III. God’s Final Plans for Life
God is the sovereign author of history. He is working all things toward the promise of Christ’s return to earth in power and glory as He judges the world in righteousness to bring an end to evil and to rule and reign in the new heaven and new earth as the eternal dwelling place for the redeemed. As the redeemed, we faithfully live out God’s calling to grow in Him, to obey His commands, to delight in Him, to steward His creation and to make disciples of all nations.

Because of our new life in Christ, we are empowered by the Holy Spirit and compelled by the hope of Christ’s return to live with purpose and urgency to fulfill His mission. God’s great love for the world calls us to proclaim in word and deed the good news of salvation through faith in Christ. We also live out the fullness of life in Christ by working for justice, peace and reconciliation in His name. As the Body of Christ — the Church — we seek to bear witness to the coming Kingdom of God in every dimension of our lives as part of the gospel announcement that Jesus saves.

Teaching Position on Eschatology
Biola University holds to the following teaching position on eschatology:

In fulfillment of God’s historical purpose for humanity to rule and establish God’s kingdom on earth (Gen. 1:28; Ps. 8:4-6; Matt. 6:10; Heb. 2:6-9), the Scriptures teach a millennial reign of Christ with His saints on earth following His literal return. The nation of Israel, having been redeemed, will play a central role in bringing the blessings of salvation to all nations during the millennium in fulfillment of biblical prophecies (e.g., Is. 2:1-4; 11:1-12; Jer. 23:5-6; Ezek. 37; Amos 9:9-15; Zech. 14; Matt. 19:28; Acts 1:6; 3:19-21; Rev. 20:4-6). Following the millennium, this kingdom will be merged into the eternal kingdom (I Cor. 15:22-28).

Before these millennial events, the believers will be caught up to meet the Lord in the air (I Thess. 4:13-17). The time of this “rapture” is unknown, and thus believers are to live constantly watchful and ready.

Teaching Biblical Studies
Academic study of the Bible differs from other disciplines in a university setting in that the primary text is God’s Word, which underscores the importance of making instruction relevant to faith, learning and living. At Biola, every effort is made to be academically credible, theologically orthodox and practically relevant. Whether engaged in a critical discussion of the text, or a theological debate about a particular doctrine, the discussion must finally come to the meaning for life today.

Though faculty members in all departments share a commitment to the convictions reflected in the university doctrinal statement, they reflect a healthy diversity regarding other contemporary issues and interpretation of specific passages. Whether a divergent view is held by others on campus or not, care is taken to represent opposing positions fairly, so that students can decide for themselves in a genuine educational environment.

In practice, the task of teaching biblical studies is not limited to those within that department. Rather, the integration of Christian thought into all fields of inquiry is the goal of the entire teaching faculty. In this sense, it is desired that every course contribute to the development of a Christian worldview for the Biola graduate.

Diversity Statement
We believe that Biola University has been uniquely situated within a geographic region of great diversity in language, culture, and ethnicity for the purpose of fulfilling its mission of biblically-centered education, scholarship and service.

Within this cultural milieu the University is called not only to respect this diversity, but to reflect it as well, for Christ intends His Church to be a multi-ethnic, multicultural, and multi-national body of believers.

We believe it is our purpose, therefore, to create an environment in which all believers, regardless of race, color, national origin, gender, age, economic status or physical ability, can pursue knowledge and personal development as they strive to become all God intends them to be.
To read Biola’s Theological Statement on Diversity and watch a video on why diversity is a value at Biola, please visit Biola’s Diversity website (https://www.biola.edu/about/diversity/).

Chapel
University chapels and conferences are intended to bring the Biola community together regularly for worship, spiritual nurture and education regarding relevant issues facing us in our lives. The overall program brings a unique distinction to the ethos of Biola as a Christian university. Due to the central and significant nature of that ethos, attendance at chapel is required of all students. See the Spiritual Development website (https://www.biola.edu/spiritual-development/) for additional information.

The Community of La Mirada
The city of La Mirada is in Los Angeles County, 22 miles southeast of downtown Los Angeles, and is surrounded by such cities as Whittier, Norwalk, Buena Park, La Habra and Fullerton. La Mirada is a suburban residential community with a population of 51,263. Included within the vicinity are several major shopping areas in addition to many other business establishments.

La Mirada is situated near many of the outstanding attractions of Southern California. Downtown Los Angeles is a 30-minute drive from the campus. Disneyland is 12 miles to the southeast and famed Knott’s Berry Farm is six miles away. Within a 30-minute drive are such popular beach cities as Long Beach, Newport Beach, Huntington Beach and Laguna Beach.

Recreational facilities are easily accessible. An 18-hole golf course lies a mile east of the campus and other parks in the area offer opportunity for activities and relaxation. La Mirada’s Regional Aquatic Center, Splash, is an 18-acre site with heated 50-meter and 25-yard pools open year round, and a water park with a lazy river and slides open during the summer. An hour’s drive will take one into the nearby mountains where winter sports are available.

Cultural and research opportunities abound in the area. Several major universities and libraries are within easy driving distance of La Mirada including the University of California, Los Angeles; the University of Southern California; the University of California, Irvine; and several other state and private institutions.

The Biola University Campus
Biola’s main campus address is: Biola University, 13800 Biola Avenue, La Mirada, CA 90639. The campus is bounded on the west by Biola Avenue and on the east by La Mirada Boulevard. It is located between the large east-west thoroughfares of Rosecrans Avenue and Imperial Highway. Approximately three miles to the southwest is the Santa Ana Freeway (Freeway I-5).

Students coming to the campus by automobile should follow these directions to the main entrance on Biola Avenue:

- Coming from the northwest, leave the Santa Ana Freeway at Rosecrans and travel east to Biola Avenue. Then, turn left on Biola Avenue.
- Coming from the southeast, leave the Santa Ana Freeway at Valley View Avenue and travel north to Rosecrans Avenue. Then turn right on Rosecrans Avenue to Biola Avenue, then turn left on Biola Avenue.
- Coming from the east via San Bernardino Freeway (10) turn south on the Orange Freeway (57) to Imperial Highway and travel west on Imperial Highway (approximately nine miles) to Biola Avenue, then turn left on Biola Avenue.

The campus consists of 95 acres with more than 1 million square feet of building space in 40 major buildings. Just under half of the space is dedicated to 10 student residence complexes, housing 2,500 students in a fine variety of living quarters. The city of La Mirada has been home to Biola since 1959, and the campus has developed in several waves of construction. The most recent surge of buildings has covered the past 10 years, starting with the opening of a new library designed to provide the technology of a 21st century university — combining the best of books and computers in a variety of beautiful and functional research spaces. The building that formerly served as a library was remodeled to provide upgraded space for Rosemead School of Psychology. Major residence halls were added in 2003 and 2006, and the central dining hall was expanded and completely remodeled in 2005. Two entirely new classroom and faculty office buildings were added. First, in 2007, was a new building for the Crowell School of Business, featuring 12 classrooms with both wireless and hard-wired computer networking. Six of the classrooms offer tiered seating designed to support graduate and upper-division courses. The building also houses the faculty and administrative offices of the Crowell School of Business. In Fall 2011, Talbot East was built, which houses a portion of the Talbot School of Theology, and it includes eight classrooms, 29 faculty offices, a prayer chapel and an outdoor sunken plaza. The newest classroom building, completed in Fall 2017, houses the School of Science, Technology and Health. The Alton and Lydia Lim Center represents the beginning of an exciting new era for science education at Biola. The 91,200 square-foot center features 27 laboratories, six classrooms, a human anatomy suite and a dedicated SEM (scanning and electron microscope) lab and TEM (transmission electron microscope) lab, and state-of-the-art technology.

Athletic and recreational facilities have grown and been upgraded, including a completely refurbished swimming pool; six lighted tennis courts, softball and baseball diamonds; lighted outdoor courts for basketball and sand volleyball; an archery range; a well-equipped fitness center; an expanded gymnasium, and a natural turf soccer practice field. An innovative addition in 2004 was a raised synthetic turf soccer field with a three-lane, all-weather jogging track around it and a 500-car parking garage below. The field is lit for night play. In addition to more than 15 acres of recreational facilities on campus, there are off-campus facilities in the 105-acre La Mirada Regional Park, just across La Mirada Boulevard from the Biola campus.

To help meet the growth of the past 10 years, a five-story, 780-car parking structure was opened in 2011, and Biola has also purchased several nearby buildings outside of the main campus and has leased a former elementary school building less than a mile south of campus. The Biola Professional Building is located less than half a mile from the northern edge of the main campus. To the southwest of the campus, less than a mile away, are nine apartment complexes owned and operated by Biola. These include a mixture of undergraduate, graduate and married-student housing.

Biola Educational Centers
Biola offers courses for many programs at various extension sites including:

- Chiang Mai, Thailand
  Intercultural Studies, M.A.
Intercultural Studies, D.I.S.
Intercultural Education, Ph.D.
Intercultural Studies, Ph.D.

Saint-Léger-La Chiésaz, Switzerland
Intercultural Studies, M.A.
Intercultural Studies, D.I.S.
Intercultural Education, Ph.D.
Intercultural Studies, D.I.S.

Kyiv, Ukraine
Biblical and Theological Studies/Diversified, M.A.
Intercultural Studies, M.A.
Intercultural Studies, D.I.S.

New York City, New York
Messianic Jewish Studies, M.Div.

For further information regarding Biola’s educational centers, contact the Office of Admissions.

The Library

The Biola University Library is committed to outstanding SERVICE to our users, responsible STEWARDSHIP of our resources, and an enduring support of SCHOLARSHIP. The Library serves Biola University as the campus’s central research hub, supporting all undergraduate and graduate programs with extensive information resources and a wide variety of services. Opened in the Fall of 2001, our 98,000 square foot, tri-level Library, located on the campus quad, integrates traditional print, online, and multimedia resources. The Library provides an environment that respects the privacy of individual scholars while facilitating dynamic, interactive, collaborative learning groups. Both the Library infrastructure and personnel are poised to keep pace with the growth of the university for many years.

The Library’s quiet, two-story Fluor Reading Room offers comfortable lounge seating, generous study tables and a grand piano used for special events. There are 22 group study rooms that can be reserved online. Each contains seating for six or eight patrons and a whiteboard. The building provides space for over 1022 individual study stations at carrels, tables and casual lounge reading seats, and wireless network connectivity is available throughout the Library. The upper-level Study Terrace and the middle-level Giumarra Courtyard offer more than 100 outdoor landscaped study spaces with wireless network connectivity, and study bikes next to the Study Terrace offer a unique study environment to strengthen both mind and body. At the entrance of the Library, the Heritage Cafe provides an informal setting for study, fellowship and nutrition breaks. The Library also hosts two computer classrooms: one with 35 PCs and one with 24 Macs; The Rhetoric & Writing Center, the Office of Faculty Development, The Learning Center, and a Test Proctoring Center. Works of art and the graphic presentation of Scripture on the theme of light contribute to the dynamic intellectual environment. The Library also hosts events such as book talks, lectures, music recitals and art exhibits, curated by the Art Department, several times each year.

In addition to a growing collection of more than 230,477 print volumes and over 600,000 ebooks, the library currently offers access to more than 87,000 periodical titles. Furthermore, the Library has a robust selection of electronic resources that are available off campus to current students, staff, and faculty. Alumni also have off campus access to selected databases. The collection also includes thousands of CDs and DVDs that support Biola’s academic programs, and a dedicated curriculum section for teacher education. The Library offers adaptive technologies, fee-based photocopying and printing, free scanners, and microform readers to facilitate resource use. The diverse collection reflects Biola’s enthusiasm and scholarly commitment to the integration of faith and learning in all academic disciplines.

The Library provides access to its holdings through a Discovery Service (“Search Everything”), library catalog, and databases. All are accessible via the Library website (https://www.biola.edu/library/). Current students, staff, and faculty have access to our full suite of electronic resources on and off campus via their netID and password. Additionally, alumni have access to selected databases off campus. The Biola Archives and Special Collections are housed in the Biola Library. The Archives contains unique collections and materials of Biola’s past. Prominent collections in Archives include the papers of Lyman Stewart, Samuel Sutherland, and records of the Hunan Bible Institute. Our Special Collections include rare books, faculty publications, and the largest Christian Comic Book collection in higher education.

The Library is a gateway to the world of information and knowledge. It offers trained reference help at posted times to connect patrons to our own and other relevant library resources throughout the world. Reciprocal direct borrowing allows eligible students, staff, and faculty to access libraries across California and the United States. Interlibrary loan services facilitate borrowing resources from thousands of libraries around the world. Biola Library provides access to a full suite of databases and other digital resources. The Biola Digital Commons (digitalcommons.biola.edu (https://digitalcommons.biola.edu/)) offers free online access to Biola’s history, including lectures, messages, and sermons by Charles Feinberg, Louis Talbot, various Biola professors, and others. Also included is the Biola Hour, Hunan Bible Institute papers, historical photos and films, Biola Broadcaster, Kings Business, and other historical documents, broadcasts, and publications.

Nine professional librarians, a well-qualified paraprofessional staff, and many able student assistants provide service more than 105 hours per week during the regular campus semesters with additional late-night hours during finals and adjusted schedules of service available year round. The Reference Desk provides library and research assistance in person and via live chat, phone, email, and SMS text. The Library is active on a wide variety of social media platforms including Facebook, Twitter, and Instagram. Due to our commitment to serving our patrons many of our services and resources are available 24/7/365 for those with Internet access and active NetIDs and passwords.

Tech Commons

The Tech Commons (https://www.biola.edu/directory/offices-services/tech-commons/) located on the middle level offers a variety of audio-visual resources and technical help to enhance the quality of communication and instruction by faculty and students. The Tech Commons is staffed by helpful IT student employees ready to assist students with personal computers and software applications. In addition, the Tech Commons helps the entire Biola community with printing, copying, and using public computers in the library. We also process media equipment loans for faculty, staff, and students.

Center for Christian Thought

The mission of the Center for Christian Thought (CCT) is to facilitate, promote and disseminate biblically informed thinking and scholarship about timely issues in service to the Academy, the Church, and Culture.

The Center awards fellowships and supports collaborative endeavors for engaging a variety of critical themes. The Center seeks to promote
multi-disciplinary conversation within Biola's faculty community and to attract engaging thinkers from around the world. See the CCT (http://cct.biola.edu/) website for additional information.

**Center for Christianity, Culture and the Arts**

The Center for Christianity, Culture and the Arts (CCCA) is a valuable and innovative resource for artists, academics, theologians and anyone interested in exploring the relationship between art, culture and faith. The CCCA is distinguished by its commitment to the full range of the arts, its emphasis on multidisciplinary collaborations and discussions, and its focus on making a variety of resources and original content easily accessible at the CCCA website (http://ccca.biola.edu/).

**Center for Marriage and Relationships**

The Center for Marriage and Relationships (CMR) exists to build and sustain healthy relationships and marriages at Biola, in the church and broader culture. Our mission is to combine the timeless, cross-cultural wisdom of Scripture with scholarly research, insights, and tools. We provide a safe place for students, couples and families to share their stories and be heard. And, we desire to restore and inspire a vision of marriage that reflects the Biblical model of Christ's redeeming love for the church. See the CMR (http://cmr.biola.edu/) website for additional information.

**Digital Learning**

At its essence digital learning is the design and delivery of an intentional learning experience for students who are not physically present with the instructor for the entirety of the course. The course may be delivered either entirely online; or as a hybrid or blended course, conducted both online and in a physical classroom.

Biola University offers online and hybrid courses at both the undergraduate and graduate levels. These courses contribute to the development of degree programs, and some certificate and degree programs are offered entirely online. The objective of Biola digital learning courses is to provide technology that meets students' needs for time and convenience and to create additional local and/or global opportunities for students to attend Biola University. The methods used are aimed at delivering the highest possible learning outcomes in the digital learning modality and to contribute to the vision and mission of the university.

Digital learning courses are designed to maximize instructor/student and student/peer relationships through effective collaborative instructional tools and methods. Each course endeavors to create a cooperative and interactive experience where students actively engage in the learning process. Relationships and learning outcomes are equivalent to those of traditional, in-person courses and programs. Professors add value to online classes by demonstrating content expertise and sharing their practitioner experience. They also serve as facilitators of discussion and of the learning process by actively engaging students, stimulating critical thinking, and encouraging practical application.

**Summer Session**

For our traditional graduate and undergraduate programs using a semester academic schedule, a continuing Summer Session program provides students with the opportunity for a greater degree of flexibility in planning their total program. Students may enrich their course of study and reduce the overall time spent in the classroom or decrease their regular course load by careful selection of Summer Session courses.

Visiting students find it refreshing to study in a different atmosphere and perhaps a different locale, and entering students find it helpful in gaining advanced standing. Courses of study may be applied to both the degree and the teaching credential programs. Instruction is offered in standard courses by the Biola faculty and capable visiting professors. Certain courses or workshops may be offered during Summer Session that are not listed in this catalog. These may be innovative courses created in response to current topics or specialized needs.

Strategic summer course enrollment for 9-12 credits per summer can substantially reduce the time to degree and total degree cost for most of our undergraduate majors. Optional course schedule plans for such strategies are available in the various department offices and on the Majors, Degrees and Programs website (https://www.biola.edu/academics/majors-programs/). The sustained effort resulting in reducing time to degree requires self-discipline, motivation, and focus. Discussing degree planning with a student's academic advisor is strongly recommended.

Courses regularly offered in summer cover the areas of art, Bible, theology, history, literature, mathematics, philosophy, psychology, biological science, sociology and other subjects, including education courses for teaching credential candidates. Both in-class and online courses are available every summer session. Graduate courses in education, intercultural studies, theology and psychology enable graduate students to continue their programs during the summer months. Registration for summer opens in November and remains available through the spring semester. Also available during the summer are several different opportunities for national and international travel courses integrating faith and learning through experiential education. Current summer study tours are listed under programs on the Study Abroad website (https://www.biola.edu/studyabroad/).

Tuition, and room and board during Biola’s Summer Session are lower than regular charges at private colleges. See catalog section on financial information for Summer Session tuition. Visiting students need to obtain a Special Student Status Application from the Office of Admissions. Admission to the Summer Session program does not presuppose or grant acceptance to the University for the regular school year. For further information, please contact the Office of Admissions.

For our programs using a trimester academic schedule, Summer Session is a regular term and continuing enrollment is required for the program. Course offerings and requirements information will be available in descriptions of the specific program.

**Army ROTC**

The Army Reserve Officer Training Corps program is available to all students of Biola University through the Department of Military Science of California State University, Fullerton. Army ROTC provides scholarships and challenging leadership training. The curriculum includes rappelling, physical fitness development, practical application of managerial techniques, and classes in military history and tactics. Army ROTC also allows students to pursue commissions in the U.S. Army.

**Programs**

The Military Science program focuses on academics, teamwork and physical fitness, and is integrity-based with a mentorship program in place to support all cadets. Military Science provides a dynamic dimension to the University by offering an unmatched hands-on leadership and management education. Military Science is also a University endorsed coed club and offers various extracurricular teams.
and activities such as 'Ranger Challenge' (inter-collegiate competition based on physical fitness and agility, rifle marksmanship and map reading/land navigation), paint ball, one field training exercise (overnight bivouac) per semester, rappelling demonstrations and a color guard team (presents flags at ceremonies and events), as well as several other exciting activities. All curriculum and activities are designed to build and enhance leadership, management skills, and team-building skills that apply to Military and civilian sectors, and last a lifetime.

**Scholarship**

Military Science courses are accredited and available to students in all academic disciplines. Full-time students are also eligible to enroll as cadets in accordance with the University and Department of Defense policies. Several competitive financial assistance programs are available, which include: four-, three- and two-year scholarships; books and fees; Reserve forces and National Guard duty; GI Bill®; and loan repayment options. Additionally, scholarship recipients and advanced course students earn up to $500 per month in stipends. Upon successful completion of the two- or four-year Reserve Officers Training Corps program, cadets are commissioned as second lieutenants in the United States Army, United States Army Reserve or United States Army National Guard.

**Four Year Program**

This program is composed of a lower-division Basic Course and an upper-division Advanced Course. The Basic Course refers to first- and second-year courses that are designed for beginning students who want to try ROTC without obligation. Once the Basic Course is completed, student qualify for entry into the upper-division Advanced Course, which prepare them to be commissioned as officers in the United States Army, the Army Reserves or the Army National Guard. Upon entry into the Advanced Course, cadets are required to sign a contract with the department of the Army agreeing to complete the ROTC program and accept a commission as a second lieutenant. Once the contract is signed, Advanced Course cadets will receive up to $500 per month, along with free uniforms and equipment for all Military Science courses.

**Two Year Program**

This program is for those students who have at least four semesters of work remaining on campus as either an undergraduate or graduate student, and who did not participate in ROTC earlier. These students enter the Advanced Course of the program after attending a four-week, all expenses paid, summer leadership internship or providing proof of completion of Military Basic training or three years JROTC. Students enrolled in the two year program are eligible for contracting under the same benefits, requirements and guidelines as the four year students.

**International Learning Opportunities in Military Science and Army Schools**

Summer internship program is an overseas culture immersion internship aimed at broadening the cultural understanding of junior officers. Since the Army is in a number of countries across the world, it is critical that young officers understand different cultures to ensure the building of strong relationships. Advanced course students have an opportunity to attend overseas Cadet Troop Leadership Training (CTLT) for three weeks between their junior and senior years. CTLT gives cadets a chance to serve as acting platoon leaders with an actual active duty U.S. Army unit. Many of the CTLT positions are with overseas units in Korea and Europe. Additionally, commissioned second lieutenants selected for active duty will have the opportunity to serve at duty stations all over the world, work with fellow Military officers from other countries, attend foreign Military schools and immerse themselves in the culture of their host nation while they live and work there. Interested contracted cadets with strong cumulative grade point averages and who are physically fit have the opportunity to be sent to a three-week Army Airborne school or the 10-day Air Assault School.

Further Information: Biola University students who desire more information regarding this program may email (armyrotc@fullerton.edu) or call at (657) 278-3007.

**Air Force ROTC**

Through arrangements with Loyola Marymount University (LMU) in west Los Angeles, and the University of Southern California (USC) students may participate in the Air Force Reserve Officer Training Corps (AFROTC) program. Aerospace Studies classes and Leadership Laboratories are conducted at various times during the week on the main campus of LMU and USC. AFROTC offers a variety of two-, three- and four-year scholarships, many of which pay the full costs of tuition, books, and fees. Successful completion of as little as four semesters of AFROTC academic classes and leadership laboratories can lead to a commission as a second lieutenant in the United States Air Force.

Classes consist of one hour of academics and two hours of leadership laboratory for freshmen and sophomores; three hours of academics and two hours of leadership laboratory for juniors and seniors. AFROTC cadets under scholarship and all juniors and seniors receive a monthly tax-free stipend and textbook allowance. No military commitment is incurred until entering the last two years of the program (Professional Officer Course) or accepting an AFROTC scholarship.

For more information, contact the Department of Aerospace Studies (AFROTC) at one of the following universities: Loyola Marymount University at (310) 338-2770, or University of Southern California at (213) 740-2670.

**Disclaimer**

Biola University reserves the right to change any and all student charges, modify its services, or change its curriculum or programs of study should economic conditions, curricular revisions, or other relevant factors make it necessary or desirable to do so. While every effort is made to insure the accuracy of the information in this catalog, Biola University has the right to make changes at any time without prior notice.

**Financial Information**

Biola University seeks to provide a quality education for all its students at the most reasonable cost possible. As a private, nonprofit institution, Biola University receives no support from taxes or other public funds. Tuition paid by the students does not cover the costs of providing a quality education. Consequently, every student who attends Biola University receives a substantial subsidy made possible by the gifts of alumni, individual friends, interested churches and, in a few cases, businesses and corporations.

The expenses of students at Biola University are shown in the following schedules and in the individual course descriptions listed in this catalog. The University reserves the right to change all student charges, modify its services, or change its programs of study should economic conditions, curriculum revisions or national emergency make it necessary to do so.
Financial Information

Application Fee
An application fee of $45, for undergraduate study, must accompany each application. This fee is non-refundable. Applications for Spring received after December 1, or for Fall received after March 1 must be accompanied by a fee of $10, bringing it to a total of $55.

An application fee of $65, for graduate study, must accompany each application.

Any prorated adjustments due to cancellations or changes of meal plans will be reflected on the student's account. All questions regarding meal plan changes, meal plan billing, etc. need to be addressed to the Auxiliary Operations Manager, in Auxiliary Services at (562) 944-0351, ext. 5813 or dining.services@biola.edu. (dining.services@biola.edu)

Graduate Student Housing Rates
Biola provides furnished housing for single graduate students in on-campus suite-style rooms and in off-campus houses owned by the University. The per month rate is based on the number of occupants per bedroom. Unfurnished one-and two-bedroom units located in two complexes near campus provide housing for couples and families at a per apartment, per month rate. For information on availability, locations and rates, contact Auxiliary Services at grad.housing@biola.edu or at (562) 944-0351, ext. 5814.

Furnished Single-Student Housing

| Sigma Grad Floor (Single Occupancy) | $730/person/month |
| Sigma Grad Floor (Double Occupancy) | $575/person/month |
| Grad House Single Occupancy         | $740/person/month |
| Grad House Double Occupancy         | $585/person/month |

Unfurnished Apartments (Married & Family)

| One Bedroom                          | $1,155/month |

Upon notice of acceptance, an enrollment deposit is required. 1 For all incoming undergraduate students, this deposit is non-refundable after May 1 (Fall) and January 1 (Spring). For incoming graduate students, the deposit is non-refundable if the student does not enroll in and complete a term at Biola. When enrolled students who have completed the term for which they applied, officially withdraw, their enrollment deposit will be

applied to any balance owed at the time of departure, or will be refunded if their account is paid in full.

Biola undergraduate students accepted into a Biola graduate program must submit a graduate deposit to ensure a place as a Biola graduate student.

Required of all students taking 7 credits or more, or if living arrangements are in housing with a residence life program. Students that are enrolled in an acceptable private health insurance plan can submit their insurance information to Biola University in order to apply for waiver of the Student Injury and Sickness Insurance Plan. Students that desire to apply for waiver must do so at the time of enrollment. Fees are subject to change.

**Special Fees – Undergraduate**

There are special fees for specific labs, clinics, physical education/recreation and camping courses, etc. See course descriptions for fees.

| Class and Laboratory Fees (varies) | $5-$575 |
| Class Travel Fees (varies) | $100-$200 |
| Bible, Theology, and Ministry Majors Activities Fee | $150 |
| Elementary Greek Grammar Challenge Exam | $100 |
| Language Proficiency Exam | $50 |
| Nursing Application Fee | $100 |
| Nursing Late Application Fee | $50 |
| Nursing Activity Fee (per semester/year) | $27.50/$55 |
| RN-BSN Portfolio Evaluation for Credit | $350 |
| LVN-BSN Portfolio Evaluation and Skills/Simulation Testing | $350 |
| Military Veteran Portfolio Evaluation for Credit | $350 |
| Prior Learning Assessment Portfolio Fee | $150 |
| Prior Learning Assessment Portfolio Resubmission Fee | $75 |
| CSICS Community Enhancement Fee | $140 |
| Proctor Exam Fee | $20 |

**Special Fees – Graduate**

| Talbot New Student Fee | $75 |
| MBA and MM Programs Fee (per term) | $40 |
| MBA and MM Orientation Intensive Weekend Fee | $575 |
| Doctor of Ministry Program | |
| Program Enrollment Fee (non-refundable) | $500 |
| Graduate Psychology Program Internship Fee (per semester) | $1,200 |
| Professional Growth Fee (per semester) | $645 |

Note: Students in the Psy.D. or Ph.D. programs pay the fee for a total of eight semesters, including those students who enter Rosemead with transfer credit. This money is disbursed on behalf of the student to assist in paying for the therapy requirements throughout the program.
Thesis/Dissertation Binding: Optional through outside vendor; cost variable.

Microfilming/Indexing: Publishing through outside vendor is required. Options and fees vary depending on program and the publishing options chosen. Please see your thesis/dissertation administrator for more information.

Music Fees
Private Study Per Credit: One credit guarantees a minimum of 13 one half-hour lessons for the semester. In some cases, up to 15 lessons may be possible.

Fee includes the privilege of using practice room one hour per day, per credit.

Private Study Per Credit

| One Credit (one half-hour lesson per week) | $356 |
| Two Credits (one hour lesson per week)    | $712 |

Recital Fees

| Junior Recital Fee                  | $43  |
| Senior Recital Fee                  | $65  |

Class Instruction

| Voice or Guitar (MUSC 104)          | $97  |
| Advanced Guitar I and II            | $43  |
| Keyboard (two hours per week)       | $135 |
| Chorale                             | $125 |
| Women's Chorus                      | $40  |
| Men's Chorus                        | $40  |
| Symphonic Winds                     | $130 |
| Music History (MUSC 307, MUSC 308, MUSC 309, MUSC 312) | $43 |
| Music Cultures of the World         | $32  |

Typical Costs
The combination of tuition, fees and associated expenses at Biola University requires students to carefully calculate their financial resources and costs. The following estimated student budget reflects the average cost to full-time students for the 2020–21 academic year (nine months):

Undergraduate
(Based on 12–18 credits per semester, $1,813/credit.)

| Tuition and Fees                  | $43,512 |
| Room and Board                    | $10,560 |
| Books and Supplies                | $1,970  |
| Personal/Misc.                    | $2,852  |
| Transportation                    | $864    |
| Total                             | $59,758 |

Graduate: Talbot Master's Programs
(Based on 9 credits per semester, $654/credit.)

| Tuition and Fees                  | $11,772 |
| Room and Board                    | $15,562 |
| Books and Supplies                | $1,970  |
| Personal/Misc.                    | $3,784  |
| Transportation                    | $864    |
| Total                             | $33,952 |

Graduate: Psychology
(Based on 9–16 credits per semester, $1,233/credit.)

| Tuition and Fees                  | $30,744 |
| Prof. Growth Fee                  | $1,290  |
| Room and Board                    | $15,562 |
| Books and Supplies                | $1,970  |
| Personal/Misc.                    | $3,784  |
| Transportation                    | $864    |
| Total                             | $54,214 |

Payment Information
A student's account must be paid in full prior to re-enrollment in subsequent sessions. Transcripts are withheld if a student has an outstanding obligation to the University or is in default on any government-based loan.

A minimum down payment of 50% is due each semester to complete enrollment, with the balance due according to the payment plan. The down payment includes 50% of the balance of tuition, class fees, room, meals, parking permit and health insurance charges less authorized financial aid. Please note that the down payment is calculated on the balance after financial aid is applied.

Down payments may be estimated using the online down payment worksheet (http://offices.biola.edu/accounting/costs/down-payment/?_ga=2.194217069.1945330518.1515448647-317964312.1511137632/).

Biola offers four payment options:

One Payment (100%)
- Payment is due in full by August 18 for Fall, December 15 for Spring, and May 4 for Summer.
- No fees.
- No payment plan necessary.

Two Payments (2 x 50%)
- Two payments of 50% due August 18 and September 17 for Fall; December 15 and January 15 for Spring; and May 4 and June 15 for Summer.
- $35 plan fee.
- A late fee of 1.0% is assessed monthly on the account balance if payments are late.
- Student must enroll in the payment plan online.
Three Payments (50% x 25% x 25%)
• 50% due August 18, 25% due September 17 and October 15 for Fall; 50% due December 15, 25% due January 15 and February 16 for Spring; (not available for Summer terms).
• $85 plan fee.
• A late fee of 1.0% is assessed monthly on the account balance if payments are late.
• Student must enroll in the payment plan online.
• Please note that this payment plan is not available for students enrolling in off-campus programs.

Four Payments (4 x 25%)
• Monthly payments of 25% due July 15 – October 15 for Fall semester; November 16 – February 16 for Spring semester; (not available for Summer terms).
• $85 plan fee.
• Enrollment is not complete until 50% of charges less aid is received.
• A late fee of 1.0% is assessed monthly on the account balance if payments are late.
• Student must enroll in the payment plan online.
• Please note that this payment plan is not available for students enrolling in off-campus programs.

Payments may be made online or mailed to:
Biola University
Cashier Office
13800 Biola Avenue
La Mirada, CA 90639

Student name and ID number must be noted on payments mailed to the University. Please be advised that your check payment may be converted to an ACH transaction.

Trimester Programs
Classes for Session A of the term must be paid in full in order to attend classes for Session B of the term. Unpaid accounts may result in administrative withdrawal from the university.

Finance Charges
For outstanding balances on student accounts not covered by a payment plan, a finance charge of .83% monthly (10% APR) will be assessed.

Refunds: Withdrawal
Inasmuch as faculty engagements and other commitments are made by the University for the entire year in advance, the following refund schedule has been established in order that the University and the student may share the loss equitably, when it is necessary for a student to withdraw from school.

Refund Policy
Tuition: pro-rated as of end of week in which student withdraws.

<table>

| Week 1 | 100% |
| Week 2 | 80%  |
| Week 3 | 70%  |
| Week 4 | 50%  |
| Weeks 5–7 | 0% |

• First-time students receiving Federal Student Financial Assistance are subject to the Statutory Pro Rata Refund as prescribed by federal law.
• Room and Board is pro-rated to the end of the week of official withdrawal.
• No course may be dropped after its ending date, and no tuition will be refunded if a student unofficially withdraws after the final day to officially drop a class has passed.
• Class fees are not refundable after the second week of the full session and the first week of Sessions A and B.
• Tuition refunds for class changes (where applicable) will be made in the same manner as refunds for withdrawals (see refund schedule above).
• Music fees are for private music lessons and are refundable in the same manner as tuition, except no refund after the sixth week.

Outstanding Balances
As Biola is an educational institution, any balance owing on a student’s account is an extension of credit by the University and is considered an educational loan within the meaning of section 523 (a) (8) of the U.S. Bankruptcy Code. If a loan becomes in default, Biola may disclose the default, along with other relevant information, to credit bureau organizations and turn the educational loan over to a collection agency for collection. Should this action be instituted by the University, there will be additional charges for reasonable collection of the balance due. All transcripts and diplomas shall be withheld until the outstanding amount is paid in full. An account is considered paid in full when all checks clear the bank. Any financial credits existing for the student in campus departments will be applied to the outstanding student account balance.

Refunds: Overpayment
Payments to student accounts which result in a credit balance will be refunded upon request, or in accordance with cash management regulations as required by federal regulations for students having federal aid. Requests for adjustments to charges must be made within four months from the date of the student’s statement on which the charge first appears.

Financial Aid Information
The Financial Aid Office at Biola University is dedicated to helping students gain access to Christian higher education, especially those who would be unable to attend Biola without aid. It is our desire to provide financial assistance to students with demonstrated need, within the limits of the University’s resources.

With this goal in mind, Biola holds to the following financial aid philosophy:
We will partner with the student and his or her family to arrange financing for the student’s education, using the family’s resources, the government’s resources, and Biola’s resources.

Demonstrated need will be measured by a consistent and equitable need-analysis system. To be fair to all students seeking aid, need must be based objectively on a family’s financial resources, not their willingness to pay.

Special circumstances will be considered on a case-by-case basis, and we will use our professional judgment to determine when adjustments should be made.

Biola University does not discriminate on the basis of sex, race, color or national and ethnic origin in administration of its scholarship and loan programs. For further information on any of the items in this section, please visit the Financial Aid Office website (https://www.biola.edu/financial-aid/).

**Undergraduate Financial Aid**

**Institutional Aid**

All students who want to be considered for need-based aid are required to file a FAFSA (or Dream Act Application (https://dream.csac.ca.gov/), for AB540 eligible students).

**Biola University Award (Biola University Grant for Dream Act Students)**

The University will provide a Biola University Award to students with exceptional need and limited resources. The Biola University Award is based partially on academic performance, incoming GPA (freshmen and transfers) and SAT or ACT scores (freshmen only). A FAFSA application (or Dream Act Application (https://dream.csac.ca.gov/)) is required each academic year. Awards are granted on a first come, first served basis, and are dependent on availability of funds.

**Academic Scholarships ($5,000–$20,000)**

This is awarded to incoming freshmen and transfer students, based on high school or college GPA, and SAT/ACT scores. Students are notified of the award at the time of acceptance to Biola. The scholarship is renewable if GPA requirement and all other eligibility requirements are met (as outlined in scholarship policy).

**LEAD Scholarship ($2,000–$6,000)**

The LEAD Scholars Program seeks applicants who are passionate about diversity, committed to growing with their cohort and willing to invest what they learn into the greater Biola community. Students should be curious, empathetic and willing to engage honestly in challenging discussions. Being a part of LEAD is a significant commitment and honor. Applicants must have a high school GPA of 3.0 or above, and/or cumulative transfer GPA of 2.5 or higher. Students of any ethnic or racial background are welcome to apply.

**Alumni Dependent Scholarship (Up to $1,000 per student)**

Awarded to dependents of persons who have completed 30 credits of coursework at Biola University graduate schools. Tuition Waiver eligible faculty and staff dependents are not eligible for this scholarship.

**FirstGen Scholars Program Scholarship ($3,000)**

Scholarship awarded as part of a program for select incoming first generation students. Applicants must file a FAFSA (or Dream Act Application (https://dream.csac.ca.gov/)), along with an application for the program by the deadline to be considered. Requires involvement in FirstGen Scholars Program.

**Church Matching Scholarship (Up to $1,300)**

Biola will match up to two church checks per year for a total match of up to $1,300 for a full-time student demonstrating need. Some programs, such as fully online undergraduate programs, may not be eligible. Program eligibility information is available on the most current Church Matching Scholarship Application form. Each church’s check must be submitted along with the Church Matching Scholarship Application. Fall semester deadline is October 1. Spring semester deadline (for spring entrants only) is March 1. No exceptions are made to the deadline and funds are awarded as available. A FAFSA must be filed by the deadline for all US Citizens and non-citizens who are eligible for federal financial aid. Dream Act eligible students must complete the California Dream Act Application (https://dream.csac.ca.gov/). The student must demonstrate financial need as demonstrated by the FAFSA or Dream Act Application. International students enrolled at Biola on a F-1 or R-1 visa are exempt from the FAFSA requirement.

**President’s Award (100% tuition)**

This is awarded to one graduating senior at Biola with the intention to graduate at the end of the school year required, along with a minimum 3.60 GPA, attendance at Biola for at least two years as well as personal qualifications. Determined by committee nomination.

**Teaching Credential Grant (Up to $2,750)**

This award is based on financial need as determined by the FAFSA or Dream Act Application (https://dream.csac.ca.gov/), and is for post baccalaureate teaching credential students only. Funds are limited to availability and are awarded on a first come, first served basis.

**Music Scholarships**

Awarded by the Conservatory of Music to music majors for outstanding performance and scholastic capabilities. The scholarship must be used for the area in which the applicant auditioned. Recipients may also be required to participate in an ensemble.

**Athletic Scholarships**

Offered to students who demonstrate outstanding ability and achievement in a particular sport. Awarded by the Athletic Department.

**Forensics Scholarships**

Offered to participants on the school’s competitive speech team. Students awarded this scholarship do not need to be communication majors. Awarded by the Communication Studies Department.

**Biological Sciences Scholarships**

Offered to students who demonstrate a high level of achievement within this major. Awarded by the Biology/Science Department.

**Cinema and Media Arts Scholarships**

Offered to students who demonstrate a high level of achievement within this major. Awarded by the Cinema and Media Arts Department.

**Theatre Scholarships**

Offered to students who demonstrate a high level of achievement within this major. Awarded by the Communication Studies Department.

**Journalism Scholarships**

Offered to students who demonstrate a high level of achievement within this major. Awarded by the Digital Journalism and Media Department.
Public Relations Scholarships
Offered to students who demonstrate a high level of achievement within this major. Awarded by the Public Relations and Strategic Communication Department.

Chimes Scholarships
Offered to students who are highly involved with The Chimes (Biola’s student newspaper and news site). Awarded by the Digital Journalism and Media Department.

Communication Disorders Scholarship
Offered to students who demonstrate a high level of achievement within this major. Awarded by the Department of Communication Sciences and Disorders.

Clinical Nursing Scholarships
Offered to students who demonstrate a high level of achievement within this major. Awarded by the Nursing Department.

Federal Aid to Students

Federal Pell Grant Program
A federal program designed to assist students with high financial need. While the maximum grant for 2020-21 has not been released by the federal government at the time of this catalog's publication, the current maximum is $6,195 for 2019-20.

Federal TEACH Grant (Up to $4,000)
A federal program for eligible financial aid recipients. Applicants must fulfill 4 years of teaching in a specific program emphasis at an eligible Title 1 school within 8 years of program completion. Failure to fulfill these requirements will result in the grant converting into an unsubsidized Federal Direct Loan. To apply, students must complete online Entrance Counseling, as well as the Agreement to Serve on the Federal Student Aid website ([https://studentloans.gov](https://studentloans.gov)).

FSEOG Program (Up to $2,000)
The Federal Supplementary Educational Opportunity Grant (FSEOG) program is a campus-based federal aid program, and is designed to assist the neediest undergraduate students. Must be eligible for Pell Grant. Based on availability of funds.

Federal Work Study
This program allows students, who obtain certain on-campus jobs and exhibit need, to have their income ‘protected’ from the subsequent year’s FAFSA calculation. Federal funds pay 75% of a student’s wages, while the University pays the remaining 25%. Wages paid to students in the work study program vary according to the student’s qualifications and duties performed. The University cannot guarantee a job for every student. A limited number of community service job opportunities are also available.

Federal Perkins Loan
The federal government no longer offers new Perkins Loans, but some students may have past Federal Perkins Loans that are still in deferment or repayment. The Perkins Loan is a need-based loan program offered to select financial aid applicants. The loan is subsidized (interest-free while enrolled), and has a 5% fixed interest rate once in repayment. Based on availability of funds, and only available for prior recipients who remain in the same academic program (major).

Repayment of Perkins Loan begins nine months after graduation or withdrawal from school. If the total amount is paid within nine months of graduation, interest will not accrue. Payments may be extended over a 10-year period at 5% interest on the unpaid balance. Members of the armed forces on active duty and students who transfer to other schools to complete undergraduate or graduate work, may defer payment and interest and extend the repayment period.

Biola Loan
The Biola Loan is a need-based loan program offered to select financial aid applicants based on special circumstance consideration. The loan is subsidized (interest-free while student is enrolled at Biola), and has a 5% fixed interest rate.

Repayment begins nine months after ceasing to be a regular student at Biola University. If the total amount is paid within nine months of graduation, interest will not accrue. Payments may be extended over a 10-year period at 5% interest of the unpaid balance.

Federal Nursing Loan
The Nursing Loan is a need-based loan program offered to students accepted into the clinical portion of the nursing program who are early financial aid applicants. Eligibility amounts may vary by level in the nursing program. The maximum loan amount is $5,000, but may change based on availability of funds. This loan has a 5% interest rate.

Repayment begins nine months after graduation or withdrawal from school. If the total amount is paid within nine months of graduation, interest will not accrue. Payments may be extended over a 10-year period at 5% interest of the unpaid balance. Members of the armed forces on active duty, Peace Corps volunteers and students who pursue further nursing training may defer payment and interest and extend the repayment method.

Federal Direct Student Loans
Federal Direct Student Loans are awarded to students after they have filed their FAFSA and submitted all requested paperwork to the Financial Aid Office (including the Entrance Counseling and Master Promissory Note required for the loan).

The program allows students to borrow up to $9,500 as freshmen, $10,500 as sophomores and up to $12,500 as juniors and seniors, depending on borrower’s dependency status. Portions of these amounts may be subsidized (interest paid by the government while student is enrolled at least half time) based on the student’s ‘financial need’ as demonstrated on the FAFSA. Post baccalaureate teaching credential students are eligible for up to $12,500, and may qualify to have $5,500 of the amount subsidized. Funds are disbursed directly from the government to the student’s Biola account. The student may defer repayment until six months after graduation. See the Federal Student Aid website ([https://studentaid.ed.gov/sa/types/loans/interest-rates/](https://studentaid.ed.gov/sa/types/loans/interest-rates/)) for current interest rates. Standard repayment period is 10 years.

Federal Direct Parent Loan for Undergraduate Students (PLUS)

State Aid to Students

Cal Grants
Cal Grants are awarded by the State of California to students who meet state residency, GPA and financial need requirements. To be considered for the Cal Grant, first time applicants must file a FAFSA form and a GPA verification form to the California Student Aid Commission (CSAC) by the March 2 deadline. Current Cal Grant recipients applying to renew their Cal Grant do not need to file the GPA verification form, but do need to complete a FAFSA.
Students who are eligible for consideration under AB540 legislation should file a California Dream Act Application (https://dream.csac.ca.gov/), rather than a FAFSA, by the March 2 deadline. Such students should follow the same guidelines listed above for GPA verification.

Students attending Biola can qualify for either the Cal Grant A (awarded to students from low or middle-income households) or the Cal Grant B (awarded only to students from low income households). Students attending Biola are not eligible for the Cal Grant C program (awarded to students enrolled in a recognized career or technical program only).

Should a student run out of Cal Grant eligibility while attending Biola, the student is encouraged to reapply by the next state deadline (typically March 1 for the next academic year) and contact the California Student Aid Commission in the event that state rules allow the student additional Cal Grant eligibility.

Graduate Financial Aid

The following aid programs are available to graduate students.

Federal Aid

Federal Direct Unsubsidized Loans. (Up to $20,500 per year; $33,000 for Rosemead students)

Federal Direct Student Loans are awarded to students after they have filed their FAFSA and submitted all requested paperwork to the Financial Aid Office (including the Entrance Counseling and Master Promissory Note required for the loan). See the financial aid website for current interest rates. Standard repayment period is 10 years.

Federal Direct Graduate Plus Loan

Graduate students may borrow up to the cost of education minus other financial aid, including any Direct Unsubsidized Loans for which a student may be eligible. See the Financial Aid website for current interest rates.

Institutional Aid

Graduate Grant (Talbot Graduate Grant, Rosemead Graduate Grant, School of Education Grant, Cook Graduate Grant)

This award is based on financial need as determined by the FAFSA (or California Dream Act Application for AB540-eligible students). Up to $3,000 per year depending on graduate school of enrollment. Funds are limited to availability and are awarded on a first come, first served basis.

Church Matching Scholarship (Up to $750 from Biola)

Biola will match up to two church checks per year for a total match of up to $750 for a full-time student demonstrating need. Some programs are ineligible for the Church Matching Scholarship, including, but not limited to: Doctor of Ministry, Master of Arts - Christian Apologetics, Master of Arts - Science and Religion, Talbot Doctor of Philosophy, graduate programs in Science, Technology and Health or other special programs. Please see the current Church Matching Scholarship Application for additional program eligibility information.

Each church's check must be accompanied by the Church Matching Scholarship Application signed by the pastor or church official. Fall semester deadline is October 1. Spring semester deadline (for spring entrants only) is March 1. International students on an F-1 or R-1 visa are exempt from the FAFSA requirement. Dream Act eligible students must complete the California Dream Act Application.

Department Scholarships

Determined by each graduate school. For scholarship opportunities, contact the graduate school of attendance.

General Financial Aid Information

The following apply to both undergraduate and graduate aid applicants.

Entitlement Aid

Biola University is authorized as an institution to grant benefits to veterans and dependents of veterans, social security benefits and assistance from the California Rehabilitation Program. Students interested in this type of aid should contact the Office of the Registrar. Please note that this aid may affect the student's eligibility for other financial aid programs at Biola, such as the Biola University Award or Graduate Grant.

Student Loans

Biola will notify all new students of their Federal Direct Student Loan eligibility on their Financial Aid Award Letter. Continuing students will be notified of their Direct Student Loan eligibility on my.account@biola.edu, once all required paperwork is completed.

PLUS loans and private loans require separate applications, and the student must initiate to process. See the Financial Aid website for more details.

International Students

International applicants who hold an F-1 visa must establish the degree of their ability to meet the costs of an education at Biola University. Each international applicant must submit a signed statement of financial responsibility as well as signed statements from any agencies or individuals who have taken the responsibility of underwriting the student's expenses. These statements must include the exact amount of the commitment. Inquiries regarding financial aid for international students should be directed to the International Admissions Office for new students, and to the Financial Aid Office for continuing students.

Student Employment

The University maintains an employment office for the benefit of students needing part-time work. While this office does not guarantee employment, it does make an effort to place every student desiring work in a position.

Jobs are available both on and off campus, according to student's ability, and their capacity to handle the added burden of employment. Student worker positions range from 10–20 hours per week.

Application for Aid

Students may apply for financial aid by filing a Free Application for Federal Student Aid (FAFSA). Biola University and the school code (001122) should be included on the appropriate sections. Dream Act eligible students must complete the California Dream Act Application (https://dream.csac.ca.gov/) instead of the FAFSA.

All undergraduate California residents who have not already been paid a Cal Grant are encouraged to apply by filing a FAFSA (or California Dream Act Application as appropriate) and GPA verification form before March 2. For students who have already been awarded a Cal Grant in the prior academic year, only a FAFSA (or California Dream Act Application as appropriate) is required.
Should a student run out of Cal Grant eligibility while attending Biola, the student is encouraged to reapply by the next state deadline (typically March 1 for the next academic year) and contact the California Student Aid Commission in the event that state rules allow the student additional Cal Grant eligibility.

Departmental Scholarship applications (i.e., music, athletics, forensics, etc.) are available from the academic departments only. In addition, a FAFSA (or Dream Act Application) may need to be filed unless a student can demonstrate disqualification for need-based aid.

Note: FAFSA and Plus and/or Private loan applications need to be re-filed for each academic year.

**Deadlines for Filing**
The following deadlines have been established for the various aid programs:

**Cal Grant Programs**
New Applicants: March 2

**Institutional Aid**
While there is not a ‘deadline’ to apply for financial aid and students are allowed to apply throughout the academic year, resources are limited and are awarded on a first come, first served basis. Therefore, students are encouraged to apply and complete their financial aid file as soon as possible after the various applications and documents become available. The FAFSA and California Dream Act Applications (https://dream.csac.ca.gov/) are available for completion on October 1 each year.

**Financial Aid Disbursements**
All financial aid is awarded for the academic year; for programs with only two mandatory terms (fall and spring), one half is applied to a student’s school account each semester (unless stated otherwise). Students enrolled for only one semester are entitled to only that semester’s award after it is adjusted to a one-semester expense budget. Financial aid is generally not awarded for the summer term in semester programs. For trimester programs, such as applied psychology, business management, the MBA and MPAcc, aid is divided into even amounts over all of a student’s possible terms in an academic year (fall, spring, and summer). Exceptions to these disbursement divisions are only made where mandated or allowable by federal regulations.

**Financial Aid Withdrawal/Return of Aid Policy**
Biola University’s ‘Financial Aid Withdrawal Policy’ is employed when a student withdraws prior to completing 60% of the semester. Financial aid adjustments caused by a change in semester enrollment status (student remains enrolled in at least one course) are not included in this policy, but are addressed in the Financial Aid Handbook.

If a recipient of financial aid withdraws during a period of enrollment, the amount of financial aid earned will be calculated according to regulations and policies established for the various categories of aid. The unearned aid will be returned to the various aid sources. These sources include:

**State Aid:** Includes grants awarded by the California Student Aid Commission, i.e., Cal Grant A, B.

**Institutional Aid:** Includes all sources of financial aid awarded by Biola University, i.e., scholarships, grants and campus-based loans.

**Outside Assistance:** Includes any aid received from outside organizations, i.e., churches, civic organizations, non-Biola Employee Tuition Waivers, private foundations, scholarship associations, etc.

When a student wishes to withdraw from Biola University, a ‘Departure Process’ must be initiated with the Office of the Registrar. The official withdrawal date is the earlier of either the date the student begins the withdrawal process, or the date the student provided official notification of the intent to withdraw, and received acknowledgment of the same from the Office of the Registrar.

Students who unofficially withdraw (fail to submit the departure form, but stop attending class) will be given an official withdrawal date determined by the last date of class attendance. If the last date of attendance cannot be determined, the official withdrawal date will be the 50% point of the semester.

**Return of Aid**

**Title IV Aid:** Federal aid must be returned to the Title IV program(s) if a student withdrew on or before completing 60% of the enrollment period (semester or term). The percentage of Title IV aid to be returned is equal to the number of calendar days remaining in the semester divided by the number of calendar days in the semester. Scheduled breaks of more than four consecutive days are excluded.

Note: If prior to withdrawing, funds were released to a student because of a credit balance on the student’s account, the student may be required to repay the federal funds back to Biola upon withdrawing.

**State Aid:** State aid must be returned in the amount of the difference between the State aid awarded for the enrollment period and the actual tuition charged once the tuition refund is reflected.

**Institutional Aid:** In most cases, institutional aid is reduced when a student withdraws during the first eight weeks of the semester. The institutional aid is reduced by the same percentage of tuition refund. For example, a student has a $1000 scholarship for the semester, and withdraws during the third week of the semester (80% tuition refund). The student keeps 20% of the scholarship, or $200; $800 is returned to the institution. Aid is usually not reduced after the eighth week of the semester, unless the student has contracted for the aid, i.e., scholarships for athletics, music.

**Outside Aid:** Outside organizations providing financial aid are contacted when a student withdraws and receives a tuition refund that produces a credit on the student account. The organization can decide if any of the aid must be returned to them. Some organizations specify beforehand the terms of their scholarship if a student withdraws. Unless requested, outside aid sources are not contacted when the withdrawal occurs after the eight week refund period.

**Private/Alternative Loans:** Alternative loans are only adjusted upon request of the student. Returning excess funds remains the responsibility of the student.

**Satisfactory Academic Progress Policy**
Students attending Biola University who wish to receive financial aid (including federal, state, veterans benefits, social security benefits, etc.),
in addition to meeting other eligibility criteria, must maintain satisfactory academic progress in their degree or certificate program as described below.

Quality of Progress ‘GPA Requirement’
Students requesting aid must maintain a minimum cumulative GPA as follows:

Minimum Cumulative GPA
Undergraduate: 2.0
Graduate: 2.5

- GPAs are reviewed at the end of each academic term (fall, spring, and summer).
- Students who fail to maintain the minimum GPA will be given a warning status for one academic term, during which they will continue to receive financial aid. At the end of the term, the cumulative GPA requirements must be met, or the student’s financial aid eligibility will be suspended until they once again meet the applicable GPA requirement.

Quantity of Progress ‘Pace Requirement’
Students requesting aid must complete 67% of all credits attempted.

Pace is reviewed at the end of each academic term (fall, spring, and summer).

Students who fail to maintain the pace requirement will be given a warning status for one academic term, during which they will continue to receive financial aid. At the end of the term, the Pace Requirement must be met, or the student’s financial aid eligibility will be suspended until they once again meet the requirement.

Duration of Progress ‘Maximum Time Frame’
Students requesting aid are expected to complete an academic program within a reasonable time frame (including transfer credits). A reasonable time frame is defined as 150% of the program length in units for the degree in which the student is enrolled.

Time frame is reviewed at the end of each academic term (fall, spring, and summer). Students may appeal for extended time by submitting a letter of petition to the Financial Aid Office.

For more details about Biola’s Satisfactory Academic Progress policy, please see the Financial Aid Office website (https://www.biola.edu/financial-aid/about/disclosures/).

Financial Aid Suspension Appeals
Any student whose aid has been suspended may appeal for a term of aid probation, by completing the ‘Financial Aid Suspension Appeal Form,’ which is available on the Financial Aid website. By the end of the probation term, the student must meet all Satisfactory Academic Requirements, as specified above, to regain financial aid eligibility.

Admission, Enrollment and Graduation Requirements
Admission to Biola University is on a selective basis. Only those most likely to profit from Biola University’s educational program and its distinctively Christian emphasis are admitted.

Biola University has a strong Christian commitment and requires that to be accepted, the applicant must be a committed follower of Christ. However, Biola does not discriminate on the basis of race, color, national origin, gender, age or disability in the admission of students, employment, and the educational programs or activities it conducts. The University prohibits sexual harassment. Inquiries regarding this nondiscrimination policy and the policy prohibiting sexual harassment may be directed to the Office of the Dean of Students in the Student Services Building for further information and procedures.

Students interested in attending Biola should submit an online application (http://undergrad.biola.edu/). Because enrollment is limited and admission is selective, applications should be submitted as early as possible. Decisions are made only on completed applications.

Visits to the campus are encouraged. It is recommended to email or phone the Office of Admissions well in advance of the visit. Each semester, visitation days (University Day, Spring Preview Day and others) help acquaint prospective students with the programs on campus.

Admission information — including applications, visitation days and appointments — is available online (http://undergrad.biola.edu/) or by phoning (562) 903-4752.

Admission to the University does not guarantee admission to the art, business administration, cinema media arts, education, music, nursing, or psychology programs, nor to on-campus housing. Application forms for these programs are available from the department offices.

Undergraduate/Graduate Programs
See the specific program for additional admission, enrollment and graduation requirements in the appropriate undergraduate/graduate sections of the catalog.

Enrollment Deposit
Applicants
All applicants who are accepted to the University are required to submit an enrollment deposit. The deposit is non-refundable after May 1 if the student does not enroll in and complete the term for which he/she applied. Accepted applicants, whether or not they have selected courses, must inform Biola of any change in their plans regarding enrollment. Biola undergraduate students accepted into a Biola graduate program must submit a graduate deposit to ensure a place as a Biola graduate student.

Enrolled Students
The enrollment deposit is applied to the student account following the student’s first term of enrollment. When enrolled students who have completed the term for which they applied, officially withdraw, their enrollment deposit will be applied to any balance owed at the time of departure, or will be refunded if their account is paid in full.

Re-Admission
A Biola student who has dropped out for one semester or longer is required to file an application for re-admission. Generally, any holds on the student’s account (ex: academic disqualification, accounting, etc.) must be resolved by the student and corresponding department prior to being readmitted. An undergraduate student who re-admits after an absence of five years may be required to complete a full application for entrance, whereas, graduate students will be required to file a new application, and a pastor’s reference. Depending on the length of
absence, other requirements may also be necessary. Please contact the Office of Admissions for more information.

**English Proficiency Requirements**

### Admission Requirements

Evidence of proficiency in English is required for all students to support student success. Proficiency must be shown in reading, writing, speaking and listening through one of the methods described below.

**Undergraduate**

International (F-1) Applicants: Minimum test scores are required to be considered for admission.

1. Minimum test score on a qualifying standardized test.

To be considered for admission, international (F-1) applicants whose first language is not English must submit English proficiency scores that meet the minimum requirement. At the applicant’s request, official TOEFL or IELTS test scores must be sent by the testing agency directly to Biola. Courses in ESL or English composition taken in an institution where English is the primary medium for instruction may not be used to complete the admission requirement. International students currently attending schools where English is the primary medium of education (e.g., an international high school in China) must also submit official exam scores.

**Exception**: If an applicant’s secondary education took place in a country in which English is the primary language of communication (e.g., Australia, Canada, or Ireland), the applicant is exempt from the English language proficiency requirement. Students who are citizens of these English speaking countries but were educated elsewhere must still meet the English language proficiency requirement.

**SAT or ACT Scores**: If an international student has taken these standardized tests, the University will consider the English proficiency requirement satisfied if both the following are met:

- Evidence of academic achievement in English writing or literature courses and
- Meet the minimum GPA and SAT or ACT test scores for general admission to the University. At the applicant’s request, official SAT or ACT test scores must be sent by the official testing service directly to Biola.

2. Completion of the Biola English Language Program with passing status on the ELP's final exit exam, which must be approved by the English Language Program Director. An updated TOEFL or IELTS score may be used at the end of the term to test directly into the undergraduate program for the following term.

**Graduate**

1. Minimum test score on a qualifying standardized test.

2. A degree (bachelor’s, master’s, or doctoral) issued by an institution where English is the medium of instruction. On-campus residence during the degree program is required. Regional accreditation is required from U.S. institutions, or a recognized baccalaureate degree equivalent earned outside the U.S. To verify that English is the sole medium of instruction, one of the following forms of documentation is required for institutions outside of the United States:

- Official written communication from the institution (Registrar, Controller of Examinations Office, or Undergraduate College)
- Official degree statements or transcripts may be accepted given English is stated as the medium of instruction
- Official catalog verification

For universities from non-Anglophone countries, further language assessment may be required.

3. Completion of the Biola English Language Program with passing status on the ELP’s final exit exam, which must be approved by the English Language Program Director in collaboration with the academic program committee. An updated TOEFL or IELTS score may be used at the end of the term to test directly into the graduate program for the following term.

### Language Test Score Standards for Admission

To be admitted to Biola, all applicants for whom English is not a primary language must provide official TOEFL (iBT) or IELTS scores (or equivalent, as approved by and at the discretion of the English Language Program Director). For students applying with the SAT or ACT (who have not met the minimum scores), an additional language screening test may be required for accurate placement in the language support programs. The language exam score requirements are as follows:

**Undergraduate Accelerated Learning Placement (ALP) track**:

- TOEFL (iBT) 70+ or IELTS 6

**Undergraduate academic programs**:

- TOEFL (iBT) 80+ or IELTS 6.5
  - or graduation from an American High School (4 years)
  - or at least one year in a U.S. undergraduate program
  - or either of the above, from a country where English is an official language — at the discretion of the ELP Director or a designated ELP representative

**Graduate academic programs**:

- TOEFL (iBT) 90+ and IELTS 7
- TOEFL (iBT) 100+ and IELTS 7.5

See chart below for Graduate program-specific requirements.

For more details on how, when, and where to take language tests, visit online:

- TOEFL (IBT) (http://www.ets.org/toefl/)
- IELTS (https://www.ielts.org/)

Language tests are administered only at specific times, so candidates for admission should inquire about testing dates well in advance of the date of anticipated school term in the U.S.

The ELP Director finalizes and approves all placement decisions for all students who need language proficiency placement (see
Academic English Language

Biola’s English Language Program provides opportunities to grow academically in reading, writing, listening, speaking and self-editing.

For all students fully admitted into academic programs, the English Language Program and the Rhetoric & Writing Center offer language tutoring, writing consultations, and speech coaching aimed to support learners in any of their academic work.

Academic English Program (AEP): Graduate

All students wishing to develop their academic English are welcome to take our Academic English courses. These courses include coaching for academic development of Master’s theses, dissertations, conference presentations, publication editing, teaching and sermon delivery.

AEP courses also satisfy the English Language Proficiency requirement for graduate students. New students entering Biola without a qualifying test score will be required to take an English language proficiency screening test before registering for classes. Students who do not achieve the minimum score on the screening test will be directed to participate in mandatory advising and complete courses through the Academic English Program (AEP). At least one AEP course will be required each semester until all mandatory AEP classes are completed. An extra fee is charged for each AEP course in addition to regular tuition at the graduate level.

Accelerated Learning Placement (ALP): Undergraduate

The Accelerated Learning Placement (ALP) consists of credit-bearing, Core Curriculum requirement courses (in English composition, speech communication, and modern languages). Any undergraduate may choose to take the ALP version of their Core Curriculum courses to advance their academic language (i.e., develop professional writing, receive coaching on public speaking, or practice academic conversation strategies). In particular, ALP focuses on four CLOs most connected to language: written communication, oral communication, critical thinking, and information literacy. Students may also be placed in the ALP track based on their language scores (TOEFL/IELTS), while being considered fully admitted to Biola and receiving full Core Curriculum credit for all AEP courses. The ALP curriculum and learning outcomes are the same as other Core Curriculum courses, with the primary difference of additional seat time, instructional support and scaffolding. Native English speakers not specifically placed into ALP may enroll and receive credit in Core Curriculum-only ALP courses (i.e., ENGL 100, COMM 200).

See the ALP general education credits website (https://www.biola.edu/english-language-program/tracks/accelerated-language/) for more information.

Preparation for Academic Programs: Language-Learn

For students who have not yet met specific language proficiency requirements to enroll in academic programs (see below), the program offers English Language only courses with personalized support to language learners at the foundational, intermediate and advanced levels. English Language only courses aim to prepare students for academic programs at Biola.

Application Guidelines

The following are required: an application for admission, references and a $55 non-refundable undergraduate application fee; graduate application fee is $65.

Official Transcripts

Undergraduate Students

Undergraduate students are required to have completed the equivalent of 12 years of education. Transcripts from all secondary schools and post-secondary institutions must be sent directly from the school to Biola’s Office of Admissions in order to be considered official. All transcripts must be official and accompanied by a certified English translation that documents coursework and examinations taken, indicates grades received, identifies passing and maximum marks and shows evidence of secondary graduation. International students must have successfully completed college preparatory courses in their home country. If the student has attended a university in his/her home country and would like transfer credit, he/she must have transcripts evaluated by a professional credential agency. Undergraduate transfer international students must have completed satisfactory course work with a 2.5 academic GPA. Information is available in the Office of Admissions or the Office of the Registrar.

Graduate Students

All transcripts not originally in English should be accompanied by a certified English translation that documents coursework and examinations taken, indicates grades received, and identifies passing and maximum marks. To confirm accreditation and equivalency, a third-
party agency credential evaluation may be required prior to admission. The following are also required:

- A completed Affidavit of Support form that certifies the student has sufficient funds to study in the U.S. must be on file prior to issuance of the I-20. The Affidavit of Support form must be accompanied by supporting bank statements. In addition, a tuition deposit may be required prior to issuance of the I-20.
- Reference forms — Undergraduate students are required to provide one reference from a pastor/minister who has known the applicant for at least one year. Reference forms are provided by the University and are included with the application. Graduate students are required to provide references appropriate to their program.
- An official TOEFL or IELTS score (see requirements above, under Language Test Score Standards for Admission).

Official documents presented for admission or evaluation become part of the student’s academic file and cannot be returned or copied for distribution.

**Master’s Degrees and Rosemead**

An official transcript conferring a bachelor’s degree and all transcripts that reflect graduate credits are required. Official transcripts should be sent directly from the school to Biola’s Office of Graduate Admissions to be official. In addition, transcripts with prerequisites, leveling courses, and advanced standing relevant to your desired program should be submitted. For certain degrees, additional or all transcripts may be requested or required. Review the admissions requirements of your individual program or contact Graduate Admissions for details.

**Doctoral Degrees**

An official transcript conferring a master’s degree and all transcripts that reflect graduate credits are required. Official transcripts should be sent directly from the school to Biola’s Office of Graduate Admissions to be official. In addition, transcripts with a conferred a bachelor’s degree and transcripts with prerequisites, leveling courses, and advanced standing relevant to your desired program should be submitted. For certain degrees, additional or all transcripts may be requested or required. Review the admissions requirements of your individual program or contact Graduate Admissions for details.

**Application Deadlines**

Biola University accepts international applications for Fall and Spring semesters. Graduate admission deadlines vary. Check the individual program’s website (https://www.biola.edu/academics/majors-programs/) for the correct deadline.

**Fall**

<table>
<thead>
<tr>
<th>File Completed By</th>
<th>Notification</th>
</tr>
</thead>
<tbody>
<tr>
<td>November 15 (Early Action #1)</td>
<td>January 15</td>
</tr>
<tr>
<td>January 15 (Early Action #2)</td>
<td>February 15</td>
</tr>
<tr>
<td>March 1 (Regular Deadline)</td>
<td>April 1</td>
</tr>
</tbody>
</table>

Files completed after March 1 will be processed on a bi-monthly basis with notification of admittance beginning after April 1. Applications are considered late after March 1 (late fee of $55) and will be processed if space is available and time allows.

Spring

<table>
<thead>
<tr>
<th>File Completed By</th>
<th>Notification</th>
</tr>
</thead>
<tbody>
<tr>
<td>October 15</td>
<td>Rolling Basis</td>
</tr>
</tbody>
</table>

The application process may take 3–6 months. Applicants are encouraged to apply well before the deadlines. Applicants interested in financial aid must apply several months before the stated deadlines. Late applicants will assume expenses for documents needing express delivery to and from the University.

**Financial Responsibility of International Students**

The student must supply information attesting to their ability to provide United States dollars in the minimum amount required to support the costs of tuition and room and board, in excess of the cost of a round-trip fare from his/her native country.

Applicants who do not have the finances to pay all of their expenses must come under the sponsorship of an approved agency. Sponsorship must include financial responsibility toward the sponsored student for the entire cost of the program.

**Enrollment Requirements**

International students admitted to the United States on a student visa are required by law to be registered as full-time students (undergraduate students: a minimum of 12 credits; graduate students: a minimum of 9 credits). All EL-only students, taking EL courses preparing for undergraduate or graduate programs, must be enrolled in 12 credits.

**Employment**

No off-campus employment is permitted for international students without written permission of the United States Immigration authorities.

**Veterans**

Biola University is approved as a degree-granting institution for the attendance of veterans under Title 38, United States Code. This includes the programs covered in chapters 30, 31, 33 and 35 of Title 38, relating also to the education of disabled veterans and war orphans, and 1606 of Title 10. The Department of Veterans Affairs has also authorized the University for the attendance of veterans under Title 38, United States Code. This includes the programs covered in chapters 30, 31, 33 and 35 of Title 38, relating also to the education of disabled veterans and war orphans, and 1606 of Title 10. The Department of Veterans Affairs has also authorized the University for the attendance of veterans and veterans’ dependents.

Veterans or dependents of veterans who plan to enroll in the University are urged to contact the Military Educational Benefits Coordinator in the Office of the Registrar well in advance of enrollment so that the necessary arrangements may be made with the Veterans Benefits Administration.

Eligible students who have provided a current and valid certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 of Title 38, United States Code will be considered to have met the tuition related portion of their down payment obligation to the University if/when their level of current certified eligible benefits will meet or exceed the total charges of their tuition and related fees. This provision will be valid for up to 90 days after the University has certified the student’s tuition and fees with the US Department of Veterans Administration. Any late fees or penalties incurred by a certified student for failure to meet their required down payment obligation will be reversed for this 90 day period.

For information about Veteran and Military Affiliated Student Programs, see Student Development - Community Life (http://catalog.biola.edu/
Registration and Enrollment

Registration dates are posted on the academic calendar. Students should enroll online (https://myaccount.biola.edu) during scheduled enrollment days. Late enrollment requires a fee of $200. Enrollment is finalized when students have completed all of the enrollment tasks and have paid the required tuition down payment. Students will receive credit for courses officially enrolled through the Office of the Registrar.

Enrollment is mandatory for Rosemead students in all phases of the program including students in an internship and those who have completed all requirements except the dissertation.

Add/Drops

Registration changes are made online (https://login.biola.edu/cas/login?service=https%3A%2F%2Fmyaccount.biola.edu%2Ftasks/).

A student who stops attending a class will not be automatically dropped from the class and will receive a grade of UW (Unofficial Withdrawal) for the course.

Full Term Courses

- Courses may be added during week one of the semester.
- Courses dropped during weeks one and two will not be recorded on the student's transcript.
- Courses dropped during weeks three to eight will be recorded with the grade of W.
- Courses dropped after week eight will be recorded with the grade of UW.

Session A and B Courses

- Courses may be added during week one of the session.
- Courses dropped during week one will not be recorded on the student's transcript.
- Courses dropped during weeks two to four will be recorded with the grade of W.
- Courses dropped after week five will be recorded with the grade of UW.

Withdrawal

Official withdrawal from enrollment in the University is made by submitting a written notification by email or in person to the Office of the Registrar.

Grades of W or UW are recorded on a student’s record and refunds issued according to the dates listed on the refund schedule (https://studenthub.biola.edu/tuition-refund-schedule/) for full term courses and session A and B courses.

Student’s Records

Enrollees are advised that the University maintains school and student records for no longer than a five-year period beyond the student’s final term of enrollment, with the exception of the transcripts and the academic record. Except in cases of clerical error, students’ academic records are closed upon graduation.

Attendance

Regular class attendance is expected of all students. Classes are conducted in a manner that will encourage academic excellence and the growth of Christian character. The final authority for attendance and any effect that it might have upon grades rests with the individual faculty member. This is due to the tremendous variety of class size and purpose, and the specific requirements in attendance. Students who fail to meet the minimum attendance requirement of a course will be assigned a grade of ‘UW’ (Unofficial Withdrawal) which will influence the GPA the same as an ‘F’.

Visitors and current students may visit a class for a maximum of one week (or the equivalent thereof, based on a 15-week course). After one week, registration in credit or audit status for the course(s) is required.

Intercollegiate Athletics Class Attendance Policy Addendum

Student-athletes will be excused to miss class only under the following circumstances per NCAA Division II rules and regulations. “Excused” means that the student-athlete will be given the opportunity to make-up any missed assignments or class work without penalty. The following information is provided to student-athletes, head coaches and faculty members and is intended to summarize Biola policies on missed class time due to athletics contests.

- Student-athletes are not permitted to miss class for home practice activities including but not limited to: practice, weights/conditioning, film study, promotional events, or community engagement events. There are two exceptions:
  - When a team is traveling to an away-from-home contest and the practice is in conjunction with the contest. Bylaw 17.1.
  - Championship Practice. Student-athletes representing Biola at a conference or NCAA championship shall be permitted to miss class time to attend practice activities in conjunction with the event. Bylaw 17.1.
- Student-athletes are permitted to miss class for competition, home and away, during the regular season and/or playoffs. No class time shall be missed for competition, including activities associated with competition, outside of the regular season and/or playoffs, per Bylaw 17.1. Student-athletes are not excused from classes that end prior to departure time on the day of travel.
- Student-athletes are responsible to notify faculty within five business days after the first day of class concerning any future missed class time due to athletics contests using the Class Absence Reporting Form. This will ensure the individual faculty member has been notified of sport-related absences PRIOR to missing class. The form includes a section requesting accommodations for completion of any missed assignments. This must be completed fully by the faculty member and returned to the student-athlete within 72 hours of receipt. All missed class work and assignments must be completed according to the schedule established by the faculty member teaching the course. Per institutional decision, faculty members are expected to provide substantive learning assignments on this form for any missed in-class work and not penalize the student-athlete for missing class.
Note: Any student-athlete who does not complete the form correctly or on time is not protected from missed class penalties under this policy.

In the case of last minute travel itinerary changes due to unforeseen circumstances, the student-athlete is responsible to promptly notify faculty (within 24 hours of the change).

Individual faculty members will judge the validity of student-athlete absences from class and may require documentation for excused absences. In such cases the student-athlete will submit a written request to the Assistant Athletic Director for Compliance to request that documentation be sent to the faculty member. For classes requiring mandatory attendance incompatible with the number of planned absences, student-athletes will be advised to register, if possible, during a semester in which they will not be participating in the university sanctioned activity.

If a faculty member already has a policy in place that allows for a minimum number of absences, missed in-class assignments, and/or late assignments, then absences due to athletics contests will apply toward that policy first.

As with any academic issue, student-athletes may exercise their right to appeal adverse attendance decisions. Should the faculty member and student-athlete be unable to agree on appropriate accommodation under this policy, either party shall have the right to request mediation. The person seeking mediation should contact the Faculty Athletics Representative. He or she may ask the student or faculty member to pursue resolution by meeting with the following individuals (in order) until the issue has been resolved: the Department Chair, Academic Dean, and the Vice-Provost. The Faculty Athletics Representative may also work to mediate the request for accommodation on behalf of the faculty member or student, and may choose to collaborate with the Director of Athletics in this process.

The Intercollegiate Athletics Class Attendance Policy Addendum was developed in order to ensure collaboration between faculty members and the student-athlete in order to achieve graduation requirements.

### Grades

The grade point average of a student is obtained by dividing the total number of grade points at Biola by the total number of credits attempted at Biola. (This calculation does not include courses transferred from another institution and starts anew for graduate programs.)

To graduate with a baccalaureate degree, a student must achieve at least a 2.0 in both cumulative and major (some programs require higher) undergraduate coursework. Higher standards are required for graduate degrees, as stated elsewhere in this catalog.

Biola’s policy requires that when computing the GPA, the GPA is recorded at the third number beyond the decimal point without rounding up.

Quality of course work is graded on the following scale, with a system of grade points used to determine a student’s general grade point average (GPA) or standing:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Highest Passing Grade</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td></td>
<td>3.67</td>
</tr>
<tr>
<td>A+</td>
<td></td>
<td>4.00</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.00</td>
</tr>
<tr>
<td>B+</td>
<td></td>
<td>3.33</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2.00</td>
</tr>
<tr>
<td>C+</td>
<td></td>
<td>2.33</td>
</tr>
<tr>
<td>C-</td>
<td></td>
<td>1.67</td>
</tr>
<tr>
<td>D+</td>
<td>Lowest Passing Grade</td>
<td>1.00</td>
</tr>
<tr>
<td>D-</td>
<td>Unofficial Withdrawal</td>
<td>0.67</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0.00</td>
</tr>
<tr>
<td>UW</td>
<td>Unofficial Withdrawal</td>
<td>0.00</td>
</tr>
</tbody>
</table>

A ‘UC’ indicates an unofficial withdrawal. Students who register for courses but do not attend classes are given the grade of ‘UC’ which will influence the GPA the same as an ‘F’.

Graduate students should see the appropriate section of the Catalog for further grade information.

### Special Grade Notations

The following grades are also used with special significance in certain programs and are not used in computing the GPA:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CR</td>
<td>Credit 1</td>
<td>0.00</td>
</tr>
<tr>
<td>IN</td>
<td>Incomplete Grade 2</td>
<td>0.00</td>
</tr>
<tr>
<td>NC</td>
<td>No Credit 2</td>
<td>0.00</td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory 1</td>
<td>0.00</td>
</tr>
<tr>
<td>US</td>
<td>Unsatisfactory 2</td>
<td>0.00</td>
</tr>
<tr>
<td>RG</td>
<td>Registered in Course 3</td>
<td>0.00</td>
</tr>
<tr>
<td>R</td>
<td>Research 1</td>
<td>0.00</td>
</tr>
<tr>
<td>IP</td>
<td>Internship in Progress 1</td>
<td>0.00</td>
</tr>
<tr>
<td>UC</td>
<td>Unofficial Withdrawal 2</td>
<td>0.00</td>
</tr>
</tbody>
</table>

A ‘UC’ indicates an unofficial withdrawal from a credit/no-credit course. Students who register for credit/no-credit courses but do not attend classes are given the grade of ‘UC.’ A grade of ‘UC’ does not affect the student’s grade point average.
Final grades will be available at the end of each academic term on My Account (https://myaccount.biola.edu). Any discrepancies must be brought to the attention of the Office of the Registrar within 90 days from the date the grade is posted.

### Grade Changes

Grade changes are only allowable for computational or recording errors.

### Student Responsibility

It is the student’s responsibility to bring any error in grades to the attention of the instructor within ninety days following the issued grade.

### Faculty Responsibility

It is the instructor’s responsibility to catch and correct any error in grades no later than ninety days following the submission of a student’s grade.

### Dean’s List

Undergraduate students achieving a semester GPA of 3.6 or better while enrolled in 12 or more credits with a cumulative GPA of 3.2 or better, will be placed on the semester Dean’s List.

### Audit Students

Students wishing to audit must complete the audit application and follow registration procedures. Auditing students cannot register for a course until after the second week of the semester. An auditor only participates in lectures, and they are not allowed to submit papers or take exams. A course taken for audit cannot be repeated for credit at a later date. Students wishing to audit graduate-level courses must have earned, be/been enrolled in, or been admitted to a graduate program of equal or greater academic level. For instance, a student wishing to audit a master’s level course must at least have earned, be/been enrolled in, or have been admitted to a master’s level degree program. Doctoral level courses are not typically open to auditors. All auditors must pay the appropriate per credit fee. If permitted, doctoral level auditors are subject to full doctoral level tuition (see Financial Information (p. 15) for fees). Auditors must receive permission from both the Office of the Registrar and the instructor of the course. Audit fees are non-refundable. Audit applications with further instructions are available in the Office of the Registrar or online (http://www.biola.edu/registrar/forms/).

### Academic Load

The minimum full time load is 12 credits at the undergraduate level. Those carrying less than the full time load but 9 or more credits are considered three-quarter time. Undergraduate students carrying 6 to 8 credits are considered half time students. And, undergraduate students carrying fewer than 6 credits are considered less than half time.

An undergraduate student who is on academic probation may be limited to 13 credits or fewer depending upon their grade point average. A minimum of 10 credits must be taken by those living on campus. Generally, an undergraduate student is limited to 18 credits per regular term. After the first semester a student with a cumulative grade point average of 3.0 or higher may petition the Office of the Registrar to carry a maximum of 21 credits.

The minimum full time load is 9 credits for those in graduate degree programs. Those carrying less than the full time load but 7 or more credits are considered three-quarter time. Graduate students carrying 5 to 6 credits are considered half time students. And, graduate students carrying fewer than 5 credits are considered less than half time.

### Repeated Courses

Undergraduate students are permitted to repeat courses in which they have earned a D+ or lower grade. Graduate students are permitted to repeat courses in which they have earned a C+ or lower grade. All instances of a repeated course must be taken at Biola in order to impact the student’s GPA. Both grades continue to show on the student’s academic transcript. When a course is repeated the exclude indicator (E) will occur in the Course Repeat Indicator column beginning with the first term in which the course was taken.

Undergraduate students who have earned a grade higher than a D+, or graduate students who have earned a grade higher than a C+ may still be permitted to repeat the same course with approval of the Office of the Registrar if their major or degree program requires a higher grade in order to progress in the major or degree program. (See respective major or degree program requirements.)

Students are permitted to repeat a course a maximum of two times. A student unable to pass a required course for their major or degree program after the third attempt is normally required to select another major or degree program not requiring the failed course.

### Final Grades

Final grades will be available at the end of each academic term on My Account (https://myaccount.biola.edu). Any discrepancies must be brought to the attention of the Office of the Registrar within 90 days from the date the grade is posted.

### Grade Mode

The following codes are listed on each course to designate how the course will be graded at the end of the term:

<table>
<thead>
<tr>
<th>Grade Mode</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Letter Grade A-F</td>
</tr>
<tr>
<td>C</td>
<td>Credit-No Credit</td>
</tr>
<tr>
<td>D</td>
<td>Variable Credit/Research</td>
</tr>
<tr>
<td>N</td>
<td>No Grade Given</td>
</tr>
<tr>
<td>P</td>
<td>Post Baccalaureate</td>
</tr>
<tr>
<td>R</td>
<td>Research</td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory- Unsatisfactory</td>
</tr>
<tr>
<td>T</td>

Auditors must receive permission from both the Office of the Registrar and the instructor of the course. Audit fees are non-refundable. Audit applications with further instructions are available in the Office of the Registrar or online (http://www.biola.edu/registrar/forms/).

### Academic Load

The minimum full time load is 12 credits at the undergraduate level. Those carrying less than the full time load but 9 or more credits are considered three-quarter time. Undergraduate students carrying 6 to 8 credits are considered half time students. And, undergraduate students carrying fewer than 6 credits are considered less than half time.

An undergraduate student who is on academic probation may be limited to 13 credits or fewer depending upon their grade point average. A minimum of 10 credits must be taken by those living on campus. Generally, an undergraduate student is limited to 18 credits per regular term. After the first semester a student with a cumulative grade point average of 3.0 or higher may petition the Office of the Registrar to carry a maximum of 21 credits.

The minimum full time load is 9 credits for those in graduate degree programs. Those carrying less than the full time load but 7 or more credits are considered three-quarter time. Graduate students carrying 5 to 6 credits are considered half time students. And, graduate students carrying fewer than 5 credits are considered less than half time.

### Repeated Courses

Undergraduate students are permitted to repeat courses in which they have earned a D+ or lower grade. Graduate students are permitted to repeat courses in which they have earned a C+ or lower grade. All instances of a repeated course must be taken at Biola in order to impact the student’s GPA. Both grades continue to show on the student’s academic transcript. When a course is repeated the exclude indicator (E) will occur in the Course Repeat Indicator column beginning with the first term in which the course was taken.

Undergraduate students who have earned a grade higher than a D+, or graduate students who have earned a grade higher than a C+ may still be permitted to repeat the same course with approval of the Office of the Registrar if their major or degree program requires a higher grade in order to progress in the major or degree program. (See respective major or degree program requirements.)

Students are permitted to repeat a course a maximum of two times. A student unable to pass a required course for their major or degree program after the third attempt is normally required to select another major or degree program not requiring the failed course.

### Final Grades

Final grades will be available at the end of each academic term on My Account (https://myaccount.biola.edu). Any discrepancies must be brought to the attention of the Office of the Registrar within 90 days from the date the grade is posted.
A Talbot student is normally permitted to carry a maximum of 12 credits each semester.

The minimum full time load is 6 credits for those in doctoral degree programs. Those carrying 5 credits are considered three-quarter time. Doctoral students in these programs carrying 3 to 4 credits are considered half time. And, those carrying fewer than 3 credits are normally considered less than half time. D.Min. students must complete 6 credits per semester, 12 credits per year in their program. Doctoral students can be considered full time for a maximum of two to four semesters in the dissertation phase of their program depending on their program (see specific program for details).

The normal expected course load for a Rosemead student is 15 to 16 credits per semester. Without the advisor’s approval, a student may not carry over 16 credits in any semester. Registration of fewer than 6 credits is permitted only after a student has been admitted to candidacy. Rosemead does not admit part time students to its degree programs.

The normal expected course load for a School of Education Masters student is 3 to 9 credits per semester. Without the advisor’s approval, a student may not carry over 12 credits in any semester.

Special Note: Dropping or adding credits may change a student’s enrollment time status (e.g. full, three quarter time, half time, less than half time, etc.) as defined above. Students are responsible for understanding how their Enrollment Time Status impacts their eligibility for various benefits, services, and programs such as, but not limited to financial aid, athletics, immigration, veteran’s and military benefits, social security benefits, and educational loan deferment. Students uncertain as to how their Enrollment Time Status will impact their eligibility should refer to the appropriate part of the University catalog and/or inquire of the appropriate University office(s).

Credit Hour Policy

Undergraduate

A single credit hour at the undergraduate level represents a minimum of three hours (50 minutes per hour) of substantive learning time per week over the course of a fifteen-week semester. Terms or courses shorter than 15 weeks adjust the distribution of the substantive learning time yet still represent the same total number of substantive learning hours.

Graduate/Doctoral

A single credit hour at both the graduate and doctoral level represents a minimum of four hours (50 minutes per hour) of substantive learning time per week over the course of a fifteen-week semester. Terms or courses shorter than 15 weeks adjust the distribution of the substantive learning time yet still represent the same total number of substantive learning hours.

A ‘substantive learning hour’ is considered to be the equivalent of 50 minutes of faculty-student interaction, classroom instruction, online or distributed learning, appropriate experiential learning, and/or studying, writing, reading, or research.

Independent Study/Arranged Course

An Independent Study is a course which is initiated by the student, who then works independently toward the goals and objectives outlined by the professor on the Arranged Course form. Students who are in good standing are eligible to enroll in an Independent Study. A maximum of 6 credits, may be taken by a student in Independent Study, and/or arranged coursework during the student’s degree program. An Arranged Course Fee is required at the time of registration.

For Talbot students, a distinction is made between these two kinds of courses. Please see the Talbot School of Theology section for more information.

Classification of Students

A student’s classification is determined at the beginning of each semester according to the following plan:

Undergraduate

Freshmen: 26 credits or fewer completed
Sophomore: 27–56 credits completed
Junior: 57–87 credits completed
Senior: 88 credits or more completed

Graduate

Graduate Student: All credits earned at the postbaccalaureate, graduate, or doctoral levels.

Numbering of Courses

The course numbering system is designed to indicate the relative academic level of courses in this manner:

| 000–099 | Remedial or developmental courses |
| 100–299 | Undergraduate, lower-division, baccalaureate level courses |
| 300–499 | Undergraduate, upper-division, baccalaureate level courses |
| 500–799 | Graduate level, normally indicating first through third year beyond baccalaureate |
| 800–999 and 8000s | Postgraduate level, indicating forth year beyond baccalaureate |

Biola University reserves the right to change any and all student charges, modify its services, or change its curriculum or programs of study should economic conditions, curricular revisions, or other relevant factors make it necessary or desirable to do so. While every effort is made to ensure the accuracy of the information in this catalog, Biola University has the right to make changes at any time without prior notice.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

   A student should submit to the appropriate office, a completed Student Request to Inspect Educational Records form that identifies the record(s) the student wishes to inspect (this form, and all forms referenced in this document can be accessed through the Office of the Registrar’s website [http://studenthub.biola.edu/ferpa/]). The University official will make arrangements for access and notify the student of the time and place where the records may be inspected.

   If the records are not maintained by that office, the student may contact the Office of the Registrar to inquire about the correct official or department to whom the request should be addressed.
2. The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A student who wishes to ask the University to amend a record should submit a completed Appeals Form to the Office of the Registrar clearly identifying the part of the record the student wants changed and specifying why it should be changed. If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the University discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent. ‘Directory Information’ however, is generally available to third parties unless otherwise requested by the student. In general, a signed consent of release is necessary for the release of any ‘Non-Directory Information.’ Some elements of personally identifiable information designated by the University as ‘Directory Information’ are made available to third parties unless otherwise requested by the student. (See Directory Information Public Notice below for more information regarding ‘Directory’ and ‘Non-Directory’ information and your right as a student to request heightened confidentiality.)

The University discloses education records without a student’s prior written consent under the FERPA exceptions for disclosure, such as release to school officials with a legitimate educational interest. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student or volunteer serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University. Upon request, the University also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

**Directory Information Public Notice**

Under the standard protection of FERPA, a signed consent of release is necessary for the release of any ‘Non-Directory Information.’ Certain information designated as ‘Directory Information’ may be disclosed without the consent or knowledge of the student unless the student has notified Biola in advance that such information is not to be released (see below). ‘Directory Information’ at Biola is defined as:

- Photo
- Name
- Telephone Listing
- E-Mail Address
- Date and Place of Birth
- Major Field of Study
- Participation in Officially Recognized Activities and Sports
- Weight and Height of Members of Athletic Teams
- Student Status (e.g. Enrolled, Withdrawn, Graduated, etc.)
- Enrollment Time Status (e.g. Full Time, Half Time, etc.)
- Student Classification (e.g. Freshman, Junior, etc.)
- Dates of Attendance
- Degrees and Awards Received
- Most Recent Previous Educational Agency or Institution Attended

The purpose of establishing this definition of ‘Directory Information’ is to notify the student of the types of personally identifiable information included in this definition of ‘Directory Information’ and to allow the student to prevent the disclosure of this information should he or she wish to do so. The student may request that his/her ‘Directory Information’ remain confidential and therefore be treated as ‘Non-Directory Information.’ To do so, the student must change his/her confidentiality level to Total Confidentiality. Students may request changes to their level of confidentiality in writing with the Office of the Registrar.

**Implications of Requesting Total Confidentiality to Student Records**

Students requesting Total Confidentiality should familiarize themselves with the various implications associated with this heightened, optional level of privacy. The following are some, but not all, of such implications. All students who do not request Total Confidentiality will be assigned Standard Confidentiality which entitles them to all of the regular protective provisions of FERPA as described in the Notification of Student Rights under the Family Educational Rights and Privacy Act (FERPA) above.

Students requesting Total Confidentiality should be aware that this will prevent the acknowledgment of their enrollment and the release of any and all ‘Directory Information’ by the University to potentially interested third parties such as parents, spouses, children, other family members, potential employers, and the like. To authorize the release of the ‘Directory Information’ of students with Total Confidentiality, the student must complete and submit a General Student Consent of Release of Educational Record(s) form to the Office of the Registrar as described above.

Students who have requested Total Confidentiality will also be omitted from some internal University and departmental communications. Student athletes, and other students who represent the University in an official capacity, should consult with the athletic team or supervising department concerning the relevant logistics of requesting and maintaining Total Confidentiality while serving as an official representative of the University. Students who have requested that their information remain confidential will not be listed on such things as honor lists (Dean’s list, EKE, etc.), and they will not have their names printed on the graduation bulletin nor read at the commencement ceremony when they graduate unless a specific written request is submitted to the Office of the Registrar.
Alumni and former student educational records will be treated according to the last privacy level selected by the student prior to their graduation or withdrawal from the University.

The University is not responsible for the retraction or amendment of any and all student information legitimately released to a third party prior to the Student’s request for Total Confidentiality. The requesting student is responsible to coordinate such desired retraction/amendment directly with the third party recipient and/or any other third parties the information was subsequently redisclosed to.

**Request a Change to Your Confidentiality Level**

Students may request changes to their level of confidentiality in writing with the Office of the Registrar.

**Transcript Requests**

Students or alumni may view Biola’s transcript policies and request transcripts online (https://studenthub.biola.edu/transcripts/). Telephone, e-mail, and in-office requests will not be accepted. All transcript requests require payment upon ordering and the signature of the student. Processing time is 1–2 business days. Official transcripts cannot be faxed.

This policy is in compliance with the Family Educational Rights and Privacy Act of 1974 (Buckley Amendment).

**Name Changes**

All name change requests by marriage, divorce or court order must be accompanied by a copy of the legal action which changes the individual’s name, only if the name change occurs during enrollment. You must provide official documentation in the form of a valid Social Security card plus an additional valid alternate identification.

**Extracurricular Activities**

All groups or individuals who represent the University must manifest satisfactory cooperation, spiritual life and scholastic attainment (the overall grade point average must be 2.00), and must be approved by the faculty.

**Degrees Offered**

**Cook School of Intercultural Studies**

- The Bachelor of Arts degree with majors in Anthropology and Intercultural Studies.
- The Master of Arts degree in Anthropology, Applied Linguistics, Intercultural Studies, Linguistics and Ancient Languages, Missions, and TESOL.
- The Doctor of Intercultural Studies.
- The Doctor of Philosophy degree in Intercultural Education, and in Intercultural Studies.

**Crowell School of Business**

- The Bachelor of Science degree with majors in Accounting, Business Administration, and Business Management.
- The Master of Business Administration degree.
- The Master of Management degree in Nonprofit Organizations.
- The Master of Professional Accountancy degree.

**Rosemead School of Psychology**

- The Bachelor of Arts degree with a major in Psychology.
- The Bachelor of Science degree with a major in Applied Psychology.
- The Master of Arts, the Doctor of Psychology and the Doctor of Philosophy degree in Clinical Psychology.

**School of Cinema and Media Arts**

- The Bachelor of Arts degree with majors in Cinema and Media Arts and Game Design and Interactive Media.

**School of Education**

- The Bachelor of Arts degree with majors in Liberal Studies, Elementary Education; and Liberal Studies Multidisciplinary.
- The Bachelor of Science degree with a major in Early Childhood Education.
- The Master of Arts in Education degree.
- The Master of Arts in Teaching degree.
- The Master of Science in Curriculum and Instruction, and Special Education degrees.
- Certificates in Curriculum and Instruction, Special Education, and Teaching (ACSI); as well as Child Development Permits and Teacher Preparation Program.
- Credentials in Education Specialist Instruction, Preliminary, and Clear Credential.

**School of Fine Arts and Communication**

- The Bachelor of Arts degree. Offered with majors in Communication Studies, Journalism and Integrated Media, Music, Public Relations and Strategic Communications, and Theatre.
- The Bachelor of Science degree. Offered with majors in Art, Design, and Public Relations and Reputation Management.
- The Bachelor of Fine Arts degree with a major in Studio Art.
- The Bachelor of Music degree. Offered with majors in Music Composition, Music Education, Music Performance, Music Therapy, and Worship Arts.
- The Master of Science degree with a major in Public Relations and Reputation Management.

**School of Humanities and Social Sciences**

- The Bachelor of Arts degree. Offered with majors in English, History, Interdisciplinary Studies, Philosophy, Political Science, Sociology, and Spanish.

**School of Science, Technology and Health**

- The Bachelor of Science degree. Offered with majors in Applied Physics, Biochemistry, Biological Science, Biological Science: Secondary Instruction, Chemistry, Communication Sciences and Disorders, Computer Science, Engineering Physics, Environmental Science, Health Science, Human Biology, Kinesiology, Mathematics, Nursing, Physical Science, Physics, and Public Health.
- The Master of Science in Nursing Education degree.
- The Master of Science in Speech-Language Pathology degree.

**Talbot School of Theology**

- The Bachelor of Arts degree with a major in Bible, Theology, and Ministry.
- The Bachelor of Science degree with a major in Biblical Ministries.
- The Master of Arts degree.
• The Master of Arts degree - Classical Theology.
• The Master of Arts degree - Christian Apologetics.
• The Master of Arts degree - Science and Religion.
• The Master of Arts in Christian Education degree.
• The Master of Arts in Christian Ministry and Leadership degree with specializations in Christian Ministry and Leadership, Pastoral Care and Counseling, Preaching and Pastoral Ministry, and Women’s Ministries.
• The Master of Arts in Marriage and Family Therapy.
• The Master of Arts in Spiritual Formation and Soul Care degree.
• The Master of Divinity degree.
• The Master of Theology degree.
• The Doctor of Ministry degree.
• The Doctor of Education degree, and the Doctor of Philosophy degree, both in Educational Studies.

Planning a Major Program
When students have selected a major field, they should study all the requirements that are specified in this catalog under their chosen degree program. They should make a tentative semester by semester plan for completing the requirements, including prerequisites, and discuss this plan with an advisor in the major.

In addition to courses in the major department, related courses in other fields and supporting courses in basic skills may also be required. These should be included in the tentative semester by semester plan.

Some departments require an application to the department and acceptance; and or placement tests prior to admission to classes. The times and places for the tests are determined by the department. Students should contact departments for testing times.

Change of Major or Degree
To change a major or degree a student must:

Undergraduate
• Obtain the form from the Office of the Registrar and obtain the signatures from your current and new majors, or
• If changing to a degree program in another school, submit a full application.

Graduate
• If changing to a degree program at the same degree level within a school, select the appropriate Change of Program Form from the bottom of the Student Hub webpage (https://studenthub.biola.edu/choose-major/), and submit the completed form to the office of Graduate Admissions.
• If changing to a degree program within another school, submit a full application.

Major changes submitted after the second week of the semester are effective for the following semester.

A student may not avoid a requirement of Admission by a change in status. Whenever students change major or degree, they follow the catalog for the academic year in which they make the change.

Students are not allowed to change programs while on probation in their current program. They must clear their present academic status before changing to a new degree program.

Double Degree
Students seeking a second baccalaureate degree must complete a minimum of 30 unique credits with 24 unique upper-division credits in a second area of major studies. A minimum of 150 total credits are required for graduation with a double degree. All prerequisites, supporting courses and departmental requirements for each major must be completed.

Students must confer with the departments in which they will major and with the Office of the Registrar.

Double Major
A student may graduate with two majors. The following information is for those pursuing two majors within the same degree:

1. All prerequisites, supporting courses and departmental requirements for each major must be completed.
2. The second major must have a 'minimum' of 18 upper-division credits unique to that major (i.e., minimum of 48 major credits and 138 total credits required — see individual major requirements). Students must
Students who wish to declare a minor to further hone their studies beyond their major are encouraged to do so. A minor requires a minimum of 18 credits, 9 of which must be upper-division. A minimum of 9 credits must also be unique to the minor (not counted toward any other requirements, including minoring in the same department as the major). Students may earn a minor of a different emphasis within the same department as their major. For sound academic reasons and with the approval of the Undergraduate Curriculum Committee, a school or department may offer a minor with as few as 6 upper-division credits and/or as few as 6 credits unique to the minor. At least 6 credits for the minor must be taken as Biola coursework. Students should seek academic advising from the schools or departments in which they will minor and also confer with the Office of the Registrar regarding each minor’s specific requirements.

Writing Competency Requirement

Every Biola student must fulfill the Writing Competency Requirement (WCR) before graduation. The WCR evaluates a student’s ability to write English prose that is clear, organized and appropriate for its given disciplinary context. Students fulfill the WCR by passing ENGL 313 — a required Core class — with a C+ or better. Students who pass ENGL 313 with a C or lower, thus still passing the Core curriculum requirement but failing the embedded WCR, must consult with their major advisor for an alternative method of completing the WCR. This alternative method may consist of submitting a portfolio of upper-division writing to the student's department for review, or the student may be asked by the department to enroll in ENGL 210 (see below). Students in this situation must pass the alternative WCR with a C+ or better.

It is strongly recommended that all students enroll in ENGL 313 in the Fall or Spring semester of their junior year. Some majors require that students take the course in a specific semester — students should consult with their major advisor about this requirement. Students who postpone taking the course risk graduating late.

Students with more than one major, like all undergraduate students, are required to take only one section of ENGL 313. Passing the course with a C+ or better will fulfill the WCR for all majors. In most cases, students with more than one major who pass the course with a C or lower must complete the alternative WCR method in one major. However, students must consult with all major advisors to coordinate an alternative WCR method most appropriate for their combined majors.

Students who have tried and failed to fulfill the WCR through ENGL 313, and have also failed the alternative method must enroll in ENGL 210. As with the previous attempts, students fulfill the WCR by passing ENGL 210 with a C+ or better.

A notation will be made on the student’s transcript once the WCR has been fulfilled.

It is strongly recommended that students pass or are on track to pass the WCR by the time they turn in their Graduation Petition.

Students are encouraged to take their ENGL 313/WCR portfolios to the Rhetoric & Writing Center (http://biola.edu/writing-center/) before submitting them.

First Year Seminar Requirement

All students are required to complete a First Year Seminar (GNST 102) course. This requirement is waived for students with more than 12 transferable credits from a college or university (excluding AP, IB, dual credit, or CLEP).

Undergraduate Graduation Petition

Graduating seniors must file a ‘Graduation Petition’ form with the Office of the Registrar, meet with their graduation counselor, and submit any departmental checklists. Graduation Petitions must be submitted to the Office of the Registrar by the time a student has completed 88 credits. Students who fail to submit a completed Graduation Petition by the time they have achieved 88 credits will not be able to register for future courses until their petition has been submitted. In addition, students who fail to submit their petition before their graduating term will be charged a late graduation petition fee. This fee will be assessed for any petition submitted after the last day of the Add period of the student’s desired term of graduation. No petitions will be accepted after November 15th for Fall commencement and April 15th for Spring commencement. Thereafter, the student must participate in the next available commencement ceremony.

Requirements for All Baccalaureate Degrees

1. All baccalaureate degrees require a minimum of 120 degree applicable credits for graduation. Each major consists of a minimum of 30 credits of which 24 must be upper-division. For specific major requirements please see indicated major listings. In the case of repeated courses, only the credits from one of the repeated courses apply.

2. All academic requirements must be completed/fulfilled. Approval of the student’s graduation petition must be obtained from the major advisor and a graduation counselor in the Office of the Registrar at least one year before graduation. During their last year, students anticipating graduation should take a normal academic load of 18 credits to ensure completion of degree requirements. Those students who wish to take more are expected to notify their graduation counselor. Approval for additional credits beyond the norm will be made through the Office of the Registrar.

3. A minimum of 30 credits must be taken at Biola University, at least 15 credits (upper-division level) in the major field. Biola has a residency requirement for biblical studies. Of the 30 credits of Bible required of all students, 15 credits must be taken at Biola. Transfer credit, credit for prior learning, credit by examination and off-campus programs may not be used to fulfill the minimum residency requirement.

4. A minimum ‘C’ average (or a 2.0 grade point average) in the major and a cumulative GPA of 2.0 taken at Biola University. (Note: GPA requirements are higher in some majors. See departmental requirements.)

5. All transcripts counting toward graduation must be received by the Office of the Registrar prior to November 15th for Fall commencement and March 15th for Spring commencement.

6. All students who have entered the University Fall 1986 or later and who will be graduating in Spring 1990 or later must pass the Writing Competency Exam.

Note: All graduation requirements may be met within four school years by carrying approximately 16 or 17 credits each semester. Students may still be graduated within four years if they wish to take a lighter load and enroll in Summer Session.
Graduation Honors - Undergraduate Programs

Honors at graduation for baccalaureate recipients are based on grade point average, overall performance, Christian values, and a minimum 60-credit residency. Honors are not automatically granted. Faculty may raise the standards at any time. Honors are granted by the faculty and may be denied or higher standards may be applied. The University honors have been defined by the Academic Standards Committee as:

<table>
<thead>
<tr>
<th>Honor</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum Laude</td>
<td>3.50–3.69</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.70–3.89</td>
</tr>
<tr>
<td>Summa Cum Laude</td>
<td>3.90–4.00</td>
</tr>
</tbody>
</table>

Honors recognized in the graduation ceremony may be changed based on the processing of final grades. GPA standards for honors must be met with no rounding of numbers. Graduate students should check with their program section in the catalog for honors qualification.

Honor Society

A select group of eligible seniors are chosen by the faculty each year to membership in Epsilon Kappa Epsilon, the baccalaureate honor society of Biola University. To be eligible for membership, a student must have a cumulative GPA of 3.75 or higher and must have completed 80 credits at Biola prior to the semester of graduation. Final selection is based upon scholastic performance, Christian witness and contributions to the Biola community. Membership is limited to no more than 7% of the fall graduating class and 5% of the spring graduating class.

Graduate Programs

Graduate Graduation Check

Graduate students must make an appointment with a Graduate Graduation Counselor in the Office of the Registrar to declare their intent to graduate. This should be done one year prior to graduation. Students declaring this intention late will be charged a late graduate graduation check fee of $100. This graduation check will be considered late after the last day of Add/Drop during the semester of a student’s intended graduation.

For students graduating in the Spring, after April 15th students will not be allowed to be added to the graduation lists regardless of payment of the fee. For the Fall, the date is November 15th, after which no students will be added to the graduation lists.

For all schools except Talbot School of Theology, students will need to meet with their department advisor(s) prior to meeting with a Graduate Graduation Counselor and bring the paperwork provided by that advisor. Doctoral students (including those from Talbot) must meet with their department advisor prior to contacting a Graduate Graduation Counselor.

Requirements for all Graduate Degrees

Refer to individual degree programs for specific requirements for graduation.

1. All academic requirements must be completed and approval of the student’s intent to graduate by his or her department advisor and a Graduate Graduation Counselor in Office of the Registrar, must be obtained one year before graduation. See Graduate Graduation Check above for more details.
2. All course work during the final semester, which will be applied toward graduation requirements, must be taken at Biola University.

Transfer credits, via an official transcript, must be received by the Office of the Registrar by the first day of a student’s graduating term.
3. A minimum of 24 credits must be taken at Biola University in the degree program.
4. A minimum of 24 distinct credits must be completed at Biola in any additional graduate degree at the same level. This applies to the second (or additional) degrees and double degrees taken at Biola for all graduate programs except Talbot (see Talbot section of this catalog).
5. All requirements (i.e. substitution request forms, Capstones, Th.M. comprehensive exams) counting toward graduation must be received by the Office of the Registrar prior to November 15th for Fall commencement and April 15th for Spring commencement.

Double Emphases

A minimum of 12 credits must be taken that are unique to the second emphasis. (i.e., Talbot: a minimum of 78 credits for two emphases in the M.A. and a minimum of 110 credits for two emphases in the M.Div. degree). All prerequisites, supporting courses, and departmental requirements for both of the emphases must be completed prior to the single commencement. The student must receive the approval of both the departments and approval of the Office of the Registrar.

Second Master's Degree

Students seeking a second master's degree must complete a minimum of 24 distinct credits in a second area of major study, taken at Biola University. All prerequisites, supporting courses and departmental requirements for each degree must be completed prior to graduation. The student must receive approval from both the academic departments and the Office of the Registrar. The student may choose to graduate with both degrees at one commencement or different commencements. A student may petition the Registrar and the school faculty to surrender the certificate toward a Master’s or M.Div. degree.

The programs in Talbot School of Theology are accredited by the Association of Theological Schools (ATS). ATS requires a minimum of 50% of coursework in a second Master of Arts or Master of Divinity degree program be taken in residency (i.e., 50% cannot be shared with any other completed master’s level program). (ATS Standards, 1998).

Graduation Honors

Honors at graduation for master’s program recipients are based on grade point average, overall performance, Christian values, and a minimum 24-credit residency. Honors are not automatically granted. Faculty may raise the standards at any time. Honors are granted by the faculty and may be denied or higher standards may be applied. The University honors have been defined by the Academic Standards Committee as:

<table>
<thead>
<tr>
<th>Honor</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Honors</td>
<td>3.50–3.69</td>
</tr>
<tr>
<td>High Honors</td>
<td>3.70–3.89</td>
</tr>
<tr>
<td>Highest Honors</td>
<td>3.90–4.00</td>
</tr>
</tbody>
</table>

Honors recognized in the graduation ceremony may be changed based on the processing of final grades. GPA standards for honors must be met with no rounding of numbers. Graduate students should check their program section in the catalog for honors qualification and honor society recognition.

Graduation Honors - Undergraduate Programs

Honors at graduation for baccalaureate recipients are based on grade point average, overall performance, Christian values, and a minimum 60-credit residency. Honors are not automatically granted. Faculty may raise the standards at any time. Honors are granted by the faculty and may be denied or higher standards may be applied. The University honors have been defined by the Academic Standards Committee as:

<table>
<thead>
<tr>
<th>Honor</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum Laude</td>
<td>3.50–3.69</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.70–3.89</td>
</tr>
<tr>
<td>Summa Cum Laude</td>
<td>3.90–4.00</td>
</tr>
</tbody>
</table>

Honors recognized in the graduation ceremony may be changed based on the processing of final grades. GPA standards for honors must be met with no rounding of numbers. Graduate students should check with their program section in the catalog for honors qualification.
Post-Graduate Transfer Credit

Normally, only 6 credits of transfer credit are allowed toward doctoral degrees. However, for the Cook School of Intercultural Studies additional course reductions will be considered for Master’s and doctoral level work that duplicates some foundational and Biblical studies course work.

Commencement

Students who wish to participate in a graduation commencement ceremony must submit a graduation petition and meet with a graduation counselor. All degree requirements must be completed before the student may participate in commencement ceremonies. For each commencement, all requirements must be completed before participating in the ceremony.

All graduating students are expected to be present at commencement ceremonies, except in cases of extreme emergency or other similarly difficult circumstances. Permission to graduate in absentia must be secured at least one month prior to commencement from the Office of the Registrar.

Graduation Rate Disclosure

The average six-year graduation rate for the full-time, degree-seeking, first-time undergraduate cohorts who entered Biola University in Fall 2013 and three years prior is 73.0%. This graduation rate is used to estimate the number of graduates from a first-time undergraduate cohort who may complete their degrees. Some of our undergraduate degree programs require more credits to graduate and may require more than four years to complete.
Undergraduate Requirements and Policies

High School Record

An applicant for regular standing must be a graduate of an accredited high school with a scholastic record (including SAT or ACT scores) which indicates ability to pursue higher education successfully.

Biola University welcomes applications from students who have been home-schooled. A transcript showing high school work completed, SAT or ACT scores, and an application essay are required. GED scores may be requested at the discretion of the Director of Admissions. Students must be 17 years of age by the time of enrollment at the University. Home-schooled students are eligible to qualify for all merit scholarships.

The applicant must have a high school diploma. The following is a recommended college prep curriculum: English (four years), mathematics (three years), science (two years, including a laboratory science), foreign language (four years), social science (two years). Additional high school course electives are recommended as well. Prospective students interested in the nursing program are encouraged to take chemistry and algebra in high school.

Applicants are urged to have at least two years in one foreign language in high school. Students who complete 4 years of high school studies in the same language may have four credits of the foreign language requirement waived. Students who have completed one or more years of study in a language they will study at Biola must take a placement exam to determine their correct course placement. Students with no foreign language in high school, or those wishing to begin a new language in college to meet the Core Curriculum requirement, must take 4 to 8 credits of foreign language, depending on their major. Catalog information regarding each major will indicate any exceptions to this rule.

Admission Procedure

The following must be filed in seeking admission:

1. The personal application form. The application for admission must be accompanied by a $45 non-refundable application fee.
2. An official high school transcript. The applicant should request the high school to send this directly to the Office of Admissions. High school transcripts are not required for transfer students with 15 or more transferable credits.
3. An official transcript sent directly to the Office of Admissions from each school the applicant has attended since high school. To be considered official, transcripts must be sent directly to Biola by the previous institution(s) attended. This includes schools attended for even part of a semester. Those applying to the education or nursing programs should have an additional copy of each school’s transcript sent directly to the appropriate department.
4. The scores of the Redesigned SAT or the ACT must be submitted. Information regarding testing dates may be secured from a high school counselor. Applicants are encouraged to take the Redesigned SAT or the ACT no later than the January testing date.
5. An application essay. Students must send in their response to the provided essay prompt in order to complete their application.
6. The regular application deadline for fall is March 1 and for spring is November 15. Applications may be submitted after deadlines (late fee of $55), and will be considered and processed if space is available and time allows.

Official documents presented for admission or evaluation become part of the student’s academic file and cannot be returned or copied for distribution.

Home-Schooled Students

Home-schooled students seeking admission can apply by one of two means:

Standard Procedure

Applicants must submit an application along with high school transcripts, SAT or ACT scores, and an application essay. Contact Office of Admission for transcript guidelines.

Procedure Without Transcripts

Applicants must submit an application along with the GED or State Certificate of High School Proficiency, SAT or ACT scores, and an application essay.

Please contact the Biola Transfer Counselor or the Transfer Evaluator with any questions regarding courses at a community college.

Notification

Applicants who are granted acceptance are required to validate their acceptance by the payment of an enrollment deposit of $300 (non-refundable after May 1).

Accompanying the letter of acceptance will be a health form, which must be properly completed by both the applicant and the applicant’s physician prior to enrollment. A medical consent form is also required of single students under the age of 18 at the time of entrance.

Transfer Students

Transfer students must present the same application forms and transcripts as those applying for freshman standing. The Office of the Registrar has final authority for the release of transfer credits into Biola University.

Transfer students with fewer than 15 semester credits of regular college work must qualify for admission on the basis of both their high school and their college record. Those transferring with 15 semester credits or more of college work will be considered primarily on the basis of their college grades. A cumulative GPA of 2.5 is required for admission to
Biola. A minimum grade average of "C-" (1.67) is required to transfer college credits into Biola on each course attempted at the college level.

Transfer students will not be required to take the SAT Reasoning Test or the ACT or submit high school transcripts if 15 or more semester credits of college level coursework is completed prior to enrollment.

Transfer students coming from institutions which are not accredited or recognized may be given the opportunity to validate credits through the College Level Examination Program or through consultation. Information on this procedure is available from the Office of the Registrar. Provisional credit for liberal arts courses from non-accredited institutions will be granted in accordance with the policies of state colleges or universities of the state in which the institution is located. Provisional credit is considered validated only when the student performs at the "C" level or better following enrollment in Biola University.

College-level credit earned during the 9th through 12th grades will be given credit. A combined maximum of 32 credits will be awarded for all forms of advanced credit options including AP, CLEP and IB.

See Biola University’s Transfer Policy (http://studenthub.biola.edu/undergraduate-transfer-policy/) for additional information.

Transfer of Credits

A student may transfer a maximum of 70 credits from community colleges. Upper-division credit cannot be allowed for courses taken at a community college. Final authority for the acceptance of transfer credits into Biola University rests with the Office of the Registrar. Current students taking courses at local community colleges while enrolled at Biola should request written prior approval of courses in order to assure that transfer credit will meet the needs of their curriculum. No course below a "C-" (1.67) grade will be transferred from another institution. Vocational or technical courses will not be accepted for University credit. Admission counselors are prepared to give academic advisement to those attending, or planning to attend, community colleges with the intention of transferring into Biola University.

Transcripts must be official transcripts from an accredited institution sent directly from the institution to Biola in order to be recognized and officially evaluated for credit transfer. Any transcript that is hand carried or mailed from the student will be considered unofficial and the student will need to re-order a new transcript.

All students are required to take a minimum of 24 credits of upper-division in their major, 15 of which must be taken at Biola University. Biola has a residency requirement for Biblical Studies — of the 30 credits of Bible required for all students, 15 credits must be taken at Biola.

Grades do not transfer — only credit amounts. A student’s grade point average is computed only on work completed at Biola University.

Courses taken as a Pass/Fail or Credit/No-Credit grade are not recommended, as they may not meet the grade requirement for transfer of “C-" or better.

Non-music majors are limited to a maximum of 8 credits of applied music (including ensembles), and non-physical education majors are limited to 8 credits of physical education or skill courses.

A course taken at a community college or a lower-division class from a four-year school will not be given upper-division credit toward graduation requirements, even if the course content is approved by a Substitution Request.

Prior Learning Assessment (PLA)

Biola University follows the guidelines developed by the Council for Adult and Experiential Learning (CAEL) to award credit or advanced standing for documented and experiential learning. PLA is designed to assist adult learners in attaining academic and career goals by validating college-level experiential learning through demonstration of mastery of course level learning outcomes.

- PLA methods at Biola consist of challenge exams and portfolio.
- PLA credit may only be earned for approved courses in Biola’s catalog.
- A maximum of 25% of the degree may be fulfilled through all forms of PLA (excluding external standardized examinations such as ACE, AP, CLEP, IB, etc.).
- The process for PLA credit must be completed prior to the beginning of the student’s last semester required for degree completion.

In order to be eligible for credit through PLA, students must:

1. Be fully admitted into a Biola degree program.
2. Have discussed PLA options with an academic advisor, success coach, and/or department chair.
3. Apply and be approved to participate in PLA.
4. For PLA portfolios, students must pass GNST 106 Portfolio Development for Prior Learning Assessment with a “C” or better.
5. Enroll in the appropriate challenge exam or portfolio course and pay the assessment fee.

1 GNST 106 is a one-credit course offered online each semester which guides the student through completion of the PLA portfolio process. GNST 106 may be waived by the appropriate department chair.

PLA Portfolio Appeals Process

Students who have been denied credit or waiver of course requirement based on their original portfolio submission may appeal within 30 days of the decision. To appeal a student must complete the following steps:

1. Students must complete the PLA Appeals Form.
2. Upon approval of the PLA Appeals Form, students must submit their PLA portfolio with clarification in the learning narrative and/or additional supplemental documentation.
3. Students are required to pay a fee for resubmission of the PLA portfolio.

Distance Education

Biola University will accept credit for equivalent courses from schools accredited by regional or national agencies recognized by CHEA (Council for Higher Education Administration), including online or correspondence courses.

Bible Residency Requirement

Biola has a residency requirement for biblical studies. Of the 30 credits of Bible required of all students, 15 credits must be taken at Biola. Transfer credit, credit for prior learning, or credit by examination may not be used to fulfill the minimum residency requirement. Majors other than Bible, Theology, and Ministry may count a maximum of 30 Bible (BBST) credits toward graduation.
Core Curriculum Options for Transfer Students

Transfer students may fulfill their Core Curriculum requirements by completing Biola University’s Core Curriculum, completing the Intersegmental General Education Transfer Curriculum (IGETC), or completing CSU Breadth.

The IGETC/CSU Breadth model for either the University of California (UC) or the California State University (CSU) systems is accepted by Biola University with the following provisions:

1. The current foreign language requirement for all bachelor degrees cannot be completed by the IGETC/CSU Breadth certification.
2. The current ENGL 313 (Writing in the Disciplines) requirement cannot be fulfilled by the CSU Breadth certification.
3. The minimum of 120 credits for graduation will remain the same.
4. In addition to IGETC/CSU Breadth certification, students must take all major-specific Core Curriculum, prerequisite, and support courses if not met through IGETC course selections.
5. Official documentation certifying IGETC/CSU Breadth completion must be received by the Office of the Registrar by the graduation petition deadline (April 15 for spring, November 15 for fall) prior to receiving commencement and/or graduation clearance.

Advanced Placement Program

Biola University, as a member of the College Entrance Examination Board, recognizes the merits of the Advanced Placement Program and will grant credit for Advanced Placement exams taken in high school. Credit will be given when the Advanced Placement examination grade is 3 or better.

A maximum of 32 credits can be awarded for all forms of advanced credit (AP, CLEP, IB, etc.). Torrey students: Math and/or science credits are needed for Core Curriculum credit. All other AP credits will count as elective credits toward graduation.

1. Spanish majors and minors, see the Office of the Registrar.
2. A maximum of 8 credits may be counted for AB/BC/Statistics. Math and computer science majors and minors require an exam score of 4 or 5.
3 AP Physics will not fulfill USC requirements for engineering majors.
4 Psychology majors must have a score of 4 or 5.
5 Acceptance of AP credit depends on the major chosen; see major department for approval. Chemistry, physics, and engineering physics majors require a score of 4 or 5 for math/science AP credit.

International Baccalaureate Program

Biola University will grant credit for IB exams taken in high school. We accept only the higher level exams when the grade is 5 or better. A maximum of 32 credits can be awarded for all forms of advanced credit (AP, CLEP, IB, etc.).

**College Level Examination Program**

Biola University recognizes the College Level Examination Program (CLEP) of the College Entrance Examination Board. Biola University encourages transfer students from non-accredited schools to validate certain credits on the basis of the examinations provided by this program. High school students with superior records are encouraged to take the exams prior to attending Biola University.

Credit will be awarded for CLEP exams, provided no college credits have been attempted or earned in the same field. Students should not take English composition through CLEP. English composition through CLEP does not meet the English Composition requirement.

Students should take CLEP exams as early as possible in their college program to receive the maximum value from them. Biola University reserves the right to determine the score at which credits will be released and the amount of credit awarded.

Unlike other CLEP exams, having previously attempted or completed a college level foreign language course does not preclude a student from taking the exam. A student may take a CLEP foreign language exam without pre-approval from the Office of the Registrar. To obtain credit, the student must seek a higher level of language than previously completed.

A maximum of 32 credits can be awarded for all forms of advanced credit (AP, CLEP, IB, etc.). If the same course is taken at the college level, elective credits cannot be given for CLEP exam. Biola accepts a minimum credit-granting score of 50 or higher (higher score required where designated, see below).

1 Nursing majors may not use the General Chemistry exam to meet the organic/biochemistry requirement.

### Challenging a Course

A student may be able to challenge a course or requirement if the department has a challenge exam available. Check with the specific department to see if a comprehensive challenge exam is available.

By waiver: If a student’s performance on a comprehensive examination demonstrates a good grasp of the course content, an exemption from taking the course may be allowed, but no credit(s) will be given.

By registration: The Nursing, Biblical Studies and Intercultural Studies departments offer some exams for which the student may be granted credits based on the successful completion of the challenge exam. The exams are listed in the course schedule. A fee rather than tuition applies.

Specific information regarding these examinations is available from the Nursing, Bible, and Intercultural Studies departments. Contact the Office of the Registrar for further information.

### Academic Standards

A minimum cumulative grade point average of ‘C’ (2.00) is necessary to graduate. A grade of ‘D’ is normally acceptable as a passing grade in a single course. However, some departments have different standards (for example: Business, Cinema and Media Arts, Communication Studies, the Conservatory of Music, the School of Education, Foreign Language, Journalism and the Nursing departments). Also, ‘D’ quality work in general is normally insufficient to allow the student to progress from one course level to the next. Higher GPA minimums are required before admission to teaching and nursing and other major departments. To determine whether a ‘D’ is an acceptable grade in a required course and to review admissions requirements for a major, check with the appropriate academic department. Students receiving less than a ‘C’ grade in a major course may be required to repeat the course to progress.

Transfer students from other institutions must also maintain an average grade of ‘C’ in all work completed at Biola University as a requirement for graduation since grades from other schools are not calculated into the student’s cumulative grade point average. All students must have a minimum of a ‘C’ average (2.00) in their major coursework.

For policies regarding Academic Standing and Disqualification, see the Academic and Behavioral Standards section of the catalog.

### Core Curriculum Program

The Core Curriculum represents the comprehensive program of liberal arts and sciences integrated with the biblical and theological studies minor which are the hallmarks of a Biola education.

### Mission

Biola University’s Core Curriculum (general education and Bible) provides a Christ-centered, integrated, and intellectually and spiritually transformative education that fosters cultural literacy and humble, purposeful engagement in local and global communities.

### Program Learning Outcomes

Upon completion of the Core Curriculum:

1. **Critical Thinking** - Students will identify and explain a problem or issue, recognize and evaluate concepts and assumptions from multiple perspectives, ask relevant questions, analyze appropriate sources, and articulate logical, well-organized, and innovative conclusions.

2. **Quantitative Reasoning** - Within a variety of authentic contexts, students will analyze or solve quantitative problems (those involving
data, functions, or computations); understand, evaluate, and create well-reasoned arguments supported by quantitative evidence; and clearly communicate quantitative arguments in appropriate formats (words, tables, graphs, equations, etc.).

3. **Oral Communication** - Students will organize content cohesively, use compelling language and delivery that is audience-appropriate, incorporate supporting materials to establish credibility, and reinforce a memorable central message with civility.

4. **Written Communication** - Students will produce well-organized and clear writing, supported by strong, diverse evidence and precise explanation, applicable to its audience and consistent with the conventions of appropriate genres.

5. **Information Literacy** - Students will ethically discover, evaluate, and use information to formulate and address research questions, explain how information is produced and valued in a given discipline, and share their results.

6. **Intercultural Competence** - Students will develop an informed understanding of cultural diversity and respectfully engage people of various backgrounds, through campus, local and global community interactions.

7. **Civic Engagement** - Students will develop an informed understanding of civic roles, rights, freedoms, and responsibilities, and will respectfully communicate and apply key concepts in diverse communities.

8. **Christ-centered Formation** - Students will identify the basic contents of the Bible, explain the major doctrines of Christianity from an evangelical perspective, demonstrate how faith connects to academic disciplines, and articulate the process of spiritual formation in their lives.

9. **Applied and Integrative Learning** - Students will develop an informed understanding of culture-shaping works and perennially influential works, draw connections among them, and apply that knowledge in various contexts.

### Biblical and Theological Studies Requirement

Thirty credits of biblical and theological studies must be included in the program of each traditional student (degree completion students have a different requirement, see below). Each student must take at least one course each semester until the requirement has been fulfilled. The following are required:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBST 103</td>
<td>Biblical Interpretation and Spiritual Formation</td>
<td>3</td>
</tr>
<tr>
<td>BBST 165</td>
<td>Foundations of Christian Thought</td>
<td>3</td>
</tr>
<tr>
<td>BBST 209</td>
<td>Old Testament History and Literature</td>
<td>3</td>
</tr>
<tr>
<td>BBST 210</td>
<td>New Testament History and Literature</td>
<td>3</td>
</tr>
</tbody>
</table>

**Intermediate Courses**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>3</td>
</tr>
<tr>
<td>BBST 316</td>
<td>Gospel of John</td>
<td></td>
</tr>
<tr>
<td>BBST 326</td>
<td>Lukan Writings</td>
<td></td>
</tr>
</tbody>
</table>

**Elective Courses**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBST 300/400</td>
<td>Bible/Theology Elective</td>
<td>3</td>
</tr>
<tr>
<td>BBST 365</td>
<td>Bible Theology and Integration</td>
<td>3</td>
</tr>
<tr>
<td>BBST 465</td>
<td>Integration Seminar 1</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Credits**: 30

1. BBST 465 may be taken with different content for a maximum of 6 credits counted toward graduation.

Students may count only a total of 30 credits of biblical and theological studies courses toward the required credits for a degree (students in the Bible, Theology, and Ministry major may count unlimited BBST credits toward their degrees). Challenge exams are available for BBST 209 and BBST 210 (see Biblical and Theological Studies section).

Part-time students (fewer than 12 credits per semester) are required to include at least one biblical and theological studies (BBST) course within each 15 credits completed at Biola University, unless the 30-credit requirement has been met. Part-time students seeking a degree from Biola University must complete the entire requirement as outlined above. Of the 30 credits of Bible required of all students, 15 credits must be taken at Biola.

</tr>
</tbody>
</table>

Check the catalog to determine which majors require PSYC 200 as a support course. PSYC 200 is required for all majors leading to a teaching credential.
Entrance into ensembles is by audition. Not all ensembles are available for Core Curriculum credit. Credit for ensemble is 1 credit, therefore 3 semesters are necessary to meet the requirement. Non-music majors are limited to a maximum of 8 credits in applied music (including ensembles).

Music majors in Bachelor of Science and Bachelor of Arts programs must select from Art or Communication courses.

Total Credits 0-8

The foreign language requirement is determined by the degree a student is pursuing and the student’s level of proficiency in a second language. All students who have taken Spanish, French or German in high school must take a placement test before registering for language classes.

Students pursuing a B.A. degree must complete 8 credits of language study in the same language starting at the level into which they place. Students who have completed four years of high school studies in a language offered at Biola will have 4 credits of the foreign language requirement waived, if they continue studies in that language beyond the 100-level. Students must complete the remaining 4 credits at the level into which they place. Students who have completed four years of language study in a language not offered at Biola will have 4 credits of their language requirement waived and can complete 4 additional credits in the language of their choice at the level into which they place.

Students pursuing a B.S. degree, who have completed two years or more of high school language study in the same language, will have their language requirement waived. Those with one year or less of high school language study must complete four credits of language study at the level into which they place.

All students are strongly encouraged to satisfy their foreign language requirement during their freshman and sophomore years; the nature of foreign language acquisition makes it difficult to retain one’s level if continuous enrollment in language study is not maintained. The department may require students who enroll at the wrong level to change to an appropriate level. All students are required to demonstrate proficiency at any level above 100 prior to beginning coursework. Students who have completed one or more years of language studies in...
high school, and wish to continue studies in that language at Biola, must be assessed to determine the correct course placement level. Course placement is determined by standardized placement testing prior to registration where available, or by individual conversational assessment conducted by a faculty or adjunct professor. Additionally, a placement exam may also be required if a student does not maintain continuous enrollment in a language program. Repeating a lower level for credit will forfeit all prior experience credit for that level and above. Courses taken at levels below placement level will not count toward the foreign language requirement.

Upon registration, in the case of languages for which Biola cannot offer standardized placement testing online, students will be temporarily placed into courses according to the following guidelines:

- Students with 1 year of high school instruction will place into the 100 level.
- Students with 2 years of high school instruction will place into the 200 level.
- Students with 3 years of high school instruction will place into the 201 level.

These placements are temporary, pending confirmation of proficiency via faculty assessment. A student may choose to study a language other than one previously studied in high school, in which case the student must complete 8 credits (B.A. degrees) or 4 credits (B.S. degrees) in the same language, starting at the level into which they place. Bible, Theology, and Ministry majors and theological studies majors should see the language requirement as stated for their major.

Transfer Courses: Biola's Core Curriculum language courses are 4-credit classes; students who want to receive transfer credit for courses taken elsewhere, or for courses taken for fewer than 4 credits, will be evaluated on a case-by-case basis to establish their proficiency level. In cases of B.A. degrees where a student's transferred courses totaled fewer than 8 credits AND they cannot show proficiency at the 200 level, the student may take the appropriate level class and the lower level requirement will be waived. Only the language requirement is waived; any foreign language credits waived must be replaced by elective credits, except for students who achieved proficiency in the language in high school, and wish to continue studies in that language at Biola. These students are encouraged to visit the Department of Modern Languages for advisement, should they have any questions.

Heritage Speakers: Heritage Speakers of a non-English language may be assessed to determine proficiency as a heritage learner. The lower level requirement will be waived, and they may complete the remaining 4 credits of language study (B.A. degrees) in the language of their choice at the level into which they place. B.S. degree students who pass the language waiver examination will be waived from their 4-credit language requirement. Heritage speakers of Spanish who choose to study Spanish for the Core foreign language requirement must take Spanish Heritage Learner courses (e.g. SPAN 215). Only the language requirement is waived; any foreign language credits waived must be replaced by elective credits of the student's choice, if needed to meet the 120 credit minimum for graduation. There is a $50 fee for taking foreign language waiver examinations. Testing for some languages may require an additional proctoring fee. Examinations are not available in all languages.

International Students: International students for whom English is not a primary language and students who have acquired a foreign language without taking high school or college classes, may be eligible for a waiver, if they pass a foreign language examination. If the examination is passed, 4 credits of foreign language will be waived. The remaining 4 credits (B.A. degrees) may be completed in any language at the level into which they place. Credit is not given for these examinations. There is a $50 fee for taking foreign language waiver examinations. Testing for some languages may require an additional proctoring fee. Examinations are not available in all languages. For advisement, see the Department of Modern Languages. All students for whom English is not a primary language will be able to count 8 credits of English Language Program (ELP) courses toward graduation.

ELP: For students pursuing the B.A. degree, the 8 credits of ELP will satisfy the foreign language requirement unless the student is majoring in Bible, Theology, and Ministry for which the study of Greek or Hebrew is required. For students pursuing the B.S. degree, 4 credits will satisfy the foreign language requirements, and an additional 4 credits may be counted as electives. Exceptions to this policy are noted under the appropriate departments (please note the credit difference per semester for biblical Hebrew and Greek).

Total Credits: 6

An alternate route for meeting the requirement for HIST 200, HIST 201 or POSC 225; and HIST 100 or HIST 101, is to take the appropriate history department proficiency examination. The examinations are given twice a year in September and February. For those students, who pass the examination, upper-division history courses will be substituted in lieu of HIST 200, HIST 201 or POSC 225; and HIST 100 or HIST 101. Appropriate upper-division coursework is determined in consultation with the Department of History and Political Science. World Civilization courses are only required for B.A. degrees.

Kinesiology and Health Science
Each student is required to complete 2 credits of Kinesiology and Health Science (KHS) to be eligible for graduation. Students must complete Lifetime Wellness and a Lifetime Wellness Activity course.

1 Selection is made from the following KNES activity classes: 101, 110, 130, 140, 150, or 201 for School of Education students. Note: First Aid and CPR do not count as KHS activity credit.
Credit for varsity sports may be substituted for the Lifetime Wellness Activity. In addition to Lifetime Wellness and Lifetime Wellness Activity required for Core Curriculum, the student may complete 6 more credits (maximum of 8) to apply towards graduation. Students 21 years of age at the time of entrance to Biola are exempt from the KHS requirement.

Students studying for the multiple subject teaching credential but not selecting physical education as a minor area of emphasis, should select KNES 201.

**Core Curriculum Course Substitutions**

While the Core Curriculum requirement will normally be met from the courses specified in the catalog, in exceptional cases where students have the appropriate prerequisites and where the department in which the course is taught determines that the intentions of the Core Curriculum requirement would be satisfied, students may request permission to substitute an upper-division class for the lower-division course specified in the catalog. Students are to secure written approval for such a substitution prior to taking the class.

**Pre-Professional Programs**

Many opportunities exist for Biola students who are actively seeking professional education and training. Several agreements currently exist...
(chiropractic and engineering) that allow Biola students to participate in degree completion programs leading to specialized bachelor's degrees or both bachelor's degree and a first professional doctorate. Additional opportunities are available that prepare the Biola graduate to enter the professional education/training phase with confidence. A significant number of Biola graduates are currently serving in professional capacities. They routinely cite their excellent undergraduate education programs as predictors of success in their professional endeavors.

Students who are interested in pursuing professional degrees after attending Biola should plan carefully and consult with potential professional schools concerning their requirements. In some cases, assistance from a major advisor should be supplemented by other advising resources available at Biola. The Office of Career Services assists students in various ways. The Biola Office of Health Professions Advising (BOHPA) also mentors students pursuing these careers, provides support for health professional school applications, graduate exam preparation, mock interviews and clinical shadowing experiences. If a student is unsure about pre-professional advising, help should be sought from the Office of Academic Advising, located in Sutherland Hall. The following provides some basic information about pre-professional education at Biola.

**Pre-Chiropractic**

Biola has a unique 3+3 cooperative degree program in conjunction with the Southern California University of Health Sciences (SCU). The student attends Biola for three years and then applies to SCU and enters their program. After taking the required courses in the first 1½ years at SCU, Biola grants a Bachelor of Science degree in Human Biology. Upon the completion of the entire 3-year program at SCU, the student receives a Doctor of Chiropractic from the Southern California University of Health Sciences' Los Angeles College of Chiropractic (LACC).

The needs of society for health care practitioners are changing. Doctors of Chiropractic are providing legitimate, alternative treatment strategies to clients both directly and through HMOs.

Chiropractic medicine has long been known to have a holistic emphasis. Biola provides a context in which to prepare a thoroughly educated Doctor of Chiropractic whose faith is truly integrated with her or his profession.

SCU is located just three miles from Biola, in Whittier, CA. It is a professional school, accredited by the Western Association of Schools and Colleges, and the Council on Chiropractic Education.

**Pre-Dentistry**

Preparation for entrance into dental school is similar to preparation for medical school. Students should contact the dental schools of their choice for specific entrance requirements. Information on the American Dental Association Dental Admission Test can be obtained from the Biola Office of Health Professions Advising (https://www.biola.edu/directory/offices-services/health-professions-advisement/).

**Pre-Medicine**

Students who wish to pursue a career in medicine should plan to build a strong foundation in the sciences and mathematics. Courses in biology, chemistry and physics form the core of this preparation. While almost all students at Biola who are preparing to enter medical school major in biological science or biochemistry with a pre-med concentration, other majors are possible if the student completes all of the core science courses required by the medical school. These include one year of general biology, one year of chemistry, one year of physics, one year of organic chemistry and one semester of calculus.

Medical schools also expect a broad background in the liberal arts such as is provided by Biola's program in Core Curriculum. In addition, Biola's biblical and theological studies requirement and its integration of a biblical perspective in all courses equips the prospective Christian health professional in mind and character to impact the world for Jesus Christ.

A Pre-Medical Advisory Committee helps prepare students for the rigorous application process. In particular, the Pre-Medical Advisory Committee assists with preparation for medical school interviews, as well as generating a committee letter of recommendation. Information about the Pre-Medical Advisory Committee and Medical College Admission Test (MCAT) is available from the Biola Office of Health Profession Advising (https://www.biola.edu/directory/offices-services/health-professions-advisement/). For further information, please consult with either the Department of Biological Science or the Department of Chemistry, Physics and Engineering.

**Pre-Physical Therapy**

Students interested in a career in physical therapy can choose between two majors at Biola. Both of these majors are designed to meet the entrance requirements of doctoral degree programs in physical therapy.

A doctoral degree in physical therapy would be required to work in this field. The options contain a common core of courses, but differ in the courses that complement this core. The choice between the two options depends on a student’s interests, abilities and ultimate career goals. Physical therapy can be practiced in a variety of settings, from sports to schools to hospitals.

The core courses common to both majors include selected courses in biology, chemistry, physics, mathematics and psychology. Pre-physical therapy students can major in kinesiology in the Department of Kinesiology and Health Science, or in human biology in the Department of Biological Science. Consult with either of these departments for the specific details of these programs.

**Pre-Veterinary**

Preparation for entrance into veterinary school is similar to preparation for medical school. Students should contact the veterinary schools of their choice for specific entrance requirements. Courses can be chosen that will focus more on animal biology than human biology. Many veterinary schools require students to take the Graduate Record Exam (GRE) or the Medical College Admission Test (MCAT).

**Other Post-Graduate Health Professional Programs**

Many students are interested in health professional careers in fields such as pharmacy, optometry, physician assistant, podiatry, medical technology, public health, and nutrition. Each of these fields has its own required basic science and Core Curriculum courses; the student is advised to determine these from the catalogs of the schools of interest. In general, Biola offers all of the prerequisite courses necessary for gaining acceptance into these programs. For further information, please consult the Biola Office of Health Profession Advising (https://www.biola.edu/directory/offices-services/health-professions-advisement/).
Pre-Bible Translation

Students interested in working in Bible translation, linguistics, or literacy with organizations such as Wycliffe Bible Translators are able to get Wycliffe-approved undergraduate courses in these areas. These courses are taught by members of SIL and Wycliffe in the Department of Applied Linguistics and TESOL (ALT). For further information about this program, students should contact the SIL office in the Cook School of Intercultural Studies. For information about a minor in applied linguistics, see the ALT chair.

Pre-Engineering

Biola's pre-engineering program is a 3+2 cooperative degree completion program in which a student takes three years of classes at Biola, including the foundational science and mathematics courses of a typical engineering program. In addition, the student takes the biblical studies and Core Curriculum courses to meet Biola's requirements. Biola has a formal arrangement with the University of Southern California that permits the student, if qualified, to complete the remaining two years of an engineering curriculum at USC and receive both the Bachelor of Science degree from Biola in Engineering Physics, and the Bachelor of Engineering degree from USC. Some students in this program elect to transfer to an engineering school other than USC; students interested in this option should contact the school of their choice no later than the beginning of their sophomore year.

Students interested in this program should major in engineering physics with the Department of Chemistry, Physics and Engineering.

Pre-Seminary

Biola University provides an excellent background in undergraduate education for seminary training. Students would be greatly assisted in preparing for their graduate studies by undergraduate courses in areas such as biblical studies, philosophy, logic, history of Western civilization and advanced composition. The pre-seminary student should compare the program at Biola University with the requirements of the particular seminary the student plans to enter. Talbot School of Theology at Biola University offers a number of standard seminary degree programs (e.g., M.A., M.Div., etc.) with a variety of specializations. And, Biola's undergraduate Bachelor of Arts in Biblical Studies offers a specialized track enabling students to earn Talbot's Master of Arts in Preaching and Pastoral Ministry (a two-year degree) with just one additional year of study.

Pre-Speech/Language Pathology and Pre-Audiology

A student wishing to prepare for a career as a speech-language pathologist or audiologist should choose the communication sciences and disorders major. Coursework in this major follows the guidelines of the American Speech-Language-Hearing Association (ASHA) and provides students with an understanding of both normal communication processes as well as communication disorders. Students have the opportunity to begin their clinical training in the on-campus Biola Speech and Language Clinic that provides speech-language assessment and treatment for members of the local community in a carefully supervised setting. Students who complete this major are prepared for the graduate studies necessary to obtain professional credentials.

The communication sciences and disorders major at Biola University is a member of the Council of Academic Programs in Communication Sciences and Disorders and the National Academy of Preprofessional Programs in Communication Sciences and Disorders. In addition, the major has a local chapter of the National Student Speech Language Hearing Association (NSSLHA), which is the American Speech-Language Hearing Association's pre-professional organization for students in communication disorders programs.

Study Abroad and Study USA

General Information

Biola University values experiential and cross-cultural learning. We are committed to providing opportunities for our students to participate in Study Abroad/Study USA programs. These programs offer unique opportunities for students to make the world their classroom, going beyond the confines of the traditional classroom experience. Study Abroad/Study USA programs (https://www.biola.edu/studyabroad/programs/) are vital to fulfilling our mission to educate students in mind and character and to impact the world for the Lord Jesus Christ.

Students are charged Biola's standard on-campus tuition, the program's cost of room (or room and board) and Biola's administrative fee. All students participating in an international Study Abroad program are also required to pay the additional international health insurance fee. Depending on the program, meals may be an additional out-of-pocket expense.

Refer to the Financial Information in the Payment Information section of the catalog for information on individual payment plans for fall and spring Study Abroad/Study USA programs. Participating students may continue to qualify for federal, state and University aid in most fall and spring programs. All students participating in fall and spring Study Abroad/Study USA programs are charged a $500 non-refundable administrative fee.

Under Biola’s Financial Aid regulations, students who attend a Study Abroad/Study USA program are eligible for full financial aid when they commit to graduating in four years or the designated time frame for the major. Students will be eligible to receive study abroad or domestic University Aid for one fall or spring Study Abroad or Study USA program.

Students who are interested in applying to a Study Abroad/Study USA program should contact the Advising Center (study.abroad@biola.edu). All students participating in Study Abroad/Study USA programs must complete:

- Biola's Study Abroad/Study USA application (https://www.biola.edu/studyabroad/next-steps/).
- Study program application (https://www.biola.edu/studyabroad/next-steps/).
- Biola's Graduation Petition (https://studenthub.biola.edu/graduation-requirements-for-undergraduates/).

Curriculum Requirements

It is University policy that students participating in a fall or spring Study Abroad/Study USA program:

- May not be registered in an arranged course.
- Students considering taking courses in addition to their Study Abroad program's courses must obtain permission from the Advising Center and the Office of the Registrar. Additional fees will apply.

Coursework taken through Study Abroad/Study USA programs does not count toward resident credits at Biola for a major or minor. A minimum
of 15 upper-division credits must be taken in residence toward the completion of a major. A minimum of 6 upper-division credits must be taken in residence towards the completion of a minor. Of the 30 credits of Bible required, 15 must be taken in residence. Credits earned through a Study Abroad/Study USA program may be applied to up to 50% of a student’s Biola degree.

Students earning a Bachelor of Arts degree who take a foreign language while participating in a Study Abroad/Study USA program are advised to meet with Academic Advising regarding how these credits may or may not apply toward graduation.

Students are not eligible to participate in a semester Study Abroad/Study USA program in the same semester they intend to graduate.

**Biola Semester Programs**

The initials in parentheses next to the programs listed below represent University transcript codes.

**Biola London (BLS)**

See the Biola London website ([https://www.biola.edu/studyabroad/biola-london/](https://www.biola.edu/studyabroad/biola-london/)) for additional information.

In cooperation with University of Roehampton London, Biola offers a fall semester of study in the United Kingdom. Located near Wimbledon, six miles southwest of the center of London, the program at University of Roehampton gives students the opportunity to experience the British educational system side by side with British and international students, while also learning from the unique historical and cultural settings of London and the British Isles. Biola students can attend the fall program only in their sophomore, junior or senior year, which requires them to apply in their freshman, sophomore or junior year, respectively.

University of Roehampton’s catalog for international students offers a variety of academic disciplines with courses that connect to most Biola majors. When applying to the Biola London program, students select six courses from Roehampton’s catalog that meet the requirements of their Core Curriculum or major — eventually selecting three to take in the fall if they are accepted to the program. Two additional required courses will be taught by an instructor designated by Biola, one of which fulfills the Bible integration requirement (BBST 465) and the other, another upper-division BBST course (BBST 450). In all, students will take five courses in London, totaling 15 credits.

Students interested in the program should inquire with a Study Abroad Advisor in Academic Advising to begin the process of ensuring that there is space in their curriculum for the courses they aim to take in London. Students may take courses that count either toward the Core Curriculum or major requirements.

Application and payment of tuition and room are made through Biola. Seniors are not allowed to attend during the semester in which they will be graduating. Biola requires a minimum cumulative 3.0 GPA to apply, and the application must be approved by the department of the student’s major, the director of the Biola London program and Roehampton University. Applications are available online through the Study Abroad website ([https://www.biola.edu/studyabroad/biola-london/](https://www.biola.edu/studyabroad/biola-london/)). A selection process follows the submission of applications.

Students participating in the program are expected to abide by the rules and regulations of Roehampton University; in addition, they are expected to maintain Biola’s code of conduct. At the end of the semester, Roehampton will forward the student’s transcript to Biola, where it will be interpreted in light of the American grading system.

For contact information, visit the Study Abroad website ([https://www.biola.edu/studyabroad/](https://www.biola.edu/studyabroad/)).

**Biola Student Exchange Program (ISE)**

See the Study Abroad website ([https://www.biola.edu/studyabroad/programs/](https://www.biola.edu/studyabroad/programs/)) for additional information.

The Biola Student Exchange Program provides unique opportunities for Biola students to study at Christian universities in South Korea, Japan and Indonesia. Students can study as exchange students at Yonsei University in South Korea, Tokyo Christian University in Japan, and Universitas Pelita Harapan in Indonesia. Biola students with a GPA of 3.0 or higher may apply for up to two semesters of exchange study.

For contact information, visit the Study Abroad website ([https://www.biola.edu/studyabroad/](https://www.biola.edu/studyabroad/)).

**CCCU GlobalEd Programs**

The Council for Christian Colleges and Universities (CCCU) offers the following semester and summer programs to students of its member institutions. The programs offer a unique opportunity for students to make the world their classroom. These interdisciplinary learning opportunities are available to juniors and seniors, while some programs also accept second-semester sophomores. For further information, contact the Advising Center. A listing of the CCCU GlobalEd programs can be found below.

Interested students can visit the Study Abroad ([https://www.biola.edu/studyabroad/](https://www.biola.edu/studyabroad/)) and the CCCU ([http://www.bestsemester.com/](http://www.bestsemester.com/)) websites.

**American Studies Program (ASP)**

Since 1976, the American Studies Program has served as an experiential learning laboratory for students committed to connecting their faith to public affairs. Nearly 500 of ASP’s 3,000+ alumni have returned to work in the DC metro area in a variety of professional fields — private and public, for-profit and non-profit.

In addition to an internship and the Leadership and Vocation course, students apply to either the Public Policy track or the Strategic Communications track. The Public Policy track equips and supports students in their analysis of a pressing public policy issue. Each student produces original research by engaging area experts and practitioners off-site and in the classroom as they investigate the local, national and global factors that influence policy-making in Washington, D.C. The Strategic Communication track engages communication professionals to explore the role of strategic communication in achieving organizational goals. Field-work activities explore current best practices in communicating critical organizational messages to key internal and external constituents and stakeholders.

For contact information, visit the Study Abroad website ([https://www.biola.edu/studyabroad/](https://www.biola.edu/studyabroad/)).
Australia Studies Centre (ASC)
See the Study Abroad (https://www.biola.edu/studyabroad/) and ASC (http://www.bestsemester.com/locations-and-programs/australia/) websites for additional information and course offerings.

The Australia Studies Centre (ASC) is offered in partnership with Excelsia College, a CCCU affiliate member in Macquarie Park, a northern suburb of Sydney, New South Wales. The ASC curriculum is designed for students interested in international business or nonprofit management to explore their callings and vocation in a cross-cultural setting. Students stay in international dorms with both Australians and students from throughout SE Asia. The fall and spring semesters offer students two different types of experiential learning experiences:

- Fall Semester: During the fall semester, students take classes from ASC staff as well as from instructors at Excelsia College while also having the opportunity to complete an internship in a business or nonprofit setting. Students spend the whole semester in Sydney but do have the opportunity to travel and learn as part of our academic excursions. While excursions may vary from semester to semester, some examples of past trips include excursions to the Australian Outback, Great Barrier Reef, and Aboriginal Communities. ASC students earn between 13 and 17 semester credits.
- Spring Semester: During the spring semester, the group will spend six to seven weeks in Australia, four weeks in Indonesia, and four weeks in Taiwan. Students take classes from ASC staff as well as from instructors at Excelsia College (Australia), Universitas Pelita Harapan (UPH, Indonesia), and Tunghai University (THU, Taiwan). All three of these schools are CCCU affiliate members. Classes are related to topics for students in international business or nonprofit management and include such classes as: Comparative Economics, Social Entrepreneurship, International Marketing, Supply Chain Management, and Managing a Diverse Workforce.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Contemporary Music Center (CMC)
See the Study Abroad (https://www.biola.edu/studyabroad/) and CMC (http://www.bestsemester.com/locations-and-programs/nashville/) websites for additional information and course offerings.

The Contemporary Music Center provides students with the opportunity to live and work in the refining context of community while seeking to understand how God will have them integrate music, faith and business. The CMC offers three tracks: Artist, Business, and Technical. The Artist track is tailored to students considering careers as vocalists, musicians, songwriters, recording artists, performers and producers. The Business track is designed for business, arts management, marketing, communications and related majors interested in possible careers as artist managers, agents, record company executives, music publishers, concert promoters and entertainment industry entrepreneurs. The Technical track prepares students for careers in live sound, concert lighting and studio recording. Students within each of the tracks receive instruction, experience and a uniquely Christ-centered perspective on creativity and the marketplace, while working together to execute a week-long tour at the end of the semester. Each track includes coursework, labs, directed study and a practicum. CMC students earn 16 credits.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Latin American Studies Program (LAS)
See the Study Abroad (https://www.biola.edu/studyabroad/) and LASP (http://www.bestsemester.com/locations-and-programs/costa-rica/) websites for additional information and course offerings.

Based in San José, Costa Rica, the Latin American Studies Program introduces students to a wide range of experiences through the study of the language, literature, culture, politics, history, economics, ecology and religion of the region. Through living with local families, students become a part of the day-to-day lives of Latin Americans. Students also take part in a practicum/internship and travel to nearby Central American nations. Students participate in one of three concentrations: Latin American studies, advanced language and literature (designed for Spanish majors), and business for sustainability. Depending on their concentration, students travel to nearby Central American nations including Nicaragua, Guatemala, Cuba and Panama. LASP students earn 16–18 credits.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Los Angeles Film Studies Center (LAF)
See the Study Abroad (https://www.biola.edu/studyabroad/) and LAFSC (http://www.bestsemester.com/locations-and-programs/los-angeles/) websites for additional information and course offerings.

Founded in 1991, the Los Angeles Film Studies Center trains students to serve in various aspects of the film industry with professional skill and Christian integrity. Each semester, students live, learn and work in one of the primary film and television production centers in Los Angeles. LAFSC seeks to prepare students for placement in the mainstream Hollywood film industry, ideally in decision-making positions, with a Christ-centered vision to dynamically influence film content, production processes and interpersonal relationships. In addition, LAFSC aims to develop advocates to advance an informed and discerning approach to understanding the media, and an appreciation and support for the work of peers in Hollywood. LAFSC students earn 16 credits.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Middle East Studies Program (MES)
See the Study Abroad (https://www.biola.edu/studyabroad/) and MESP (http://www.bestsemester.com/locations-and-programs/middle-east/) websites for additional information and course offerings.

Based in Amman, Jordan, this program offers students a unique opportunity to become immersed in the complex and strategically important world of the modern Middle East. Under the guidance of a staff with over 30 years of experience living in the region, students live together in a close-knit community and explore the diverse religious, social, cultural and political traditions of Middle Eastern peoples through interdisciplinary seminars. Students also earn up to 6 credits of advanced Arabic language and serve at local organizations with the opportunity to earn intercultural internship/practicum credit throughout the semester. During the program’s substantial travel components (recently including Israel/Palestine, Morocco and Egypt), students participate in homestays and discover the diversity and dynamism of Middle Eastern cultures by experiencing their foods, customs, schools, neighborhoods and places of worship. At a time of change in the Middle East, MESP empowers and equips students to relate to Muslim, Eastern Christian, and Jewish peoples in a guided and Christ-centered approach. MESP students earn 15–18 credits.
For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

**Northern Ireland Semester (ONI)**

See the Study Abroad (https://www.biola.edu/studyabroad/) and NIS (http://www.bestsemester.com/locations-and-programs/northern-ireland/) websites for additional information and course offerings.

The first thing you notice as a student in Northern Ireland is the beautiful verdant landscape, but there’s more to this country than rocky green cliffs and sparkling blue waters. From your home base at Lakeside Manor, a charming 19th-century mansion in Belfast, you’ll travel all over the Irish isle visiting important cultural and historical landmarks like SAUL, the site of St. Patrick’s first church in Ireland, the Northern Ireland Parliament, and Dublin Castle. In addition, you will experience the deep impact of the religious and political conflict that has been an important part of Northern Ireland’s history. Sit at a table with residents who lived through ‘The Troubles’ as you hear first-hand accounts of the hunger strikes and political clashes that beset Belfast in recent decades. Pray in ancient cathedrals that predate the birth of your home country. Hike among green pastures and ancient forests. This opportunity for experiential learning in Northern Ireland will make your next semester unforgettable. The Northern Ireland Semester is a spring only program. NIS students earn 15–18 credits.

**Scholars’ Semester in Oxford (SSO)**

See the Study Abroad (https://www.biola.edu/studyabroad/) and SSO (http://www.bestsemester.com/locations-and-programs/oxford/sso/) websites for additional information and course offerings.

The Scholars’ Semester in Oxford is specifically designed for students seeking an academically rigorous and robust experience. As official Registered Visiting Students of Oxford University, students study within Oxford’s acclaimed tutorial pedagogy to receive weekly, one-on-one instruction from a faculty comprised of widely-published authors, historians, former international ambassadors and other celebrated scholars. Students choose from hundreds of subjects within the disciplines of classics, English language and literature, history, history of art, modern languages (French, German, Italian, Portuguese, and Russian), musicology, philosophy, psychology, or theology, and earn access to Oxford’s 119 libraries featuring 11 million books and outstanding electronic resources. SSO also offers 18 thematic or integrative concentrations including Gender Studies, Film Studies, Philosophy of Science, and more. If choosing to return for a second term, students write a substantial thesis on a topic of their choice. Applicants are generally honors students and must have at minimum a 3.7 GPA to be considered for the programme. SSO students earn 15-18 credits for a semester and may complete two semesters of the programme.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

**Uganda Studies Program (USP)**

See the Study Abroad (https://www.biola.edu/studyabroad/) and USP (http://www.bestsemester.com/locations-and-programs/uganda/) websites for additional information and course offerings.

The Uganda Studies Program immerses students in local communities, Ugandan campus life, and a broad range of cultures and places within Uganda and Rwanda. Students choose to live either with a host family for the semester or on campus at Uganda Christian University (UCU), an international affiliate member of the CCCU located 15 miles east of the capital city of Kampala. Students forge meaningful relationships with their Ugandan peers, faculty members, and host families while exploring issues such as poverty, cultural expressions of Christianity and missions, and the reconciliation between the realities of East Africa and their Christian faith. Students enroll in one of three tracks: General Studies Emphasis (GSE), Global Health Emphasis (GHE), or Social Work Emphasis (SWE). Students enrolled in the Social Work Emphasis (SWE) participate in an MSW-guided junior-level or senior-level Social Work Practicum (up to 400 practicum hours) at a variety of sites, including Compassion International and locally-founded aid organizations, approved in consultation with the CSWE. Global Health Emphasis (GHE) students take advanced global health courses and participate in the Cross Cultural Practicum to engage broader issues of international aid, development, and public health. General Studies Emphasis (GHE) students select from a variety of UCU electives including languages, health, religions, literature, and politics, and may also choose to receive practicum credit through service at Cross-Cultural Practicum sites in a variety of fields. USP students earn up to 16 hours of credit.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

**Affiliated Semester Programs**

**Creation Care Study Program (CCSP)**

See the Study Abroad (https://www.biola.edu/studyabroad/) and CCSP (http://creationcsp.org/) websites for additional information and course offerings.

The Creation Care Study Program (CCSP), offered by the Center for Environmental Leadership, is a high-caliber academic semester in Belize or New Zealand aimed at helping students connect their Christian faith to biblical justice, ecology, sustainable community development, and to personally live more sustainable lifestyles. Within a learning context focused on Christian spiritual formation and community, CCSP offers a robust cross-cultural and interdisciplinary integrated semester of learning and discipleship.

While studying with CCSP, students interact with the local communities and discover hands-on the remarkable natural wonders of Belize or New Zealand. Some highlights of CCSP-Belize include living at Macal Commons, CCSP’s beautiful tropical campus, taking excursions to local Mayan ruins, snorkeling at one of the world’s largest barrier reefs and exploring pristine rain forests. The Belize semester also offers internship opportunities.

The CCSP-New Zealand campus is nestled beneath the mighty Kaikoura mountains, yet only one mile from the Pacific Ocean. This offers students the unique opportunity to explore New Zealand’s Polynesian and European cultures, stunning forests, mountain glaciers and abundant marine life (including whales, dolphins and seals). Both locations include homestay opportunities with local families, while CCSP also provides ample opportunity for independent travel.

CCSP New Zealand or Belize is available fall or spring semester and is suitable for all majors, but particularly for intercultural studies, biology, and sociology majors.
For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

**Biola in Ecuador (QES)**

See both the Biola in Ecuador (https://www.biola.edu/studyabroad/ecuador-program/) and the Living and Learning (http://landfl.org/) website for additional information and course offerings.

Biola in Ecuador, hosted by Living and Learning International, is a study abroad program designed for college students who desire to grow in their ability to integrate life and learning to integrate their walk with God with the realities of struggle, poverty and injustice in the world. The program does not aim simply to add knowledge or travel to students’ lives, but to help them understand with wisdom God’s calling on each individual. The program encourages exploration into these pertinent questions:

- Who is God calling us to be?
- What is He calling us to do?
- How does He want us to respond?

Combining excellent academics, cross-cultural ministry, mission and relevant internship opportunities in a unique and challenging setting, the Biola in Ecuador Semester provides an opportunity for students to enjoy rich interaction with their professors, program staff, ministry site hosts and other students who are on this same journey. This interdisciplinary, cross-cultural program enables students to communicate and understand the challenges of a developing nation and teaches them to respond with an informed, Christ-centered worldview. Semester courses cover a range of disciplines from Spanish language to Bible to intercultural studies to history. This interdisciplinary approach draws students from all majors and disciplines, and any student who desires to further their education and grow in their walk with Christ is encouraged to apply.

Along with receiving up to 18 credits, students will live, learn and experience the beautiful country of Ecuador together. Each semester students will experience all four major regions of the country including Quito and the Andes mountains, the Galapagos Islands, the Amazon jungle and the beautiful tropical coast. Each student will complete a 5-week homestay with an Ecuadorian family and participate in either a for-credit internship in their major or service-learning practicum to encourage deeper cross-cultural engagement and community development.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

**Justice Studies in Honduras (DSP)**

See the Study Abroad (https://www.biola.edu/studyabroad/) and Justice Studies in Honduras (https://calvin.edu/offices-services/off-campus-programs/semester-in-honduras-justice-studies/) websites for additional information and course offerings.

Students from all majors are invited to the Justice Studies in Honduras semester, offered through Calvin College's off-campus programs. Earn 15 credits of coursework in community development and Honduran culture, taught by professors who live out what they are teaching. Choose a two-week practicum where you work with an organization of your choice. Learn Spanish by speaking Spanish, even if you haven’t taken much before. In Honduras, you’ll stay with host families in the beautiful town of Santa Lucía, just outside the capital, Tegucigalpa. You may learn to cook traditional food, play soccer with your younger siblings, or hear traditional stories from your abuelo. Whatever your experience, many students say staying with a host family is one of the most rewarding parts of their semester. In coffee fields and subsistence farms, in embassies and Congress, don’t just learn about a developing country: learn from one. Come together with people who share your passions and see how you can be part of the solution.

Students will be ineligible to receive University Aid when attending the Justice Studies in Honduras Program. Prior to the beginning of the Justice Studies in Honduras program, students must meet with a Financial Aid Counselor (http://offices.biola.edu/finaid/) and request a University Aid leave of absence to ensure University Aid will be reinstated upon return from this program.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

**NYC Semester Program (ONS)**

See both the Study Abroad (https://www.biola.edu/studyabroad/programs/) and The King's College NYC Semester (https://www.tkc.edu/nycs/) website for additional information and course offerings.

New York City Semester is a program with The King's College, located in downtown Manhattan. Students will be immersed in a rigorous and engaging academic experience, learning from award-winning professors who epitomize committed Christian faith along with mastery in their fields. In addition to visits from industry professionals and the vibrant faculty lectures, students will take advantage of unparalleled networking opportunities, cultural experiences, and more. The NYC Semester Program has three tracks for students to choose from: Business, Journalism, and Theater.

The NYC Semester in Business coursework takes advantage of the program’s proximity to the United Nations and connections to international NGOs. The King’s College provides networking opportunities, including lunches and dinners, with Christian leaders in NYC businesses and NGOs. NYCB students engage with a distinctively Christian vision for work that affirms the God-given dignity of individuals and prioritizes excellence and integrity.

The Journalism track is led by Wall Street Journal veteran, Professor Paul Glader and New York Daily News veteran, Professor Clemente Lisi. The NYC Semester in Journalism includes newsroom visits to outlets such as BuzzFeed, The Wall Street Journal, The Associated Press and ProPublica. Students in the program have interned at outlets such as The New York Daily News, The Brooklyn Paper and Newsweek. They have heard from journalists from outlets such as The New York Times, SkyNews and Reuters. Studying with professors who are deeply rooted in Christian faith, students cultivate their commitment to the truth and the skill to tell it well.

For the NYC Semester in Theater, students are a short subway ride from Broadway, Off-Broadway and off-off Broadway, providing opportunities for young theater artists to witness the wide range of what it means to be a professional in this competitive field. The King's College hosts actors, directors, producers, stage managers and agents who speak about what they do and how they do it. The King’s College also creates networking opportunities with Christian theater artists in NYC who understand the transformative potential of live theater and who are incarnating their faith in the theater industry.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).
Unleashed Internships Semester Program
See both the Study Abroad (https://www.biola.edu/studyabroad/programs/) and Unleashed Internships (http://www.unleashedinternships.org/) website for additional information and course offerings.

Unleashed is an 11-week business internship experience in the emerging world designed for college students and young professionals to learn about starting and developing businesses in an emerging market. The Emerging World is where two-thirds of the world’s population lives. It is the home of 85% of the world’s poorest people and home to the birthplaces of Christianity, Islam, Buddhism and Hinduism. Enter the paradigm of Stewardship Business, experience business in a new language and culture, learn how business and ministry can be integrated, and discover more about your gifts and calling through your journey of experiential learning!

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Summer Programs

Au Sable Institute of Environmental Studies (AU)
See the Study Abroad (https://www.biola.edu/studyabroad/) and Au Sable Institute (http://ausable.org/) websites for additional information and course offerings.

Au Sable Institute of Environmental Studies offers over 20 different field-based, university level courses in environmental studies and environmental science at campuses in the Great Lakes region (Mancelona, MI) and on Puget Sound (Whidbey Island, WA), in addition to courses in South India (Thiruchirapalli, Tamil Nadu) and Latin America (Vara Blanca, Costa Rica). Courses feature extensive field learning to elucidate concepts and teach hands-on skills and techniques for sustainability, ecosystem management and restoration, conservation, and research. Courses take place during May, and two summer session terms. Courses from Au Sable can be applied to major, minor, or core credits. Au Sable attracts students from 60 different Christian colleges and universities around North America, forming a Christian community that cares about preserving, restoring and sustaining God’s creation.

Au Sable’s international opportunities include two May session courses. In the ‘Conservation and Development in the Indian Tropics’ course, taught in partnership with Bishop Heber College (Tamil Nadu, India), the class travels to South India to learn about its unique tropical ecosystems and culture. In Costa Rica, the ‘Sustainability, Tropical Agriculture and Missions’ course teaches proven, hands-on skills and techniques for helping farmers improve their livelihoods in developing countries, and how these can be used to share the Gospel.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Oxford Summer Programme (OSP)
See the Study Abroad (https://www.biola.edu/studyabroad/) and OSP (https://www.biola.edu/studyabroad/oxford-summer-programme/) websites for additional information and course offerings.

The Oxford Summer Programme pairs students with Oxford University professors to do intensive scholarship in the oldest university in the English-speaking world. During the four-week programme, students hone their research and writing skills and delve into their chosen disciplines, occasionally traveling the United Kingdom to explore relationship between Christianity and the development of the British Isles. Seminars and tutorials (one-on-one mentorship sessions with expert Oxford scholars) feature specialized topics under expert Oxford academics in the areas of English language and literature, history, science, and philosophy. The programme is structured for rising college sophomores, juniors, and seniors, as well as graduate and seminary students, non-traditional students, teachers, and those enrolled in continuing education programs. OSP students earn 6 credits.

Biola students attend the Oxford Summer Programme independent of Biola and transfer the credit upon completion of the summer programme. All fees are paid directly to the CCCU. Students are required to complete substitution request forms prior to departure.

For contact information, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Biola Study Tours
Biola offers a variety of study tours, taught by Biola faculty, that travel both nationally and internationally. Application materials, course offerings, cost and payment deadlines are specific to each program. Each Biola summer study tour has individual student contracts and a refund policy that cater to the specific needs of each program. Payment is due in full prior to departure. Failure to pay 100% prior to departure will result in the immediate cancellation of the student’s registration. Financial aid is not available for summer study tours. All students participating in a summer study tour are charged a $50 non-refundable registration fee and the international health insurance fee.

To learn more about Biola’s various summer study tours, visit the Study Abroad website (https://www.biola.edu/studyabroad/).

Academic and Behavioral Standards

Academic Standing
Any undergraduate students failing to maintain the minimum grade point average required by their academic program after the completion of 6 or more credits in a term, or any graduate students failing to maintain the minimum cumulative grade point average required by their program after the completion of 4 or more credits in a term will be placed on Academic Probation (for the purposes of tracking program GPA requirements). All students on Academic Probation must adhere to the stipulations of their probation as outlined in their notice of Academic Standing. These limitations can include restrictions on the number of credits they may take per term (generally a limit of 13 credits for undergraduate students and 9 credits for graduate students). Undergraduate students on Academic Probation must register for and successfully complete all courses and each credit. Undergraduate students on first semester probation are required to meet with the Office of Academic Advising. The academic record and transcript of all students on Academic Probation will be notated accordingly.

Students on Academic Probation (for the purposes of tracking program GPA requirements) who do not successfully remove themselves from Academic Probation at the end of two consecutive semesters of Academic Probation will be academically disqualified. Any undergraduate student taking 6 semester hours or more in a term who receives less than a 1.0 term GPA will be academically disqualified. Any graduate student carrying 4 semester hours or more in a term who receives less than a 1.0 term GPA will be academically disqualified.
Academic Integrity

As a Christian institution, Biola University is especially concerned that sound moral values are practiced in all areas of university life. Honesty in academic work is essential for personal growth and an ethical life pleasing to God.

Academic dishonesty is considered a serious offense and will be handled by individual faculty in various ways including lowered grades or possible loss of course credit. The faculty member will work with the Dean for Students to consider further disciplinary action, including dismissal. A full statement concerning academic dishonesty can be found in the Undergraduate Student Handbook (https://studenthub.biola.edu/undergraduate-student-handbook/).

Athletic Eligibility

Although athletic eligibility is independent from Academic Standing as defined above, poor academic performance may also result in ineligibility. For additional information see the Student Activities section.

Extracurricular Activities

Students on Academic Probation are required to curtail their extracurricular activities in order to concentrate on their studies. Some activities may prohibit students on Academic Probation from applying or participating.

Sexual Misconduct

Biola University is committed to maintaining a university environment consistent with its Christian beliefs that all people are created in the image of God and should be treated with dignity and respect. As such, Biola should be a place for spiritual growth, work and study free of all forms of prohibited discrimination and harassment, including sexual misconduct. The Sexual Misconduct Policy outlines the University’s commitment to ensuring that its campus is free from sexual misconduct, the steps for recourse for those individuals whose rights may have been violated, and the procedures for determining a violation of this policy. This policy applies to the following forms of sexual discrimination, which are referred to collectively as “Sexual Misconduct”:
- sexual harassment
- sexual assault, domestic violence, dating violence, stalking, and sexual exploitation

For more information, visit Biola’s Sexual Misconduct Policy website (https://www.biola.edu/title-ix/).

Discrimination and Harassment

Biola University is committed to the biblical truth that all persons are created in the image of God and should, therefore be treated with dignity and respect. Biola seeks to emphasize the importance of being an authentically diverse community in pursuit of growth, awareness, and appreciation of our own diversity as well as that which exists in the broader world. As such, Biola does not unlawfully discriminate on the basis of race, color, national or ethnic origin, age, gender, disability, or prior military service in administration of its educational policies, admissions, financial aid, employment, educational programs,
or activities. For more information, visit Biola's Discrimination and Harassment website (https://studenthub.biola.edu/undergraduate-student-handbook-discrimination-harassment/).

Biola University Community Standards

The Biola Community

Biola University is a unique environment committed to following Christ’s example of loving others. We believe that community is born of other-centered practices, strengthened when members:

• Live with integrity.
• Practice confession and forgiveness.
• Attempt to live in reconciled relationships.
• Accept responsibility for their actions and words.
• Submit to biblical instruction.

As men and women of Biola, we do not ask each other to be perfect people, but rather to be people in active pursuit of integrity and growth, in dynamic relationships with the living God and with others in community. Those in leadership at Biola are eager to serve by coming alongside you and offering support, accountability, and, when necessary, loving discipline, in order to help you grow. We affirm our commitment to serve you with your best in mind.

The Standards

We at Biola uphold integrity as a core value of our community. Members are expected to demonstrate a commitment to the value of integrity in word and deed and to take responsibility for their own violations of behavioral guidelines.

We at Biola recognize that Scripture condemns sins of the heart, such as covetousness, selfishness, ambition, envy, greed, lust and pride. By their very nature, these sins are more difficult to discern, but because they lie at the heart of relationships, they are of central concern to the Biola community. We confess and repent of these sins as we become aware.

Furthermore, students at Biola commit to refrain from practices that Scripture forbids, such as sexual relations outside of marriage, homosexual behavior, theft and dishonesty.

Finally, for the purpose of character development and the creation of a healthy, vibrant Christian community, students at Biola commit to abstain from the use of tobacco products, the use of alcoholic beverages and the activity of gambling.

Biola students have chosen, freely and willingly, to abide by these standards. We regard any violation of these standards to be a breach of integrity, since each member has voluntarily chosen to associate with the Biola community and to accept, uphold and live by these standards. The University reserves the right to refuse admittance and/or dismiss any person who does not conform either to the stated guidelines and regulations governing student conduct, or to the expressed principles, policies and expectations of the University. The University also reserves the right to take action against an individual for violating the standards regardless of how much time has passed since the violation.

When The Standards Apply

The Biola Community Standards apply to all students:

• Who are representing the Biola Community in any off-campus events, such as mission trips, internships, study abroad, and athletic or academic activities.
• Who are not enrolled in classes but are living on campus.

A complete published statement of the standards can be found in the Biola Student Handbook (https://studenthub.biola.edu/undergraduate-student-handbook/).

Student Activities

Spiritual Development & Chapels

The spiritual development of our students is a central dimension of Biola’s mission and education. Indeed, the Bible affirms that there is a spiritual knowledge that grows in us as we unceasingly engage with our God (1 Cor. 2:6ff). Learning to live “in Christ” is not only the Christian’s primary calling, but also leads to fruit (e.g., peace, hope, and patience) that help students identify and give themselves to their other callings (including their academic studies). The Dean of Spiritual Development and his staff provide many diverse ways for students to learn about, identify and engage with the transforming work and callings of God in their lives. There are more than 175 chapel opportunities for students each semester, offered every weekday, varying from large corporate gatherings for worship and teaching, to weekly prayer services and retreats, to one-on-one spiritual direction and mentoring.

Scripture provides the foundation for our teaching chapels, which also present biblically-based wisdom from across the disciplines. Through the close study of biblical texts integrated with scholarly, artistic and ministry specializations, teaching chapels provide wisdom for spiritual growth, relationships, missions and evangelism, justice, diversity and reconciliation, apologetics, and arts and culture, among several other topics. Structured prayer and worship services are provided throughout the week for students to learn the rhythms of the spiritual life whereby they can listen and respond to God’s Word and wisdom for their lives. The Torrey Memorial Bible Conference in the fall and the Missions Conference in the spring create space for three days of focused teaching on biblical themes. In addition, the University observes a planned Day of Prayer once each semester, which provides opportunities for corporate and individual prayer gatherings across the campus.

Weekly engagement with Biola’s Spiritual Development opportunities — which include chapels, retreats, and spiritual mentoring — are required of all undergraduates, and encouraged for all graduate students. (Graduate programs also have chapel services of their own.) Speakers are drawn from across the nation and around the world, but also include Biola’s own faculty and staff, many of whom are sought after as speakers by other universities. Of course, the spiritual formation of students is taking place across the campus, in class, in advising, and less formally in the many discussions and prayer times that occur spontaneously among faculty, staff and students. More than 50 local churches are invited to come on campus annually to acquaint students with and invite them into these congregations.

In the context of community and gospel-centered ministry, students can serve in many campus, local and global ministries through prayer, discipleship, evangelism and outreach, proclaiming the gospel of Christ in word and deed. These opportunities for ministry range from the “Manna” ministry to the homeless, to the construction of pipelines that bring water to Honduran villages, to the “California School Project”, which empowers and trains high school students in southern California schools to share their faith with their peers. Nearly 100 students are involved in leadership
with chapel programs, as well as local and global ministries, and receive weekly leadership training that prepares them not only for ministry, but also with vocational skills for life and work in a diverse world.

Pastoral care is available to all of our students, and is a safe and confidential place to discuss their relationships to God and others, their emotional needs, questions of discernment and calling, sexuality, theological doubt, or simply to receive short-term spiritual guidance and mentoring. Students are also encouraged to seek longer-term guidance through the spiritual direction program where students are matched with trained spiritual mentors who will walk with them throughout their years at Biola.

See the Spiritual Development website (https://www.biola.edu/spiritual-development/) for additional information.

**Student Government for Undergraduates**

All registered traditional undergraduate students are represented by the Student Government Association (SGA), Biola’s undergraduate student government. The mission of SGA is to equip student leaders to provide representation and advocacy for students’ needs to university administration.

The SGA President and Senior Vice President preside over the two branches that comprise the student government, the Senate Branch and the Auxiliary Branch. The Senate Branch, consisting of elected Senators, holds legislative power of SGA and provides student voice in allocating the student fee, as well as determining funding and general support for student initiatives. The Auxiliary Branch includes appointed student positions that provide marketing and communications, finance, diversity and inclusion efforts, and office administrative support for SGA. As a student run organization, SGA is advised by a senior leader in Student Development.

SGA is located in the upper level of the Student Union Building and is open Monday through Thursday, 9 a.m. to 5 p.m. and Friday, 9 a.m. to 3 p.m. SGA staff can also be contacted at (562) 903-4882.

**Campus Engagement**

The office of Campus Engagement is responsible for year round programs and events dedicated to co-curricular involvement and learning of all undergraduate students. Involving 80 student leaders and led by the Director and other full-time staff, this office plans Fall and Spring New Student Orientation, supports 65 student led clubs, intramurals and fitness/wellness initiatives, and plans campus traditions and events including Punk N’ Pie, Nationball, Mock Rock and Study Break.

Campus Engagement is located on the upper level of the Student Union Building and is open Monday through Thursday, 9 a.m. to 5 p.m. and Friday, 9 a.m. to 3 p.m. Staff can also be contacted at (562) 903-4882.

**Student Government for Graduate Students**

Each graduate school has a student government program which provides leadership and activities appropriate for graduate students. For additional information contact the respective graduate school offices.

**Student Missionary Union**

The Student Missionary Union (SMU) is a student-led organization, founded in 1923, that has at the heart of its mission to glorify God and to see Him glorified. All of history is moving to a time when God will restore all of creation to what He had intended from the beginning. God began His work of restoration through Christ, reconciling the world to Himself. God has made us agents of that restoration by making us His ambassadors.

The Student Mission Union is a student-led organization that motivates and mobilizes students to align their lives toward the completion of the Great Commission.

SMU facilitates the sending of short-term mission teams to locations all over the globe, including such places as China, Mozambique, Mexico, Holland and Romania. They sponsor an Unreached Simulation, weekly prayer meetings and other events through their Prayer Ministries. The entire student body attends Missions Conference, which includes exciting events such as Global Awareness, where students experience another culture, and Explorations, where they can visit such places as a mosque or a Mormon temple. The Long-Term Missions Department seeks to answer many practical questions from students interested in long-term cross-cultural work.

SMU offers a multitude of opportunities for involvement with 25 staff positions and more than 100 volunteers each year. They are located in the upper level of the Student Union Building and are open Monday through Thursday, 10 a.m. to 5 p.m. and Friday, 10 a.m. to 3:30 p.m. They can also be reached at (562) 903-4881.

**Athletics**

Intercollegiate athletics at Biola University provide men and women with interest and ability in athletics an opportunity to compete with other institutions of higher education whose size and athletic policies are similar. Intercollegiate competition for men is conducted in the following sports: baseball, basketball, cross-country, golf, soccer, swimming, tennis and track and field. Sports for women include basketball, cross-country, golf, softball, swimming, tennis, track and field, soccer and volleyball.

Intramural activities are organized in both team and individual sports for men and women. This program is directed by the Student Government Association.

**Student Media**

Students can gain experience and career preparation in reporting, writing, photjournalism, video production and radio work through one of Biola University’s campus media outlets. Most campus media at Biola University fall under the Biola Media Board, which oversees selection of top leaders in each media group and their budget processes. Students from across the University can participate in The Chimes, Biola’s weekly newspaper (including a daily online edition); The Point, feature magazine of the Biola Department of Media, Journalism and Public Relations; Biola Radio, a Webcast operation providing music, news and sports coverage; EagleVision, Biola’s news, feature and sports television Webcast, and The Bionian, a traditional yearbook. Some staff positions in these media receive payroll compensation, some receive scholarship funding, though funded positions tend to be chosen through competitive application based on job qualifications and prior media experience. Campus media are guided by the insights of appointed faculty advisors, all of whom serve on the Biola Media Board. Campus media advisors have professional expertise in the media they oversee, helping guide the skills of staff members toward pre-professional maturity of mind and skill.
Theatre Productions
The theatre major within the Communication Studies Department provides fall and spring drama productions and many student-driven productions for the campus and immediate community. These productions are open for audition to all students, faculty, and staff. Theatre seasons include serious drama, comedies, original student and family productions.

Forensics
Biola University has been ranked with successful speech squads among colleges and universities nationwide. In recent years, the Biola Forensics Team has particularly excelled in British Parliamentary Team Debate. As an active member of the Pacific Southwest Collegiate Forensics Association, Biola regularly attends debates, individual events, and speech tournaments throughout the western states. Exceptional student performances qualify for national tournaments each year in individual events and debates.

Other Performance Opportunities
Presentational fundraisers for the forensics team, student film productions and occasional on-campus musical theatre productions have open auditions for all students, staff, and faculty members. Seasonal chapel performances (Christmas and Easter) also utilize communication studies and theatre majors. Performance dates are spread throughout the academic year.

Student Services
Biola recognizes that education does not take place exclusively in the classroom; rather, the individual student is viewed as a ‘whole person.’ We are committed to contributing to student development in the social, personal, physical, and spiritual areas of life, as well as that of the intellect. Toward that end, a number of departments and programs are devoted to student development. The Division of Student Development is responsible for programs and services for both residential and commuter students. Also, it is involved in such areas as:

- Chapel programming and accountability.
- Housing placement; discipline.
- Spiritual and character formation.
- Leadership development and advisement to student organizations.
- Learning skills development.
- Services to students with disabilities.
- International student services.

The Division of Student Success partners with Student Development to provide academic and career advising in the Advising Center and the Career Center, as well as support for a limited number of fully online programs through success coaching through the office of Online and Graduate Student Success.

The Auxiliary Services Department is responsible for the business management of the residence halls and apartments, food services, the bookstore, ID cards, and the Print Shop.

Student Enrichment and Intercultural Development (SEID)
The mission of the Student Enrichment and Intercultural Development (SEID) office (https://www.biola.edu/seid/) is to enhance the academic success and personal development of students from diverse backgrounds through holistic support. The students served through this office range from first generation college students, to students of color, and many other students from diverse backgrounds. The SEID office is committed to supporting and serving students in the following ways:

- Lending Library: Textbooks are available to borrow for a semester for students who are financially stretched.
- BiolaShares: We desire to ensure that all students have their basic needs met so they can thrive while receiving a college education. Snacks, light meals, and a limited amount of Cafeteria meals are offered to students who may need support.
- Mosaic Cultural Center: A space for all students to study and hang out in Rose Hall across from Talbot East.
- SEID Send Off Ceremony: A multicultural culminating event to mark the significance of students’ achievements while at Biola.

Moreover, SEID also seeks to educate and empower students through professional, leadership, and development opportunities throughout their time at Biola. Opportunities include:

- Programming tailored to first generation college students.
- FirstGen Scholars Program (https://www.biola.edu/seid/firstgen/) for incoming students.
- Intercultural competency development through the LEAD Scholars Program (https://www.biola.edu/undergrad/financial-aid/lead-program/).
- Community-building events and college-success workshops for all students.
- Affinity Groups (https://www.biola.edu/seid/affinitygroups/).
- Biola Gospel Choir (https://www.biola.edu/seid/gospelchoir/).
- Mentorship opportunities.

At the SEID office, our heart is to see all students thrive and grow in their understanding of their God-given identity as we embrace and live out God’s diverse kingdom here at Biola.

Student Development
The Division of Student Development is committed to seeing every student at Biola empowered, transformed and thriving. The team exists to create an integrated, biblically centered learning experience that promotes the whole-person development of all students. Student Development is comprised of three areas: Spiritual Development, Community Life, and Student Wellness. Title IX is also included in the Division of Student Development.

1. Spiritual Development
Departments: Chapel Programs, Worship & Formation, Spiritual Development Ministries, Pastoral Care.

2. Community Life
Departments: Commuter Life, Residence Life & Housing, Global Students, Campus Engagement.

Commuter Students
Students who live off campus are a valued and important part of the Biola community. The department of Commuter Life (https://www.biola.edu/commuter-life/) serves Biola’s off-campus students through Commuter Orientation Events, Good Morning Commuter!, a monthly Commuter Newsletter, Commuter Lockers, and the Collegium (https://www.biola.edu/collegium/): our home-away-from-home for
off-campus students, located centrally in the upper Student Union. The Commuter Life Team — Director, Assistant Director, and 20 peer leaders — work together to facilitate connection within Biola’s vibrant campus community, as well as connection to valuable campus and local community resources. We want off-campus students to be community-connected, resource-connected, information-connected, and to thrive spiritually, emotionally, relationally and academically throughout their time at Biola.

Housing and Residence Life
The residence halls and apartments are more than a place for students to sleep and study. We also see the halls and apartments as a place for students to be challenged, grow and develop in all areas of life. For this purpose, full time staff (Resident Directors), student leaders (Resident Advisors), and graduate students (Graduate Assistants) are available in all residential housing. These live-in staff are present in order to facilitate an environment of growth, to develop programs for each residential area, and are available as a resource for students. Resident Directors and Resident Advisors (in the residence halls), and Graduate Assistants (in the apartments), are available in each hall to serve as a resource for students. For details on what is provided in the residence halls and apartments, see “Auxiliary Services/Residence Halls and Apartments.”

Residency Requirements
Students under 20 years old by the first day of fall classes are required to live on campus for the entire academic year, unless commuting from home. Students commuting from home are required to complete the online ‘Intent to Commute’ application located on MyHousing Self-Service (https://www.biola.edu/housing/). Students enrolled in fewer than 12 credits are not required to live on campus unless they contracted to live in University housing. Incoming students 20 years and older or with fewer than 12 credits may live in residence halls or apartments on a space-available basis. Students who turn age 20 during the academic year are not permitted to cancel their Housing Contract and move off-campus to non-Biola housing, unless electing to move to their parents’ home, in which case cancellation fees will apply. See the Contract Cancellation section of the Housing Handbook. Requests for exceptions are to be directed in writing to the Housing Office in Student Development (undergrad.housing@biola.edu).

Housing Reservation
Once University applicants have paid the $300 enrollment deposit, they will pay the $250 housing deposit at the same online location they paid their enrollment deposit. Housing applicants must pay the housing deposit in order to access the online housing application located on MyHousing Self Service (https://www.biola.edu/housing/).

Applicants who have paid the housing deposit but decide not to attend Biola or obtain exemption from the residence requirement may request a refund of this deposit by contacting the Housing Department in writing (undergrad.housing@biola.edu). The Housing Department must receive this notification by the deadlines listed below. Failure to notify the Housing Department by the designated dates will result in forfeiture of the deposit.

Fall applicant deposit refund deadline:

- Incoming students: July 1
- Continuing students: Prior to selecting/being assigned a room

Spring applicant deposit refund deadline:

- Any new housing applicant: December 15

Once the contract year begins, incoming students will be considered continuing students.

Continuing residents must have a $250 housing deposit balance. This deposit will be considered refundable if residents fulfill the Housing Contract for the full duration of the contract year. Refunded deposits will be credited to the student’s University account balance within three months of the fulfillment of the contract.

The $250 housing deposit will be kept by the University to hold a space in on-campus housing until such a time as the student withdraws, graduates, or fulfills the academic year housing contract. Residents who do not fulfill the academic year housing contract will forfeit their housing deposit. In the case of withdrawal, the student must submit a written request for cancellation to be considered for a refund of the housing deposit to the Housing Office by the deadlines listed above, otherwise the housing deposit will be forfeited.

Procedure for Reserving Campus Housing
Continuing on-campus students desiring to reserve on-campus housing for the fall must sign up for the room of their choice according to the Housing Selection schedule in the spring semester prior to the fall semester. Commuter students desiring to live on campus need to contact the Housing Office at undergrad.housing@biola.edu, or call (562) 903-6000, ext. 5838 to discuss availability.

Global Student Programs and Development
The department of Global Student Programs and Development (GSPD) exists to serve, educate and empower global students toward whole-person, intercultural development. Our enduring vision is to see global students thriving in a more globally-minded community at Biola University.

Global Student Programs and Development serves a unique population of students who have spent portions of their developmental years outside of the United States. These students include:

- International students on an F-1 Visa.
- Third-culture students.
- Students from missionary settings.

These students come to Biola from over 40 different countries, and each one is a distinct and valuable gift to our community. The diversity that comes from their experiences enhances our environment of faith and learning. Their presence and scholarly contribution will assist the University in attaining its pursuit of becoming a recognized global center for Christian thought.

The GSPD department serves all global students by providing the following programs:

- Fall and Spring Orientation for new students.
- Global Student Community events.
- Cultural celebrations.
- Global Student Voices Chapels.
- Global worship events.
- Personal and small group mentoring on global student challenges.
- Financial/Tax workshops.
- Phase-Out/Transitions workshops and celebrations.

Moreover, GSPD seeks to educate and empower global students with unique leadership development and identity development opportunities. During their time at Biola, global students can choose to be part of
the Global Student Leadership Team. Involvement in this opportunity includes:

- Personal and small group mentoring by GSPD Director.
- Experiential learning experiences for building an intercultural community.
- Developing peer leadership skills.
- Self-awareness of intercultural identity development.

Finally, we desire global students to be empowered to be global leaders in other areas of the University as well as in the world. Therefore, GSPD seeks to partner with many of the departments/divisions on campus, as well as churches, organizations, volunteers and academic institutions outside the Biola campus in order to maximize cultural engagement, provide intercultural training, and promote learning and development.

The Global Student Programs and Development office is located in Rose Hall, next to the Mosaic Cultural Center. See the Global Student Programs and Development website (https://www.biola.edu/gspd/) for additional information.

Issues related to compliance with U.S. Immigration laws for F-1 International Students and their dependents are being undertaken by the Immigration Services of the Office of the Registrar. For Immigration Services assistance, please contact (562) 777-4007.

**Veteran and Military Affiliated Student Programs**

Biola University celebrates and supports our veterans and military affiliated students. Through the Assistant Director, we offer orientation and transition support, monthly community lunches, opportunity to join the Biola Veteran Association (BVA), VA Work Study employment opportunities, and our Center for Veteran and Military Affiliated Students, located in the center of campus in the Upper Student Union.

### 3. Student Wellness

**Departments:** Student Health Center, Learning Center, Student Care.

**Student Health Center Services**

The Student Health Center provides acute, ambulatory health services for all enrolled Biola University students, regardless of insurance status. The facility is located adjacent to the library. Consultation with a physician, nurse practitioner, or a nurse is free; however, there are assigned fees for medications or specific treatments. There is no third party/insurance billing service available. Payment is required at the time of each visit by cash, check or credit card. Student Health Center fees are not payable through student account billing. Children’s services are not available at the Student Health Center. Consult the Student Health Center’s website (http://www.biola.edu/health-center/) for specific hours of operation and other information.

**Insurance Requirement**

Health insurance is required of all students enrolled in 7 or more La Mirada campus credits, any international students, and/or students living in campus housing. All students who qualify under these requirements are automatically enrolled in the Student Health Insurance Plan and charged all applicable fees. Students who are enrolled in an acceptable private health insurance plan can submit their insurance information to Biola University to waive the Student Health Insurance Plan. Students who desire to apply for waiver must do so at the time of enrollment. Guidelines for what is considered acceptable waiver coverage can be found at the Student Health Center’s website (http://www.biola.edu/health-center/). It is students’ responsibility to ensure their health plan is comparable to the Biola requirements. For students who waive coverage, Biola University reserves the right to audit the coverage parameters of any health plan at any time, and to revoke any prior waiver if it is determined that the required conditions are not satisfied.

Unless alternative acceptable coverage is submitted, Biola University reserves the right to enroll students in the Student Health Insurance Plan should coverage submitted under a waiver lapse during the course of an academic year, and students will be charged all applicable fees.

**Health Requirements**

All students, both undergraduate and graduate, must complete a Meningitis Advisory Form, Health History Form, and Tuberculosis Screening Form. All forms are available and should be submitted to the Student Health Center via the Medicat Student Portal at biola.medicatconnect.com.

Please check with the Student Health Center staff for assistance or other specific information at (562) 903-4841.

**Learning Center**

The Learning Center exists to provide students with academic assistance and support by providing a number of unique services. We aspire to cultivate and equip holistically minded learners with the life skills, academic tools and personal resources to be their best selves.

- **Disability Student Services:** For students who have been diagnosed with psychological, medical, learning, or physical disabilities, the Learning Center ensures legal compliance with state and federal disability law by providing reasonable and appropriate accommodations to these students. Our department continually works to educate the Biola community on quality of service to these students and University-wide ADA compliance. We strive to provide an atmosphere that is welcoming, professional and confidential.
- **Strategies for Academic & Personal Success (GNST 001):** Instruction in success strategies for navigating the rigor of college and life beyond. Particular attention is given to time management, personal self-awareness, strengths based living/learning, stress management, critical thinking, test-taking and holistic living.
- **Undergraduate Tutoring:** The tutoring programs provide academic assistance for most Core Curriculum courses and select major emphasis courses. Tutoring is available in individual and small group formats (a minimal fee is required).

Additional resources are available for students through the Learning Center’s website (https://www.biola.edu/learning-center/). For more information, contact the Learning Center at (562) 906-4542.

**Department of Student Care**

Our desire is that all Biola students will be equipped to understand and engage in their personal and interpersonal development and that they will thrive during their time at Biola. Our staff will help students move towards health and development through holistic support and resources, behavioral interventions, preventative training and education. Our staff tangibly does this in the following ways:

- Upholds and enforces Community Standards, policies and procedures.
- Provides emotional/mental health care (i.e. supporting students experiencing depression, anxiety, suicidal thinking, disordered eating, etc.).
- Provides conflict mediation.
- Provides resources that aid in students’ personal growth.
• Educates the Biola community on our student care process and other pertinent topics connected to our students’ health and wellness, in order to create a community of care and support.

Our hope is that when students are engaged in a process with someone from our area, they will receive support, which would assist them in experiencing the following outcomes:

• Holistic personal development that will lead them towards greater self-awareness, health and self-efficacy.
• Healthy coping skills.
• Identify supportive resources.
• Healthy and authentic interpersonal relationships.
• Engagement and investment in the Biola community.
• Awareness of their community membership, impact and responsibility, so they will make choices that are loving, civil and integrous.

Please connect with the Student Care staff for assistance or other specific information at (562) 903-6000, ext. 5842.

**Student Success**

The Division of Student Success exists to empower all students to thrive academically and vocationally. This area is comprised of the Advising Center (including advising for Study Abroad), Career Center, English Language Program, Online & Graduate Student Success, and the Rhetoric & Writing Center. The team in Student Success is committed to inclusive practices that support all students in the achievement of their goals and an engaging, successful experience at Biola University.

**Academic Advising and the Advising Center**

Biola University believes that academic advising is a significant experience throughout the academic journey. While students hold the ultimate responsibility in educational decision-making, advisors play an intentional role by guiding students in their academic progress, plans, and engagement. Advisors partner with students in the larger community of Biola to provide resources for student success and challenge students to take a Christ-centered approach in their academic endeavors (Ephesians 4:11-16). The following are anticipated learning outcomes for academic advising. Students, over the course of their college career, will have the opportunity to:

• Develop a relationship with faculty member(s) outside of the classroom setting.
• Independently navigate university policies and procedures regarding course selection, registration, academic standing, the progression of curriculum and fulfillment of graduation requirements.
• Learn how to identify program and curricular paths that are consistent with their abilities, career, interests, life goals and sense of calling.
• Learn how to utilize critical thinking and decision-making skills in managing and planning their lives.
• Have tools to develop and implement a meaningful educational plan with awareness of high impact educational practices (ex: writing-intensive courses, research opportunities, capstone experiences, internships and cross-cultural experiences).
• Pursue and discover connections within the Core Curriculum, Bible and major coursework.
• Reflect on the deeper work God may be doing in their hearts and minds through their academic learning, and identify how they might respond and cooperate with the Holy Spirit in this work.

Academic advising for undergraduate students is achieved through a faculty-based advising model. Students with a declared major are assigned a faculty or staff advisor in their discipline. It is required that students meet with their assigned advisor once per semester.

The Advising Center has full-time advisors assigned to all undeclared students and those seeking additional help. Students should utilize the services of the Advising Center if they are:

• Thinking of changing their major.
• Considering adding a second major or minor.
• Interested in studying abroad (see the Study Abroad section (p. 51) of the catalog).
• Transfer students needing clarification regarding transfer credits.
• Students who have already met with their advisor in their discipline but have further questions.

Additionally, students who have been placed on first semester academic probation (see catalog section on Academic Probation (http://catalog.biola.edu/general-information/academic-behavioral-standards/)) or were provisionally admitted to the University are required to meet with an advisor in the Advising Center.

Both faculty advisors and staff advisors, are available as a resource, but the student is ultimately responsible to ascertain and fulfill graduation requirements.

Additional resources are available for students through the Advising Center’s website (https://www.biola.edu/academic-advising/).

**Career Center**

The Career Center focuses on empowering students to thrive in their careers by growing in their strengths, finding meaning in their work, and impacting the world for Christ. The Career Center collaborates with various partners to help students explore career paths, develop vocational competencies, connect with employers and professional mentors, and secure meaningful professional experiences. Students are encouraged to pursue the following career activities:

• Develop one or more relationships with a career advisor outside of the classroom setting. Discuss life direction with a career advisor at least once per year - this can be a faculty member, career specialist, academic advisor, industry professional, or someone else.
• Take ownership of their career preparation, which usually involves: exploring interests and skills, researching potential career options, creating roadmaps, identifying prerequisite work experiences and education, making lists of potential work organizations, pursuing internships and relevant experience, customizing resumes and cover letters, conducting interviews, and submitting graduate school applications (if applicable).
• Commit to gaining 1–3 years substantive field experience (e.g., internships, research, field work) in an area of interest prior to graduation.

Popular services in the Career Center include:
• Handshake job and internship database.
• Career assessments.
• Career exploration.
• Job search coaching.
• Resume and cover letter reviews.
• Career expos and employer connection events.
• Interview preparation.
• Graduate school planning.

Information on the above can be found on the Career Center’s website (https://www.biola.edu/career-development/).

Online and Graduate Student Success
Online and Graduate Student Success serves students in a limited number of fully online programs through success coaching and advising. Success Coaches provide a variety of types of support for students that include:

• Academic advising and planning to ensure clear path within the program of choice.
• Assistance during the enrollment process.
• Guidance during course selection and registration.
• Monitoring progress until successful completion of the program requirements.
• Assistance with basic financial aid inquiries.
• Support with the academic experience (e.g., navigating online learning systems, learning strategies and tips).
• Career development advice.
• Spiritual and life coaching and guidance.

Success Coaches serve as on-the-ground ambassadors for these online students and facilitate a seamless experience with the various offices and services Biola University offers. For more information, visit the Online and Graduate Student Success website (https://www.biola.edu/online-graduate-student-success/).

Rhetoric & Writing Center
The Rhetoric & Writing Center, located in the Library, is a place where undergraduate and graduate students of all disciplines and writing abilities can meet with trained writing consultants. These consultants help student writers revise current writing projects and help them develop writing skills that can be applied in courses across the academic spectrum.

Auxiliary Services

Residence Halls and Apartments
Rooms accommodate two to three students and are equipped with individual study desks, single beds, closet space, chests of drawers, bookshelves, and a wastebasket. Each residence hall has laundry rooms equipped with washing machines and dryers. Residents may use either a free app or quarters to operate the laundry machines.

All students living in undergraduate residence halls are required to participate in the food service program. Meal plans are optional for apartment residents.

Students are expected to supply their own linens (sheets, pillowcases, towels, blankets and pillows), school supplies, decor including desk lamps, laundry supplies and personal toiletries. No cooking equipment is allowed in the residence hall rooms except in kitchen facilities (excluding apartments). Additional information may be found in the Housing Handbook (http://studentlife.biola.edu/housing/housing-handbook/).

All University undergraduate residence halls and apartments will remain open over the Thanksgiving break, Christmas break, and Spring break.

Housing for Graduates, Married Students, or Students with Families
Biola provides furnished housing for single graduate students in on-campus suite-style rooms and in off-campus houses owned by the University. The per person, per month rate is based on the number of occupants per bedroom. Unfurnished one- and two-bedroom units located in three complexes near campus provide housing for couples and families at a per apartment, per month rate. For information on availability, locations and rates contact Auxiliary Services at grad.housing@biola.edu or at (562) 944-0351, ext. 5814.

Food Service
Biola provides excellent food service for all students. A wide variety of entrees, sandwiches, soups, fresh fruits, bread, beverages and desserts is offered. The food service staff will work out individual programs for students with special dietary requirements or weight reduction programs prescribed by a physician.

A variety of meal plans are available. All students living in the residence halls are required to choose either a 10 without flex or 10, 12, 15 or 20-flex meal plan (the numbers indicated are meals per week), or a 175 block plan. A ‘flex’ plan is 10, 12, 15, or 20 meals per week at Cafe Biola, our dining room, plus ‘flex dollars’ to purchase additional meals at any of our retail operations including Cafe Biola, Eagles’ Nest, Common Grounds, Talon Grab N Go, Heritage Cafe, and Blackstone Cafe. To add or change a meal plan, go to My Account (https://myaccount.biola.edu/). To purchase student dollars, go to eAccounts (http://www.biola.edu/eaccounts/).

Student dollars can be used for printing/copying (in the library and other locations on campus) and for dining.

Commuter students or students who reside in the Biola apartments have further meal plan options (https://www.biola.edu/dining-services/).

Biola Print Shop
The Biola Print Shop, located on the South Campus, is available to students, staff, faculty and the public. The print shop has high-speed duplicating equipment and can do a variety of jobs, including thermal binding, tabs, covers, color copying, color posters and banners, etc. We will match any price. We will do projects for non-Biola people as well.

Biola Store
The Biola Store is open Monday through Saturday for the convenience of the students, faculty, staff and public. All required and recommended textbooks, as well as general books and supplies, are available. The store has a large selection of Christian books and offers Bibles in a variety of styles and bindings at substantial discounts. The Biola Store carries insignia clothing and school spirit merchandise, a large selection of greeting cards, school supplies, dorm-room furniture/accessories, gift items, theme park tickets and music are available for purchase. The Biola Store welcomes special orders via its 1-800-MY-BIOLA phone line. A convenience store (located inside the bookstore) contains a generous selection of soft drinks, juices, yogurts, ice cream, snacks, candies, sandwiches, etc. During school breaks and vacations, the store has
shortened hours. Please call (562) 903-4883 for information or visit the Biola Store website (http://www.biolastore.com/).

Campus Safety

The Department of Campus Safety is a proud organization of men and women dedicated to serving the Biola University community with unwavering Christlike compassion. Under the leadership of Chief John Ojeisekhoba, the department’s main goal is to provide the university community a safe and secure learning, living and working environment.

The Department of Campus Safety provides a variety of law enforcement and public safety-related services to the Biola University community, 24-hours a day, 7 days a week. The department is staffed with skilled professional personnel and a dedicated cadre of student employees.

The department is comprised of four distinct areas to serve our diverse university community: the Administrative Division, the Communications and Emergency Operations Division, the Field Division, and the Office of Travel Safety & Risk Mitigation (TSRM).

The Administrative Division operates the Campus Safety Administrative office (open Monday-Friday, 8 am to 4:30 pm), handles campus parking management, parking permits for staff and students, citation appeals, bicycle permits and the coordination of access requests to campus buildings.

The Communications and Emergency Operations division handles our radio dispatch center, serves as university operator, is responsible for sending emergency text and email notifications via the University’s emergency notification system and monitors a system of campus security cameras (which cover parking lots, residence hall entrances and other key areas of the University).

The Field Division consists of officers augmented by student cadets (who assist with student escorts, building unlocks, traffic direction and parking enforcement), gate attendants (who staff the gatehouses to provide visitor parking permits, give visitor information and control access to campus at night), and community service cadets (who patrol the university apartments along Rosecrans Avenue).

Campus Safety Officers receive 360 hours of extensive training covering a number of subjects and are certified in First Aid/CPR/AED. While on-duty, officers are equipped with OC spray, TASER, baton and firearms. Campus Safety Officers are required to attend a Peace Officer Standards and Training (POST) basic course, Modules III and then II as a requirement to being employed. In addition, officers maintain state certifications with the Bureau of Security and Investigative Services (BSIS) in guard, baton and exposed firearm. As part of the arming process, selected officers are critically assessed by the university president and other administrators after meeting the stringent requirements prior to authorizing an officer to be armed. There are also a select number of Campus Safety personnel with Emergency Medical Technician (EMT) certification in federal, state and county registry’s, all who work various shifts on campus.

Emergency preparedness and management of incidents is a key operation and aspect within the department where coordination of all divisions and units is imperative. Campus Safety is responsible for the mass emergency notification system which is purposed to send emergency notification messages via the internet, mobile phone or landline phone connections. Students and employees may access Biola University’s emergency notification system (http://login.biola.edu/ens/) at any time to designate a mobile phone number to receive these important SMS text messages. An emergency notification will also sound over the campus public address system, so no alerts are missed by the community. Additionally, the department operates the free mobile RAVE Guardian app for smartphones. Once registered, a user can have access to emergency information, message networked associates, send anonymous tips and much more.

The Office of Travel Safety & Risk Mitigation (TSRM) conducts pre-travel assessments for university-sponsored student-related travel, providing pre-travel training, safety briefings, emergency kits, communications systems, and other resources. TSRM serves as the university’s 24-hour emergency contact for travelers and monitors major events and safety crisis situations that could impact university travelers. In a crisis situation that may emerge during university-sponsored travel pertaining to students, staff, and faculty, the TSRM coordinates a university team to manage the situation.

Recognizing that a Christian university is not exempt from crime, students are asked to use a commonsense approach and caution in every aspect of your activities. The University’s Annual Security and Fire Safety Report (which includes crime statistics for the previous three years for all of Biola’s campuses) is available on the Campus Safety website or will be provided upon request at the Campus Safety Administrative Office.

Contacting Campus Safety

Non-emergency related calls: (562) 903-6000
Emergency related calls/information: (562) 777-4000

Please refer to the Campus Safety website (https://www.biola.edu/campus-safety/) for further information or call the Campus Safety Administrative Office at (562) 903-4877.

Psychological Services

Psychological testing and psychotherapeutic services are available to graduate and undergraduate students for a minimal fee. The center is open year round for individual, couple and group counseling. Students who struggle with any number of psychological difficulties are welcome. Inquiries may be made in person at the Biola Counseling Center, located at 12625 La Mirada Blvd., Ste. 202, or by phone at (562) 903-4800. During non-clinic hours, this same number may be used for psychological, non-medical emergencies.

Appeals and Grievances

Detailed information regarding grievances and appeals, whether in regard to scholarships, academic life, federal legislation or student conduct are found in the Student Handbook of each school. See the Undergraduate Student Handbook website (http://studentlife.biola.edu/student-support/handbook/) for additional information.

An individual may contact the Bureau for Private Postsecondary Education for review of a complaint. The bureau may be contacted at:

Bureau for Private Postsecondary Education (http://bppe.ca.gov/)
2535 Capitol Oaks Drive, Suite 400
Sacramento, CA 95833
Phone: (916) 431-6924
Fax: (916) 263-1897
COOK SCHOOL OF INTERCULTURAL STUDIES

Mission
The Cook School of Intercultural Studies exists to equip students to communicate, live, and work effectively in culturally diverse contexts to make disciples of all peoples and impact the world for the Lord Jesus Christ.

Overview
The Cook School of Intercultural Studies consists of four departments:
1. Department of Intercultural Studies – undergraduate programs
2. Department of Anthropology
3. Department of Intercultural Studies – graduate programs
4. Department of Applied Linguistics and Teaching English to Speakers of Other Languages (ALT).

The Department of Intercultural Studies - Graduate programs offers graduate programs leading to two master's degrees and three doctoral degrees. The Department of Anthropology offers a graduate program of study leading to a master's degree in Anthropology. These programs emphasize the social sciences and their relation to intercultural understanding, world mission, education and a number of technical specialties related to these topics. The Department of Applied Linguistics and TESOL (ALT) offers the three master's degree programs: Applied Linguistics, Linguistics and Ancient Languages, and TESOL. The graduate program in Applied Linguistics deals with issues involved in second-language learning, analysis, teaching and research. The graduate program in Linguistics and Ancient Languages educates students to be skilled in exegesis and translation for Bible translation around the world. The graduate program in TESOL provides professional preparation for English language teaching among speakers of other languages.

Graduate Information
Admission Requirements
All M.A. (except for M.A. Missions), D.I.S. and Ph.D. students must meet the following requirements:

1. Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree with a 3.0 (on a 4.0 scale) grade point average conferred from a regionally accredited institution prior to the start of the second term. Graduates from approved, unaccredited colleges, if accepted, will be granted provisional acceptance, if GPA is 3.4 or higher. Graduates from approved, unaccredited colleges may be required to take additional liberal arts course work (not applicable toward the graduate degree), if their undergraduate program did not include these courses.
2. Those without intercultural/missions, Bible/theology, or anthropology may have additional coursework added to their program.
3. Applicants must submit a written statement outlining their vocational objectives and how the degree will relate to those objectives. Applicants should attach a one-page, typewritten letter to the application.
4. Three letters of references on forms supplied by the school are required.
5. Official transcripts for all previous schools attended are required.

6. Application deadlines. M.A.: Fall is July 1, Spring is November 1; Ph.D. and D.I.S. programs: Fall is January 31, Spring is August 31. Applications may be submitted after deadlines (late fees apply) but will only be considered if space and time allow. Late applications may be postponed to later terms.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

Doctor of Intercultural Studies
Completion of at least three years of continuous ministry experience in a cross-cultural, multi-cultural or cross-sub-cultural setting.

An appropriate accredited master’s degree of which at least 9 credits will be in biblical and theological studies. A 3.0 GPA in their previous graduate studies is required for admission.

Doctor of Philosophy
An accredited master's degree or its equivalent appropriate to the Ph.D. is required for admission. Students must have a GPA of 3.30 in their previous graduate studies. Three years of cross-cultural experience plus proficiency in a second language is preferred for students pursuing the Ph.D. in Intercultural Studies. Three years of teaching experience in a cross-cultural or multicultural setting or its equivalent is expected of students pursuing the Ph.D. in Intercultural Education.

Admission of International Students
Admittance to the Ph.D. programs requires the following scores on the TOEFL: 100 iBT/600 PBT/250 CBT. The admissions committee may require an oral interview. CSICS reserves the right to waive a retake of the TOEFL test for Ph.D. international student applicants who enter CSICS with Talbot School of Theology degrees who have met Talbot's requirements for International students and CSICS. Requests to waive this requirement must be made to the CSICS doctoral committee.

Summer Institute of Linguistics
In cooperation with the Summer Institute of Linguistics, Biola offers a number of linguistics courses which can provide an emphasis for students planning for mission work in language analysis/Bible translation. This 21-credit program combines five linguistics courses (ISAL 520 or ISAL 646, ISAL 521, ISAL 523 or ISAL 622, ISAL 525 or ISAL 624, ISAL 651) and two anthropology courses (ISAN 507, ISCL 520). (For full details on these courses see the course descriptions in the Intercultural Studies and Applied Linguistics and TESOL sections of this catalog.)

English Language Institute China (ELIC) at Biola
In cooperation with ELIC, the University offers, through the Cook School of Intercultural Studies (CSICS), a portion of the Ph.D. program in Chiang Mai, Thailand. Studies include summer courses at the La Mirada campus and January sessions in Chiang Mai. All residency requirements can be completed through on-campus Hybrid Intensive courses. Interested students should contact the Admissions Office of Biola University.

Numbering of CSICS Courses
In CSICS, courses numbered in the 500-600 level are normally considered to be master's level courses. Courses numbered in the 700 level can be taken by both MA level and doctoral level students. Courses numbered in the 800 level are normally considered to be doctoral level courses only. Master's students wishing to take 800 level classes must receive permission from the instructor. Doctoral level students wishing to
take classes below the 700 level must do so by arrangement with their academic advisor and the professor of record.

Global Learning Sites
Both the Master of Arts in Intercultural Studies and the Doctor of Intercultural Studies are offered in a Hybrid Intensive format in our global learning sites. Currently, our Chiang Mai, Thailand and European sites have full accreditation through WASC and both degrees can be completed there without any time in residency on our La Mirada Campus. Students wishing to pursue either of our Ph.D. degrees through our global learning sites must complete at least one half of their coursework on campus (24 credits). Students in other on-campus programs may participate in the global learning sites courses with the approval of the Distance Education Administrator and their academic advisor.

Ministry in Oral Cultures Concentration
CSICS offers a special ministry in oral cultures concentration consisting of 24 credits of coursework leading to a Certificate in Orality. These can also be combined with 18 credits of core courses leading to an M.A. in ICS degree.

Every semester online courses are offered through CSICS or through Talbot School of Theology that may be applicable to the programs of studies for CSICS students. Students should check with their academic advisor about registering for these courses.

Faculty
Dean: Bulus Galadima, Ph.D.
Undergraduate Applied Linguistics and TESOL Chair: John Liang, Ph.D.
Undergraduate Intercultural Studies Chair: Alan McMahan, Ph.D.
Professors: Lessard-Clouston, Liang, McMahan, Starcher
Associate Professors: Decker, Dzubinski, Greene, Nehrbass, Pittle, Sanchez, Sappington, Yeh
Assistant Professors: Huang, Meulenburg

Programs
Programs Offered
Undergraduate
- Anthropology, B.A. (p. 67)
- Intercultural Studies, B.A. (p. 70)
- Anthropology Minor (p. 74)
- Applied Linguistics Minor (p. 74)
- Intercultural Studies Minor (p. 75)
- International and Community Development Minor (p. 75)
- Islamic Studies Minor (p. 75)
- Missions Minor (p. 76)
- Social Justice, Human Rights and Conflict Transformation Minor (p. 76)
- TESOL Minor (p. 77)

Masters
- Anthropology, M.A. (p. 77)
- Applied Linguistics, M.A. (p. 78)
- Intercultural Studies, M.A. (p. 80) with specializations in:
  - Community Development (p. 80)
  - Intercultural Education (p. 81)
  - Intercultural Studies (p. 82)

- Missiology (p. 83)
- Peace and Conflict Transformation (p. 84)
- Linguistics and Ancient Languages, M.A. (p. 85)
- Missions, M.A. (p. 86)
- TESOL, M.A. (p. 87)

Doctoral
- Intercultural Studies, D.I.S. (p. 89)
- Intercultural Education, Ph.D. (p. 91)
- Intercultural Studies, Ph.D. (p. 93)

Certificates
- Linguistics Certificate (p. 95)
- Orality Certificate (p. 96)
- TESOL Certificate – Undergraduate (p. 96)
- TESOL Certificate - Graduate (p. 96)

Courses
Course Descriptions
Undergraduate
- Anthropology (ANTH) (p. 96)
- Applied Linguistics (INAL) (p. 100)
- Intercultural Studies (INCS) (p. 101)
- TESOL (INTE) (p. 104)

Graduate
- Anthropology (ISAN) (p. 108)
- Applied Linguistics (ISAL) (p. 105)
- Intercultural Studies (ISCL) (p. 112)
- TESOL (ISTE) (p. 119)

Anthropology, B.A.
As of Spring 2019, this degree is in teach out phase, no new students will be admitted.

Mission
The mission of the Bachelor of Arts in Anthropology is to provide students with a holistic understanding of the diversity of human behavior across time, geography and culture from a distinctly Christian perspective and to equip them to actively bridge cultural differences so that they can effectively share the good news of the Gospel and holistically address human problems such as injustice and the effects of globalization on populations around the world.

Degree Program
A Bachelor of Arts degree in Anthropology is offered upon completion of the University baccalaureate and major requirements.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Arts in Anthropology, students will be able to:
1. Identify major paradigms, major figures, and major theories in anthropology and explain how theory develops and shifts and the influence of Christian thinkers and thoughts (ULO 1).

2. Demonstrate they are able to form research questions, apply appropriate research methodologies, and interpret, analyze, and report ethnographic and/or archaeological data (ULO 2).

3. Recognize and respond appropriately to key challenges to and opportunities for their faith raised (ethics, integrity, and intellectual honesty) in engaging their sub-discipline in anthropology (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Total Credits: 36

Concentrations

There are concentrations offered in each of the subfields within the anthropology major. Students take introductory courses in each of the subdisciplines and are encouraged to concentrate in one of the following four areas. Students may also consult with their academic advisor regarding selecting a unique concentration based on career goals.

Applied Anthropology

This concentration seeks to provide students with the ability to apply anthropological research in the area of solving human problems. Courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 400</td>
<td>Political Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 403</td>
<td>Economic Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 420</td>
<td>Topics in Urban Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>INCS 345</td>
<td>Introduction to Development</td>
<td>3</td>
</tr>
<tr>
<td>INCS 347</td>
<td>Micro Issues in Relief and Development</td>
<td>3</td>
</tr>
<tr>
<td>INCS 430</td>
<td>Seminar: Topics in Intercultural Health Care</td>
<td></td>
</tr>
<tr>
<td>INCS 433</td>
<td>Community Development Models and Strategies</td>
<td></td>
</tr>
<tr>
<td>INCS 435</td>
<td>Project Evaluation and Assessment</td>
<td>3</td>
</tr>
<tr>
<td>SOCI 348</td>
<td>Social Change in the Developing World</td>
<td>3</td>
</tr>
</tbody>
</table>

Archeology

This concentration provides students with training in archaeological methods and research. Students may take electives in Biblical, classical or prehistoric archaeology. Courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 215</td>
<td>Introduction to Archaeology</td>
<td>3</td>
</tr>
<tr>

<td>3</td>
</tr>
<tr>
<td>ANTH 367</td>
<td>Egyptian Archaeology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 410</td>
<td>Topics in Archaeology</td>
<td>1-4</td>
</tr>
<tr>
<td>ANTH 430</td>
<td>Field Excursion: Turkey, Greece and Rome</td>
<td>4</td>
</tr>
<tr>
<td>ANTH 432</td>
<td>Field Excursion: Israel</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 450</td>
<td>Internship in Archaeology</td>
<td>1-3</td>
</tr>
</tbody>
</table>

**Linguistic Anthropology**

The linguistic anthropology concentration is designed for students interested in the relationship of language in culture. Courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 306</td>
<td>Cognitive Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 310</td>

<td>3</td>
</tr>
<tr>
<td>INAL 481</td>
<td>Topics in Applied Linguistics</td>
<td>1-3</td>
</tr>
<tr>
<td>INCS 310</td>
<td>General Linguistics</td>
<td>3</td>
</tr>
</tbody>
</table>

**Physical Anthropology**

This concentration provides students the opportunity to study the variation and adaptation of human biology within its cultural context. Courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 303</td>
<td>Human Variation</td>
<td>3</td>
</tr>
<tr>

<td>Human Osteology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 405</td>
<td>Human Paleontology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 406</td>
<td>Bioarchaeology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 440</td>
<td>Topics in Biological Anthropology</td>
<td>1-3</td>
</tr>
</tbody>
</table>

**Socio-Cultural Anthropology**

The socio-cultural anthropology concentration provides students with a broad understanding of human behavior through a cross-cultural perspective. Courses include:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH 300</td>
<td>Magic, Witchcraft and Sorcery</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 306</td>
<td>Cognitive Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 320</td>
<td>Topics in Gender Studies</td>
<td>1-3</td>
</tr>
<tr>
<td>ANTH 325</td>
<td>Comparative Folklore and Mythology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 330</td>
<td>California Native Americans</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 342</td>
<td>Social Justice and Human Rights</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 361</td>
<td>Anthropology of Gender</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 370</td>
<td>Topics in Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 400</td>
<td>Political Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 402</td>
<td>Family, Kinship and Gender</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 403</td>
<td>Economic Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 404</td>
<td>Symbol and Ritual</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 407</td>
<td>Ethnicity, Identity and Memory</td>
<td>3</td>
</tr>
<tr>
<td>ANTH 408</td>
<td>Language and Power</td>

<td>Traditional Cultures</td>
<td>3</td>
</tr>
</tbody>
</table>

**Course Sequence**

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Intercultural Studies, B.A.

Mission
The mission of the Undergraduate Program in Intercultural Studies is to prepare students who can comprehensively understand the diverse contexts in which they may serve, contribute to the well-being of those with whom they interact, and make disciples of Jesus Christ among all people.

Degree Program
A Bachelor of Arts degree in Intercultural Studies is offered upon completion of the University baccalaureate and major requirements. The Intercultural Studies major requires the completion of 36 credits of which 24 must be upper-division.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Arts in Intercultural Studies, students will be able to:

1. Articulate the critical importance of the mandate given by the Lord Jesus Christ to make disciples of all nations, and practice this command, based on an accurate understanding of text (Scripture) and context (culture) (ULO 1).
2. Demonstrate integrative knowledge and skill across contributing streams of theology, history, linguistics, social science, and strategy to work in diverse settings (ULO 3).
3. Assess cultural and contextual realities in order to develop Christian perspectives and responses toward cross-cultural problems (ULO 1).
4. Express the significance of growing in Christ-like character as a central component of preparation for service across a broad range of vocations (ULO 2).

Requirements
Field Internship
Every Intercultural Studies major must complete an approved field internship experience, which requires the application of skills studied in the classroom in a cross-cultural environment, usually in a foreign country. Students are encouraged to fulfill this requirement in the summer following the junior year or alternatively in the summer following their senior year. In the case of those choosing to complete their internship following their senior year, INCS 354 will be offered as a summer online class following their internship experience.

Total Credits 36

1. Students in the Torrey Honors Program or who have already taken 30 credits of Bible may need to take INCS 450 (Theology of Mission) and/or BBST 465 (Integration Seminar: Gospel and Culture) instead of their BBST equivalents, and in those cases the number of INCS credits required may increase to 39 or 42 since the 36 INCS required program credits do not include these two BBST/INCS courses.

2. All INCS students must complete at least one 9-credit concentration and take a minimum of nine elective credits. If a student’s concentration is INDS, INED, INTE, INAB, or INCA, they must choose INCS electives. The other INCS concentrations may choose electives in INCS, INTE, INAL, or ANTH.

3. Two concentrations may be taken using the 9-credit concentration requirement and the 9-credit elective requirement.

</tbody>
</table>

Select 9 credits from the following storytelling components:

- JOUR 200 | Practicum                                      | 2       |
- JOUR 303 | Convergent Production                          |         |
- JOUR 305 | Database Journalism                            |         |
- JOUR 332 | Publication Editing and Management              |         |
- JOUR 337 | Intermediate Broadcast Production               |         |
- JOUR 347 | Photo Communication                            |         |
- JOUR 433 | Media Law                                      |         |
- JOUR 344 & JOUR 444 | Media Internship and Advanced Internship and Career Preparation in Media | 3       |

Total Credits | 9

1. See the catalog (Minors section) or the Media, Journalism, and Public Relations Department for details on requirements to complete a Journalism and Integrated Media Minor.

2. Choose one: EagleVision (1 credit) or Radio (1 credit). Radio is offered Fall semester only. See the Media, Journalism, and Public Relations Department for updates to current course offerings.

3. Students must complete 2 internships. Each internship credit is equal to 60 hours of work. Most students complete a 2-credit (120 hour) internship and a 1-credit (60 hour) internship. Students may not complete 3 credits in a 180 hour internship.

### International Business

Due to the popularity of the Business program, automatic priority is given to Business majors.

Additional coursework may be taken to complete a Business Administration Minor. See the catalog (Minors section) or the School of Business for details.

#### Field-Specific Core Curriculum Requirements

The following prerequisite courses are required (may be transferred in under University transfer policy):

- MATH 190 | Business Statistics (fulfills Core Curriculum Math requirement) |
- BUSN 201 | Principles of Macroeconomics |
- BUSN 211 | Principles of Accounting I |
BUSN 212 Principles of Accounting II

The following 9 credits are required for the Intercultural Interdisciplinary concentration:

- BUSN 361 Business Law 3
- BUSN 370 Business Finance 3
- BUSN 375 Business as Mission 3

Total Credits 9

Psychology

<table>
<thead>
<tr>

Elementary or Secondary Concentration Courses

- LEDU 301 Introduction to Teaching 3
- LEDU 330 Psychological Foundations of Education 3
- LEDU 341 Methods of Teaching Linguistically Diverse Students 3

Total Credits 9

1 These are the first three courses in the credential program. See the School of Education for details. Additional items may be required for this coursework, such as TB tests, fingerprinting, and Certificates of Clearance.

Course Sequence

NOTE: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

- Intercultural Studies (p. 73)
- Interdisciplinary (p. 74)

Total Credits 30
BBST 458 will count as a Bible elective. If you take INCS 450, it will count as an INCS upper-division elective and will not count as a BBST elective.

Anthropology Minor

As of Spring 2019, this minor is in teach out phase; no new students will be admitted.

Mission

The mission of the Anthropology minor is to equip students from a variety of disciplines with anthropological frameworks that provide holistic understandings of the diversity of human behavior across time, geography, and culture from a distinctly Christian perspective.

Curriculum Requirements

The Anthropology minor is offered with completion of 18 credits of Anthropology courses including:

<table>
<thead>
<tr>

Applied Linguistics Minor

As of Fall 2019, this minor is in teach out phase, no new students will be admitted.

Mission

The mission of the Applied Linguistics minor is to equip Christian professionals in language-related fields to serve with integrity. Courses in Applied Linguistics help students to more effectively learn languages and address other language-related human problems in the United States and abroad, such as language teaching, literacy, social aspects of language use, and translation.

Curriculum Requirements

An Applied Linguistics minor requires 18 upper-division credits, including 12 credits of core courses and 6 credits of electives. Course work must be completed with a grade of 'C' or higher as prescribed below.

<table>

### Intercultural Studies Minor

#### Mission
The Intercultural Studies minor equips students in areas of theology, history, culture and strategic planning as each relates to cross-cultural evangelical witness and service. Contexts of diverse populations and overseas work in urban, rural, and other global considerations seek the most effective means possible to advance the gospel and integrate biblical truth into other disciplines that this minor might accompany.

#### Curriculum Requirements
An Intercultural Studies Minor is offered with the completion of the courses listed below. Students must consult with a department advisor.

<table>
<thead>
<tr>

1. 12 credits must be upper-division.

### Islamic Studies Minor

#### Mission
The Islamic Studies minor exists to equip men and women to make disciples among Muslims and impact the Islamic world for the Lord Jesus Christ.

#### Curriculum Requirements
An Islamic Studies Minor is offered with the completion of 18 credits in Intercultural Studies and 3 specified credits in Bible.

<table>

1. With permission from the International and Community Development Minor Program Director, INCS 347 and/or INCS 435 may be substituted with one or more of the following courses: ANTH 342, ANTH 370, INCS 485.

### International and Community Development Minor

#### Mission
The International and Community Development minor will provide students with the background, knowledge, and understanding to effectively interact with Christian development practitioners to meet the physical (health, education, housing, etc.) and spiritual needs of individuals. In addition, students will be equipped to work with a diversity of development organizations and other non-governmental and governmental organizations to address contemporary development issues.

#### Curriculum Requirements
The minor is offered with the completion of 18 credits in Intercultural Studies and Anthropology courses and 3 specified credits in a Bible elective.

Missions Minor

Mission

Students taking this minor will be equipped to reflect on the historical, theological, cultural, and strategic realities that impact effective cross-cultural witness and service. As agents to effect the completion of the Great Commission these students will be prepared to exegete text (the Word of God), and context (culture), avoiding the mistakes of the past (history) while using the most effective means possible to advance the gospel (strategy).

Curriculum Requirements

A Missions minor is offered with the completion of 18 credits, 12 of which must be upper-division.

1 Beyond what may have already been taken to fulfill one of the requirements above.

Social Justice, Human Rights and Conflict Transformation Minor

Mission

The mission of the Social Justice, Human Rights and Conflict Transformation minor at Biola is to equip students with the unique tools for advocacy that they will need to effectively engage in integral mission marked by both the proclamation and demonstration of the Gospel to the 'lost,' the 'least' and the 'last.' The minor encourages participants to carefully consider how our proclamation has social consequences and our social involvement has evangelistic consequences.

Curriculum Requirements

A Social Justice, Human Rights and Conflict Transformation minor is offered with the completion of 18 credits of approved courses, 12 of which must be upper-division (excluding BBST 465); with an average grade of 'C' or better.

<table>

TESOL Minor
Mission
English has become the most widely used language in the world today and there is great demand for trained professionals to teach with integrity. The mission of the TESOL minor is to prepare students for service in North America with immigrants, refugees, and international students, as well as for mission opportunities around the world through teaching English as a second or foreign language.

Curriculum Requirements
Students who complete 18 credits of course work with a grade of ‘C’ or higher as prescribed below are eligible for a TESOL concentration within the Intercultural Studies major or a minor in addition to another major. Students will also receive a certificate. Sixteen of these credits must be completed at Biola University.

Students desiring the minor/certificate must complete a departmental application, usually after completing the courses listed below. Students for whom English is not a primary language must have a TOEFL score of 100 iBT or the equivalent, plus demonstrated oral and written proficiency.

Total Credits 18

1. It is recommended that students minoring in Social Justice, Human Rights and Conflict Transformation take ANTH 342 before taking any other courses in the minor.
2. May be substituted for any one of the above electives, or courses in other departments cross-listed with it, or a department approved elective.

Anthropology, M.A.
As of Fall 2017, this degree is in teach out phase, no new students will be admitted at this time.

Mission
The mission of the Master of Arts in Anthropology is to provide students with a holistic understanding of the diversity of human behavior across time, geography and culture from a distinctly Christian perspective and to equip them to actively bridge cultural differences so that they can effectively share the good news of the Gospel and holistically address human problems such as injustice and the effects of globalization on populations around the world.

Program Description
The Master of Arts in Anthropology degree is designed for students who desire advanced training in the study of people in culture preparatory to careers in the teaching of anthropology, serving as anthropological consultants to cross-cultural agencies, or research into and the application of anthropological methods of inquiry to contemporary issues associated with globalization, development, public health or other social conditions. The Master of Arts in Anthropology is designed as a generalized degree that requires students to be familiar with all five fields of anthropological inquiry: cultural anthropology, linguistic anthropology, physical anthropology, archeology, and applied anthropology. A distinctive of the Master of Arts in Anthropology degree is the manner in which a Christian perspective is integrated into every aspect of the courses offered.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Master of Arts in Anthropology, students will be able to:

1. Identify major paradigms, major figures, and major theories in anthropology and explain (ULO 1).
2. Demonstrate they are able to form research questions, apply appropriate research methodologies, and interpret, analyze, and report ethnographic and/or archaeological data (ULO 2).
3. Recognize and respond appropriately to key challenges to and opportunities for their faith raised (ethics, integrity, and intellectual honesty) in engaging their sub-discipline in anthropology (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

The Master of Arts is designed to build upon the competencies in research, fieldwork, and integration achieved through an undergraduate degree in anthropology or allied fields. In the Masters program student achieves competencies in the methodologies necessary for research and work as a professional anthropologist and/or preparation for continuation to a doctoral program in the social sciences or related fields.

Requirements
Program and Entrance Requirements
The M.A. in Anthropology is a 42-credit program. Curriculum includes 15 credits of core courses, 18 credits of electives, and 9 credits of Bible and theology courses. Students entering the program are expected to have
a strong background in anthropological studies including introductory courses in each of the five fields of study. Students wishing to enter the program without these prerequisites will be required to take them as graduate students during the first year of study, thereby adding up to 15 credits of study to the program. Qualified applicants with a B.A. in anthropology consisting of 40 or more credits in anthropology may have their coursework reduced to a minimum of 32 credits.

**Graduation Requirements**
1. Satisfactory completion of all coursework.
2. At least 24 credits must be taken at this institution.
3. Maintain a 3.0 grade point average on a 4.0 scale.
5. Meet with department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Total Credits 42

**Applied Linguistics, M.A.**

As of Spring 2019, this degree is in teach out phase, no new students will be admitted.

**Program Description**

The Master of Arts in Applied Linguistics provides a broad multi-disciplinary foundation to deal with literacy, lexicography, language surveys and planning, orthography, bilingual and multilingual education, language acquisition, translation, and other language-related issues. It combines academic rigor and practical skills for students seeking appropriate solutions to real-world problems. Students may either pursue a generalist track or may choose to specialize in translation, literacy, language survey, Scripture in Use, or TESOL.

Those who want to specialize in Bible translation also have the option of the Master of Arts in Linguistics and Ancient Languages. This degree combines the resources of Talbot School of Theology, where students take classes in Greek or Hebrew and biblical exegesis, and the Department of Applied Linguistics and TESOL where they take classes in linguistics and translation. The application of linguistic principles to the study of the biblical languages facilitates a deeper understanding of these languages. The study of Greek or Hebrew and linguistics develops skills in exegesis and translation for virtually any language situation.

**SIL at Biola**

Each of these Applied Linguistics programs benefits from SIL-at-Biola, a collaboration between the Summer Institute of Linguistics and Biola. Experienced instructors who have served with Wycliffe Bible Translators cooperate in teaching a range of courses here. These courses are equivalent to those offered at other SIL schools and are recognized as valid for membership in Wycliffe and other similar organizations. Depending on the expected field of service and specialty, some students, however, may need to take additional courses at Biola or other SIL summer programs to meet all their SIL training requirements.

**Objectives**

Although language teaching is a prominent area within the field of applied linguistics, there are many other areas of importance that address language-related human problems both in the United States and abroad. Among these are bilingual and multilingual education, language planning, lexicography, literacy, second language acquisition, translation, and the development or modification of writing systems.

The M.A. in Applied Linguistics goes beyond the certificate courses by providing Christian professionals with advanced training in various areas of language analysis and by developing a multidisciplinary approach within which to seek appropriate solutions to real-world problems. Students may pursue either a generalist track or a specialized one by
concentrating their electives in language surveys, linguistics, literacy, TESOL, or translation. Students satisfactorily completing the TESOL concentration will receive the graduate Certificate in TESOL.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Applied Linguistics, students will be able to:

1. Apply knowledge and skills as working applied linguists in areas such as language survey, literacy, Scripture in use, TESOL, and translation (ULO 1).
2. Identify concepts pertaining to language systems and related theory and practice in applied linguistics (ULO 1).
3. Exhibit personal and professional commitment to ethical and biblically informed practice in applied linguistics (ULO 2).
4. Demonstrate their ability to create research projects to address issues in their areas of applied linguistics specialty (ULO 3).
5. Collect and organize applied linguistics resources to evaluate their effectiveness and usefulness for research (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

Applicants must have completed all bachelor’s requirements prior to the start of the program and must have a bachelor’s degree with a 3.0 (on a 4.0 scale) grade point average conferred from a regionally accredited institution prior to the start of the second term. Applicants must submit a written statement outlining their vocational objectives and how the degree will relate to those objectives; a one-page typed letter should be appended to the application. Three letters of reference on forms supplied by Biola are required, as are official transcripts of previous schools attended. Applicants who are non-native English speakers must demonstrate both spoken and written proficiency in English through an oral interview with an admissions counselor or faculty member and through submission of an internationally recognized standardized test of English (taken within the last two years). A TOEFL score of 600 PBT/250 CBT/100 iBT is normally required. The essay score should be at least 5.5. Alternatively, an IELTS score of 7.0 (no less than 6.0 in any element) is required. Applicants to the online M.A. must either have relevant teaching experience, have completed ISTE 501, or have faculty approval.

Foundational Requirements

Students are required to have 12 foundational credits as noted below. Students entering the program without the stated foundational credits may take them concurrently with regular program courses, normally completing them by the end of the first year.

Because teachers and applied linguists are expected to have a high degree of competence in written English, all new graduate students, both native and non-native English speakers, are required to take the department’s Writing Proficiency Exam. If the results indicate that the student needs additional work in grammar and composition to perform at the level expected for these fields, he or she will be directed to take a writing course in the English Language Studies Program or do independent supplementary work on writing.

Program Requirements

The Master of Arts in Applied Linguistics requires 12 credits of foundational work including Bible, introduction to linguistics, phonetics, and syntax or phonology. Beyond those credits, the Master of Arts in Applied Linguistics consists of 33 credits. The culmination of the Master of Arts in Applied Linguistics consists of a comprehensive exam or, with permission of the department, a thesis.

The Master of Arts program requirements may be reduced for students with appropriate background course work, but the minimum number of graduate credits required is at least 32, 24 of which must be taken through Biola University.

Normally, the M.A. in Applied Linguistics degree can be completed in two years for people who come into the program with the foundational credits. However, students who wish to pursue a specialization may need a third year to complete the program depending on their background and the advanced elective courses offered during the three-year course cycle.

Graduation Requirements

Students must successfully complete all required coursework with a minimum grade point average of 3.0 to qualify for graduation. No ALT course with a grade less than a 'B' (3.0) will be counted for the Master of Arts.

The program is usually completed within two years by full-time students. Part-time students may have up to seven years for the M.A. degrees.

All students must meet with their department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Intercultural Studies, M.A.  

Program Description  

The M.A. in Intercultural Studies is designed to equip students both for careers in cross-cultural or multicultural environments and for ministries associated with spreading the gospel of Jesus Christ in cultures other than one's own. At the end of the program, graduates should be able to do the following:

1. Demonstrate their capacity to live and work in environments or cultures different than their own;
2. Articulate a cross-cultural or international perspective with respect to their professional training (e.g., in teaching, medicine, business, or development);
3. Produce written studies and reports manifesting their familiarity with the analytical and research tools available (particularly in the social sciences) and demonstrate their abilities to assess and adapt their objectives and activities to the cultural realities of their working environments;
4. Communicate a clear understanding of the dynamic nature of the gospel, the spiritual and cultural traits of a growing church, the deeply intertwined relationship between the gospel and culture in which God’s self-revelation was given in culture, how it is now communicated across cultures, and how it is being faithfully lived out in appropriate contextualized acts of allegiance to the God of creation; and
5. Manifest godliness of character, personal standards of integrity and morality, concern for human rights and justice, and a passion for the reconciliation of humanity with their Creator.

The Master of Arts in Intercultural Studies is offered with the following specializations:

- Community Development (p. 80)
- Intercultural Education (p. 81)
- Intercultural Studies (p. 82)
- Missiology (p. 83)
- Peace and Conflict Transformation (p. 84)

Intercultural Studies, M.A. (Community Development)  

Learning Outcomes  

Program Learning Outcomes  

Upon completion of the Master of Arts in Intercultural Studies, students will be able to:

1. Articulate principles for successful living and working in diverse environments and cultures (ULO 1 and 2).
2. Express an understanding of an international perspective on their experience in mono-cultural training (e.g. teaching, medicine, business) (ULO 1).
3. Demonstrate proficiency in research skills and writing that includes assessment and adaptation to specific cultural contexts (ULO 1).
4. Describe the dynamic nature of the Gospel, the growing church, and how it is contextualized and communicated across cultures (ULO 1 and 3).
Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Elective Courses  
Select 18 credits of advisor-approved electives  

Total Credits  

1  

1 Students who do not have to take required electives are encouraged to choose a combination of electives most suitable for their career goals. Students may also choose to focus electives in areas of specialization such as anthropology, missiology, cross-cultural education, Bible and theology, Bible translation, linguistics, TESOL, church planting, cross-cultural health care, urban ministries, etc. Students desiring a graduate certificate in TESOL in conjunction with their intercultural studies degree must also apply to the Department of ALT.  

Students who are not proficient in a second language will also be required to take one of the courses listed below as a required elective. (Proficiency standards for a second language will be determined by the M.A. advisor in consultation with intercultural studies faculty. See student handbook for standards.)  

- ISAL 520  
- ISAL 613  

Students who have not previously taken a course in cultural anthropology will be required to take the course below as a required elective.  

- ISAN 507  

Intercultural Studies, M.A. (Missiology)  

Learning Outcomes  

Program Learning Outcomes  
Upon completion of the Master of Arts in Intercultural Studies, students will be able to:  

1. Articulate principles for successful living and working in diverse environments and cultures (ULO 1 and 2).  
2. Express an understanding of an international perspective on their experience in mono-cultural training (e.g. teaching, medicine, business) (ULO 1).  
3. Demonstrate proficiency in research skills and writing that includes assessment and adaptation to specific cultural contexts (ULO 1).  
4. Describe the dynamic nature of the Gospel, the growing church, and how it is contextualized and communicated across cultures (ULO 1 and 3).  

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.  

Requirements  

Curriculum Requirements  
The M.A. in Intercultural Studies is a 39-credit program. For the qualified applicant with extensive undergraduate work in intercultural studies/missions, it may be reduced to a minimum of 30 credits.  

Graduation Requirements  

1. Complete the required courses listed below.  
2. Successfully pass a comprehensive examination over coursework.  
3. Maintain a 3.0 grade point average on a 4.0 scale.  
4. Meet with department advisor and a Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

1 Students who are not proficient in a second language will be required to take ISAL 613 or ISAL 520

Linguistics and Ancient Languages, M.A.

As of Fall 2019, this degree is in teach out phase, no new students will be admitted.

Program Description

Students who want to specialize in Bible translation have the option of the Master of Arts in Linguistics and Ancient Languages. This degree combines the resources of Talbot School of Theology, where students take classes in Greek or Hebrew and biblical exegesis, and the Department of Applied Linguistics and TESOL where they take classes in linguistics and translation. The application of linguistic principles to the study of the ancient languages facilitates a deeper understanding of these languages. The study of Greek or Hebrew and linguistics develops skills in exegesis and translation for virtually any language situation.

Those who wish to specialize in Bible translation and who already have significant training in Bible, Greek, and/or Hebrew, also have the option of the Master of Arts in Applied Linguistics. That degree allows for greater flexibility, through more electives, while also enabling students to complete a concentration in translation.

SIL at Biola

Each of these Applied Linguistics programs benefits from SIL-at-Biola, a collaboration between the Summer Institute of Linguistics and Biola. Experienced instructors who have served with Wycliffe Bible Translators cooperate in teaching a range of courses here. These courses are equivalent to those offered at other SIL schools and are recognized by Wycliffe as valid training for their goals of translation. Depending on the expected field of service and specialty, some students, however, may need to take additional courses at Biola or other SIL summer programs to meet all their SIL training requirements.

Objectives

The purpose of the M.A. in Linguistics and Ancient Languages is to provide advanced training in ancient languages and exegetical knowledge to Christians desiring to meet the needs of agencies involved in Bible translation, such as SIL International. While the M.A. in Applied Linguistics provides broad perspectives on issues such as translation, literacy, orthography, and language planning, the M.A. in Linguistics and Ancient Languages has a more specific focus on linguistics, exegesis and ancient languages. Students who complete the M.A. in Linguistics and Ancient Languages program will be able to accurately analyze either Hebrew or Greek, understand the relevant historical and cultural background, exegesis the Scriptures, and apply sound linguistic and biblical principles in the translation of the Scriptures.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Linguistics and Ancient Languages, students will be able to:

1. Students will apply knowledge and skills as working applied linguists in Bible translation (ULO 1).
2. Students will collect, organize, and interpret language data in order to provide written documentation of their findings (ULO 1).
3. Students will assess their values, compare them with those of other languages and cultures, and demonstrate sensitivity to them (ULO 2).
4. Students will exhibit a professional commitment to ethical and biblically informed practice in applied linguistics (ULO 2).
5. Students will demonstrate their ability to interact appropriately with translation partners and constituency according to standards of best practices in the field (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelor’s degree with a 3.0 (on a 4.0 scale) grade point average conferred from a regionally accredited institution prior to the start of the second term. Applicants must submit a written statement outlining their vocational objectives and how the degree will relate to those objectives; a one-page typed letter should be appended to the application. Three letters of reference on forms supplied by Biola are required, as are official transcripts of previous schools attended. Applicants for whom English is not a primary language must demonstrate both spoken and written proficiency in English through an oral interview with an admissions counselor or faculty member and through submission of an internationally recognized standardized test of English (taken within the last two years). A TOEFL score of 100 iBT is normally required. The essay score should be at least 5.5. Alternatively, an IELTS score of 7.0 (no less than 6.0 in any element) is required.
Foundational Requirements

Students are required to have 15 foundational credits as noted below. Students entering the program without the stated foundational credits may take them concurrently with regular program courses, normally completing them by the end of the first year.

Because teachers and applied linguists are expected to have a high degree of competence in written English, all new graduate students, both first and second language English speakers, are required to take the department’s Writing Proficiency Exam. If the results indicate that the student needs additional work in grammar and composition to perform at the level expected for these fields, he or she will be directed to take a writing course in the English Language Studies Program or do independent supplementary work on writing.

Program Requirements

The Master of Arts in Linguistics and Ancient Languages requires 15 credits of foundational courses (Old Testament survey, New Testament survey, hermeneutics, introduction to linguistics, and phonetics) and 42 additional credits for the Hebrew and Greek concentrations. The culmination of the Master of Arts in Linguistics and Ancient Languages consists of a comprehensive exam or, with permission of the department, a thesis.

Students who complete the M.A. in Linguistics and Ancient Languages program will be able to accurately analyze a language unknown to them, understand the relevant historical and cultural background, exegete the Scriptures, and apply knowledge of Hebrew or Greek, along with sound linguistic and biblical principles in the translation of the Scriptures.

The Master of Arts program requirements may be reduced for students with appropriate background course work, but the minimum number of graduate credits required is at least 32, 24 of which must be taken through Biola University.

Graduation Requirements

Students must successfully complete all required coursework with a minimum grade point average of 3.0 to qualify for graduation. No ALT course with a grade less than a 'B' (3.0) will be counted for the Certificate or M.A.

The M.A. degree in Linguistics and Ancient Languages is usually completed within two years by full-time students; but may require an additional semester or two for students without the foundational credits. Part-time students may have up to seven years for the M.A. degree.

All students must meet with their department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduation Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Missions, M.A.

Program Description

The Master of Arts in Missions is designed for individuals who have been in Christian missions ministry for at least three years and have not had the opportunity to earn an accredited baccalaureate degree, but who now wish advanced training related to their ministries. The program provides graduate level training in three areas: Core Curriculum of Missiology and Intercultural Studies; Bible/Theology; and Electives. Students admitted without the B.A. or its equivalent must have at least 3 years of Bible School training, or 2 years of college equivalency courses. This degree is not a stepping-stone to a Ph.D. program and in most cases it is a terminal degree. However, exceptional students may petition for probationary entrance into the Doctor of Intercultural Studies program. See the admission requirements for the Doctor of Intercultural Studies program.
Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Missions, students will be able to:

1. Articulate principles for successful living and working in diverse environments and cultures (ULO 1 and 2).
2. Demonstrate an ability to critically engage contemporary missiological theories and practices (ULO 1).
3. Articulate appropriate principles and practices in the task of representing the truth of the Gospel and the Kingdom of God within the context of their own personal calling and ministry (ULO 1).
4. Describe the dynamic nature of the Gospel, the growing church, and how it is contextualized and communicated across cultures (ULO 1 and 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

Personal Qualifications

1. Completion of five years in intercultural ministry and presently in a ministry.
2. Participation in the Master of Arts program in Missions presumes a significant level of ministry experience and personal maturation. The program intent is to provide an option for those who desire to enhance their ministry but whose circumstances of age and finances make a return to a baccalaureate program detrimental to their ongoing missions ministry.
3. Applicants usually will not have an accredited B.A. or equivalent degree. CSICS offers other programs for applicants who have the baccalaureate degree.
4. Three references are required: church or denominational endorsement; personal friend; and ministry colleague (or employer if currently employed outside the missions community).

Academic Qualifications

1. Equivalency of two years of collegiate level studies or three years of Bible School training.
2. Proficiency in English language.

Admission Procedure

1. The applicant’s potential to compete successfully in a graduate program will be determined by the M.A. in Missions program director, the CSICS Dean, and the Admissions Officer who will interview each applicant and evaluate all credentials.
2. Each approved applicant will be enrolled in the Master of Arts in Missions program on probation and must complete the first five courses (15 credits) with a grade point of at least 3.3 or higher to advance further in the program.

Graduation Requirements

1. Satisfactorily complete 58 semester credits as outlined in the curriculum.

2. At least 24 credits must be taken at this institution.
3. Obtain a 3.0 GPA on a 4.0 scale with no grade below ‘B’ in all courses to be credited toward graduation.
4. Complete the entire program in no more than six years.
5. Students who are placed on probation after the first 15 credits, are granted one semester in which to bring their academic work up to the required level for continuance in the program. A student cannot graduate while on probation.
6. Successfully pass a comprehensive examination over coursework.
7. Students who are not proficient in a second language will be required to take ISAL 520 or ISAL 613. Proficiency standards for a second language will be determined by the program director in consultation with the faculty. The standards are given in the student handbook.
8. Meet with department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Curriculum Requirements

The Master of Arts in Missions curriculum requires a total of 58 credits.

TESOL, M.A.

Program Description

English has become the most widely used language in the world today, particularly in the areas of science, commerce and education. Tens of thousands of students in developing countries are taught English in school. Thousands more study English in order to pursue careers or educational programs demanding English language skills. Refugees and immigrants to the United States desire English to survive and to establish
themselves in their new homeland. There is thus a considerable demand for qualified teachers of English both here and abroad.

To help meet the need for trained Christian teachers of English as a Second Language (ESL) or English as a Foreign Language (EFL), the Department of TESOL and Applied Linguistics offers two regular programs in TESOL: a Graduate Certificate in TESOL and an M.A. in TESOL. The programs are academically rigorous; yet focus on the practical aspects of teaching in a variety of settings. The department also seeks to serve teachers desiring to continue their professional advancement or upgrade their qualifications, and non-degree students interested in gaining basic teaching or tutoring skills, by offering a variety of separate courses, from introductory to advanced.

The M.A. in TESOL encompasses the goal of the certificate program plus the additional goal of broader academic training. Teachers are equipped for work in and beyond the classroom in administration, training, course design, etc.

The focus of the TESOL programs is post-secondary and adult education. Those interested in K–12 ESL in U.S. schools should consult with the School of Education.

The M.A. in TESOL is offered both on-campus and online.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in TESOL, students will be able to:

1. Identify concepts pertaining to the English language system and related theory and practice in language learning and teaching (ULO 1).
2. Analyze, evaluate, and apply research in English language teaching (ULO 1).
3. Examine and resolve real-life learning and teaching situations in light of best practices in TESOL (ULO 1).
4. Recognize the effects of various personal, linguistic, and sociocultural factors on learning processes and formulate pedagogical responses in accordance with biblical and ethical standards (ULO 2).
5. Devise a plan to be a life-long, global-minded Christian professional language educator (ULO 2).
6. Search for, select, and/or create lessons, materials, and tasks for effective learning (ULO 3).
7. Demonstrate the ability to adapt instruction to learner needs and cultural contexts (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

Applicants must have completed all bachelor’s requirements prior to the start of the program and must have a bachelor’s degree with a 3.0 (on a 4.0 scale) grade point average conferred from a regionally accredited institution prior to the start of the second term. Applicants must submit a written statement outlining their vocational objectives and how the degree will relate to those objectives; a one-page typed letter should be appended to the application. Three letters of reference on forms supplied by Biola are required, as are official transcripts of previous schools attended. Applicants who are non-native English speakers must demonstrate both spoken and written proficiency in English through an oral interview with an admissions counselor or faculty member and through submission of an internationally recognized standardized test of English (taken within the last two years). A TOEFL score of 100 iBT is normally required. The essay score should be at least 5.5. Alternatively, an IELTS score of 7.0 (no less than 6.0 in any element) is required.

Foundational Requirements

Students are required to have 3 foundational credits in Bible or Theology as noted below. Students entering the program without the stated foundational credits may take them concurrently with regular program courses, normally completing them by the end of the first year.

Because teachers and applied linguists are expected to have a high degree of competence in written English, all new graduate students, both native and non-native English speakers, are required to take the department’s Writing Proficiency Exam.

Program Requirements

The Graduate Certificate in TESOL requires 3 foundational credits in Bible or Theology and 15 credits of prescribed course work in TESOL, and the Master of Arts in TESOL requires 36 credits. A portfolio is required as a culmination for the Master of Arts in TESOL.

The Master of Arts program requirements may be reduced by up to 9 credits for students with extensive equivalent undergraduate course work in TESOL (minimum 18 UG credits). For students with appropriate prior graduate course work in TESOL, the minimum number of graduate credits required is at least 27, 24 of which must be taken through Biola University.

Graduation Requirements

Students must successfully complete all required coursework with a minimum grade point average of 3.0 to qualify for graduation. No ALT course with a grade less than a ’B’ (3.0) will be counted for the Master of Arts.

The program is usually completed within two years by full-time students. Part-time students may have up to seven years for the M.A. degrees.

All students must meet with their department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Intercultural Studies, D.I.S. 

Objectives

The Doctor of Intercultural Studies is a practitioner’s degree designed to enhance people, partnerships and publications that advance the missions enterprise in scholarship, spirituality, service, and sacrifice through the critical strategizing of three cross-disciplines: church history, theology, and the social sciences. The program’s goal is to promote the development of teachers, missions administrators and consultants, Bible translators, church multipliers, curriculum developers, community developers, member care professionals, and business persons who will be able to conduct cross-cultural ministries with greater conviction, clarity, competence, and compassion, without compromising the sacred Scriptures.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Doctor of Intercultural Studies, students will be able to:

1. Demonstrate an understanding of important theories and theorists relevant to one’s research area and/or ministry context (ULO 1).

2. Construct new applied understandings explaining how the student can improve vocational engagement outcomes (ULO 1).

3. Demonstrate a mastery of important theoretical constructs in missiology applied to the student’s vocational engagement (ULO 2).

4. Discuss and analyze the integration of one’s faith commitments, theological understandings, and pertinent educational convictions (ULO 3).

5. Exemplify rigorous scholarship accompanied by Christ-honoring professionalism in all scholarly activities (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Program Requirements

The D.I.S. program requires 40 credits past the master’s degree of which 4 credits normally are devoted to the capstone project, including ISCL 880.

The 36-credit coursework component of the program comprises 12 credits of theological and missiological foundations, 18 credits of missiology/intercultural studies courses, and 6 credits of research methods. Students are encouraged to integrate each modular into their capstone project.

A faculty advisor will guide each student in planning a program of courses to serve his or her ministry needs. Each student is expected to choose courses most appropriate to their research interest and will select a mentor from the graduate faculty to guide his or her capstone project. Admission into the graduate program of the School of Intercultural Studies does not guarantee completion of the doctoral degree.

Delivery System

Full-time students can complete all required coursework in four semesters with an additional year generally devoted to the capstone project. Part-time students usually complete course work in three years.

Time Limit for Degree Completion

All course and academic requirements for the D.I.S. degree must be completed within seven years, beginning on the date of the student’s first registration. Petitions for extension beyond seven years will be considered on a case-by-case basis for students who may need extensive time on the field.

Withdrawal and Re-Admission Procedures

A student who must drop out of school or is planning to return to field service must go through the formal withdrawal process. To return to active status the student should contact the program director and file a re-admission form with the admissions office.

Leave of Absence

Inactive students are those who have requested and been granted Leave of Absence from the program. A Leave of Absence may be granted upon petition for change of status if there is deemed sufficient reason for interrupting the program and intention to return to the program.

A Leave of Absence must be renewed by petition each semester and may not exceed two consecutive semesters. A Leave of Absence longer than two semesters will require withdrawal from the program and a petition for re-admission if the student later wishes to regain active status. Each leave of absence must receive the approval of the student’s program advisor and the Dean of the school. Students on leave are required to register for ISCL 893 each term.

Oral Interview

If needed, an oral interview with a faculty committee may be held to evaluate a student’s progress and potential for successful completion of the doctoral program. The interview is scheduled after at least one substantial piece of written work demonstrating the student’s skill in research writing. The result of the interview will determine the student’s status within the program.
Vocational Experience and Language Requirement

All students must complete a minimum of three years of practical ministry experience in a cross-cultural (or multi-cultural) setting. It is assumed that the student will acquire fluency in a second language before or during this vocational service and that this language will be the language of field research.

Admission to Candidacy

Official candidacy for the doctorate signifies an advanced stage in the student’s progress and is characterized by self-directed research and preparation of a capstone project under the direction of a faculty advisor. In order to be admitted to candidacy the student must have:

1. Completed the field ministry requirement
2. Received approval of the dissertation proposal by the Doctoral Committee

Upon reaching candidacy a student usually registers for a total of 4 Capstone Project credits (including Project Proposal) prior to graduation.

Capstone

The 40 credit hour D.I.S. program normally includes 36 hours of coursework followed by four credit hours of research, of which two are Capstone Project Proposal and two are the Capstone Project. Students who have completed 40 credit hours or more of coursework before reaching the Capstone Project phase of their program must still write a research proposal and complete a Capstone Project. Both ISCL 880 and ISCL 881 constitute full-time enrollment; however, students in the research phase may be considered full-time for a maximum of four semesters.

The capstone project generally is based upon research conducted in the field of ministry and must demonstrate high attainment in applied scholarship related to professional missiology. The project proposal must be approved by the candidate’s advisory committee (usually two members of the Cook faculty) prior to the beginning of the student’s field research.

Final Oral Examination

The final examination is an oral defense of the dissertation before the doctoral committee and other invited professionals.

Graduation Requirements

All students must defend a capstone project and complete all required course work with a minimum 3.0 GPA to qualify for graduation. Also, students must meet with their department advisor and contact a Graduate Graduation Counselor one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in Admission, Enrollment and Graduation Requirements (p. 25) section).

Intercultural Education, Ph.D.

Program Description

The purpose of the Doctor of Philosophy degree in the Cook School of Intercultural Studies (CSICS) is to equip scholars to be competent in research, writing, and reflective action from a holistically integrated Christian worldview in order to contribute to new understandings of cross-cultural and multicultural issues. The program prepares graduates for roles in higher education, cross-cultural leadership, and intercultural praxis.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Doctor of Philosophy in Intercultural Education, students will be able to:

1. Demonstrate a mastery of relevant theories in intercultural education and related disciplines associated with one's research area and/or ministry context (ULO 1).
2. Engage in and publish independent educational research (ULO 1).
3. Generate new understandings and explanations (e.g., theoretical constructs) and apply them in culturally appropriate ways to the improvement of educational outcomes in diverse contexts (ULO 2).
4. Discuss and analyze the integration of one's faith commitments, theological understandings, and pertinent educational convictions (ULO 3).
5. Exemplify rigorous scholarship accompanied by Christ-honoring professionalism in all scholarly activities (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (http://catalog.biola.edu/general-information/) section of this catalog.

Requirements

Program Requirements

The Cook School of Intercultural Studies offers two Ph.D. degrees: the Ph.D. in Intercultural Education, and the Ph.D. in Intercultural Studies. Each program requires a minimum of 60 credits past the appropriate master's degree, including a minimum of 48 semester hours of coursework and a maximum of 12 semester hours of dissertation research.

The Ph.D. programs include five foundational courses (13 credits), four specialized courses (12 credits), three electives or tutorials (9 credits), three Bible/theology courses (9 credits), and two research methods courses (6 credits). The dissertation portion of the program includes two taught courses (6 credits) and allows students to devote up to 5 additional dissertation credits to independent research and writing. There is wide latitude for students to pursue their individual interests in elective courses (or tutorials) and ultimately in research for their doctoral dissertations.

If a student has completed a master’s degree which does not contain the background necessary for the Ph.D. program, the total program will be longer than 60 credits, as determined by the program director. If a student enters the Ph.D. program having completed a graduate degree in a field similar to intercultural studies and has been involved in extensive experience work they may be eligible to receive up to 9 competency credits toward the Foundational Core classes. Additionally, students with advanced work in Bible and theology may also be eligible for up to 9 credits of Bible/theology reductions for work completed as part of a D.Min. or D.I.S. degree, and up to 6 credits of reduction for students with a Th.M. degree. Requests for course reductions from other students with extensive coursework in Bible and theology will be considered on a case-by-case basis and will not normally exceed 6 credits of course reductions. At the recommendation of the Ph.D. academic advisor and with the approval of the doctoral committee, students with a previous doctoral degree may be granted course reductions of up to 24 credits but must complete at least 36 additional credits at Biola University, of which 24 credits must be new coursework and up to 12 credits may be devoted to dissertation research and writing. A faculty advisor will guide students in planning a program of study that serves their vocational aspirations. The degree offers a concentration in either intercultural or multicultural education. Students are expected to choose the concentration most appropriate to their research interest.

Time Limit for Degree Completion

All course and academic requirements for the Ph.D. degree should be completed within seven years, beginning on the date of the student’s first registration. Petitions for extension beyond seven years will be considered on a case-by-case basis for students. At times students may need to interrupt their programs for a semester or more for a variety of personal or work-related reasons. This may be done with the consent of their respective Ph.D. Program Director. Students must be continuously enrolled unless on an official Leave of Absence. Students who fail to register in any given semester without a Leave of Absence will be dropped from their respective doctoral program. Also, students on Leave of Absence beyond two consecutive semesters must reapply to their respective doctoral program.

Withdrawal and Re-Admission Procedures

A student who must drop out of school must go through the formal withdrawal process. To return to active status the student should contact the program director and file a readmission form with the Office of Admissions.

Leave of Absence

Inactive students are those who have requested and been granted Leave of Absence from the program. A Leave of Absence may be granted upon petition for change of status if there is deemed sufficient reason for interrupting the program and intention to return to the program.

A Leave of Absence must be renewed by petition each semester and may not exceed two consecutive semesters. A Leave of Absence longer than two semesters will require withdrawal from the program and a petition for readmission if the student later wishes to regain active status. Each leave of absence must receive the approval of the student's program advisor and the Dean of the school. Students on leave are required to register for ISCL 893 Leave of Absence each term.

A Leave of Absence may be granted upon petition for change of status if there is deemed sufficient reason for interrupting the program and intention to return to the program. Inactive students are those who have requested and been granted Leave of Absence from the program. A Leave of Absence must be renewed by petition each semester and may not exceed two consecutive semesters. A Leave of Absence longer than two semesters will require withdrawal from the program and a petition for readmission if the student later wishes to regain active
status. Each Leave of Absence must receive the approval of the Program Advisor and the Dean of CSICS. Students on leave are required to register for ISCL 893 Leave of Absence each term.

**Portfolios**

CSICS has chosen to utilize a Portfolio Assessment System for its Ph.D. programs. This system is designed as a means to help monitor student progress toward one’s development as a scholar. A variety of course materials will be collected periodically throughout the duration of the doctoral program. For further information, please consult the current Doctoral Programs Handbook.

**Qualifying Examinations**

Doctoral students are required to demonstrate a comprehensive knowledge of their field of study by examination. The content of the written qualifying exam includes material from the core areas of the curriculum and the student’s particular specialization. These exams are normally taken at the conclusion of all the coursework.

**Admission to Candidacy**

Official Ph.D. candidacy indicates that students have completed all of the preliminary requirements and are now qualified to undertake original research contributing to scholarship in their respective fields through their doctoral dissertations.

To achieve candidacy, students must successfully complete the following:

1. Required coursework and the Graduation Procedures Check (or grad check)
2. Portfolio, approved by the doctoral committee
3. Qualifying examinations
4. Successful defense of the dissertation proposal

It is the responsibility of students to contact their advisors in order to ensure all candidacy requirements have been met. Upon completion of the requirements, students will be notified of their acceptance to candidacy. Candidates will select a chairperson from the graduate faculty to guide their dissertation research. Upon achieving candidacy, students may implement their proposed research plans under the supervision of the approved doctoral chairperson.

Students enrolled in ISCL 890 or ISCL 891 are considered full-time students. During the dissertation phase, doctoral students are considered full time for a maximum of four semesters. If doctoral candidates have not defended their dissertations by the time all required dissertation credits are completed, they must enroll continuously in ISCL 890 for 0 credits each semester until the successful defense of the dissertation. This enrollment carries no academic credit but maintains the student’s continuous registration.

Students who fail to achieve candidacy may be offered a terminal M.A. degree and dropped from the Ph.D. program.

**Dissertation**

The dissertation process officially begins with the successful defense of a candidate’s proposal before one’s doctoral committee prior to beginning the student’s field research.

The doctoral dissertation contributes to theory relevant to the candidate’s concentration and must be conducted in some aspect of intercultural studies.

**Dissertation Defense**

The final examination is an oral defense of the dissertation before the doctoral committee and other invited professionals. Successful defense of the dissertation completes the candidate’s responsibilities for the degree, which is conferred in the scheduled graduation ceremony immediately following the defense.

**Graduation Requirements**

All students must present an acceptable dissertation, have satisfactorily passed their qualifying exam and completed all required course work with a minimum 3.3 GPA to qualify for graduation. Students must meet with their department advisor and contact a Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

**Residency Requirement**

CSICS Ph.D. students taking coursework at Biola’s CSICS extension centers must take at least 50% (normally 24 credits) of the coursework at Biola’s main campus.

**Program Specific Objectives**

The Doctor of Philosophy degree in Intercultural Education equips Christians for professional careers in the field of formal, non-formal, and informal arenas of education. Our chief goal in the program is to produce graduates who can think Christianly about their field, and engage in research and writing, which helps contribute to new understandings of cross-cultural issues in education. The skills gained in pursuit of the degree involve teaching, academic mentoring, research, and writing. The Ph.D. in Intercultural Education allows the student to pursue knowledge and understanding of the cultural components of the educational process in diverse contexts.

**Ph.D. in Intercultural Education**

**Prerequisites:** M.A. degree with a strong education background. Minimum of 3 years of cross-cultural or multicultural educational experience.

**Requirements:** The program consists of at a total of 60 credits, of which 12 may be devoted to dissertation research, including ISCL 872 (http://catalog.biola.edu/search/?P=ISCL%20872/) and ISCL 891 (http://catalog.biola.edu/search/?P=ISCL%20891/).

The final examination is an oral defense of the dissertation before the doctoral committee and other invited professionals. Successful defense of the dissertation completes the candidate’s responsibilities for the degree, which is conferred in the scheduled graduation ceremony immediately following the defense.
Graduation Requirements

All students must present an acceptable dissertation, have satisfactorily passed their qualifying exam and completed all required course work with a minimum 3.3 GPA to qualify for graduation. Students must meet with their department advisor and contact a Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Residency Requirement

CSICS Ph.D. students taking coursework at Biola's CSICS extension centers must take at least 50% (normally 24 credits) of the coursework at Biola's main campus.

Program Specific Objectives

The Ph.D. in Intercultural Studies allows the student to engage in the study of issues and processes associated with cultural change, culture contact and transformation. This track equips graduates to critically analyze the practice and theory of intercultural and cross-cultural programs and processes that have contributed to contemporary globalization trends.

Ph.D. in Intercultural Studies

Prerequisites: M.A. degree with a strong emphasis in intercultural studies, the social sciences or a related field. Minimum of three years of cross-cultural experience.

Requirements: The program consists of a total of 60 credits, of which up to 11 may be devoted to dissertation research, including ISCL 872 and ISCL 891.

Specialization Courses

A total of 9 credits must be taken in:
- Education/ICS electives or Tutorial 3
- ISCL 873 Tutorial 3

Research Courses

- ISCL 803 Qualitative Research 3
- ISCL 879 Research Design 3

Bible/Theology Courses

Students may select Bible/Theology courses from a wide range of courses taught by the faculty at Talbot School of Theology or from among the theological integration courses offered by qualified faculty within the Cook School of Intercultural Studies. Students with no formal biblical/theological training prior to entering the program must have the selection approved by the program director. Students may also select:

- ISCL 655 Contemporary Theology of Mission
- ISCL 701 Theology of Culture
- ISCL 722 Spiritual Conflicts in Cross-Cultural Context
- ISCL 724 Issues in Spiritual Warfare
- ISCL 744 Narrative in Scripture and Teaching
- ISCL 750 Issues in Contextualization/Cross-Cultural Theology
- ISCL 751 Theology of Mission
- ISCL 752 Acts: Biblical and Missiological
- ISCL 780 Topics in Biblical Theology from a Missiological Perspective

Dissertation Writing

- ISCL 872 Foundations of Doctoral Research 3
- ISCL 890 Ph.D. Dissertation Field Research 5
- ISCL 891 Ph.D. Dissertation Proposal 3

Total Credits 60

Specialization Courses

A total of 6 credits must be taken in:
- ISAL electives 6
- ISAL 520 Introduction to Language and Linguistics 3

Program Courses

The Linguistics Certificate requires 18 credits, presuming foundational courses have been fulfilled. Select 6 credits of ISAL electives 6

- ISAL 521 General Articulatory Phonetics 3
- ISAL 523 Introduction to Phonology 3
- ISAL 525 Introduction to Syntax 3
- ISAL 652 Field Methods in Second Language and Culture Learning 3
  or ISAL 654 Field Methods in Linguistics 3

Total Credits 24

May be taken concurrently with program courses.
Orality Certificate
The Certificate in Orality requires 12 credits of coursework.

Program Learning Outcomes
Upon completion of the Orality Certificate, students will be able to:
1. Demonstrate an introductory level knowledge of theories of oral learning and oral missionary strategies.
2. Apply concepts of narrative and orality to their career goals.

Curriculum Requirements
These courses may also be combined with core courses leading to an M.A. in Intercultural Studies degree.

Total Credits 12

TESOL Certificate – Undergraduate
To recognize the significance of the training received, a certificate is granted to those who complete 18 credits of prescribed TESOL coursework with a grade of 'C' or higher. Sixteen of these credits must be completed at Biola University. While the Biola undergraduate certificate in TESOL does not have the same coverage as the graduate certificate, it should be noted that it requires much more than the typical entry level certificate and, as such, qualifies its holders for work in many institutions in the United States and abroad.

Students interested in TESOL training may note that there is an unregulated market for a wide range of 'certificates.' While Biola University-issued TESOL certificates are for year-long programs at the undergraduate and graduate levels, the department can also prepare certificates of completion for students who complete one or more courses. These certificates specify number of contact hours and topics covered.

1 May be taken concurrently with program courses.

Cook Intercultural Studies Courses by Discipline

Course Descriptions
- ANTH: Anthropology (p. 96)
- INAL: Applied Linguistics (p. 100)
- INCS: Intercultural Studies (p. 101)
- INTE: TESOL (p. 104)
- ISAL: Applied Linguistics (p. 105)
- ISAN: Anthropology (p. 108)
- ISCL: Intercultural Studies (p. 112)
- ISTE: TESOL (p. 119)

ANTH: Anthropology

Courses

ANTH 200 - Cultural Anthropology  Credits 3
The nature of people in culture; worldview and perception; culture change; a study of the subsystems of cultures, including social organization, religion, language and related topics. Includes practical applications to global problems such as AIDS, human rights, etc. Core Curriculum: Approved for Core - Behavioral Science. Grade Mode: A. Restriction(s): Must be Undergraduate Level.
ANTH 215 - Introduction to Archaeology  Credits 3
An examination of the methodology and theories of the archaeological approach to the study of humankind from the earliest times to the present and how to interpret such data in respect to political, economic and social organization as well as analyze cultural adaptation and change. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 222 - Physical Anthropology  Credits 3
A survey of the physical nature of humans from an anthropological perspective. The course will explore ideas and concepts in scientific method, genetics, human variation, primate behavior, fossil humans and archaeology. Core Curriculum: Approved for Core - Science. Note(s): May be taken concurrently with ANTH 223 for a total of 4 credits of laboratory science credit. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 223 - Physical Anthropology Laboratory  Credit 1
A laboratory consisting of a hands on study of specimens and an examination of the relationship between human biology and the influence of culture. This laboratory accompanies ANTH 222 and is divided between observational and experimental approaches to the collection and interpretation of data. Frequent discussion of relevant issues is included. Lecture/Lab Hours: Three lab hours. Core Curriculum: Approved for Core - Science. Note(s): May be taken concurrently with ANTH 222, or in a subsequent semester. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 300 - Magic, Witchcraft and Sorcery  Credits 3
A treatment of conceptions of the supernatural, the functions of religion in society, religion and social control, the nature of religious ritual and paraphernalia, sacred places and religious practitioners. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 303 - Human Variation  Credits 3
The study of the processes and theories for the existence of the present variation between and within human populations, the genetics of human populations and the significance of racial classifications. Grade Mode: A.
Prerequisite(s): ANTH 200, ANTH 222.
Restriction(s): Must be Undergraduate Level.

ANTH 304 - Human Osteology  Credits 3
Techniques in the basic identification of human skeletal remains, including aging, sex, race and stature reconstruction. Professional and ethical considerations related to handling human remains. Grade Mode: A.
Prerequisite(s): ANTH 200, ANTH 222.
Restriction(s): Must be Undergraduate Level.

ANTH 306 - Cognitive Anthropology  Credits 3
Survey of the growth and development of anthropological theories and research methods for understanding cultural knowledge. Explores key ideas, concepts and issues relating to cognition, culture and meaning. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 310 - Introduction to Linguistic Anthropology: Language, Culture and Society  Credits 3
This course is a holistic approach to language that addresses the interdependence of language and culture in society. It examines the relationship between cognition and behavior to language in communities worldwide. Topics include the structure of language and interaction, symbols and metaphors, language and identity, language and cognition, classification of experience, and language and power. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 311 - Ancient Languages  Credits 3
Topics may include Egyptian Hieroglyphic Texts: Reading basic Middle Egyptian inscriptions: religious/mythological, moral, historical and literary texts in light of their cultural context; Maya Hieroglyphs and Archaeoastronomy: Reading basic Maya Hieroglyphic inscriptions and codices. Ancient Mesoamerican archaeo-astronomical theory, observations and calendrical systems; Runelore of Old Northern Europe: Reading Norse, Anglo-Saxon and Old Irish Runic material. The place, development and uses of literacy among the early Germanic peoples and their neighbors; the religious world of the Rune-using people (especially magic and mythology), interplay of Heathen and Christian traditions and worldviews in the early missionary encounter; Deciphering Ancient Scripts: Survey of types of writing systems, basic techniques of decipherment, and approaches to the investigation of epigraphic materials. Case studies may include Etruscan, Mycenaean Linear B and Minoan Linear A, Mesopotamian Cuneiform Scripts, Hittite and Ugaritic, Egyptian Hieroglyphs and Meroitic, Rongorongo; Mayan, Zapotec and Epi-Olmec; Indus Valley, the Phaistsos Disk, the Voynich Manuscripts, etc.; Reconstructing Lost Languages: Comparative Linguistics, philology and linguistic reconstruction. Basic methodologies in historical and comparative linguistics, including types and universals of language change, methods of language reconstruction and causes and explanations of language change. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 312 - Archaeology Methods and Theories  Credits 3
Survey of approaches, methods and theory used in current and past archaeological research. The class addresses the use of assumptions, models, strategies and research designs. Grade Mode: A.
Prerequisite(s): ANTH 215 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.

ANTH 315 - Field Methods in Archaeology I  Credits 3
Field archaeology examines the principles of archaeological site survey, excavation and laboratory operation. The course is focused on the hands-on study of the methodology of field and laboratory processes commonly used to recover and study the wide range of materials recovered from archaeological contexts. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 316 - Field Methods in Archaeology II  Credits 3
Enhanced course in the principles of archaeological field and laboratory process. The course focuses on the mapping, stratigraphy and specialized methods of data recovery archaeological data. Students are introduced to principles of leadership and organization of field archaeology, and professional and ethical conduct. Grade Mode: A.
Prerequisite(s): ANTH 315.
Restriction(s): Must be Undergraduate Level.

ANTH 320 - Topics in Gender Studies  Credits 1-3
Examination of a variety of issues related to gender. Topics may include gender and communication, globalization and gender, feminization of poverty, representation of gender, etc. Note(s): May be taken for a total of 6 credits with different content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

ANTH 321 - Prehistoric Cultures of North America  Credits 3
The origin and development of the cultures of the prehistoric peoples of North America and north of Mexico are explored using archaeological evidence. The class focuses on the development of regional and continent-wide patterns of human adaptation. Grade Mode: A.
Prerequisite(s): ANTH 200.
Restriction(s): Must be Undergraduate Level.
ANTH 325 - Comparative Folklore and Mythology Credits 3
A cross-cultural comparison of the oral traditions of cultures including
an examination of major themes, cultural uses of myth, and the
anthropological analysis and interpretation of folk literature in society.
Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 330 - California Native Americans Credits 3
Survey of native California groups indigenous to the state at the
beginning of the historic period. Environmental and technological
adaptations, social organization, religious systems, art and culture
change are explored in this survey class. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 335 - World Archaeology Credits 3
Survey of the development of ancient culture and society throughout the
world. Regional development of cultures and general themes of social
behavior are explored, with a focus on the adaptation, social organization,
technology and culture change. Grade Mode: A.
Prerequisite(s): ANTH 200.
Restriction(s): Must be Undergraduate Level.

ANTH 342 - Social Justice and Human Rights Credits 3
An introduction to major themes and issues in the anthropological study
of social justice and human rights. Common human rights violations will
be considered from an anthropological perspective and in the light of
Scripture. Various tools for engaging in social activism and advocacy,
rescuing the oppressed and undertaking social justice and human rights
interventions will be considered. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 345 - Ethnographic Field Methods Credits 3
Techniques of field methods learned such as genealogies, participant
observation, life history, mapping, structured interviews, etc. in
preparation for the field practicum. Ethnographic research conducted as
part of the course. Grade Mode: A.
Prerequisite(s): ANTH 200.
Restriction(s): Must be Undergraduate Level.

ANTH 350 - Anthropological Field Practicum Credits 3
A six-week field learning situation during which time students, under
supervision, will engage in the application of field methods of research
including participatory observation, interviews, mapping and other data
gathering strategies as appropriate to their discipline. Grade Mode: A.
Prerequisite(s): ANTH 200, ANTH 345.
Restriction(s): Must be Junior Class, or Senior Class; and Anthropology
(ANTH); and Undergraduate Level.

ANTH 361 - Anthropology of Gender Credits 3
The dynamics of male and female roles in Western, non-Western and
biblical cultures. Focus on responsibilities, obligations, expectations,
leadership and interrelationships as they relate to the society as a whole.
Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 365 - Biblical Archaeology: Ancient Near East Credits 3
The history of archaeology and literature of the Ancient Near East and
the bearing of archaeological findings on the interpretation of the Old
Testament. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 366 - Biblical Archaeology: Palestine Credits 3
The history of the excavation, the history and geography of Palestine and
how archaeological findings have bearing upon biblical interpretations.
Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 367 - Egyptian Archaeology Credits 3
A survey of the archaeology and relevant texts of Ancient Egypt during
the period of the Pharaohs, from the Predynastic period to Ptolemaic
Egypt. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 370 - Topics in Cultural Anthropology Credits 3
Examination of a variety of anthropological issues from either a
theoretical or applied perspective including: marriage customs,
leadership patterns, political relations, indigenous movements, culture
change, worldview, etc. Note(s): May be taken multiple times for credit
with different course content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

ANTH 400 - Political Anthropology Credits 3
Cross-cultural study of leadership including diverse patterns of authority,
legitimacy, public support, leadership recruitment, and training as they
affect communication, national and international development. Grade
Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 401 - History of Anthropological Theory Credits 3
An examination of the theories and principle figures who have
contributed to the development of modern anthropological inquiry,
research strategies and field methods. Grade Mode: A.
Prerequisite(s): ANTH 200.
Restriction(s): Must be Undergraduate Level.

ANTH 402 - Family, Kinship and Gender Credits 3
Cross-cultural study of the basic human groups of family, kin and
community, examining marriage patterns and gender roles within
families. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 403 - Economic Anthropology Credits 3
Exploration of theory and methods for the study of economic and social
relations as they impact human values, with emphasis on analytic tools
for comparative research and cross-cultural application. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 404 - Symbol and Ritual Credits 3
An exploration of approaches, methods and theory in the interrelated
fields of semiotics, symbolic anthropology and structural anthropology.
Focus on ways in which anthropologists examine social and
psychological structures, mental entities and lived experience, and
symbolic contrasts and correspondences. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 405 - Human Paleontology Credits 3
A survey of the human fossil record focusing on the functional and
behavioral significance of important morphological changes within the
fossil record. Grade Mode: A.
Prerequisite(s): ANTH 200, ANTH 222.
Restriction(s): Must be Undergraduate Level.

ANTH 406 - Bioarchaeology Credits 3
An exploration of the theory and methods of the study and preservation
of human skeletal remains from archaeological sites. Moral, ethical and
legal issues which attend the recovery of such data are explored. Topics
include nutrition, disease, injury and population demography. Grade
Mode: A.
Prerequisite(s): ANTH 200, ANTH 215.
Restriction(s): Must be Undergraduate Level.
ANTH 407 - Ethnicity, Identity and Memory Credits 3
An exploration of the ethnic dimensions of human association and community, with an emphasis on the cultural construction and maintenance of identity and social memory, particularly among immigrant, refugee and indigenous communities. Topics include concepts and theories of ethnicity, identity, and social memory; the relationships of language and religion to ethnic identity, and ethnic conflict and nationalism. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 408 - Language and Power Credits 3
A critical exploration of how language relates to power. The course will focus on (a) minority language rights and linguistic imperialism, language shift and maintenance, and linguistic ecology, as well as (b) political, media, gender, ethnic, age and class language. Students will engage in critical analysis of various kinds of discourse in terms of linguistic articulation, maintenance and subversion of power relations. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 410 - Topics in Archaeology Credits 1-4
Examination of a variety of issues related to archaeological issues either from a theoretical or practical perspective. These topics may include Advanced Archaeological Methods, Specialized Field Methods in Archaeology, California Prehistory, Southwestern Archaeology, Archaeology of North America, Archaeology Laboratory Method, etc. Note(s): May be taken multiple times with different content. Grade Mode: A.
Prerequisite(s): ANTH 215.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

ANTH 415 - Human Conflict Credits 3
Explores the ‘roots and fruits’ of aggression, violence and conflict from an anthropological perspective. Examination of biological, ecological and other materialistic explanations for these phenomena, as well as patterns in learning, symbol using and structuring of society as they relate to conflict and its transformation. Consideration of violence, aggression and warfare in small-scale societies, ethnic conflict, cross-cultural case studies, and techniques for conflict mediation and intervention. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 420 - Topics in Urban Anthropology Credits 3
Examination of the cultural adaptation resulting in the growth of cities, patterns of migration, social effects of urbanization, relationships to surrounding communities and the growth of megalopolis internationally. Note(s): May be taken multiple times with different course content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

ANTH 430 - Field Excursion: Turkey, Greece and Rome Credits 4
Examines the archaeological, historical and geographic backgrounds of Acts, the Epistles and Revelation. The program visits archaeological sites in Turkey, Greece and Rome including Ephesus, Pisidian Antioch, Corinth, Athens and several others. Anthropology students will examine the archaeological field reports from each of these excavations as part of their preparation. Grade Mode: A.
Prerequisite(s): BBST 210.
Restriction(s): Must be Undergraduate Level.

ANTH 432 - Field Excursion: Israel Credits 3
Examines the archaeological, historical and geographic backgrounds of the Old Testament and the Gospels. The program visits archaeological sites in Israel, and students are able to experience the historical and geographic context of the Old Testament and the gospels. Anthropology students will examine the archaeological field reports from excavations in Israel as part of their preparation. Grade Mode: A.
Prerequisite(s): BBST 209.
Restriction(s): Must be Undergraduate Level.

ANTH 435 - Anthropology of Consciousness Credits 3
A survey of theoretical, methodological and ethnographic topics geared toward developing a deeper anthropological understanding of cross-cultural experiences related to both normal and ‘altered’ states of consciousness. We will explore topics including the neurophysiology of spiritual experience; trance; possession, shamanistic and mediumistic states; glossolalia; mystical traditions and a number of other ‘extraordinary’ experiences, as well as develop a thoroughly Christian, cross-culturally valid approach to various ethnophilosophies of mind, soul and spirit. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 440 - Topics in Biological Anthropology Credits 1-3
Selected topics in biological anthropology. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Prerequisite(s): ANTH 200, ANTH 222.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

ANTH 445 - Internship in Archaeology Credits 1-3
Students may spend four weeks to a semester in a field learning situation, during which time a student, under supervision, engages in the application of archaeological methods in a current archaeological excavation. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 460 - Topics in Contemporary Anthropological Theory Credits 1-3
An examination of various approaches to anthropology from 1950 to present. Topics may include neoevolutionist, symbolic, psychological, postmodern, or feminist theoretical approaches. Note(s): May be repeated for credit with different content. Grade Mode: A.
Prerequisite(s): ANTH 401.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

ANTH 470 - Topics in Social Justice and Human Rights Credits 3
Exploration of the contributions of anthropology and/or other academic disciplines to human rights and/or social justice considerations. Anthropological topics may include critical ethnography, cross-cultural approaches to developing international human rights standards, various forms of trafficking (human, organ, cultural heritage, etc.), genocide and ethnicocide, anthropological ethics, representation and subjectivity in human rights and social justice contexts, universalism and relativism, anthropology of post-liberalism and neo-liberalism, cultural legitimacy, narrative approaches to transformational change, etc. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

ANTH 480 - Directed Research in Anthropology Credits 1-3
Individual directed research in anthropology on a specific topic or problem. Note(s): May be repeated for credit with different content. Grade Mode: A.
Restriction(s): Must be Junior Class, or Senior Class, and Undergraduate Level.
Repeat Limit (total number of credits): 6.
CHANTH 485 - Internship in Anthropology
Credits 3
Students may spend four weeks to a semester in a field, laboratory or museum or other work setting, during which time a student, under supervision, engages in the application of contemporary anthropological methods. Note(s): May be repeated for credit with different content.

Grade Mode: A.
Prerequisite(s): ANTH 345, ANTH 401.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 1.

CHANTH 490 - Thesis
Credits 1-6
Research for and writing of a thesis under the supervision and guidance of an anthropology faculty mentor. Grade Mode: A. Restriction(s): Must be Undergraduate Level.

INAL: Applied Linguistics

Courses

INAL 300 - Introduction to Language and Linguistics
Credits 3
Introduction to the basic concepts in the scientific study of language, major areas of linguistic analysis, and several subareas of the field, including language in society. Material from English and a variety of other languages is used to provide a broad perspective. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INAL 301 - General Articulatory Phonetics
Credits 3
The study of the articulation, classification, discrimination, production, and transcription of speech sounds. The focus is on a wide range of sounds found in the world's languages. Grade Mode: A.
Prerequisite(s): INAL 300 or INCS 310 or ENGL 351 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.

INAL 302 - Phonetics and Phonology of English
Credits 3
The study of the auditory discrimination, physical description, and systematic transcription of speech sounds, both standard and disordered, used in English and how these sounds are structured, organized and used. Some sounds from other languages are also included for comparison. Grade Mode: A.
Prerequisite(s): INAL 300 or INCS 310 or ENGL 351 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.

INAL 313 - Practicum in Language and Culture Learning
Credits 3
Techniques and activities to help a person be a more successful learner of a new language and gain insights into the host culture. Practical experience in language and culture learning in a non-English-speaking community. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INAL 403 - Introduction to Phonology
Credits 3
Introduction to the systematic arrangements and rules by which languages organize and alter their speech sounds. Grade Mode: A.
Prerequisite(s): INAL 301 or INAL 302.
Restriction(s): Must be Undergraduate Level.

INAL 405 - Introduction to Syntax
Credits 3
Introduction to the patterns, regularities, and rule-governed alternations in grammar whereby words are organized into phrases, clauses and sentences. Grade Mode: A.
Prerequisite(s): INAL 300 or INCS 310 or ENGL 351 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.

INAL 437 - Introduction to Literacy
Credits 3
An overview of literacy in neoliterate societies, including motivation, local authorship, orthography design, reading methodology, strategies for literacy programs and the relationship of literacy to social context. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INAL 446 - Introduction to Sociolinguistics
Credits 3
Overview of the relationship between language and society. Topics covered include language and culture, language and social change, ethnicity, language contact, language policy, ethnography of communication, and social aspects of conversation. Grade Mode: A.
Prerequisite(s): ENGL 351 or INAL 300 or INCS 310.
Restriction(s): Must be Undergraduate Level.

INAL 452 - Field Methods in Linguistics
Credits 3
Extensive working with speakers of non-Indo-European languages, with special emphasis on collecting and analyzing language data leading to descriptions of phonology and syntax. Grade Mode: A.
Prerequisite(s): INAL 300, INAL 301, INAL 403, INAL 405.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

INAL 453 - Introduction to Bible Translation
Credits 3
An introduction to the principles and problems of cross-language and cross-cultural communication with special emphasis on translating the Bible into indigenous languages. Grade Mode: A.
Prerequisite(s): INAL 300 or INCS 310 or ENGL 351; and INAL 403 or INAL 405.
Restriction(s): Must be Undergraduate Level.

INAL 454 - Field Methods in Second Language and Culture Learning
Credits 3
Overview of language and culture learning theories and skills. Topics covered include working with a cross-cultural partner, language learning styles, cultural bias, language and culture data management skills and comparison of cultural bias with biblical principles. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INAL 480 - Directed Research
Credits 1-3
Independent study in various areas. Each student assigned to a faculty member for guidance and evaluation. Grade Mode: A.
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level.

INAL 481 - Topics in Applied Linguistics
Credits 1-3
Topics are listed in the class schedule each semester. Course may be taken multiple times for credit with a different topic. Grade Mode: A.
Prerequisite(s): INAL 300.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INAL 482 - Topics in Applied Linguistics
Credits 1-3
Topics are listed in the class schedule each semester. Course may be taken multiple times for credit with a different topic. Grade Mode: A.
Prerequisite(s): INAL 300.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.
INCS: Intercultural Studies

Courses

INCS 233 - Foundations of Global Studies  
Credits 3  
Exploration of foundational issues related to international and intercultural ministry, including foundational models of global Christian witness, mission formation, contextualization, and an overview of various global realities (poverty; international development; Islam; unreached peoples; urbanization; globalization; and peace, security and conflict) from a Biblical perspective. Career tracks in intercultural and global service are explored. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 310 - General Linguistics  
Credits 3  
Introduction to the basic concepts in the scientific study of language, major areas of linguistic analysis, and several subareas of the field, including language in society. Material from English and a variety of other languages is used to provide a broad perspective. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 313 - Practicum in Language and Culture Learning  
Credits 3  
Techniques and activities to help a person be a more successful learner of a new language and gain insights into the host culture. Practical experience in language and culture learning in a non-English-speaking community. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 322 - Intercultural Adjustment  
Credits 3  
Exploration of the cross-cultural transition process, focusing on healthy adjustment as a sojourner in a new culture. Attention given to understanding and applying grace to oneself and others, discerning cultural values, conflict styles, social stratification and celebration. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 324 - Understanding Islam and Islamic Theology  
Credits 3  
An introductory survey of the Islamic world and its faith, and major themes in Muslim theology and doctrine from the Qur’an to contemporary Muslim thinkers. Topics include faith, practice, the daily life and spiritual world of Muslims; the systematic character of Muslim thought; theological, historical, political, social and cultural barriers and bridges between Muslims and Christians. Critical issues like contextualization, power encounter, church multiplication, the role of women, and contemporary Islamic thought including the emergence of Islamic fundamentalism and militant Islam. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 325 - Popular and Folk Islam  
Credits 3  
Survey of varieties of ‘folk’ beliefs, practices and local expressions of the less orthodox, mystical and more syncretic/anistic components of Islam. This course equips students to understand the religious experience of everyday Islam (representing 80% of Muslims) from a biblical perspective in order to contextually communicate to the felt needs of ordinary Muslims. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 331 - Peoples of Ethnic America  
Credits 3  
A study of non-Caucasian ethnic groups in America in light of their historical and socio-cultural background. Practical field experience in an ethnic community. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 332 - Peoples of the World  
Credits 3  
A study of specific cultural areas with an emphasis on customs, social structures, religion, arts, and history. Areas of specialty may include: History, People and Cultures of Latin America; History, People and Cultures of Sub-Saharan Africa; Peoples and Cultures of China; Peoples and Cultures of India; Women in Islamic Cultures; Peoples of the Islamic World; Native Peoples of America; Peoples and Cultures of Southeast Asia; Peoples of Europe. Note(s): May be taken multiple times for credit with different course content. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

INCS 333 - Principles of Church Multiplication  
Credits 3  
Exploration of the foundational issues related to global ministry, emphasizing church planting strategies for entering and leaving an area. A holistic approach to ministry designed to empower nationals for ministry and using teamwork with the investigation of spiritual gifts, skills and life experience. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 334 - Church Planting Models and Strategies  
Credits 3  
A survey and analysis of the strengths and weaknesses of various church planting strategies. Emphasizing key factors which the church planter can implement in a given cross-cultural context with strategy for turning over the leadership to the local church. Grade Mode: A.  
Prerequisite(s): INCS 333.  
Restriction(s): Must be Undergraduate Level.

INCS 338 - Urban Ministry Models  
Credits 3  
This study moves beyond the classroom to actual urban church plants in the greater L.A. area. Visits and dialogues provide the practical ways pastors, lay people, parachurch people, and missionaries prepare themselves and their congregations for intentional church planting in ethnically diverse communities. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $50.

INCS 342 - World Christianity  
Credits 3  
An introduction to the contemporary worldwide Christian movement, focusing on social, cultural and missiological issues; the translatability of the gospel; and non-Western missions and religious movements. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

INCS 345 - Introduction to Development  
Credits 3  
Key theories, models and macro concerns in development, and historic overview of the practice of relief and development. Exploration of topics such as poverty, gender, human rights, debt, nationalism and economic development, globalization, and transformational/holistic development. Provides a broad survey of development concepts, trends, and challenges. Note(s): Prerequisite to INCS 347, INCS 433, INCS 435. Grade Mode: A.  
Restriction(s): Must not be Freshman Class; and must be Undergraduate Level.

INCS 347 - Micro Issues in Relief and Development  
Credits 3  
This course deals with micro issues in relief and development such as sustainable agriculture, HIV/AIDS and other health issues, literacy, the environment, food security, micro-enterprise development, gender, migration issues, internally displaced persons (IDP’s), refugee response and the role of NGOs and faith-based organizations/agencies in working with complex humanitarian emergencies. Grade Mode: A.  
Prerequisite(s): INCS 345.  
Restriction(s): Must be Undergraduate Level.
INCS 349 - Community-Based Research  Credits 3
Engagement in field-based, social-science research in partnership with local agencies to explore and understand localities and people groups to facilitate effective contextualized and incarnational, cross-cultural engagement. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 352 - Field Internship  Credit 1
Field internship provides an opportunity to develop cross-cultural confidence and competence in a field environment while exploring specific geographical, cultural and career areas of interest. Preparation for field internship, INCS 352 is taken in spring semester; and INCS 354, actual field experience and portfolio, are completed in fall semester. Note(s): Also available for CPLE; this course may not be taken in conjunction with a semester abroad study program. Grade Mode: A.
Prerequisite(s): INCS 313, ANTH 200, INCS 322, INCS 349 (all may be taken concurrently).
Restriction(s): Must be Undergraduate Level.

INCS 354 - Field Internship  Credits 2
Field internship provides an opportunity to develop cross-cultural confidence and competence in a field environment while exploring specific geographical, cultural and career areas of interest. Note(s): Required for all concentrations; preparation for field internship, INCS 352 is taken in spring semester; the actual field experience is done in the summer between the Junior and Senior year, and INCS 354 and the portfolio are completed in the fall semester after the internship; also available for CPLE; this course may not be taken in conjunction with a semester abroad study program. Grade Mode: A.
Prerequisite(s): INCS 352.
Restriction(s): Must be Undergraduate Level.

INCS 360 - Short-Term Mission Leadership  Credits 3
Preparation to effectively lead a short-term mission team (STM) and program, including team training and preparation, models of STM service, spiritual and cultural issues, analysis of the STM paradigm, and assessment of STM effectiveness. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 371 - Profiles in Missionary Lives  Credits 3
This course utilizes the uniquely evangelical genre of missionary biography to explore the lives and legacies of a number of important missionaries. The course will exhort their lives to more critically understand issues such as missionary call, mission formation and strategy, contextualization, field struggles, missionary family lives, and their lasting legacy. At the heart, the course is an exploration of the faithfulness of God in the lives of these individuals and the lasting impact Christ made through them. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 375 - Understanding the City  Credits 3
An introductory study of the city as the center of religion, economics, politics and social life for all major cultures. Focuses on forming a professional response for ministry in the city. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 410 - Frontier Missiology  Credits 3
An examination of the theology and missiology of the ‘frontier missions’ movement and the emphasis on ‘unreached peoples’, including its historical background, leading proponents, anthropological conceptions, and strategic implications; the dynamics of pioneer church movements; contextualization in Muslim, Hindu, Buddhist, and Tribal societies; insider movements; and other models of mission breakthrough. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 419 - Sufism  Credits 3
A survey of Islamic mysticism, its sources in the Qur'an and the Prophet Muhammad, and its literary, cultural, and social expressions in Arab, Persian, Indic, and Turkish regions, including an examination of representative texts and Sufi poetry; sainthood, authority, and brotherhoods; and Sufism in the contemporary world. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 420 - Intercultural Communication  Credits 3
Principles and processes of communicating from one culture to another. Focus on different perceptions, ways of thinking, values, non-verbal expression, language expression and subgroups within a culture as they relate to the media and the message. Note(s): See also COMM 472. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 425 - Spiritual Conflicts in Cross-Cultural Context  Credits 3
The study of historical and contemporary worldview beliefs in the existence and activity of spiritual beings or forces. The course establishes for the cross-cultural worker biblical, theoretical, and practical guidelines in dealing with spirit beliefs and conflicts. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 427 - Spiritual Formation in Cross-cultural Context  Credits 3
An examination of cross-cultural dynamics of Christian spirituality and spiritual formation, with particular attention to the impact of living and serving in distinctly non-Christian religious environments, and the rigors of living and serving internationally upon the inner-life of the believer. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 430 - Seminar: Topics in Intercultural Health Care  Credits 3
Topics may include: Global Health Perspectives: Theories and skills related to health teaching, physical assessment, preparation and utilization of indigenous health care; Global Health: Preparation for living overseas: healthy lifestyle, prevention of disease, mental and spiritual burnout, initial treatment where there is no doctor; Global Health Priorities: Preparation for serving organizations involved in planning and implementing health care systems at the district and village level; Global Health Communication: The anthropological study of problems of illness and health with emphasis on the cultural context of health care programs. Note(s): May be taken multiple times with different content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INCS 431 - History of the Middle East and Islam I  Credits 3
Political, social and cultural history of the Middle East with an emphasis on Islamic civilization to 1453. Special emphasis on relationships of Muslims and non-Muslim peoples under Islamic rule. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 432 - History of the Middle East and Islam II  Credits 3
Political, social and cultural history of the Middle East with an emphasis on Islamic civilization from 1453. Special emphasis on the development of the Middle Eastern state system following the First World War, and on the Arab- Israeli conflict. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
INCS 433 - Community Development Models and Strategies Credits 3
Exposure to various models for engagement in development projects and practice, assessment of participatory learning and action approaches, examination of the role of expatriates in community development, analysis of the complexities of community participation, exploration of the role of transformational development practitioners in sustainable economic development and community organizing. Grade Mode: A.
Prerequisite(s): INCS 345.
Restriction(s): Must be Undergraduate Level.

INCS 434 - Islam in America and the West Credits 3
This course examines the historical background, dynamics and growth of Islam in America and the West, with special attention to theological, social, political, and cultural issues raised by Muslims living in Western society; immigration; conversion to Islam; African-American Islam; radical Islam; the rise of Islamic leadership and institutions (mosques, schools, and associations); roles for Muslim women; and resources and approaches to reaching Muslim neighbors. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 435 - Project Evaluation and Assessment Credits 3
Examination of the planning, design, implementation, and evaluation/assessment of a development project. Special emphasis on project funding and support, project supervision, project partnership issues, governmental and non-governmental relationships, and participatory evaluation methods. Students will gain practical/hands-on experience through evaluating a local development project. Grade Mode: A.
Prerequisite(s): INCS 345.
Restriction(s): Must be Undergraduate Level.

INCS 440 - The Local Church and World Missions Credits 3
Designed to integrate principles of cross-cultural communication and theology and strategy of missions within a total conceptual framework to aid the local church in mission involvement, including approaches to mission education, mobilization, organization, and leadership; disciple making, prayer, and member care; partnerships, church-based teams, and responding to contemporary global issues. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 444 - History of the Expansion of Christianity Credits 3
The historical development and spread of the Christian faith from the apostolic period until today. Emphasis is given to the modern era, especially growth dynamics in the Global South (non-Western world). Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 445 - New Religious Movements Credits 3
Examines the role of religion and belief systems as they affect the appearance and development of a variety of revitalization movements found in Africa, North America, Brazil, Asia and the Pacific. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 447 - Approaches to the Islamic World Credits 3
Exploration of historical and contemporary approaches to Muslim peoples, including an analysis of effective interactions and Muslim perceptions, and individual and organizational approaches like evangelism, apologetics, interfaith dialogue, evangelism, apologetics, education, development and compassion ministries, reconciliation, peace-building and the planting of transformational communities. This course will equip students with an understanding of the basic competencies needed to live and serve effectively among Muslim peoples in the name and spirit of Jesus. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 448 - Topics in Islamic Studies Credits 1-3
Studies in selected issues pertaining to Islam, such as Islamic Theology; The Qur’an and Muslim Tradition; The Life of Muhammad; Muslim-Christian Relations; Islam in the 21st Century; Islam and State; The Anthropology of Islam. Conflict and Change in Islamic World or an in-depth study of a particular aspect of Islamic thought, practice or history. Note(s): May be taken multiple times with different content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INCS 449 - Topics in Ministry to Internationals and Immigrants Credits 3
Studies in selected issues pertaining to effective ministry among international sojourners in North America due to economic migration, forced resettlement, political service, academic pursuits, or professional advancement. Topics may include sojourner adjustment; transnational identity; ethnicity and ethnic conflict; diaspora missiology; or studies focusing on immigrants, international students, church- and campus-based strategies, and ministry without borders. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INCS 450 - Theology of Mission Credits 3
A study of the centrality of God’s redemptive acts on behalf of mankind from both the Old and New Testaments, as well as theological issues related to the mission of the Church in modern times. Note(s): See BBST 458. Grade Mode: A.
Prerequisite(s): BBST 209, BBST 251, BBST 354; and BBST 306 or BBST 316 or BBST 326.
Restriction(s): Must be Undergraduate Level.

INCS 451 - Principles of Evangelism and Church Growth Credits 3
A basic understanding of evangelism and church growth concepts as related both to local congregations and to the task of worldwide evangelization. Attention is given to identifying receptive peoples, bringing them to faith, incorporating them into the church and multiplying more churches. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 453 - Christianity and Culture Credits 3
Anthropological approach to Christian theologizing; interrelationships between supracultural Christianity and human cultures. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 456 - World Religions Credits 3
The distinctive features of the historical ethnic religions, with special emphasis on their comparison and encounter with Christianity and their bearings upon missionary strategies. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 457 - Urban Research Credits 3
The use of social science research techniques to learn about the people, needs and opportunities for living, working, and serving in the city. Special attention is given to researching people groups and the adaptations they make to urban contexts. Note(s): Course is usually offered in Los Angeles in the fall semester and frequently in New York City as a Summer Study Tour; see Program Director for details. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 458 - Traditional Cultures Credits 3
Analysis of the cultural institutions and values in tribal, peasant and newly emerging economies, with special consideration as to their openness or resistance to change. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
INCS 459 - Urban Transformation Credits 3
Explores the literature and contemporary case studies of urban social changes and change agents. Attention is given to the analysis of social and spiritual transformation through the creation of committed communities including urban churches. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 465 - Integration Seminar: Gospel and Culture Credits 3
This capstone course equips students to explore diverse issues in the contemporary world, such as social justice and contextual theologies, from a biblical, cultural, and missiological perspective. The presentation of a major paper is used to demonstrate integrative skills. Grade Mode: A.
Restriction(s): Must be a Major in Intercultural Studies (INCS); and Undergraduate Level.

INCS 466 - Women in Cross-Cultural Ministry Credits 3
The dynamics of women in missions and cross-cultural ministry; historical, social, cultural, psychological, physical, and spiritual issues. Special focus on challenges and opportunities in the contemporary world. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 471 - Introduction to Bible Translation Credits 3
An introduction to the principles and problems of cross-language and cross-cultural communication with the special emphasis on translating the Bible into indigenous languages. Grade Mode: A.
Prerequisite(s): INAL 300 or INCS 310 or ENGL 351, and INAL 403 or INAL 405.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INCS 473 - Practicum Seminar Credits 1-3
Structured experience with a specific class related topic. Note(s): May be taken multiple times with different content; topic selection and course enrollment by advisor's approval. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 474 - Practicum Seminar Credits 1-3
Structured experience with a specific class related topic. Note(s): May be taken multiple times with different content; topic selection and course enrollment by advisor's approval. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INCS 480 - Directed Research Credits 1-3
Directed reading, individual work, in-depth investigation of a topic under the guidance of the faculty using standard research procedures. Note(s): Topic selection and course enrollment by advisor's approval. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INCS 485 - Topics in Intercultural Studies Credits 1-3
Studies in selected issues that arise from or require an international perspective such as minority rights, ethno-art, ethnomusicology, folklore and folklife, contextualization, economics and development. Note(s): May be taken multiple times with different content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

INCS 490 - Practical Mission Training Credits 1-6
Topics in missionary preparation. Note(s): Also available for CPLE. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

INTE: TESOL

Courses

INTE 309 - Grammar for English Teachers Credits 3
Study of major features of standard American English structure, with applications for ESL/EFL teachers. Grade Mode: A.
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level.

INTE 312 - Essentials of TESOL Credits 3
A practical course giving the skills and knowledge needed to gain foundational competence in teaching the English language. Includes methods and techniques, English pronunciation and grammar, teaching materials, culture and communicating values. Note(s): Does not count toward the TESOL minor program. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INTE 401 - Principles of Second Language Acquisition Credits 3
This course provides a comprehensive introduction to second language acquisition. How people learn second languages will be approached from several perspectives including the research evidence, the learner's program, and the learning environment. This is an integrative theory course. Grade Mode: A.
Prerequisite(s): INAL 300 and INTE 421, or the equivalent.
Restriction(s): Must be Undergraduate Level.

INTE 421 - Introduction to TESOL: Adult Credits 3
Basic concepts, methods and techniques of teaching English (ESL or EFL) to speakers of other languages. Introduces principles of second language learning along with techniques for teaching both separate and integrated skills to adult or post-secondary students. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INTE 422 - Introduction to TESOL: K–12 Credits 3
Examination of rationale, methods and materials for teaching English in elementary and secondary multilingual classrooms. Assessment, the role of the primary language, and techniques for teaching oral and written language are also covered. Note(s): Elective only. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

INTE 427 - Materials Evaluation and Preparation Credits 3
Principles of ESL/EFL materials design to enable teachers to (a) evaluate and adapt published materials, and (b) prepare their own materials. Grade Mode: A.
Prerequisite(s): INTE 421 or ENGL 353.
Restriction(s): Must be Undergraduate Level.

INTE 430 - TESOL and Literature Credits 3
Consideration of theory and method for teaching literature to non-native speakers, together with development of (1) a corpus of literary selections suitable for the ESL/EFL context, and (2) specific lesson plans. Grade Mode: A.
Prerequisite(s): INTE 421 or ENGL 353.
Restriction(s): Must be Undergraduate Level.

INTE 433 - Ethics, Values, and Intercultural Communication for TESOL Professionals Credits 3
This course develops professionalism in ESOL teachers in three areas: effective intercultural communication, appropriate communication of different worldviews and values, and ethics for teachers in various contexts. Grade Mode: A.
Prerequisite(s): INTE 421.
Restriction(s): Must be Undergraduate Level.
INTE 462 - Teaching English to Young Learners  
Preparation of teachers for classes of English language learners K to 6th grade, primarily in international settings, this course covers age-appropriate classroom management, strategies, and curriculum for teaching language as well as content, including beginning literacy instruction and assessment. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

INTE 480 - English: Past, Present and Future  
An overview of the development of the English language from a small tribal language to the widespread international language it is today. Possible future trends also discussed. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

INTE 485 - Topics in TESOL  
Topics are listed in the class schedule each semester. Note(s): Course may be taken multiple times for credit with different content. Grade Mode: A. 
Prerequisite(s): INTE 421. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (after first attempt): 10.

INTE 486 - Topics in TESOL  
Topics are listed in the class schedule each semester. Note(s): Course may be taken multiple times for credit with different content. Grade Mode: A. 
Prerequisite(s): INTE 421. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (after first attempt): 10.

INTE 491 - Field Practicum in TESOL  
Intensive ESL/EFL classroom teaching in a field setting, typically as part of a supervised team working with a voluntary agency. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

INTE 492 - Practicum in TESOL I  
Structured practice teaching in an ESL classroom under the supervision of a master teacher, plus weekly group discussion of issues in language pedagogy. Grade Mode: A. 
Prerequisite(s): INTE 421. 
Restriction(s): Must be Undergraduate Level. 
Course Fee: $150.

ISAL: Applied Linguistics

ISAL 520 (http://catalog.biola.edu/search/?P=ISAL%20520/) or the equivalent is a prerequisite for all ISAL courses. May be taken concurrently with basic 500-level courses.

ISAL 521 - General Articulatory Phonetics  
The study of the articulation, classification, discrimination, production, and transcription of speech sounds. The focus is on a wide range of sounds found in the world's languages. Grade Mode: A. 
Prerequisite(s): ISAL 520 (may be taken concurrently). 
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 522 - Phonetics and Phonology of English  
The study of the auditory discrimination, physical description, and systematic transcription of speech sounds, both standard and disordered, used in English and how these sounds are structured, organized and used. Some sounds from other languages are also included for comparison. Grade Mode: A. 
Prerequisite(s): ISAL 520 (may be taken concurrently). 
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 523 - Introduction to Phonology  
Introduction to the systematic arrangements and rules by which languages organize and alter their speech sounds. Grade Mode: A. 
Prerequisite(s): ISAL 520 or ISAL 521. 
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 524 - Introduction to Phonology - Challenge  
Students who have completed a course similar to ISAL 523 may petition the faculty to earn credit by means of a challenge exam. Note(s): May be completed concurrently with other ISAL courses. Grade Mode: C. 
Restriction(s): Must be Graduate Level or Doctoral Level. 
Course Fee: $100.

ISAL 525 - Introduction to Syntax  
Introduction to the patterns, regularities, and rule-governed alterations in grammar whereby words are organized into phrases, clauses, and sentences. Grade Mode: A. 
Prerequisite(s): ISAL 520 (may be taken concurrently). 
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 526 - Introduction to Syntax - Challenge  
Students who have completed a course similar to ISAL 525 may petition the faculty to earn credit by means of a challenge exam. Note(s): May be completed concurrently with other ISAL courses. Grade Mode: C. 
Restriction(s): Must be Graduate Level or Doctoral Level. 
Course Fee: $100.

ISAL 527 - Introduction to Semantics and Pragmatics  
Study of meaning systems in language and how meaning is conveyed in linguistic and social contexts. Grade Mode: A. 
Prerequisite(s): ISAL 520. 
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 528 - Introduction to Bible Translation  
An introduction to the principles and problems of cross-language and cross-cultural communication with special emphasis on translating the Bible into indigenous languages. Grade Mode: A. 
Prerequisite(s): ISAL 520, ISAL 523, ISAL 524, ISAL 525, or ISAL 527. 
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 529 - Introduction to Semantics and Pragmatics  
Study of meaning systems in language and how meaning is conveyed in linguistic and social contexts. Grade Mode: A. 
Prerequisite(s): ISAL 520. 
Restriction(s): Must be Graduate Level or Doctoral Level. 
Course Fee: $150.
ISAL 543 - Literacy in Social Context  Credits 3
An exploration of vernacular and bilingual literacies within their social setting, including such factors as social environment, economy and religion. Attention is given to the impact of social and linguistic factors on literacy program design, implementation and management. Grade Mode: A.
Prerequisite(s): ISAL 520 (may be taken concurrently).
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 544 - Literacy Methods and Materials  Credits 3
Examination of different theories and methods used to teach literacy and to prepare primers and other reading materials in minority languages. Grade Mode: A.
Prerequisite(s): ISAL 520 (may be taken concurrently).
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 546 - Reading and Literacy Theory  Credits 3
A survey of both reading theory (cognitive and psycholinguistic) and literacy theory (vernacular, functional, and national), with emphasis given to the development of integrated literacy education programs. Grade Mode: A.
Prerequisite(s): ISAL 520 (may be taken concurrently).
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 613 - Practicum in Language and Culture Learning  Credits 3
Techniques and activities to help a person be a more successful learner of a new language and gain insights into the host culture. Practical experience in language and culture learning in a non-English-speaking community. Grade Mode: A.
Restriction(s): Must be Graduate Level.

ISAL 622 - Phonological Theory  Credits 3
Special problems in phonological analysis from various languages. Includes abstract phonology. Grade Mode: A.
Prerequisite(s): ISAL 523 or ISAL 524.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 624 - Syntactic Theory  Credits 3
Study of several current models of syntax with application to the analysis and description of various languages. Grade Mode: A.
Prerequisite(s): ISAL 525 or ISAL 527.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 626 - Approaches to Translation  Credits 3
Study of the theory and practice of translation, including secular and sacred texts, prose and poetry. Grade Mode: A.
Prerequisite(s): ISAL 535.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 641 - Language Surveys  Credits 3
Introduction to the principles and methods of collecting, quantifying, and interpreting data on linguistic similarity, intelligibility, language attitudes, bilingualism and language change. Note(s): A tape recorder will be needed. Grade Mode: A.
Prerequisite(s): ISAL 521, ISAL 646.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 643 - Lexicography  Credits 3
Examination of the history, theory, and practice of dictionary making. Among the topics covered are lexical analysis; syntactic, semantic, and pragmatic information; definitions and citations; usage; users and uses of monolingual and bilingual dictionaries; and techniques and technology used in compiling and producing a dictionary. Grade Mode: A.
Prerequisite(s): ISAL 529.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 646 - Sociolinguistics  Credits 3
Overview of the relationship between language and society. Topics covered include language and culture, language and social change, ethnicity, language contact, language policy and ethnography of communication. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 648 - Discourse and Text Analysis  Credits 3
Examination of language beyond the sentence level. Covers the analysis of oral and written secular and sacred texts within their social or literary contexts. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 650 - Seminar in Linguistics and Biblical Exegesis  Credits 3
In-depth application of a broad range of linguistic principles to the exegesis of biblical passages in the original languages. Specific topics may vary, depending on class interest. This is the capstone course for the MA in Linguistics and Biblical Languages, and will assimilate the content of the various courses in the degree. Grade Mode: A.
Prerequisite(s): ISAL 529, ISAL 648; TTOT 705 or TTNT 503.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 652 - Field Methods in Second Language and Culture Learning  Credits 3
Overview of language and culture learning theories and skills. Topics covered include working with a cross-cultural partner, language learning styles, cultural bias, language and culture data management skills and comparison of cultural bias with biblical principles. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 654 - Field Methods in Linguistics  Credits 3
Field experience with speakers of non-Indo-European languages, with special emphasis on collecting and analyzing language data leading to descriptions of phonology and syntax. Grade Mode: A.
Prerequisite(s): ISAL 523 or ISAL 524; and ISAL 525 or ISAL 527.
Restriction(s): Must be Graduate Level or Doctoral Level.
Course Fee: $100.

ISAL 656 - Practicum in Literacy  Credits 3
Field experience within the broad area of literacy. Credit for course may be earned, in some field-based situations, by portfolio assessment. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 657 - Practicum in Applied Linguistics  Credits 3
Field experience in various areas of applied linguistics, such as lexicography, orthography design and translation. Note(s): May be taken multiple times for credit with a different topic. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAL 658 - Practicum in Linguistics  Credits 3
Fieldwork in the analysis and description of language systems or language use, such as phonology, syntax and sociolinguistics. Note(s): May be taken multiple times for credit with a different focus. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

<tr>
<td>ISAL 741</td>
<td>Language Surveys</td>
<td>3</td>
<td>Introduction to the principles and methods of collecting, quantifying and interpreting data on linguistic similarity, intelligibility, language attitudes, bilingualism and language change. <strong>Note(s):</strong> A tape recorder will be needed. <strong>Grade Mode:</strong> A. <strong>Prerequisite(s):</strong> ISAL 521, ISAL 646. <strong>Restriction(s):</strong> Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISAL 746</td>
<td>Sociolinguistics</td>
<td>3</td>
<td>Overview of the relationship between language and society. Topics covered include language and culture, language and social change, ethnicity, language contact, language policy, and ethnography of communication. <strong>Grade Mode:</strong> A. <strong>Prerequisite(s):</strong> ISAL 520. <strong>Restriction(s):</strong> Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISAL 748</td>
<td>Discourse and Text Analysis</td>
<td>3</td>
<td>Examination of language beyond the sentence level. Covers the analysis of oral and written secular and sacred texts within their social or literary contexts. <strong>Grade Mode:</strong> A. <strong>Prerequisite(s):</strong> ISAL 520. <strong>Restriction(s):</strong> Must be Graduate Level or Doctoral Level.</td>
</tr>
</tbody>
</table>
ISAL 752 - Field Methods in Second Language and Culture Learning
Overview of language and culture learning theories and skills. Topics covered include working with a cross-cultural partner, language learning styles, cultural bias, language and culture data management skills, and comparison of cultural bias with biblical principles. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAL 799 - Research Continuous Registration
Students who are not registered for any other courses and who need extra time are required to register for this course each semester to maintain their degree status. Grade Mode: C.
Prerequisite(s): ISAL 520.
Restriction(s): Must be a Major in Applied Linguistics (ISAL); and Cook Sch Intercultural Studies; and Graduate Level or Doctoral Level.
Course Fee: $100.

ISAL 868 - Seminar in Applied Linguistics
In-depth examination of some main areas of applied linguistics. Topics vary, depending on class interests. Grade Mode: A.
Prerequisite(s): ISAL 511.
Restriction(s): Must be Doctoral Level.

ISAL 879 - Planning, Evaluation, and Research in Applied Linguistics
In-depth treatment of program planning and evaluation, using appropriate qualitative and quantitative assessment instruments. Case studies of applied linguistic research will also be examined. Grade Mode: A.
Prerequisite(s): ISAL 511.
Restriction(s): Must be Doctoral Level.

ISAL 885 - Topics in Applied Linguistics
Topics are listed in the class schedule each semester. Course may be repeated for credit with a different topic. Titles offered include Literacy and Economics, Monolingual and Bilingual Dictionaries, English as a World Language, and Computers and Language Acquisition. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Doctoral Level.
Repeat Limit (after first attempt): 1.

ISAL 886 - Topics in Applied Linguistics
Topics are listed in the class schedule each semester. Course may be repeated for credit with a different topic. Titles offered include Literacy and Economics, Monolingual and Bilingual Dictionaries, English as a World Language, and Computers and Language Acquisition. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Doctoral Level.
Repeat Limit (after first attempt): 1.

ISAL 890 - Independent Study
Individual work, directed reading, or special problems in applied linguistics. Such work must be done with the approval and supervision of a faculty professor of record. Grade Mode: A.
Prerequisite(s): ISAL 520.
Restriction(s): Must be Doctoral Level.
ISAN 513 - Comparative Folklore and Mythology Credits 3
A cross-cultural comparison of the oral traditions of cultures including an examination of the major themes, cultural uses of myth, and the anthropological analysis and interpretation of the folk literature in society. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 515 - New Religious Movements Credits 3
Examines the role of religion and belief systems as they affect the appearance and direction of a variety of revitalization movements found in Africa, North America, Brazil, Asia, and the Pacific. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 521 - Contemporary Anthropological Theory Credits 3
Examination of recent developments since the 1950’s in anthropological theory including such topics as post-colonialism, post-modernism, semiotics, psychological anthropology and feminist theoretical approaches. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 523 - Ethnographic Research Methods Credits 3
Techniques of field methods including genealogies, participant observation, life history, mapping, and structured interviews. Includes strategies for collecting and organizing data for later analysis. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 527 - Village and Tribal Studies Credits 3
Analysis of the cultural institutions and values in tribal, peasant and newly emerging economies with special consideration as to their openness or resistance to change. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 528 - Cultures of the World Credits 3
A study of specific cultural areas with an emphasis on customs and social structures, religions, arts and history. Note(s): May be taken multiple times for credit with different course content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 529 - Human Conflict: Theory and Resolution Credits 3
This course will explore the roots and results of aggressions, violence and conflict from an anthropological perspective. It will examine biological, ecological and other materialistic explanations of these phenomena, as well as patterns in learning, symbol using and structuring in small-scale societies, ethnic conflict, cross-cultural case studies, and techniques for conflict mediation and intervention. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 531 - Sign, Symbol and Structure Credits 3
Exploration of approaches, methods, and theory in the interrelated fields of semiotics, symbolic anthropology and structural anthropology. Focuses on ways in which anthropologists examine social and psychological structures, mental entities and lived experience, and symbolic contrasts and correspondences. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 541 - Urban Anthropology Credits 3
Examination of the growth of cities, patterns of migration, social effects of urbanization, the growth of urban ethnic enclaves, and relationships to surrounding communities with an emphasis on research strategies appropriate to an urban context. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 543 - Urbanization in Developing Countries Credits 3
Examination of the rural-migration patterns and growth of megalopolis in developing countries, including a study of the impact of industrialization, globalization and the continuing problem of economic inequalities. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 546 - Justice, Advocacy and the Kingdom of God Credits 3
An integration of anthropological and biblical perspectives on justice and advocacy to address specific global issues. Students will do an in-depth investigation addressing a particular area of their interest. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 551 - Anthropology of Gender Credits 3
The dynamics of male and female roles in western, non-western and biblical cultures. Focuses on responsibilities, obligations, expectations, leadership and inter-relationships as they relate to the society as a whole. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 555 - Kinship and Family in Cross-cultural Perspective Credits 3
Cross-cultural study of the basic human groups of family, kin and community, examining marriage patterns and gender roles within families. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 556 - Economic Anthropology Credits 3
The study of economic and social relations as they impact human values, with emphasis on analytic tools for comparative research and cross-cultural comparisons. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 557 - Acts in Cross-cultural Perspective Credits 3
An examination of the cultural backgrounds of the various audiences of Acts and how these affect the interpretation of the biblical text. Students will use these concepts to develop their own course in a cross-cultural setting. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 561 - Anthropology of Gender Credits 3
Focuses on responsibilities, obligations, expectations, leadership and inter-relationships as they relate to the society as a whole. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 563 - Poverty and the City Credits 3
Examines contemporary concerns of inhabitants in the city for justice, employment, housing and education. Special emphasis is given to programs aimed at addressing poverty issues in an urban context. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 571 - Introduction to International Development Credits 3
Key theories, models and macro concerns in development, and historic overview of the practice of relief and development. Exploration of topics such as poverty, gender, human rights, debt, nationalism and economic development, globalization, and transformation/holistic development. Provides a broad survey of development concepts, trends and challenges. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 573 - Micro Issues in Relief and Development Credits 3
Examines micro issues in relief and development such as sustainable agriculture, HIV/AIDS and other health issues, literacy, the environment, food security, micro-enterprise development, gender, migration issues, internally displaced persons, refugee response and the role of NGOs and faith-based organizations/agencies in working with complex humanitarian emergencies. Grade Mode: A.
Prerequisite(s): ISAN 571.
Restriction(s): Must be Graduate Level or Doctoral Level.

<td></td>
<td>Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISAN 601</td>
<td>Proseminar</td>
<td>3</td>
<td>Integrative seminar focusing on the most contemporary developments in each of the five fields of anthropological inquiry. Grade Mode: A.</td>
<td>ISAN 502.</td>
<td></td>
<td>Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISAN 603</td>
<td>Master's Thesis</td>
<td>3</td>
<td>Under the direction of a mentor, the student selects a topic of inquiry and engages in a major research thereby demonstrating familiarity with research techniques, bibliographical resources and writing capabilities. Grade Mode: A.</td>
<td>ISAN 502.</td>
<td></td>
<td>Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISAN 609</td>
<td>Language and Power</td>
<td>3</td>
<td>A critical exploration of how language relates to power. The course will focus on (a) minority language rights and linguistic imperialism, language shifts and maintenance, and linguistic ecology, as well as (b) political, media, gender, ethnic, age, and class language. Students will engage in critical analysis of various kinds of discourse in terms of linguistic articulation, maintenance and subversion of power relations. Grade Mode: A.</td>
<td>ISAN 502.</td>
<td></td>
<td>Must be Graduate Level or Doctoral Level.</td>
</tr>
</tbody>
</table>
ISAN 613 - Topics in Social Justice and Human Rights Credits 3
Exploration of the contributions of anthropology and/or other academic disciplines to human rights and/or social justice considerations. Anthropological topics may include critical ethnography, cross-cultural approaches to developing international human rights standards, various forms of trafficking, genocide and ethnic strife, anthropological ethics, representation and subjectivity in human rights and social justice contexts, universalism and relativism, anthropology of post-liberalism, cultural legitimacy, narrative approaches to transformational change, etc. Note(s): May be taken multiple times for credit with different topics. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 615 - Anthropology of Consciousness Credits 3
A survey of theoretical, methodological and ethnographic topics geared toward developing a deeper anthropological understanding of cross-cultural experiences related to both normal and 'altered' states of consciousness. We will explore topics including the neurophysiology of spiritual experience; trance; possession, shamanistic and mediumistic states; glossolalia; mystical traditions and a number of other 'extraordinary' experiences, as well as develop a thoroughly Christian, cross-culturally valid approach to various theosophies of mind, soul and spirit. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 621 - Practicum in Anthropology Credits 1-4
Field based work study program under supervision. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 623 - Independent Study Credits 1-4
Independent study in archaeological topic or area. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 624 - Independent Study Credits 1-4
In-depth investigation of a topic under the guidance of the faculty, using standard research procedures. Topic selection by advisor's approval. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 631 - Topics in Cultural Anthropology Credits 1-3
Consideration of topics not regularly scheduled by faculty. Note(s): May be taken multiple times for credit with different content; course offered upon faculty availability and sufficient student interest. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 633 - Topics in Culture Change Credits 1-3
In-depth examination of both the theory and experience of culture change in various historical and cultural contexts. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 635 - Tutorial Credits 1-3
Specialized study under supervision on a topic of special interest pertinent to the student's area of inquiry. Requires interaction with both a faculty advisor and the student's peers. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 641 - Topics in Political Anthropology Credits 3
Examination of regional styles of leadership, of political conflicts, of competition for positions of leadership, and the nature in which power is allocated and used in various cultural contexts. Note(s): May be taken multiple times for credit with different topics. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 671 - Applied Anthropology Credits 3
Study of man, culture and environment with special emphasis on the manner in which their relationship with one another is affected by change agents. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 673 - Topics in Development Credits 1-3
Studies in selected issues related to relief and development. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 681 - Topics in Archaeology Credits 1-3
Studies in selected issues in archaeology. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 691 - Seminar in Advanced Archaeology Credits 1-3
In-depth study of an issue or topic in physical anthropology. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 701 - Topics in Biblical Theology from an Anthropological Perspective Credits 3
An examination of themes, strategies, and topic within biblical theology from an anthropological perspective. Note(s): May be taken multiple times for credit with different content. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISAN 711 - Research Design Credits 3
Methods for analyzing data, developing a research proposal, and organizing research results into an academic format. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 712 - Cultural Context of 1st Century Palestine Credits 3
An examination of current social science research on the cultural context of 1st century Palestine and the application to the interpretation of the primary texts. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 721 - Anthropoligical Theory in Practice Credits 3
An examination of the theories and principle figures who have contributed to the development of modern anthropological inquiry and the manner in which such theories have affected contemporary usage in missiological inquiry and cross-cultural research. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
ISAN 731 - Culture, Cognition and World View  Credits 3
An examination of the role of ideas in the formation, maintenance and/or stimulus for change in cultures. Includes a study of the development of anthropological theories and methods for understanding cultural knowledge and issues relating to cognition, culture and meaning.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 741 - Anthropology of Leadership  Credits 3
Cross-cultural study of leadership including diverse patterns of authority, legitimacy, public support, leadership recruitment and training.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 751 - Social Anthropology  Credits 3
Examination of the manner in which people in culture organize human relationships, allocate power, distribute labor, and work to sustain the well-being of the society.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISAN 761 - Culture and Transformation  Credits 3
The study of how cultures change, the dynamics and processes of change, the place of change agents and the speed and intensity of change. Implications of such processes are examined in social, political, economic and religious aspects of society.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL: Intercultural Studies

ISCL 520 - Interpersonal and Intercultural Adjustment  Credits 3
Exploration of the cross-cultural transition process, focusing upon healthy adjustment as a sojourner in a new culture. Attention given to understanding and applying grace to oneself and others, discerning cultural values, conflict styles, social stratification and celebration.  Grade Mode: A.
Restriction(s): Must be Talbot School of Theology, Cook Sch Intercultural Studies; and Graduate Level or Doctoral Level.

ISCL 522 - Conflict Prevention, Intervention, and Management  Credits 3
Conflict Prevention, Intervention, and Management.  Note(s): Must earn a C- or better to pass.  Grade Mode: A.
Restriction(s): Must be Graduate Level.

ISCL 523 - Peace and Conflict Analysis  Credits 3
Peace and Conflict Analysis.  Note(s): Must earn a C- or better to pass.  Grade Mode: A.
Restriction(s): Must be Graduate Level.

ISCL 530 - Topics in Intercultural Health Care  Credits 3
Topics include: Global Health Perspectives: Theories and skills related to health teaching, physical assessment, preparation and utilization of indigenous health care; Global Health: The Continuum of Self-care in the context of culture; Preparation for living overseas: Healthy lifestyle, prevention of disease, mental and spiritual burnout, initial treatment where there is no doctor; Global Health Priorities: Preparation for serving organizations involved in planning and implementing health care systems at the district and village level; Global Health Communication: The anthropological study of problems of illness and health with emphasis on the cultural context of health care programs; and Intercultural Clinical Practicum: Supervised cross-cultural clinical health care experience.  Note(s): May be taken multiple times with different content.  Grade Mode: A.
Prerequisite(s): ISCL 520; RN licensure.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 531 - Peoples of Ethnic America  Credits 3
A study of non-Caucasian ethnic groups in the light of their historical and socio-cultural background. Practical field experience in an ethnic community.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 543 - Women in Missions  Credits 3
The dynamics of understanding the role of missionary women: historical, physical, social, psychological, spiritual. Focus on the issues and opportunities in contemporary world.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 555 - Introduction to World Missions  Credits 3
The nature of Christian outreach; a study of principles, history, and methodology of worldwide missions.  Note(s): Option within the Master of Divinity (Spiritual Formation) for two of five course selections; option within the Master of Divinity (Pastoral and General Ministries and Christian Education) for two of four course selections; option within the Master of Divinity (Evangelism and Discipleship) for one of four course selections.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 556 - World Religions  Credits 3
The distinctive features of the historical ethnic religions, with special emphasis on their comparison and encounter with Christianity and their bearings upon missionary strategies.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 559 - Topics in Urban Studies  Credits 3
May be taken multiple times for credit with different focus. Topics include: Juvenile Delinquency, Deviant Behavior, Social Problems, Alcohol and Substance Abuse.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 560 - Urban Research and Study  Credits 3
The use of social science techniques to learn about the people, needs and opportunities for evangelism in the city.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 565 - Personal Leadership Formation  Credits 3
A study of the principles and patterns used by God as He raises up leaders for His work. This study will include a discussion of the vital place of spiritual formation in leadership development.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 568 - Theology of the City  Credits 3
Explores the unfolding meaning of global civilization from historical, biblical, cultural and strategic perspectives taking into account spiritual dynamics and worldview issues.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 572 - Topics in Contemporary Missions Issues  Credits 1-3
Topic selection and course enrollment by advisor's approval.  Note(s): May be taken multiple times for credit with different focus.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 573 - The Church and the City  Credits 3
Explores the literature and contemporary case studies of urban social changes and urban change agents. Attention is given to the analysis of social transformation through the creation of committed communities including urban churches.  Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
ISCL 575 - Multicultural Education Credits 3
Experiential approach to cross-cultural differences in the classroom as they affect teaching and learning. Focus of attention is primarily the United States. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 581 - Urbanization in Developing Countries Credits 3
Explores the ancient rituals, traditions, and modern ideas by which two-thirds of the world's people now live. The student will become familiar with and equipped for interaction with the assumptions, belief systems, and cultural ways that have yielded profoundly different societies in the non-western world. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 582 - Urban Leadership Development Credits 3
Examines various models, definitions, and case studies of urban leadership styles. The different roles and character formation of the leader are presented. Special focus is given to the theory and methods of mentoring as essential for the multiplication of strategically-minded leaders in the city. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 583 - Poverty and the City Credits 3
Examines contemporary concerns of inhabitants in the city for justice, employment, housing and education. Special emphasis is given to developing strategies to empower residents of the city. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 602 - Introduction to Development Credits 3
Key theories, models and macro concerns in development, and historic overview of the practice of relief and development. Exploration of topics such as poverty, gender, human rights, debt, nationalism and economic development, globalization, and transformational/holistic development. Provides a broad survey of development concepts, trends, and challenges. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 603 - Micro Issues in Relief and Development Credits 3
Micro issues in relief and development such as sustainable agriculture, HIV/AIDS and other health issues, literacy, the environment, food security, micro-enterprise development, gender, migration issues, internally displaced persons (IDP's), refugee response and the role of NGOs and faith-based organizations/agencies in working with complex humanitarian emergencies. Grade Mode: A.
Prerequisite(s): ISCL 602.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 605 - Community Development Models and Strategies Credits 3
Exposure to various models for engagement in development projects and practice, assessment of participatory learning and action approaches, examination of the role of expatriates in community development, analysis of the complexities of community participation, exploration of the role of transformational development practitioners in sustainable economic development and community organizing. Grade Mode: A.
Prerequisite(s): ISCL 602.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 609 - Understanding Islam and Islamic Theology Credits 3
An overview of the Islamic world, its faith, practices, historical tradition, and diverse cultures. Introduction to major themes in Islamic theology; theological, political, historical, social and cultural barriers and bridges between Muslims and Christians; contemporary topics like contextualization, the role of women, power encounter, church planting, and militant Islam; and critical issues related to cross-cultural communication and service in Islamic contexts. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 610 - Popular and Folk Islam Credits 3
This course examines the varieties of 'folk' or popular religious beliefs, practices, and experiences associated with less orthodox, local, mystical and syncretic or anistic expressions of Islam in diverse contexts in the Islamic world. Drawing on anthropological, theological, and missiological perspectives, the course equips students to critically assess and contextually communicate to the felt needs of ordinary Muslims. Grade Mode: A.
Prerequisite(s): ISCL 609.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 611 - Approaches to the Islamic World Credits 3
An analysis of the history and dynamics of the Muslim-Christian encounter, with special attention to the communication of Christian faith, including an evaluation of historical and innovative contemporary approaches to Islam; the missiology of leading scholar-practitioners; and the dynamics of conversion, discipleship, church planting and insider movements in Muslim contexts. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 612 - Frontier Missiology Credits 3
An analysis of the 'frontier missions' movement, its historical background, and associated theology, anthropology, and missiology, with special attention to leading proponents, critical concepts, and strategic implications; contextual church planting and insider movements; and the dynamics of missiological breakthrough among 'unreached peoples' in Muslim, Hindu, Buddhist, and tribal contexts. Note(s): This course may function as an elective for the Islamic specialization. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 650 - Topics in Islamic Studies Credits 1-3
Topics include: Sufism; Islamic Theology; The Qur'an and Muslim Tradition; Islam in North America; Muslim-Christian Relations; Islam in the 21st Century; Religion and State in the Modern Middle East; The Anthropology of Islam; and Women in Islam. Note(s): May be taken multiple times for credit with different focus. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 655 - Contemporary Theology of Mission Credits 3
An overview and critique of the different theologies of mission advocated by various branches of the Church beginning with Edinburgh 1910 to the liberation theology debate of our day. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 659 - Project Evaluation and Assessment Credits 3
Examination of the planning, design, implementation, and evaluation/assessment of a development project. Special emphasis on project funding and support, project supervision, project partnership issues, governmental and non-governmental relationships, and participatory evaluation methods. Students will gain practical/hands-on experience through evaluating a local development project. Grade Mode: A.
Prerequisite(s): ISCL 602.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 660 - Cross-cultural Development Practicum Credits 3
A six-week field learning situation. Students, under supervision, participate in a community development project in one or more of its stages including planning, implementing or evaluating. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 662 - Mission in Political Context Credits 3
Consideration of modern political ideologies and movements as they affect the Church and its mission in selected national contexts. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
ISCL 663 - Cross-cultural Implications in Evangelism Credits 3
Explores cross-cultural issues in evangelism and church planting through the use of case studies, simulation exercises, readings and lectures. The class considers evangelistic strategies that build on a firm foundation for the gospel and assimilate new believers effectively. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 665 - Topics in Intercultural Studies Credits 1-3
Topics may include: Food and Culture; Ethnicity and Identity; Folklore and Folklife; The Study of American Folklore; and specialized studies of particular regions, religious traditions, theoretical perspectives, or emerging trends. Note(s): May be taken multiple times for credit with different focus. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 666 - Topics in Intercultural Studies
Topics may include: Food and Culture; Ethnicity and Identity; Folklore and Folklife; The Study of American Folklore; and specialized studies of particular regions, religious traditions, theoretical perspectives, or emerging trends. Note(s): May be taken multiple times for credit with different focus. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 667 - Topics in Community Development Credits 1-3
Topics may include the church and community development, AIDS, disaster relief, or other relevant topics. Note(s): May be taken multiple times for credit with different focus. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 680 - The Local Church and World Missions Credits 3
Designed to integrate principles of cross-cultural communication and theology and strategy of missions within a total conceptual framework to aid the local church in mission involvement. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 690 - Practicum Credits 1-6
May be done in Church Planting Urban Studies, Women's Ministries or other approved church/mission programs. Note(s): Designed for Master of Arts students. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 691 - Tutorial Credits 1-3
May be taken multiple times for credit with different topics such as intercultural studies, Bible translation, missiology, cross-cultural theology, cross-cultural education and cross-cultural health care. Note(s): Designed for Master of Arts students. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 694 - Seminars Credits 1-3
May be taken multiple times for credit with different topics including church planting, evangelism, anthropology, intercultural communication, linguistics, cross-cultural education, sociolinguistics, cross-cultural theology, theology of mission, history of missions, mission strategy, bible translation. Note(s): Designed for Master of Arts students. Grade Mode: A.
Restriction(s): Must be Intercultural Studies; and Cook Sch Intercultural Studies; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 695 - Master of Arts Comprehensive Examination Credits 0
An examination covering the major areas of study for the Master of Arts Intercultural Studies degree. Grade Mode: A.
Restriction(s): Must be Cook Sch Intercultural Studies; and Graduate Level or Doctoral Level.

ISCL 700 - Orientation to Graduate Intercultural Studies Credit 1
This course introduces students to the nature, scope, and principal research methods of the graduate programs of intercultural studies at Biola University's Cook School of Intercultural Studies; including using the library, locating and evaluating relevant literature, and following the APA style guide. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 701 - Theology of Culture Credits 3
An examination of the relationship between God and culture, the manner in which God works through culture, and the cultural implications of the Gospel. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 702 - Social Organization Credits 3
Cross-cultural study of the basic human groups of family, kin and community, engaging the student in field methodology and research, and application of principles and data of social organization to mission strategy. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 703 - Curriculum Design for Intercultural Contexts Credits 3
Equips students to design appropriate curricula for any and all educational settings. Students learn in particular to apply principles of instructional design to teaching and learning in intercultural contexts. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 709 - Intercultural Communication Credits 3
This course examines theories and issues related to intercultural communication, including principles and processes of communicating from one culture to another, and it identifies strategies for effective interaction among members of different cultures. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 710 - Educational Foundations Credits 3
Educational Foundations provides an orientation to influential principles underlying teaching and learning. It is designed for doctoral students seeking to improve their basic understanding of contemporary educational practice with application to intercultural contexts. It also serves Ph.D. Intercultural Education students who require a prerequisite course in education. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 711 - Dynamics of the Religious Experience Credits 3
A treatment of conceptions of the supernatural, the function of religion in society, religion and social control, the nature of religious ritual and paraphernalia, sacred places and religious practitioners. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ISCL 712</td>
<td>Topics in Oral Ministries</td>
<td>3</td>
<td>Topics include: Learning God's Story. The student will be introduced to the key Bible stories, what they mean and how they cohere as one, bigger story of God. Students will learn how to identify the key stories in the biblical storyline, explain what these stories mean, and connect these stories together into a cohesive narrative; Telling God's Story. Many students understand the validity and underlying philosophy of oral communication, but are still uncertain as to the practical application of these principles to live telling of the story. This course will give a basic approach and methodology to oral Bible story telling that is both biblically accurate and engaging to the listener; Narrative and Song: Investigates oral communication technologies, including storytelling, songs, and proverbs, with four goals in mind: to seek to understand our audience and how they perceive their world; to discover effective ways to communicate to oral cultures; to create/develop oral resources for communicating the Gospel; to design strategies for doing oral communication in Christian witness; Scripture in Use: An exploration of the factors that encourage or hinder interaction with translated (local language) Scriptures, in both oral and literate cultures. The student will consider the effect of brain development, local history and culture, available education, and sociolinguistic and religious factors on Scripture use; and Oral Literature: The student will consider a variety of oral forms, including stories, proverbs, poetry and songs, in both oral and literate cultures, including the use of modern media and technologies, and examine their missiological potential in particular cultures. Note(s): May be taken multiple times with different content. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level. Repeat Limit (after first attempt): 10.</td>
</tr>
<tr>
<td>ISCL 722</td>
<td>Spiritual Conflicts in Cross-Cultural Context</td>
<td>3</td>
<td>Reviews the historical and contemporary worldview beliefs in the existence and activity of spiritual beings or forces often encountered by the cross-cultural worker. A theology of spirits is developed to help establish theoretical and practical guidelines for appropriate understanding of and response to spiritual beliefs and potential conflicts encountered in various cross-cultural setting. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 724</td>
<td>Issues in Spiritual Warfare</td>
<td>3</td>
<td>A multi-disciplinary examination of the leading practices of, and contemporary interest in deliverance ministries, inner-healing prayer therapies, Satanism, dissociative identity disorders, recovered memories and ritual abuse. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 727</td>
<td>Principles of Church Multiplication</td>
<td>3</td>
<td>Exploration of the foundational issues related to cross-cultural church multiplication. A holistic approach (through teams) that is designed to empower nationals to minister immediately, responsibly and continually, along with personal investigation of spiritual gifts, skills and life experience. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 730</td>
<td>Directed Study</td>
<td>1-4</td>
<td>Reading and research in selected areas/issues in world missions. Note(s): Elective. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 732</td>
<td>Church Planting Models and Strategies</td>
<td>3</td>
<td>A survey and analysis of the strengths and weaknesses of various church planting models and strategies used around the world. Identifies key factors which the church planter can implement in a context specific, phase-out oriented church planting strategy. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 725</td>
<td>Principles of Church Growth</td>
<td>3</td>
<td>A basic understanding of church growth concepts as related both to the local congregations and to the task of worldwide evangelization, with due emphasis on the church growth school of thought. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 742</td>
<td>History of the World Christian Movement</td>
<td>3</td>
<td>A review of literature that traces the spread and development of Christianity as a world movement, from Pentecost to the modern era. Special attention is given to the kind(s) of Christianity that spread; the process(es) by which it spread; the effect Christianity had on the socio-cultural/political environment(s); and the effect environment had on Christianity and its subsequent development. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 743</td>
<td>Urban Church Planting Models</td>
<td>3</td>
<td>This study moves beyond the classroom to actual urban church plants in the greater L.A. area. Visits and dialogues provide practical ways pastors, lay people, parachurch people and missionaries prepare themselves and their congregations for intentional church planting in ethnically diverse communities. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level. Course Fee: $50.</td>
</tr>
<tr>
<td>ISCL 744</td>
<td>Narrative in Scripture and Teaching</td>
<td>3</td>
<td>An investigation and demonstration of the narrative/story genre in teaching and curricula design. Students participate in story telling, design a seminar on story telling, and develop a series of culturally relevant lessons using narrative medium in areas such as business, community development, evangelism, leadership and followership development, ESL, drama, counseling, church planting. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 747</td>
<td>Christianity and Culture</td>
<td>3</td>
<td>Anthropological approach to Christian theologizing; interrelationships between supracultural Christianity and human cultures. Focus on conversion, revelation, communication, transformation, indigenergy and other related topics. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 750</td>
<td>Issues in Contextualization/Cross-Cultural Theology</td>
<td>3</td>
<td>The application of cross-cultural communication principles to the study of theology, critique and evaluation of such theologies and the design and implementation of culture specific theologies for various cultures. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 751</td>
<td>Theology of Mission</td>
<td>3</td>
<td>An examination of the theological foundations of mission derived from a study of the history of salvation. This will encompass a study of the mission given to Israel and to the Church including some interaction with contemporary theologies of mission. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
<tr>
<td>ISCL 752</td>
<td>Acts: Biblical and Missiological</td>
<td>3</td>
<td>This course will focus on the historical, cultural and theological content leading the student toward mastery of the book of Acts. This will be followed by a discussion of cogent missiological themes, such as evangelism, power encounter, contextualization and the supernatural in missions. Grade Mode: A. Restriction(s): Must be Graduate Level or Doctoral Level.</td>
</tr>
</tbody>
</table>
ISCL 755 - Biblical Morality and Cultural Relativity  
Credits 3  
A study of the Biblical, cultural and biological approaches to the study of morality and ethics focusing on the claims for a universal or absolute standard by which cross-cultural ethics can be evaluated. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 760 - Urban Practicum Internship  
Credits 3, 6  
A program of cross-cultural internships in the urban metropolitan area of L.A. Note(s): By permission of faculty only. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 765 - Cross-Cultural Leadership  
Credits 3  
Cross-cultural study of leadership including diverse patterns of authority, legitimacy, public support, leadership recruitment, and training as they affect communication, church growth and development worldwide. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 767 - Cross-cultural Issues in Spirituality  
Credits 3  
An examination of cross-cultural dynamics of Christian spirituality and spiritual formation, and the manner in which spirituality is manifest both personally and in community in differing cultural contexts. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 770 - Topics in Missiological Themes in the New Testament  
Credits 1-3  
An examination of various themes in the New Testament that bear a special relevance to the missionary enterprise. Note(s): May be taken multiple times for credit with different course content. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.  
Repeat Limit (after first attempt): 10.

ISCL 772 - Experiential Learning  
Credits 3  
Explores the theory and practice of experiential learning, with particular focus upon curricular creation, pedagogy, and assessment of the experiential teaching and learning process. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.  
Repeat Limit (after first attempt): 10.

ISCL 779 - Graduate Research in Intercultural Studies  
Credits 3  
This course exposes students to the principles and practices of qualitative research with a view of equipping them to design and carry out research projects involving conceptually sound planning, implementation, and critical reflection. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 780 - Topics in Biblical Theology from a Missiological Perspective  
Credits 1-3  
An examination of the manner in which themes, strategies and topics within Biblical theology might be constructed, impacted, or examined for use in missionary contexts. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 783 - Traditional Oral Narrative: Analysis and Interpretation  
Credits 3  
A study of the oral traditions of cultures including an examination of the major themes, cultural uses of, and the anthropological analysis and interpretation of the folk literature in society. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 786 - Signs, Symbols and Semiotics  
Credits 3  
Exploration of approaches, methods and theory in the fields of semiotics and symbolic anthropology. Focuses on ways in which psychological structures and mental entities shape social structure and human behavior. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 791 - Field Internship  
Credits 1-2  
Integration of all the disciplines of ministry and seminary education. It provides supervised experience in various phases of Christian ministry. One hundred hours of field experience each semester are evaluated in classroom interaction. Note(s): Required of Master of Divinity (Missions and Intercultural Studies) students. Grade Mode: A.  
Prerequisite(s): Completion of 64 hours of the Master of Divinity (Missions) program, TTPT 691, TTPT 692.  
Restriction(s): Must be Talbot School of Theology; and Graduate Level or Doctoral Level.

ISCL 792 - Field Internship  
Credits 1-2  
Integration of all the disciplines of ministry and seminary education. It provides supervised experience in various phases of Christian ministry. One hundred hours of field experience each semester are evaluated in classroom interaction. Note(s): Required of Master of Divinity (Missions and Intercultural Studies) students. Grade Mode: A.  
Prerequisite(s): Completion of 64 hours of the Master of Divinity (Missions) program, TTPT 691, TTPT 692.  
Restriction(s): Must be Talbot School of Theology; and Graduate Level or Doctoral Level.

ISCL 793 - Independent Study  
Credits 1-4  
In-depth investigation of a topic under the guidance of the faculty, using standard research procedures. Topic selection and course enrollment by advisor’s approval. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 794 - Independent Study  
Credits 1-4  
In-depth investigation of a topic under the guidance of the faculty, using standard research procedures. Topic selection and course enrollment by advisor’s approval. Grade Mode: A.  
Restriction(s): Must be Graduate Level or Doctoral Level.

ISCL 801 - Method and Theory in Cross-Cultural Studies  
Credits 3  
Examines the strategies and underlying theories behind the multiplicity of organized efforts to introduce change to the world by NGOs and faith-based organizations. Grade Mode: A.  
Restriction(s): Must be Doctoral Level.

ISCL 803 - Qualitative Research  
Credits 3  
An introduction to qualitative inquiry with emphasis on data collection, analysis and validation methods for educational and missiological research. Grade Mode: A.  
Prerequisite(s): ISCL 872.  
Restriction(s): Must be Doctoral Level.

ISCL 810 - Developing a Literature Review  
Credits 3  
This doctoral-level course focuses on how to organize and write the literature review section of a doctoral dissertation. Grade Mode: A.  
Restriction(s): Must be Doctoral Level.
ISCL 815 - Educational Philosophies of Global Religious Traditions Credits 3
This course examines educational philosophies of global religious traditions with application to contemporary intercultural educational contexts. Consideration is given to the role of religion and knowledge in society. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 816 - Education Theory Credits 3
A variety of constructs that have in the past or are currently supportive of educational practice are explored with special attention given to their potential for application in cross-cultural context. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 821 - Education in Social Context Credits 3
The examination of education in its social environment that explores how political, social, economic, and policy issues affect educational theory and practice and how education, in turn, contributes to the broader society. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 823 - Cross-Cultural Teaching and Learning Strategies Credits 3
This course examines theories of learning and analyzes strategies for effective teaching in intercultural contexts. It is designed for those who already have a background in education. Grade Mode: A.
Restriction(s): Must be a Major in Intercultural Education (IDPE) or Intercultural Studies (IDIS); and Cook Sch Intercultural Studies; and Doctoral Level.

ISCL 825 - Comparative Human Development Credits 3
This course examines how culture shapes human growth and learning by comparing various human development theories across cultures. Particular focus is given to adult learning theory. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 852 - Theoretical Issues in Cross-Cultural Engagement Credits 3
An examination of the manner in which social science and anthropological theories have impacted popular culture, political policy, missionary activities, and cross-cultural engagements. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 853 - Contemporary Issues in Cognitive Anthropology and Worldview Studies Credits 3
An in-depth analysis of contemporary developments in the study of the role of cognition in cultural processes, value formation, and cultural change including an analysis of theoretical approaches to the study of cognitive anthropology. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 857 - Comparative Educational Systems Credits 3
An analytical comparison of selected national educational systems emphasizing the cultural value base for decisions regarding access to education, choice of curriculum, educational finance, professional and status issues and other matters of educational theory and practice utilizing comparative methodological approach. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 860 - Practicum Credits 1-6
May be done in Church Planting Urban Studies, Women's Ministries or other approved church/mission programs. Note(s): Designed for doctoral students. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 861 - Alternative Delivery Systems in Education Credits 3
Contemporary technologies and travel ease offer new possibilities for training national leaders. This course will examine such systems as theological education by extension, in-service short courses and distance education to evaluate their suitability and effectiveness. Note(s): Elective for Master of Theology students. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 865 - Qualifying Examination Credits 0
Following the completion of coursework, the student must register for the qualifying examination. The student is considered full-time while enrolled for ISCL 865. Grade Mode: C.
Restriction(s): Must be a Major in Doctor of Missiology (ITHD), Doctor of Missiology (IGRD), Doctor of Missiology (IMDM), Intercultural Studies (IDIS), or Intercultural Education (IDPE); and Cook Sch Intercultural Studies; and Doctoral Level.
Course Fee: $100.

ISCL 866 - Qualifying Examination Extension Credits 0
If all components of the qualifying examination have not been successfully completed within the semester, which a student was enrolled, a student may petition the committee for an extension to permit one additional semester for completing the exam. If approved the student will be considered less than half-time. The qualifying examination must be successfully completed within the second semester. Grade Mode: C.
Restriction(s): Must be Cook Sch Intercultural Studies; and Doctoral Level.
Course Fee: $100.

ISCL 867 - Comparative Educational Systems Credits 3
An analytical comparison of selected national educational systems emphasizing the cultural value base for decisions regarding access to education, choice of curriculum, educational finance, professional and status issues and other matters of educational theory and practice utilizing comparative methodological approach. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 872 - Foundations of Doctoral Research Credits 3
Prepares students to undertake doctoral studies with the final dissertation already in view. Introduction to the dissertation process, including the selection and delimitation of a researchable dissertation topic, strategies in library research, mapping a literature review, rudimentary research design and issues of form and style with particular attention to proper attribution of sources. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 874 - Seminars Credits 1-3
May be taken multiple times for credit with different topics including church planting, evangelism, anthropology, intercultural communication, linguistics, cross-cultural education, sociolinguistics, cross-cultural theology, theology of mission, history of missions, mission strategy, Bible translation. Note(s): Designed for doctoral students only. Grade Mode: A.
Restriction(s): Must be a Major in Intercultural Studies (IDIS), Doctor of Missiology (ITHD), Doctor of Missiology (IGRD), Doctor of Missiology (IMDM), Doctor of Intercultural Studies (IDIS), or Intercultural Education (IDPE); and Cook Sch Intercultural Studies; and Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 873 - Tutorial Credits 1-3
May be taken multiple times for credit with different topics such as intercultural studies, Bible translation, missiology, cross-cultural theology, cross-cultural education, and cross-cultural health care. Note(s): Designed for doctoral students only. Grade Mode: A.
Restriction(s): Must be a Major in Intercultural Studies (IDIS), Doctor of Missiology (ITHD), Doctor of Missiology (IGRD), Doctor of Missiology (IMDM), Doctor of Intercultural Studies (IDIS), or Intercultural Education (IDPE); and Cook Sch Intercultural Studies; and Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 875 - Seminars Credits 1-3
May be taken multiple times for credit with different topics including church planting, evangelism, anthropology, intercultural communication, linguistics, cross-cultural education, sociolinguistics, cross-cultural theology, theology of mission, history of missions, mission strategy, Bible translation. Note(s): Designed for doctoral students only. Grade Mode: A.
Restriction(s): Must be a Major in Intercultural Studies (IDIS), Doctor of Missiology (ITHD), Doctor of Missiology (IGRD), Doctor of Missiology (IMDM), Doctor of Intercultural Studies (IDIS), or Intercultural Education (IDPE); and Cook Sch Intercultural Studies; and Doctoral Level.
Repeat Limit (after first attempt): 10.
ISCL 879 - Research Design Credits 3
This course explores qualitative, quantitative, and mixed methods research design in the social sciences. It equips doctoral students to select and describe appropriate research methods and procedures for their doctoral dissertation. Grade Mode: A.
Prerequisite(s): ISCL 872.
Restriction(s): Must be Doctoral Level.

ISCL 880 - Doctoral Dissertation/Capstone Project Credits 0-4
Normally a student must take a minimum of two credits for up to a maximum of 4 semesters to be considered full time. Note(s): The student will be considered full-time for a maximum of four semesters. Grade Mode: C.
Prerequisite(s): ISCL 881.
Restriction(s): Must be a Major in Doctor of Missiology (ITHD), Doctor of Missiology (IMDM), Doctor of Intercultural Studies (IDIN), or Doctor of Missiology (IGRD); and Cook Sch Intercultural Studies; and Doctoral Level.
Repeat Limit (after first attempt): 3.

ISCL 881 - Doctoral Dissertation/Capstone Project Proposal Credits 2
After completing the coursework, the student begins work to finalize the proposal, which includes selecting a chair and a committee, attaining PHRRC permission, successfully defending the proposal to the committee, and making all pre-field research arrangements. Once all these steps are completed, the student is cleared to begin actual field research. Note(s): The student will be considered full-time for a maximum of one semester. Grade Mode: A.
Prerequisite(s): ISCL 879 or ISCL 883.
Restriction(s): Must be a Major in Doctor of Missiology (ITHD), Doctor of Missiology (IMDM), Doctor of Intercultural Studies (IDIN), or Doctor of Missiology (IGRD); and Cook Sch Intercultural Studies; and Doctoral Level.

ISCL 882 - Dissertation Proposal Continuation Credits 0
This course allows students additional semester(s) to address issues in proposal before moving to candidacy. Note(s): May be taken multiple times. Grade Mode: C.
Prerequisite(s): ISCL 881.
Restriction(s): Must be Doctoral Level.
Repeat Limit (after first attempt): 5.

ISCL 883 - Action-Reflection Research Design Credits 2-3
This course exposes students to the principles and practices of Action-Reflection Research with a view of equipping them to design research projects involving conceptually sound planning, collaborative implementation, and critical reflection as the capstone piece of their doctoral program. Grade Mode: A.
Prerequisite(s): ISCL 872.
Restriction(s): Must be Doctoral Level.

ISCL 885 - Multicultural Education Credits 3
This course explores educational theory and practice relative to teaching and learning among people from multiple cultures in a single setting, both in North America and other international contexts. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 890 - Ph.D. Dissertation Field Research Credits 0-6
Enrolling in ISCL 890 for 0 to 6 credits constitutes full-time status. However, dissertation work constitutes full-time status only for a total of four semesters. Grade Mode: D.
Prerequisite(s): ISCL 891.
Restriction(s): Must be a Major in Intercultural Education (IDPE) or Intercultural Studies (IDIS); and Cook Sch Intercultural Studies; and Doctoral Level.
Repeat Limit (after first attempt): 3.

ISCL 891 - Ph.D. Dissertation Proposal Credits 3
This course facilitates the development and refinement of the doctoral dissertation proposal through preparation, presentation and critique of proposal drafts and examination and discussion of issues related to dissertation research. Note(s): Constitutes full-time status. Grade Mode: A.
Prerequisite(s): ISCL 803 and ISCL 879.
Restriction(s): Must be a Major in Intercultural Education (IDPE) or Intercultural Studies (IDIS); and Cook Sch Intercultural Studies; and Doctoral Level.

ISCL 892 - PHD Dissertation Proposal Continuation Credits 0
This course allows students additional semester(s) to address issues in proposal before moving to candidacy. Note(s): May be taken multiple times. Grade Mode: C.
Prerequisite(s): ISCL 891.
Restriction(s): Must be Doctoral Level.
Repeat Limit (after first attempt): 5.

ISCL 893 - Leave of Absence Credits 0
For students who have been granted an official leave of absence from the program. Grade Mode: N.
Restriction(s): Must be Cook Sch Intercultural Studies; and Doctoral Level.
Course Fee: $15.

ISCL 895 - Doctoral Research Seminar Credits 1-3
In-depth investigation of a topic under the guidance of the Intercultural Studies department using standard research procedures. Topic selection and course enrollment is by department approval. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Doctoral Level.

ISCL 896 - Ph.D. Research Seminar Credits 1-3
Specialized research topics are examined critically in considerable detail with attention to the supporting literature on each topic. Note(s): May be taken multiple times for credit under a different topic. Grade Mode: A.
Restriction(s): Must be Doctoral Level.
Repeat Limit (after first attempt): 10.

ISCL 897 - Research Seminar Credits 3
Discussion and application of the central areas of Christian Ministry and Leadership research and related fields of study. Instruction in research methodology, including the identification of a problem, the steps taken to resolve it, and writing the results. Note(s): Required for the first semester of the Master of Theology missions program; a second semester (ISCL 898) may be taken to continue research in the area of interest. Grade Mode: A.
Restriction(s): Must be Doctoral Level.
Course Fee: $50.
ISTE TESOL

ISTE 501 - Introduction to TEFL Credits 3
The basics of teaching English as a foreign language. Includes an introduction to methods and techniques, teaching materials, grammar, and communicating values. Assignments include supervised observation and practice teaching. Note(s): Does not count toward the department's graduate certificate or Master of Arts in TESOL. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 505 - Foundations of TESOL Credit 1
An introductory course orienting new online graduate students to requirements and expectations of the MA TESOL program, including key concepts and resources in TESOL, and helping students build community and plan their program. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 509 - Structure of English Credits 3
Study of the syntax of English in preparation for teaching non-native speakers. Theoretical insights taken from several approaches to grammar. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 511 - Structure of English — Challenge Credits 3
Students who have taken a course similar to ISTE 509 may petition the faculty to earn credit by means of a challenge exam and some additional coursework. Grade Mode: C.
Restriction(s): Must be Graduate Level or Doctoral Level. Course Fee: $100.

ISTE 512 - Essentials of TESOL Credits 3
A practical course giving the skills and knowledge needed to gain foundational competence in teaching the English language. Includes methods and techniques, English pronunciation and grammar, teaching materials, culture and communicating values. Note(s): Does not count toward the department's graduate certificate or Master of Arts in TESOL. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 525 - Introduction to TESOL—Adult Credits 3
An introduction to the field of TESOL at the post-secondary and adult levels dealing with learner needs, approaches to and methods of teaching, techniques for the four skills, lesson planning and classroom management. Note(s): May be taken concurrently with other TESOL courses. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 526 - Introduction to TESOL — K–12 Credits 3
An introduction to the field of TESOL at the primary and secondary levels in U.S. multilingual classrooms. The role of the primary language, methods and techniques for teaching the four skills, and assessment are also covered. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 527 - Materials Evaluation and Preparation Credits 3
Principles of ESL/EFL materials design. Enables teachers to evaluate and adapt published materials, prepare their own materials, and use a variety of media, including video and computers. Grade Mode: A.
Prerequisite(s): ISTE 525 or ISTE 528.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 528 - Introduction to TESOL — Challenge Credits 3
Students who have taken a course similar to ISTE 525 may petition the faculty to earn credit by means of a challenge exam. Note(s): May be taken concurrently with other TESOL courses. Grade Mode: C.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 530 - Ethics, Values, and Intercultural Communication for TESOL Professionals Credits 3
This course develops professionalism in ESOL teachers in three areas: effective intercultural communication, appropriate communication of different worldviews and values, and ethics for teachers in various contexts. Grade Mode: A.
Prerequisite(s): ISTE 525 or ISTE 528.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 580 - English: Past, Present and Future Credits 2-3
Historical and social survey of the development of the English language from a small tribal language to the widespread international language it is today. Possible future trends are also discussed. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

ISTE 581 - Topics in TESOL Credits 1-3
Topics are listed in the class schedule each semester. Course may be taken multiple times for credit with a different topic. Titles offered include: Readings in Language Learning Strategies; Teaching Pronunciation; TESOL and the Teaching of Literature; Readings in Cultural and Language Learning; Teaching EFL to Children. Grade Mode: A.
Prerequisite(s): ISTE 525 or ISTE 528.
Restriction(s): Must be Graduate Level or Doctoral Level. Repeat Limit (after first attempt): 10.

ISTE 582 - Topics in TESOL Credits 1-3
Topics are listed in the class schedule each semester. Course may be taken multiple times for credit with a different topic. Titles offered include: Readings in Language Learning Strategies; Teaching Pronunciation; TESOL and the Teaching of Literature; Readings in Cultural and Language Learning; Teaching EFL to Children. Grade Mode: A.
Prerequisite(s): ISTE 525 or ISTE 528.
Restriction(s): Must be Graduate Level or Doctoral Level. Repeat Limit (after first attempt): 10.

ISTE 614 - Second Language Acquisition Credits 3
Examination of the various factors, especially individual, sociological, and psychological, which enter into the process of acquiring a second language. Includes discussion of learning strategies as well as autonomous learning inside and outside of the classroom. Grade Mode: A.
Prerequisite(s): ISTE 525 or ISTE 528.
Restriction(s): Must be Graduate Level or Doctoral Level.
ISTE 621 - Classroom Research in TESOL  
Introduction to classroom-based research, in-depth examination of various methods and techniques of TESOL, and introduction to teacher training and program administration. **Grade Mode:** A.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.  
**Course Fee:** $150.

ISTE 627 - Vocabulary Learning and Teaching  
Study of English vocabulary, how it is learned, and best taught to non-native speakers. Research and theory inform learning issues and teaching practices. Examination of relevant materials and resources further supports vocabulary learning and teaching. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 632 - Language Testing and Assessment  
Examination of the various factors, especially individual, sociological, and psychological, which enter into the process of acquiring a second language. Includes discussion of learning strategies as well as in language pedagogy. Credit for course may be earned, on the basis of some field-based situations, by portfolio assessment. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 635 - Technology for Language Learning and Teaching  
Exploration through reading, discussion, and hands-on experience of how technology can be creatively exploited as a teaching and learning tool to support language learning. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 644 - Discourse and Language Teaching  
Conversation analysis, the analysis of written texts, and discourse across cultures. Focus will be on discourse in the classroom and pedagogical applications. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 648 - Teaching Second Language Reading and Writing  
Exploration of effective pedagogy for teaching academic reading and writing at various levels in the ESL and EFL context. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 650 - Teaching English to Young Learners  
Preparing teachers for classes of English language learners K to 6th grade, primarily in international settings, this course covers age-appropriate classroom management, strategies and curriculum for teaching language as well as content, including beginning literacy instruction and assessment. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 664 - English for Specific Purposes  
Exploration of issues involved in teaching English to specific groups of students, especially those in scientific, technical, and vocational fields. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 665 - Course Design in TESOL  
How to develop a language program and design a language course, including needs assessment, methodology choices, goals specifications and implementation issues. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 690 - Independent Study  
Individual work, directed reading, or special problems in TESOL. Such work must be done with the approval and supervision of a faculty professor of record. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 691 - Field Practicum in TESOL  
Intensive ESL/EFL classroom teaching in a field setting, typically as part of a supervised team working with a voluntary agency. **Note(s):** Elective. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level.

ISTE 692 - Practicum in TESOL II  
Extensive independent teaching in an ESL classroom under the general supervision of a master teacher, plus weekly group discussion of issues in language pedagogy. Credit for course may be earned, on the basis of some field-based situations, by portfolio assessment. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 693 - Portfolio  
Guidance in the development of a thesis or research paper. Students must be doing work that is designed to contribute to a final portfolio. **Grade Mode:** C.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Cook Sch Intercultural Studies; and Graduate Level or Doctoral Level.

ISTE 694 - Practicum in TESOL — Challenge  
Credit for course may be earned on the basis of some field-based situations by portfolio assessment (as detailed in the ALT Handbook). **Grade Mode:** C.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 695 - Research Seminar  
Guidance in the development of a thesis or research paper. Students produce a preliminary thesis statement, proposal, outline, and working bibliography. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 696 - Research Paper  
A paper based on classroom research, literature review, or the design of a syllabus or appropriate teaching materials. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 695.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 699 - M.A. Thesis  
Research for and writing of an MA thesis. Students permitted to write a thesis will not be required to do a portfolio. **Grade Mode:** C.  
**Prerequisite(s):** ISTE 695 or equivalent and consent of MA committee.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

ISTE 714 - Second Language Acquisition  
Examination of the various factors, especially individual, sociological, and psychological, which enter into the process of acquiring a second language. Includes discussion of learning strategies as well as autonomous learning inside and outside of the classroom. **Grade Mode:** A.  
**Prerequisite(s):** ISTE 525 or ISTE 528.  
**Restriction(s):** Must be Graduate Level or Doctoral Level.

CROWELL SCHOOL OF BUSINESS

Faculty
Dean: Gary Lindblad, Ed.D.
Undergraduate Chair: David Bourgeois, Ph.D.
Professor: Rundle
Associate Professors: Aguas, Bourgeois, Enete, Harman, Markley, McHugh, Mgrdichian, Mobley, Sherwin, Ware, Wilson, Woodward
Assistant Professors: Marrero, Mitchell

Programs

Programs Offered
Undergraduate
- Accounting, B.S. (p. 122)
- Business Administration, B.S. (p. 124)
- Business Management, B.S. (p. 131)
- Business Administration Minor (p. 132)
- Business Analytics Minor (p. 132)
- Entrepreneurship Minor (p. 133)
- Financial Planning Minor (p. 133)

Masters
- Business Administration, MBA (p. 133)
- Nonprofit Organizations, MM (p. 135)
- Professional Accountancy, MPAcc (p. 137)

Courses

Course Descriptions
Undergraduate
- Business Administration (BUSN) (p. 139)

Graduate
- Business Administration (MBAD) (p. 146)
- Professional Accountancy (MPAC) (p. 148)

Accounting, B.S.

Mission
The mission of the Crowell School of Business is to equip students to develop a biblical worldview so as to see business as ministry:

- To prepare students for excellence in leadership in their career.
- To be strong in mind and character, and be able to articulate faith and vocational integration so that they will make an impact for God in this time and place.
- To develop a student’s God-given talents and pursue excellence by maintaining high expectations and proficiency in their unique field of interest.

Degree Program
A Bachelor of Science in Accounting is offered upon the completion of the University baccalaureate requirements. The Accounting major requires 51 credits, 24 of which must be upper-division.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Science in Accounting, students will be able to:

1. Technical Knowledge: demonstrate technical proficiency in the accounting discipline, including the use of technical accounting knowledge to help solve problems and make decisions (ULO 1, 2).
2. Critical Thinking: demonstrate the ability to identify, analyze, and evaluate alternative solutions to a wide range of business problems by presenting reliable, valid, and logical arguments that drive innovation (ULO 1, 2).
3. Technology and Analytical: demonstrate their understanding of the role digital technologies play in the success of organizations and will demonstrate proficiency in the use of digital technologies by solving accounting and business problems using those technologies (ULO 2, 3).
4. Communication: apply effective communication, research, and technological skills to accounting and business situations, write professional business documents, work effectively in teams, and prepare and deliver effective oral presentations (ULO 3).
5. Spiritual: articulate their knowledge of biblical principles and their application to integrity, humility, and ethical business behavior (ULO 1, 2, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements
Admission into Biola University does not guarantee admission as an Accounting major in the Crowell School of Business, nor permission to enroll in upper-division business administration courses (Intermediate Accounting excepted). Prior to formal admission, students shall continue to be advised as pre-business majors. The following requirements must be observed:

1. Complete, with a minimum of a ‘C’ (2.0) grade in each of the following courses (totaling 15 semester hours), or the equivalent; with a cumulative grade point average of 2.50: BUSN 201 or BUSN 202, BUSN 211, and BUSN 212; ENGL 100 or ENGL 112; MATH 190.
2. Accomplish an overall cumulative GPA of 2.50 in all college level course work completed at the time of formal application to the Crowell School of Business.
3. Complete all portions of the application for admission to the Crowell School of Business. The application should be filed the semester in which the student is in progress of completing the prerequisite course requirements.
4. Meet approval of the academic advisor of the Crowell School of Business. The process may require an interview.
Accounting majors will be required to fulfill their Biblical Studies Integration Seminar requirement by taking one of the sections of BBST 465 Integration Seminar: Organizational Ethics.

**Course Sequence**

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

### Business Administration, B.S.

#### Mission

The mission of the Crowell School of Business is to equip students to develop a biblical worldview so as to see business as ministry:

- To prepare students for excellence in leadership in their career.
- To be strong in mind and character, and be able to articulate faith and vocational integration so that they will make an impact for God in this time and place.
- To develop a student’s God-given talents and pursue excellence by maintaining high expectations and proficiency in their unique field of interest.

#### Degree Program

A Bachelor of Science degree in Business Administration is offered upon the completion of baccalaureate requirements and the business major in one of the following concentrations: Business Analytics, Financial Management, Financial Planning, International Business, Management, Marketing, and Marketing Management.

#### Learning Outcomes

**Program Learning Outcomes**

Upon completion of the Bachelor of Science in Business Administration, students will be able to:

1. **Critical Thinking:** Students will demonstrate the ability to identify, analyze, and evaluate alternative solutions to a wide range of business problems by presenting reliable, valid, and logical arguments that drive innovation (ULO 1).
2. **Technology and Analytical:** Students will demonstrate their understanding of the role digital technologies play in the success of organizations and will demonstrate proficiency in the use of digital technologies by solving business problems using those technologies (ULO 1).
3. **Communications:** Students will apply effective communication, research, and technological skills to business situations, write professional business documents, work effectively in teams, and prepare and deliver effective oral presentations (ULO 2).
4. **Spiritual:** Students will articulate their knowledge of biblical principles and their application to integrity, humility, and ethical business behavior (ULO 3).
Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Concentration Learning Outcomes - Business Analytics**
Graduates of the Business Analytics concentration will be able to:

- Apply appropriate methodologies and technologies to business data to solve real-world problems.
- Demonstrate proficiency with digital technologies applied to data organization, analysis, reporting and visualization.
- Analyze ethical approaches to applying data-driven decision-making in an organizational setting.

**Concentration Learning Outcomes - Financial Management**
Graduates of the Financial Management concentration will be able to:

- Demonstrate the ability to identify, analyze and evaluate the most effective allocation of cash in a business organization.
- Technology and Analysis: students will demonstrate proficiency in using spreadsheets to make common business financial decisions.
- Articulate how to best demonstrate biblical values while making cash flow decisions within a business organization.
- Reference and practically apply fundamental principles and management/leadership theories.

**Concentration Learning Outcomes - Financial Planning**
Graduates of the Financial Planning concentration will be able to:

- Demonstrate the ability to formulate, implement, and monitor financial decisions into an integrated plan that guides an individual or family to achieve their financial goals.
- Articulate how biblical principles apply to formulating financial plans, particularly how a Christian can embrace a vibrant faith in the providential nature of God while, also, maintaining financial goals for the future.
- Provide financial guidance to a diverse community with care and cultural competency.

**Concentration Learning Outcomes - International Business**
Graduates of the International Business concentration will be able to:

- Understand the economic, cultural, and political factors that are relevant when doing business in a foreign country.
- Able to analyze the opportunities and risks associated with doing business internationally.
- Able to work with or manage people from various ethnic or religious backgrounds.

**Concentration Learning Outcomes - Management**
Graduates of the Management concentration will be able to:

- Reference and practically apply fundamental principles and management/leadership theories.
- Apply new emerging management and leadership theory, human resources management concepts, and legal requirements.
- Demonstrate the ability to contribute effectively to a leaderless and consensus driven team.

**Concentration Learning Outcomes - Marketing**
Graduates of the Marketing concentration will be able to:

- Demonstrate acquired knowledge through conducting primary and secondary research, create surveys analyze data and present accurate and valuable research findings.
- Demonstrate effective communication, sales and negotiation skills.
- Execute a real world client marketing report for a for profit/non-profit organization through analyzing the market, assessing tradeoffs in various marketing strategies and providing research support for selected marketing strategies.

**Concentration Learning Outcomes - Marketing Management**
Graduates of the Marketing Management concentration will be able to:

- Explain key concepts, theories and practices important to the management of organizations and apply them to specific situations facing organizations.
- Analyze marketing problems or opportunities facing an organization, and solve marketing problems using quantitative and qualitative analysis.
- Identify areas of ethical concern facing marketing management professionals and articulate appropriate ethical guidelines based upon Biblical principles.

**Requirements**

**Admission Requirements**
Admission into Biola University does not guarantee admission as a Business Administration major in the Crowell School of Business, nor permission to enroll in upper-division business administration courses (Intermediate Accounting excepted). Prior to formal admission, students shall continue to be advised as pre-business majors. The following requirements must be observed:

1. Complete, with a minimum of a 'C' (2.0) grade in each of the following courses (totaling 18 semester hours), or the equivalent; with a cumulative grade point average of 2.50: BUSN 201 or BUSN 202, BUSN 211, BUSN 212, and BUSN 220; ENGL 100 or ENGL 112; MATH 190.
2. Accomplish an overall cumulative GPA of 2.50 in all college level course work completed at the time of formal application to the Crowell School of Business.
3. Complete all portions of the application for admission to the Crowell School of Business. The application should be filed the semester in which the student is in progress of completing the prerequisite course requirements.
4. Complete the initial e-portfolio assignment in BUSN 220 or, if transferring BUSN 220, complete the ePortfolio assignment as outlined on the ePortfolio Student Hub (https://studenthub.biola.edu/business/e-portfolio-assignment/) web page. Contact the academic advisor for more details on how to complete this assignment.
5. Meet approval of the academic advisor of the Crowell School of Business. The process may require an interview.
6. Business Administration majors will be required to fulfill their Biblical Studies Integration Seminar requirement by taking one of the sections of BBST 465 Integration Seminar: Organizational Ethics.

International Business

Note: All students in the International Business emphasis are encouraged to take ANTH 200 for Core Curriculum Behavioral Science.
### Concentration-Specific Courses

Cross-cultural/overseas learning experience: Every International Business student must participate in a cross-cultural/overseas learning experience that allows them to apply skills learned in the classroom in a foreign environment. This may be fulfilled by taking a business-related internship of at least 6 weeks in length. Students are encouraged to fulfill this requirement by participating in an approved study-abroad program either before or during their Junior year. Whichever option a student chooses, it must be pre-approved by the student’s academic advisor. Students will be required to demonstrate completion of this requirement in their E-portfolio.

- **BUSN 230**: Introduction to Marketing 3
- **BUSN 231**: Introduction to Marketing: Practical Application 3
- **BUSN 344**: Global Marketing Management 3
- **BUSN 442**: International Finance 3
- **BUSN 443**: International Supply Chain Management 3
- **BUSN 472**: Capstone for International Business Concentration 3
- **INCS 322**: Intercultural Adjustment 3

Select 3 credits of Business or Intercultural Studies electives 3  
**Total Credits**: 21

### Management

Every Management student must participate in a business field experience that requires them to apply learned skills in a business environment. This requirement may be fulfilled by completing the Business Internship course for three credits or by completing an approved field experience. In both cases, an application must be approved beforehand; please speak with your advisor regarding this process. This requirement must be completed before students take their concentration capstone course. Students will provide evidence that they have completed this requirement by adding their field experience/internship to their ePortfolio.

- **BUSN 230**: Introduction to Marketing 3
  or **BUSN 231**: Introduction to Marketing: Practical Application 3
- **BUSN 318**: Human Resource Management 3
- **BUSN 410**: Customer Relationship Management 3
- **BUSN 421**: Leadership and Change 3
- **BUSN 473**: Capstone for Management Concentration 3

Select 6 credits of Business electives 6  
**Total Credits**: 21

### Marketing

Every Marketing student must participate in a business field experience that requires them to apply learned skills in a business environment. This requirement may be fulfilled by completing the Business Internship course for three credits or by completing an approved field experience. In both cases, an application must be approved beforehand; please speak with your advisor regarding this process. This requirement must be completed before students take their concentration capstone course. Students will provide evidence that they have completed this requirement by adding their field experience/internship to their ePortfolio.

### Business Management, B.S.

#### Mission

The mission of the Bachelor of Science in Business Management is to equip adult students to complete the calling God has given them to practice business as ministry.

#### Degree Program

The Bachelor of Science in Business Management is an undergraduate major designed for students who have previously completed some academic work and preferably have some experience in the business world. This program will provide students with the tools to advance their career and become stronger business leaders. Through a year-round, fully online program, students can complete their degree on a schedule that works for them, while still receiving a quality curriculum, caring professors, integration of Biblical values, and a focus on Business as Ministry for which the Crowell School of Business is known.

#### Learning Outcomes

##### Program Learning Outcomes

Upon completion of the Bachelor of Science in Business Management, students will be able to:

1. Analyze and process business information in a manner that is logical, reflective, researched and applicable to managerial decision-making (ULO 3).
2. Present information orally and in writing for informational, persuasive, argumentative and expressive purposes while giving appropriate consideration to audience, context and format. Ability to connect to others in a deep and direct way, to sense and stimulate reactions and desired interactions (ULO 3).
3. Apply quantitative, statistical and financial methods to analyze, interpret, communicate and address challenges in organizations.
Ability to translate vast amounts of data into abstract concepts and to understand data based reasoning (ULO 1).

4. Demonstrate the ability to synthesize management concepts with Biblical values to create sound business strategies (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

### Requirements

#### Admissions Requirements

1. Must be a believer in the Christian faith (the applicant’s statement of faith will be articulated in the personal essay section of the application).
2. Must have at least a 2.5 cumulative college GPA.
3. Must have graduated from high school or earned an equivalent degree (GED).
4. Preference will be given to students with at least three years’ work experience.
5. Students with fewer than 15 semester credits post high school, must apply as a transfer student and meet the admission requirements for First-Time College Students (https://www.biola.edu/undergrad/admissions/first-time/). In addition, students are required to:
   a. Submit SAT/ACT scores, or
   b. If no test scores, the Post Traditional Test-Optional process will be used.

#### Credit for Prior Learning

The following BUSN courses may be fulfilled by credit for prior learning experience and prior learning assessment (PLA) in the Business Management program: BUSN 205, BUSN 211, BUSN 212, BUSN 220, BUSN 230, BUSN 323, BUSN 328, BUSN 347, BUSN 361, BUSN 370. See the Department for details.

Business Administration, MBA  

Mission  
The mission of the Crowell School MBA program is to equip women and men in mind and character to impact the world for Christ through business as ministry.

Program Description  
The MBA degree is designed for those individuals who understand that putting Christ first will make them better business people, and that the accomplishment of this requires high levels of faith, knowledge and integrity. The program attracts individuals who are seeking a rigorous program of study in the full range of business topics necessary for a complete understanding of the modern organization. In every course, the business topics are integrated with one another and with Scripture, so that those who participate can correctly and confidently become change management leaders within their organizations. The MBA program is available in both fully online and hybrid formats.

Distinctives of the program are:

1. To truly integrate the teachings of Scripture throughout the curriculum, Biola University and the MBA program accept students who are committed followers of the Lord Jesus Christ.
2. Seventeen percent of the core courses for the MBA degree qualify as Bible courses and are either taught or co-taught by Talbot School of Theology faculty.
3. The MBA program provides a one-on-one mentoring opportunity for every student. Mentors are committed and growing Christians who also are successful business people.
4. Every course provides a strong link between theory and practice. Most courses are taught by Ph.D.’s in the field of study, who have successfully published and have substantial business or consulting experience.
5. Students will have the opportunity to develop meaningful personal relationships with Ph.D. faculty, additional resource faculty, mentors, and peers which, in turn will lead to a wide range of personal growth outcomes, including:
   a. Foundational knowledge of current business contexts and issues.
   b. The ability to integrate Christian thought within the context of the management and innovation process.
   c. Possession of Christian attitudes conducive to the development of professional excellence and witness to the business community.
   d. Commitment to lifelong learning and professional growth.
6. A non-traditional course schedule of evening and some weekend courses provides flexibility for busy students.

Learning Outcomes  

Program Learning Outcomes  
Upon completion of the Master of Business Administration, students will be able to:
1. Biblical Integration & Integrity. Students will explain how to make ethical and knowledgeable decisions with character and integrity in their personal and work lives, based upon the application of Biblical principles and the recognition of their vocation as God’s calling (ULO 2 and 3).

2. Communication and Collaboration: Students will communicate advanced business theories and practices effectively through a variety of techniques including written, oral, and electronic communication technologies, and by organizing, working in, and leading teams (ULO 1).

3. Innovation: Students will identify and analyze mind-sets and behaviors that successful innovators exhibit and generate creative thinking to solve business problems, using strategies learned in the program (ULO 1).

4. Critical Thinking: Students will demonstrate the ability to independently evaluate a situation, apply advanced business concepts in order to improve the performance of an organization and organize business information into actionable intelligence that enables communities to flourish (ULO 1 and 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Graduation Requirements
The Master of Business Administration degree program has six distinct elements:

1. Participation in the Orientation Intensive Weekend (fee applies)
2. Leveling (prerequisite) coursework, required for those without a business undergraduate degree (up to 13 credits). Students without undergraduate coursework in economics, business law, statistics, and information systems will need to meet these requirements through online coursework completed no later than the end of the student’s second semester in the MBA program.
3. A common core of graduate courses (30 credits).
4. A concentration of required theology courses (3 credits).
5. An integrative business ethics course (3 credits).
6. Participation in the MBA Mentor Program.

A minimum of 36 credits of graduate coursework is required for the Master of Business Administration degree. A student must maintain a minimum 3.0 cumulative GPA, and no single grade lower than a ‘C’ to graduate and progress to any courses with a prerequisite. Students without a business undergraduate degree will require additional leveling credits (maximum of 13 credits). A student taking all 13 credits of leveling would have a total of 49 credits in their program.

A minimum of 28 graduate credits must be completed in the Master of Business Administration program at Biola University.

All students must take the Peregrine Business Exit Exam by their last trimester.

Students must meet with their department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduation Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits
Students transferring from a regionally accredited graduate program may transfer a maximum of 6 credits. The courses transferred must be equivalent, have direct applicability to the student’s program, and be approved by the Dean. Only courses with a grade of ‘B’ (3.0) or higher will be considered for transfer toward the MBA degree; a grade of ‘B-’ is not transferable.

Calendar
The program utilizes three 15-week trimesters (Fall, Spring, and Summer). Each trimester is divided into two 7-week terms (for example, Fall Session A and Fall Session B). Students typically take one or two courses at a time in each 7-week section. If enrolled part-time, students primarily attend one night per week. If enrolled full-time, students may attend two nights per week.

MBA
Admission Requirements
The MBA program allows students to customize their MBA experience. An MBA student may take a part-time or a full-time academic load. Applicants have the option to choose to attend full-time if starting in the fall, or may choose to enroll part-time in a fall or spring start. A typical part-time load is 6 credits per trimester, which is an excellent option for professionals who wish to further their career, but want to continue working while earning their MBA. The full-time load is optimal for students who have recently completed their undergraduate degree. Candidates must:

1. Be a follower of the Lord Jesus Christ.
2. Applicants must have completed all bachelor’s requirements (Business Administration or other field) prior to the start of the program and must have a baccalaureate degree earned either from a regionally accredited institution in the U.S. or a recognized baccalaureate degree equivalent earned outside the U.S. prior to the start of the second term.
3. Preferably have three years of professional experience and be fully employed when admitted to the program. If applicant is a recent graduate and this requirement is not met, then applicant is strongly encouraged to participate in a part-time internship or job that he or she has personally arranged, in order to gain valuable real-world experience while earning the MBA degree.

Admission is competitive and based upon a committee review of each applicant’s undergraduate grade point average, personal experience and professional background. A GMAT or GRE score is not required for admission but will be considered if submitted.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Admission of English Language Learners
This section applies to applicants for whom English is not a primary language. It is essential that applicants for whom English is not a primary language be able to understand directions and lectures in English and be able to express their thoughts clearly in spoken and written English. Preference in admission will be given to those with an overall score of at least TOEFL: 100 iBT or IELTS 7.5. The admissions committee will also require an oral interview and may require a writing sample.
Curriculum Requirements

Thirty-six credits of graduate courses are required for all MBA degrees in the Crowell School of Business, which include 3 graduate credits of theology and 3 graduate credits of business ethics.

Nonprofit Organizations, MM

Mission

The mission of the Crowell School Master of Management in Nonprofit Organizations Program is to equip women and men in mind and character to impact the world for Christ through business as ministry.

Program Description

The Master of Management in Nonprofit Organizations is a 36 credit graduate-level degree that leverages the intellectual and spiritual capital of the Crowell School of Business and Talbot School of Theology. Students are immersed in the language and culture of both business and theology, uniquely equipping them to lead faith-based organizations. One distinctive of this program is that students will be working alongside students and faculty from both our MBA and seminary programs, building relationships and networks that integrate these cultures.

Distinctives of the program are:

1. To truly integrate the teachings of Scripture throughout the curriculum, Biola University’s Talbot School of Theology and the Crowell School of Business Master of Management in Nonprofit Organizations programs only accept students who are committed followers of the Lord Jesus Christ.
2. Thirty percent of the core courses for the Master of Management in Nonprofit Organizations degree qualify as Bible courses and are either taught or co-taught by Talbot School of Theology faculty.
3. This program provides a one-on-one mentoring opportunity for every student. Mentors are committed and growing Christians who also are successful business people.
4. Every course provides a strong link between theory and practice. Most courses are taught by Ph.D.’s in the field of study, who have successfully published and have substantial business or consulting experience. In addition, many courses will include a successful business person in the area of study who will serve as additional resource faculty.
5. Students will have the opportunity to develop meaningful personal relationships with Ph.D. faculty, additional resource faculty, mentors, and peers which, in turn will lead to a wide range of personal growth outcomes, including:
   a. Foundational knowledge of current business contexts and issues.
   b. The ability to integrate Christian thought within the context of the management and innovation process.
   c. Possession of Christian attitudes conducive to the development of professional excellence and witness to the business community.
   d. Commitment to lifelong learning and professional growth.
6. A non-traditional course schedule of evening and some weekend courses provides flexibility for busy students.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Management in Nonprofit Organizations, students will be able to:

1. Business Competencies: Students will obtain the knowledge and competency of advanced business principles and practices, and
demonstrate the ability to apply them to managing, leading and serving nonprofit organizations. (ULO 1)
2. Nonprofit Competencies: Students will explain the unique aspects of nonprofit organizations as expressed in their mission, vision and core value statements and develop core communication and leadership competencies to serve this sector faithfully. (ULO 2)
3. Theological integration: Students will articulate a theology of work and demonstrate the ability to apply their biblical and theological worldview to nonprofit organizations. (ULO 3)
4. Innovation: Students will demonstrate an ability to think creatively and innovatively to develop new ideas and ways of managing that advance the mission of nonprofit organizations. (ULO 3)

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Graduation Requirements
The Master of Management in Nonprofit Organizations degree program has five distinct elements:
1. Participation in the Orientation Intensive Weekend (fee applies).
2. A common core of graduate courses (21 credits).
3. A concentration of required theology courses (12 credits).
4. An integrative business ethics course (3 credits).
5. Participation in the Mentor Program.

A minimum of 36 credits of graduate coursework is required for the Master of Management in Nonprofit Organizations degree. A student must maintain a minimum 3.0 cumulative GPA, and no single grade lower than a ‘C’ to graduate and progress to any courses with a prerequisite.

A minimum of 24 graduate credits must be completed in the Master of Management in Nonprofit Organizations program at Biola University.

Students must meet with their department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits
Students transferring from a regionally accredited graduate program may transfer a maximum of 6 credits. The courses transferred must be equivalent, have direct applicability to the student’s program, and be approved by the Dean. Only courses with a grade of ‘B’ (3.0) or higher will be considered for transfer toward the MM degree; a grade of ‘B-' is not transferable.

Calendar
The program utilizes three 15-week trimesters (Fall, Spring and Summer). Each trimester is taught two 7-week terms (for example, Fall Session A and Fall Session B). Most theology courses are taught in 15-week terms. Students typically take one or two courses at a time in each 7-week Session. If enrolled part-time, students primarily attend one night per week. If enrolled full-time, students may attend two nights per week.

Admission Requirements
Admissions requirements will be based upon the requirements for Biola and the Master of Management in Non-Profit Organizations:
- Be a committed follower of the Lord Jesus Christ.
- Applicants must have completed all bachelor’s requirements (Business Administration or other field) prior to the start of the program and must have a baccalaureate degree earned either from a regionally accredited institution in the U.S. or a recognized baccalaureate degree equivalent earned outside the U.S. prior to the start of the second term.
- The program will be targeted to and preference will be given to those with at least three years of work experience after graduation when admitted to the program.

Admission of English Language Learners
This section applies to applicants for whom English is not a primary language. It is essential that applicants for whom English is not a primary language be able to understand directions and lectures in English and be able to express their thoughts clearly in spoken and written English. Preference in admission will be given to those with an overall score of at least TOEFL: 100 iBT or IELTS 7.5. The admissions committee will also require an oral interview and may require a writing sample.

The Crowell School of Business reserves the right to waive a retake of the TOEFL or IELTS test for MM applicants for whom English is not a primary language who already have a Biola Business degree. Waivers of this requirement will be evaluated in the applicant’s interview with the Dean.

For more details on how, when, and where to take language tests, visit online:
- TOEFL (iBT) (http://www.ets.org/toefl/)
- IELTS (https://www.ielts.org/)

Language tests are administered only at specific times, so candidates for admission should inquire about testing dates well in advance of the date of anticipated school term in the US.

Students admitted to the United States on an F-1 student visa are required by law to be registered as full-time students (a minimum of 9 credits per trimester). Additionally, no off-campus employment is permitted for students on an F-1 visa without written permission of the United States immigration authorities. However, students on an F-1 visa may work off-campus in an unpaid internship in order to fulfill the internship requirement of the program.

Degree Program
The program requires 36 credits of coursework, with 24 credits from Crowell, and 12 credits from Talbot. All courses are 3 credits unless otherwise noted.

Professional Accountancy, MPAcc

Mission

The mission of the Crowell School of Business Master of Professional Accountancy (MPAcc) is to provide biblically centered education to train and equip accounting professionals to impact their profession and the world for the Lord Jesus Christ.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Professional Accountancy, students will be able to:

1. Demonstrate knowledge and understanding of advanced accounting practices, techniques, and measurements (ULO 1).
2. Demonstrate the use of technology and quantitative reasoning to succeed in the accounting profession (ULO 3).
3. Demonstrate written and oral communication skills at a level to succeed in the accounting profession (ULO 3).
4. Demonstrate ability to integrate their faith as it relates to the profession of accountancy and the community they serve (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Guidelines

Applications must be submitted through the Graduate Admissions Office. Candidates must:

1. Be a follower of the Lord Jesus Christ.
2. Students must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.

A completed application includes: a submitted application form, a personal statement, application fee (non-refundable), official transcripts from all undergraduate schools attended, a statement (no more than 2 pages) addressing your qualifications for acceptance to the MPAcc program (leadership potential, creative abilities, motivational aptitude) and your career goals, include a description of how participation in the MPAcc program will contribute to your growth and development toward those goals (this is included in the online application but must be submitted separately if you are completing the PDF application), GMAT Score (may apply for a waiver), and three references (pastor or church leader, academic, and employer or character).

Admission is competitive and based upon a committee review of each applicant's undergraduate grade point average, GMAT score, completed application, and an interview with the Crowell School of Business representative. Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

Admission of English Language Learners

This section applies to applicants for whom English is not a primary language. It is essential that applicants for whom English is not a primary language be able to understand directions and lectures in English and be able to express their thoughts clearly in spoken and written English. Preference in admission will be given to those with an overall score of at least TOEFL: 100 iBT or IELTS 7.5. The admissions committee will also require an oral interview and may require a writing sample.

The Crowell School of Business reserves the right to waive a retake of the TOEFL or IELTS test for MPacc applicants for whom English is not a primary language who already have a Biola Accounting degree. Waivers of this requirement will be evaluated in the applicant's interview with the Dean.

For more details on how, when, and where to take language tests, visit online:

- TOEFL (iBT) (http://www.ets.org/toefl/)
- IELTS (https://www.ielts.org/)
Language tests are administered only at specific times, so candidates for admission should inquire about testing dates well in advance of the date of anticipated school term in the US.

Students admitted to the United States on an F-1 student visa are required by law to be registered as full-time students (a minimum of 9 credits per semester). Additionally, no off-campus employment is permitted for students on an F-1 visa without written permission of the United States Immigration authorities.

Transfer Credit
Students transferring core classes from a regionally accredited graduate program may transfer a maximum of 6 credits. The courses transferred must be equivalent, have direct applicability to the student’s program, and be approved by the Dean. Only courses with a grade of ‘B’ (3.0) or higher will be considered for transfer toward the MPAcc degree; a grade of ‘B-’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Graduation Requirements
The Master of Professional Accountancy degree program has four distinct elements:

1. A common core of graduate accounting courses (27 credits).
2. A required theology course (3 credits).
3. An integration of theology with accounting ethics course (3 credits).
4. Completed an intercultural service project.

A total of 33 credits of graduate coursework is required for the Masters of Professional Accountancy. Those with 30 credits of college level bible/theology courses (and Torrey Honors graduates) may have their program reduced to 30 credits as they will not be required to take the required 3 credit theology course. A student must maintain a minimum 3.0 GPA to graduate, with no single grade lower than a ‘C’ (2.0) to graduate in their core program.

Because the length of the program is typically two semesters, students must meet with their advisor and Graduate Graduation Counselor in the Office of the Registrar in the first month of their final semester to declare intent to graduate (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

All students must take an exit exam in their last semester - consult Department for more information.

Degree Program
Thirty-three credits of graduate courses are required for all MPAcc degrees in the Crowell School of Business, which include 3 graduate credits of theology and 3 graduate credits of integration of theology with accounting ethics.

Students without an undergraduate degree in accounting or equivalent will require additional accounting leveling credits. Students without previous coursework in business leveling or accounting leveling courses listed in the catalog must fulfill these requirements no later than the semester before graduation from the MPAcc program if taken elsewhere. All students must earn a C or better in all business and accounting leveling courses or equivalents.

Total Credits 33

¹ Or other approved Talbot course
BUSN: Business Administration

BUSN 105 - Programming and Data Structures for Business Credits 3
This course presents object oriented and procedural software engineering methodologies in data definition and measurement, abstract data type, construction and use in developing screen editors, reports and other IS applications using data structures including indexed files. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 201 - Principles of Macroeconomics Credits 3
Macroeconomics: supply and demand analysis, fiscal and monetary policy, money and banking, international trade and the balance of payments. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 202 - Principles of Microeconomics Credits 3
An introduction to microeconomic analysis. Topics covered include consumer theory, the conduct of firms under competitive or monopolistic conditions, the causes and consequences of various market outcomes, and the role of government in regulating economic behavior. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 205 - Economic Principles Credits 3
Micro and macro economic theory with an emphasis on the application of this theory to current economic issues, including the study of those who developed the theory and their predecessors. Issues involving trade and finance among nations and their comparative economic systems will also be examined. Grade Mode: A.
Restriction(s): Must not be Business Administration (BUSN); and must be Undergraduate Level.

BUSN 211 - Principles of Accounting I Credits 3
Financial accounting concepts and techniques essential for all business majors and those seeking to learn the language of business; analyzing and recording transactions; preparation of financial statements; valuation and allocation procedures. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $10.

BUSN 212 - Principles of Accounting II Credits 3
Financial accounting for corporations; analysis of financial statements; international accounting issues; introduction to managerial accounting; product costing and cost allocation procedures; budgetary control and responsibility accounting; analysis and techniques for planning and managerial decision making. Grade Mode: A.
Prerequisite(s): BUSN 211.
Restriction(s): Must be Undergraduate Level.
Course Fee: $10.

BUSN 220 - Management Information Systems Credits 3
Students will study information systems, their design, implementation and contribution to management planning, decision-making and control. The impact of information systems on the personal and spiritual lives of students as well as their impact on broader society will also be covered. Students will learn relevant business software applications through hands-on lab assignments. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.

BUSN 229 - Personal and Family Finances Credits 3
Managing family finances; budgeting use of credit; borrowing money; saving methods; purchase of life, health, property and auto insurance; buying and renting property; taxes; buying securities; wills and estates. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 230 - Introduction to Marketing Credits 3
Introduction to the basic elements of modern marketing including the study of the marketing environment framework, target market, market segmentation, marketing ethics, and the marketing mix variables of product, promotion, price, public relations and place/distribution. Note(s): This course is intended for students that do not have marketing or marketing management as a concentration. Grade Mode: A.
Prerequisite(s): BUSN 190 or MATH 190.
Restriction(s): Must not be a Concentration in Business/Marketing (BUMK) or Marketing Management (BUMG); and must be Undergraduate Level.

BUSN 231 - Introduction to Marketing: Practical Application Credits 3
Introduction to the basic elements of modern marketing including the study of the marketing environment framework, target market, market segmentation, marketing ethics, and the marketing mix variables of product, promotion, price, public relations and place/distribution. It is designed to facilitate primary and secondary research to complete a target market project. Note(s): No substitutions or transfers will be allowed in place of this course; this course is intended for Marketing and Marketing/Management concentration students. Grade Mode: A.
Prerequisite(s): BUSN 190 or MATH 190.
Restriction(s): Must be Undergraduate Level.

BUSN 240 - Principles of Management Credits 3
Presents a conceptual overview of the principles of management. The functions of planning, organizing, leading and controlling are analyzed. The leader's perspective on creating competitive advantage in a global environment is related to the topics of diversity, ethics and social responsibility, human resources, corporate culture and organizational structure. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 243 - Fundamentals of Financial Planning Credits 3
This course will teach students the process of formulating, implementing, and monitoring financial decisions into an integrated plan that guides an individual or family to achieve their financial goals. A strong emphasis will be placed on formulating financial goals that are consistent with biblical truth. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
BUSN 301 - Business Writing and Case Analysis Credits 3
Provides an understanding of business communication and trains students to become effective written and oral communicators by imparting the fundamentals of style and strategy for typical business documents and developing critical thinking by means of case analysis and analytical reports. It is designed to 1) familiarize students with the techniques, strategies, and forms of writing used in the professional world; 2) teach students to use precise and persuasive language to achieve business goals; and 3) prepare students for communication in the workplace and in other business classes. Note(s): Passing this course will satisfy the Crowell School of Business Writing Competency Requirement (WCR); a student must receive a grade of ‘C’ or higher to pass this course; this course must be taken the first semester after the student is admitted into the Crowell School of Business; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 220, ENGL 100 or ENGL 112; and ENGL 113; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 306 - System Analysis and Design Credits 3
Students with information technology skills will learn to analyze and design information systems. Students will practice project management during team-oriented analysis and design of a departmental level system. Grade Mode: A.
Prerequisite(s): BUSN 105, BUSN 220; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 307 - Social Media, SEO and Digital Strategy Credits 3
An introductory course providing students with the media tools and grasp of marketing-related media theory needed for effective digital communications in businesses and organizations. Course content will cover the basic social media platforms and their uses from an organizational standpoint; Search Engine Optimization (SEO) tools and methods; and digital strategy for online advertising, analytics and website user trending. Upon completion, students will be equipped to create digital communication strategies, understanding the platforms and tools available along with methods to measure effectiveness for a variety of audiences. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 308 - Business Technology Practicum Credits 3
Under the guide of an instructor, students will learn how to design and build a personal computer, load an operating system, install software, and troubleshoot the associated problems. Students who have experience building a personal computer will be given the option of an alternative project. Grade Mode: A.
Prerequisite(s): BUSN 220; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 311 - Intermediate Accounting I Credits 3
Advanced treatment of cash-flow, funds-flow analyses, preparation of financial statements, income tax allocation, valuation, forecasts and cash reconciliation. Grade Mode: A.
Prerequisite(s): BUSN 212.
Restriction(s): Must be Undergraduate Level.

BUSN 312 - Intermediate Accounting II Credits 3
Advanced treatment of cash-flow, funds-flow analyses, preparation of financial statements, income tax allocation, valuation, forecasts and cash reconciliation. Grade Mode: A.
Prerequisite(s): BUSN 311.
Restriction(s): Must be Undergraduate Level.

BUSN 313 - Cost Accounting Credits 3
Cost accounting from a managerial, conceptual and technical viewpoint; product, labor, material and overhead costing; planning and control processes; and analytical procedures. Grade Mode: A.
Prerequisite(s): BUSN 311; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 314 - Federal Income Tax For Individuals Credits 3
An explanation of the federal income tax law as it relates to individuals. The tax structure is examined in light of its historical development with emphasis on problem solving. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 316 - Federal Income Tax For Partnerships, Corporations and Estates Credits 3
An explanation of the federal income tax law as it relates to partnerships and corporations. Estate taxes are reviewed with a historical perspective. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 317 - Accounting Information Systems Credits 3
The study of computer based systems for the collection, organization, and presentation of accounting information. Grade Mode: A.
Prerequisite(s): BUSN 311; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 318 - Human Resource Management Credits 3
A study of the relevant ideas and developments in the field of human resource management that permit organizations of all types to improve productivity, quality and service. EEO, staffing, training, compensation and labor relations are all emphasized. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 319 - Organizational Ethics Credits 3
The foundations and theories of ethics as related to the Bible, the market place, and the modern corporation. Case studies in modern ethics are discussed with a view to raising the moral consciousness of business professionals. Note(s): This course does not meet Core Curriculum requirements. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 320 - Human Capital Management Credits 3
Students will explore various issues of management, including the recruiting, selection, and development of employees while emphasizing human dignity, the overall purpose of work, fulfilling one's calling, and the methods of placing the students and others in their most effective roles in the organization through the determining of their God-given gifts and talents. Grade Mode: A.
Restriction(s): Must be Business Management (BMNG); and Undergraduate Level.

BUSN 323 - Business Analytics Credits 3
Students will be introduced to the concepts of business analytics. Topics will include business modeling, optimization techniques, advanced spreadsheet techniques, and data visualization. Grade Mode: A.
Prerequisite(s): BUSN 220, MATH 190; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
BUSN 327 - Production and Operations Management Credits 3
The study of the processes involved in the production and operations core of the for-profit and not-for-profit organization, making extensive use of computerized tools in statistical and mathematical tools to solve common production (product-based) problems, including techniques of quality management, and a consideration of Christian principles of servanthood in the production and operations management process. Grade Mode: A.
Prerequisite(s): BUSN 220; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
Course Fee: $10.

BUSN 328 - Organizational Behavior Credits 3
Understanding the dynamics of human interactions and developing effective problem solving through sound communications; leadership, management or conflict, change and innovation; business ethics and societal relationships. Note(s): Business Administration minors should see Crowell School of Business to add the course. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 334 - Promotions Credits 3
Introduction to the role of Promotion and Advertising as currently used for products, services, ideas and events. Understanding of the promotion mix including public relations, publicity and sales promotion. Grade Mode: A.
Prerequisite(s): BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 336 - Professional Selling Credits 3
An introduction to the profession of professional selling, and sales management. The choice of sales and sales management as a career will be discussed. Topics of interest include strategically planning each sales call within a larger account strategy, making the sales call, strengthening communications, responding helpfully to objections, obtaining commitment, and building partnerships. Sales force planning, organizing, management, territory development, selection, compensation, sales force effectiveness, and performance will also be analyzed and discussed. Grade Mode: A.
Prerequisite(s): BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 338 - Entrepreneurship Practicum Credits 3
Students will get real-world experience on a startup idea by participating in Biola's Startup Competition. Students will attend all Startup Competition events, be a part of a competing team, and will enter the event. Students will also examine past competitors, hear from past participants, and develop their pitch. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 339 - Estate Planning Credits 3
This course focuses on the components of estate planning which include property titling mechanisms, tax implications, types of trusts, wealth transfer strategies, and postmortem estate planning techniques. Throughout the course, the student will develop a comprehensive, biblical perspective of wealth within the context of estate planning and wealth transfer. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 342 - Retirement Planning Credits 3
This course focuses on analyzing client retirement and benefit needs, differentiating between retirement plans, evaluating the rules and tax implications of retirement plans, applying the Social Security system to the financial planning process, recommending retirement plans for businesses, and selecting suitable client investments. Throughout this course, the student will develop a comprehensive, biblical perspective of retirement and benefits planning. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 344 - Global Marketing Management Credits 3
Focus on the formulation of global marketing management strategies. Presents a conceptual overview of the world market environment, including issues related to culture and diversity. The managers' perspective is analyzed with regard to market entry methods and the various barriers that could impact international business. Grade Mode: A.
Prerequisite(s): BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 347 - Global Business Environment Credits 3
This course introduces the student to the various dimensions of the world economy and to the characteristics of foreign countries that are important for economic activity. Topics covered in the course include: 1) the fundamentals of international trade and finance; 2) the role of culture, religion and politics in international business; and 3) the role of multinational corporations in the world economy. Grade Mode: A.
Prerequisite(s): Business Administration (BUSN) and Accounting (ACCT) majors: Acceptance into the Crowell School of Business; all others, including Business Management (BMNG): BUSN 201, BUSN 202 or BUSN 205, and ENGL 112.
Restriction(s): Must be Undergraduate Level.

BUSN 350 - Money and Banking Credits 3
Nature, functions and flow of money and credit in the American economy and the world; analysis of commercial banking and U.S. monetary system. Grade Mode: A.
Prerequisite(s): BUSN 201; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 354 - Insurance and Tax Planning Credits 3
This course provides detailed coverage on the taxation of individuals and businesses, as well as the principles of risk and insurance. These topics will be analyzed through both an economic and biblical lens. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 355 - Advanced Business Statistics Credits 3
Prepares the student for working in the field of business analytics. Content includes a review of descriptive statistics; experimental design; ANOVA; linear and multiple regression; contingency table analysis; time series analysis; forecasting. Students will also work with a variety of software to analyze data. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
BUSN 361 - Business Law
The legal and regulatory environment of business including a survey of the legal system, torts, contracts, employment and labor law, business organizations, administrative law and the regulatory process. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business or Business Minor.
Restriction(s): Must be Undergraduate Level.

BUSN 364 - Entrepreneurship and New Venture Formation
Methods, problems and factors involved in launching and managing startup and new business ventures, all viewed through the lens of redemptive entrepreneurship. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 370 - Business Finance
An examination and evaluation of financial decision making in the Corporate environment valuing future cash flows, characterizing risk and return and evaluating options available to firms to finance their operations or fund growth opportunities. Students will learn how to analyze financial data to provide information to management on how to improve the financial performance of their firm. Grade Mode: A.
Prerequisite(s): BUSN 190 or MATH 190 or MATH 210, and BUSN 211; acceptance into the Crowell School of Business, Business minor, or Computer Science major.
Restriction(s): Must be Computer Science (CSCI) or Business Administration (BUSN); and Undergraduate Level.

BUSN 375 - Business as Mission
This course is an examination of the emerging role of business in missions. The general themes covered in this course include: 1) the theology of business as missions; 2) practical issues related to using business as a vehicle for cross-cultural missions; and 3) specific for-profit business models and case studies. By the end of the course the student will have a better understanding of the opportunities and challenges associated with integrating business and missions. Note(s): Business Administration minors should see Crowell School of Business to add the course. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 376 - Business as Ministry and Mission
This course will explore the place of business people within God’s kingdom program for history. It will draw primarily from the Book of Acts, with special attention given to the activity of the early church – and its current expression — in ministry and missions. Throughout the course, students will study contemporary examples of missonal businesses, and will conclude by creating and presenting their own idea for using business to advance the cause of Christ in a less-developed or less-evangelized country. Grade Mode: A.
Restriction(s): Must be Business Management (BMNG); and Undergraduate Level.

BUSN 392 - Principles of Advertising
Facts of advertising principles and techniques. The study of effective and ineffective forms of advertising. Applications linked to public relations, media events, marketing and communication encounters. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.

BUSN 402 - Database Management
Integrated database system, logical organization, data description language (DDL), data manipulation language (DML), hierarchical networks and relational databases, overview of selected database management systems (DBMS). Grade Mode: A.
Prerequisite(s): BUSN 105; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 403 - Digital Business
This course focuses on the linkage between organizational strategy and networked information technologies to implement a rich variety of business models in the national and global contexts connecting individuals, businesses, governments, and other organizations to each other. The course provides an introduction to digital business strategy and the development and architecture of digital business solutions and their components. Note(s): Business Administration minors should see Crowell School of Business to add the course. Grade Mode: A.
Prerequisite(s): BUSN 220; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 405 - MIS Project Management
Advanced IS majors operating as a high-performance team will engage in and complete the design and implementation of a significant information system. Project management, management of the IS function, and systems integration will be components of the project experience. Grade Mode: A.
Prerequisite(s): BUSN 306; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 407 - Computer Applications in Business
The study and application of spreadsheet and database software to business problems with an emphasis on problem solving and presentation techniques. Grade Mode: A.
Prerequisite(s): BUSN 212; BUSN 220; BUSN 230 or BUSN 231; BUSN 370; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
Course Fee: $20.

BUSN 410 - Customer Relationship Management
This course explores the increasing power of customers in the new millennium marketplace and the need for organizations to be customer-driven. The course explores rapid advancements in digital business technology and the capabilities of customer database software that enable firms to differentiate customers by value and anticipate best and most valuable customer’s needs. Grade Mode: A.
Prerequisite(s): BUSN 230 or BUSN 231; BUSN 240; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 411 - Advanced Accounting
Examines essential elements of corporate consolidations, branch and departmental accounting, international accounting, advanced partnership and fund accounting concepts. Grade Mode: A.
Prerequisite(s): BUSN 312; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
BUSN 412 - Auditing  
Introduction to standards and procedures which comprise the contemporary audit environment. Topics include ethics, legal liability, internal control, substantive evidence, and reporting. Course work includes comprehensive practice audit. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 312 (may be taken concurrently); acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 416 - Women in Leadership  
This course examines the status of women in management and discusses issues which women managers face, including differences in leadership styles, obstacles to advancement, and managing the challenges of women in leadership. The course also addresses themes of women in negotiations, communication styles, the work/life balance women seek, explores ways to leverage opportunities that arise, and discusses the critical effects of mentoring. **Grade Mode:** A.  
**Prerequisite(s):** Acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 418 - Consumer Behavior  
This course covers major influences on the consumption process, including psychological, situational, and socio-cultural factors. Relationships are explored between conscious and unconscious factors influencing consumers. Specific topics include perception, attitudes, customer value and satisfaction, motivation, personality, consumer culture, group influence, consumer decision-making perspectives, switching behavior and consumer loyalty. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 421 - Leadership and Change  
Students will examine leadership principles, theories, and best practices, reflect on their own personal leadership strengths and apply what they learn to real-life situations and organizational challenges to maximize influence. They will seek to answer questions such as: What is leadership? Which leadership styles are most effective? How do you get organizations and the people in them motivated to do what needs to be done? How do you leverage personal strengths to maximize influence? Can values-based leadership make a difference? Students will specifically examine servant leadership, modeled by Jesus and learn how to apply servant leadership within today's organizations to increase employee engagement and solve complex problems. Course modules include Leading Self, Leading Others, Leading Teams, Leading Change and Leading Innovation/Creativity. Students will develop a personal leadership brand through experience, reflection and self-assessment to empower them on their career journey. **Grade Mode:** A.  
**Prerequisite(s):** Acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 422 - High-Performance Leadership  
Students will examine leadership principles, concepts and theories that will allow them to reflect on their own leadership styles and apply what they learn to real-life situations and organizational challenges consistent with a Christian worldview. **Grade Mode:** A.  
**Restriction(s):** Must be Business Management (BMNG); and Undergraduate Level.

BUSN 423 - Advanced Business Analytics  
This course will continue to prepare students for a career in business analytics. Using case studies, students will synthesize and apply a variety of business analysis methodologies. Students will learn needed database concepts, data mining methods, and other digital technologies needed to work with large, unstructured data sets. **Grade Mode:** A.  
**Prerequisite(s):** CSCI 105, BUSN 323; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 425 - Marketing Research  
Understanding the role of marketing research in management decision-making. Project approach to the marketing search process of secondary research, focus groups and survey preparation, collection and analysis. Preparation of written research reports. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 220, BUSN 231; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 432 - Marketing Research  
A practical approach to understanding and implementing marketing strategies as applied to the business sector. Special attention will be given to examination of various marketing employment positions including analysis of the following subjects: purchasing, negotiating, marketing research, market segmentation, personal selling, sales management, promotion and ethics in the business to business marketing environment. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 220, BUSN 231; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 435 - Business to Business Marketing  
A practical approach to understanding and implementing marketing strategies as applied to the business sector. Special attention will be given to examination of various marketing employment positions including analysis of the following subjects: purchasing, negotiating, marketing research, market segmentation, personal selling, sales management, promotion and ethics in the business to business marketing environment. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 220, BUSN 231; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 437 - Real Estate  
Laws relating to rights and obligations inherent in ownership of real property; how title to real property is transferred; homesteads, trust and deeds, liens; land descriptions; escrow procedures; title insurance, and the real estate broker. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 361; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 438 - Marketing for Non-Profit Organizations  
Examination and evaluation of the principles of basic marketing as applied to the non-profit sector. Philosophy of non-profit marketing and its practical application will be utilized through individual student projects. Specific marketing strategies will relate to churches, service organizations, foundations and other designated non-profit organizations. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 432; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.

BUSN 442 - International Finance  
In this course, students explore the international financial environment, including international financial markets and international flow of funds. Other topics include exchange rate behavior and risk management, financing international trade, international cash management, direct foreign investment, multinational capital budgeting, and country risk analysis. **Grade Mode:** A.  
**Prerequisite(s):** BUSN 370; acceptance into the Crowell School of Business.  
**Restriction(s):** Must be Undergraduate Level.
BUSN 443 - International Supply Chain Management  Credits 3
This course introduces the concept of global supply chain management and evaluates the core fundamentals of logistics within commerce. Topics include the activities of supply chain management, types of supply chains, the relationship between domestic and foreign goods, logistical efficiency and optimizations, strategic positioning, environmental factors, and cost maintenance.  
Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 450 - Directed Studies  Credits 1-4
Extensive exploration of the literature in a selected field of business or economics under faculty guidance. Note(s): May be taken multiple times with different content. Grade Mode: A.
Prerequisite(s): May vary by topic; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

BUSN 453 - Website Development for Marketing  Credits 1-3
Purpose of course is to learn and immediately apply practical technological skills that are necessary in developing an effective and efficient website. Topics may include website research and proposal; web page design and development; internet graphics. Note(s): Individual credits satisfied by five-week modules. Grade Mode: A.
Prerequisite(s): BUSN 220; BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 455 - Internet Marketing  Credits 3
The study and development of marketing tools for competing effectively in the Internet economy, including marketing issues that managers must address as they consider how to develop successful commercial strategies on the web and other emerging electronic media. Views the web as a channel of information distribution, and increases understanding of the nature of the Internet, its culture, and issues related to flow, stickiness, navigation, inter-activity, addressability, trust and privacy. Topics include marketing research, consumer behavior, customer service, advertising, positioning and web economics. Teaching methods include class lecture, readings, guest speakers, case studies, on-line activities and a web-based marketing project. Grade Mode: A.
Prerequisite(s): BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 460 - Business Internship  Credits 3
An academic internship represents an educational strategy that links classroom learning and student interest with the acquisition of knowledge in an applied work setting. Through direct observation, and reflection, students gain an understanding of the internship site's work, mission, and understanding of their customers. Students will relate their internship experience to their academic study, as well as the organization's position in the broader industry or field. Students will produce a critical reflection on their internship experience demonstrating how they have addressed specific learning goals. Note(s): Students must complete 200 hours of internship within the term that they are enrolled; an online application must be approved prior to registration; may be taken more than once for credit. Grade Mode: A.
Prerequisite(s): Approved proposal.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

BUSN 462 - Investments  Credits 3
Principles for the individual investor; tests of a sound investment, information sources; types of stocks and bonds; mechanics of purchase and sale. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

BUSN 463 - Advanced Corporate Finance  Credits 3
Advanced analysis of the management of long-term assets, debt and equity, including capital acquisitions. Some attention to shorter term management of inventory and payables. Grade Mode: A.
Prerequisite(s): BUSN 370; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 466 - Financing the Entrepreneurial Venture  Credits 3
This course will examine the various sources of funding available to start-ups, including friends and family, crowdfunding, commercial lending institutions, angel investors, venture capitalists, and various governmental programs. The Initial Public Offering (IPO) process is also examined as a means for accessing public capital markets and growing the business. Grade Mode: A.
Prerequisite(s): BUSN 370.
Restriction(s): Must be Undergraduate Level.

BUSN 470 - Strategic Management  Credits 3
How to determine strategic direction in organizations. Core studies and projects provide practical application of principles, with projects designed to provide actual research experience, with case study approach. Grade Mode: A.
Prerequisite(s): BUSN 230 or BUSN 231; acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.

BUSN 471 - Capstone for Entrepreneurship Concentration  Credits 3
As the capstone for the Entrepreneurship Concentration, this course will explore advanced and current topics in the formation and financing of new business ventures. Students will complete an academic service learning project, field study, or other experiential project related to their future career interests, complete an E-Portfolio including career preparation materials, and prepare to launch their own business venture. No substitutions or transfers will be allowed in place of this course.
Note(s): Offered in Spring term; passing this course with a 'C' or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 338, BUSN 364; acceptance into the Crowell School of Business.
Restriction(s): Must be Entrepreneurship (BUEN); and Undergraduate Level.

BUSN 475 - Strategic Management  Credits 3
An academic internship represents an educational strategy that links classroom learning and student interest with the acquisition of knowledge in an applied work setting. Through direct observation, and reflection, students gain an understanding of the internship site's work, mission, and understanding of their customers. Students will relate their internship experience to their academic study, as well as the organization's position in the broader industry or field. Students will produce a critical reflection on their internship experience demonstrating how they have addressed specific learning goals. Note(s): Students must complete 200 hours of internship within the term that they are enrolled; an online application must be approved prior to registration; may be taken more than once for credit. Grade Mode: A.
Prerequisite(s): Approved proposal.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.
BUSB 472 - Capstone for International Business Concentration Credits 3
This is the capstone course for the international business majors. Students will be expected to apply principles and skills learned previously into the design of a business plan. Students will learn to identify and screen potential international business ideas, and develop an idea into an opportunity for generating financial, social and spiritual returns. There will also be a focus on career preparation and finishing the E-Portfolio. The student's E-Portfolio must demonstrate completion of the cross-cultural/overseas experience required of all International Business concentration students. Note(s): Completion of international experience requirement; passing this course with a 'C' or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 323, BUSN 347; acceptance into the Crowell School of Business.
Restriction(s): Must be a Concentration in International Business (BUIB); and Undergraduate Level.
Course Fee: $25.

BUSB 473 - Capstone for Management Concentration Credits 3
As the capstone for management concentration students, this course will explore advanced and current topics in management. Students will complete an academic service learning project, field study, or other experiential projects related to their future career interests. Students will complete an E-Portfolio including career preparation materials, demonstrate the ability to apply the principles and practice of ethical and responsible business behaviors consistent with biblical leadership models. Note(s): Passing this course with a 'C' or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 323, BUSN 347, BUSN 421; acceptance into the Crowell School of Business.
Restriction(s): Must be a Concentration in Business/Management (BUMN); and Undergraduate Level.
Course Fee: $25.

BUSB 474 - Capstone for Marketing Concentration Credits 3
As the capstone course for marketing majors only (to be taken the last spring of college), emphasis will be placed on exploring a holistic approach to the marketing decision making process through working with local, real world clients in a group marketing project. There will also be a focus on career preparation such as choosing an industry, developing LinkedIn pages, preparing resumes, sharpening interviewing skills and finishing E-Portfolio. Note(s): Passing this course with a 'C' or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 323, BUSN 432, BUSN 435; acceptance into the Crowell School of Business.
Restriction(s): Must be a Concentration in Business/Marketing (BUMK); and Undergraduate Level.
Course Fee: $25.

BUSB 475 - Capstone for Marketing Management Concentration Credits 3
As the capstone for marketing management concentration students, this course will explore advanced and current topics in both marketing and management. Students will complete an academic service learning project, field study, or other experiential projects related to their future career interests, develop an E-Portfolio including career preparation materials, research and write a marketing plan, and examine their own calling to integrate their faith in Jesus Christ to their future career. Note(s): Passing this course with a 'C' or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 323, BUSN 347; acceptance into the Crowell School of Business.
Restriction(s): Must be a Concentration in Business Management (BMNG).
Course Fee: $25.

BUSB 476 - Capstone for Business Analytics Concentration Credits 3
As the capstone for Business Analytics concentration students, this course will explore advanced and current topics in the use of data for business decision-making. Students will complete an academic service learning project, field study, or other experiential project related to their future career interests; complete an E-Portfolio including career preparation materials; and demonstrate their ability to apply the principles and practice of ethical and responsible management of data. Note(s): Passing this course with a 'C' or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 323, BUSN 423; acceptance into the Crowell School of Business.
Restriction(s): Must be a Concentration in Business Analytics (BUAN); and Undergraduate Level.
Course Fee: $25.

BUSB 477 - Capstone for Financial Planning Credits 3
This course synthesizes the principles and practices of financial planning. Students will create a comprehensive financial plan that considers the fundamentals of financial planning, risk management, income tax, retirement, employee benefits, investment, and estate planning. Students will also integrate biblical principles of leadership, discipleship, stewardship, decision-making, question-asking and goal-setting involved in the financial planning process. Grade Mode: A.
Prerequisite(s): BUSN 354, BUSN 462, and BUSN 339 or BUSN 342.
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.

BUSB 478 - Capstone for Business Management Credits 3
As the capstone course for students in the BS, Business Management program, this course will explore advanced and current topics in management. Societal and biblical understandings of work and of human nature as it relates to work; the role of the Christian in the workplace. Students will complete a project related to career planning. Note(s): No substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 318, BUSN 319, BUSN 328, BUSN 347, BUSN 361, BUSN 370, BUSN 375, BUSN 421.
Restriction(s): Must be Business Management (BMNG); and Undergraduate Level.
BUSN 479 - Capstone for Financial Management Concentration Credits 3
As the capstone for financial management concentration students, this course will explore advanced and current topics in finance and management. Students will complete an academic service learning project, field study, or other experiential project related to their future career interests, complete an E-Portfolio including career preparation materials, demonstrate the ability to apply the principles and practice of ethical and responsible business behaviors consistent with biblical leadership models. Note(s): Passing this course with a “C” or better will satisfy the Crowell School of Business E-Portfolio Competency Requirement; no substitutions or transfers will be allowed in place of this course. Grade Mode: A.
Prerequisite(s): BUSN 323, BUSN 421, BUSN 462, 463; acceptance into the Crowell School of Business.
Restriction(s): Must be a Concentration in Financial Management (BUFM); and Undergraduate Level.
Course Fee: $25.

BUSN 480 - Non-Profit Management Credits 3
Examination and evaluation of the principles of business strategies applied to the non-profit sector. Practical application will be utilized through individual student projects that require an assessment and respective strategies for vital aspects of a non-profit organization. Grade Mode: A.
Prerequisite(s): BUSN 240.
Restriction(s): Must be Undergraduate Level.

BUSN 490 - Seminar in Current Business Topics Credits 1-3
Selected current business topics, varied by semester. Students will be responsible to read preparatory materials and then demonstrate their learning through one or more methods. Note(s): May be taken multiple times with different content. Grade Mode: A.
Prerequisite(s): Acceptance into the Crowell School of Business.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 3.

MBAD: Business Administration

MBAD 502 - Digital Tools for Business Credit 1
Students will learn how to use leading business technology tools to analyze and resolve business problems in a laboratory setting. Students will learn how to utilize information systems to provide solutions that will be useful for managerial decision-making. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 506 - Marketing from the Management Perspective Credits 3
Students learn to manage the marketing process in the context of the firm’s strategies and objectives. Topics include analyzing marketing opportunities, selecting target markets, developing marketing strategies, planning marketing programs, budgeting the marketing program, and implementing and controlling the marketing effort. Students will also be introduced to economic principles that affect marketing decisions. Throughout the course students will reflect on biblical and ethical issues in marketing, and how they potentially affect the marketing management process. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 507 - Economic Fundamentals Credits 3
This overview course is an introduction to the basic tools and principles of economics. Topics include supply and demand theory, theory of consumer behavior, industrial organization, income distribution, market failure, business cycles, monetary and fiscal policy, and international trade. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 508 - Business Law Credits 3
This course will examine the legal and regulatory environment of business including an overall survey of the legal system, torts, contracts, criminal law, employment and labor law, business organizations, international law, as well as ethics and biblical principles and their relationship to and interaction with legal principles. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 516 - Accounting and Finance for Decision Makers Credits 3
The objective of this course is to provide students with an opportunity to understand the complex accounting and financial data they will receive as operating managers. In particular, students will learn how to use the data as an effective management tool for coordinating managerial and organizational activities. Financial accounting, managerial accounting, and financial management are covered with consideration of international, economic and legal issues. Students also consider the nature of numerical analysis as a description of reality, giving rise to ethical and other biblical issues of interpretation. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 550 - Business Internship Credits 1-3
Business work experience related specifically to field of study, under guidance of the faculty. A proposal describing learning objectives, collateral reading and expected benefits must be submitted and accepted by a supervisor and instructor at the time of registration. Note(s): An Add/Drop Slip and Arranged Course Form must be obtained in the Crowell School of Business. Grade Mode: A.
Prerequisite(s): Approved proposal.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 601 - Intensive: Group Dynamics Credit 1
This intensive course consists of a weekend session that is used to initiate the program. Students will learn the importance of highly productive teams in the modern innovative organization, and will experience how to build a productive team. The learning that takes place here will be used and amplified in the students’ future coursework. Students will also be introduced to how a biblical worldview equips the Christian to follow Christ in the workplace. Another important part of the weekend is the introduction of the Master of Business Administration Mentor Program, along with the outstanding individuals who have been selected, and have chosen, to serve as mentors. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.
Course Fee: $100.
MBAD 604 - Organizational Financial Policy Credits 3
An examination and evaluation of financial decision making in the corporate environment: valuation of future cash flows, characterization of risk and return and evaluation of options available to firms to finance their operations or fund growth opportunities. Students will learn how to analyze financial data to provide information to management decision makers on how to improve the financial performance of their firms and make the best capital investment decisions. Grade Mode: A.
Prerequisite(s): MBAD 516 required unless waived through undergraduate coursework.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 605 - Advanced Financial Management and Control Credits 3
This course examines the means for achieving control while exploring improvement alternatives. Topics such as financial statement analysis, budgeting, tax issues, restructuring, reengineering, and current topics in financial management are discussed. Learning focuses on the methods used by managers to guide employee actions in ways that are both financially and biblically appropriate. Grade Mode: A.
Prerequisite(s): MBAD 516 required unless waived through undergraduate coursework.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 608 - Marketing Strategy Credits 3
This course is designed to provide students with an analytical framework to conduct (1) marketing planning and strategy, (2) market definition and measurement, and (3) the management and control of marketing programs. The primary objectives of this course are two-fold: (1) provide an environment where each student can develop the necessary professional skills for a successful career in marketing management; and (2) encourage analytic and strategic thinking about marketing programs. Using business-related tenets of economics, students will also learn how to apply economic principles to strategic decision-making. Grade Mode: A.
Prerequisite(s): MBAD 506 required unless waived through undergraduate coursework.

MBAD 610 - Business Intelligence and Data Analysis Credits 3
Students will understand the role that digital technologies and statistical analysis play in the competitive advantage of a business. Includes a review of basic business statistics concepts. Students will work with the latest technologies and methods used for corporate decision-making in a laboratory environment and then apply the results to real-world situations. Note(s): Online coursework in Information Systems and Statistics required through Ivey Software with a passing grade of 74% or above unless waived through undergraduate coursework. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 611 - Management Theory and Practice Credits 3
This course focuses on the development of managerial skills to enhance personal and organizational effectiveness. Students will examine and critique academic articles, professional literature and business cases related to personal and organizational productivity, operations management, human behavior in organizations, leadership and general management. Students will be required to reflect deeply upon the meaning of managerial effectiveness and will further be expected to challenge their own practices in light of these lessons. Special attention will be placed on the development of one’s personal faith and a biblical perspective of management. Grade Mode: A.
Restriction(s): Must be Graduate Level.

MBAD 613 - Biblical Management and Ethics Credits 3
Within the context of Scripture, philosophical and ethical principles are identified, discussed, and applied to business problems and situations including the organization’s obligation to the individual and to society, and the individual’s responsibility to the organization. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 620 - Social Entrepreneurship Credits 3
This course examines the historical and re-emerging role of business in world missions. Attention will be given to (1) the theology of work, business and 'business as mission', and (2) the practical issues related to creating and managing a business that advances the cause of Christ at home or abroad. Students will also develop and present to class their own ideas for a Business as Mission company. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 625 - Organizational Change and Leadership Credits 3
This course is designed to teach students how to create and manage change for productivity, through individual and group leadership. Students will study traditional and cutting-edge methods for initiating and supporting innovation in new and existing organizations, as well as pitfalls to avoid. The crucial role of leadership in the change process will be examined, and opportunities for experience in innovation and change will be made part of class time and assignments. Students will also study significant variables that influence organizations and individual effectiveness necessary for developing effective leadership in the contemporary workforce while examining the role of change from a biblical perspective. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 633 - Managing Emerging Enterprises Credits 3
This course focuses on the techniques used to create and evaluate new concepts and business opportunities. Students study the process of feasibility analysis of business ventures from the time of concept generation through critical concept analysis, opportunity screening and pre-feasibility analysis, to the development of the written business plan. The goal is to prepare students for starting and running successful or emerging enterprises, or to employ an entrepreneurial mindset in any organizational setting. Grade Mode: A.
Prerequisite(s): MBAD 604, MBAD 611; and MBAD 506 or MBAD 608.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 640 - Current/Advanced Topics in Business Credits 1-3
Elective course in such topics as advertising and social media, negotiation and conflict management for the change agent, and practical leadership theory. Note(s): May be repeated with a different topic. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 1.

MBAD 644 - Nonprofit Management Credits 3
The study of the management principles, concepts, and practices in nonprofit organizations. Topics include the development of mission statements, success measures, organization structure, stakeholder management, promotion, fundraising, and strategic decision-making. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.
MBAD 650 - Current/Advanced Topics in Business Credits 1-3
In-depth investigation of a topic under the guidance of the faculty.
Note(s): Special approval required. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 675 - Management Strategy Credits 3
This course focuses on the requirements for building and sustaining a competitive advantage through strategic management, both within existing businesses and new business start-ups. Students will discover that all business projects and initiatives benefit from strategic thinking as they develop an awareness of the range, scope and complexity of the issues and problems related to the strategic management of an organization's resources and capabilities. A strategic planning model will be introduced in the class and students will use the model to create a strategic plan for an existing business or new idea. Students will develop insight into the skills necessary to be an effective general manager through a business simulation project. Students will also explore the biblical implications of strategic management. Grade Mode: A.
Prerequisite(s): MBAD 604, MBAD 605, MBAD 608, MBAD 609, MBAD 610, MBAD 611, MBAD 620, MBAD 625; MBAD 633 (or MBAD 630 and MBAD 635).
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MBAD 685 - Capstone: Nonprofit Organizations Credits 3
This course ties together all of the materials covered in the Master of Management in Nonprofit Organizations program. Students will complete a field study project that demonstrates their understanding of business concepts with the unique challenges that faith-based and nonprofit organization brings. Grade Mode: A.
Prerequisite(s): MBAD 644.
Restriction(s): Must be Master of Mgmt Nonprofit Orgs (MMNP); and Crowell School of Business; Graduate Level.

MBAD 999 - Degree Program Completed Credits 0
Grade Mode: N.

MPAC: Professional Accountancy

MPAC 511 - Intermediate Accounting I Credits 3
Advanced treatment of cash-flow, funds-flow analyses, preparation of financial statements, income tax allocation, valuation, forecasts, and cash reconciliation. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 512 - Intermediate Accounting II Credits 3
Advanced treatment of cash-flow, funds-flow analyses, preparation of financial statements, income tax allocation, valuation, forecasts, and cash reconciliation. Grade Mode: A.
Prerequisite(s): MPAC 511.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 513 - Cost Accounting Credits 3
Cost accounting from a managerial, conceptual and technical viewpoint; product, labor, material and overhead costing; planning and control processes; and analytical procedures. Grade Mode: A.
Prerequisite(s): MPAC 511.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 516 - Federal Income Tax for Partnerships, Corporations and Estates Credits 3
An explanation of the federal income tax law as it relates to partnerships and corporations. Estate taxes are reviewed with a historical perspective. Grade Mode: A.
Prerequisite(s): MPAC 511.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 517 - Accounting Information Systems Credits 3
The study of computer based systems for the collection, organization, and presentation of accounting information. Grade Mode: A.
Prerequisite(s): MBAD 502, MPAC 511.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 522 - Advanced Accounting Credits 3
Examines essential elements of corporate consolidations, branch and departmental accounting, international accounting, advanced partnership and fund accounting concepts. Grade Mode: A.
Prerequisite(s): MPAC 512.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 523 - Auditing Credits 3
Introduction to standards and procedures which comprise the contemporary audit environment. Topics include, ethics, legal liability, internal control, substantive evidence, and reporting. Course work includes Comprehensive practice audit. Grade Mode: A.
Prerequisite(s): MPAC 512.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 526 - Ethics in Accounting Credits 3
Ethical issues and standards in the accounting profession. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 529 - Government and Nonprofit Accounting Credits 3
Principles of fund accounting as it is applied to governmental and other flow-through entities. Grade Mode: A.
Restriction(s): Must be Master of Mgmt Nonprofit Orgs (MMNP); and Crowell School of Business; Graduate Level or Doctoral Level.

MPAC 603 - Issues in Financial Accounting Credits 3
Advanced and current issues in financial accounting and reporting, including professional pronouncements. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 614 - Advanced Taxation of Business Entities Credits 3
Advanced federal taxation concepts of corporations, partnerships, and estates.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 617 - Accounting Research and Communication Credits 3
Accounting literature research with the use of technology and the communication of the findings in written and oral formats. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 626 - Ethics in Accounting Credits 3
Ethical issues and standards in the accounting profession. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

MPAC 629 - Government and Nonprofit Accounting Credits 3
Principles of fund accounting as it is applied to governmental and nonprofit entities as well as the fundamentals of nonprofit taxation. Grade Mode: A.
Restriction(s): Must be Crowell School of Business; and Graduate Level or Doctoral Level.

ROSEMEAD SCHOOL OF PSYCHOLOGY

Mission

The Rosemead School of Psychology of Biola University, in addition to its undergraduate program, offers graduate work leading toward the Doctor of Psychology (Psy.D.), and the Doctor of Philosophy (Ph.D.) degrees in clinical psychology. Rosemead’s doctoral programs are accredited by the: Commission on Accreditation of the American Psychological Association 750 First Street NE Washington DC 20002-4242 (202) 336-5979.

Consistent with the mission of Biola University, both Ph.D. and Psy.D. programs seek to fulfill the following mission:

The mission of Rosemead School of Psychology is to produce graduates who can integrate the science and practice of psychology with Christian theology, and who are prepared to meet the psychological needs of the world in general and the Christian community specifically through professional service and scholarship.

Training Models in Clinical Psychology

In the past 40 years there has been discussion and debate by psychologists over appropriate training models and degrees in clinical psychology. During the 1950s and 1960s, most doctoral training in psychology followed the scientist-practitioner model and culminated in the awarding of the Ph.D. These programs were designed to train scientifically oriented researchers and professionals.

During the 1960s and 1970s the need for training programs with stronger professional orientations became apparent. Institutions like the University of Illinois, the California School of Professional Psychology, the University of Denver, Baylor University, Rutgers University and the Rosemead Graduate School of Psychology were among the first to offer programs designed explicitly to provide doctoral training following either a practitioner-scholar or scholar-practitioner model of training.

Without rejecting the need for training in the basic science areas of psychology, these programs began placing proportionately greater emphasis on the professional aspects of training. After four decades of discussion, debate and innovation, graduate training programs in clinical psychology now cover a broad range of emphases from highly professional to highly scientific.

While both programs are designed to produce well-trained and competent practitioners, there is a different emphasis placed on research vs. practice in the two programs.

Ph.D. Training Model: Scholar-Practitioner

Research Emphasis. The Ph.D. program requires a masters level thesis, additional courses in research, and a dissertation (including a proposal, data colloquium, and oral defense). This enhances the research preparation of Ph.D. students.

PsD. Training Model: Practitioner-Scholar

Practitioner Emphasis. The Psy.D. program requires additional psychotherapy lab courses, an additional assessment course, and additional semester hours of practicum. This enhances the clinical preparation of Psy.D. students.

Bold denotes different training emphases between the two doctoral programs.

Within this focus students are admitted to either the Psy.D. or the Ph.D. program. Approximately 67% of Rosemead’s students are enrolled in the Psy.D. and 33% in the Ph.D. Except in unusual circumstances, students do not change programs after admission.

While both the Psy.D. and Ph.D. have a common core of basic science and clinical courses, students selecting Rosemead’s Psy.D. are generally preparing for full-time positions as psychological practitioners. Those choosing Rosemead’s Ph.D. are interested in combining clinical work with other psychological competencies, such as teaching and research. Research training in Rosemead’s Ph.D. program is strong in selected areas of ongoing faculty research. Thus the Ph.D. is particularly appropriate for students who desire both to develop quality clinical skills and to develop research skills related to clinical practice.

### Program Characteristics

The two full-time programs (Psy.D. and Ph.D.) are very similar with regard to cost, time to completion, attrition, and internship placement. Specific information regarding tuition and fees may be obtained in the Financial Information (p. 15) section of this catalog or on the Rosemead (http://www.rosemead.edu/) website. Scholarships, grants, loans, and teaching assistantships are available to Rosemead graduate students. Some of these are need-based (e.g., grants); some of them are competence-based (e.g., teaching assistantships). If you would like to apply for financial support, visit the Financial Aid (http://offices.biola.edu/finaid/grad/) website.

Most students complete their program in five (54%) or six (30%) years (Mean = 5.7, Mdn = 5). About 35% of the doctoral students in each program elect to spread coursework across five years rather than completing it in four. A few students (10%) finish in seven years; and a very few (6%) take longer than seven years to complete all degree requirements. Across the past ten years, the attrition from each program (i.e., students leaving the program before graduation for any reason: changed field of study, personal events) has been 14%. About 5% of students leave their program due to poor performance.

Rosemead students compete very well in the national system of internships in clinical psychology. The internship is a year of full-time training in a professional psychology role that comes after all coursework is complete. All of our students who complete the eligibility requirements obtain an internship. In the past ten years we have placed 116 Psy.D. students and 74 Ph.D. students in internships. Of these, 97% were placed in an internship of their choice in the first year they applied, the other 3% chose to wait another year for the internship they wanted. The Ph.D. interns obtained APA-accredited internship at a slightly higher rate (88%) than did the Psy.D. interns (77%) because of the differences in their career goals and aspirations. In most of the internships (99%), the students received funding from the internship agency. A very few students (1%) obtained internships arranged on a two-year, half-time schedule. Some of the internship agencies are in the Southern California area, but many of them are in other reputable institutions across the country (see Practicum and Internship Agencies listing). The internship experience greatly enriches the professional development of the Rosemead students and prepares them for the next step in their careers.

### Additional Educational Opportunities

#### Training and Research Facilities

Rosemead maintains an outpatient psychological service and training center on the Biola campus. The clinic offers a wide range of psychological services to adults and children. It also provides on-campus

Specific competencies flow from the program goals and objectives, and these are available for review and are provided to students in the Rosemead Student Handbooks.

### Degrees Offered

#### Master of Arts

A master’s degree is awarded as a student progresses in the doctoral program.

#### Doctor of Psychology and Doctor of Philosophy

Rosemead’s doctoral programs in clinical psychology are designed primarily to train practitioners in professional psychology. They are designed for students interested in pursuing careers in applied areas of clinical psychology. While all students receive training in the basic areas of scientific psychology relevant to the practice of psychology, the focus of Rosemead’s doctoral training is on the development of professional skills and the utilization of theory and research in professional practice. Within this focus students are admitted to either the Psy.D. or the Ph.D. program.
training opportunities for students. The clinic is equipped with video-recording facilities for case observation.

Students also receive supervised clinical experiences in a variety of practicum placements in the Greater Los Angeles Area. These agencies present students with opportunities to work with clinical professionals in a variety of therapeutic orientations serving a broad range of diverse populations. The agencies that regularly train Rosemead students-surrounding school districts; community mental health centers; child, adolescent and adult treatment centers; outpatient clinics; and private and public psychiatric hospitals-ensure that Rosemead students will gain a breadth of clinical experience in professional settings working with diverse populations. Students receive both supervision at their training sites and additional clinical consultation on campus with Rosemead faculty. The on-campus supervision ensures an integration of classroom training and field experience. Recent and current practicum agencies are listed later in this catalog.

Biola has a commitment to academic computing which provides substantial computing resources for Rosemead students and faculty. The Biola library and the School of Business have Instructional Labs that are available to graduate students for computer usage. There are also a number of smaller departmental labs on campus dedicated to students of their respective majors. Further, Biola benefits from a wireless network across campus.

### Academic and Clinical Consultants

As a professional school located in a large metropolitan area, Rosemead utilizes the services of a number of persons from the larger professional community in its academic and clinical programs. Whether as part-time faculty or as consultants, this roster is multidisciplinary and enables Rosemead to enrich its training programs. Academic and clinical consultants do not serve as advisors to Rosemead students or chairpersons of dissertation committees but they do participate in other academic or consultation activities. The following professional persons are either currently or recently involved in some aspect of Rosemead's academic or clinical programs:

- **Malcolm B. Dick, Ph.D.**
  University of South Carolina: Cognitive Psychology
  University of California Irvine Alzheimer Disease Center

- **Marie Hoffman, Ph.D.**
  Brookhaven Institute for Psychoanalysis and Christian Theology
  Private Practice

- **Easter Dawn Vo-Jutabha, Ph.D.**
  Clark University
  The Guidance Center

- **Jody A. Ward, Ph.D.**
  Rosemead School of Psychology
  Drug and Alcohol Abuse; Private Practice

- **J. William Worden, Ph.D., ABPP**
  Boston University
  Rosemead School of Psychology Faculty Emeritus
  Grief and Trauma; Private Practice

### Distinctives

Rosemead's major educational distinctives are its strong professional training orientation and its goal of relating the data and concepts of psychology to those of Christian theology. Since both psychology and theology address the human condition, Rosemead's faculty believes there is a great deal to be gained by an interdisciplinary study of the nature of persons. Consequently, all students take a series of theology courses and integration seminars designed to study the relationship of psychological and theological conceptions of human functioning. This series of courses lengthens Rosemead's doctoral program by approximately one year beyond most four-year clinical programs.

While recognizing that the disciplines of psychology and theology have some very different data and methodologies, their overlapping content, goals and principles provide a rich resource for interdisciplinary study. Issues growing out of these overlapping concerns cover a range of topics relating to research, theory and clinical practice. By encouraging this study, Rosemead is attempting to train psychologists with a broad view of human nature that includes sensitivity to the religious dimension of life. Through its interaction with members of the Christian community, Rosemead is also committed to demonstrating to the church the potentially significant contributions an understanding of the data and methods of psychology can make to the Church's role of ministering to the whole person.

### Family/Child

Students desiring to focus their professional practice on children, couples or families may take the following elective courses in addition to the regular doctoral requirements:

- Family Psychology and Psychopathology
- Marriage and Family Therapy
- Child and Adolescent Therapy
- Attachment-Based Psychoanalytic Therapy
- Couples Therapy

It is suggested that students concentrating in Family-Child Psychology also write their dissertations or doctoral research papers in a family-child area, gain experience with their children and families in their practicum settings, and complete an internship in a setting where at least one third of their work is with a family-child population. They may also elect other courses that have connections to family therapy such as Human Sexuality or Group Psychotherapy.

### Professional Growth and Training

At the heart of an effective training program in professional psychology is the opportunity to develop the personal insights and skills necessary for empathic and effective interaction in a wide range of settings. In order to meet this need, Rosemead has developed a sequence of experiences designed to promote personal growth and competence in interpersonal relationships as well as specific clinical skills.

Beginning in their first year of study, students participate in a variety of activities designed to promote professional awareness and personal growth. The first year activities include active training in empathy skills and on-campus pre-practicum experience. The pre-practicum course consists of exercises to assess and facilitate interpersonal skills, and the initial opportunity for the student to work with a volunteer college client in a helping role.

During the second year, students participate in didactic training therapy. As participants, students personally experience some of the growth-producing aspects of interpersonal relationships.
This therapy is designed to give the student first-hand experience in the role of a client and is considered an opportunity for both personal growth and for learning therapeutic principles and techniques. A minimum of 50 hours of individual training therapy are required. Such issues as timing, choice of therapist and specific goals are determined by students in conjunction with their advisors and the Clinical Training Committee.

In addition, students begin their formal practicum and psychotherapy lab courses in the second year. Students are placed at both the Biola Counseling Center and in approved public school settings. These practicum experiences are supervised both by Rosemead’s faculty and qualified professionals working in the practicum agencies. In the psychotherapy lab courses, students receive both instruction and supervised experience, offering clinical services from the theoretical orientation of the course. Over the course of the program, students elect lab courses from offerings such as Psychodynamic Therapy, Emotion Focused Therapy, Psychotherapy with Children and Adolescents, Marriage and Family Therapy, Group Therapy, Cognitive/Behavior Therapy, Gestalt Therapy, Attachment Theory and Neurofeedback.

During the third year most doctoral students take two or three psychotherapy lab courses, work in an outpatient practicum setting and continue their didactic therapy. Such professional facilities include outpatient clinics, college counseling centers, and community health organizations. Students apply for these sites on the basis of their individual readiness, needs and interests.

When doctoral students reach their fourth year, most of their time is spent in electives from the therapy, integration and general psychology courses; advanced practicum assignments; and independent study or research. Advanced practicum assignments include the aforementioned settings along with hospitals (including inpatient units) and correctional facilities. This step-by-step progression in professional training experiences gives the student personal experience with a wide range of personalities in a variety of settings and provides the necessary preparation for a full-time internship during the fifth year of study.

The internship is planned as an intensive clinical experience to help students integrate the varied elements of their preparation in psychology into a congruent professional role. All internships must be faculty approved in order to ensure a high level of professional experience for the student.

Placement in practicum agencies is made by the Director of Clinical Training and internships are obtained by the student consonant with the internship guidelines of the school. The faculty is active in helping select and obtain such placements.

Christian Activities

As members of a Christian university community, Rosemead’s faculty believe the relating of one’s faith to an academic discipline goes beyond the theoretical and academic. Opportunities for fellowship, dialogue and worship are seen as vital parts of the total educational process. Consequently, all students are encouraged to participate in Rosemead’s weekly chapel. Various opportunities are provided for students to connect with faculty on topics of integration one-on-one or in small group settings. Students are also encouraged to become involved in one of the many local churches in the Southern California area.

Practicum and Internship Agencies

Rosemead students have recently received or are currently receiving supervised clinical experience in the following agencies:

- Access Institute for Psychological Services, San Francisco, CA
- Anka Behavioral Health Inc. Northern California, Concord, CA
- Applied Psychology Group of Texoma, Sherman, TX
- Asian Americans for Community Involvement, San Jose, CA
- Aspen Pointe Health Services, Colorado Springs, CO
- Augustus F. Hawkins Community Mental Health Center, Los Angeles, CA
- Aurora Community Mental Health Center, Aurora, CO
- Azusa Pacific University Community Counseling Center, Azusa, CA
- Bath VA Medical Center, Bath, NY
- Baylor College of Medicine, Menninger Dept. of Psych & Behav Sciences, Houston, TX
- BHC Alhambra Hospital, Los Angeles, CA
- Biola Counseling Center, La Mirada, CA
- California State University, Fullerton, Fullerton, CA
- Canandaigua VA Medical Center, Canandaigua, NY
- CAPS / University of San Francisco, San Francisco, CA
- Central Texas Veterans Health Care System, Temple, TX
- Charles George VA Medical Center, Asheville, NC
- Chicago Area Christian Training Consortium: Meier Clinics - Wheaton, IL
- Child and Family Guidance Center, Northridge, CA
- Children’s Hospital of Los Angeles, Los Angeles, CA
- Children’s Institute, Inc., Los Angeles, CA
- Clinica Monsenor Oscar A. Romero, Los Angeles, CA
- Cognitive Care Solutions, Santa Ana, CA
- Columbia Valley Community Health, Wenatchee, WA
- Community Services Institute, Boston, MA
- Cornerstone Behavioral Health, Evanston, WY
- Creighton University Center for Health & Counseling, Omaha, NE
- Daniels Institute, Boston University, Boston, MA
- Didi Hirsch Community Mental Health Center, Culver City, CA
- Dream Center Counseling Center, Los Angeles, CA
- Dwight David Eisenhower Army Medical Center, Fort Gordon, GA
- Enhanced Specialized Foster Care, Los Angeles, CA
- Faithful Central Bible Church Champion Counseling Center, Inglewood, CA
- Foothills Psychological Services, Inc., Upland, CA
- Frontier Health Services, Mountain City, TN
- Fuller Psychological and Family Services, Pasadena, CA
- Fullerton Joint Union High School District, Fullerton, CA
- Gateways Normandie Village and Gateways Satellite, Los Angeles, CA
- George Fox University Behavioral Health Clinic, Newberg, OR
- Grand Junction Veterans Health Care System, Grand Junction, CO
- Gulf Coast Veterans Health Care System, Biloxi, MS
- Hamm Memorial Psychiatric Clinic, St. Paul, MN
- Harbor-UCLA Medical Center, Torrance, CA
- Haymount Institute for Psychological Assessment, Fayetteville, NC
- Holcomb Behavioral Health Systems, Exton, PA
- Indiana University - Purdue University Indianapolis Counseling and Psychological Services, Indianapolis, IN
- Institute of Living/Harford Hospital, Hartford, CT
- Jefferson County Internship Consortium, Louisville, KY
- Kaiser Permanente, Fresno, CA
- La Habra City School District, La Habra, CA
- Lebanon VA Medical Center, Lebanon, PA
- Loma Linda University Behavioral Medicine Center, Redlands, CA
- Loma Linda University Health Care, San Bernardino, CA
- Loma Linda University School of Medicine, Redlands, CA
Admission Requirements

Rosemead seeks to admit applicants whose backgrounds clearly demonstrate scholarly aptitude, a commitment to the historic Christian faith, personal character and integrity, and a positive service-oriented motivation toward the field of clinical psychology. As an evangelical Christian institution, Biola University requires that an applicant has been a Christian for at least one year prior to admission. Biola does not
discriminate on the basis of the applicant’s race, color, sex, disability, national or ethnic origin.

Persons interested in attending Rosemead should request application forms from the Director of Admissions of Biola University or may access the application (http://www.rosemead.edu/admissions/apply-now/) online.

As in most graduate programs in psychology, competition is keen and enrollment is limited. In order to be admitted to full graduate standing the applicant must comply with the following:

1. Possess a baccalaureate degree from an accredited college or university with an average grade of at least 'B' for the junior and senior years, i.e., 3.0 on a 4.0 scale.

2. Present an undergraduate program from an accredited institution with either a major in psychology or 18 semester hours of credit in the following psychology courses: general (introductory) psychology; statistical methods; experimental psychology; abnormal psychology; theories of personality; and cognition and learning. If possible, undergraduate courses in Old and New Testament survey and hermeneutics will strengthen the student’s preparation for Rosemead.

3. Submit scores on the Graduate Record Examination Aptitude Test and Writing Test. Information regarding testing dates and location may be obtained by writing to:
   Educational Testing Service
   Box 6000
   Princeton, New Jersey 08541-6000
   or go to the ETS website (http://www.ets.org/gre/). No applicant is exempt from submitting GRE scores which must be received prior to the deadline date of December 1.

4. Submit four letters of recommendation on forms supplied by the school. Two of these are academic references and two are character references (one from the pastor of your home church and the other from a personal friend or employer/supervisor).

5. Appear for an in-person interview with the Admissions Committee or its representative. Arrangements are made by the committee following a preliminary screening of applications. Only those who are finalists in Rosemead’s admissions procedure, determined by the preliminary screening, will be scheduled for an in-person interview. For finalists, interviews are held on campus at La Mirada. International students (out of the country) who are unavailable for an in-person interview will be required to send a video recording of themselves responding to a set of written interview questions provided by the Rosemead Admissions committee. Interviews are conducted generally between January 15 and February 28. It is the responsibility of the applicant to make sure that all application materials have been received. If there is any doubt, the applicants should contact the University Admissions Office for verification.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Application Deadline

Since enrollment is limited and admission is on a selective basis, applications should be made as early as possible. Applications must be received in the Office of Graduate Admission by December 1. Decisions are made only on completed applications. Rosemead currently admits new students for the degree programs only in the Fall semester each year. Applications received after the December 1 deadline will rarely be considered for the following Fall semester.

Notice of Decisions

The Admissions Committee will process applications as quickly as possible following the December 1 deadline, though time must be allowed for completion of personal interviews. Certificates of Acceptance will be mailed on or before April 1. Information concerning the status of an application will not be given except by letter from the Associate Dean following action by the Admissions Committee. Because of the large number of applicants, information cannot be given by telephone. In the event that an applicant has not heard from the committee by May 1, written inquiry may be made.

Admission of International Students

See the Admission, Enrollment and Graduation Requirements (p. 25) section of the Biola University catalog.

General Academic Information

Classification of Students

Graduate psychology students meeting all entrance requirements will be classified as regular graduate students. Students who do not fulfill all entrance requirements may be admitted on a provisional status until they correct the deficiency. Any such deficiencies must be removed within one calendar year of a student’s admission as a provisional student. It is only in rare instances that a student will be accepted on provisional status.

Students will be classified in the program as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Minimum Passing Performance</th>
</tr>
</thead>
<tbody>
<tr>
<td>First</td>
<td>30 graduate credits or less completed</td>
</tr>
<tr>
<td>Second</td>
<td>31–65 graduate credits completed</td>
</tr>
<tr>
<td>Third</td>
<td>66–99 graduate credits completed</td>
</tr>
<tr>
<td>Fourth</td>
<td>100–133 graduate credits completed</td>
</tr>
<tr>
<td>Fifth</td>
<td>Class work complete and internship in progress</td>
</tr>
<tr>
<td>Dissertation (ABD)</td>
<td>All requirements met except for dissertation</td>
</tr>
</tbody>
</table>

Grading System

Students wishing to obtain a graduate degree must maintain a consistently high academic performance throughout their program. An overall ‘B’ average, i.e., 3.0 on a 4.0 scale, is required for all degrees. Only grades of ‘A’, ‘B’, and ‘C’ earn graduate credit.

Grades of all students are recorded in the registrar’s office. Grading is on the following basis:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior Achievement</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>Strong Achievement</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>Above Average Achievement</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>Average Achievement</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>Low Average Achievement</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>Minimum Passing Performance</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>Minimum Passing Performance</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>Minimum Passing Performance</td>
<td>1.67</td>
</tr>
<tr>
<td>D</td>
<td>Failure</td>
<td>0.00</td>
</tr>
</tbody>
</table>
Information
serves a broad spectrum of evangelical churches, Rosemead also has
who comprise Rosemead's faculty. As a part of Biola University, which
the State of California and the professional psychologists
the psychological profession as defined by the American Psychological
Rosemead’s program, students are required to maintain the standards of
licensure (on the doctoral level) by the professional licensing
The academic program at Rosemead is designed to prepare graduates
their program.

Professional Standards and Student Conduct
The academic program at Rosemead is designed to prepare graduates
boards of the various states. Because of the professional nature of
Rosemead's program, students are required to maintain the standards of
the psychological profession as defined by the American Psychological
theological and the professional psychologists
who comprise Rosemead’s faculty. As a part of Biola University, which
serves a broad spectrum of evangelical churches, Rosemead also has
both a doctrinal statement and a statement of conduct (see the General
Information (p. 8) section of catalog). Prospective applicants should be
in agreement with the standards. Students who do not abide by these
standards or other institutional policies and procedures may be subject
to probation or dismissal from the program.

Academic Probation
A student failing to maintain the minimum grade point average of 3.0 will
be placed on academic probation. The following semester, should the
student not meet the minimum cumulative grade point average (3.0), he
or she will automatically be dismissed. A student cannot graduate while
on probation.

Course Competency
Throughout the program, students are required to demonstrate
competency on various levels, including academic performance. If a
student earns a grade of C+ or below in a course, the student is required
to meet with the professor of record who will present a remediation plan
that is individualized and specific to the situation in order to ensure the
student meets competency.

Academic Dismissal
A student is only allowed a combination of two 'U's, 'NC's, 'D's, 'F's and/or
'C's (understood to include both C+ or C'); a third 'C', 'U', 'NC', 'D', and/or 'F'
brings automatic dismissal from the program.

Credit by Examination and Course Validation
No graduate credit in psychology will be given by examination or
validation. Students who possess an excellent but non-transcripted
background in an area of study may, with the permission of the advisor
and chair of the Committee on Academic Qualifications, validate by
examination to receive a waiver for a required course. No credit is given
for such validation. Successful validation allows the student to take
additional equivalent elective hours in the program.

Time Limit for Degrees
All course and academic requirements must be completed within eight
years for the Psy.D. and Ph.D. degrees, beginning on the date of the
student’s first registration for graduate study at Rosemead.

If the program is not completed within the eight-year limit, the student
must register again as a full-time (6–16 credits) student. Requirements in
Student Handbook.

Student Academic Load
The normal full-time load for a Rosemead student in psychology is 15 to
16 hours per semester. Without the Associate Dean’s approval, a student
may not carry over 16 credits in any semester. Doctoral students are
considered full time for a maximum of two years in the dissertation phase
of their program. Part-time registration is permitted only with permission
of the Dean or Associate Dean. Rosemead does not admit part-time
students to its degree programs.

For full statement on satisfactory academic progress see Academic
Standards section of catalog.

Pre-Internship and Dissertation Students
Pre-internship, internship and dissertation (ABD) status students must
continue to register online and pay the required fees each semester
appropriate to their status. Students who have completed course
requirements but have not completed degree requirements must register
for either internship or a minimum of 3 additional credits per semester
until all degree requirements are met.
Transfer Credit

Doctoral students may transfer up to 30 semester hours of applicable graduate-level courses in psychology (9 of these may be applied to master’s-level courses). Graduate courses with grades of ‘B’ or above at accredited institutions are considered as acceptable on a transfer basis; a grade of ‘B-’ is not transferable. Practicum credit in the amount equal to one Rosemead practicum of three credits may be transferred by Psy.D. students after completion of Rosemead’s practicum prerequisites. These hours will be counted toward the 30 hour transfer maximum. Practicum transfer credit may be granted only when it is shown as practicum on an official graduate transcript. Ph.D. students are required to take all 12 practicum hours while in residency. Rosemead will not evaluate non-traditional learning or non-transcripted work experience for academic or practicum credit.

When students wish to use transfer credit for a required course in the Rosemead curriculum, it is their responsibility to provide documentation assuring the equivalency of course content. Competency examinations may be given to verify equivalence to Rosemead required courses. Documentation may include catalog descriptions, syllabi and other supporting materials from the professor of record or department, as deemed necessary.

Theology Reduction, Transfer, or Waiver

Students entering Rosemead with a minimum of 30 undergraduate credits of Bible and/or Theology from accredited Christian colleges or universities may be eligible for a reduction of required Theology courses. To qualify for this reduction students must have earned no lower than a ‘B-’ grade in the undergraduate coursework.

Students may transfer up to 6 credits of graduate theology and Bible applicable to Rosemead’s program from an accredited graduate school or theological seminary. Students with qualifying courses may also waive an additional theology course and substitute credits with an Integration course. Content of all courses evaluated for reduction, transfer or waiver/substitution must be compatible with the Rosemead Theology course(s) being waived. Reduction credits will be determined by the Registrar’s Office in consultation with Rosemead’s Associate Dean.

Unofficial Withdrawal

A student who fails to register in any given semester without arranging for a leave of absence or formal withdrawal is eliminated from the program by default.

Leave of Absence

Inactive students are those who have requested and been granted a leave of absence from their program. A leave of absence may be granted upon petition for change of status if there is deemed sufficient reason for interrupting the program and intention to return to the program. Change of status forms are available from the Rosemead Office.

A leave of absence must be renewed by petition each semester and may not exceed two consecutive semesters. A leave of absence longer than two semesters will require withdrawal from the program and a petition for readmission if the student later wishes to regain active status. The committee responsible for processing readmission requests is the Admissions and Academic Qualifications Committee. Each leave of absence must receive the approval of the student’s advisor and the final approval of the Dean. Students on leave are required to register for RSPY 790 for each term.

Terminated Students

A person whose program has been terminated may make reappplication to the program a minimum of two years after termination.

The reaplication should be in the form of a letter and include a new application form, at least two current references and any desired supporting materials. The letter should be addressed to the Rosemead Admissions Committee stating the reasons for requesting readmittance as well as any other issues deemed relevant by the applicant. The letter should directly address the causes for program termination. The application will be considered with the regular admissions pool.

The admissions committee will review the request and may take one of two actions:

1. Deny the request; or
2. Approve the request and refer to faculty for final approval or disapproval. The results of the faculty decision will be communicated to the applicant by the Dean.

Readmission Procedures

A student who has attended Biola University and has dropped out for one semester or longer will be required to file an application for readmission and pay a fee of $15.

Readmission requires the submission of a formal petition for readmission, action by the Admissions and Academic Qualifications Committee, and final approval of the Dean. This policy is in effect for students in any status, including internship and dissertation.

Graduation Requirements

The major M.A., Psy.D. and Ph.D. degree requirements are summarized under each program. Since all students take a set of basic courses in scientific psychology as well as in clinical psychology and theology, the first two years of the Psy.D. and Ph.D. programs are very similar.

Faculty

Dean: Tamara Anderson, Ph.D.
Undergraduate Applied Psychology Program Director: Cayla Bland, Ph.D.
Undergraduate Psychology Chair: John Williams, Ph.D.
Professors: Anderson, E. Bland, Coe, E. Hall, T. Hall, Porter, Williams
Associate Professors: Abouezzeddine, C. Bland, Brunt, Canada, Crawford, Eliti, Lee-Kim, McMartin, Poston, Wang
Assistant Professors: De Luna, Dryjanska
Special Appointment Faculty: Grace, Lewis, Taylor, Willingham, Woody

Applied Psychology, B.S.
Mission
The Applied Psychology major equips adult-learners to apply biblically integrated psychological constructs in their scholarship, workplace, and service to the church, community and society.

Degree Program
The Bachelor of Science degree in Applied Psychology is an undergraduate major specifically designed for adult-learners with course content delivered in a non-traditional manner, maximizing flexibility and accessibility for all enrolled students. The Applied Psychology major includes course work emphasizing psychosocial development, integration, research, and foundational theories of psychological study. Since students select a psychology major for a variety of reasons, a broad range of courses have been selected for students desiring employment or advancement in a variety of fields which may include education, ministry, human resources, business, and human services. The courses are chosen to concurrently satisfy the prerequisites for many graduate programs in clinical psychology, marriage and family therapy, educational psychology, school counseling, and other related fields of study.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Science in Applied Psychology, students will be able to:

1. Demonstrate foundational knowledge and comprehension of applied psychology subject matter (ULO 1).
2. Demonstrate knowledge of and conduct basic research methods in psychology, including research design, data analysis, and interpretation (ULO 1).
3. Use research to understand and apply relevant psychological principles to individuals in the workplace, community, and society at large (ULO 3).
4. Demonstrate knowledge and skill in integrating a biblical worldview with their work, ministry, or family life (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements
1. Must be a believer in the Christian faith (the applicant’s statement of faith will be articulated in the personal essay section of the application).
2. Must have at least a 2.5 cumulative college GPA.
3. Must have graduated from high school or earned an equivalent degree (GED).
4. Preference will be given to students with at least three years’ work experience.
5. Students with fewer than 15 semester credits post high school must apply as transfer students and meet the Admissions requirements for first time college students. In addition, students are required to:
   a. Submit SAT/ACT scores, or
   b. If no test scores, the Post Traditional Test-Optional Rubric process will be used.

Curriculum Requirements
A Bachelor of Science degree in Applied Psychology is offered upon completion of the University baccalaureate and major requirements. The Applied Psychology major requires the completion of 40 credits beyond the PSYC 200, 24 of which must be upper-division.

Total Credits 18

Psychology, B.A.

Mission

The mission of the Bachelor of Arts in Psychology encompasses:

1. Training in psychology. The objective is to provide the foundations appropriate for further learning whether in graduate school, other vocational training, or in general living.
2. Promotion of investigation and integration of psychology and theology. Investigation and integration will take the form of incorporation of psychology and biblical training in the integration of faith, learning, and living.
3. Development and promotion of the use of the education in ministry and service. Ministry and service takes the form of active participation in the functions of the Christian and secular communities.

Degree Program

A Bachelor of Arts degree in Psychology is offered upon completion of the University baccalaureate and major requirements. The psychology major requires the completion of a minimum of 42 credits beyond PSYC 200, 24 of which must be upper-division.

Learning Outcomes

Program Learning Outcomes

The Psychology Department is committed to developing a program that will meet their Mission objectives through continuous assessment of student learning, course objectives and our program learning outcomes, listed below.

Upon completion of the Bachelor of Arts in Psychology, students will be able to:

1. Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology (ULO 1).
2. Demonstrate knowledge of and apply basic research methods in psychology, including research design, data analysis, and interpretation (ULO 1).

3. Demonstrate familiarity with the concept of integration of faith and learning, its benefits and challenges, and apply appropriate methods in producing integrative scholarship and skills (ULO 2).

4. Apply psychological principles and principles derived from the integration of faith and learning to service in their churches and communities (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Internal program assessment may include surveys, signature assignments, and a capstone course. External program assessment includes the ETS Major Field Test which is a graduation requirement. The Major Field Test is used to demonstrate achievement of our cognitive learning outcomes. Exams will be scored against national norms and every year the psychology faculty will review exam results to determine program strengths and weaknesses.

Our students’ Program Learning Outcome results are confidential. The results are not calculated into the student’s GPA nor considered a part of the student’s academic degree program. Program Learning Outcome results are used only to inform the University of student performance in designated fields so that areas for improvement can be identified within our Psychology program and/or courses. If the Program Learning Outcome requirement has not been met by the conferral date, Biola will not issue final transcripts or a diploma until the assessment has been completed.

Requirements

Admission Requirements

Admission into Biola University does not guarantee admission as a psychology major in the School of Psychology, nor permission to enroll in upper-division psychology courses. The following requirements must be observed:

1. Completing with a minimum of a ‘C’ (2.0) grade in each of the following courses:

Graduate Courses

Senior level undergraduate psychology majors may take certain graduate courses with permission. A permission request form may be obtained in the Psychology Department. It must be filled out and signed by the department chair, dean of Rosemead, and course instructor.

Course Sequence

NOTE: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year
levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

**Program-Specific Core Curriculum Courses**

The following course is a prerequisite to the minor and may only be counted towards the behavioral science Core Curriculum Requirement:

PSYC 200  Introduction to Psychology

**Program Courses**

PSYC 206  Psychology and Christian Thought  3

Select 15 credits of psychology electives, 12 of which must be upper-division.

Total Credits 18

### Clinical Psychology, Psy.D.

**Mission**

The mission of the Doctor of Psychology in Clinical Psychology is to produce graduates who can integrate the science and practice of psychology with Christian theology, and who are prepared to meet the psychological needs of the world in general and the Christian community specifically through professional service and scholarship.

**Learning Outcomes**

**Program Learning Outcomes**

Upon completion of the Doctor of Psychology in Clinical Psychology, students will be able to:

1. An aim of the PsyD program is to produce clinical psychologists who possess enhanced clinical skills (including knowledge and professional attitudes) to implement a broad spectrum of psychological interventions to meet the needs of society (ULO 1).
2. An aim of the PsyD program is to produce clinical psychologists who can demonstrate a requisite ability in research or other scholarly activities, which ultimately can serve psychological practitioners and society at large. (ULO 2).
3. An aim of the PsyD program is to produce clinical psychologists who, by knowledge and training, can meet the psychological needs of the Christian community (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.
Requirements

**Master’s Degree in Clinical Psychology**

Although Rosemead does not offer a terminal Master’s program, a Master of Arts in Clinical Psychology is granted after the completion of the first two years of either the Ph.D. or Psy.D. curriculum, including:

1. A minimum of 45 semester credits in psychology (including practicum and psychotherapy lab courses).
2. A minimum of 9 semester credits in theology, 3 credits in statistics, and 3 credits in ethics.
3. A minimum of one year of resident graduate work (the final semester must be in residence).
4. A transfer maximum of 9 credits in psychology may be counted toward the M.A. in Clinical Psychology.

**Psy.D. in Clinical Psychology**

1. **Residence and Course Work**
   Normally, four years of residency are required unless transfer of credit is brought in and advanced standing granted. While the doctorate is not awarded simply for completion of stated course work, there are basic credit requirements for the degree (133 semester credits). Each student is assigned a faculty advisor who assists in the planning of each semester’s schedule of courses and supervises the student’s progress in the program. For transfer credit, see General Academic Information.

   **Psychology:** Psy.D. students must complete a minimum of 77 semester credits of psychology. These 77 credits must include 50 required psychology credits, 18 credits of practicum and 9 credits of elective psychology courses. Students may apply up to 6 credits of graduate coursework from the Cook School of Intercultural Studies toward the total psychology elective hours requirement.

   **Psychotherapy Laboratory:** Students in the Psy.D. program must complete 21 credits selected from psychotherapy lab courses. These are taken in the second, third and fourth years.

   **Theology:** All students must complete a minor in theology which includes a minimum of 18 semester credits.

   **Integration Seminars:** All students participate in a series of seminars (12 credits) devoted to the integration of a variety of theological and psychological concepts in research, theory and practice.

   **Dissertation Research:** Students in Rosemead’s Psy.D. program may fulfill the research component of their program either by writing a dissertation or by successfully completing a research consumership sequence (5 credits), which includes a year-long doctoral research seminar, a doctoral paper consisting of a critical review of research on a selected, clinically relevant topic; and a comprehensive proficiency examination for consumers of clinical research.

2. **Progress Evaluations**
   Each year students are evaluated on their general progress toward completion of degree requirements. These evaluations include review of each student’s academic skills, clinical skills, and personal/interpersonal/spiritual growth as required by the program. Because all of these areas are integral to the practice of clinical psychology and the distinctive of Rosemead’s program, deficiencies in any of them may result in program termination. However, the general objective of such evaluation is to provide feedback conducive to continued growth and development toward successful completion of the degree, high quality of service to clients, and high level of professional competence. Procedures and processes for the evaluations are specified in the Rosemead Student Handbook.

3. **Comprehensive Examinations**
   All students must pass a set of doctoral-level comprehensive examinations covering the following areas: (1) psychological assessment and intervention, (2) integration of psychology and theology, and (3) ethics.

   These examinations are scheduled annually and serve as the major means of evaluating a student’s suitability to continue studies toward the doctorate. The examinations may be taken after completion of 75% (100 credits) of the course work and must be successfully completed prior to the Professional Qualifying Examination. Only one retake of the examination is allowed. The dates of the Comprehensive Examinations are specified in the Academic Calendar.

4. **Admission to Candidacy**
   Official candidacy for the doctorate signifies an advanced stage in the student’s progress. In order to be admitted to candidacy the student must have:
   - Successfully completed the Second Year Examination
   - Passed the Comprehensive Examinations
   - Received approval of the dissertation proposal by the Doctoral Committee or completed the three-semester, 5-credit Doctoral Research Seminar and clinical comprehensive proficiency research examination
   - Completed training therapy experience

5. **Professional Qualifying Examination**
   All doctoral students must successfully complete an examination that evaluates the student’s readiness for a full-time internship. It may be taken any time after the comprehensive examinations have been passed and must be completed prior to acceptance of an internship. Only one retake of the exam is allowed. The examining committee may require the student to complete additional course work, practicum, or other professional growth experiences prior to beginning the internship. See the Professional Qualifying Examination Guidelines in the student handbook for further detail.

6. **Internship**
   All students are required to successfully complete a one year, full-time clinical internship prior to graduation. All internships are to be approved in advance by the Clinical Training Committee. For further details, refer to the Internship Guidelines in the student handbook. Also, all students need to meet with a Graduate Graduation Counselor in the Office of the Registrar to have their internship eligibility confirmed one year prior to their internship. Internship fees are listed in the psychology course section (RSTN 731 Internship). There is some provision for students to complete this requirement in two years at half-time.

7. **Completion of Training Therapy**
   All students must receive certification of completion of training therapy from the Director of Clinical Training. 86 hours of training therapy is required, at least 50 of which must be individual therapy. See Training Therapy Guidelines in the student handbook for further details.

8. **Dissertation or Research Consumership Sequence**
   All Psy.D. students must demonstrate doctoral-level mastery of a research area in clinical psychology. This may be done either by a dissertation or by a research consumership sequence. The research consumership sequence is composed of:
   a. A three-semester, 5-credit doctoral research seminar focusing on the critical evaluation and utilization of clinical research;
   b. A doctoral paper involving a critical review of research on a selected, clinically relevant topic; and
c. A clinical comprehensive proficiency examination evaluating the student’s ability to critically evaluate current clinical research. This comprehensive proficiency exam is taken in conjunction with the first semester of the doctoral research seminar. Psy.D. students must either register for 5 credits for dissertation or for the doctoral research seminar.

9. Final Examination
The final examination for Psy.D. students who write a dissertation is an oral defense of the dissertation before the doctoral committee and other invited professionals. Students completing the doctoral research sequence must pass the research consumership exam given during the Doctoral Research Seminars.

Elective Requirements
Students must take the following for elective credit:
- RSPY Psychology Electives: 9
- RSTP Integration Electives: 11
- RSLB Psychotherapy Lab Electives: 21

Total Credits: 133

1. Must be taken during the first year.
2. Must be taken six times alongside RSPY 691, RSPY 692, RSPY 693, RSPY 694, RSPY 695, and RSPY 696. In addition, it must be taken with any Practicum Electives (RSPY 697, RSPY 698, or RSPY 699).
3. Must be taken at least two times.
4. Will be taken twice.

Clinical Psychology, Ph.D.

Mission
The mission of the Doctor of Philosophy in Clinical Psychology is to produce graduates who can integrate the science and practice of psychology with Christian theology, and who are prepared to meet the psychological needs of the world in general and the Christian community specifically through professional service and scholarship.

Learning Outcomes

Program Learning Outcomes
Upon completion of the Doctor of Philosophy in Clinical Psychology, students will be able to:

1. An aim of the PhD program is to produce clinical psychologists who possess the requisite clinical skills (including knowledge and professional attitudes) to meet the psychological needs of society (ULO 1).
2. An aim of the PhD program is to produce clinical psychologists who can demonstrate an increasingly independent and enhanced ability...
in research or other scholarly activities, which ultimately can serve psychological practitioners and society at large (ULO 2).

3. An aim of the PhD program is to produce clinical psychologists who, by knowledge and training, can meet the psychological needs of the Christian community (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Master's Degree in Clinical Psychology

Although Rosemead does not offer a terminal Master's program, a Master of Arts in Clinical Psychology is granted after the completion of the first two years of either the Ph.D. or Psy.D. curriculum, including:

1. A minimum of 45 semester credits in psychology (including practicum).
2. A minimum of 9 semester credits in theology, 3 credits in statistics, and 3 credits in ethics.
3. A minimum of one year of resident graduate work (the final semester must be in residence).
4. A transfer maximum of 9 credits in psychology may be counted toward the M.A. in Clinical Psychology.

Ph.D. in Clinical Psychology

1. Residence and Coursework
   Normally, four years of residency are required unless transfer of credit is brought in and advanced standing granted. While the doctorate is not awarded simply for completion of stated course work, there are basic credit requirements for the degree (133 semester credits). Each student is assigned a faculty advisor who assists in the planning of each semester’s schedule of courses and supervises the student’s progress in the program. For transfer credit, see General Academic Information (p. 8).
   **Psychology**: Ph.D. students must complete a minimum of 79 semester credits of psychology in addition to a doctoral dissertation. These 79 credits include 53 credits in required courses, 12 credits of practicum that must be taken in residence, 4 credits of Master’s-level research apprenticeship, and 10 credits of psychology electives. Students may apply up to 6 credits of graduate coursework from the Cook School of Intercultural Studies toward the total psychology elective credit requirement.
   **Psychotherapy Laboratory**: Students in the Ph.D. program must complete at least 12 credits selected from psychotherapy lab courses. These are taken during the second, third and fourth years.
   **Theology**: All students must complete a minor in theology which includes a minimum of 18 semester credits.
   **Integration Seminars**: All students participate in a series of seminars (12 credits) devoted to the integration of a variety of theological and psychological concepts in research, theory and practice.
   **Dissertation Research**: 12 credits of dissertation research are required prior to granting the Ph.D.

2. Progress Evaluations
   Each year students are evaluated on their general progress toward completion of degree requirements. These evaluations include review of each student's academic skills, clinical skills, and personal/interpersonal/spiritual growth as required by the program. Because all of these areas are integral to the practice of clinical psychology and the distinctive of Rosemead’s program, deficiencies in any of them may result in program termination. However, the general objective of such evaluation is to provide feedback conducive to continued growth and development toward successful completion of the degree, high quality of service to clients, and high level of professional competence. Procedures and processes for the evaluations are specified in the Rosemead Student Handbook.

3. Comprehensive Examinations
   All students must pass a set of doctoral-level comprehensive examinations covering the following areas: (1) psychological assessment and intervention, (2) integration of psychology and theology, and (3) ethics. These examinations are scheduled annually and serve as the major means of evaluating a student’s suitability to continue studies toward the doctorate. The examinations may be taken after completion of 75% (100 credits) of the course work, completion of the Master's Thesis and must be taken prior to the Professional Qualifying Exam. Only one retake of the examination is allowed. The dates of the Comprehensive Examinations are specified in the Academic Calendar.

4. Admission to Candidacy
   Official candidacy for the doctorate signifies an advanced stage in the student’s progress. In order to be admitted to candidacy the student must have:
   - Successfully completed the Second Year Evaluation
   - Completed the Master’s Thesis
   - Passed the Comprehensive Research Examination
   - Passed the Comprehensive Examinations
   - Received approval of dissertation proposal by the Doctoral Committee
   - Completed training therapy experience

5. Professional Qualifying Exam
   All doctoral students must successfully complete an examination that evaluates the student’s readiness for a full-time internship. It may be taken any time after the comprehensive examinations have been passed and must be completed prior to acceptance of an internship. Only one retake of the exam is allowed. The examining committee may require the student to complete additional coursework, practicum, or other professional growth experiences prior to beginning the internship. See the Professional Qualifying Exam Guidelines in the student handbook for further details.

6. Internship
   All students are required to successfully complete a one year, full-time clinical internship prior to graduation. All internships are to be approved in advance by the Clinical Training Committee. For further details, refer to the Internship Guidelines in student handbook. Also, all students need to meet with a Graduate Graduation Counselor in the Office of the Registrar to have their internship eligibility confirmed one year prior to their internship. Internship Fees are listed in the Psychology course section (RSTN 731). There is some provision for students to complete this requirement in two years at half-time.

7. Completion of Training Therapy Experience
   All students must receive certification of completion of training therapy from the Director of Clinical Training. 86 hours of training therapy in required, at least 50 of which must be individual therapy. See Training Therapy Guidelines in the student handbook for further details.

8. Completion of Comprehensive Research Examination
   All Ph.D. students must pass a Comprehensive Research Exam given at the completion of their Advanced Research Design course.

9. Dissertation
A dissertation evidencing high attainment in original scholarship must be submitted by all Ph.D. candidates. All dissertation credits must be accrued prior to internship. Three weeks prior to expected graduation the candidate must submit to the Rosemead Dean the original and four copies of the dissertation approved by the dissertation committee and Biola librarian. Detailed information is found in the Student Dissertation Guidelines.

10. **Final Oral Examination**

The final examination is an oral defense of the dissertation before the doctoral committee and other invited professionals.

**Elective Requirements**

Students must take the following for elective credit:

- Practicum Electives (RSPY 697, RSPY 698, RSPY 699) 3
- Psychology Electives (RSPY only) 7
- Integration Electives (RSTP) 11
- Psychotherapy Lab Electives (RSLB) 12

**Total Credits** 133

1. Must be taken multiple times for a total of 12 credits.
2. Must be taken during the first year.
3. RSPY 688 must be taken four times alongside RSPY 691, RSPY 692, RSPY 693, RSPY 694. In addition, it must be taken with any Practicum Electives (RSPY 697, RSPY 698, RSPY 699).
4. Must be taken at least two times.
5. Will be taken twice.

### Integrative Counseling, Certificate (Undergraduate)

**Effective Fall 2020, this program is in teach out phase; no new students will be admitted.**

**Mission**

The mission of the Rosemead School of Psychology global online Certificate in Integrative Counseling is to help Christians to integrate a Christian worldview with compassionate, effective counseling practice. We seek to equip our students to use a biblically based, empirically supported, and culturally sensitive integrative counseling approach to address unmet mental health needs worldwide, both in the Christian community and in society at large.

**Program Description**

A bi-lingual (Chinese-English) online learning platform makes an international standard of counselor education and training available in the two top languages used on the internet. This program’s administration and delivery to students in Asia is done in collaboration with the administration and delivery to students in Asia is done in collaboration with...
Integrative Counseling, Professional Certificate (Undergraduate)

Effective Fall 2020, this program is in teach out phase; no new students will be admitted.

Mission
The mission of the Rosemead School of Psychology global online Certificate in Integrative Counseling is to help Christians to integrate a Christian worldview with compassionate, effective counseling practice. We seek to equip our students to use a biblically based, empirically supported, and culturally sensitive integrative counseling approach to address unmet mental health needs worldwide, both in the Christian community and in society at large.

Program Description
A bi-lingual (Chinese-English) online learning platform makes an international standard of counselor education and training available in the two top languages used on the internet. This program’s administration and delivery to students in Asia is done in collaboration with Biola University’s partner, the Institute for the Advancement of Counseling Excellence (IACE).

All students who successfully complete four foundational courses that provide essential knowledge and practical skills will earn a Certificate in Integrative Counseling. These may include students without a professional counseling license who provide pastoral care (e.g., pastors, church workers).

Students with a professional counseling license may enroll in a professional level that includes, along with the 4 foundational courses, 2 additional courses with online case consultation while applying what they have learned to counsel actual clients in a "virtual practicum clinic." They will earn an additional Professional Certificate in Integrative Counseling.

Learning Outcomes
Learning Outcomes
Upon completion of the Certificate in Integrative Counseling, students will be able to:

1. Explain how to integrate a Christian worldview with culturally sensitive, evidence-based counseling practice (ULO 1).
2. Demonstrate personal growth in integrating a Christian worldview with their sense of identity and roles and responsibilities in a continuum of care (ULO 2).
3. Apply foundational relationship building skills to facilitate the counseling process (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Graduation Requirements

Students must complete 8 credits of foundational coursework.

Integrative Counseling, Professional Certificate

Effective Fall 2020, this program is in teach out phase; no new students will be admitted.

Mission

The Professional Certificate in Integrative Counseling is a global online graduate level program whose mission is to help Christians integrate their faith with compassionate, effective counseling practice. We seek to equip our students to use a scripturally based, empirically supported, and culturally sensitive integrative counseling approach to address unmet mental health needs worldwide, both in the Christian community and in society at large.

Students with a professional counseling license will earn a Professional Certificate in Integrative Counseling by successfully completing four foundational courses that provide essential knowledge and practical skills, followed by two additional courses with online case consultation in a “virtual practicum clinic.” A bi-lingual (Chinese-English) format makes an international standard of counselor education and training available in the two top languages used on the internet.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Professional Certificate in Integrative Counseling, students will be able to:

1. Explain how to integrate a Christian worldview with culturally sensitive, evidence-based counseling practice. (ULO 1)
2. Demonstrate personal growth in integrating a Christian worldview with their sense of identity and roles and responsibilities in a continuum of care. (ULO 2)
3. Apply foundational relationship building skills to facilitate the counseling process. (ULO 3)
4. Apply integrative counseling interventions to facilitate emotional-relational growth that is intertwined with spiritual growth. (ULO 3)
5. Apply integrative counseling interventions to help clients with clinically significant distress to achieve their goals. (ULO 3)

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

Students must hold a baccalaureate degree from an accredited undergraduate institution and hold a professional counseling license.

Total Credits 12

Rosemead Courses by Discipline

Course Descriptions

• APSY: Applied Psychology (p. 168)
• PSIC: Integrative Counseling (p. 169)
• PSYC: Psychology (p. 170)
• RSIC: Integrative Counseling (p. 174)
• RSLB: Psychotherapy Laboratory (p. 175)
• RSPY: Psychology (p. 176)
• RSTH: Theology/Biblical Studies (p. 182)
• RSTN: Internship (p. 183)
• RSTP: Integration of Psychology and Theology (p. 184)

APSY: Applied Psychology

Courses

APSY 208 - Statistics for Research
Credits 3
Students will learn the basic descriptive and inferential statistical concepts for social-psychological research with an emphasis on conceptual understanding and interpretation. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 265 - Psychology and Christian Thought
Credits 3
An introduction to the nature and process of the application of Christian thought to the study and practice of psychology. Note(s): Approved for Core Curriculum Bible credit. Grade Mode: A.
Restriction(s): Must be Applied Psychology (APSY); and Undergraduate Level.

APSY 320 - Experimental Psychology
Credits 3
Students will be introduced to basic research design and evaluation methods. An analysis of the philosophy and methodology of the experimental method is considered. Students will complete an experimental research paper using APA guidelines and formatting. Grade Mode: A.
Prerequisite(s): APSY 208; or PSYC 209 and PSYC 211 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.

APSY 325 - Developmental Psychology: Lifespan
Credits 3
A study of the theory and research regarding human development from conception through death. Consideration will be given to the biological, psychological, cultural and social influences on human development. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 344 - Abnormal Psychology
Credits 3
Abnormal psychology is an exploration of the nature, causes and treatments of abnormal behavior, including the full range of mental disorders identified within the Diagnostic and Statistical Manual of Mental Disorders (DSM 5). This course is structured and designed to facilitate maximum exposure to the 'real world' of psychopathology through diverse learning assignments and exploration of current events within the field of psychology. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 355 - Psychology of Health and Well-Being
Credits 3
Students will examine the contributions of psychological research to the understanding, prevention, and treatment of a variety of health concerns. This course will also explore the nature of stress arising from work, family, mobility, and cultural lifestyles. The psychology of health and well-being will be integrated with Christian theology specifically focusing on a biblical view of human flourishing, the body, illness and disease, suffering, and sacrificial service. Note(s): Approved for Core Curriculum Bible credit. Grade Mode: A.
Restriction(s): Must be Applied Psychology (APSY); and Undergraduate Level.

APSY 365 - Cognitive Psychology
Credits 3
This course is designed to introduce students to the research and theories of higher mental processes. Among the cognitive processes to be studied are problem solving, memory, language, attention, reasoning and thinking. The physiological basis of cognitive processes will be discussed. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 406 - Social and Cultural Psychology
Credits 3
Analysis of social behavior, including social cognition, attitude formation, change and group processes. Emphasis is placed on the application of social psychology principles to a range of issues, including sociocultural diversity, prejudice, conflict resolution and gender roles. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 410 - Psychology in the Workplace
Credits 3
Focuses on a number of important psychological factors for effective performance in the workplace. Includes communication styles, developing conflict resolution skills, employee selection process, goal setting, time management, diversity and cultural sensitivity, stress management and work conditions. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 414 - Theories of Personality
Credits 3
An overview of personality theories including the primary representatives from the major schools: analytic-psyodynamic, humanistic-existential and cognitive-behavioral. Integrative content will be emphasized throughout the course. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

APSY 417 - Counseling Techniques
Credits 3
An overview of basic clinical interviewing and counseling techniques from both didactic and experimental perspectives. Topics include methods and theories in counseling, roles in the counseling relationship, legal considerations, dealing with resistance, cultural awareness and ethical issues related to counseling. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
APSIC 440 - Integrative Counseling Interventions I Credits 2
This undergraduate level course focuses on essential knowledge and practical skills for conducting Integrative Counseling's Domain 1 symptom-focused interventions and Domain 2 (schema-focused) interventions. Students will learn to evaluate and apply from a distinctively Christian and culturally sensitive perspective evidence-based cognitive and behavioral interventions (e.g., cognitive restructuring, diaphragm breathing, progressive muscle relaxation) for regulating emotions and reducing anxiety and depression. They will also begin to learn interventions to help transform underlying schemas. Note(s): This course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Prerequisite(s): PSIC 410.
Restriction(s): Must be enrolled in the Rosemead School of Psychology Certificate in Integrative Counseling (Undergraduate) program (PSIC).

PSIC 450 - Integrative Counseling Interventions II Credits 2
This undergraduate level course focuses on essential knowledge and practical skills for conducting Integrative Counseling's Domain 2 (schema-focused) and Domain 3 (relationship-focused) interventions. Students will learn to evaluate and apply these interventions from a distinctively Christian and culturally sensitive perspective to help themselves and their counselees address underlying cognitive schemas and relationship patterns that affect their well-being. Note(s): Course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Prerequisite(s): PSIC 430.
Restriction(s): Must be enrolled in the Rosemead School of Psychology Certificate in Integrative Counseling (Undergraduate) program (PSIC).

PSIC 410 - Introduction to Integrative Counseling Credits 2
This undergraduate level course focuses on laying a sound foundation to help students integrate their Christian faith with effective counseling practice. In particular, it provides a theoretical overview of how the Integrative Psychotherapy (McMinn and Campbell, 2007) approach to Christian counseling integrates a Christian worldview with culturally sensitive, evidence-based counseling practice. It also encourages students to better understand their identity and roles and responsibilities in a continuum of care, with particular attention to issues of ethics and personal growth. Finally, it introduces students to foundational relationship building skills (e.g., active listening, empathy, genuineness, positive regard) which are essential to facilitate the counseling process. Note(s): Course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Restriction(s): Must be enrolled in the Rosemead School of Psychology Certificate in Integrative Counseling (Undergraduate) program (PSIC).

PSIC 420 - Foundations of Assessment Credits 2
This undergraduate level course focuses on how a Christian worldview can impact the assessment process in counseling. In particular, students will learn how to apply McMinn and Campbell (2007)'s Integrative Psychotherapy approach to assessment and case conceptualization, which integrates sound biblical and theological perspectives with empirically supported methods for making sense of human problems and symptoms. Students will learn to think Christianly and in a culturally sensitive way about key topics that include: 1) processes and procedures for conducting intake interviews, 2) basic principles for diagnosing conditions (including clinically significant depression and anxiety) and assessing suicide risk, 3) an approach to effective goal setting, and 4) continued practice of foundational relationship building skills that are necessary for establishing rapport, gathering information, and helping to motivate counselees to change. Note(s): Course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Prerequisite(s): PSIC 410.
Restriction(s): Must be enrolled in the Rosemead School of Psychology Certificate in Integrative Counseling (Undergraduate) program (PSIC).
PSIC 450 - Virtual Practicum Clinic I  
Credits 2
This undergraduate level course provides licensed Christian counselors who have completed foundational courses on Integrative Counseling with an opportunity to put into practice what they have learned in the context of counseling an actual client with clinically significant distress while receiving technology-assisted remote case consultation in a ‘virtual practicum clinic’. Note(s): This course offers weekly online group case consultation, as well as opportunity for individualized case consultation; the overall goal of this course is to address identified ‘edges of growth’ that emerge with trainees actively involved in clinical practice; it is expected that each trainee will have one client who gives informed consent to participate in videotaped counseling sessions with online case consultation by the instructor; due to the personalized nature of this course, there will be no more than 12 students per class; this course will be taught online to students in Asia in a bilingual (Chinese-English) format. Grade Mode: A.
Prerequisite(s): PSIC 440. 
Restriction(s): Must be enrolled in the Rosemead School of Psychology Certificate in Integrative Counseling (Undergraduate) program (PSIC).

PSIC 460 - Virtual Practicum Clinic II  
Credits 2
This undergraduate level course continues to provide licensed Christian counselors with technology-assisted remote case consultation in a ‘virtual practicum clinic.’ It is designed to enable students to synthesize and demonstrate mastery of knowledge and skills for implementing Integrative Counseling interventions to help actual clients with clinically significant distress meet their counseling goals. Note(s): This course offers weekly online group case consultation, as well as opportunity for individualized case consultation; the overall goal of this course is to address identified ‘edges of growth’ that emerge with trainees actively involved in clinical practice; it is expected that each trainee will have one client who gives informed consent to participate in videotaped counseling sessions with online case consultation by the instructor; due to the personalized nature of this course, there will be no more than 12 students per class. Grade Mode: A.
Prerequisite(s): PSIC 450. 
Restriction(s): Must be enrolled in the Rosemead School of Psychology Certificate in Integrative Counseling (Undergraduate) program (PSIC).

PSYC: Psychology

Courses

PSYC 200 - Introduction to Psychology  
Credits 3
A survey of psychology as an empirical/behavioral science with a consideration of underlying philosophical bases in light of a Christian worldview. Topics to be surveyed include development, cognition, learning, motivation, physiology, socialization, personality and psychopathology. Core Curriculum: Approved for Core - Behavioral Science. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

PSYC 206 - Psychology and Christian Thought  
Credits 3
An introduction to the nature and process of the application of Christian thought to the study and practice of psychology. Grade Mode: A.
Prerequisite(s): PSYC 200, BBST 105. 
Restriction(s): Must be Undergraduate Level.

PSYC 209 - Statistics with Computer Applications  
Credits 3
Basic statistics for psychological research. Descriptive statistics, correlation/regression and inferential statistics including hypothesis testing, type I and II errors, t-tests, analysis of variance, and several non-parametric tests including chi-square. Core Curriculum: Approved for Core - Mathematics. Grade Mode: A.
Corequisite(s): PSYC 211. 
Restriction(s): Must be Undergraduate Level.

PSYC 211 - Statistics with Computer Applications Lab  
Credit 1
Use of Excel and the Statistical Package for the Social Sciences (SPSS) to obtain descriptive and inferential statistics covered in 211. Experience in developing surveys, analyzing survey data and writing research reports. Core Curriculum: Approved for Core - Mathematics. Note(s): Concurrent with PSYC 209 unless PSYC 209 has been met with transfer credits or AP credit. Grade Mode: A.
Corequisite(s): PSYC 209. 
Restriction(s): Must be Undergraduate Level.

PSYC 303 - Human Sexuality  
Credits 3
An examination of human sexual functioning, behavior, relationships, and feelings. Issues of sexuality are discussed within spiritual, psychological, cultural, and medical/health related perspectives. Grade Mode: A.
Prerequisite(s): PSYC 200; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 305 - Experimental Psychology  
Credits 4
Philosophy, methodology and analysis of the experimental method. Discussions of problems in conducting and evaluating psychological research. Lecture/Lab Hours: Three hours lecture, one hour laboratory. Grade Mode: A.
Prerequisite(s): PSYC 209, PSYC 211; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 306 - Psychological Testing and Assessment  
Credits 3
Theory and principles of psychological assessment and testing including the construction, reliability, validity and application of assessment methods and devices in various professional settings. Grade Mode: A.
Prerequisite(s): PSYC 209, PSYC 211; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 309 - Abnormal Psychology  
Credits 3
Nature, causes and treatment of abnormal behavior, including the full range of mental disorders identified within current categorical systems. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.
PSYC 313 - Psychology of Religious Experience Credits 3
An examination of the nature and scope of religious experience including such issues as the development of religious concepts and values, conversion, the experience of prayer and spiritual maturity. Attention is also given to issues in the integration of psychology and theology. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 315 - Industrial/Organizational Psychology Credits 3
A study of the application of the principles of psychology in industrial and organizational settings. Grade Mode: A.
Prerequisite(s): PSYC 200; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 317 - Psychology of Marriage Credits 3
Covers significant contemporary theoretical and clinical literature of marriage as a social and religious institution and an intimate, committed interpersonal psychological relationship. Includes topics such as the neurobiology of emotions and adult love, the psychology of interpersonal communication, conflict and problem solving, marital sexuality, gender issues, the developmental course of the marital relationship, emotional abuse and violence, and spirituality in marriage. Grade Mode: A.
Prerequisite(s): PSYC 200; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 319 - Cross-Cultural/Ethnic Issues in Psychology Credits 3
This course is designed to increase student awareness of the historical treatment of cross-cultural issues within a psychological context and to explore psychological issues in various cultural contexts within the American culture and worldwide. Attention is paid to the psychological dynamics involved in the formation and reduction of prejudices, discrimination, and stereotypes. Grade Mode: A.
Prerequisite(s): PSYC 200; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 320 - Developmental Psychology: Lifespan Credits 3
A study of the theory and research concerning lifespan development. Consideration will be given to the physical, emotional, cognitive, social and moral aspects of human development across the entire span from conception to death. Discussion will include timely issues of personal relevance to the student's own developmental pathway. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 325 - Developmental Psychology: Childhood and Adolescence Credits 3
An in-depth study of theory and research concerning the child and adolescent period. Issues to be considered will include physiological, psychological, social, behavioral, and spiritual development from the period of conception through adolescence. Both pathogenic and adaptive patterns will be addressed with a view to facilitating optimal development. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 345 - Psychology of Gender Credits 3
This course explores a wide variety of psychological issues that concern gender, including sex-related differences, life events unique to gender and gender experiences (e.g., women's experiences in areas that are generally viewed from a male perspective). Also included is the impact of ethnicity and class on gender issues. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 355 - Psychology of Family Credits 3
An examination of family from three different perspectives: Scriptural, cultural and clinical. A major goal of the course is to stimulate thinking regarding the integration of these perspectives. Particular emphasis will be placed on the study of family purpose, roles within the family, and psychological processes leading to healthy and unhealthy outcomes. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Junior Class, or Senior Class; and Psychology - UG Department; Undergraduate Level.

PSYC 365 - Cognitive Psychology Credits 3
This course focuses on the underlying cognitive processes directing behavior. Topics include, but are not limited to, the neural basis of cognition, perception and attention, perception-based and meaning-based knowledge representations (schemas), memory concepts and principles, problem solving, reasoning, language structure and use, cognitive development, and the nature of intelligence. Grade Mode: A.
Prerequisite(s): PSYC 305; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 405 - Social Psychology Credits 3
Analysis of social behavior, including social cognition, attitude formation and change, conformity, prejudice, group processes, etc. Both theory and research findings will be examined. Grade Mode: A.
Prerequisite(s): PSYC 305; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.
PSYC 411 - Theories of Personality Credits 3
An overview of personality theories including the primary representatives of the major schools: analytic or dynamic, humanistic-existential and cognitive behavioral which will be evaluated in the context of Christian framework. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 412 - Physiological Psychology Credits 3
A study of the physiological bases of behavior including neural, sensory, motor and chemical aspects with an emphasis on application to human rather than animal process. Note(s): Biology 311 - Neurobiology may be taken as an alternative to this course. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 414 - Readings in Psychology Credits 1-3
Reading and bi-weekly discussion with professor of record in a topic of the student’s choosing. The student is expected to work out, with the professor's supervision, a detailed course proposal and bibliography and submit with a Learning Contract form available from the departmental office. Note(s): May receive no more than a total of 6 credits for 414, 450 and 480 combined. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Junior Class, or Senior Class; and Psychology - UG Department; Undergraduate Level.

PSYC 418 - Seminar in Therapeutic Techniques Credits 3
Emphasis on core facilitation skills. Supportive, re-educative and reconstructive therapies considered. Personal growth activities incorporated. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Junior Class, or Senior Class; and Psychology - UG Department; Undergraduate Level.

PSYC 420 - Advanced Statistics Credits 3
Concepts and techniques involved in the analysis and interpretation of clinical and research data. Lecture and laboratory descriptive and inferential statistics. Major topics include correlation and regression, tests of significance and introduction to analysis of variance. Both parametric and non-parametric approaches are covered. Instruction assumes undergraduate background in statistics. Note(s): This course may be taken by senior psychology majors at the graduate level, course RSPY 502; contact the department for details. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 440 - History and Systems of Psychology Credits 2-3
An overview of the history of psychology and classical systems in psychology. The class also considers issues in the philosophy of science relevant to psychological systems, research, theory, and practice. Note(s): This course may be taken by senior psychology majors at the graduate level, course RSPY 530; contact the department for details. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

PSYC 450 - Directed Field Work in Psychology Credits 1-6
The directed field work course is an opportunity for psychology majors to gain valuable off (or on) campus, job-related experience in an approved psychological setting or agency. The purpose of this field work is to give students the opportunity to integrate classroom knowledge with real world experiences. Students will receive supervised experienced in a mental health, educational, correctional, or related setting. This front-line exposure will help the student to clarify their personal and professional goals. Note(s): May be taken multiple times for credit; may receive no more than a total of 6 credits for PSYC 414, PSYC 450 and PSYC 480 combined; four credits of PSYC 450 may be used toward the major. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major.
Restriction(s): Must be Junior Class, or Senior Class; and Psychology - UG Department; Undergraduate Level.
Repeat Limit (total number of credits): 6.

PSYC 455 - Service Learning in Psychology Credits 1-3
The service learning course is an opportunity for psychology majors to gain valuable off (or on) campus, job related experience in an approved psychology related setting or agency. The course is intended to be an experience of supervised community engagement, in the form of service and experiential learning. It is an opportunity for the student to apply principles of psychology and the integration of faith and learning to service in the local community. Note(s): May be taken multiple times for credit, which may be counted toward the major; may receive no more than a total of 6 credits for PSYC 414, PSYC 450, PSYC 455, and PSYC 480 combined. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology major.
Restriction(s): Must be Junior Class, or Senior Class; and Psychology - UG Department; Undergraduate Level.
Repeat Limit (total number of credits): 6.

PSYC 460 - Studies in Psychology Credits 1-6
Seminar course taught by special lecturers addressing areas of specific interest. Reading, research and discussion of selected topics in the field of psychology. Note(s): May be taken multiple times for credit; course usually offered abroad and subject to Department approval. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.
Repeat Limit (total number of credits): 6.
PSYC 465 - Positive Psychology Credits 3
An introduction to the field of positive psychology which focuses on the systematic study of optimal human functioning; aiming to discover factors that contribute to individual and community flourishing. Theoretical integration will also be covered as it shares a concern with both Christian theology and ancient eudaemonistic ethics regarding the cultivation of human virtues. Students will use the integrative thinking cultivated in the class while researching and presenting their findings. 

Note(s): Special Approval required. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, PSYC 305.
Restriction(s): Must be Psychology (PSYC); and Psychology - UG Department; and Undergraduate Level.

PSYC 470 - Current Topics in Psychology Credits 1-3
Reading, research and discussion of selected topics in the field of psychology. Grade Mode: A.
Prerequisite(s): Prerequisites may vary; acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

Repeat Limit (after first attempt): 9.

PSYC 480 - Research in Psychology Credits 1-6
Research activity under the supervision of the primary researcher or self-directed research under the supervision of the professor of record. 

Note(s): May receive no more than a total of 6 credits for PSYC 414, PSYC 450 and PSYC 480 combined; 4 credits of PSYC 480 may be used toward the major. Grade Mode: A.
Prerequisite(s): B’ minimum grade in PSYC 209, PSYC 211, PSYC 305; cumulative GPA of three point two in all college level work or three point five cumulative GPA in all Psychology coursework; completed essay; acceptance into the Psychology Major.
Restriction(s): Must be Junior Class, or Senior Class; and Psychology - UG Department; and Undergraduate Level.

Repeat Limit (total number of credits): 6.

PSYC 490 - Rosemead Special Programs Credits 1-6
Supervised research and/or reading in selected areas of Psychology through the Biola Special Programs. Note(s): May be taken multiple times for credit; course usually offered abroad and subject to Department approval. Grade Mode: A.
Prerequisite(s): Acceptance into the Psychology Major, or a Psychology Minor.
Restriction(s): Must be Psychology - UG Department; and Undergraduate Level.

Repeat Limit (total number of credits): 6.

RSDS: Research and Dissertation

RSDS 711 - Doctoral Research Seminar I Credit 1
This is the first of a three course sequence which Psy.D. students take as a partial fulfillment of their doctoral research competency. This course includes a review of research methods in clinical psychology and experience in critically reviewing current clinical research. Students begin to develop a plan for writing an in-depth critical review of the research literature on a selected topic in clinical psychology. Note(s): Required for Doctor of Psychology. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSDS 712 - Doctoral Research Seminar II Credits 3
This is the second of a three course sequence which Psy.D. students take as a partial fulfillment of their doctoral research competency. Building on RSDS 711, this course includes a continued review of research methods in clinical psychology. This course will also include a segment on program evaluation. Students write the bulk of an in-depth critical review of the research literature on a selected topic in clinical psychology.

Note(s): Required for Doctor of Psychology. Grade Mode: A.
Prerequisite(s): RSDS 711.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSDS 713 - Doctoral Research Seminar III Credit 1
This is the third of a three course sequence which Psy.D. students take as a partial fulfillment of their doctoral research competency. Building on RSDS 712, this course includes the completion of an in-depth critical review of the research literature on a selected topic in clinical psychology.

Note(s): Required for Doctor of Psychology. Grade Mode: A.
Prerequisite(s): RSDS 712.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSDS 718 - Doctoral Research Seminar I Credits 3
This is the first of a two course sequence which Psy.D. students take as a partial fulfillment of their doctoral research competency. This course includes a review of research methods in clinical psychology and experience in critically reviewing current clinical research.

Note(s): Required for Doctor of Psychology. Grade Mode: A.
Restriction(s): Must be Clinical Psychology (RSDP); and Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSDS 719 - Doctoral Research Seminar II Credits 2
Building on RSPY 718, this course involves writing an in-depth critical review of the research literature on a selected topic in clinical psychology.

Note(s): Required for Doctor of Psychology. Grade Mode: A.
Prerequisite(s): RSDS 718.
Restriction(s): Must be Clinical Psychology (RSDP); and Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSDS 721 - Dissertation Research Credits 1-10
Planning and implementation of a research project including literature review, problem definition, hypothesis formation, design, and implementation of field research, data analysis, and report writing. The student's dissertation research is supervised by a faculty chair and committee. The final stage requires the student to successfully sustain an Oral Defense of the dissertation.

Note(s): Required of Doctor of Philosophy. Grade Mode: D.
Restriction(s): Must be Clinical Psychology (RSDR); and Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

Repeat Limit (total number of credits): 12.

RSDS 722 - Dissertation Continuation Credits 1-3
Continued registration to complete dissertation or doctoral project. Less than half-time status. Note(s): Required for doctoral students who have not completed this requirement while registered for RSDS 721. Grade Mode: D.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
RSIC 510 - Introduction to Integrative Counseling Credits 2
This graduate level course focuses on laying a sound foundation to help students integrate their Christian faith with effective counseling practice. In particular, it provides a theoretical overview of how the Integrative Psychotherapy (McMinn and Campbell, 2007) approach to Christian counseling integrates a Christian worldview with culturally sensitive, evidence-based counseling practice. It also encourages students to better understand their identity and roles and responsibilities in a continuum of care, with particular attention to issues of ethics and personal growth. Finally, it introduces students to foundational relationship building skills (e.g., active listening, empathy, genuineness, positive regard) which are essential to facilitate the counseling process. Note(s): Course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 3.

RSIC: Integrative Counseling

RSIC 520 - Foundations of Assessment Credits 2
This graduate level course focuses on how a Christian worldview can impact the assessment process in counseling. In particular, students will learn how to apply McMinn and Campbell (2007)’s Integrative Psychotherapy approach to assessment and case conceptualization, which integrates sound biblical and theological perspectives with empirically supported methods for making sense of human problems and symptoms. Students will learn to think Christianly and in a culturally sensitive way about key topics that include: 1) processes and procedures for conducting intake interviews, 2) basic principles for diagnosing conditions (including clinically significant depression and anxiety) and assessing suicide risk, 3) an approach to effective goal setting, and 4) continued practice of foundational relationship building skills that are necessary for establishing rapport, gathering information, and helping to motivate counselees to change. Note(s): Course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Prerequisite(s): RSIC 510.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSIC 530 - Integrative Counseling Interventions I Credits 2
This graduate level course focuses on essential knowledge and practical skills for conducting Integrative Counseling’s Domain 1 symptom-focused interventions and Domain 2 (schema-focused) interventions. Students will learn to evaluate and apply from a distinctively Christian and culturally sensitive perspective evidence-based cognitive and behavioral interventions (e.g., cognitive restructuring, diaphragm breathing, progressive muscle relaxation) for regulating emotions and reducing anxiety and depression. They will also begin to learn interventions to help transform underlying schemas. Note(s): This course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Prerequisite(s): RSIC 520.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSIC 540 - Integrative Counseling Interventions II Credits 2
This graduate level course focuses on essential knowledge and practical skills for conducting Integrative Counseling’s Domain 2 (schema-focused) and Domain 3 (relationship-focused) interventions. Students will learn to evaluate and apply these interventions from a distinctively Christian and culturally sensitive perspective to help themselves and their counselees address underlying cognitive schemas and relationship patterns that affect their well-being. Note(s): Course will be taught online to students in Asia in a bilingual (Chinese-English) format, with weekly class meetings via videoconferencing. Grade Mode: A.
Prerequisite(s): RSIC 530.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSIC 550 - Virtual Practicum Clinic I Credits 2
This graduate level course provides licensed Christian counselors who have completed foundational courses on Integrative Counseling with an opportunity to put into practice what they have learned in the context of counseling an actual client with clinically significant distress while receiving technology-assisted remote case consultation in a ‘virtual practicum clinic’. Note(s): This course offers weekly online group case consultation; individualized case consultation is also provided in the form of targeted videotape review, as well as one individual consultation combined with remote live observation of a client session; the overall goal of this course is to address identified ‘edges of growth’ that emerge with trainees actively involved in clinical practice; it is expected that each trainee will have one client who gives informed consent to participate in videotaped counseling sessions with online case consultation by the instructor; due to the personalized nature of this course, there will be no more than 12 students per class; this course will be taught online to students in Asia in a bilingual (Chinese-English) format. Grade Mode: A.
Prerequisite(s): RSIC 540.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level.
RSIC 560 - Virtual Practicum Clinic II Credits 2
This graduate level course continues to provide licensed Christian counselors with technology-assisted remote case consultation in a 'virtual practicum clinic'. It is designed to enable students to synthesize and demonstrate mastery of knowledge and skills for implementing Integrative Counseling interventions to help actual clients with clinically significant distress meet their counseling goals. Note(s): This course offers weekly online group case consultation; individualized case consultation is also provided in the form of targeted videotape review, as well as one individual consultation combined with remote live observation of a client session; the overall goal of this course is to address identified 'edges of growth' that emerge with trainees actively involved in clinical practice; it is expected that each trainee will have one client who gives informed consent to participate in videotaped counseling sessions with online case consultation by the instructor; due to the personalized nature of this course, there will be no more than 12 students per class. Grade Mode: A.
Prerequisite(s): RSIC 550.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level.

RSLB: Psychotherapy Laboratory

RSLB 613 - Introduction to Child and Adolescent Psychotherapy Credits 3
An introduction to the basics of therapy with children and adolescents. The course will emphasize a survey of developmentally appropriate individual and systemic therapeutic approaches. Secondary supervision is provided in the required lab component. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 631 - Psychodynamic Therapy I Credits 2
An in-depth study of the process of therapy based on psychoanalytic developmental theory and giving special attention to the concepts of transference, counter-transference and interpretation. A lab group is included for both 631 and 632. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSPY 515 and participation in individual training therapy. Corequisite(s): RSLB 633.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 632 - Psychodynamic Therapy II Credits 1
Continuation of RSLB 631. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSLB 631.
Corequisite(s): RSLB 634.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 633 - Psychodynamic Therapy Lab I Credits 1
A lab group is included for both 631 and 632. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSPY 515 and participation in individual training therapy. Corequisite(s): RSLB 631.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSLB 634 - Psychodynamic Therapy Lab II Credits 2
A lab group is included for both RSLB 631 and 632. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSLB 631 and RSLB 633.
Corequisite(s): RSLB 632.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 641 - Psychotherapy with Groups Credits 3
The essentials of the group psychotherapy process are examined and related to current modalities in psychotherapy and general group phenomena. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 642 - Advanced Child and Adolescent Psychotherapy Credits 3
A continuation of RSLB 613, this course offers advanced training in therapeutic techniques with children and adolescents. In particular, dynamic and systemic orientations will be emphasized. Special focus will be given to techniques of play therapy. Secondary supervision is provided in the required lab component. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSLB 613
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 643 - Cognitive/Behavioral Therapy with Children Credits 3
This course emphasizes the treatment of children and families from a behavioral perspective including operant, respondent, cognitive and social learning theory models. Graduate students must carry at least three clients during the course of the semester and will be afforded the opportunity to conduct parent workshops in lieu of one client. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSPY 603.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 644 - Attachment-Based Psychotherapy Credits 3
The course applies recent research and theory in contemporary attachment theory, emotional information processing, neuroscience, and relational psychoanalysis to therapy. It also addresses dealing with spiritual issues in psychotherapy within an attachment-based theoretical framework. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSLB 647 - Marriage and Family Therapy I Credits 3
A study of the literature and practice of marital and family therapy. The course provides an overview of various approaches to family therapy with a special emphasis on the structural family therapy model. Application of clinical techniques is accomplished through observation, simulations, and at least one marital or family case using a team model of intervention supervised in the school clinic. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSPY 650.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
RSLB 672 - Marriage and Family Therapy II Credits 3
Continuation of RSLB 671. Major consideration is given to experiential and psychodynamic perspectives on intervention within a structural framework. Application of clinical techniques is continued from the first semester using observation, simulation, and therapy experience with supervision. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSLB 671.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 676 - Psychotherapy With Couples Credits 3
Study of theory and practice of conjoint therapy with couples. A number of theoretical perspectives and related clinical techniques will be studied including cognitive-behavioral, emotionally focused, ego-analytic, and psychodynamic approaches. The intervention techniques can be applied with pre-marital couples, for couple enrichment and as part of psychotherapy with distressed couples. Students will see a couple throughout the semester. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 681 - Special Issues in Psychodynamic Therapy I Credits 2-3
An advanced course in psychodynamic psychotherapy dealing with issues such as impairments of the therapeutic relationship, acting out, levels and timing of interpretations and psychotherapy with individuals suffering from disturbances in early object relationships. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 682 - Special Issues in Psychodynamic Therapy II Credits 2-3
Continuation of RSLB 681. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSLB 681.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 705 - Brief Psychotherapies Credits 3
Models and approaches in brief interventions with special attention to crisis intervention. Theorists include Mann, Sifneos, Malan and Davanloo. Notes: Elective. Grade Mode: A.

RSLB 707 - Cognitive Behavior Therapy Credits 3
This course will prepare students to conduct individual psychotherapy with adults from a cognitive behavioral orientation. Development of the modality as evidence-based practice will be reviewed. Emphases will be on current cognitive models and strategies in case conceptualization as well as a variety of intervention techniques employed by practitioners in the cognitive behavioral tradition, particularly in the treatment of depression, anxiety, and the personality disorders. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSPY 603.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 715 - Current Psychotherapies Credits 3
This course focuses each time it is offered on a specific therapy not regularly included in Rosemead’s curriculum. Teaching personnel are drawn from the professional community of active practitioners of the specific modality to be considered. Note(s): May be retaken for credit. Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSLB 717 - Gestalt Psychotherapy Credits 3
The focus of this course will present the theory and application of Gestalt therapy for use with individuals and groups. This therapy, created by Perls and developed by Zinker and Polster, focuses on personal growth and self-actualization. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSLB 718 - Advanced Gestalt Credits 3
This course is open to students who have completed RSLB 717 and focuses on the application of Gestalt therapy and techniques to group psychotherapy. Enrollment is limited. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY: Psychology

RSPY 501 - Introduction to Psychotherapy Credits 1-2
An introduction to the theory and techniques of psychotherapy. Includes an emphasis on the relationship between models of psychopathology and psychotherapy, an overview of various approaches to psychotherapy, and a discussion of foundational therapeutic techniques. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 502 - Advanced Statistics Credits 3
Concepts and techniques involved in the analysis and interpretation of clinical and research data. Lecture and laboratory descriptive and inferential statistics. Major topics include correlation, multiple regression, tests of significance and analysis of variance. Instruction assumes undergraduate background in statistics. Note(s): Required of Doctor of Psychology and Doctor of Philosophy; this graduate level course may be taken by senior psychology majors with consent of the departmental chair obtained through a permission request form from the Psychology Department (see PSYC 420). Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 506 - Program Evaluation and Consultation Credits 3
This course will provide an overview of the processes involved in program evaluation and consultation. The competency of consultation will be defined, and application of consultation processes across organizational settings will be explored. Specific focus will be given to the process of consultation separate from that which occurs within the clinical therapeutic/assessment context. For the purpose of this course, program evaluation is understood as an application of the consultation competency. Specific foci will include an examination of the types of evaluations, methodology involved, outcomes, and communication of findings. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 515 - Introduction to Psychopathology Credits 3
This course provides a comprehensive study of the current Diagnostic and Statistics Manual of Mental Disorders (DSM). This includes training in diagnosis, and the various psychopathological processes covered in the DSM, as well as honing diagnostic ability and familiarizing students with a range of psychopathology. Note(s): Required for Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
RSPY 530 - History and Systems of Psychology Credits 2
An overview of the history of psychology and classical systems in psychology. The class also considers issues in the philosophy of science relevant to psychological systems, research, theory, and practice.

Note(s): Required of Doctor of Psychology and Doctor of Philosophy; this graduate level course may be taken by senior psychology majors with consent of the departmental chair obtained through a permission request form from the Psychology Department (see PSYC 440). Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 561 - History of Psychoanalytic Thought Credits 2
This course will provide an overview of psychoanalytic theory in order to provide students a foundation for understanding contemporary relational psychodynamic therapies. The course will review Freud’s drive/structure model and its developments in Ego Psychology as the historical backdrop for understanding the relational/structure model that emerged in the 1930s and 40s. The course will focus on two theoretical lines that developed out of classical psychoanalysis within the relational/structure model: interpersonal and object relations theories, and attachment theory. The course will trace the development of both these lines of thought with special attention being given to contemporary relational psychoanalysis and attachment-based psychodynamic therapy. Clinical applications of the various theories will be discussed throughout the course.

Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 601 - Research Design Credits 3
Covers the design and analysis of quantitative, qualitative, and mixed methods research. Basic principles of sampling, measurement, design validity, reliability, multivariate analysis, and research ethics are presented. The role of research as it pertains to evidence based practice in clinical psychology and in the integration of psychology and theology are explored.

Lecture/Lab Hours: A 0-credit lab component is required for Doctor of Philosophy students.

Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.

Prerequisite(s): RSPY 502.

Restriction(s): Must be a Major in Clinical Psychology (RSDR) or a Major in Clinical Psychology (RSDP); and Rosemead Sch of Psychology; Graduate Level or Doctoral Level.

RSPY 603 - Cognitive-Affective Aspects of Behavior Credits 2-3
Presents an overview of cognition and emotion in relation to human functioning. All topics will be covered from the perspective of recent empirical research in the areas of cognitive and affective neuroscience, and will include an integration of cognitive processes with emotional functioning and regulation. Topics include, but are not limited to the social and affective influences on perception, attention, memory, and vision as well as complex cognitive skills such as language, reasoning, and problem solving. Application to clinical practice is discussed when appropriate.

Note(s): Required for Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 605 - Psychology of Religion Credits 2-3
A survey of the psychology of religion research emphasizing both content and methodological issues. Topics covered include religiosity and mental health, measures of religiosity, religious development, correlates of religiosity and psychological aspects of conversion and other religious experiences.

Note(s): Elective. Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 607 - Biological Aspects of Behavior Credits 3
Examines the anatomy and function of the nervous system with special emphasis on brain neurotransmitters and hormones, reproductive behavior, sensory and motor functions, brain development and change, language, arousal and sleep, emotion, and emotional and neurological disorders. Current research methods pertaining to the above topics are included in the course materials.

Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 608 - Social Psychology Credits 3
Problems and theories of the person in the social context, including person perception, interpersonal relations, role formation and differentiation, attitude formation, maintenance and change.

Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 611 - Research Apprenticeship I Credits 2
Supervised experience in planning, conducting and reporting psychological research. The specific nature of the research project will be determined by the student with his or her advisor. Students will be required to submit a written review of literature and research proposal, conduct data gathering activities, analyze the data and submit a final report of the project in APA format. The required total of 6 credits must be completed by the beginning of the first semester of the third year in the program.

Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 612 - Research Apprenticeship II Credits 2
Supervised experience in planning, conducting and reporting psychological research. The specific nature of the research project will be determined by the student with his or her advisor. Students will be required to submit a written review of literature and research proposal, conduct data gathering activities, analyze the data and submit a final report of the project in APA format. The required total of 6 credits must be completed by the beginning of the first semester of the third year in the program.

Note(s): Required of Doctor of Philosophy. Grade Mode: A.

Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 613 - Research Design Lab Credits 0
This lab is a complement to RSPY 601 for Ph.D. students. It focuses on the development of a specific research project in conjunction with the study of Research Design.

Note(s): Required for Doctor of Philosophy students only. Grade Mode: C.

Prerequisite(s): RSPY 601.

Corequisite(s): RSPY 601.

Restriction(s): Must be Clinical Psychology (RSDR); and Rosemead Sch of Psychology; Graduate Level or Doctoral Level.
RSPY 615 - Advanced Developmental Psychology Credits 3
Concepts and processes involved in the development of the person throughout the lifespan are reviewed with emphasis on cultural variations. Major theoretical systems and empirical findings relevant to individual development are examined. Emphasis is upon the study of neurobiological, cognitive, and affective changes manifested throughout the lifespan. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Prerequisite(s): A survey course (graduate or undergraduate) in developmental psychology, and RSPY 515.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 620 - Seminar in Multicultural Issues Credits 0
This course provides an introduction into cultural factors that influence clinical work. Emphasis is placed on helping students gain awareness of their personal biases while developing sensitivity to differences between and within various culture groups. Note(s): Required of Doctor of Psychology and Doctor of Philosophy; must be taken twice. Grade Mode: C.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 1.

RSPY 623 - Seminar in Multicultural Issues I Credit 1
This course provides an introduction into cultural factors that influence clinical work. Emphasis is placed on helping students gain awareness of their personal biases while developing sensitivity to differences between and within various culture groups. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: C.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 624 - Seminar in Multicultural Issues II Credit 1
This course provides an introduction into cultural factors that influence clinical work. Emphasis is placed on helping students gain awareness of their personal biases while developing sensitivity to differences between and within various culture groups. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: C.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 625 - Multicultural Issues in Clinical Psychology Credits 3
A consideration of the impact of social and cultural factors upon the utilization and dynamics of mental health services. Focuses on developing the student’s sensitivity to the cultural dynamics involved in the therapeutic process. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Prerequisite(s): RSPY 623, RSPY 624.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 631 - Principles of Health Psychology Credits 2-3
This course provides an overview of theory, research and roles of psychologists in the dissemination of psychological knowledge into the health care system. Areas of focus include concerns of the family physician for which referral might be made, adjustment to physical disabilities, coping with chronic illness, stages of adjustment by individuals and their families to death and dying, preventive-educative and motivational issues in medical treatment. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSPY 607.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 633 - Advanced Seminar in Psychopathology Credits 3
A survey of the development, dynamics and classification of the psychological disorders from a psychoanalytic point of view. Special attention is given to the neuroses and the operations of ego defense mechanisms. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 641 - Measurement and Assessment I: Cognitive Assessment Credits 3
This course is the first in a sequence of courses that are dedicated to promoting psychological-assessment competency. This first course is designed to introduce students to the primary tools included in cognitive assessment batteries that are administered across the human lifespan (e.g., school-based interventions under IDEA 2004, eligibility for test accommodations, and dementia assessment). This course is also designed to help students continue developing foundational competencies in the following key areas: describing examinee mental status and behaviors, conducting clinical interviews, understanding basic psychometric theory, selecting appropriate assessment methods, integrating assessment data, articulating case conceptualizations, developing data-driven recommendations, and writing psychological reports. Furthermore, it is designed to help students develop multicultural competency in the area of psychological assessment, emphasizing the diversity domains of age and generational influences, gender, ethnic and racial identity, religion and spiritual orientation, sexual orientation, and developmental disabilities and disabilities acquired later in life. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology and Doctor of Philosophy.

RSPY 642 - Measurement and Assessment II: Clinical Assessment Credits 3
This course is the second in a sequence of courses that are dedicated to promoting psychological-assessment competency. This second course is designed to help students continue developing foundational competencies in the following key areas: describing examinee mental status and behaviors, conducting clinical interviews, understanding basic psychometric theory, selecting appropriate assessment methods, integrating assessment data, articulating case conceptualizations, developing data-driven recommendations, and writing psychological reports. Furthermore, it is designed to help students develop multicultural competency in the area of psychological assessment, emphasizing the diversity domains of age and generational influences, gender, ethnic and racial identity, religion and spiritual orientation, sexual orientation, and developmental disabilities and disabilities acquired later in life. Note(s): Required of Doctor of Psychology and Doctor of Philosophy.

Additional Fee(s): Cost of materials required is approximately $150.
RSPY 642 - Measurement and Assessment II: Personality  Credits 0.3
This course is the second in a sequence of courses that are dedicated to promoting psychological-assessment competency. This second course is designed to introduce students to the following instruments: the Minnesota Multiphasic Personality Inventory-2 (MMPI-2), the Personality Assessment Inventory (PAI), the Millon Clinical Multiaxial Inventory-III (MCMI-III), and the Mini-Mental State Examination, 2nd Edition (MMSE-2). Opportunities to administer and interpret the Thematic Apperception Test (TAT), figure drawing methods, and sentence completion methods are also provided. The overall purpose of this course is for students to develop basic competencies in the administration, scoring, and interpretation of the instruments included in two psychological assessment batteries, with a particular emphasis on self-report inventories. This course is also designed to help students continue developing foundational competencies in the following key areas: describing examinee mental status and behaviors, conducting clinical interviews, understanding basic psychometric theory, selecting appropriate assessment instruments, integrating assessment data, articulating case conceptualizations, developing data-driven recommendations, and writing psychological reports. Special interest is given to multicultural competencies in the area of psychological assessment, emphasizing various diversity domains such as age, gender, ethnic and racial identity, sexual orientation, religion and spiritual orientation, and developmental disabilities and disabilities acquired later in life. **Note(s):** Required of Doctor of Psychology and Doctor of Philosophy. **Grade Mode:** A, C.
**Prerequisite(s):** RSPY 641.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
**Repeat Limit (after first attempt):** 1.
**Additional Fee(s):** Cost of materials required for this course is approximately $150.

RSPY 643 - Measurement and Assessment III: Performance-Based Measure (Rorschach)  Credits 3
This course is the third in a sequence of courses that are dedicated to promoting psychological-assessment competency. This third course is designed to introduce students to the Rorschach Inkblot Method (RIM) and incorporate this test into a full psychological assessment. Students will also build on their growing competencies in the administration, scoring, and interpretation of objective and projective measures learned in previous Measurement and Assessment courses. The overall purpose of this course is for students to continue developing foundational competencies in the administration, scoring, and interpretation of the instruments included in two psychological assessment batteries, with a particular emphasis on the Rorschach Inkblot Method. This course is also designed to help students continue developing foundational competencies in diagnosis, treatment, recommendations, and report writing. Furthermore, it is designed to help students further multicultural competencies in the area of psychological assessment. **Note(s):** Required of Doctor of Psychology. **Grade Mode:** A.
**Prerequisite(s):** RSPY 642.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 644 - Measurement and Assessment IV: Advanced Projectives (Special Issues)  Credits 2
Advanced interpretation of the Rorschach and other resources including special issues as forensic evaluations, child and adolescent personality assessment, assessment of thought disorder. **Note(s):** Elective. **Grade Mode:** A.
**Prerequisite(s):** RSPY 643.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 647 - Advanced Assessment of Individuals With Disabilities  Credits 3
An advanced diagnostic course which focuses on the assessment and diagnosis of exceptional children as well as legal and advocacy issues required by the Individuals with Disabilities Act. Specific diagnostic populations include mentally retarded, learning disabled, emotionally disturbed and gifted children. Attention is also given to low incidence handicaps such as vision impaired, hearing impaired, multiple handicapped, etc. **Grade Mode:** A.
**Prerequisite(s):** RSPY 641.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 650 - Family Psychology and Psychopathology  Credits 3
Emphasizes the construction of a conceptual framework for system change as a foundation for clinical intervention. Surveys major approaches to systems-oriented family therapy and includes such related issues as the family life cycle, object relations integration, family pathology/dysfunction, family assessment, ethnicity and religious influences. **Note(s):** Elective. **Grade Mode:** A.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 651 - Seminar in Psychodynamic Theory I  Credits 2
An in-depth study of the process of therapy based on psychoanalytic developmental theory and giving special attention to the concepts of transference, counter-transference and interpretation. This course is only available with the initiative and approval of the instructor when an appropriate client is unavailable to the student for lab requirements. **Grade Mode:** A.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 652 - Seminar in Psychodynamic Theory II  Credit 1
Continuation of RSPY 651. This course is only available with the initiative and approval of the instructor when an appropriate client is unavailable to the student for lab requirements. **Grade Mode:** A.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 663 - Human Sexuality  Credits 2
An examination of the areas of human sexual functioning, behavior, relationships and feelings. Issues of sexuality are discussed within spiritual, psychological, cultural and medical/health perspectives with implications for clinical treatment of sexual issues. **Note(s):** Elective. **Grade Mode:** A.
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
RSPY 680 - Pre-practicum  
Credits: 3  
A condensed version of Pre-practicum I and II for students with significant previous graduate study in psychology. This course is designed to facilitate the development of empathic listening, interpersonal skills and basic therapeutic techniques through group interaction and closely supervised on-campus practicum experiences. 
**Note(s):** Required of advanced first year students to be taken concurrently with RSTP 500 Psychotherapy and Religion. **Grade Mode:** C.  
**Corequisite(s):** RSTP 500.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 681 - Pre-practicum I  
Credit: 1  
The first of a two-course sequence designed to facilitate the development of empathic listening, interpersonal skills and basic therapeutic techniques including an introduction to ethics. This first course emphasizes a small, interactive group format for the development of skills. **Grade Mode:** C.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 682 - Pre-practicum II  
Credits: 2  
The second of a two-course sequence designed to facilitate the development of empathic listening, interpersonal skills and basic therapeutic techniques. During this course, direct observation and videotaping of the student’s first clinical practicum in the University’s counseling center are utilized to provide a closely supervised introduction to the therapeutic process. **Note(s):** This course or RSPY 680 required for Doctor of Psychology and Doctor of Philosophy. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 681.  
**Corequisite(s):** RSTP 500.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 688 - Practicum Consultation  
Credits: 0  
This course is designed to provide peer and faculty consultation to students in their first practicum placements – school settings at which students provide educational/psychological assessments. Consultation groups consist of 6-8 students meeting weekly with a faculty member. Feedback is given about students’ assessments to promote knowledge and skills in ethics awareness, understanding of and synthesis of data, professional presentations in written and oral formats, awareness of cultural and diversity issues relevant to cases, adherence to evidence based assessment practices, and the students’ openness to feedback. Small group consultation coordinated by the Director of Clinical Training.  
**Note(s):** This course must be taken concurrently with all practica (RSPY 689, 691-694); required of Doctor of Psychology and Doctor of Philosophy. **Grade Mode:** C.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Repeat Limit (after first attempt):** 9.

RSPY 689 - Practicum Continuous Enrollment  
Credits: 0  
Students continuing a Fall or Spring practicum through Interterm or Summer will register for this 0-credit course. Registration in a Fall or Spring practicum and RSPY 688 is required. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 691.  
**Corequisite(s):** RSPY 688.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 691 - Practicum I  
Credits: 3  
Supervised clinical experiences including diagnostic and therapeutic activities with inpatient and outpatient clientele. Hospitals, private and public clinics, mental health organizations and schools and college counseling centers are utilized. **Note(s):** RSPY 691-RSPY 694 required for Doctor of Philosophy; RSPY 691-RSPY 696 required for Doctor of Psychology. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 680 or RSPY 682.  
**Corequisite(s):** RSPY 688.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 692 - Practicum II  
Credits: 3  
Supervised clinical experiences including diagnostic and therapeutic activities with inpatient and outpatient clientele. Hospitals, private and public clinics, mental health organizations and schools and college counseling centers are utilized. **Note(s):** RSPY 691-RSPY 694 required for Doctor of Philosophy; RSPY 691-RSPY 696 required for Doctor of Psychology. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 680 or RSPY 682.  
**Corequisite(s):** RSPY 688.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 693 - Practicum III  
Credits: 3  
Supervised clinical experiences including diagnostic and therapeutic activities with inpatient and outpatient clientele. Hospitals, private and public clinics, mental health organizations and schools and college counseling centers are utilized. **Note(s):** RSPY 691-RSPY 694 required for Doctor of Philosophy; RSPY 691-RSPY 696 required for Doctor of Psychology. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 680 or RSPY 682.  
**Corequisite(s):** RSPY 688.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 694 - Practicum IV  
Credits: 3  
Supervised clinical experiences including diagnostic and therapeutic activities with inpatient and outpatient clientele. Hospitals, private and public clinics, mental health organizations and schools and college counseling centers are utilized. **Note(s):** RSPY 691-RSPY 694 required for Doctor of Philosophy; RSPY 691-RSPY 696 required for Doctor of Psychology. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 680 or RSPY 682.  
**Corequisite(s):** RSPY 688.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.

RSPY 695 - Practicum V  
Credits: 3  
Supervised clinical experiences including diagnostic and therapeutic activities with inpatient and outpatient clientele. Hospitals, private and public clinics, mental health organizations and schools and college counseling centers are utilized. **Note(s):** RSPY 691-RSPY 694 required for Doctor of Philosophy; RSPY 691-RSPY 696 required for Doctor of Psychology. **Grade Mode:** C.  
**Prerequisite(s):** RSPY 680 or RSPY 682.  
**Corequisite(s):** RSPY 688.  
**Restriction(s):** Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.  
**Course Fee:** $55.
RSPY 696 - Practicum VI
Supervised clinical experiences including diagnostic and therapeutic activities with inpatient and outpatient clientele. Hospitals, private and public clinics, mental health organizations and schools and college counseling centers are utilized. Note(s): RSPY 691-RSPY 694 required for Doctor of Philosophy, RSPY 691-RSPY 696 required for Doctor of Psychology. Grade Mode: C.
Prerequisite(s): RSPY 680 or RSPY 682.
Corequisite(s): RSPY 688.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 697 - Practicum Elective
For students desiring supervised clinical experiences beyond the practicum requirements for their degree. These are used as elective practica. Note(s): Elective. Grade Mode: C.
Corequisite(s): RSPY 688.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSPY 698 - Practicum Elective
For students desiring supervised clinical experiences beyond the practicum requirements for their degree. These are used as elective practica. Note(s): Elective. Grade Mode: C.
Corequisite(s): RSPY 688.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSPY 699 - Practicum Elective
For students desiring supervised clinical experiences beyond the practicum requirements for their degree. These are used as elective practica. Note(s): Elective. Grade Mode: C.
Corequisite(s): RSPY 688.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSPY 700 - Clinical Case Conference
Small group supervision of ongoing psychological cases. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 701 - College Teaching of Psychology
A seminar on teaching methods including the development of course objectives, outlines, lectures and evaluations. Major emphasis is placed on the examination of the various teaching methods available to the teacher of psychology. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 702 - Seminar in Research Methodology
A study of research methods including the development of course objectives, outlines, lectures and evaluations. Major emphasis is placed on the examination of the various teaching methods available to the teacher of psychology. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 703 - Seminar in Measurement
A seminar on the development and use of psychometric and survey methods. Major emphasis is placed on the examination of the various teaching methods available to the teacher of psychology. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 704 - Advanced Research Design
A continuation of RSPY 601 for Ph.D. students. In this course major emphasis will be given to multiple regression analysis, including validity of assumptions, diagnostics, outliers, transformation of variables. We will also cover the multivariate techniques of canonical correlation, multivariate frequency analysis, multivariate analysis of variance and covariance, discriminant analysis, logistic regression, principal components analysis, and exploratory and confirmatory factor analyses. Introduction will be given to structural equation models. Computer implementation and applications will be emphasized. Note(s): Required for Doctor of Philosophy only. Grade Mode: A.
Prerequisite(s): RSPY 601.
Restriction(s): Must be Clinical Psychology (RSDR); and Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 705 - Structural Equation Modeling
Introduction to models and methods for analysis of data hypothesized to be generated by unmeasured latent variables including latent variable analogues of traditional methods in multivariate analysis. Emphasis is given to measurement models such as confirmatory and higher-order factor analytic models and structural equation models, including path and simultaneous equation models. Parameter estimation, hypothesis testing, and other statistical issues are covered. Computer implementation and applications. Note(s): Required for Doctor of Philosophy. Grade Mode: A.
Prerequisite(s): RSPY 704.
Restriction(s): Must be Clinical Psychology (RSDR); and Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 706 - Current Issues in Psychology
Intensive focus is given to a selected topic of contemporary interest. Note(s): May be retaken for credit. Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSPY 707 - Special Techniques in Clinical Practice
Intensive consideration of a specific technique utilized in modern clinical practice and requiring specialized training. A single major technique will be the focus each time this course is offered. Note(s): May be retaken for credit; elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSPY 708 - Seminar in Ethical and Professional Issues
A study and discussion of the ethics of professional psychology with an emphasis on the American Psychological Association's Code of Ethics, guidelines, and laws that govern the profession. Preparation for the Rosemead Comprehensive Exams, the Professional Qualifying Exam and the written portions of the licensing exam in the state of California is also given emphasis. The challenge to integrate a professional, Christian, and personal ethical code is discussed. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
RSPY 712 - Independent Study Credits 1-3
Individual work, directed reading or special problems in psychology. Such work must be done with the approval and supervision of a faculty professor of record. The student is expected to submit a detailed course proposal and a bibliography with an arranged course permission form available from the Registrar's Office. Note(s): Required courses may not be taken through independent study. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 713 - Principles and Practices in Clinical Supervision Credits 2
A course designed to give students training and practice in supervisory and consultation roles. Mutual supervision and case presentations are used to develop skills. This course is required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Prerequisite(s): RSPY 691, RSPY 692.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 714 - Clinical Psychopharmacology Credits 3
A general overview of the drugs used in the treatment of mental disorders, including their specific indications, mechanism of action and effectiveness. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSPY 715 - Training Therapy (Interpersonal) Credits 0
For official indication on the student's transcript of required personal growth experience through interpersonal therapy. Students may choose group, marital or spiritual direction. Note(s): Required of all doctoral students. Grade Mode: C.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 5.

RSPY 716 - Training Therapy (Individual) Credits 0
For official indication on the student's transcript of required personal growth experience through individual training therapy. Note(s): Required of all doctoral students. Grade Mode: C.
Restriction(s): Must be Rosemead Sch of Psychology.
Repeat Limit (after first attempt): 5.

RSPY 729 - Alcohol and Substance Abuse Credits 1-2
Diagnosis, treatment planning, and recovery process for the alcoholic/addict and family members will be the focus of the class. The disease model of addictions treatment and the utilization of 12-step support groups in the treatment of the recovering person and the family members will be presented. Other compulsive diseases will be discussed such as sexual addiction, eating disorders, etc. Class lecture, special speakers, and assigned reading will be the primary methods of instruction. Note(s): Meets California licensure requirement for training on alcohol and substance abuse; elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 730 - Directed Research Credits 1-3
Students may take special courses of study and/or pursue research projects that they design and carry out under the guidance of a resident faculty member. Individual or small group participation in a research project in psychology must be under the supervision of a faculty member. The student must submit an arranged course permission form giving a detailed outline of the research and other learning experiences of the course. Note(s): Required courses may not be taken through Directed Research; elective. Grade Mode: V.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 733 - The Self: Theological, Philosophical, Psychological and Cross-Cultural Perspectives Credits 3
This course looks at philosophical, theological, psychological, and cross-cultural views of the nature of the self. The course explores some of the biblical and philosophical terminology. It also explores the historical emphasis on the self, with a focus on its current emphasis in psychoanalytic psychology, and its developmental aspect, and a psychological view of the true and false self. The western culture perspective on the self is compared with other cultures. Finally, a religious perspective on the true and false self is presented. Note(s): Elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSPY 740 - Special Topics in Psychology Credits 1-3
Occasional seminars are offered under this course description that specifically identify current issues relevant to the integration of theology and psychology. This designation is to be used for 1-4 day courses offered at various times per year. Grade Mode: C.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSPY 790 - Leave of Absence Credits 0
For students who have been granted an official Leave of Absence from the doctoral program. Grade Mode: N.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTH: Theology/Biblical Studies

RSTH 515 - Theological and Psychological Anthropology I Credits 2
This two semester, team-taught course has as its overall aim the development of a relational understanding of the human person. Contributions from theology include a discussion of the creation of humanity in the image of God, the subsequent distortion of that image due to the fall, an understanding of sin (both original sin, being sinned against, and inhabited personal sins), and a relational understanding of Christian salvation as the deepest solution to the sin problem. This relational theology will be brought into conversation with a relational understanding of human nature from the vantage point of psychology and related disciplines in order to bring about a robust relational anthropology. This discussion will include integrating contributions from attachment theory, emotion research, neuroscience, infant research, and relational psychoanalysis. Special attention is given to helping the student come to their own depth understanding of the essential role human and divine relationships play in psychopathology and health, including the students' own experience of and resistance to such an understanding. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
RSTH 516 - Theological and Psychological Anthropology II
This two-semester, team-taught course has as its overall aim the development of a relational understanding of the human person. Contributions from theology include a discussion of the creation of humanity in the image of God, the subsequent distortion of that image due to the fall, an understanding of sin (both original sin, being sinned against, and habituated personal sins), and a relational understanding of Christian salvation as the deepest solution to the sin problem. This relational theology will be brought into conversation with a relational understanding of human nature from the vantage point of psychology and related disciplines in order to bring about a robust relational anthropology. This discussion will include integrating contributions from attachment theory, emotion research, neuroscience, infant research, and relational psychoanalysis. Special attention is given to helping the student come to their own depth understanding of the essential role human and divine relationships play in psychopathology and health, including the students’ own experience of and resistance to such an understanding. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTH 540 - Theology I: Theoretical Foundations of Integration
This course serves as an introduction to the content, methods, task, and goals of systematic theology, particularly for those students who have had little to no formal training in theology. It will provide an overview of the basic concepts in each of the topics in Christian doctrine and will discuss their inter-relationship to each other. The relevance of theological theories and concepts to psychological theories and concepts will be noted throughout the course. Special focus will be applied to the doctrine of the Trinity as the organizing principle for Christian theology. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTH 550 - Theology II: Spiritual Theology and the Dynamics of Change
This course treats the nature of new life in Christ, the role and meaning of the cross in the Christian life, and the process of formation in the Spirit. Particular attention is given to understanding the implications of life in Christ regarding guilt, shame, legalism, and loneliness as well as the New Covenant ministry of the Spirit in transforming the heart in light of the dynamics of original sin, early relational development, and the habits of sin developed over time. Attention is also given to the developmental stages of spiritual growth. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTH 560 - Theology III: Spiritual Theology and the Dynamics of Change II
This course continues the discussion of spiritual formation/sanctification with a focus on the means of grace. The course focuses on the Spirit’s use of the Word of God, the people of God, trials, and spiritual disciplines in Christian transformation. The interrelationship of natural formation and spiritual formation is also explored. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTH 570 - Independent Study
Individual work, directed reading or special problems in theology. Such study must be done with the approval and supervision of a faculty professor of record. The student is expected to submit a detailed course proposal on an arranged course form available from the Registrar’s Office. Note(s): Required courses may not be taken through independent study; elective. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTH 613 - Theology III: Spiritual Theology and the Dynamics of Change II
This course continues the discussion of spiritual formation/sanctification with a focus on the means of grace. The course focuses on the Spirit’s use of the Word of God, the people of God, trials, and spiritual disciplines in Christian transformation. The interrelationship of natural formation and spiritual formation is also explored. Note(s): Required of Doctor of Psychology and Doctor of Philosophy. Grade Mode: A.
Restriction(s): Must be Graduate Level or Doctoral Level.
RSTN 732 - Half-Time Internship
Professional experience of a two-year internship in a facility approved by the Professional Training Committee. Note(s): RSTN 731 or RSTN 732 is required. Grade Mode: C.
Prerequisite(s): Successful completion of comprehensive examinations, course requirements, professional qualifying examination, and an approval of a dissertation proposal.
Restriction(s): Must be Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 3.
Course Fee: $600.
RSTN 733 - Internship in Clinical Psychology-Continuation
Internship is a continuation of the full-time, year long, internship in Clinical Psychology, which continues through the summer term. Grade Mode: C.
Restriction(s): Must be Graduate Level or Doctoral Level.
RSTN 734 - Internship in Clinical Psychology - Fall Continuation
Internship is a continuation of the full-time, year long, internship in Clinical Psychology, which begins in mid-fall term and continues beyond the summer term into the fall term. Note(s): By permission only. Grade Mode: C.
Prerequisite(s): RSTN 731.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTP: Integration of Psychology and Theology

RSTP 500 - Psychotherapy and Religion
An introduction to the contributions a biblical understanding of human nature can make to the psychological practitioner's understanding of the therapeutic process. Special attention is given to the relational dimension of human growth and development. Note(s): Required of all first year students to be taken concurrently with Pre-practicum. Grade Mode: C.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSTP 705 - Psychology of Religion
A survey of the psychology of religion research emphasizing both content and methodological issues. Topics covered include religiosity and mental health, measures of religiosity, religious development, correlates of religiosity and psychological aspects of conversion and other religious aspects. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTP 500.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSTP 715 - Contemporary Psychoanalysis and Religion
The history of the concept of transference is traced, particularly as pertains to controversies in contemporary psychoanalysis over historical truth vs. narrative truth, and reality vs. illusion, with special attention to the formation and use of God as a foreground and background object in light of modern infant observational research. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSTP 721 - The Nature and Scope of Integration
This course includes a discussion of the models, levels and areas in which integration of the theological and psychological can occur, as well as a framework for conceptualizing the scope of integration. Grade Mode: A.
Prerequisite(s): RSTH 540.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSTP 725 - Psychotherapy and Spirituality
This course is designed to increase students' awareness of the integral process of growth in psychotherapy and spirituality. Course material focuses on an understanding of the nature of psychological and spiritual growth, and an experimental awareness of that growth process. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.

RSTP 732 - Mental Health and Christian Mission
This seminar style and experiential learning course explores ways clinical psychologists contribute to Christian outreach through care to missionaries, the global church, and to underserved populations. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.
Restriction(s): Must be Graduate Level or Doctoral Level.

RSTP 735 - Perspectives on the Self
This covers an overview of philosophical, theological, psychological, cross-cultural and spiritual perspectives on the self. It also considers the historical transition from focusing on the soul to the contemporary focusing on the self. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.

RSTP 744 - Integration and Therapy
The focus of this seminar is on 'explicit integration' in psychotherapy. The distinctives of the Christian therapist and therapeutic conceptualizations and intervention are examined. Note(s): Elective; course may be taken multiple times for credit with different emphasis. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSTP 745 - Maturity: Psychological and Theological Perspectives
This course investigates theoretically and experientially some of the major religious and secular approaches to the role of pain and suffering in human maturation. In particular, this course examines the role of pain/ suffering from the perspectives of Zen Buddhism, psychoanalytic theory, existential psychology, studies in post-traumatic growth, and Christian theology. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
RSTP 746 - Selected Topics and Issues in Integration  Credits 2-3
Occasional seminars are offered under this course designation with focus on some contemporary integration issue, controversy or special research interest. Note(s): May be retaken for credit. Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.
Repeat Limit (after first attempt): 10.

RSTP 750 - Perspectives on Human Nature  Credits 2
A critical examination of various theological and psychological anthropologies. Each student is expected to conduct an in-depth review of one theoretical perspective. Note(s): Elective. Grade Mode: A.
Prerequisite(s): RSTH 540 or RSTP 721.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSTP 760 - Independent Study  Credits 1-3
Individual study, directed reading or special problems in integration. Such study must be done with the approval and supervision of a faculty professor of record. The student is expected to submit a detailed course proposal and a bibliography on an arranged course form available from the registrar’s office. Note(s): Required courses may not be taken through independent study; elective. Grade Mode: A.
Restriction(s): Must be Rosemead Sch of Psychology; and Graduate Level or Doctoral Level.

RSTP 770 - Special Topics in Integration  Credits 1-3
Occasional seminars are offered under this course description that specifically identify current issues relevant to the integration of theology and psychology. This designation is to be used for 1–4 day courses offered at various times per year. Grade Mode: C.
Restriction(s): Must be Graduate Level or Doctoral Level.
SCHOOL OF CINEMA AND MEDIA ARTS

Mission
The mission of the School of Cinema and Media Arts Department is to develop a community that supports students exploring and expressing their faith and ideas with ever increasing creative and technical skills through the mastering of visual storytelling, entrepreneurial principles and critical reflection of media, inspiring these students to become leaders in the field.

Overview
The Biola School of Cinema and Media Arts is at the world's center for the development, creation, distribution and study of film, television and media. Since its founding in 1978 the media arts program has offered outstanding instruction and practice and now counts over 1,000 alumni in all areas of the entertainment industry and media production. The program has over 10,000 square feet of production space. A post-production computer lab will open Fall 2020 and a new 56,000 square foot media arts building is under development. The School of Cinema and Media Arts was designated Biola's ninth school in July, 2018.

Thanks to its location in Los Angeles county, the Studio Zone and nearby Orange County, students have unparalleled access to film, television, animation and video game agencies, libraries, producers and production companies.

The School of Cinema and Media Arts recognizes that a student can only truly excel in a chosen area of expertise through exposure to all elements of the art form, liberal arts, and a theological foundation. Consequently, there is an emphasis on cross-disciplinary work such as cinematographers writing stories, Cinema and Media Arts majors are the largest group in the Torrey Honors Institute, and all majors take a variety of Bible courses.

Cinema and Media Arts is currently composed of four areas of study: media production, writing for film and television, producing, and game design.

Applicants to the School of Cinema and Media Arts must submit a supplemental application and materials in addition to admission to Biola University. Please review the Cinema and Media Arts Admissions web page (https://www.biola.edu/film/) for more information.

Office of Cinema and Media Arts
The Office of Cinema and Media Arts serves the students and faculty of the program and is responsible for the development and day-to-day operations of the school. It is the starting point for all student services except for specific course related questions. The office is located in Perez Hall, and contact information for office staff and faculty can be found on the Cinema and Media Arts web page (https://www.biola.edu/film/about/).

Student Resources
Torrey Honors Institute
The Torrey Honors Institute is Biola's undergraduate honors program. Cinema and Media Arts has the largest enrollment within this program. Combining media studies with honors studies has produced some of our most successful graduates. Torrey Honors is distinct for its great books focus, small, discussion-only classes and one-on-one faculty mentoring. The program replaces most of the core curriculum and Bible requirements. giving you the opportunity to read and discuss hundreds of classic works to fuel your imagination and refine your storytelling. For more information and to apply, visit the Torrey Honors web page (https://www.biola.edu/torrey/).

Internships
Internships are crucial for transition from college to career. A minimum of 3-units of internship are required for every major. This can be three 1-unit internships, one 3-unit internships or any combination in between. Up to six units of internship can count toward graduation. The most prestigious internships are highly competitive and have submission deadlines and application materials that require extensive preparation. Contact the Internship Office in the Cinema and Media Arts Office or the Career Success Office in the university's Student Success department which also includes a peer internship advisor. With the proximity to the entertainment and gaming industries, students have access to internships at some of the largest and most influential studios and production companies.

Study Abroad Programs
Biola students can participate in a number of pre-approved off-campus programs. With these programs your tuition and most of your financial aid package remains the same as if you were on campus. For more information an applications visit the Study Abroad web page (https://www.biola.edu/studyabroad/programs/). Historically the programs of most interest to students in the School of Cinema and Media Arts have been:

- Biola London - Students enroll in a full semester of courses at Roehampton University in London. Courses can include general studies, media studies, media production or almost any other course you would find at a university.
- Los Angeles Film Studies Program - Students live, intern, and take film classes in the heart of Hollywood. The program is designed to accommodate significant internship opportunities in close proximity to major studios.
- Contemporary Music Center - A semester in Nashville with the opportunity to focus on music recording, artist performance or music industry management.

Greenlight
Greenlight is the process for students to reserve equipment for projects that are not part of regular course assignments. See the department for information on starting the process which works through script submission, production schedule, budget, insurance, permits and other necessary logistics.

School of Cinema and Media Arts Scholarships
The school offers a small number of scholarships each year based on need and merit. Applications are due approximately March 1 for the following academic year.

Film Festival Relations
Students are encouraged to submit their work to appropriate festivals and competitions. Each semester grants are awarded to assist students with strategy and submissions.

Cinema and Media Arts Chapel
Cinema and Media Arts students and faculty meet monthly for a unique time of worship, fellowship and exploration of the abilities and calling
God has granted to us and others. A wide range of special guests and experiences makes this family time an essential part of our growth as an artistic community.

**Student Clubs**
The Cinema and Media Arts departments supports student clubs based on interests, passions, and pursuits. Each club allows students to interact outside of the classroom setting to discuss films, evaluate each other’s work, and collaborate. Examples of current clubs are The Essentials Film Club and Weekend Film Club.

**Student Newsletter Archive**
The Office of Cinema and Media Arts maintains an archive of weekly student updates (https://productioncenter.biola.edu/newsletter.html).

**Student Job and Internship Archive**
The Office of Cinema and Media Arts maintains an archive of job and internship announcements (https://productioncenter.biola.edu/newsletter.html). See the department for more details.

**Learning Opportunities**

**Biola Sundance**
As part of the Sundance course students can spend a week at the Sundance Film Festival in Park City, Utah during January. Students obtain access to film screenings, filmmakers and industry workshops. As a Windrider participant, students engage with other Christian filmmakers from around the world on faith, film and culture.

**In Focus Forums**
Designed to spark candid conversations, creativity and inspiration, the In Focus Forums are workshops and events held every semester that bring top industry professionals to our cinema and media arts students. The mission of the In Focus Forums is for students to not only be encouraged and inspired, but equipped with a tangible game plan to push their artistry, career and faith forward.

**Biola Screenings**
Cinema and Media Arts holds multiple screenings every semester and goes behind the scenes with a question and answer with filmmakers and/or cast and crew. From major theatrical releases to documentaries, independent films and alumni work, Biola Screenings are a how to for students to tell stories that make an impact.

**Screeners**
The Office of Festival Relations presents Screeners, which meets to review award-winning short films on the festival circuit. Festival programmer guests discuss submission strategies and how to make the most of your experience once your film gets selected to a festival. Student work is also screened for peer feedback.

**Production Facilities**
The School of Cinema and Media Arts maintains a variety of production support facilities for students, including but not limited to the following.

For an introduction click here for the Studio Facilities web page (https://www.biola.edu/film/about/studio-facilities/). The page includes a virtual tour of facilities. For more detailed information, click here for the Production Center web page (https://productioncenter.biola.edu/) to access the student manual and other forms. Studios and editing facilities are available 24 hours a day to current students.

- Equipment Room - Field gear for student use including cameras, lenses, support, lighting, audio and anything else needed for field production. Cameras are available from various manufacturers including RED, Sony, and Canon.
- Grip Truck - 3-ton grip truck including basic grip package for location production.
- Post Production Lab - Dedicated computer lab to support post production editing, game design, animation, visual effects and other computationally intensive production.
- Screening Room - 38-seat exhibition space with Christie projector and Genelec surround sound
- Studios - Studio A: 1,810 SF soundstage, Studio B: 1052 SF post production editing, game design, animation, visual effects and other computationally intensive production.
- Studios - Studio A: 1,810 SF soundstage, Studio B: 1052 SF soundstage with 12’ green screen cyclorama and multi-camera setup, VO: 150 SF anechoic room for voice over, ADR, Foley, and instrument recording
- Edit bays and audio mixing rooms.

**558 Alumni Network**
The 558 Alumni Network is an independent professional association for alumni of Biola University in the entertainment & creative industries. Members work in film, television, music, theatre, photography, video games, design, advertising, brand management, interactive, new media and other related fields. Seniors are invited to participate in 558 activities to help guide their transition from college to career. Participation in 558 after graduation is contingent open an application to 558.

**General Requirements**

**Substitution or Waiver of Course Requirements**

Under special circumstances waivers or substitutions are granted. Contact the Office of Cinema and Media Arts. Waivers require demonstrated competence in all areas of a course and must be supported by the instructor of the course. Substitutions are considered on a case by case basis. All course waivers and substitutions must be approved by the Dean.

**Acceptance of Transfer Units**
The School of Cinema and Media Arts does not accept courses taken in film and/or television production at other institutions to fulfill degree and minor requirements. Up to 9 credits in basic media history, appreciation, or criticism courses can sometimes be accepted for transfer credit. No transfer credit will be accepted in lieu of CNMA 240 Introduction to Production I: Directing in Narrative, Documentary and Serial Media, CNMA 245 Introduction to Production II: Media Lab, and upper-division production courses.

**Student Advisement**
It is the goal of Cinema and Media Arts that students move through their academic programs in a timely minor. Majors are expected to meet with an advisor every semester to review their progress. Advisors are available to answer questions about degree programs, grades, advisement and other matters. Academic course advising is provided through students’ faculty advisors in the Office of Cinema and Media Arts, or through the university’s Advising Center and their peer academic advisor.

**Minimum Grade Point Average Requirements**
A minimum grade of C must be earned in all required and prerequisite courses in order to progress to the next course level. Students may attempt to improve a grade lower than a C only one time by registering and retaking the specific course. Departmental approval is required in order to retake a School of Cinema and Media Arts (CNMA) course.
In addition, a minimum grade point average of C must be achieved to earn all cinematic arts degrees. Students who do not satisfy the degree requirement after repeating a class or maintain the minimum grade point average will be disqualified from the program.

Faculty
Interim Dean and Chair: Gerald Fisher, Ph.D.
Professors: Fisher, Gonzales
Associate Professors: Schmidt, Swain, Tucker, Yamada
Assistant Professors: Steffen, Vang
Emeritus Professor: Nash

Cinema and Media Arts, B.A.

Mission
Biola’s Cinema and Media Arts major seeks to usher in a new renaissance in media arts. We follow God as the ultimate creative force and communicate this with the world around us. Our location in Southern California allows us to access media professionals working in Hollywood, securing guest speakers, prime internships and additional resources via our Biola Studio Task Force.

Degree Program
Upon completion of the University baccalaureate and major requirements, the Cinema and Media Arts Department offers the Bachelor of Arts degree in Cinema and Media Arts.

A Cinema and Media Arts degree is 44-45 credits, depending on the concentration chosen (detailed below). 24 credits in the degree must be upper-division.

On-Campus Study Opportunities

Guerrilla Film Society
A student-created, student-led organization dedicated to the art of filmmaking. Weekly GFS meetings allow CMA majors to exchange information, announce upcoming projects, connect and collaborate with potential crew members, and rally around new and classic films.

Sophias
Sophia is Greek for wisdom and is the name of the club for the support of female film majors. Weekly meetings encourage and support members and allow for unique interaction with guest speakers. Regular social activities are held.

Biola Film Festival
An annual celebration of the best films created by CMA and other students. This campus-wide event recognizes and awards achievement in acting, directing, screenwriting, production design and editing.

Studio Task Force
Over 250 media professionals gather on a quarterly basis to support and empower Biola’s Cinema and Media Arts department. These committed Christians work throughout the entertainment industry, allowing Biola students to draw upon their expertise and connections. The Parents Task Force comes alongside Biola’s students to complement the programs and activities of the CMA department, including special premiers, fundraisers, and galas.

Biola Media Conference
Once a year we bring hundreds of media industry professionals together for an all-day conference on a wide range of media related topics. Given Hollywood’s global influence, this event attracts participants from around the world and has grown into the largest gathering of Christian media professionals in the nation. For-up-to-date information visit the Biola Media Conference (http://biolamedia.com/) website.

Cinema and Media Arts Chapel
CMA majors meet monthly for a unique time of worship, fellowship and exploration of the abilities God has granted us and others. A wide range of special guests and experiences makes this ‘family time’ an essential part of our growth as an artistic community.

Internships
Biola’s proximity to Hollywood and the entertainment industry affords CMA majors prime internship opportunities. Our Studio Task Force has extensive contacts in all facets of mass media, from massive movie studios to smaller production companies. Our students find internships to suit their interests and career plans. An internship is required of all majors.

Off-Campus Opportunities
Biola offers several off-campus study opportunities fitting for students earning a Bachelor of Arts in Cinema and Media Arts. More information about these experiential learning programs can be found in the Study Abroad and Study USA (p. 51) section of this catalog, or on the CCCE (https://www.biola.edu/studyabroad/programs/) website. Students interested in one of these programs should consult with an advisor as early as possible.

Los Angeles Film Studies Center

Biola Sundance
Students attend Sundance Film Festival, the leading venue for independent film, where they sit in on screenings, filmmaker interviews, course lectures, and participate in dialogues on film and faith. This experiential class is held in Park City, Utah.

Japan Film Program
Biola’s Cinema and Media Arts department offers a course where students produce short or feature length films in conjunction with writers
and producers in Tokyo, Japan. When this course is offered, a typical cycle will encompass two semesters and travel to Japan.

**Contemporary Music Center**

For musicians or sound recorders who wish to work behind the scenes in the music industry, this program gives you a semester-long opportunity to study the music industry. You spend most of the semester in beautiful Martha's Vineyard, plus have an intensive field experience in Nashville.

**Learning Outcomes**

**Program Learning Outcomes**

Upon completion of the Bachelor of Arts in Cinema and Media Arts, students will be able to:

1. Identify the basic components of theory, history and practices of cinema and media arts (ULO 1).
2. Demonstrate their ability to integrate their faith and distinguish between biblical and unbiblical practices in the cinema and media arts discipline (ULO 2).
3. Apply their knowledge of cinema and media arts to the world of their craft (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admission Requirements**

The entertainment industry is a highly competitive, creative, and demanding business. Admission to Cinema and Media Arts (CMA) is separate from and contingent upon your admission to Biola University. Admission to Biola University does not guarantee admission into the CMA major. Applications to the CMA major will not be considered until after the applicant has been admitted to Biola University. Notifications concerning your acceptance to the CMA major will be processed by groups as listed on the application schedule page available from the Admissions Department.

After you have completed your application to Biola University, complete your application online (https://www.biola.edu/cinema-and-media-arts-ba/application-process/) by the appropriate deadline indicated on the website.

Please be assured that media production experience is not a prerequisite for admission into the CMA major. Our program will show you how to use the tools. We are more interested in leadership ability, creative thinking, problem solving, and dreamers of credible character. The full department faculty will prayerfully review your application. Notification letters will be sent out by the deadlines listed in the schedule. You will be notified of your acceptance, placement on a waiting list or rejection.

If you have any questions about the status of your application, please call the department administrative assistant at (562) 777-4052 or write to:

Acceptance Committee  
Cinema and Media Arts Department  
Biola University  
13800 Biola Avenue  
La Mirada, CA 90639

CMA Students are encouraged to purchase a computer with video editing software. While we understand the financial strains of such equipment expenditures, we also recognize that this technologically driven major involves costs well beyond the textbooks that serve as the essential tools for many other undergraduate departments. Contact the department for specific equipment recommendations.

**General Requirements**

All Cinema and Media Arts majors must achieve a minimum grade of C in all major courses taken at Biola. Anyone receiving a lower grade must repeat the course and receive a C or better.

The total number of credits for major area credit from practicum, internship and directed research courses may not exceed 9 credits.

**Concentrations**

The production concentrations below offer students a thorough grounding in, and overview of, the key creative components of film, television, audio and digital media. Students are encouraged to develop their creative and technical skills, training for positions as directors, cinematographers, gaffers, editors, sound designers, recording engineers, production designers and many others.

All production concentrations generally take the same courses during the first two years and then developing a comprehensive specialization in a profession in the last two years of study. The production concentrations are cinematography, directing, editing, production, sound design, and visual effects. While the focus is professional, it is combined with a strong liberal arts background through Biola's core curriculum and courses from other schools' programs in critical studies, writing, producing, and interactive media.

Entertainment Business
The Entertainment Business concentration is designed to prepare students for careers as producers and executives of film, television, and new media. The curriculum places emphasis on both the creative and managerial, to enhance and develop artistic skills and judgement while providing a sound background in business essentials. The producing courses are continually updated to ensure that the Entertainment Business concentration remains responsive to the ever-changing film, television, and new media landscape, and prepare students for careers as creative decision-makers in those fields. By combining classes in mass media and business, students are equipped to serve as producers or as development and marketing executives, en route to corporate management.

Entertainment Producing
The Entertainment Producing concentration introduces students to the business principles that drive the entertainment industry. Media managers make strategic decisions regarding what films get produced and what TV shows get broadcast. By combining classes in mass

1. CNMA 440 must be taken for a total of 3 credits.
media and business, students are equipped to serve as producers or development and marketing executives, en route to corporate management.

Because producers are creative and entrepreneurial filmmakers, the required courses in the Entertainment Producing concentration is varied from courses in Cinema and Business. A total of 45 credits is required to complete the concentration, 38 program credits with 7 credits of upper-division electives.

**Writing for Film and Television**

Stories matter. You matter. You and your stories matter to us. The Writing for Film and Television concentration covers the fundamental elements of storytelling—from conception (the pitch and the outline), to execution (the script), to the all-important rewriting and polishing process.

The Writing for Film and Television concentration teaches you how to find your unique voice and learn the craft to write scripts that will attract attention in the entertainment industry. In this comprehensive program, you will learn every element of the screenwriting process from story idea to script. Through our lectures and workshops, your work will be further refined so that you will develop your own storytelling voice while receiving constructive feedback from your peers and instructors who are working professional screenwriters.

**Course Sequence**

**NOTE**: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Game Design and Interactive Media, B.A.

Mission

Biola's Game Design and Interactive Media major prepares students to design innovative games that glorify God through emotionally resonant stories and interactive mechanics. Located in one of the game industry's top metro areas, Biola is uniquely positioned to train designers who tell stories that matter.

Degree Program

Grounded in game history and design theory, students are challenged to create original mechanics (game rules) that complement the narratives they are developing. These mechanics are tested and perfected through an iterative prototyping process which includes both paper and digital prototypes. Students also take a foundational sequence of courses in cinematic storytelling, including screenwriting and visual aesthetics. This culminates in an advanced team project where students complete a shippable game with an underlying theme inspired by their faith.

Freshman Year

Games represent a convergence of different mediums, so freshman year introduces students to the fundamentals of cinema, 3D art and computer programming. The cinema courses are shared with writing and production students, which helps foster community and develop a common language for visual storytelling. Students also take an introductory course in game history, learning about seminal games and designers, and seeing firsthand how technology has influenced the evolution of gameplay.

Sophomore Year

Sophomores are introduced to the iterative game design process. Students begin by defining the player experience they envision. Next, a “core mechanic” is chosen — this is the primary gameplay goal and method of interactivity. Students then create paper prototypes and playtest them to verify the chosen mechanic and gain feedback from fellow students. This process continues until a design is finalized.

Junior Year

Junior year goes beyond the fundamentals. Game Narratives explores how to effectively integrate story with gameplay — no easy feat, due to the interactive nature of games. Game Engines gives students familiarity with the technical tools of game development, emphasizing programming and building interactive 3D worlds. These two courses lead to Intermediate Game Design, where teams of students create digital prototypes that explore themes of faith and culture through gameplay and story. Also in Level Design, students break down their games into individual moments, designing puzzles, level architecture, and emotional feedback systems.

Senior Year

Seniors take everything they have learned and produce several polished digital games ready for distribution. In Advanced Game Design, project teams continue the designs they started in the intermediate course and use an iterative production process to finish and “ship” their game. Then in Senior Media Project, each student has the opportunity to lead a project team in the creation of their own short game or vertical slice game level. The games produced in both courses will be suitable for entering in independent games festivals such as IndieCade and IGF.

Students will have the opportunity to gain real-world experience as an intern at a game studio or media company. Additional opportunities for growth include the Integration Seminar, which helps students explore how to bring their faith to game design — be it through evangelism, service or simply by being a light in secular industry.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Bachelor of Arts in Game Design and Interactive Media, students will be able to:

1. Identify the basic components, theory, history and practices of game design (ULO 1).
2. Demonstrate their ability to integrate their faith and distinguish between biblical and unbiblical practices in the discipline of game development (ULO 2).
3. Apply their knowledge of game design, narrative design, art and producing to the world of their craft (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

The entertainment industry is a highly competitive, creative, and demanding business. Admission to the Game Design and Interactive major is separate from and contingent upon your admission to Biola University. Admission to Biola University does not guarantee admission into the major. Applications to the major will not be considered until after the applicant has been admitted to Biola University. Notifications concerning your acceptance to the major will be processed by groups as listed on the application schedule page available from the Admissions Department.

After you have completed your application to Biola University, complete your application online (https://www.biola.edu/cinema-and-media-arts-ba/application-process/) by the appropriate deadline indicated on the website.

Please be assured that media production experience is not a prerequisite for admission into the major. Our program will show you how to use the tools. We are more interested in leadership ability, creative thinking, problem solving, and dreamers of credible character. The full department faculty will prayerfully review your application. Notification letters will be sent out by the deadlines listed in the schedule. You will be notified of your acceptance, placement on a waiting list or rejection.

If you have any questions about the status of your application, please call the department administrative assistant at (562) 777-4052 or write to:

Acceptance Committee
Cinema and Media Arts Department
Biola University
13800 Biola Avenue
La Mirada, CA 90639
Game Design and Interactive Media students are encouraged to purchase a computer with video editing software. While we understand the financial strains of such equipment expenditures, we also recognize that this technologically driven major involves costs well beyond the textbooks that serve as the essential tools for many other undergraduate departments. Contact the department for specific equipment recommendations.

**General Requirements**

All Cinema and Media Arts department majors must achieve a minimum grade of C in all major courses taken at Biola. Anyone receiving a lower grade must repeat the course and receive a C or better.

**Curriculum Requirements**

The Games and Interactive Media degree combines traditional cinematic storytelling techniques with new interactive mediums to develop game designers and media artists with a Christian world view. This concentration focuses specifically on story-centric game design, while incorporating some 3D animation, visual effects, virtual reality, and computer programming.

Total Credits 45

1. The total number of credits for major area credit from practicum, internship and directed research courses may not exceed 9 credits.

**Course Sequence**

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Total Credits 31
A Media Studies Minor is offered with the completion of 18 credits.

Curriculum Requirements

- Theories and a diverse set of individual, social and professional practices.
- To examine the complex relationship between communication/media and journalistic impact, the remaining elective classes allow for a student to explore media's sociological, rhetorical, aesthetic, literary, and/or linguistic and communication theories of ideology and meaning-making.
- By exploring media's sociological, rhetorical, aesthetic, literary, and/or journalistic impact, the remaining elective classes allow for a student to examine the complex relationship between communication/media and the unconscious influences at play when we interpret and create mediated communication. This includes understanding psychological theories of perception, the impact of media technologies, the economic infrastructure of media, and the ongoing, surprising activity of the Holy Spirit.

Overview

In order to address the pervasiveness of media across multiple disciplines, the Media Studies Minor is intended as a compliment to any major that foresees the integration of media into their future career goals. The unconscious influences are identified and analyzed so that students are equipped with the knowledge necessary to interact with media shrewdly and purposefully regardless of their field of study.

The core courses are designed to illuminate the unconscious influences at play when we interpret and create mediated communication. This includes understanding psychological theories of perception, the impact of media technologies, the economic infrastructure of media, and the linguistic and communication theories of ideology and meaning-making.

By exploring media's sociological, rhetorical, aesthetic, literary, and/or journalistic impact, the remaining elective classes allow for a student to examine the complex relationship between communication/media theories and a diverse set of individual, social and professional practices.

Program Courses

- **CNMA 102** - Visual Aesthetics 3
- **CNMA 205** - Perception and Media 3
- **CNMA 353** - Media Literacy 3
- **COMM 254** - Communication Theories 3

Program Electives

Select 6 credits from the following:

- **CNMA 320 or SOCI 460** - Advanced Studies in Criticism 3 Topics in Sociology
- **CNMA 420** - Coverage and Development for Film and TV
- **CNMA 454 or SOCI 454** - Film, Television, and the Arts: Racial and Gender Issues
- **COMM 348** - Rhetoric of Media Studies
- **COMM 465** - Rhetorical Criticism
- **ENGL 230** - Topics in Diverse Literatures (fulfills Core Curriculum Literature requirement) 2
- **JOUR 342** - Visual Meaning
- **JOUR 464** - Philosophy and Ethics of Media

Total Credits 18

1. Media Studies Minor students must take the SOCI 460 section entitled 'Visual Sociology.'
2. Media Studies Minor students must take the ENGL 230 section entitled 'Dystopian Literature and Film.'

School of Cinema and Media Arts Courses by Discipline

- **CNMA: Cinema and Media Arts**

**CNMA 101 - Introduction to Visual Storytelling** 3 Credits

An introduction to the building blocks of storytelling: character, setting and plot. Students will read and study the steps of the Hero's Journey as used in current Hollywood films. They will analyze story structure, write short stories and create film ideas and short screenplays. Special emphasis will be given to the history, art and aesthetics of storytelling.

**Grade Mode:** A.

**Restriction(s):** Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

**Course Fee:** $40.

**CNMA 102 - Visual Aesthetics** 3 Credits

Through an introduction to the building blocks of visual storytelling, students will learn to use film grammar to tell their stories effectively. Special emphasis will be given to lighting, color, shape, line and space.

**Grade Mode:** A.

**Restriction(s):** Must be a major in Cinema and Media Arts (CNMA), Game Design and Interactive Media (CNGM), or a Media Studies minor (CNMS); and Undergraduate Level.

**Course Fee:** $60.
CNMA 103 - Introduction to Digital Media Production Credits 3
Creative teams discover the building blocks of media: the writing, directing, shooting and editing of pictures and sound to create short films. Note(s): Open to non-CNMA majors with departmental permission. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $60.

CNMA 104 - History of Cinema Credits 3
Creating historians via a survey of the development of the motion picture including the evolution of motion pictures as an art form, classic Hollywood narrative structure, technological developments, communication medium, and industry. Films screened in the course will be analyzed from perspectives of auteur theory, genre theory and thematic criticism. Special emphasis will be given to cultural criticism locating films in their unique time and place. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $40.

CNMA 105 - Perception and Media Credits 3
This course focuses on the role perception plays in our relationship with media. While we may feel as though our perception is thorough and complete in our experience of the world, it is actually partial at best. However, that does not prevent us from interpreting our world. In this course we will explore the numerous ways in which we compensate for that perceptual deficit. These practices take on added significance when we perceive and interpret mediated images. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

CNMA 106 - Game Design Fundamentals Credits 3
A comprehensive introduction to the basic tools and principles of game design, including mechanics, system dynamics, dramatic elements, level design and user experience design. Students design and playtest several original game ideas through iterative physical prototypes. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

CNMA 107 - Introduction to Production I: Directing in Narrative, Documentary and Serial Media Credits 3
Introduction to Production I: Directing has three modules that overall introduce the major categories of historical media production; narrative (fiction), documentary and serial/streaming/new media. One third of the semester will be spent in each area. Students will participate in exercises, lectures, and discussions in each of the areas and work in a team of three to produce an example in each category each. Students will be randomly assigned to direct their team for one category. Classes will include basic film theory and grammar, writing, practical directing techniques, interviewing, identifying documentary and other intellectual property, and serializing stories. Grade Mode: A.
Prerequisite(s): CNMA 102, CNMA 104, CNMA 203.
Corequisite(s): CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $200.

CNMA 108 - Introduction to Production II: Media Lab Credits 3
The tools, principles and aesthetics of the major crafts of media arts production: producing, cinematography, sound design and editing. This course is taken current with CNMA 240 Introduction to Production: Directing and provides the resources for completing the projects for that course. Grade Mode: A.
Prerequisite(s): CNMA 102, CNMA 104, CNMA 203.
Corequisite(s): CNMA 240.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $200.
CNMA 251 - Sound Design  Credits 2
An introduction to the theory and practice of storytelling with sound. Topics include physics, acoustics and psychoacoustics of sound, field and studio sound recording, multi-track mixing and editing, Foley, automatic dialog replacement, and sound effects as applied to film, television, games, recording arts and other media.  Grade Mode: A.
Prerequisite(s): CNMA 101, CNMA 102, CNMA 240, CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 262 - Directing for TV and Film  Credits 2
Covers all aspects of directing for motion pictures and television. Includes emphasis on the director’s role and responsibility in the following stages: script, casting, actors, pre-production, camera, post-production. Also covers the director’s spiritual preparation and integration into the craft. Students complete one short film.  Grade Mode: A.
Prerequisite(s): CNMA 101, CNMA 102, CNMA 240, CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $40.

CNMA 301 - Transmedia Design  Credits 2
Introduction to the techniques of storytelling across multiple emerging technology platforms and formats such as streaming on YouTube and virtual reality. Explores the history and convergence of the Internet with personal computers. Topics include web design, media streaming, small screen production, apps for smartphones, graphic design, interactivity, augmented reality, audio and video formats for new media; computer hardware, operating systems, networking and content management systems.  Grade Mode: A.
Prerequisite(s): CNMA 102 or BUSN 212.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 302 - Production Management  Credits 3
Covers the budgeting and scheduling necessary for media production. Students learn the parameters considered in making decisions to balance the creative goals and logistical demands of production. Matters of insurance; deal negotiation; contracts; union rules (including SAG-AFTRA, DGA, IATSE) copyright and clearance issues; management of crew; liaison difficulties with studios, clients and outside publics; and other issues will be covered. Evaluation of students’ understanding will be based on a budget and schedule for a one hour single camera drama they will be required to complete, as well as pertinent test and quizzes.  Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $50.

CNMA 303 - Cinematography  Credits 3
Explores the aesthetics and technology of the film image. Students will understand basic composition, lighting and exposure, and what makes an image attractive to the human eye. Significant lab/hands-on experience included with an emphasis on cameras, lighting, grip and electric.  Grade Mode: A.
Prerequisite(s): CNMA 240, CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 305 - Intermediate Game Design  Credits 3
Building on game design concepts learned in Fundamentals, this course focuses on creating digital prototypes in order to develop a design suitable for production in the advanced course. Topics include game balancing, control schemes, and testing for completeness and accessibility. This course also continues to explore how to design story and game mechanics that convey a Christian worldview.  Grade Mode: A.
Prerequisite(s): CNMA 215, CNMA 327.
Corequisite(s): CNMA 325.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 307 - Sound Design  Credits 3
An introduction to the theory and practice of storytelling with sound. Topics include physics, acoustics and psychoacoustics of sound, field and studio sound recording, multi-track mixing and editing, Foley, automatic dialog replacement, and sound effects as applied to film, television, games, recording arts and other media.  Grade Mode: A.
Prerequisite(s): CNMA 240, CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 310 - Visual Effects and Motion Graphics  Credits 3
An examination of digital visual effects for film, television, games and other media. The class covers basic 2-D and 3-D modeling, compositing, digital lighting, mattes, animation and the vfx pipeline. Participants should have extensive computer experience.  Grade Mode: A.
Prerequisite(s): CNMA 240, CNMA 245, CNMA 301.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 311 - Level Design  Credits 3
This course takes general game design concepts learned in Fundamentals and applies them to game levels. Like scenes in a movie, game levels define the individual moments where gameplay and story unfold. Topics include teaching the player how to play, emotional feedback systems, puzzle design, modular design, and parallels to architecture and theme park design.  Grade Mode: A.
Prerequisite(s): CNMA 215, CNMA 327.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

CNMA 312 - Screenwriting II  Credits 3
This intermediate-level course guides students through the development of a synopsis and treatment and completion of a feature-length screenplay with instruction in theme, structure, plot, character, mise-en-scene and utilization of cinematic elements.  Grade Mode: A.
Prerequisite(s): CNMA 203.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $20.
CNMA 315 - Editing for Film and Television Credits 3
An intense study of the craft and role of the editor as storyteller. Covers various genres and formats such as features, documentaries, short films and trailers. Emphasis on the editor’s role in other aspects of post-production, including audio, music, color correction, digital effects and distribution masters. Several individual projects allow hands-on practical learning. Grade Mode: A.
Prerequisite(s): CNMA 240, CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 317 - Directing for TV and Film Credits 3
Covers all aspects of directing for motion pictures and television. Includes emphasis on the director’s role and responsibility in the following stages: script, casting, actors, pre-production, camera and post-production. Also covers the director’s spiritual preparation and integration into the craft. Students complete one short film. Grade Mode: A.
Prerequisite(s): CNMA 240, CNMA 245.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $40.

CNMA 320 - Advanced Studies in Criticism Credits 3
A detailed critical study of a particular auteur, genre, era, nation or theme. The course will be offered with a rotating series of subjects and professors focused upon film or broadcast history. Note(s): May be taken multiple times for credit. Grade Mode: A.
Restriction(s): Must be a major in Cinema and Media Arts (CNMA), Game Design and Interactive Media (CNGM), or a Media Studies minor (CNMS); and Undergraduate Level.
Repeat Limit (after first attempt): 10.
Course Fee: $40.

CNMA 323 - Writing the One-Hour Drama Pilot Credits 3
An advanced workshop in which students write an original one hour-long dramatic series pilot script and TV show bible that includes a summary of characters and storylines. Grade Mode: A.
Prerequisite(s): CNMA 203.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 325 - Designing Game Narratives Credits 3
An exploration of how storytelling acts as a vital mechanism for driving gameplay forward to tell emotionally-resonant stories using the medium of digital games. Relevant story-driven games will be analyzed, and techniques such as branching narratives, procedural stories, and environmental storytelling will be discussed. Students will create a design document for a game that tells a story. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

CNMA 327 - Game Engines Credits 3
A hands-on workshop in creating interactive game environments using industry-standard game engine software. Topics include level building, materials, lighting, cut-scenes, animation, artificial intelligence, visual effects and programming to respond to player actions. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

CNMA 331 - Motion Picture Script Analysis Credits 3
Classic and contemporary award-winning films will be screened along with critical analysis to reveal the hidden story structure within them. Emphasis is on the principles of screen storytelling by identifying key story concepts, elements of the eight-sequence structure, and character development. This course does not require previous writing or production experience. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

CNMA 350 - Advanced Studies in Media Production Credits 1-3
Aspects of theory and practice in media production. Note(s): May be taken multiple times for credit with different course content. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (after first attempt): 10.
Course Fee: $40.

CNMA 351 - Writing the Scene Credits 3
This course will take students through the study of story premise, outline, treatment and draft as it pertains to both feature motion pictures and television plays. Students will write each of these various elements in the process of screenplay development. There will be thirteen writing assignments during the semester. Each student’s material will be reviewed and critiqued by the instructor and the students in the class one week later. Several of the assignments will be rewritten after notes have been given. Grade Mode: A.
Prerequisite(s): CNMA 203.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 352 - Character Development and Dialogue Credits 3
An exploration of characters and dialogue in TV and film, utilizing various techniques to create unique, unforgettable characters and rich dialogue. A variety of scenes will be written throughout the course with an emphasis on creativity and imagination. Grade Mode: A.
Prerequisite(s): CNMA 203.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 353 - Media Literacy Credits 3
This course will cover the effect of visual media on society and the noticeable absence of learning the grammar of visual language within the educational process. Instead of relegating the study of media to a simple inoculation against negative images, this course seeks to understand and celebrate the quite human process of media creation and consumption with the hope of restoring agency to the audience and accountability to the creator. Grade Mode: A.
Restriction(s): Must be a major in Cinema and Media Arts (CNMA), Game Design and Interactive Media (CNGM), or a Media Studies minor (CNMS); and Undergraduate Level.

CNMA 354 - The TV Writer’s Room - One-Hour Spec Credits 3
Taught in the mode of a TV writer’s room in which the instructor is the showrunner, students will each write an episode of an existing dramatic television series within the hour-long format with an emphasis on conception, pitching, characterization and structure. Grade Mode: A.
Prerequisite(s): CNMA 312.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $50.
CNMA 355 - Television Programming  Credits 3
A study of the television business from a programming perspective. Students learn how programming of each season reflects the culture, sociological, and economic trends of the times. A variety of sitcoms, dramas and variety shows are viewed and students learn how current programming has developed from formats that were successful in the 1950s through the present. Grade Mode: A.
Prerequisite(s): CNMA 101.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 358 - Motion Picture Pre-Production  Credits 3
The first course of a two-course sequence (358 and 359) in which a dramatic film will be produced. This course emphasizes the essential pre-production aspects including script development, budgeting, casting, set construction, location surveys, and develops skills in using production equipment. Grade Mode: A.
Prerequisite(s): CNMA 240, CNMA 245, CNMA 302.
Corequisite(s): CNMA 359.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 359 - Motion Picture Production  Credits 3
Principal photography will be done for the film project begun in 358. Emphasizes lighting, camera operation, sound recording and directing. Grade Mode: A.
Prerequisite(s): CNMA 251, CNMA 262, CNMA 303, CNMA 315.
Corequisite(s): CNMA 358.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 360 - The TV Writer's Room - Writing the Half Hour Spec  Credits 3
Taught in the mode of a TV writer's room in which the instructor is the showrunner, students will each write an episode of an existing half-hour comedy series, with emphasis on the anatomy of a joke, comedic structure and character. Grade Mode: A.
Prerequisite(s): CNMA 203.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 361 - Intermediate Production: Narrative  Credits 3
The planning and creation of a short fiction film or TV project with a special emphasis upon collaboration. Students will form crews, practicing the crafts of writing, directing, cinematography, editing and sound design. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 362 - Intermediate Production: Documentary  Credits 3
The planning and creation of short documentary projects with a special emphasis upon collaboration. Students will form crews, practicing the crafts of writing, directing, cinematography, editing and sound design. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 364 - Media Performance  Credits 3
Use of acting skills in front of television cameras using scenes from actual television and film scripts. Includes critiques of acting methods. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 365 - Digital Audio Editing and Post Production  Credits 3
Exploration of digital audio editing. Entirely computer-based exploration of developing, composing, recording, mixing and posting audio for film, television and recording arts. Grade Mode: A.
Prerequisite(s): CNMA 251.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $25.

CNMA 366 - Film and Television Adaptation  Credits 3
A practical workshop in adapting material from other media, such as novels, comic books, graphic novels, short stories, magazine and newspaper articles, and biographical materials into scripts for TV and film. Grade Mode: A.
Prerequisite(s): CNMA 101.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 370 - Sundance Film Festival  Credits 2
The Sundance Film Festival is the leading venue for independent film premieres. This course is an immersive plunge into the art and commerce of the entertainment industry taking place in Park City, Utah during the second week of the Sundance Film Festival. The festival will serve as a laboratory as students attend screenings, discussions and seminars. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (total number of credits): 4.
Additional Fee(s): Variable fee to cover lodging, screenings and seminars.

CNMA 375 - Showrunning Media  Credits 3
An introduction to the fundraising, creating and producing, promoting, branding and distribution of a short television series. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 392 - Principles of Advertising  Credits 3
Advertising principles and techniques. The study of effective and ineffective forms of advertising. Applications linked to public relations, media events, marketing and communication encounters. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 394 - Media Events  Credits 3
An introduction to media events such as festivals, conventions, and conferences. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $25.

CNMA 401 - Advanced Game Design  Credits 3
Working from a design document created in the intermediate course, students will develop a complete game or game level, suitable for submission to game festivals. Special emphasis will be placed on learning and using an iterative production process such as Agile Scrum. Grade Mode: A.
Prerequisite(s): CNMA 305, CNMA 310.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.
CNMA 405 - Understanding Representation Credits 2
This course will involve learning the importance of representation for the writer, how to get representation, and how to develop this relationship to one’s best advantage, learning basic contracts that professionals in the industry will need in order to do business in their areas. In addition, this will include packaging and pitching of projects, which students will learn to reduce ideas to basic components enhancing verbal presentation skills. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 420 - Coverage and Development for Film and TV Credits 3
Students will analyze scripts as potential properties, write coverage from the perspective of a production company, and write development notes with the goal of improving purchased scripts prior to their production. Grade Mode: A.
Prerequisite(s): CNMA 310.
Restriction(s): Must be a major in Cinema and Media Arts (CNMA), Game Design and Interactive Media (CNGM), or a Media Studies minor (CNMS); and Undergraduate Level.

CNMA 425 - Advanced Audio Recording Credits 3
Development of advanced aesthetics and techniques in mixing, recording, editing and processing audio for music production. Includes both studio and live recording of musical performances. Developing a master CD is the final project of the class. Grade Mode: A.
Prerequisite(s): CNMA 365.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $50.

CNMA 430 - Advanced Visual Effects Credits 3
An advanced workshop in visual effects, this course continues to build compositing and motion graphics techniques while exploring new topics such as 3D camera tracking (match moving), motion capture, pre-visualization, and production-quality 3D content creation. Grade Mode: A.
Prerequisite(s): CNMA 310.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 433 - Mass Media Law and Ethics Credits 3
Study of theoretical approaches to the First Amendment as well as specific areas of concern to professional journalists such as defamation, privacy, fair trial, obscenity, copyright, shield laws, sunshine laws, etc. Exploration of applied professional ethics and contemporary professional issues of ethics for media professionals. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 440 - Cinema and Media Arts Internship Credits 1-3
A real-world learning experience beyond the university classroom. The focus is working in a media-related organization such as a production company, network, studio or media ministry. This course will test students’ commitment, aptitude and stamina for work within the entertainment industry. Includes on-campus sessions designed to strengthen and expand professional skills. Note(s): Sixty hours of internship is required for each academic credit; special approval required; may be taken multiple times for a maximum of 6 credits. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (total number of credits): 6.

CNMA 447 - Advanced Screen Writing Credits 3
Advanced work in writing and polishing dramatic scripts for television and motion pictures. Grade Mode: A.
Prerequisite(s): CNMA 356.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 449 - The Role of the Producer Credits 3
Producers make film and television happen. This course covers what a producer does to create a budget, to find financing, to manage the production process, and to market and distribute a film or television project. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 450 - Cinema and Media Arts Practicum Credits 1-3
Directed practical experience in the various fields of mass communication. Note(s): May be taken multiple times with different content. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (total number of credits): 6.
Additional Fee(s): Variable to cover needs, materials and events for each class.

CNMA 451 - Audio Post Production for Film and TV Credits 3
Development of advanced aesthetics and techniques in composing, editing, mixing and processing audio for film and television post-production. Includes ADR, sound effects, surround sound and orchestra recording. Grade Mode: A.
Prerequisite(s): CNMA 307.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $50.

CNMA 453 - Beauty as Truth Credits 2
This course will explore the idea of how to get one’s worldview into the story without ruining the story. It will study how story works to impact an audience, and how the filmmaker uses the many aspects of film apart from just dialogue to tell the story and shape the message. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 454 - Film, Television, and the Arts: Racial and Gender Issues Credits 3
Students will learn to analyze and critically evaluate ideas, arguments, and points of view and understand their own values and ethics. Specifically, students will analyze the relationship between cultural representations of race and gender to constructions of the self through an examination of the experiences of artists and celebrities in contemporary popular media such as film/television, music, and performance. Through weekly reading assignments, media presentations, and original research projects, students will develop theoretical, analytical, and research skills to better understand the complex and dynamic relationship between popular culture and the social self. Students are also welcome to share current media content relevant to the course subject. Grade Mode: A.
Restriction(s): Must be a major in Cinema and Media Arts (CNMA), Game Design and Interactive Media (CNGM), or a Media Studies minor (CNMS); and Undergraduate Level.
CNMA 455 - Media Management Credits 3
Covers management strategies as applied to media companies, including television stations, cable systems, motion picture production companies, companies in the emerging technologies and ministry media. In addition, students will receive guidance geared toward final preparation for entering into executive positions in the entertainment industry. Projects include resumes, cover letters, interview and meeting techniques, reader coverage, and concludes with students pitching projects to current entertainment executives. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 456 - Senior Portfolio Credits 3
Student writes a senior thesis feature screenplay, learns pitching techniques and polishes previously written works in order to create a final portfolio of their best work to take to the marketplace. Grade Mode: A.
Prerequisite(s): CNMA 312, CNMA 323, CNMA 352.
Restriction(s): Must be Senior Class; Writing for Film and Television (COWT); Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (after first attempt): 1.

CNMA 457 - Mass Communication Theory Credits 3
Social scientific theory in mass communication with emphasis on practical usefulness of theories. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 458 - Mass Communication Research Credits 3
Methodology for mass communication research, including sampling, questionnaire design and introduction to statistics. Students conduct an audience analysis, focus groups and research project. A major goal is to become adept at reading and evaluating research reports. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 459 - Faith and Film Credits 3
This is the capstone integration course covering what a Christian film is and what makes a Christian filmmaker. Films will be analyzed and discussed to understand how God's truth can be seen in films regardless of who creates them. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.

CNMA 460 - Advanced Cinematography Credits 3
This course will cover advanced lighting and camera techniques for those considering a professional career in cinematography. Students will rotate through all professional camera, grip and electric crew positions. Grade Mode: A.
Prerequisite(s): CNMA 303.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $100.

CNMA 461 - Senior Portfolio: Writing Credits 3
Student writes a senior thesis feature screenplay, learns pitching techniques and polishes previously written works in order to create a final portfolio of their best work to take to the marketplace. Grade Mode: A.
Prerequisite(s): CNMA 312, CNMA 323, CNMA 352.
Restriction(s): Must be Senior Class; Writing for Film and Television (COWT); Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (after first attempt): 1.

CNMA 462 - Advanced Editing for TV and Film Credits 3
This workshop-based course will require students to edit entire short films to understand not just what makes a scene work but an entire story arc. Through the critiquing of one another's work, students will learn to articulate what is, and is not, working in their weekly cuts. Grade Mode: A.
Prerequisite(s): CNMA 317.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $50.

CNMA 463 - Directed Research Credits 1-3
Individual research in an area of mass communication determined in consultation with the instructor. Note(s): Special approval required; may be taken multiple times. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (after first attempt): 10.

CNMA 464 - Advanced Editing for TV and Film Credits 3
This workshop-based course will require students to edit entire short films to understand not just what makes a scene work but an entire story arc. Through the critiquing of one another's work, students will learn to articulate what is, and is not, working in their weekly cuts. Grade Mode: A.
Prerequisite(s): CNMA 317.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $50.

CNMA 465 - Advanced Directing for TV and Film Credits 3
The three keys to directing will be covered in this class: visual structure, working with actors, and leadership. Grade Mode: A.
Prerequisite(s): CNMA 317.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Course Fee: $40.

CNMA 466 - Mass Communication Research Credits 1-3
A rotating variety of topics and production experiences often employing special guests from within the media industries. Possible topics include, but are not limited to, fund raising, event planning, visual effects, audio recording, cinematography, production design, the Sundance Film Festival, the City of the Angels Film Festival, and the Biola Media Conference. Note(s): May be taken multiple times. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (after first attempt): 10.

CNMA 467 - Directed Research Credits 1-3
Individual research in an area of mass communication determined in consultation with the instructor. Note(s): Special approval required; may be taken multiple times. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (total number of credits): 6.

CNMA 470 - Directed Research Credits 1-3
This workshop-based course will require students to edit entire short films to understand not just what makes a scene work but an entire story arc. Through the critiquing of one another's work, students will learn to articulate what is, and is not, working in their weekly cuts. Grade Mode: A.
Prerequisite(s): CNMA 317.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (after first attempt): 10.

CNMA 471 - Directed Research Credits 1-3
Individual research in an area of mass communication determined in consultation with the instructor. Note(s): Special approval required; may be taken multiple times. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (total number of credits): 6.

CNMA 472 - Directed Research Credits 1-3
Individual research in an area of mass communication determined in consultation with the instructor. Note(s): Special approval required; may be taken multiple times. Grade Mode: A.
Restriction(s): Must be in the Department of Cinema and Media Arts (CNMA); and Undergraduate Level.
Repeat Limit (total number of credits): 6.
SCHOOL OF EDUCATION

Mission
The mission of the School of Education is ‘to equip Christian educators to impact public, private, mission, and homeschools through biblically centered education, scholarship, and service.’ The vision of the School of Education is ‘to equip a generation of influential educators, who are focused on God’s calling, devoting their strengths, gifts, and scholarship, to meet the needs of diverse students and to advance the Kingdom of God.’

Biola University offers high-quality graduate teacher preparation and Master of Arts programs. Truth as revealed in God’s Word is honored as the basis for sound reasoning, moral intention, ethical behavior, and professional practice. Graduate students acquire background knowledge, learning experiences, and competencies in carefully sequenced courses, preparing them for instructional leadership roles in public, private, mission and homeschool settings.

Faculty members of the School of Education promote academic rigor, scholarly research, and pedagogical excellence as they collaborate with program participants. Through collaborative learning, professors fulfill their roles as learning facilitators, tapping into the strengths of highly skilled graduate students, helping them to achieve higher levels of academic excellence and ministry in the educational community. Graduate professors integrate a Christian worldview throughout the teaching/learning process.

The School of Education contributes to and benefits from its position in a national university, simultaneously nourishing and being nourished through collaboration with the multiple schools of Biola University. These relationships strengthen concentration options. For example, education students can enrich their knowledge in Bible, theology and intercultural studies at Talbot School of Theology and the Cook School of Intercultural Studies through required coursework and/or electives in personalized programs.

Faculty
Dean: June Hetzel, Ph.D.
Assistant Dean and Graduate Chair: Christie Curtis, Ph.D.
Undergraduate Chair: Lorena Vidaurre, Ph.D.
Professor: Hetzel
Associate Professors: Bishop, Block, Canillas, Coddington, Curtis, Eastman, Reid, Serna, Taylor, Vidaurre, Wong-Lo
Assistant Professors: Cid, Yang

Programs
Programs Offered
Undergraduate
- Liberal Studies, Elementary Education, B.A. (p. 206)
- Liberal Studies, Multidisciplinary, B.A. (p. 212)
- Early Childhood, B.S. (p. 215)
- Elementary Education Minor (p. 217)
- Secondary Education Minor (p. 217)

Masters
- Curriculum, Instruction, and Publication, M.S.C.I.P. (p. 217)
- Special Education, M.S.Sp.Ed. – Non Credential (p. 219)
- Special Education, M.S.Sp.Ed. – Prelim Ed Spec Instr Credential (Mild/Moderate) - Student Teaching (p. 221)
- Special Education, M.S.Sp.Ed. – Prelim Ed Spec Instr Credential (Mild/Moderate) - Internship (p. 223)
- Teaching, M.A.T. (p. 226) with specializations in:
  - Curriculum and Instruction (p. 227)
  - Early Childhood (p. 228)
  - Induction/Clear Credential (p. 229)
  - Multiple Subject (p. 230)
  - Personalized (p. 233)
- Preliminary Education Specialist Instruction Credential – Mild/Moderate - Student Teaching (p. 234)
- Preliminary Education Specialist Instruction Credential – Mild/Moderate - Internship (p. 237)
- Single Subject (p. 240)
- Special Education (p. 243)
- Education, M.A.Ed. (p. 244) with specializations in:
  - Curriculum and Instruction (p. 244)
  - Early Childhood (p. 245)
  - Induction/Clear Credential (p. 247)
  - Multiple Subject (p. 248)
  - Personalized (p. 250)
- Preliminary Education Specialist Instruction Credential – Mild/Moderate - Student Teaching (p. 251)
- Preliminary Education Specialist Instruction Credential – Mild/Moderate - Internship (p. 254)
- Single Subject (p. 256)
- Special Education (p. 258)

Certificates/Credentials/Permits
- Child Development Permits – Undergraduate (p. 259)
- Child Development Permits - Graduate (p. 260)
- Curriculum and Instruction Certificate (p. 261)
- Education Specialist Instruction Credential (Mild/Moderate) Student Teaching (p. 261)
- Education Specialist Instruction Credential (Mild/Moderate) Internship (p. 264)
- Induction/Clear Credential (p. 266)
- Preliminary Credentials (Multiple Subject) (p. 267)
- Preliminary Credentials (Single Subject) (p. 269)
- Special Education Certificate – Undergraduate (p. 271)
- Special Education Certificate – Graduate (p. 272)
- Teaching, ACSI (p. 272)

Liberal Studies, Elementary Education, B.A.

Mission
The mission of the Liberal Studies, Elementary Education major at Biola University is to equip Christian educators with depth and breadth of subject matter taught in PreK–12, preparing them with content knowledge in a broad range of subjects, including literacy, math, science, history, Bible, theology, visual and performing arts, physical education, and health.

Degree Program
A Bachelor of Arts degree in Liberal Studies, Elementary Education is offered upon completion of the University baccalaureate and major requirements.

Learning Outcomes
Liberal Studies, Elementary Education Program Learning Outcomes
Upon the completion of the Bachelor of Arts in Liberal Studies, Elementary Education, students will be able to:

1. Demonstrate foundational knowledge and comprehension of subject matter content (ULO 1).
2. Integrate personal faith with intellectual learning through incorporating subject matter knowledge with Christian beliefs (ULO 1, 2).
3. Develop effective communication skills (ULO 2, 3).
4. Demonstrate critical thinking skills by synthesizing information from multiple sources (ULO 1).
5. Integrate breadth and/or depth of knowledge in concentration-specific content into philosophy of education (ULO 1).
6. Identify and/or adapt evidence-based and promising practices that are culturally and linguistically competent (ULO 3).
7. Demonstrate social and personal traits that reflect biblically-based character (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Professional Teacher Preparation Program Learning Outcomes
Upon the completion of the Multiple Subject or Single Subject credential(s), students will be able to:

1. Identify and articulate God’s calling as Christian educators by reflecting on their spiritual journey and their educational preparation in a Biblically integrated essay, and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, and 3).

2. Examine and analyze their students’ cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students’ optimum development (ULO 1).

3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, response to profile data, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, and 3).

4. Design and implement appropriate adaptations to ensure the attainment of a productive learning environment for each student enrolled in candidates’ classes by focused evaluation and reflection of each student’s strengths and needs. Candidates will also utilize developmental and learning theories, as a foundation for professional decision-making and reflection by identifying student learning needs and making appropriate adaptations to ensure student learning (ULO 1 and 3).

5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core standards as a foundation for lessons that integrate aspects of God’s natural revelation (ULO 1 and 3).

6. Design and implement appropriate and effective learning strategies by designing grade and subject-specific lesson and unit plans (ULO 1 and 3).

7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks by demonstrating their knowledge of a comprehensive classroom management plan (ULO 1 and 3).

Requirements

Writing Competency
Every Biola student must fulfill the Writing Competency Requirement (WCR). Students fulfill the WCR by passing ENGL 313 with a C+ or better. If they fail to meet this requirement, they must consult with their major advisor for an alternative WCR pathway. For more information, see the section titled ‘Writing Competency Requirement’ under the Admission, Enrollment and Graduation Requirements (p. 25) section.

GPA Requirement
A Liberal Studies, Elementary Education major must achieve and maintain a cumulative GPA of 2.75. Students who do not meet the required 2.75 cumulative GPA but meet the university’s minimum cumulative 2.0 GPA will graduate as a Liberal Studies major only.

Integration Seminar Requirement
Liberal Studies, Elementary Education majors must take the following course to meet their Bible Integration requirement: BBST 465 as ‘Christian Philosophy of Education.’

Liberal Studies, Elementary Education majors must take the major specific section of ENGL 313 to meet their English requirement.

Science/Math:
- BIOS 100 Biological Principles: Lecture
- BIOS 110 Observational Biology Laboratory
- MATH 117 Fundamentals of Mathematics for Elementary Teachers I

U.S. History:
- HIST 100 World Civilizations I
- HIST 200 United States History To 1865

Behavioral Science:
- PSYC 200 Introduction to Psychology

Fine Arts:
Select one of the following:
- ARTS 100 Art Appreciation
- THTR 160 Theatre Appreciation
- MUSC 101 Music Appreciation

Philosophy:
Select one of the following:
- PHIL 210 Introduction to Logic
- PHIL 214 Introduction to Philosophy
- PHIL 215 Introduction to Ethics

Physical Education:
- KNES 107 Lifetime Wellness
- KNES 201 Elementary Physical Education Methods and Activities

Program Courses
- ARTS 306 Elementary Art Workshop 3
- HIST 101 World Civilizations II 3
- HIST 201 United States History Since 1865 3
- HIST 403 California History 3
- LEDU 301 Introduction to Teaching 3
- LEDU 309 Elementary Math/Science Methods 2
- LEDU 324 Performing Arts in Education 1
- LEDU 330 Psychological Foundations of Education 3
- LEDU 335 Child Development: Birth through Adolecence 3
- LEDU 336 Elementary Health Curriculum and Methods 1
- LEDU 337 Elementary History-Social Science Curriculum and Methods 1
- LEDU 341 Methods of Teaching Linguistically Diverse Students 3
- LEDU 380 Children's Literature 3
- LEDU 420 Elementary Reading/Language Arts 3
- LEDU 434 Elementary Curriculum, Differentiation, and Assessment 3
- MATH 118 Fundamentals of Mathematics for Elementary Teachers II 3
- MUSC 310 Elementary Music Workshop 2
- PHSC 101 Physical Science Survey: Lecture 4

Concentrations

Biology

Concentration Courses
Select 12 credits from the following:
- BIOS 103 Introduction to Environmental Science
- BIOS 120 Current Topics in Biology
- BIOS 121 Nutrition
- BIOS 222 Botany
- BIOS 236 Principles of Human Anatomy and Physiology
- BIOS 302 Vertebrate Biology
- BIOS 303 Ecological Agriculture
- BIOS 305 Global Development and Ecological Sustainability
- BIOS 351 Invertebrate Biology
- BIOS 352 Marine Biology
- BIOS 371 Conservation Biology
- BIOS 401 General Ecology
- BIOS 470 Seminar in Advanced Biology

Total Credits 12

Early Childhood

Prerequisite Courses
- LEDU 35 Early Childhood Curriculum 3
- LEDU 357 School/Family/Community Partnerships in Early Childhood Urban Settings
- LEDU 358 Classroom Management in Early Childhood Settings
- LEDU 359 Observation and Assessment of Young Children

Professional Teacher Preparation Program

Preliminary Credentials

The SB2042 Professional Teacher Preparation Programs are available for Multiple Subject and Single Subject Credentials and are accredited by the California Commission on Teacher Credentialing (CTC) and the Association of Christian Schools International (ACSI).

Multiple Subject Credentials

The SB2042 Multiple Subject Credential authorizes instruction in any self-contained classroom for grades K–12, preschool, and classes organized primarily for adults, but is especially appropriate for grades K–6. This credential also includes authorization to teach English Language Learners in English within the subject area and grade level authorization of the Multiple Subject teaching credential.

Students interested in teaching English Language Learners at the adult level should consult with the Cook School of Intercultural Studies (http://cook.biola.edu/).

Single Subject Credentials

The SB2042 Single Subject Credential authorizes instruction in the subjects listed on the credential in departmentalized classes at any grade level including preschool, grades K–12 and classes organized primarily for adults, but is especially appropriate for middle school and high school. This credential also includes authorization to teach English Language Learners English within the subject area and grade level authorization of the Single Subject teaching credential. All students should regularly see advisors in their major as well as the School of Education.

Students interested in teaching English Language Learners at the adult level should consult with the Cook School of Intercultural Studies (http://cook.biola.edu/).

RICA Exam

Passage of the Reading Instruction Competence Assessment (RICA) exam is required for candidates earning a Preliminary Multiple Subject Teaching Credential. This requirement must be met prior to applying for a Preliminary Teaching Credential.

CalTPA

Candidates must meet or exceed the minimum standards for passing the two state-mandated California Teaching Performance Assessments (CalTPAs). Cycle 1 of CalTPAs must be passed prior to applying for student teaching. Cycle 2 of CalTPAs must be passed prior to applying for a Preliminary Teaching Credential.
Teacher Preparation Requirements

Admission Application
Students who wish to complete the undergraduate Teacher Preparation Program must formally apply for admission to the Teacher Preparation Program during LEDU 301.

The student applicant must demonstrate a minimum cumulative 2.75 GPA (on a 4.0 grade scale). Students for whom English is not a primary language must have a TOEFL score of 100 iBT.

Teacher Preparation Courses
All candidates for the Preliminary Multiple or Single Subject Teaching Credential must complete the following undergraduate teacher preparation courses in sequence. Courses must be passed with a grade of 'B-' or higher and the overall GPA in the teacher preparation courses must be a 3.0 or higher.

Total Credits 16

Taskstream Subscription
Candidates must have a paid subscription to Taskstream while taking teacher preparation courses, pedagogy courses, and student teaching.

Certificate of Clearance and Tuberculosis (TB) Test
Candidates must obtain a Certificate of Clearance prior to taking LEDU 301 course in order to participate in the required fieldwork sequence. Fees required.

Candidates must also submit valid TB tests results prior to taking LEDU 301 course and annually in order to participate in the required fieldwork sequence in the Teacher Preparation Program. Fees required.

Minimum Grades and GPA Requirements
All teaching credential candidates must maintain an overall cumulative 2.75 grade point average (GPA) in their major. A 3.0 cumulative GPA must be achieved in the teacher preparation course sequence and pedagogy courses. Students must receive a grade of 'B-' or higher in all teacher preparation and pedagogy courses and score an 83% or higher in all key assignments in order to be formally recommended for a Preliminary Teaching Credential.

Basic Skills Requirement
Candidates must take the California Basic Educational Skills Test (CBEST) or satisfy the basic skills requirement prior to acceptance to the program. Passage of CBEST or equivalent is required prior to applying for student teaching.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for teacher preparation and pedagogy coursework in order to remain in the Teacher Preparation Program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for teacher preparation coursework, including student teaching.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Biola University students may complete this requirement by taking either HIST 200 or POSC 225 with a grade of 'C' or better. Students
receiving AP college credit for either HIST 200 or POSC 225 will also meet this requirement. Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. See advisor for details.

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross CPR course when applying for the Preliminary Teaching Credential.

Adviser Contact
Candidates are required to meet regularly with an advisor in their major to ensure that all requirements are met.

Applying for a Credential
Credential candidates complete their student teaching the second semester of their senior year or the semester after they graduate with their bachelor’s degree. After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Teaching Credential from the State of California’s Commission on Teacher Credentialing.

The Professional Teacher Preparation Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Teaching, ACSI
Application information may be obtained from the ACSI liaison in the School of Education Office. The credential program at Biola University meets the requirements for the Association of Christian Schools International (ACSI) Certificate. Requirements are identical to the California Preliminary Credential Program as well as:

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Requirements

Writing Competency

Every Biola student must fulfill the Writing Competency Requirement (WCR). Students fulfill the WCR by passing ENGL 313 with a C+ or better. If they fail to meet this requirement, they must consult with their major advisor for an alternative WCR pathway. For more information, see the section titled ‘Writing Competency Requirement’ under the Admission, Enrollment and Graduation Requirements (p. 25) section.

GPA Requirement

A Liberal Studies, Multidisciplinary major must achieve and maintain a cumulative GPA of 2.75. Students who do not meet the required 2.75 cumulative GPA but meet the university’s minimum cumulative 2.0 GPA will graduate as a Liberal Studies major only.

Integration Seminar Requirement

Liberal Studies, Multidisciplinary majors must take the following course to meet their Bible Integration requirement: BBST 465 as ‘Christian Philosophy of Education.’

Degree Program

A Bachelor of Arts degree in Liberal Studies, Multidisciplinary is offered upon completion of the University baccalaureate and major requirements.

Learning Outcomes

Program Learning Outcomes

Upon the completion of the Bachelor of Arts in Liberal Studies, Multidisciplinary, students will be able to:

1. Demonstrate foundational knowledge and comprehension of subject matter content (ULO 1).
2. Integrate personal faith with intellectual learning through incorporating subject matter knowledge with Christian beliefs (ULO 1, 2).
3. Develop effective communication skills (ULO 2, 3).
4. Demonstrate critical thinking skills by synthesizing information from multiple sources (ULO 1).
5. Integrate breadth and/or depth of knowledge in concentration-specific content into philosophy of education (ULO 1).
6. Identify and/or adapt evidence-based and promising practices that are culturally and linguistically competent (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.
### Concentrations

#### Biology

**Concentration Courses**

Select 12 credits from the following:

- BIOS 103 Introduction to Environmental Science
- BIOS 120 Current Topics in Biology
- BIOS 121 Nutrition
- BIOS 222 Botany
- BIOS 236 Principles of Human Anatomy and Physiology
- BIOS 302 Vertebrate Biology
- BIOS 303 Ecological Agriculture
- BIOS 305 Global Development and Ecological Sustainability
- BIOS 351 Invertebrate Biology
- BIOS 352 Marine Biology
- BIOS 371 Conservation Biology
- BIOS 401 General Ecology
- BIOS 470 Seminar in Advanced Biology

**Total Credits** 12

#### Early Childhood

**Code** | **Title** | **Credits**
--- | --- | ---

**Prerequisite Courses**

- LEDU 335 Child Development: Birth through Adolescence

**Concentration Courses**

- LEDU 356 Early Childhood Curriculum
- LEDU 357 School/Family/Community Partnerships in Early Childhood Urban Settings
- LEDU 358 Classroom Management in Early Childhood Settings
- LEDU 359 Observation and Assessment of Young Children

**Total Credits** 12

#### English

**Code** | **Title** | **Credits**
--- | --- | ---

Select 12 credits from the following:

- ENGL 320 Studies in Grammar and Language
- ENGL 340 Advanced Composition
- ENGL 343 Creative Writing: Poetry or ENGL 344 Creative Writing: Fiction
- ENGL 360 Studies in American Literature
- ENGL 370 Studies in British Literature
- ENGL 400 Studies in Shakespeare

**Total Credits** 12

#### Health and Physical Education

**Code** | **Title** | **Credits**
--- | --- | ---

Select 12 credits from the following:

- KNES 329 Psychology of Exercise and Health
- KNES 335 Health Concepts
- KNES 408 Motor Learning
- KNES 434 Leadership in Sport and Human Movement
- KNES 450 Health Behavior

**Total Credits** 12

#### Human Development

**Code** | **Title** | **Credits**
--- | --- | ---

Select 12 credits from the following:

- PSYC 206 Psychology and Christian Thought
- PSYC 209 Statistics with Computer Applications and Statistics with Computer Applications Lab
- PSYC 303 Human Sexuality
- PSYC 306 Psychological Testing and Assessment
- PSYC 309 Abnormal Psychology

**Total Credits** 12

In addition to the program courses, each student must complete a concentration, which consists of approved coursework in one of the following subject areas: Biology, Early Childhood, English, Health and Physical Education, Human Development, Intercultural Studies, Mathematics, Spanish, Special Education, U.S. History or Visual Arts. See requirements listed below.

Course Sequence

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

1 Concentration: Liberal Studies, Multidisciplinary majors must complete 12 credits of advanced study in one specific concentration. See list in catalog.

A Liberal Studies, Multidisciplinary major must achieve and maintain a cumulative GPA of 2.75. Students who do not meet the required 2.75 cumulative GPA but meet the University’s minimum cumulative 2.0 GPA will graduate as a Liberal Studies major only.

**Early Childhood, B.S.**

**Overview**

The mission of the Early Childhood major at Biola University is to equip early childhood Christian educators with developmentally, spiritually, culturally, and linguistically appropriate research-based best practices, preparing them to step into professional educational roles that serve young children and their families in a variety of learning spaces including schools, children’s ministry, hospitals, and home environments.

**Mission**

The mission of the Early Childhood major at Biola University is to equip early childhood Christian educators with developmentally, spiritually, culturally, and linguistically appropriate research-based best practices, preparing them to step into professional educational roles that serve young children and their families in a variety of learning spaces including schools, children’s ministry, hospitals, and home environments.
Degree Program
The Bachelor of Science degree in Early Childhood is an undergraduate major specifically designed for undergraduate students (e.g., working parents, paraprofessionals from PK school settings, early childhood educators desiring to become directors of preschools) who might normally not be able to attend class in a face-to-face environment. Course content is delivered in a non-traditional manner (digital, interactive online community), maximizing flexibility and accessibility for all enrolled students.

The Early Childhood, B.S. degree is included in the five levels of Child Development Permits approved by the California Commission on Teaching Credentialing (CTC). The program is aligned with the CTC Teacher Education Standards, the National Association for the Education of Young Children (NAEYC), the California Preschool Learning Foundations, and it addresses relevant Association of Christian Schools International (ACSI) biblical integration guidelines.

The Early Childhood, B.S. degree focuses on producing high quality early childhood educators who will ensure all young children have equitable access to developmentally, culturally, linguistically appropriate, and high-quality early learning so that all young children thrive and learn in a society dedicated to ensuring they reach their full potential. Early childhood educators partner with caregivers as major influencers in children's formative years.

All of the courses offered in the Early Childhood, B.S. degree program are focused on combining the best practices in education, the most current and applicable research in education, and are taught from a Christian worldview with integration of biblical principles.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Science in Early Childhood, students will be able to:

1. Demonstrate the ability to plan developmentally, culturally, and linguistically appropriate practices to ensure a suitable learning environment for all students (ULO 1).
2. Demonstrate the ability to promote child development and learning through play-based experiences that engage caregivers (ULO 1, 3).
3. Demonstrate the ability to identify student learning needs and develop appropriate adaptations to maximize learning (ULO 1, 3).
4. Demonstrate the ability to integrate their faith and apply it to teaching and leadership (ULO 2, 3).
5. Develop a model of spiritual formation for a particular age span, supported by the research from at least three related fields, clinical observation, biblical perspectives, and interviews (ULO 1, 2, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements
1. Must be a believer in the Christian faith (the applicant’s statement of faith will be articulated in the personal essay section of the application).
2. Must have at least a 2.5 cumulative college GPA.
3. Must have graduated from high school or earned an equivalent degree (GED).
4. Preference will be given to students with at least three years' work experience.
5. Students with fewer than 15 semester credits post high school must apply as a transfer students and meet the Admissions requirements for first time college students. In addition, students are required to: a. Submit SAT/ACT scores, or b. If no test scores, the Post Traditional Test-Optional Rubric process will be used.

Curriculum Requirements
A Bachelor of Science degree in Early Childhood is offered upon completion of the University baccalaureate and major requirements. The Early Childhood major requires the completion of 30 credits beyond the Core Curriculum and Bible/Theological Studies requirements, found in the Undergraduate Requirements and Policies (p. 40) section of the catalog. The minimum total number of credits for this degree is 120.

1 PSYC 200 will count toward the Core Curriculum requirement for Behavioral Science.

Curriculum, Instruction, and Publication, M.S.C.I.P.

Program Description
The Master of Science in Curriculum, Instruction, and Publication is a degree that prepares candidates with technical skills to work in a variety of academic settings, including curriculum and instruction leadership roles, as well as preparing candidates for the publishing industry. The M.S. in Curriculum, Instruction, and Publication degree emphasizes professional writing with a technical emphasis upon competencies, such as writing book proposals, developing scope and sequences for learning programs across grade levels, writing curriculum, editing curriculum, and grant writing. Learning experiences will include an in-house or online practicum with a publisher.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Master of Science in Curriculum, Instruction, and Publication students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective through preparing a philosophy of education, analyzing case studies, participating in an Emerging Leaders’ Institute and developing an educational portfolio (ULO 1).
2. Skillfully link theory with practice, effectively differentiating curricula for diverse learners (e.g., ability, culture, language, SES, gender) and communities, and validating each child as a unique bearer of the image of God through case studies, policy papers, and preparing diverse curricular materials and lessons to match students’ varied needs and interests (ULO 1).

3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community through writing a personal educational philosophy statement, completing spiritual formation assignments, and conducting ethical research (ULO 1, 2).

4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing, (ULO 1, 2, 3).

5. Demonstrate a collaborative work ethic with students, parents, and peers, leveraging strengths of individuals to benefit the community through collegial research, curriculum development, writing, and presentations (ULO 2, 3).

6. Conduct quality empirical research, learning from natural revelation, and effectively communicating findings to the educational community through successful research, curriculum development, writing and presentation (ULO 1, 3).

7. Exercise discernment, individually and in team settings, creatively solving problems as contextual needs emerge within the educational community through successful collaboration with peers in think tanks, writing, research, and oral presentations (ULO 2, 3).

8. Embrace God’s calling to maximize one’s leadership skills, demonstrating the qualities of a constructive change agent in the educational community to advance the Kingdom of God by envisioning and implementing improvements (ULO 3).

9. Write compelling grant requests and textbook or curriculum proposals for publishers by experiencing the publishing process first hand assisting in writing, designing and editing curriculum materials for a publisher (ULO 1).

10. Apply motivation and learning theory as they prepare curricula to appeal to students diverse in backgrounds, interests and abilities (ULO 1, 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores.
- Hold a preliminary credential or provide verification of the equivalent professional experience.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education application.
- Interview with a member of the School of Education.

Those applying to the M.S. with Curriculum, Instruction, and Publication online program will need the following additional admissions requirements:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.S. in Curriculum, Instruction, and Publication core courses and Capstone must be passed with a grade of “B” or higher.

2. Candidates must complete the M.S. in Curriculum, Instruction, and Publication with a 3.0 cumulative GPA.

3. Candidates must successfully complete the Capstone, participate on a research team, and fulfill all professional requirements (e.g., portfolio including key assignments) related to the coursework and learning outcomes.

4. Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for core coursework in order to remain in the M.S. program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition may lead to dismissal.

5. A minimum of 41 credits is required for the M.S. in Curriculum, Instruction, and Publication.

6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.

7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.S. in Curriculum, Instruction, and Publication. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of “B” (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.S. in Curriculum, Instruction, and Publication degree; a grade of “B-” or lower is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Upon completion of the Master of Science in Special Education, students will be able to:

1. Identify and articulate God's calling as Christian educators by reflecting on their spiritual journey and their educational preparation through a Biblically integrated essay, reflective prayer projects, and authentic learning experience assignments; and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, 3).

2. Examine and analyze their students' cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students' optimum development through a fieldwork assessment case study and authentic learning experience assignments (ULO 1).

3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, authentic learning experience assignments, journal article position papers, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, 3).

4. Exhibit growth in one's professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).

5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core Standards as a foundation for lessons that integrate aspects of God's natural revelation. This outcome will be exhibited through journal article review and responses, and an inclusion lesson plan and report (ULO 1, 3).

6. Design and implement appropriate and learning strategies, demonstrated through a fieldwork assessment case study, research papers, fieldwork interviews and reports, and case study reports (ULO 1, 3).

7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks, demonstrated through a collaboration project and a behavior management project (ULO 1, 3).

8. Analyze, evaluate, and apply knowledge of current special education settings, and legislative requirements from a biblical perspective through preparing a philosophy of education, analyzing case studies, and developing an educational portfolio (ULO 1).

9. Conduct quality database and empirical research, communicate findings, and evidence initial pursuit of lifelong learning by successfully completing the thesis or research project with a focused topic in special education (ULO 1, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admissions Requirements

- Applicants must have completed all bachelor's requirements prior to the start of the program and must have a bachelor's degree conferred from a regionally accredited institution prior to the start of the second term.

- Have a minimum 3.0 cumulative GPA on a 4.0 scale.

- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).

- Hold a preliminary credential or provide verification of the equivalent professional experience.

- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
• Complete Biola University's Graduate Education application.
• Interview with a member of the School of Education.
• California residents must verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.
• Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University's Distance Learning Department or providing proof of successful online learning in a prior course.
• Verify access to a computer and the Internet sufficient to engage in Biola University's Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

Graduation Requirements
1. M.S.Sp.Ed. program courses and Capstone must be passed with a grade of “B” or higher.
2. Candidates must complete the Master of Science in Special Education with a 3.0 cumulative GPA.
3. Candidates must successfully complete one Capstone, participate on a research team, and fulfill all professional requirements (e.g., portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 41 credits is required for the Master of Science in Special Education.
6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate  
   Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section.)

Transfer of Credits
Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their Master of Science in Special Education. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of “B” (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the Master of Science in Special Education degree; a grade of “B-” or lower is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Taskstream Subscription
Candidates must have a paid subscription to Taskstream while taking special education courses and during student teaching or intern support seminar.

1 SEED 548 Collaborative Research will be ongoing throughout the program, but actual enrollment in the 1 credit course will occur in the last term of the M.S. in Special Education program. Minimum of two semesters of participation required.
2 Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students. SEED 554 may be substituted for SEED 553.
3 Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only class taken in the final semester.
Special Education, M.S.Sp.Ed. - Prelim Ed Spec Instr Credential (Mild/Moderate) - Student Teaching

Program Description
The Master of Science in Special Education develops technical skills, such as special education pedagogy, assessment, behavior management, curriculum design, diagnosis, remediation, consultation, collaboration, and instructional techniques to assist those with special needs.

Learning Outcomes
Program Learning Outcomes

Upon completion of the Master of Science in Special Education, students will be able to:

1. Identify and articulate God's calling as Christian educators by reflecting on their spiritual journey and their educational preparation through a Biblically integrated essay, reflective prayer projects, and authentic learning experience assignments; and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, 3).

2. Examine and analyze their students' cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students' optimum development through a fieldwork assessment case study and authentic learning experience assignments (ULO 1).

3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, authentic learning experience assignments, journal article position papers, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, 3).

4. Exhibit growth in one's professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing (ULO 1, 2, 3).

5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core Standards as a foundation for lessons that integrate aspects of God's natural revelation. This outcome will be exhibited through journal article review and responses, and an inclusion lesson plan and report (ULO 1, 3).

6. Design and implement appropriate and learning strategies, demonstrated through a fieldwork assessment case study, research papers, fieldwork interviews and reports, and case study reports (ULO 1, 3).

7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks, demonstrated through a collaboration project and a behavior management project (ULO 1, 3).

8. Analyze, evaluate, and apply knowledge of current special education settings, and legislative requirements from a biblical perspective through preparing a philosophy of education, analyzing case studies, and developing an educational portfolio (ULO 1).

9. Conduct quality database and empirical research, communicate findings, and evidence initial pursuit of lifelong learning by successfully completing the thesis or research project with a focused topic in special education (ULO 1, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Hold a preliminary credential or provide verification of the equivalent professional experience.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education application.
- Interview with a member of the School of Education.
- Must be a California resident in order to fulfill fieldwork requirements.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
- Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.
- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.S.Sp.Ed. core courses and Capstone must be passed with a grade of 'B' or higher.
2. Candidates must complete the Master of Science in Special Education with a 3.0 cumulative GPA.
3. Candidates must successfully complete one Capstone, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 41 credits is required for the Master of Science in Special Education.
6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

**Transfer of Credits**

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.S. in Special Education. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of B’ (3.0) or higher will be considered for transfer towards the M.S. in Special Education degree; a grade of B’ or lower is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

**Curriculum Requirements**

All candidates for the M.S.Sp.Ed. Preliminary Education Specialist Instruction Credential (Mild/Moderate) - Student Teaching must complete the following courses and required fieldwork. Preliminary Education Specialist Instruction (Mild/Moderate) candidates who come to Biola University with a SB2042 Multiple Subject or Single Subject Credential will have the prerequisite coursework waived. Additionally, candidates who have taken undergraduate or graduate equivalents of the prerequisite coursework will have their transcripts evaluated for equivalency. The Prerequisite Option will be determined by the Program Director during the interview process to the program.

**Prerequisite Options**

- **Prerequisite Option #1: Hold a valid SB2042 Multiple Subject or Single Subject Credential**
- **Prerequisite Option #2: Accelerated Graduate Prerequisite/concurrent coursework online**
  - SEED 518: Designing Successful Classrooms: Starting Right (3)
  - SEED 530: Reading Process and Approaches (3)
- **Prerequisite Option #3: Taken in sequence on campus**
  - SEED 519: Foundations of Education (3)
  - SEED 526: Psychological Foundations of Education (3)
  - SEED 541: Methods of Teaching Linguistically Diverse Students (3)
  - SEED 520 or SEED 525: Elementary Reading/Language Arts or Secondary Content Area Reading (3)

**Program Courses (Offered Online)**

Total Credits

53

1. SEED 548 will be ongoing throughout the program, but actual enrollment in the 1-credit course will occur in the last term of the M.S. in Special Education program. Minimum of two semesters of participation required.
2. Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students. SEED 554 may be substituted for SEED 553.
3. Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

**Minimum Grades and GPA Requirements for Credential Courses**

All Education Specialist coursework must be completed with a grade of B’ or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to student teach and be recommended for a Preliminary Education Specialist Instruction...
Credential. For the M.S. degree, all courses must be passed with a grade of 'B-' or higher.

**Taskstream Subscription**
Candidates must have a paid subscription to Taskstream while taking Education Specialist courses, including prerequisites, and during student teaching.

**Certificate of Clearance and Tuberculosis (TB) Test**
Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

Candidates must submit valid TB tests results prior to taking Education Specialist courses with fieldwork. TB tests results must be done annually in order to participate in the required fieldwork. Fees required.

**Basic Skills Requirement**
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for student teaching.

**RICA Exam**
Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

**Subject Matter Competency Requirement**
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

**Portfolio Assessments**
Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

**Recommendation**
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

**Professional Dispositions and Competencies Evaluations**
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

**Fieldwork Evaluation**
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including student teaching.

**U.S. Constitution Requirement**
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola's School of Education. Candidates who have taken one of the courses listed below, with a grade of 'C' or better at Biola University, have met this requirement. This requirement must be met prior to applying for student teaching.

**CPR**
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (Mild/Moderate) Credential.

**Advisor Contact**
Candidates must meet regularly with an advisor to ensure that all requirements are met.

**Applying for a Credential**

**Preliminary Education Specialist Instruction (Mild/Moderate) Credential**
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California's Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Candidates wanting to earn a Preliminary Education Specialist Instruction Credential (Mild/Moderate), in addition to the M.S. in Special Education, should complete the credential program requirements prior to starting M.S. core coursework. See the Education Specialist Instruction Credential (Mild/Moderate) (http://catalog.biola.edu/education-graduate/education-specialist-instruction-credential-mild-moderate)section in the catalog.

**Special Education, M.S.Sp.Ed. – Prelim Ed Spec Instr Credential (Mild/ Moderate) - Internship**

**Program Description**
The Master of Science in Special Education develops technical skills, such as special education pedagogy, assessment, behavior management, curriculum design, diagnosis, remediation, consultation, collaboration, and instructional techniques to assist those with special needs.
Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Science in Special Education, students will be able to:

1. Identify and articulate God's calling as Christian educators by reflecting on their spiritual journey and their educational preparation through a Biblically integrated essay, reflective prayer projects, and authentic learning experience assignments; and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, 3).

2. Examine and analyze their students' cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students' optimum development through a fieldwork assessment case study and authentic learning experience assignments (ULO 1).

3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, authentic learning experience assignments, journal article position papers, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, 3).

4. Exhibit growth in one's professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).

5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core Standards as a foundation for lessons that integrate aspects of God's natural revelation. This outcome will be exhibited through journal article review and responses, and an inclusion lesson plan and report (ULO 1, 3).

6. Design and implement appropriate and learning strategies, demonstrated through a fieldwork assessment case study, research papers, fieldwork interviews and reports, and case study reports (ULO 1, 3).

7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks, demonstrated through a collaboration project and a behavior management project (ULO 1, 3).

8. Analyze, evaluate, and apply knowledge of current special education settings, and legislative requirements from a biblical perspective through preparing a philosophy of education, analyzing case studies, and developing an educational portfolio (ULO 1).

Minimum Grades and GPA Requirements for Credential Courses

All Education Specialist coursework must be completed with a grade of 'B-' or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to intern and to be recommended for a Preliminary Education Specialist Instruction Credential. For the M.S. degree, all courses must be passed with a grade of 'B-' or higher.

Taskstream Subscription

Candidates must have a paid subscription to Taskstream while taking Education Specialist courses, including prerequisites, and during internship.
Certificate of Clearance and Tuberculosis (TB) Test
Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

Candidates must submit valid TB tests results prior to taking Education Specialist courses with fieldwork. TB tests results must be done annually in order to participate in the required fieldwork. Fees required.

Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for internship.

RICA Exam
Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for internship.

Portfolio Assessments
Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including Intern Support Seminar.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement. This requirement must be met prior to applying for internship.

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (Mild/Moderate) Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
Education Specialist Instruction (Mild/Moderate) Intern Credential
Candidates who receive a job offer and have met the associated requirements, may apply for an Intern Credential and enroll in the Intern Support Seminar. The Intern Support Seminar is taken by candidates who hold an Education Specialist (Mild/Moderate) Intern credential. If approved, candidates may begin their full-time teaching position while fulfilling all requirements for the Education Specialist (Mild/Moderate) Credential. See the credential analyst in the School of Education for details and applicable prerequisite requirements.

Preliminary Education Specialist Instruction (Mild/Moderate) Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California’s Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Teaching, M.A.T.
Program Description
The Master of Arts in Teaching (M.A.T.) is primarily designed for two audiences:

1. Students with a B.A. or B.S. in any subject who desire to earn a credential while working towards a Masters.
2. Credentialled teachers who desire to sharpen their practitioner skills through induction, the Clear Credential, and/or enter a personalized program for advanced coursework.

The Master of Arts in Teaching is offered with the following specializations:

- Curriculum and Instruction (p. 227)
- Early Childhood (p. 228)
- Induction/Clear Credential (p. 229)
Admission Requirements

Requirements

found in the University Learning Outcomes (ULO 1, 2, 3), which may be

Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one's professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).
5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

• Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.
• Have a minimum 3.0 cumulative GPA on a 4.0 scale.
• Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
• Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
• Complete Biola University’s Graduate Education Application.
• Interview with a member of the School of Education.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

• Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
• Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.T. core courses and Capstone must be passed with a grade of 'B' or higher.
2. Candidates must complete the Master of Arts in Teaching with a 3.0 cumulative GPA.
3. Candidates must successfully complete SEED 594 Action Research, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 30 credits is required for the Master of Arts in Teaching.
6. Candidates must complete the program within five years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Teaching. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Teaching degree; a grade of ‘B’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.T. core courses and Capstone must be passed with a grade of 'B' or higher.
2. Candidates must complete the Master of Arts in Teaching with a 3.0 cumulative GPA.
3. Candidates must successfully complete SEED 594 Action Research, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 30 credits is required for the Master of Arts in Teaching.
6. Candidates must complete the program within five years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation
Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section.

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Teaching. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Teaching degree; a grade of ‘B’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

---

1 Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students.

2 Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

Teaching, M.A.T. (Induction/Clear Credential)

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).

2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).

3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).

4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).

5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
- Hold a California SB2042 Preliminary Multiple or Single Subject Credential in place of verification of CBEST and subject matter.
- Clear Credential candidates must submit the Coach and Placement Information form.
Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University's Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

1. Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students.
2. SEED 593 must be passed with a grade of "B" or higher. Students admitted to the Multiple or Single Subject Induction/Clear Credential program at Biola University will enroll in SEED 593 for each of four semesters (a maximum of 12 credits may be applied toward M.A.T.). An early completion option is available for experienced teachers, which may require additional approved elective credits in order to meet the 15-credit concentration requirement. See credential analyst in the School of Education for details.
3. May apply up to 12 credits from Student Teaching if completed at Biola University.
4. Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

**The M.A.T. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. See a credential analyst for current information on completing the requirements for a teaching credential.**

**Teaching, M.A.T. (Multiple Subject)**

**Program Learning Outcomes**

Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).

Total Credits 49

1 Biola students who have taken teacher preparation and pedagogy courses at the undergraduate level, and only need student teaching at the graduate level, will be required to take an additional 3-credit approved elective in order to have the required minimum 30 credits for an M.A.T.

2 Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students.

3 Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

Taskstream Subscription
Candidates must have a paid subscription to Taskstream while taking teacher preparation courses, pedagogy courses, and during student teaching.

Certificate of Clearance and Tuberculosis (TB) Test
Candidates must obtain the application for a Certificate of Clearance prior to taking SEED 519 in order to participate in the required fieldwork sequence. Fees required.

Candidates must submit valid TB tests results prior to taking SEED 519, and annually in order to participate in the required fieldwork sequence in the Teacher Preparation Program. Fees required.

Minimum Grades and GPA Requirements
All teaching credential candidates must maintain an overall 3.0 grade point average (GPA). Students must receive a grade of ‘B’ of higher in all teacher preparation and pedagogy courses and score an 83% or higher in all key assignments in order to student teach and to be formally recommended for a Preliminary Multiple or Single Subject Teaching Credential.

Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for student teaching.

RICA Exam
Multiple Subject candidates must pass the Reading Instruction Competence Assessment (RICA) exam.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

CalTPA
Candidates must meet or exceed the minimum standards for passing the two state-mandated California Teaching Performance Assessments (CalTPAs). Cycle 1 of the CalTPAs must be passed prior to applying for student teaching.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for teacher preparation and pedagogy coursework in order to remain in the Teacher Preparation Program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for teacher preparation coursework including student teaching.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement.
CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR)—infant, child, and adult—that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Teaching Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Teaching Credential from the State of California’s Commission on Teacher Credentialing.

The Professional Teacher Preparation Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

SB 57 Options for Private School Teachers
Under SB57 legislation, candidates employed three or more years in WASC-accredited schools may qualify for evaluation by the California Commission on Teacher Credentialing (CTC) of teaching experience in lieu of student teaching. Candidates employed six or more years may qualify for evaluation by the CTC of teaching experience in lieu of teaching methodology coursework and student teaching. See a credential analyst for details.

Student Teaching Under Contract
Candidates who are already full-time teachers in public schools or WASC-accredited private schools may interview to student teach under contract. If approved, public school candidates remain in their full-time teaching position while fulfilling all requirements for student teaching. Private school candidates will fulfill half of the student teaching requirements at the private school; the other half of student teaching will most often be fulfilled during the summer in a public school setting. See the Student Teaching Field Placement Coordinator for details. Candidates with less than two years of teaching experience may be required to complete one of the following courses prior to student teaching under contract.

Student Teaching Overseas
Candidates may elect to do one half of their student teaching overseas at a U.S. regionally-accredited or similarly accredited school. If interested, see one of the Directors of Teacher Preparation at least one year in advance of your overseas placement.

Teaching, ACSI
Application information may be obtained from the ACSI liaison in the School of Education Office. The credential program at Biola University meets the requirements for the Association of Christian Schools International (ACSI) Certificate. Requirements are identical to the California Preliminary Credential Program as well as:

The M.A.T. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. See a credential analyst for current information on completing the requirements for a teaching credential.

Teaching, M.A.T. (Personalized)

Learning Outcomes
Program Learning Outcomes
Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).
5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements
- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred.
from a regionally accredited institution prior to the start of the second term.

- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

**Graduation Requirements**

1. M.A.T. core courses and Capstone must be passed with a grade of ‘B’ or higher.
2. Candidates must complete the Master of Arts in Teaching with a 3.0 cumulative GPA.
3. Candidates must successfully complete SEED 594 Action Research, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 30 credits is required for the Master of Arts in Teaching.
6. Candidates must complete the program within five years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

**Transfer of Credits**

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Teaching. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Teaching degree; a grade of ‘B’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

### Teaching, M.A.T. (Preliminary Education Specialist Instruction Credential – Mild/Moderate - Student Teaching)

#### Learning Outcomes

**Program Learning Outcomes**

Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).
5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

- Applicants must have completed all bachelor’s requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
- Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.
- Must be a California resident in order to fulfill fieldwork requirements.
- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.T. core courses and Capstone must be passed with a grade of ‘B’ or higher.
2. Candidates must complete the Master of Arts in Teaching with a 3.0 cumulative GPA.
3. Candidates must successfully complete SEED 594 Action Research, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 30 credits is required for the Master of Arts in Teaching.
6. Candidates must complete the program within five years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within 8 years total.
7. Candidates must meet with a department advisor and Graduate Counseling Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Teaching. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Teaching degree; a grade of ‘B-’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Curriculum Requirements

Preliminary Educational Specialist Instructional Credential (Mild/Moderate) - Student Teaching

All candidates for the Preliminary Educational Specialist Instructional Credential (Mild/Moderate) must complete the following courses and required fieldwork.

Preliminary Specialist Instruction (Mild/Moderate) candidates who come to Biola University with a SB2042 Multiple Subject or Single Subject Credential will have the prerequisite coursework waived. Additionally, candidates who have taken undergraduate or graduate equivalents of the prerequisite coursework will have their transcripts evaluated for equivalency. The Prerequisite Option will be determined by the Program Director during the interview process to the program.

**Course Code** | **Title** | **Credits**
--- | --- | ---
SEED 520 or SEED 525 | Elementary Reading/Language Arts or Secondary Content Area Reading | 3

**Minimum Grades and GPA Requirements for Credential Courses**

All Education Specialist coursework must be completed with a grade of 'B-' or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to student teach and to be recommended for a Preliminary Education Specialist Instruction Credential.

**Taskstream Subscription**

Candidates must have a paid subscription to Taskstream while taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

**Certificate of Clearance and Tuberculosis (TB) Test**

Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

**Basic Skills Requirement**

All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for student teaching.

**RICA Exam**

Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

**Subject Matter Competency Requirement**

Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

**Portfolio Assessments**

Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

**Recommendation**

Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

**Professional Dispositions and Competencies Evaluations**

Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

---

1. Biola students who have taken teacher preparation and pedagogy courses at the undergraduate level, and only need student teaching at the graduate level, will be required to take an additional 3-credit approved elective in order to have the required minimum 30 credits for an M.A.T.

2. Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students.

3. Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

4. Requires prerequisite coursework and additional requirements that can be taken during this program.
Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including student teaching.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement. This requirement must be met prior to applying for student teaching.

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (mild/moderate) Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
Preliminary Education Specialist Instruction (Mild/Moderate) Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California’s Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

The M.A.T. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. See a credential analyst for current information on completing the requirements for a teaching credential.

Teaching, M.A.T. (Preliminary Education Specialist Instruction Credential — Mild/Moderate - Internship)

Learning Outcomes
Program Learning Outcomes
Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).
5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

1 Biola students who have taken teacher preparation and pedagogy courses at the undergraduate level, and only need intern support seminar at the graduate level, will be required to take an additional 3-credit approved elective in order to have the required minimum 30 credits for an M.A.T.

2 Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students.

3 Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

4 These courses are preservice requirements.

5 Requires prerequisite coursework, preservice coursework, and additional requirements that can be taken during this program.

Minimum Grades and GPA Requirements for Credential Courses
All Education Specialist coursework must be completed with a grade of ‘B-’ or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to intern and to be recommended for a Preliminary Education Specialist Instruction Credential.

Taskstream Subscription
Candidates must have a paid subscription to Taskstream while taking Education Specialist courses, including prerequisites, and during internship.

Certificate of Clearance and Tuberculosis (TB) Test
Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

Candidates must submit valid TB tests results prior to taking Education Specialist courses with fieldwork. TB tests results must be done annually in order to participate in the required fieldwork. Fees required.

Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for internship.

RICA Exam
Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for internship.

Portfolio Assessments
Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including Intern Support Seminar.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement. This requirement must be met prior to applying for internship.

Candidates must meet regularly with an advisor to ensure that all requirements are met.
Applying for a Credential

Education Specialist Instruction (Mild/Moderate) Intern Credential

Candidates who receive a job offer and have met the associated requirements, may apply for an Intern Credential and enroll in the Intern Support Seminar. The Intern Support Seminar is taken by candidates who hold an Education Specialist (Mild/Moderate) Intern credential. If approved, candidates may begin their full-time teaching position while fulfilling all requirements for the Education Specialist (Mild/Moderate) Credential. See the credential analyst in the School of Education for details and applicable prerequisite requirements.

Preliminary Education Specialist Instruction (Mild/Moderate) Credential

After successfully completing the Intern Support Seminars and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California's Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

The M.A.T. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes.

Teaching, M.A.T. (Single Subject)

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and disabilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing. (ULO 1, 2, 3).
5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

- Applicants must have completed all bachelor’s requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
- Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.T. core courses and Capstone must be passed with a grade of ’B’ or higher.
2. Candidates must complete the Master of Arts in Teaching with a 3.0 cumulative GPA.
3. Candidates must successfully complete SEED 594 Action Research, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 30 credits is required for the Master of Arts in Teaching.
6. Candidates must complete the program within five years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to
graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits
Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Teaching. Courses transferred must be equivalent to Biola University's and have direct applicability to the student’s program design. Only courses with a grade of 'B' (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Teaching degree; a grade of 'B' is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Curriculum Requirements
Students must complete Single Subject teacher preparation and pedagogy coursework and M.A.T. core courses as detailed below. All teacher preparation and pedagogy courses must be completed with a grade of 'B-' or higher. Overall, a 3.0 GPA must be maintained in the teacher preparation course sequence in order to student teach and to be recommended for a Preliminary Single Subject Teaching Credential.

Total Credits 43

1 Biola students who have taken teacher preparation and pedagogy courses at the undergraduate level, and only need student teaching at the graduate level, will be required to take an additional 3-credit approved elective in order to have the required minimum 30 credits for an M.A.T.
2 Successful passage of SEED 553 is required for advancement in the program. Writing support and documentation may be mandatory for some students.
3 Register for one credit per term. May take up to three terms to complete. To produce quality research, it is recommended to be the only course taken in the final semester.

Taskstream Subscription
Candidates must have a paid subscription to Taskstream while taking teacher preparation courses, pedagogy courses, and during student teaching.

Certificate of Clearance and Tuberculosis (TB) Test
Candidates must obtain the application for a Certificate of Clearance prior to taking SEED 519 in order to participate in the required fieldwork sequence. Fees required.

Candidates must submit valid TB tests results prior to taking SEED 519, and annually in order to participate in the required fieldwork sequence in the Teacher Preparation Program. Fees required.

Minimum Grades and GPA Requirements
All teaching credential candidates must maintain an overall 3.0 grade point average (GPA). Students must receive a grade of ‘B-’ of higher in all teacher preparation and pedagogy courses and score an 83% or higher in all key assignments in order to student teach and to be formally recommended for a Preliminary Multiple or Single Subject Teaching Credential.

Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for student teaching.

RICA Exam
Multiple Subject candidates must pass the Reading Instruction Competence Assessment (RICA) exam.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

CalTPA
Candidates must meet or exceed the minimum standards for passing the two state-mandated California Teaching Performance Assessments (CalTPAs). Cycle 1 of the CalTPAs must be passed prior to applying for student teaching.
Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for teacher preparation and pedagogy coursework in order to remain in the Teacher Preparation Program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for teacher preparation coursework including student teaching.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement.

</tbody>
</table>

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Teaching Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Teaching Credential from the State of California’s Commission on Teacher Credentialing.

The Professional Teacher Preparation Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

SB 57 Options for Private School Teachers
Under SB 57 legislation, candidates employed three or more years in WASC-accredited schools may qualify for evaluation by the California Commission on Teacher Credentialing (CTC) of teaching experience in lieu of student teaching. Candidates employed six or more years may qualify for evaluation by the CTC of teaching experience in lieu of teaching methodology coursework and student teaching. See a credential analyst for details.

Student Teaching Under Contract
Candidates who are already full-time teachers in public schools or WASC-accredited private schools may interview to student teach under contract. If approved, public school candidates remain in their full-time teaching position while fulfilling all requirements for student teaching. Private school candidates will fulfill half of the student teaching requirements at the private school; the other half of student teaching will most often be fulfilled during the summer in a public school setting. See the Student Teaching Field Placement Coordinator for details. Candidates with less than two years of teaching experience may be required to complete one of the following courses prior to student teaching under contract.

Student Teaching Overseas
Candidates may elect to do one half of their student teaching overseas at a U.S. regionally-accredited or similarly accredited school. If interested, see one of the Directors of Teacher Preparation at least one year in advance of your overseas placement.

Teaching, ACSI
Application information may be obtained from the ACSI liaison in the School of Education Office. The credential program at Biola University meets the requirements for the Association of Christian Schools International (ACSI) Certificate. Requirements are identical to the California Preliminary Credential Program as well as:

The M.A.T. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. See a credential analyst for current information on completing the requirements for a teaching credential.
Teaching, M.A.T. (Special Education)

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Teaching, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing (ULO 1, 2, 3).
5. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of teaching program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

- Applicants must have completed all bachelor’s requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.T. core courses and Capstone must be passed with a grade of ‘B’ or higher.
2. Candidates must complete the Master of Arts in Teaching with a 3.0 cumulative GPA.
3. Candidates must successfully complete SEED 594 Action Research, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 30 credits is required for the Master of Arts in Teaching.
6. Candidates must complete the program within five years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Program Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Teaching. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Teaching; a grade of ‘B’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Learning Outcomes
Program Learning Outcomes

Upon completion of the Master of Arts in Education, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, religion, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing (ULO 1, 2, and 3).
5. Evaluate qualitative and quantitative journal articles based on standard criteria within the profession (ULO 3).
6. Exercise discernment, individually and in team settings, creatively solving problems as contextual needs emerge within the educational community (ULO 2 and 3).
7. Demonstrate God’s calling to maximize one’s leadership skills, demonstrating the qualities of a constructive change agent in the educational community to advance the Kingdom of God (ULO 3).
8. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of education program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements

• Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
• Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
• Have a minimum 3.0 cumulative GPA on a 4.0 scale.
• Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
• Complete Biola University’s Graduate Education application.
• Interview with a member of the School of Education.
• Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
• Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
• Hold a California SB2042 Multiple or Single Subject Preliminary Credential.
• Clear Credential candidates must submit the Coach and Placement Information form.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

• Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
• Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.Ed. core courses and Capstone must be passed with a grade of ‘B’ or higher.
2. Candidates must complete the Master of Arts in Education with a 3.0 cumulative GPA.
3. Candidates must successfully complete one Capstone, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 38 credits is required for the Master of Arts in Education.
6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Education. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade
of 'B' (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Education degree; a grade of 'B-' is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

**Curriculum Requirements**

Offered online.

Students in this program must complete the state-approved district induction program and earn a Clear Credential prior to receiving the M.A.Ed. degree.

1 Successful passage of SEED 554 is required for advancement in the program. Writing support and documentation may be mandatory for some students.

2 SEED 593 must be passed with a grade of "B" or higher. Students admitted to the Multiple or Single Subject Induction/Clear Credential program at Biola University will enroll in SEED 593 for each of four semesters (a maximum of 12 credits may be applied toward M.A.Ed.). An early completion option is available for experienced teachers, which may require additional approved elective credits in order to meet the 15-credit concentration requirement. Please see credential analyst in the School of Education for details.

3 May apply up to 12 credits from Student Teaching if completed at Biola University.

4 One of the following courses must be completed in the final semester. Register for one credit per semester. May take up to three semesters to complete. To produce quality research, it is recommended to be the only class taken in the final semester.

5 Course must be completed with a grade of 'B' or higher.

The M.A.Ed. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Requirements

Admission Requirements

• Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.
• Hold a preliminary credential or provide verification of the equivalent professional experience.
• Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
• Have a minimum 3.0 cumulative GPA on a 4.0 scale.
• Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
• Complete Biola University’s Graduate Education application.
• Interview with a member of the School of Education.
• Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
• Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
• Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

• Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
• Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.Ed. core courses and Capstone must be passed with a grade of 'B' or higher.
2. Candidates must complete the Master of Arts in Education with a 3.0 cumulative GPA.
3. Candidates must successfully complete one Capstone, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 38 credits is required for the Master of Arts in Education.
6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Education. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Education degree; a grade of ‘B-’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Total Credits: 60

1. Successful passage of SEED 554 is required for advancement in the program. Writing support and documentation may be mandatory for some students.
2. Requires prerequisite coursework that can be taken during this program. SEED 512, SEED 513, and all prerequisite coursework must be passed with a grade of 'B' or higher.
3. One of the following courses must be completed in the final semester. Register for one credit per semester. May take up to three semesters to complete. To produce quality research, it is recommended to be the only class taken in the final semester.
4. Course must be completed with a grade of 'B' or higher.

The M.A.Ed. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

**Education, M.A.Ed. (Personalized)**

**Learning Outcomes**

**Program Learning Outcomes**

Upon completion of the Master of Arts in Education, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, religion, socioeconomic status, sexual orientation, and disabilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one's professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing (ULO 1, 2, and 3).
5. Evaluate qualitative and quantitative journal articles based on standard criteria within the profession (ULO 3).
6. Exercise discernment, individually and in team settings, creatively solving problems as contextual needs emerge within the educational community (ULO 2 and 3).
7. Demonstrate God's calling to maximize one's leadership skills, demonstrating the qualities of a constructive change agent in the educational community to advance the Kingdom of God (ULO 3).
8. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of education program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admission Requirements**

- Applicants must have completed all bachelor's requirements prior to the start of the program and must have a bachelor's degree conferred from a regionally accredited institution prior to the start of the second term.
- Hold a preliminary credential or provide verification of the equivalent professional experience.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University's Graduate Education application.
- Interview with a member of the School of Education.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University's Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University's Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

**Graduation Requirements**

1. M.A.Ed. core courses and Capstone must be passed with a grade of 'B' or higher.
2. Candidates must complete the Master of Arts in Education with a 3.0 cumulative GPA.
3. Candidates must successfully complete one Capstone, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 38 credits is required for the Master of Arts in Education.

6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.

7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).

Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Education. Courses transferred must be equivalent to Biola University's and have direct applicability to the student's program design. Only courses with a grade of 'B' (3.0) on a 4.0 grade scale or higher will be considered for transfer to: 

- The student's program design.
- Transfer must have been taken within five years prior to the date of admission.

Total Credits 59

1 Successful passage of SEED 554 is required for advancement in the program. Writing support and documentation may be mandatory for some students.
2 One of the following courses must be completed in the final semester. Register for one credit per semester. May take up to three semesters to complete. To produce quality research, it is recommended to be the only class taken in the final semester.
3 Courses must be completed with a grade of ‘B’ or higher.
4 SEED 583 may only be taken the semester immediately prior to SEED 584/SEED 585.

Minimum Grades and GPA Requirements for Credential Courses
All Education Specialist coursework must be completed with a grade of ‘B-’ or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to student teach and to be recommended for a Preliminary Education Specialist Instruction Credential.

Taskstream Subscription
Candidates must have a paid subscription to Taskstream while taking Education Specialist courses, including prerequisites, and during student teaching.

Certificate of Clearance and Tuberculosis (TB) Test
Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

Candidates must submit valid TB tests results prior to taking Education Specialist courses with fieldwork. TB tests results must be done annually in order to participate in the required fieldwork. Fees required.

Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for student teaching.

RICA Exam
Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

Portfolio Assessments
Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including student teaching.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement. This requirement must be met prior to applying for student teaching.

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (mild/moderate) Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
Preliminary Education Specialist Instruction (Mild/Moderate) Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education
Specialist Instruction (M/M) Credential from the State of California’s Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

**Education, M.A.Ed. (Preliminary Education Specialist Instruction Credential — Mild/Moderate - Internship)**

**Learning Outcomes**

**Program Learning Outcomes**

Upon completion of the Master of Arts in Education, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, religion, socioeconomic status, sexual orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).
3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).
4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing (ULO 1, 2, and 3).
5. Evaluate qualitative and quantitative journal articles based on standard criteria within the profession (ULO 3).
6. Exercise discernment, individually and in team settings, creatively solving problems as contextual needs emerge within the educational community (ULO 2 and 3).
7. Demonstrate God’s calling to maximize one’s leadership skills, demonstrating the qualities of a constructive change agent in the educational community to advance the Kingdom of God (ULO 3).
8. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of education program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admission Requirements**

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.

- Hold a preliminary credential or provide verification of the equivalent professional experience.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education application.
- Interview with a member of the School of Education.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.
- Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.
- Must be a California resident to fulfill fieldwork requirements.

- Verify computer literacy sufficient to become actively engaged in online learning by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

**Graduation Requirements**

1. M.A.Ed. core courses and Capstone must be passed with a grade of ‘B’ or higher.
2. Candidates must complete the Master of Arts in Education with a 3.0 cumulative GPA.
3. Candidates must successfully complete one Capstone, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.
4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.
5. A minimum of 38 credits is required for the Master of Arts in Education.
6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.
7. Candidates must meet with a department advisor and Graduate Graduation Counselor in the Office of the Registrar one year prior to graduation to declare intent to graduate. (See Graduate Graduation Check description in the Admission, Enrollment and Graduation Requirements (p. 25) section).
Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Education. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Education degree; a grade of ‘B-’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

Curriculum Requirements

Preliminary Educational Specialist Instruction Credential (Mild/Moderate) - Internship

All candidates for the Preliminary Educational Specialist Instruction Credential (Mild/Moderate) must complete the following courses and required fieldwork.

Preliminary Education Specialist Instruction (Mild/Moderate) candidates who come to Biola University with a SB2042 Multiple Subject or Single Subject Credential will have the prerequisite coursework waived. Additionally, candidate who have taken undergraduate of graduate equivalents of the prerequisite coursework will have their transcripts evaluated for equivalency. The Prerequisite Option will be determined by the Program Director during the interview process to the program.

Minimum Grades and GPA Requirements for Credential Courses

All Education Specialist coursework must be completed with a grade of ‘B’ or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to intern and to be recommended for a Preliminary Education Specialist Instruction Credential.

Taskstream Subscription

Candidates must have a paid subscription to Taskstream while taking Education Specialist courses, including prerequisites, and during internship.
Certificate of Clearance and Tuberculosis (TB) Test
Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

Candidates must submit valid TB tests results prior to taking Education Specialist courses with fieldwork. TB tests results must be done annually in order to participate in the required fieldwork. Fees required.

Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for internship.

RICA Exam
Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for internship.

Portfolio Assessments
Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including Intern Support Seminar.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola's School of Education. Candidates who have taken one of the courses listed below, with a grade of 'C' or better at Biola University, have met this requirement. This requirement must be met prior to applying for internship.

</tr>
</tbody>
</table>

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (mild/moderate) Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential

Education Specialist Instruction (Mild/Moderate) Credential
Candidates who receive a job offer and have met the associated requirements, may apply for an Intern Credential and enroll in the Intern Support Seminar. The Intern Support Seminar is taken by candidates who hold an Education Specialist (Mild/Moderate) Intern credential. If approved, candidates may begin their full-time teaching position while fulfilling all requirements for the Education Specialist (Mild/Moderate) Credential. See the credential analyst in the School of Education for details and applicable prerequisite requirements.

Preliminary Education Specialist Instruction (Mild/Moderate) Credential
After successfully completing the Intern Support Seminars and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California's Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

The M.A.Ed. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Education, M.A.Ed. (Single Subject)

Learning Outcomes

Program Learning Outcomes

Upon completion of the Master of Arts in Education, students will be able to:

1. Analyze, evaluate, and apply knowledge of current educational issues, settings, and legislative requirements from a biblical perspective (ULO 1).
2. Identify personal assumptions and generalizations related to diversity (e.g., gender, ethnicity, religion, socioeconomic status, sexual
orientation, and [dis]abilities) while affirming that all students are valued as image bearers of God (ULO 2).

3. Demonstrate Christian attitudes and actions conducive to the development of professional excellence and witness to the community (ULO 3).

4. Exhibit growth in one’s professional practice by utilizing professional databases, conducting empirical research, and articulating findings through effective communication in both speaking and writing (ULO 1, 2, and 3).

5. Evaluate qualitative and quantitative journal articles based on standard criteria within the profession (ULO 3).

6. Exercise discernment, individually and in team settings, creatively solving problems as contextual needs emerge within the educational community (ULO 2 and 3).

7. Demonstrate God’s calling to maximize one’s leadership skills, demonstrating the qualities of a constructive change agent in the educational community to advance the Kingdom of God (ULO 3).

8. Synthesize knowledge, skills, and perspectives from concentration-specific content of the master of education program to determine implications for professional practice (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements

• Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.

• Hold a preliminary credential or provide verification of the equivalent professional experience.

• Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).

• Have a minimum 3.0 cumulative GPA on a 4.0 scale.

• Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.

• Complete Biola University’s Graduate Education application.

• Interview with a member of the School of Education.

• Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).

• Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter program or evidence of passing one subtest of the CSET in their subject area.

• Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

• Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Graduation Requirements

1. M.A.Ed. core courses and Capstone must be passed with a grade of ‘B’ or higher.

2. Candidates must complete the Master of Arts in Education with a 3.0 cumulative GPA.

3. Candidates must successfully complete one Capstone, and all professional requirements (e.g., electronic portfolio, including key assignments) related to the coursework and learning outcomes.

4. Candidates must demonstrate professional behavior as an important aspect of their preparation to effectively impact the field of education (inside and beyond the classroom). For candidates on probationary status, or where a candidate has struggled with professional dispositions (scores of 1 or 2), these concerns may prevent the candidate from moving forward in the program and graduation.

5. A minimum of 38 credits is required for the Master of Arts in Education.

6. Candidates must complete the program within six years of continuous enrollment. Candidates who are not continuously enrolled must complete the program within eight years total.

7. Candidates must meet with a department advisor and Graduate Education Transfer of Credits

Students transferring from an accredited graduate program may transfer a maximum of 6 approved credits for their M.A. in Education. Courses transferred must be equivalent to Biola University’s and have direct applicability to the student’s program design. Only courses with a grade of ‘B’ (3.0) on a 4.0 grade scale or higher will be considered for transfer towards the M.A. in Education degree; a grade of ‘B’ is not transferable. Credits considered for transfer must have been taken within five years prior to the date of admission.

## Requirements

### Admission Requirements

- **Applicants** must have completed all bachelor’s requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Hold a preliminary credential or provide verification of the equivalent professional experience.
- Submit GRE General test scores to determine writing proficiency (waived if cumulative GPA is 3.5 or above or if CBEST and all CSET subtests are passed).
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education application.
- Interview with a member of the School of Education.

Students enrolling in online programs will need all of the above listed admissions requirements as well as the following:

- Verify computer literacy sufficient to become actively engaged in learning online by passing an online proficiency test offered by Biola University’s Distance Learning Department or providing proof of successful online learning in a prior course.
- Verify access to a computer and the Internet sufficient to engage in Biola University’s Distance Learning Programs.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

¹ Successful passage of SEED 554 is required for advancement in the program. Writing support and documentation may be mandatory for some students.

² Requires prerequisite coursework that can be taken during this program. SEED 514, SEED 515, and all prerequisite coursework must be passed with a grade of 'B-' or higher.

³ One of the following courses must be completed in the final semester. Register for one credit per semester. May take up to three semesters to complete. To produce quality research, it is recommended to be the only class taken in the final semester.

⁴ Course must be completed with a grade of 'B' or higher.

The M.A.Ed. Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Child Development Permits – Undergraduate

The School of Education offers an Early Childhood 12-credit concentration within the context of the Liberal Studies, Elementary Education major and the Liberal Studies, Multidisciplinary major. Upon completion of the required Early Childhood coursework, candidates will be eligible to apply for the California Child Development Assistant Permit and the Associate Teacher Permit with the option to add the School-Age Emphasis Authorization to either permit. Candidates completing the Early Childhood coursework will enjoy hands-on experience in several local infant, toddler, and elementary-age educational settings during their required fieldwork assignments. The School of Education is also approved to recommend candidates for the Child Development Teacher, Master Teacher and Site Supervisor permits through the California Commission on Teacher Credentialing. Applications for permits will be submitted to the California Commission on Teacher Credentialing with Biola University’s formal recommendation. All Child Development Permits require that all coursework be passed with a grade of ‘C’ or higher. Requirements, including coursework, will vary according to the Child Development Permit desired. See an Advisor in the School of Education.

Child Development Permits – Graduate

The School of Education offers Early Childhood coursework, and upon completion of the required coursework, candidates will be eligible to apply for the California Child Development Assistant Permit, Associate Teacher Permit, Teacher Permit, Master Teacher Permit and/or Site Supervisor Permit with the option to add the School-Age Emphasis Authorization to all permits. The Early Childhood coursework can be applied to the Master of Arts in Teaching (M.A.T.) or the Master of Arts in Education (M.A.Ed.) as part of a 15-credit concentration, as a stand-alone program, or taken for Child Development certification purposes. All Child Development Permits require that all coursework be passed with a grade of ‘C’ or higher. The Early Childhood concentrations within the M.A.T. and the M.A.Ed. may be taken by non-California residents (please see a credential analyst for current information on completing the requirements for these Permits).

Admission Requirements

- Must be a California Resident in order to fulfill fieldwork requirements for permits.
- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 2.75 cumulative GPA on a 4.0 scale.
- Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing.
- Documentation of tuberculosis (TB) test clearance administered within 3 months prior to start of program.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Taskstream Subscription

Candidates must have a paid subscription to Taskstream while taking Child Development courses.

Program Requirements

The School-Age Emphasis Authorization can be added to all child development permits by completion of additional approved coursework. Please see a credential analyst in the School of Education for details.

1. Assistant Permit Coursework

</tr>
</tbody>
</table>

Experience Requirement

The experience requirement includes at least 50 days of experience in an instructional capacity in a child care and development program, working at least 3 hours per day within the last 2 years. This experience must be verified by submitting an original letter from the employer on official letterhead. Fieldwork in early childhood coursework may be folded into the 50 days of required early childhood experience (minimum of 3 hours per day).

3. Teacher Permit Coursework

</tr>
</tbody>
</table>

SEED 579 waived if the experience requirement is met.

Experience Requirement

The experience requirement includes at least 175 days of experience in an instructional capacity in a child care and development program, working at least 3 hours per day within the last 4 years. This experience must be verified by submitting an original letter from the employer on official letterhead. Fieldwork in early childhood coursework may be folded into the 175 days of required early childhood experience (minimum of 3 hours per day). Candidates who successfully complete SEED 512 and SEED 513 with a student teaching placement in kindergarten or SEED 579 (Early Childhood Practicum) may use these hours to fulfill the 175 day requirement.
General Education Requirement: Must complete 16 semester credits in general education. One course in each of the following areas: humanities and/or fine arts, social sciences, math and/or science, and English and/or language arts.

4. Master Teacher Permit Coursework

Degree Requirement

Complete a baccalaureate degree or higher or possess a valid Multiple Subject Teaching Credential or a Single Subject Teaching Credential in Home Economics.

Curriculum and Instruction Certificate

The School of Education at Biola University offers an online institution-sponsored 12-credit certificate in Curriculum and Instruction. This certificate prepares classroom teachers who serve, or wish to serve, in writing or editing curricula for school districts or for publication. The 12-credit Curriculum and Instruction Certificate can be taken as a stand-alone program or can be embedded as part of a 15-credit concentration in Biola’s M.A.T. or M.A.Ed. programs. The institution-sponsored certificate requires that all coursework be passed with a grade of ‘B’ or higher.

Admission Requirements

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.
- Have a minimum 3.0 cumulative GPA on a 4.0 scale.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

Program Requirements

Students who pass any four of the six courses listed below with a grade of ‘B’ or higher will qualify for the Curriculum and Instruction Certificate:

Education Specialist Instruction Credential (Mild/Moderate) Student Teaching

Program Description

The Education Specialist Instruction Credential authorizes the holder to conduct Educational Assessments related to student’s access to the academic core curriculum and progress towards meeting instructional academic goals, and provide instruction, and Special Education Support to individuals in the area of specialization listed on the credential (Mild/Moderate Disabilities). Mild/Moderate Disabilities (M/M) includes specific learning disabilities, mild to moderate intellectual disabilities, other health impairment, serious emotional disturbance, and authorizes service in grades K–12 and in classes organized primarily for adults through age 22. The Education Specialist Instruction Credential has online coursework with in person fieldwork. Student teaching supervision is available in person or via Skype pending location of student teaching placement.

Learning Outcomes

Program Learning Outcomes

Biola University’s graduate Educational Specialist Credential candidates are expected to exemplify the following outcomes upon the completion of the Education Specialist Instruction (Mild/Moderate) Credential. Students will be able to:
1. Identify and articulate God’s calling as Christian educators by reflecting on their spiritual journey and their educational preparation in a biblically integrated essay; and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, 3).

2. Examine and analyze their students’ cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students’ optimum development (ULO 1).

3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, response to profile data, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, 3).

4. Design and implement appropriate adaptations to ensure the attainment of a productive learning environment for each student enrolled in candidates’ classes by focused evaluation and reflection of each student's strengths and needs. Candidates will also utilize developmental and learning theories, as a foundation for professional decision-making and reflection by identifying student learning needs and making appropriate adaptations to ensure student learning (ULO 1, 3).

5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core standards as a foundation for lessons that integrate aspects of God’s natural revelation (ULO 1, 3).

6. Design and implement appropriate and effective learning strategies by designing grade and subject-specific lesson and unit plans (ULO 1, 3).

7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks by demonstrating their knowledge of a comprehensive classroom management plan (ULO 1, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admission Requirements**

For graduate students who are earning an Education Specialist Instruction (Mild/Moderate) credential, but not seeking a degree, the following admission requirements apply:

- Must be a California Resident in order to fulfill fieldwork requirements.
- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelor’s degree conferred from a regionally accredited institution prior to the start of the second term.
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter waiver program or evidence of passing one subtest of the CSET in their subject area.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Have a minimum 2.75 cumulative GPA on a 4.0 scale.
- Verify possession of Certificate of Clearance from the California Commission on Teacher Credentialing.
- Documentation of tuberculosis (TB) test clearance administered within 3 months prior to start of program.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student’s academic file and normally cannot be returned or copied for distribution.

**Program Requirements**

After successfully completing the requirements below, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Education Specialist Instruction Credential from the State of California’s Commission on Teacher Credentialing.

**Education Specialist Courses**

All candidates for the Preliminary Educational Specialist Instruction Credential (Mild/Moderate) must complete the following courses and required fieldwork.

Preliminary Education Specialist Instruction (Mild/Moderate) candidates who come to Biola University with a SB2042 Multiple Subject or Single Subject Credential will have the prerequisite coursework waived. Additionally, candidates who have taken undergraduate or graduate equivalents of the prerequisite coursework will have their transcripts evaluated for equivalency. The Prerequisite Option will be determined by the Program Director during the interview process to the program.

Portfolio Assessments
Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including student teaching.

U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement. This requirement must be met prior to applying for student teaching.

CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (mild/moderate) Credential.

Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
Preliminary Education Specialist Instruction (Mild/Moderate) Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California’s Commission on Teacher Credentialing.
The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

**Education Specialist Instruction Credential (Mild/Moderate) Internship**

**Program Description**
The Education Specialist Instruction Credential authorizes the holder to conduct Educational Assessments related to student’s access to the academic core curriculum and progress towards meeting instructional academic goals, and provide instruction, and Special Education Support to individuals in the area of specialization listed on the credential (Mild/Moderate Disabilities). Mild/Moderate Disabilities (M/M) includes specific learning disabilities, mild to moderate intellectual disabilities, other health impairment, serious emotional disturbance, and authorizes service in grades K–12 and in classes organized primarily for adults through age 22. The Education Specialist Instruction Credential has online coursework with in person fieldwork. Student teaching supervision is available in person or via Skype pending location of student teaching placement.

**Learning Outcomes**

| Notes: 1 These courses are pre-service requirements. 2 Intern Support Seminar is taken by candidates who hold an Intern Credential. See credential analyst in the School of Education for requirements. |

Minimum Grades and GPA Requirements

All Education Specialist coursework must be completed with a grade of ‘B-’ or higher. Overall, a 3.0 GPA must be maintained in the Education Specialist course sequence in order to intern and to be recommended for a Preliminary Education Specialist Instruction Credential.

**Taskstream Subscription**

Candidates must have a paid subscription to Taskstream while taking Education Specialist courses, including prerequisites, and during internship.

**Certificate of Clearance and Tuberculosis (TB) Test**

Candidates must complete the application for a Certificate of Clearance prior to taking Education Specialist courses in order to participate in the required fieldwork. Fees required.

Candidates must submit valid TB tests results prior to taking Education Specialist courses with fieldwork. TB tests results must be done annually in order to participate in the required fieldwork. Fees required.

**Basic Skills Requirement**

All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for internship.

**RICA Exam**

Candidates must pass the Reading Instruction Competence Assessment (RICA) exam. Not required for candidates who have earned a California teaching credential.

**Subject Matter Competency Requirement**

Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for internship.

**Portfolio Assessments**

Candidates must complete and successfully present the Preliminary Education Specialist Credential (Mild/Moderate) electronic portfolio.

**Recommendation**

Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

**Professional Dispositions and Competencies Evaluations**

Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for Education Specialist coursework in order to remain in the program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition, may lead to dismissal.

**Fieldwork Evaluation**

Candidates must obtain good to excellent scores in each fieldwork evaluation for Education Specialist coursework, including internship.

**U.S. Constitution Requirement**

The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.
Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola's School of Education. Candidates who have taken one of the courses listed below, with a grade of 'C' or better at Biola University, have met this requirement. This requirement must be met prior to applying for internship.

**CPR**
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Education Specialist Instruction (mild/moderate) Credential.

**Advisor Contact**
Candidates must meet regularly with an advisor to ensure that all requirements are met.

**Applying for a Credential**

**Education Specialist Instruction (Mild/Moderate) Intern Credential**
Candidates who receive a job offer and have met the associated requirements, may apply for an Intern Credential and enroll in the Intern Support Seminar. The Intern Support Seminar is taken by candidates who hold an Education Specialist (Mild/Moderate) Intern credential. If approved, candidates may begin their full-time teaching position while fulfilling all requirements for the Education Specialist (Mild/Moderate) Credential. See the credential analyst in the School of Education for details and applicable prerequisite requirements.

**Preliminary Education Specialist Instruction (Mild/Moderate) Credential**
After successfully completing the Intern Support Seminars and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Education Specialist Instruction (M/M) Credential from the State of California's Commission on Teacher Credentialing.

The Education Specialist Instruction (M/M) Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

**Induction/Clear Credential**
In order to earn an SB 2042 Clear Credential, the candidate must first hold an SB 2042 Preliminary Multiple or Single Subject Credential. To clear the preliminary credential, California requires completion of a CTC-approved induction program. We offer an online, four-semester Multiple and Single Subject Induction/Clear Credential Program (or two semester program for the Early Completion option) for employed teachers who are working and clearing their California SB2042 Preliminary Teaching Credential. The program provides a student-centered, mentor-based approach to extend candidates' preparation beyond the preliminary credential. Induction/Clear courses can be taken as a stand-alone program or can be embedded as part of a 15-credit concentration in Biola's M.A.T. or M.A.Ed. Programs.

Candidates who take an induction program through their employing school district to clear their SB2042 Preliminary Multiple Subject or Single Subject credentials are invited to apply to Biola University Master's programs. As students take CTC-approved district induction programs, they may register for up to 12 induction credits for a reduced rate of one-third the normal tuition for those 12 credits and apply these credits to their M.A. in Education or M.A. in Teaching. Candidates completing a state-approved district induction program may apply up to 12 credits of Biola student teaching graduate credit to their M.A. in Education or M.A. in Teaching in lieu of induction credit.

**Admission Requirements**
- Hold a California SB 2042 Preliminary Multiple or Single Subject Credential.
- Hold a baccalaureate degree from an accredited institution.
- Have a minimum 2.75 cumulative GPA on a 4.0 scale.
- Submit the Coach and Placement Information form.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University's Graduate Education Application.
- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

**Curriculum Requirements**
Course must be passed with a grade of 'B' or higher.

Total Credits 12

1 Students admitted to the Multiple or Single Subject Clear Credential program at Biola University will enroll in SEED 593 for each of four semesters (a maximum of 12 credits may be applied toward M.A. credit). An early completion option is available for experienced teachers. See credential analyst in the School of Education for requirements.

The Induction/Clear Credential Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.
Preliminary Credentials (Multiple Subject)

Learning Outcomes

Program Learning Outcomes

Biola University's graduate teacher preparation candidates are expected to exemplify the following outcomes upon the completion of the Multiple Subject, Single Subject, and/or Education Specialist, Mild/Moderate credential(s), students will be able to:

1. Identify and articulate God's calling as Christian educators by reflecting on their spiritual journey and their educational preparation in a Biblically integrated essay, and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, and 3).

2. Examine and analyze their students' cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students' optimum development (ULO 1).

3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, response to profile data, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, and 3).

4. Design and implement appropriate adaptations to ensure the attainment of a productive learning environment for each student enrolled in candidates' classes by focused evaluation and reflection of each student's strengths and needs. Candidates will also utilize developmental and learning theories, as a foundation for professional decision-making and reflection by identifying student learning needs and making appropriate adaptations to ensure student learning (ULO 1 and 3).

5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core standards as a foundation for lessons that integrate aspects of God's natural revelation (ULO 1 and 3).

6. Design and implement appropriate and effective learning strategies by designing grade and subject-specific lesson and unit plans (ULO 1 and 3).

7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks by demonstrating their knowledge of a comprehensive classroom management plan (ULO 1 and 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Multiple Subject Credential

The SB2042 Professional Teacher Preparation Program is available for the Multiple Subject Credential and is accredited by the California Commission on Teacher Credentialing (CTC) and the Association of Christian Schools International (ACSI). The SB2042 Multiple Subject Credential authorizes instruction in any self-contained classroom for grades K–12, preschool, and classes organized primarily for adults, but is especially appropriate for grades K–6. This credential also includes authorization to teach English Language Learners in self-contained core settings.

Preliminary Credential Admission Requirements

For graduate students who are earning credentials but not seeking a degree, the following admission requirements apply:

- Applicants must have completed all bachelor's requirements prior to the start of the program and must have a bachelor's degree conferred from a regionally accredited institution prior to the start of the second term.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter waiver program or evidence of passing one subtest of the CSET in their subject area.
- Have a minimum 2.75 cumulative GPA on a 4.0 scale.
- Verify possession of Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University's Graduate Education Application.
- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

Preliminary Credential Teacher Preparation Requirements

After successfully completing the requirements below, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Credential from the State of California's Commission on Teacher Credentialing.

1. Teacher Preparation and Subject-Specific Pedagogy Courses

All candidates for the Preliminary Multiple Subject (MS) Teaching Credential must complete the following graduate teacher preparation courses in sequence:

<table>

Candidates must have a paid subscription to Taskstream while taking teacher preparation courses, pedagogy courses, and during student teaching.

3. Certificate of Clearance and Tuberculosis (TB) Test
Candidates must obtain the application for a Certificate of Clearance prior to taking SEED 519, in order to participate in the required fieldwork sequence. Fees required.

Candidates must submit valid TB tests results prior to taking SEED 519, and annually in order to participate in the required fieldwork sequence in the Teacher Preparation Program. Fees required.

4. Minimum Grades and GPA Requirements
All teaching credential candidates must maintain an overall 3.0 grade point average (GPA). Students must receive a grade of ‘B’ of higher in all teacher preparation and pedagogy courses and score an 83% or higher in all key assignments in order to student teach and to be formally recommended for a Preliminary Multiple or Single Subject Teaching Credential.

5. Basic Skills Requirement
All candidates must pass the California Basic Educational Skills Test (CBEST) or equivalent. This requirement must be met prior to applying for student teaching.

6. RICA Exam
Multiple Subject candidates must pass the Reading Instruction Competence Assessment (RICA) exam.

7. Subject Matter Competency Requirement
Candidates must prove subject matter competency by completing an approved subject matter program or passing equivalent subject matter exams (CSET). These exams must be passed prior to applying for student teaching.

8. CalTPA
Candidates must meet or exceed the minimum standards for passing the two state-mandated California Teaching Performance Assessments (CalTPAs). Cycle 1 of the CalTPAs must be passed prior to applying for student teaching.

9. Recommendation
Candidates must be recommended by the faculty of the School of Education as having all requisite professional qualities to be successful as a teacher.

10. Professional Dispositions and Competencies Evaluations
Candidates must demonstrate high performance in each Professional Dispositions and Competencies Evaluation for teacher preparation and pedagogy coursework in order to remain in the Teacher Preparation Program. Evidence of unaddressed concerns (scores of 1 or 2), or failing to meet a professional disposition may lead to dismissal.

11. Fieldwork Evaluation
Candidates must obtain good to excellent scores in each fieldwork evaluation for teacher preparation coursework including student teaching.

12. U.S. Constitution Requirement
The California Commission on Teacher Credentialing requires that a teaching credential candidate must have completed a minimum 2-credit course that covers the U.S. Constitution or fulfill this requirement by examination.

Transfer coursework must be reviewed by a credential analyst in the School of Education. If an exam is required, a U.S. Constitution exam and study packet is available in Biola’s School of Education. Candidates who have taken one of the courses listed below, with a grade of ‘C’ or better at Biola University, have met this requirement.

13. CPR
Candidates must show verification of current training in cardiopulmonary resuscitation (CPR) — infant, child and adult — that meets the standards of either the American Heart Association or the American Red Cross when applying for the Preliminary Teaching Credential.

14. Advisor Contact
Candidates must meet regularly with an advisor to ensure that all requirements are met.

Applying for a Credential
After successfully completing student teaching and the associated requirements, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Teaching Credential from the State of California’s Commission on Teacher Credentialing.

The Professional Teacher Preparation Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

SB 57 Options for Private School Teachers
Under SB57 legislation, candidates employed three or more years in WASC-accredited schools may qualify for evaluation by the California
Commission on Teacher Credentialing (CTC) of teaching experience in lieu of student teaching. Candidates employed six or more years may qualify for evaluation by the CTC of teaching experience in lieu of teaching methodology coursework and student teaching. See a credential analyst for details.

**Student Teaching Under Contract**

Candidates who are already full-time teachers in public schools or WASC-accredited private schools may interview to student teach under contract. If approved, public school candidates remain in their full-time teaching position while fulfilling all requirements for student teaching. Private school candidates will fulfill half of the student teaching requirements at the private school; the other half of student teaching will most often be fulfilled during the summer in a public school setting. See the Student Teaching Field Placement Coordinator for details. Candidates with less than two years of teaching experience may be required to complete one of the following courses prior to student teaching under contract.

**Student Teaching Overseas**

Candidates may elect to do one half of their student teaching overseas at a U.S. regionally-accredited or similarly accredited school. If interested, see one of the Directors of Teacher Preparation at least one year in advance of your overseas placement.

**Teaching, ACSI**

Application information may be obtained from the ACSI liaison in the School of Education Office. The credential program at Biola University meets the requirements for the Association of Christian Schools International (ACSI) Certificate. Requirements are identical to the California Preliminary Credential Program as well as:

The Preliminary Credential Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

**Preliminary Credentials (Single Subject)**

**Learning Outcomes**

**Program Learning Outcomes**

Biola University’s graduate teacher preparation candidates are expected to exemplify the following outcomes upon the completion of the Multiple Subject, Single Subject, and/or Education Specialist, Mild/Moderate credential(s), students will be able to:

1. Identify and articulate God’s calling as Christian educators by reflecting on their spiritual journey and their educational preparation in a Biblically integrated essay, and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, and 3).
2. Examine and analyze their students’ cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students’ optimum development (ULO 1).
3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, response to profile data, and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, and 3).
4. Design and implement appropriate adaptations to ensure the attainment of a productive learning environment for each student enrolled in candidates’ classes by focused evaluation and reflection of each student’s strengths and needs. Candidates will also utilize developmental and learning theories, as a foundation for professional decision-making and reflection by identifying student learning needs and making appropriate adaptations to ensure student learning (ULO 1 and 3).
5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core standards as a foundation for lessons that integrate aspects of God’s natural revelation (ULO 1 and 3).
6. Design and implement appropriate and effective learning strategies by designing grade and subject-specific lesson and unit plans (ULO 1 and 3).
7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks by demonstrating their knowledge of a comprehensive classroom management plan (ULO 1 and 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Single Subject Credentials**

The SB2042 Professional Teacher Preparation Program is available for Single Subject Credentials and is accredited by the California Commission on Teacher Credentialing (CTC) and the Association of Christian Schools International (ACSI). The Single Subject Credential authorizes instruction in the subjects listed on the credential in departmentalized classes at any grade level including preschool, grades K–12, and classes organized primarily for adults, but is especially...
appropriate for middle school and high school. This credential also includes authorization to teach English Language Learners within the content area.

**Preliminary Credential Admission Requirements**

For graduate students who are earning credentials but not seeking a degree, the following admission requirements apply:

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.
- Take the California Basic Educational Skills Test (CBEST) or have satisfied the Basic Skills Requirement (BSR).
- Verify subject matter competency. Candidates must present a letter verifying completion of a state-approved subject matter waiver program or evidence of passing one subtest of the CSET in their subject area.
- Have a minimum 2.75 cumulative GPA on a 4.0 scale.
- Verify possession of Certificate of Clearance from the California Commission on Teacher Credentialing and submit valid TB tests results.
- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.
- Complete Biola University’s Graduate Education Application.
- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

**Preliminary Credential Teacher Preparation Requirements**

After successfully completing the requirements below, candidates make an appointment with a credential analyst in the School of Education at Biola University and apply for the Preliminary Credential from the State of California’s Commission on Teacher Credentialing.

1. **Teacher Preparation and Subject-Specific Pedagogy Courses**

   All candidates for the Preliminary Single Subject (SS) Teaching Credential must complete the following graduate teacher preparation courses in sequence:

The Preliminary Credential Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation and for accreditation/reporting purposes. Please see a credential analyst for current information on completing the requirements for a teaching credential.

Special Education Certificate – Undergraduate
The School of Education at Biola University offers an online institution-sponsored 12-credit certificate in Special Education which can be embedded into the Liberal Studies, Elementary Education major and the Liberal Studies, Multidisciplinary major as a concentration. This certificate will equip a school teacher to better serve special needs students in his/her classroom. Additionally, if a candidate later desires to go into full-time special education, this certificate may provide a head start in a credential program. Candidates completing the Special Education Certificate coursework will enjoy 12 credits of focused study in special education, including fieldwork in local schools and the development of competencies that assist the candidate in working with student study teams, systematic data collection, objective reporting, and modification and accommodations to support students with mild to moderate learning disabilities in the regular classroom. The institution-sponsored certificate requires that all coursework be passed with a grade of ‘B-’ or higher.

Special Education Certificate – Graduate

The School of Education at Biola University offers an online institution-sponsored 12-credit certificate in Special Education. This certificate assists regular classroom teachers who serve special needs students, teachers who plan to later earn their Special Education Credential, and administrators and curriculum specialists who desire to strengthen their special education expertise. The 12-credit Special Education Certificate can be taken as a stand-alone program or can be embedded as part of a 15-credit concentration in Biola's M.A.T. or M.A.Ed. programs. The institution-sponsored certificate requires that all coursework be passed with a grade of 'B-' or higher.

Admission Requirements

- Applicants must have completed all bachelors requirements prior to the start of the program and must have a bachelors degree conferred from a regionally accredited institution prior to the start of the second term.

- Have a minimum 3.0 cumulative GPA on a 4.0 scale.

- Verify possession of a Certificate of Clearance from the California Commission on Teacher Credentialing.

- Documentation of tuberculosis (TB) test clearance administered within 3 months prior to start of program.

- Applicants for whom English is not a primary language must verify a score of 100 iBT on the TOEFL exam.

- Complete Biola University's Graduate Education Application.

- Interview with a member of the School of Education.

Official documents presented for admission or evaluation become part of the student's academic file and normally cannot be returned or copied for distribution.

School of Education Courses by Discipline

Course Descriptions

- LEDU: Education – Undergraduate (p. 273)
- SEED: Education – Graduate (p. 278)
LEDU: Education Courses

LEDU 301 - Introduction to Teaching Credits 3
This course examines the structure and function of the school, foundations of education, qualities required for teacher effectiveness, and contemporary issues in education. Successful completion of this course constitutes one of the requirements for admission to the Teacher Preparation Program. CBEST must be taken or basic skills requirement met during this course for acceptance to a credential program. Lecture/Lab Hours: A 25-hour fieldwork practicum component is required. Note(s): Special approval required; must submit Certificate of Clearance forms and valid negative TB test results; credential candidates must pass this course with a grade of 'B-' or higher. Grade Mode: A. Restriction(s): Must not be Freshman Class; must be Undergraduate Level. Course Fee: $25. Additional Fee(s): Paid Taskstream subscription required; approximately $130 for livescan and application fees will be required.

LEDU 309 - Elementary Math/Science Methods Credits 2
During interrelated activities in program coursework and fieldwork, Multiple Subject education candidates learn, understand and use content-specific teaching strategies for helping grades K–6 students learn the state-adopted academic content standards for Math and Science. Note(s): Credential candidates must pass this course with a 'B-' or higher. Grade Mode: A. Prerequisite(s): LEDU 420. Corequisite(s): LEDU 336, LEDU 434. Restriction(s): Must be Undergraduate Level. Course Fee: $25. Additional Fee(s): Paid Taskstream subscription required for credential candidates.

LEDU 324 - Performing Arts in Education Credit 1
Multiple subject teacher candidates identify, apply, appreciate the value of, and practice components and strands of culturally and developmentally appropriate dance and theater education for youth as found in the Visual and Performing Arts Framework and Student Academic Content Standards. Lecture/Lab Hours: A 15-hour fieldwork practicum component is required. Grade Mode: A. Prerequisite(s): LEDU 301. Restriction(s): Must be Undergraduate Level. Course Fee: $50. Additional Fee(s): Paid Taskstream subscription required.

LEDU 330 - Psychological Foundations of Education Credits 3
Application of psychological principles to the education process, role of the teacher and learner, human growth and development, learning styles, motivation, memory, transfer of learning, measurement and evaluation, research and experimentation in learning theory. Note(s): Special approval required; restricted to formal application and acceptance to the School of Education; credential candidates must pass this course with a 'B-' or higher. Grade Mode: A. Prerequisite(s): PSYC 200; LEDU 301 or MUSC 205. Restriction(s): Must be Undergraduate Level. Course Fee: $50. Additional Fee(s): Paid Taskstream subscription required.

LEDU 335 - Child Development: Birth through Adolescence Credits 3
Basic concepts of cognitive development, including psychosocial, moral and language development. Define concepts related to the development of personality and temperament. Examine scope of physical development of children and the connections between health and learning. These theories are investigated in light of classroom implications for identifying and describing individual differences in the development of children. Covers the impact of genetic, sociocultural and socioeconomic factors on the development of children and young adolescents. Note(s): This class is designed to fulfill the University's writing competency requirement for non-credential students. Grade Mode: A. Prerequisite(s): LEDU 336. Restriction(s): Must not be Freshman Class; and must be Undergraduate Level.

LEDU 336 - Elementary Health Curriculum and Methods Credit 1
During interrelated activities in program coursework and fieldwork, Multiple Subject candidates learn content-specific teaching strategies that are effective in achieving the goals of the acceptance of personal responsibility for lifelong health; respect for and promotion of the health of others; understanding of the process of growth and development; and informed use of health-related information, products, and services. Note(s): Credential candidates must pass this course with a 'B-' or higher. Grade Mode: A. Prerequisite(s): LEDU 420. Corequisite(s): LEDU 309, LEDU 434. Restriction(s): Must be Undergraduate Level. Additional Fee(s): Paid Taskstream subscription required for credential candidates.

LEDU 337 - Elementary History-Social Science Curriculum and Methods Credit 1
During interrelated activities in program coursework and fieldwork, Multiple Subject education candidates learn, understand and use content-specific teaching strategies for helping grades K–6 students learn the state-adopted academic content standards for History-Social Science. Note(s): Credential candidates must pass this course with a 'B-' or higher. Grade Mode: A. Prerequisite(s): LEDU 341. Corequisite(s): LEDU 420. Restriction(s): Must be Undergraduate Level. Additional Fee(s): Paid Taskstream subscription required for credential candidates.

LEDU 341 - Methods of Teaching Linguistically Diverse Students Credits 3
Survey of the theories, programs, and instructional practices for English language development, including first and second language acquisition and individual factors affecting language acquisition. Strategies for the application of theory to classroom practice and instruction in content area literacy are emphasized. Principles of educational equity, diversity, and cultural and linguistic responsiveness are examined. Lecture/Lab Hours: A 10-hour fieldwork practicum component is required. Note(s): Credential candidates must pass this course with a 'B-' or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A. Prerequisite(s): LEDU 330. Restriction(s): Must be Undergraduate Level. Course Fee: $25. Additional Fee(s): Paid Taskstream subscription required.
LEDU 342 - Introduction to Spiritual Formation for Educators Credits 3
This introductory study into the nature of spiritual formation attempts to understand the nature of our new life in Christ, the process of formation in the Spirit and the directives for cooperating with His work. Attention is given to implications of spiritual formation for the life of the educator and classroom experience. Practical exercise in prayer, soul projects, and various spiritual disciplines are included as well as a personal all-day retreat addressing one’s calling as an educator in Christ. Particular attention is given to how our life in Christ can deal with personal issues of guilt, shame and legalism and how to cooperate with the Spirit in transforming the heart in light of the dynamics of original sin, our early relational development, and the habits of sin developed over time that affect the classroom. Note(s): Must pass course with a grade of ‘C’ or higher. Grade Mode: A.
Prerequisite(s): BBST 103, LEDU 356.
Restriction(s): Must be Junior Class or Senior Class; and Undergraduate Level.

LEDU 356 - Early Childhood Curriculum Credits 3
This course examines ways to create meaningful curriculum that is aligned with the National Association for the Education of Young Children (NAEYC) program standards, the California Preschool Learning Foundations, and the California Common Core and Content Standards. Teacher candidates develop curriculum plans that integrate language and literacy, mathematics, and play for children ages 3 to 8. Particular attention is given to the key role of adult-child interactions and teaching strategies supporting physical, social and intellectual development for all children. Lecture/Lab Hours: A 9-hour field practicum component is required. Note(s): Early Childhood permit candidates must pass with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 335.
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 357 - School/Family/Community Partnerships in Early Childhood Urban Settings Credits 3
The focus of this course is to provide an examination of family, community, societal, and cultural influences on children’s schooling and learning. It highlights strategies for integrating family members and community resources into the learning process. Emphasis will be given to the exploration of culturally and linguistically appropriate anti-bias approaches that support all children and their families. Lecture/ Lab Hours: An 18-hour field practicum component is required. Note(s): Early Childhood permit candidates must pass with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 356 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 358 - Classroom Management in Early Childhood Settings Credits 3
This course offers an overview of childhood behaviors and effective strategies for managing these behaviors in the classroom. It includes a review of learning and developmental theories. The course introduces effective strategies that facilitate active learning and differentiated instructional practices that support diverse learning needs are introduced. Lecture/Lab Hours: A 9-hour field practicum component is required. Note(s): Early Childhood permit candidates must pass with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 356 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 359 - Observation and Assessment of Young Children Credits 3
This course explores the selection and use of formal and informal assessments to determine initial information for facilitating individual learning strategies and environments. Candidates enhance observational skills, assessment abilities, and communication reporting to families. Particular attention is given to the selection, administration, scoring, and interpretation of results obtained from assessments of young children to determine skills and abilities for the purpose of curriculum planning, learning environment design, and accommodations for children with special needs. Lecture/Lab Hours: A 12-hour field practicum component is required. Note(s): Early Childhood permit candidates must pass with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 356 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 360 - Early Childhood Practicum Credits 3
This course provides an opportunity for child development permit candidates placed in practicum sites to explore the relationship between theory and practice. Developmental issues, the role of the early childhood educator, and the relationship between programs and families will be examined. Child development permit candidates will explore and practice techniques for the observation and recording of behavior, examine environments; and plan, implement and evaluate developmentally appropriate, culturally relevant practices for your children. Lecture/Lab Hours: A 75-hour fieldwork practicum component is required. Note(s): Early Childhood permit candidates must pass this course with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for practicum. Grade Mode: A.
Prerequisite(s): LEDU 357, LEDU 358, LEDU 359.
Restriction(s): Must be Undergraduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 361 - Issues in Special Education Credits 3
This course provides a basic introduction to the history and educational philosophy of special education. It includes study of mild/moderate disabilities (specific learning disabilities, cognitive impairments, and emotional and behavioral disturbances). The course examines legal issues and laws pertaining to special education giving attention to school compliance and student and parent rights. Note(s): Education Specialist Credential and Certificate candidates must pass with a grade of ‘B’ or higher. Grade Mode: A.
Prerequisite(s): LEDU 301.
Restriction(s): Must be Undergraduate Level.
Additional Fee(s): Paid Taskstream subscription required.
LEDU 362 - Assessment and Evaluation of Exceptional Learners  Credits 3
This course introduces the types and uses of assessments to identify the strengths and needs of exceptional learners and evaluate results to develop meaningful educational practice. It provides knowledge and skills necessary for selecting, administering, interpreting and reporting results of tests related to cognitive, affective, psychomotor and social development. Emphasis will be given to translating assessment data into making informed educational decisions.  
Lecture/Lab Hours: A 10-hour field practicum component is required.  
Note(s): Education Specialist Credential and Certificate candidates must pass with a grade of ‘B-’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork.  
Grade Mode: A.  
Prerequisite(s): LEDU 361 (may be taken concurrently).  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $25.  
Additional Fee(s): Paid Taskstream subscription required.

LEDU 363 - Teaching Students with Mild Disabilities in Inclusive Settings  Credits 3
The focus of this course is to provide teacher candidates with knowledge of learning disabilities including definitions, causes, and characteristics of learning disabilities in children. The course will provide students with the knowledge and skills to make accommodations and modifications (including adaptations with technology) for individuals with mild to moderate disabilities. Particular emphasis will be given to working on Student Study Teams to design instruction to meet the individual needs of underperforming students, to making referrals with appropriate documentation and to writing Individual Education Plans for students with identified learning disabilities.  
Lecture/Lab Hours: A 10-hour field practicum component is required.  
Note(s): Education Specialist Credential and Certificate candidates must pass with a grade of ‘B-’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork.  
Grade Mode: A.  
Prerequisite(s): LEDU 361 (may be taken concurrently).  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $25.  
Additional Fee(s): Paid Taskstream subscription required.

LEDU 364 - Behavior and Classroom Management for Students with Special Needs  Credits 3
This course focuses on principles and procedures for modifying behavior in the classroom with emphasis given to the identification of factors that contribute to behavioral problems, systematic data collection, objective reporting, and implementation of various methods of reinforcement.  
Lecture/Lab Hours: A 10-hour field practicum component is required.  
Note(s): Education Specialist Credential and Certificate candidates must pass with a grade of ‘B-’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork.  
Grade Mode: A.  
Prerequisite(s): LEDU 361 (may be taken concurrently).  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $25.  
Additional Fee(s): Paid Taskstream subscription required.

LEDU 365 - Current Issues in Technology and Instruction  Credits 3
Instruction includes a critical look at how technology informs teaching in an online environment by investigating issues, theories, operating systems, and practical strategies within schools.  
Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

LEDU 366 - Innovative Usage of Multimedia within Schools  Credits 3
Instruction includes how to use emerging technologies to improve teaching and learning in school. This course will demonstrate how to use multimedia devices to support and engage all students within K–12 classrooms.  
Grade Mode: A.  
Prerequisite(s): LEDU 365.  
Restriction(s): Must be Undergraduate Level.

LEDU 367 - World Wide Web Design  Credits 3
Instruction includes research and assessment of educational webpages and updated strategies on how to conduct Internet research. Students will design and create their own instructional webpage.  
Grade Mode: A.  
Prerequisite(s): LEDU 365.  
Restriction(s): Must be Undergraduate Level.

LEDU 368 - Elements of Computer Hardware and Software Maintenance and Repair  Credits 3
Instruction will include basic knowledge of computer hardware and software design, repair, and maintenance to assure proper usage and availability within a school.  
Grade Mode: A.  
Prerequisite(s): LEDU 365.  
Restriction(s): Must be Undergraduate Level.

LEDU 369 - Introduction to Autism Spectrum Disorders  Credits 3
This course offers an overview of student characteristics, theory and teaching applications for students with Autism Spectrum Disorders (ASD). Major theories, teaching approaches, trends, etiological and diagnostic issues, classroom structure and environmental arrangements, research based instructional strategies, and family involvement will be discussed.  
Lecture/Lab Hours: A 10-hour field practicum component is required.  
Note(s): Education Specialist Credential and Certificate candidates must pass with a grade of ‘B-’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork.  
Grade Mode: A.  
Prerequisite(s): LEDU 361 (may be taken concurrently).  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $25.  
Additional Fee(s): Paid Taskstream subscription required.

LEDU 370 - Language, Literacy and Biliteracy in Early Childhood  Credits 3
Introduction to the language and literacy development domain in the California Preschool Learning Foundations and Frameworks including the strands of listening and speaking, reading, and writing. Provides practical considerations for implementing the curriculum frameworks developed for this domain. A focus on supporting English Language Learners/Dual Language Learners in developing English literacy skills. An exploration of culturally and linguistically responsive practices designed to promote biliteracy. Students will examine and critically reflect on biblical foundations for teaching interculturally. Field-based experiences required.  
Note(s): Must pass course with a grade of ‘C’ or higher.  
Grade Mode: A.  
Prerequisite(s): Must pass course with a grade of ‘C’ or higher.  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $25.  
Additional Fee(s): Paid Taskstream subscription required.
**LEDU 371 - Developing and Administering Early Care and Education Programs**

Credits 3

Introduction to the administration of early care and education programs. Covers program types, budget, management, regulations, laws, development and implementation of policies and procedures. Examines administrative tools, philosophies, and techniques needed to organize, open, and operate an early care and education program. Students explore their role as leaders in the early education setting within the context of program improvement and servant leadership. Note(s): Must pass course with a 'C' or higher. Grade Mode: A.

Prerequisite(s): LEDU 360.

Restriction(s): Must be Undergraduate Level.

**LEDU 378 - CalTPA Remediation**

Credit 1

Course provides individual or small group assistance in understanding the expectations of the CalTPA tasks. Remediation is only offered to those who need to resubmit a task. Note(s): Course by arrangement.

Grade Mode: C.

Restriction(s): Must be Undergraduate Level.

Repeat Limit (after first attempt): 1.

**LEDU 380 - Children's Literature**

Credits 3

This course is designed to provide an understanding of the historical perspectives on children's literature through picture books and young adult novels reflecting different genres. Literature representative of a variety of cultures and ethnic groups will be analyzed and discussed in order to strengthen cross-cultural understanding. Emphasis will be upon developing responses to literature through art, drama, and writing in order to strengthen children's literacy development in the elementary classroom. Note(s): Credential candidates must pass this course with a grade of 'B-' or higher. Grade Mode: A.

Prerequisite(s): One of the following: ENGL 220, ENGL 230, ENGL 251, ENGL 252, ENGL 253, ENGL 281, ENGL 282, ENGL 283 or ENGL 290.

Restriction(s): Must be Undergraduate Level.

Additional Fee(s): Paid Taskstream subscription required for credential candidates.

**LEDU 389 - Spiritual Formation for Young Children**

Credits 3

This course examines biblical models for children's spirituality, historical perspectives on children in the church and school, parent child relationships and spiritual development, children's spiritual experiences, and spiritually nurturing practices for young children. Note(s): Must pass course with a 'C' or higher. Grade Mode: A.

Prerequisite(s): BBST 103, LEDU 356.

Restriction(s): Must be Junior Class or Senior Class; and Undergraduate Level.

**LEDU 416 - International Education Fieldwork**

Credits 3

This course consists of three units of fieldwork in a country other than the United States of America. The student experiences teaching, researching, reflecting and praying which lays the foundation for understanding and explaining the ways in which educational influences shape the world's economies, politics, and societies, and their consequences for global conflict and cooperation. Students will learn to distinguish among different theoretical explanations for understanding schooling and education in a given society, think critically about their strengths and weaknesses, and apply them to a range of historical and contemporary issues. Note(s): Special approval required from the School of Education; this course may be taken multiple times for credit - see advisor for details. Grade Mode: A.

Restriction(s): Must be Undergraduate Level.

Repeat Limit (after first attempt): 1.

Additional Fee(s): An additional course fee is associated with travel out of country.

**LEDU 420 - Elementary Reading/Language Arts**

Credits 3

Methods and materials for teaching reading to students in elementary schools; attention to a variety of approaches and techniques; consideration of the needs of pupils with varied cultural and language backgrounds. Lecture/Lab Hours: A 35-hour fieldwork practicum component is required. Note(s): Credential candidates must pass this course with a grade of ‘B-‘ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.

Prerequisite(s): LEDU 341.

Corequisite(s): LEDU 337.

Restriction(s): Must be Undergraduate Level.

Course Fee: $100.

Additional Fee(s): Paid Taskstream subscription required.

**LEDU 425 - Secondary Content Area Reading**

Credits 3

Methods and materials for teaching reading through content areas in secondary schools; attention to reading techniques, testing, and individualization. Lecture/Lab Hours: A 35-hour fieldwork practicum component is required. Note(s): Credential candidates must pass this course with a grade of ‘B-‘ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.

Prerequisite(s): LEDU 341.

Restriction(s): Must be Undergraduate Level.

Course Fee: $100.

Additional Fee(s): Paid Taskstream subscription required.

**LEDU 432 - Elementary Curriculum Fieldwork**

Credit 1

A 35-hour fieldwork course to support Multiple Subject Credential candidates in application of teaching pedagogy. Candidates will design and teach a minimum of three lessons in local elementary schools. Note(s): Credential candidates must pass this course with a grade of ‘B-‘ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.

Restriction(s): Must be Undergraduate Level.
**LEDU 433 - Single Subject Pedagogy**  
Credits 2  
During interrelated activities in program coursework and fieldwork, Single Subject candidates relate the Common Core and the state-adopted K–12 academic content standards for candidates in their specific subject area to major concepts and principles in their discipline, including planning, organizing, and implementing effective instruction (Grades 7–12). Single Subject Pedagogy - Art: During interrelated activities in program coursework and fieldwork, Single Subject Art candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the state-adopted K–12 academic content standards for students in Art (Grades 7–12). Single Subject Pedagogy - English: During interrelated activities in program coursework and fieldwork, Single Subject English candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the state-adopted K–12 academic content standards for students in English (Grades 7–12). Single Subject Pedagogy - History/Social Science: During interrelated activities in program coursework and fieldwork, Single Subject History/Social Science candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the state-adopted K–12 academic content standards for students in History/Social Science (Grades 7–12). Single Subject Pedagogy - Mathematics: During interrelated activities in program coursework and fieldwork, Single Subject Mathematics candidates acquire a deep understanding of the interrelated components of a balanced program of mathematics instruction: computational and procedural skills; conceptual understanding of mathematics; and problem solving skills in mathematics, and acquire pedagogical skills that assist students in learning K–12 state-adopted academic content standards for Mathematics (Grades 7–12). Single Subject Pedagogy - Physical Education: During interrelated activities in program coursework and fieldwork, Single Subject Physical Education candidates learn, understand and use content-specific teaching strategies for helping students in learning K–12 state-adopted academic content standards for Physical Education (Grades 7–12). Single Subject Pedagogy - Science: During interrelated activities in program coursework and fieldwork, Single Subject Science candidates relate the state-adopted K–12 academic content standards for students in Science (Grades 7–12) to major concepts, principles and investigations in the science disciplines, including planning, organizing, and implementing effective instruction. Note(s): Credential candidates must pass this course with a grade of 'B-' or higher. Grade Mode: A.  
Prerequisite(s): LEDU 425.  
Corequisite(s): LEDU 438.  
Restriction(s): Must be Undergraduate Level.  
Additional Fee(s): Paid Taskstream subscription required.

**LEDU 434 - Elementary Curriculum, Differentiation, and Assessment**  
Credits 3  
The course emphasis is curriculum and instruction through the planning and teaching of a variety of developmentally and ability-appropriate instructional strategies for all learners, including Universal Design of Learning and Multi-Tiered System of Supports (MTSS), differentiation, and assessment. Candidates will complete 60-hours of fieldwork. Candidates will design and teach several classroom lessons in local elementary schools. Note(s): Those teaching full-time may have fieldwork hours reduced to 15 (based on Director approval); credential candidates must pass this course with a grade of B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.  
Prerequisite(s): LEDU 420.  
Corequisite(s): LEDU 309, LEDU 336.  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $100.  
Additional Fee(s): Paid Taskstream subscription required.

**LEDU 437 - Secondary Curriculum Fieldwork**  
Credit 1  
A 60-hour fieldwork course to support Single Subject Credential candidates in application of teaching pedagogy. Candidates will design and teach a minimum of three lessons in local secondary schools. Note(s): Credential candidates must pass this course with a grade of B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.

**LEDU 438 - Secondary Curriculum, Differentiation, and Assessment**  
Credits 3  
The course emphasis is curriculum and instruction through the planning and teaching of a variety of developmentally and ability-appropriate instructional strategies for all learners, including Universal Design of Learning and Multi-Tiered System of Supports (MTSS), differentiation, and assessment. Candidates will complete 60-hours of fieldwork. Candidates will design and teach several classroom lessons in local secondary schools. Note(s): Those teaching full-time may have fieldwork hours reduced to 15 (based on Director approval); credential candidates must pass this course with a grade of B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.  
Prerequisite(s): LEDU 425.  
Corequisite(s): LEDU 433.  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $100.  
Additional Fee(s): Paid Taskstream subscription required.

**LEDU 440 - Elementary Student Teaching I**  
Credits 6  
Full-time laboratory experience in school classrooms under the direction of qualified supervising master teachers and University supervisors. University seminar required. Note(s): Special approval required; restricted to formal application; must pass course with a grade of B’ or higher; candidates doing student teaching are limited to a maximum of 15 credits that semester with approval; must register for LEDU 442 if completing student teaching in one semester; see also SEED 512/SEED 513. Grade Mode: A.  
Prerequisite(s): LEDU 434.  
Corequisite(s): LEDU 442.  
Restriction(s): Must be Undergraduate Level.  
Course Fee: $120.  
Additional Fee(s): Paid Taskstream subscription required.
LEDU 442 - Elementary Student Teaching II Credits 6
See LEDU 440. Note(s): Special approval required; restricted to formal application; must pass course with a grade of 'B-' or higher. Grade Mode: A.
Corequisite(s): LEDU 440.
Restriction(s): Must be Undergraduate Level.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 450 - Secondary Student Teaching I Credits 6
Full-time laboratory experience in school classrooms under the direction of qualified supervising master teachers and University supervisors. University seminar required. Note(s): Special approval required; restricted to formal application; must pass course with a grade of 'B-' or higher; candidates doing student teaching are limited to a maximum of 15 credits that semester with approval; see also SEED 514/SEED 515. Grade Mode: A.
Prerequisite(s): LEDU 438.
Corequisite(s): LEDU 452.
Restriction(s): Must be Undergraduate Level.
Course Fee: $120.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 452 - Secondary Student Teaching II Credits 6
See LEDU 450. Note(s): Special approval required; restricted to formal application; must pass course with a grade of 'B-' or higher. Grade Mode: A.
Corequisite(s): LEDU 450.
Restriction(s): Must be Undergraduate Level.
Additional Fee(s): Paid Taskstream subscription required.

LEDU 480 - Directed Study Credits 1-3
Subject matter and credit by arrangement. Note(s): Taken by arrangement, may be taken for a total of 6 credits. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

SEED: Education Courses

SEED 501 - Philosophy and Values in Schools and Society Credits 3
Assists Christian teachers and administrators to fulfill their roles as change agents. Focuses upon historical, cultural and social analyses of schools and society from a biblical perspective to help educators select pedagogical methods that harmonize with educational aims. Note(s): A minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 553 or SEED 554 (may be taken concurrently).
Restriction(s): Must be School of Education; and Graduate Level.

SEED 502 - Advanced Educational Psychology Credits 3
Students analyze human development, learning, motivation, and assessment theories through comparisons of primary and secondary source documents. Students use this analysis to create a personal vision and mission statement that will direct their continued growth as a professional educator. Note(s): A minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 554 (may be taken concurrently).
Restriction(s): Must be School of Education; and Graduate Level.

SEED 503 - Educational Research and Statistics Credits 3
Covers the design and analysis of experimental and nonexperimental research in the educational context. Basic principles include sampling, measurement, design validity, analysis, and research ethics. Definition and examples of qualitative research also included. Note(s): A minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 553 or SEED 554.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 504 - Advanced Curriculum and Instruction Credits 3
Historical, philosophical and social foundations of curriculum. Examination of curriculum research related to assessing, developing and organizing educational strategies. Note(s): A minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 554 (may be taken concurrently).
Restriction(s): Must be School of Education; and Graduate Level.

SEED 507 - Art Workshop for Elementary School Teaching Credit 1
A study of the knowledge, skills, and competencies required for teaching and developing teaching credits, lesson plans, and art projects in the elementary classroom. Note(s): This course is waived if ARTS 306 was taken as an undergraduate; credential candidates must pass this course with a grade of 'B-' or higher. Grade Mode: A.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $20.
Additional Fee(s): Paid Taskstream subscription required.

SEED 508 - Music Workshop for Elementary School Teaching Credit 1
A study of the knowledge, skills, and competencies required for teaching music in the elementary classroom. Note(s): This course is waived if MUSC 310 was taken as an undergraduate; credential candidates must pass this course with a grade of 'B-' or higher. Grade Mode: A.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.

SEED 509 - Elementary Mathematics/Science Workshop Credits 2
During interrelated activities in program coursework and fieldwork, Multiple Subject education candidates learn, understand and use content-specific teaching strategies for helping grades K–6 students learn the state-adopted academic content standards for Math and Science. Note(s): This course is waived if LEDU 309 was taken as an undergraduate; credential candidates must pass this course with a grade of 'B-' or higher. Grade Mode: A.
Corequisite(s): SEED 536, SEED 538.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.
SEED 512 - Elementary Student Teaching I Credits 6
Full-time laboratory experience in school classrooms under the direction of qualified supervising master teachers and university supervisors. University on-campus seminar required. Note(s): Special approval required; must pass this course with a grade of ‘B’ or higher, restricted to formal application and approval; must register for SEED 513 if completing student teaching in one semester. Grade Mode: A.
Prerequisite(s): LEDU 343 or SEED 538.
Corequisite(s): SEED 513.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $120.
Additional Fee(s): Paid Taskstream subscription required.

SEED 513 - Elementary Student Teaching II Credits 6
Full-time laboratory experience in school classrooms under the direction of qualified supervising master teachers and university supervisors. University on-campus seminar required. Note(s): Special approval required; must pass this course with a grade of ‘B’ or higher, restricted to formal application and approval. Grade Mode: A.
Corequisite(s): SEED 512.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 514 - Secondary Student Teaching I Credits 6
Full-time laboratory experience in school classrooms under the direction of qualified supervising master teachers and university supervisors. University on-campus seminar required. Note(s): Special approval required; must pass this course with a grade of ‘B’ or higher, restricted to formal application and approval; must register for SEED 515 if completing student teaching in one semester. Grade Mode: A.
Prerequisite(s): LEDU 438 or SEED 539.
Corequisite(s): SEED 515.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $120.
Additional Fee(s): Paid Taskstream subscription required.

SEED 515 - Secondary Student Teaching II Credits 6
Full-time laboratory experience in school classrooms under the direction of qualified supervising master teachers and university supervisors. University on-campus seminar required. Note(s): Special approval required; must pass this course with a grade of ‘B’ or higher, restricted to formal application and approval. Grade Mode: A.
Corequisite(s): SEED 514.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 516 - Elementary Physical Education Workshop Credit 1
Candidates study content-specific teaching strategies effective in promoting a variety of motor skills and abilities in students; recognition of a healthy lifestyle; games and sports; and the role of self-confidence and self-worth in relation to physical education and recreation. Note(s): This course is waived if KNES 201 was taken as an undergraduate; credential candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 518 - Designing Successful Classrooms: Starting Right Credits 3
The first week of school sets the tone for the entire year. Success entails making plans for instruction, positive relationships, conduct procedures, and time management. This course focuses on making theory applicable so that teachers are well prepared to launch the next school year. Note(s): Course designed to meet the needs of teachers with three or less years of experience. Grade Mode: A.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 519 - Foundations of Education Credits 2
This course is the first course in the credential sequence and is designed to introduce the candidate to foundations of education and qualities required for teacher effectiveness. This course includes intensive study in lesson planning, creating a healthy and safe learning environment, technology in education, and support strategies for special needs students and English Language Learners. Lecture/Lab Hours: A 25-hour field practicum component is required, 10 hours required for teachers under contract. Note(s): Special approval required; restricted to livescan submission and valid negative TB test results; this course is waived if LEDU 301 or MUSC 205 was taken as an undergraduate; credential candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.

SEED 520 - Elementary Reading/Language Arts Credits 3
The methods and materials for teaching reading to students in elementary schools using a variety of approaches and techniques. The needs of pupils with varied cultural backgrounds will be considered. Lecture/Lab Hours: A 35-hour field practicum component is required, 10 hours for teachers under contract. Note(s): Credential candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.

SEED 523 - Behavior and Classroom Management Credits 3
This course explores how effective strategies, procedures, and relationships can impact student behavior, the learning task and the classroom environment. Alternative approaches to classroom discipline, management, and organization will also be examined. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 524 - Research in Culture and Intercultural Instruction Credits 3
Examines and analyzes current research and theories concerning the nature of culture and its relationship to the language, cognition, learning and academic achievement of the diverse student population of California and the U.S. in general. Consideration of the critical role of the teacher in understanding, using, valuing and communicating cultural knowledge for the purpose of maximizing educational objectives. Note(s): A minimum grade of ‘B’ required for Master’s degree (a grade of ‘B’ is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 553 or 554.
Restriction(s): Must be School of Education; and Graduate Level.
SEED 525 - Secondary Content Area Reading
Credits 3
The methods and materials for teaching reading through the content areas in secondary schools; attention to techniques for teaching reading, testing and individualization. Lecture/Lab Hours: A 35-hour field practicum component is required, 10 hours for teachers under contract.
Note(s): Credential candidates must pass this course with a grade of 'B-' or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 341 or SEED 541.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $100.
Additional Fee(s): Paid Taskstream subscription required.

SEED 526 - Psychological Foundations of Education
Credits 3
Application of psychological principles to the education process, role of the teacher and learner, human growth and development, learning styles, motivation, memory, transfer of learning, measurement and evaluation, research and experimentation in learning theory. Note(s): This course waived if LEDU 301 and LEDU 330 were taken as an undergraduate; credential candidates must pass this course with a grade of 'B-' or higher.
Grade Mode: A.
Prerequisite(s): LEDU 301 or MUSC 205 or SEED 519 (may be taken concurrently).
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream subscription required.

SEED 528 - Performing Arts in Education
Credit 1
Multiple subject teacher candidates identify, apply, appreciate the value of, and practice components and strands of culturally and developmentally appropriate dance and theater education for youth as found in the Visual and Performing Arts Framework and Student Academic Content Standards. Lecture/Lab Hours: A 15-hour fieldwork practicum component is required. Note(s): Must hold a valid Certificate of Clearance. Grade Mode: A.
Prerequisite(s): LEDU 301 or SEED 519.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
Course Fee: $50.

SEED 530 - Reading Process and Approaches
Credits 3
Critical analysis of the processes and dynamics of reading as well as the methods and materials for teaching reading in the elementary and secondary schools. Theoretical models of reading, emergent literacy, current issues in literacy and instruction, and the assessment and evaluation of reading are also discussed. Lecture/Lab Hours: A 35-hour field practicum component is required, 10 hours for teachers under contract. Note(s): Education Specialist Credential and Certificate candidates must pass this course with a grade of 'B-' or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream subscription required.

SEED 531 - Writing Process and Approaches
Credits 3
Writing as a process, its interrelationship to reading, cognition and to linguistic and contextual issues. Examination of current problems, instructional research, theories, methods of instruction and materials, programs, technology assessment, and the professional publication process. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.
SEED 533 - Single Subject Pedagogy Credits 2
During interrelated activities in program coursework and fieldwork, Single Subject candidates relate Common Core and the state-adopted K–12 academic content standards for candidates in their specific subject area to major concepts and principles in their discipline, including planning, organizing, and implementing effective instruction (Grades 7–12). Single Subject Pedagogy - Art: During interrelated activities in program coursework and fieldwork, Single Subject Art candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the state-adopted K–12 academic content standards for students in Art (Grades 7–12). Single Subject Pedagogy - English: During interrelated activities in program coursework and fieldwork, Single Subject English candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the state-adopted K–12 academic content standards for students in English (Grades 7–12). Single Subject Pedagogy - Methods for Teaching Spanish as a Foreign Language: During interrelated activities in program coursework and fieldwork, Single Subject Modern Language candidates learn, understand, and use specific teaching strategies and activities for achieving the fundamental goals of the state-adopted K–12 Foreign Language Framework and Student Academic Content Standards for students learning Spanish (Grades 7–12). Single Subject Pedagogy - Health Science: During interrelated activities in the program coursework and fieldwork, Single Subject Health Science candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the state-adopted K–12 content standards for students in Health Science (Grades 7–12). Single Subject Pedagogy - History/Social Science: During interrelated activities in program coursework and fieldwork, Single Subject History/Social Science candidates learn, understand and use content-specific teaching strategies for achieving the fundamental goals of the K–12 state-adopted academic content standards for History/Social Science (Grades 7–12). Single Subject Pedagogy - Mathematics: During interrelated activities in program coursework and fieldwork, Single Subject Mathematics candidates acquire a deep understanding of the interrelated components of a balanced program of mathematics instruction: computational and procedural skills; conceptual understanding of mathematics; and problem solving skills in mathematics, and acquire pedagogical skills that assist students in learning K–12 state-adopted academic content standards for Mathematics (Grades 7–12). Single Subject Pedagogy - Physical Education: During interrelated activities in program coursework and fieldwork, Single Subject Physical Education candidates learn, understand and use content-specific teaching strategies for helping students in learning K–12 state-adopted academic content standards for Physical Education (Grades 7–12). Single Subject Pedagogy - Science: During interrelated activities in program coursework and fieldwork, Single Subject Science candidates relate the state-adopted K–12 academic content standards for students in Science (Grades 7–12) to major concepts, principles and investigations in the science disciplines, including planning, organizing, and implementing effective instruction. Note(s): This course is waived if LEDU 433 was taken as an undergraduate; credential candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.
Corequisite(s): SEED 539.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

SEED 535 - Child Development: Birth through Adolescence Credits 3
Basic concepts of cognitive development, including psychosocial, moral and language development. Define concepts related to the development of personality and temperament. Examine scope of physical development of children and the connections between health and learning. These theories are investigated in light of classroom implications for identifying and describing individual differences in the development of children. Covers the impact of genetic, sociocultural and socioeconomic factors on the development of children and young adolescents. Grade Mode: A.
Prerequisite(s): PSYC 200 or equivalent.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.

SEED 536 - Elementary Health Curriculum and Methods Credit 1
During interrelated activities in program coursework and fieldwork, Multiple Subject candidates learn content-specific teaching strategies that are effective in achieving the goals of the acceptance of personal responsibility for lifelong health; respect for and promotion of the health of others; understanding of the process of growth and development; and informed use of health-related information, products, and services. Note(s): This course is waived if LEDU 336 was taken as an undergraduate; credential candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.
Corequisite(s): SEED 509, SEED 538.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 537 - Elementary History - Social Science Curriculum and Methods Credit 1
During interrelated activities in program coursework and fieldwork, Multiple Subject education candidates learn, understand and use content-specific teaching strategies for helping grades K–6 students learn the state-adopted academic content standards for History-Social Science. Note(s): This course is waived if LEDU 337 was taken as an undergraduate; credential candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.
Corequisite(s): SEED 520.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 538 - Elementary Curriculum, Differentiation, and Assessment Credits 3
The course emphasis is curriculum and instruction through the planning and teaching of a variety of developmentally and ability-appropriate instructional strategies for all learners, including Universal Design of Learning and Multi-Tiered System of Supports (MTTS), differentiation, and assessment. Note(s): Candidates will complete 60-hours of fieldwork; candidates will design and teach several classroom lessons in local elementary schools; those teaching full-time may have fieldwork hours reduced to 15 (based on Director approval); credential candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 420 or SEED 520; LEDU 337 or SEED 537 (may be taken concurrently).
Corequisite(s): SEED 509, SEED 536.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $100.
Additional Fee(s): Paid Taskstream subscription required.
SEED 539 - Secondary Curriculum, Differentiation, and Assessment Credits 3
The course emphasis is curriculum and instruction through the planning and teaching of a variety of developmentally and ability-appropriate instructional strategies for all learners, including Universal Design of Learning and Multi-Tiered System of Supports (MTSS), differentiation, and assessment. Note(s): Candidates will complete 60-hours of fieldwork; candidates will design and teach several classroom lessons in local secondary schools; those teaching full-time may have fieldwork hours reduced to 15 (based on Director approval); credential candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 425 or SEED 525 (may be taken concurrently).
Corequisite(s): SEED 533.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

SEED 540 - Foundations of Language Education Credits 3
A survey course that considers the structure and use of language in general and English in particular. An understanding of linguistics, English pronunciation and grammar is emphasized. Research concerning current theories, practice and methods of first and second language acquisition and English language development is also discussed. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 541 - Methods of Teaching Linguistically Diverse Students Credits 3
Survey of the theories, programs, and instructional practices for English language development, including first and second language acquisition and individual factors affecting language acquisition. Strategies for the application of theory to classroom practice and instruction in content area literacy are emphasized. Principles of educational equity, diversity, and cultural and linguistic responsiveness are examined. Lecture/Lab Hours: A 10-hour fieldwork practicum component is required. Note(s): This course is waived if LEDU 341 was taken as an undergraduate; credential candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Prerequisite(s): LEDU 330 or SEED 526 (may be taken concurrently).
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

SEED 542 - Language Assessment and Evaluation Credits 3
The individual differences of language minority students, instructional techniques and classroom discourse which affect the acquisition of first and second language reading, writing, listening and speaking skills are examined and analyzed. Also addresses the skills and competencies needed to adequately and effectively assess, diagnose and evaluate English language proficiency for placement and achievement. Grade Mode: A.
Prerequisite(s): LEDU 341 or SEED 541 (may be taken concurrently).
Restriction(s): Must be School of Education; and Graduate Level.

SEED 543 - Elementary Curriculum Credits 3
Introduction to the scope and sequence of the elementary school curriculum in mathematics, science, social studies and language arts; emphasis on a variety of teaching approaches, integration across content areas, assessment, classroom management and resources. Note(s): Credential candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork; CalTPA #3; this course is waived if LEDU 431 was taken as an undergraduate. Grade Mode: A.
Prerequisite(s): LEDU 420 or SEED 520; LEDU 337 or SEED 537 (may be taken concurrently).
Corequisite(s): SEED 509, SEED 536, SEED 544.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
Course Fee: $100.
Additional Fee(s): Paid Taskstream subscription required.

SEED 544 - Elementary Curriculum Fieldwork Credit 1
A 60-hour fieldwork course to support Multiple Subject Credential candidates in application of teaching pedagogy. Candidates will design and teach a minimum of three lessons in local elementary schools. Note(s): Valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.

SEED 545 - Secondary Curriculum Credits 3
Secondary school curriculum, assessment, classroom management and teaching methods as they apply to the content areas in secondary school settings. Note(s): Credential candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork; CalTPA #3; this course is waived if LEDU 436 was taken as an undergraduate. Grade Mode: A.
Prerequisite(s): LEDU 425 or SEED 525 (may be taken concurrently).
Corequisite(s): SEED 533, SEED 546.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
Course Fee: $100.
Additional Fee(s): Paid Taskstream subscription required.

SEED 546 - Secondary Curriculum Fieldwork Credit 1
A 60-hour fieldwork course to support Single Subject Credential candidates in application of teaching pedagogy. Candidates will design and teach a minimum of three lessons in local secondary schools. Note(s): Valid Certificate of Clearance and negative TB test results required for fieldwork. Grade Mode: A.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
SEED 548 - Collaborative Research  Credit 1
Master of Science students will be assigned to a research team in the first semester of their M.S. program. The Collaborative Research class will be ongoing throughout the program, but actual enrollment in the 1 credit class will occur in the last term of the M.S. program. This class will involve collaborative research with their professor(s) and peers. Monthly research Skype sessions throughout the program will focus on the following: getting acquainted with professors and peers and supporting shared research interests; library research and literature reviews; defining the scope of each research project; clarifying the research question(s); defining terms, hypotheses, research methodologies, and procedures; assigning roles; working with permissions and university protocols; examining, summarizing, and synthesizing data from one or more research projects; writing articles to report results; planning conference presentations to share results; and planning follow-up research projects. 
Note(s): Special approval required; must participate for a minimum of two terms and enroll for one credit in final semester of program for MS degree; must pass this course with a grade of 'B' or higher; restricted to petition to graduate. Grade Mode: A.
Restriction(s): Must be Special Education (SSSE); Curric, Instructn & Publicatn (SSCI); and School of Education; and Graduate Level.

SEED 549 - Studies in Children's Literature  Credit 1
Focus is on how to effectively use children's literature to enhance and strengthen children's literacy development. Special emphasis is placed upon connecting students' language, interests, and cultural background in order to increase their motivation and academic achievement. Active engagement in a wide range of responses to literature including art, music, drama, and writing provide current and future teachers with a repertoire of strategies to use in elementary school classrooms. Note(s): This course is waived if LEDU 380 was taken as an undergraduate; credential candidates must pass this course with a grade of 'B-' or higher.
Grade Mode: A.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Additional Fee(s): Paid Taskstream subscription required.

SEED 550 - Literature Study in the Classroom  Credits 3
This course is designed to provide an understanding of the historical perspectives on children's literature through picture books and young adult novels reflecting different genres. Literature representative of a variety of cultures and ethnic groups will be analyzed and discussed in order to strengthen cross-cultural understanding. Emphasis will be upon developing responses to literature through art, drama, and writing in order to strengthen children's literacy development in the elementary classroom. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level. 
Additional Fee(s): Paid Taskstream subscription required for credential candidates.

SEED 551 - Practicum in Language and Literacy  Credits 3
Observation, case study construction and analysis, assistance and instruction of one or more language minority students in an actual language and literacy environment. This practicum affords opportunity to apply theory to practice in natural field settings. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 552 - Supervision in Language and Literacy  Credits 3
Laboratory experience in language and literacy under the supervision of qualified instructional leaders and University supervisors. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 553 - Writing Literature Reviews  Credits 2
This course prepares the graduate student to write papers using the guidelines provided by the American Psychological Association (APA). Students select a topic, search the literature discussing that topic, and use these sources effectively to strengthen the content of their literature review. Note(s): A minimum grade of 'B' required for Master's degree (a 'B-' is not sufficient). Grade Mode: A.
Restriction(s): Must be MAT Induction/Clear Credential (SEIN), MAT Single Subject (SEMB), MAEd Curriculum and Instruction (SECI), MAEd Multiple Subject (SEMU), MAEd Preliminary Ed Specialist Inst Credential (Mi/Md) Internship (SEPP), MAEd Preliminary Ed Specialist Inst Credential (Mi/Md) Internship (SEPC), MAT Preliminary Ed Specialist Inst Credential (Mi/Md) Internship (SEPP), MAEd Curriculum, Instruction, and Publication (SSCI), MAEd Early Childhood (SEEC), MAEd Induction/Clear Credential (SEIC), MAEd Multiple Subject (SEMU), MAEd Preliminary Ed Specialist Inst Credential (Mi/Md) Internship (SEIS), MAEd Personlized (SEP), MA Ed Single Subject (SES), MAEd Special Education (SESE); and School of Education; and Graduate Level.

SEED 554 - Professional Writing  Credits 3
This course prepares the graduate student to write APA papers and conduct effective library research. This course also provides opportunities for the graduate student to assess qualitative and quantitative articles using a set of guidelines for evaluation. Note(s): A minimum grade of 'B' required for Master's degree (a 'B-' is not sufficient). Grade Mode: A.
Restriction(s): Must be MAT Induction/Clear Credential (SEIN), MAT Single Subject (SEMB), MAEd Special Education (SEMD), MAEd Early Childhood (SEME), MAEd Multiple Subject (SEMM), MAEd Personlized (SEMP), MAEd Curriculum and Instruction (SEMR), MAEd Preliminary Ed Specialist Inst Credential (Mi/Md) Student Teaching (SEPC), MAEd Preliminary Ed Specialist Inst Credential (Mi/Md) Internship (SEPP), MAEd Curriculum, Instruction, and Publication (SSCI), Special Education Non Credential (SSSN), Special Education Student Teaching (SSST), Special Education Internship (SSI), and School of Education; and Graduate Level.

SEED 555 - Seminars in Education  Credits 1-3
Seminars in legislation, National Board Certification, cooperative learning, curriculum, instruction, instructional media, classroom control and management, organization of schools, management of personnel, public relations, implementation of Christian philosophy, and early childhood education. Note(s): May be taken multiple times for credit; restricted to School of Education approval. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.
Repeat Limit (total number of credits): 6.
SEED 556 - Early Childhood Curriculum Credits 3
Examine ways to create meaningful curriculum that is aligned with the National Association for the Education of Young Children (NAEYC) program standards and the Common Core Standards. Teacher candidates develop curriculum plans that integrate language and literacy, mathematics, and play for children ages 3 to 6. Particular attention is given to the key role of adult-child interactions and teaching strategies supporting physical, social, and intellectual development for all children. **Lecture/Lab Hours:** A 9-hour field practicum component is required. **Note(s):** Early childhood permit candidates must pass this course with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. **Grade Mode:** A. **Prerequisite(s):** LEDU 335 or SEED 535. **Restriction(s):** Must be School of Education; and Post Baccalaureate Level or Graduate Level. **Course Fee:** $25. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 557 - School/Family/Community Partnerships in Early Childhood Urban Settings Credits 3
Examination of family, community, societal, and cultural influences on children's schooling and learning. Emphasis on strategies for integrating family members and community resources into the learning process. Exploration of culturally and linguistically appropriate anti-bias approaches that support all children and their families. **Lecture/Lab Hours:** An 18-hour field practicum component is required. **Note(s):** Early childhood permit candidates must pass this course with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. **Grade Mode:** A. **Prerequisite(s):** LEDU 356 or SEED 556 (may be taken concurrently). **Restriction(s):** Must be School of Education; and Post Baccalaureate Level or Graduate Level. **Course Fee:** $25. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 558 - Classroom Management in Early Childhood Settings Credits 3
Overview of childhood behaviors and effective strategies for managing these behaviors in the classroom. Includes a review of learning and developmental theories. Effective strategies that facilitate active learning and differentiated instructional practices that support diverse learning needs are introduced. **Lecture/Lab Hours:** A 9-hour field practicum component is required. **Note(s):** Early childhood permit candidates must pass this course with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. **Grade Mode:** A. **Prerequisite(s):** LEDU 356 or SEED 556 (may be taken concurrently). **Restriction(s):** Must be School of Education; and Post Baccalaureate Level or Graduate Level. **Course Fee:** $25. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 559 - Observation and Assessment of Young Children Credits 3
This course explores the selection and use of formal and informal assessments to determine initial information for facilitating individual learning strategies and environments. Candidates enhance observational skills, assessment abilities, and communication reporting to families. Particular attention is given to the selection, administration, scoring, and interpretation of results obtained from assessments of young children to determine skills and abilities for the purpose of curriculum planning, learning environment design, and accommodations for children with special needs. **Lecture/Lab Hours:** A 12-hour field practicum component is required. **Note(s):** Early childhood permit candidates must pass this course with a grade of ‘C’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. **Grade Mode:** A. **Prerequisite(s):** LEDU 356 or SEED 556 (may be taken concurrently). **Restriction(s):** Must be School of Education; and Post Baccalaureate Level or Graduate Level. **Course Fee:** $25. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 560 - Family, Community, and Academic Partnerships Credits 3
Examination of teaching practices that are effective in working with diverse student populations to promote equal learning opportunities. Overview of methods that enhance successful community collaboration with service providers, business leaders, policy makers, and parents, addressing the complex diversity of families and teaching situations. Primarily focused on teachers and schools building constructive partnerships with parents and requires a case study of a local school's efforts to meaningfully include parents in the education of their children. **Grade Mode:** A. **Restriction(s):** Must be School of Education; and Graduate Level. **SEED 561 - Issues in Special Education Credits 3**
A basic introduction to the history and educational philosophy of special education. Study of mild/moderate disabilities (specific learning disabilities, cognitive impairments, and emotional and behavioral disturbances). Examination of legal issues and laws pertaining to special education, giving attention to school compliance and student and parent rights. **Note(s):** Special Approval required; Education Specialist Credential and Certificate candidates must pass this course with a grade of ‘B’ or higher; this course is waived if LEDU 361 was taken as an undergraduate. **Grade Mode:** A. **Restriction(s):** Must be School of Education; and Post Baccalaureate Level or Graduate Level. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 562 - Assessment and Evaluation of Exceptional Learners Credits 3
Introduction to the types and uses of assessments to identify the strengths and needs of exceptional learners and evaluate results to develop meaningful educational practice. Provides knowledge and skills necessary for selecting, administering, interpreting and reporting results of tests related to cognitive, affective, psychomotor and social development. Emphasis is given to translating assessment data into making informed educational decisions. **Lecture/Lab Hours:** A 10-hour field practicum component is required. **Note(s):** Education Specialist Credential and Certificate candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork; this course is waived if LEDU 362 was taken as an undergraduate. **Grade Mode:** A. **Prerequisite(s):** LEDU 361 or SEED 561 (may be taken concurrently). **Restriction(s):** Must be School of Education; and Post Baccalaureate Level or Graduate Level. **Course Fee:** $25. **Additional Fee(s):** Paid Taskstream subscription required.
SEED 563 - Teaching Students with Mild Disabilities in Inclusive Settings Credits 3
Provides teacher candidates with knowledge of learning disabilities including definitions, causes, and characteristics of learning disabilities in children. Provides students’ teachers the knowledge and skills to make accommodations and modifications (including adaptations with technology) for individuals with mild to moderate disabilities. Particular emphasis is given to working with Student Study Teams to design instruction to meet the individual needs of underperforming students, to making referrals with appropriate documentation, and to writing Individual Education Plans for students with identified learning disabilities. Lecture/Lab Hours: A 10-hour field practicum component is required. Note(s): Education Specialist Credential and Certificate candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork; this course is waived if LEDU 362 was taken as an undergraduate. Grade Mode: A.
Prerequisite(s): LEDU 361 or SEED 561 (may be taken concurrently).
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

SEED 564 - Behavior and Classroom Management for Students with Special Needs Credits 3
Focus on principles and procedures for modifying behavior in the classroom with emphasis given to the identification of factors that contribute to behavioral problems, systematic data collection, objective reporting, and implementation of various methods of reinforcement. Lecture/Lab Hours: A 10-hour field practicum component is required. Note(s): Education Specialist Credential and Certificate candidates must pass this course with a grade of ‘B’ or higher; valid Certificate of Clearance and negative TB test results required for fieldwork; this course is waived if LEDU 364 was taken as an undergraduate. Grade Mode: A.
Prerequisite(s): LEDU 361 or SEED 561 (may be taken concurrently).
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $25.
Additional Fee(s): Paid Taskstream subscription required.

SEED 565 - Current Issues in Technology and Instruction Credits 3
Instruction includes a critical look at how technology informs teaching in an online environment by investigating issues, theories, operating systems, and practical strategies within schools. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 566 - Innovative Usage of Multimedia within Schools Credits 3
Instruction includes how to use emerging technologies to improve teaching and learning in school. Demonstration of how to use multimedia devices to support and engage all students within K–12 classrooms. Note(s): Prerequisite knowledge of educational technology required. Grade Mode: A.
Prerequisite(s): SEED 565
Restriction(s): Must be School of Education; and Graduate Level.

SEED 567 - World Wide Web Design Credits 3
Instruction includes research and assessment of educational web pages and updated strategies on how to conduct Internet research. Students will design and create their own instructional webpage to assist with instruction. Grade Mode: A.
Prerequisite(s): SEED 565.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 568 - Elements of Computer Hardware and Software Maintenance and Repair Credits 3
Instruction includes basic knowledge of computer hardware and software design, repair, and maintenance to assure proper usage and availability within a school. Grade Mode: A.
Prerequisite(s): SEED 565.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 569 - Course Design and Strategies within Technology Credits 3
Instruction includes the practical construction of teaching in an online environment and emphasizes subjects such as interactive teaching strategies, course design, assessment, student evaluation, and instructional planning. Students design an online course. Grade Mode: A.
Prerequisite(s): Experience in a classroom needed to take this course.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 570 - Introduction to Spiritual Formation for the Educator Credits 3
This introductory study into the nature of spiritual formation attempts to understand the nature of our new life in Christ, the process of formation in the Spirit and the directives for cooperating with His work. Attention is given to implications of spiritual formation for the life of the educator and classroom experience. Practical exercise in prayer, soul projects, and various spiritual disciplines are included as well as a personal all-day retreat addressing one’s calling as an educator in Christ. Particular attention is given to how our life in Christ can deal with personal issues of guilt, shame and legalism and how to cooperate with the Spirit in transforming the heart in light of the dynamics of original sin, our early relational development, and the habits of sin developed over time that affect the classroom. Note(s): A minimum grade of ‘B’ required for Master’s degree (a grade of ‘B’ is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 553 or 554 (may be taken concurrently).
Restriction(s): Must be School of Education; and Graduate Level.

SEED 571 - Grant Writing, Book Proposal, and Textbook Credits 3
Provides practice in researching and writing grants that are credible, scholarly, and comprehensive. Teaches authors how to promote their books by writing a focused, dynamic, and compelling book proposal to submit to educational publishers. Presents the steps in writing informative and credible textbooks that lead to publication. Note(s): Certificate and M.S. in Curriculum, Instruction, and Publication candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.
Restriction(s): Must be Graduate Level.

SEED 572 - Learning, Motivation, and Student Engagement Credits 3
Examines curricula that motivates and engages students to promote deeper learning. Teaches how to design curricula that focuses on key skills and competencies. Instructs how to construct curricula that develops creative thinkers and independent learners in order to promote higher student engagement. Note(s): Certificate and M.S. in Curriculum, Instruction, and Publication candidates must pass this course with a grade of ‘B’ or higher. Grade Mode: A.
Restriction(s): Must be Graduate Level.
SEED 573 - Curriculum Practicum
Options: 1-2 week internship, working alongside national and international publishers to see how textbook publishing companies function; interactions with district, county, and/or state educational policy makers and/or administrators; development and editing of curriculum materials; working on the SOE online journal. Note(s): Special approval required. Certificate and M.S. in Curriculum, Instruction, and Publication candidates must pass this course with a grade of 'B' or higher. Grade Mode: A.
Restriction(s): Must be Graduate Level.
Additional Fee(s): This course may require travel and housing fees for on-site practicums.

SEED 574 - Current Issues in Education and Education Policy
This course explores current state and federal legislation affecting the educational community. Students also examine the key statutes and landmark court cases that have impacted the field of education. Practice in contacting lawmakers and lobbyists in order to express one's sentiments on a critical issue will be provided. Note(s): Special approval required; this course may require travel; certificate and Master of Science in Curriculum, Instruction, and Publication candidates must pass this course with a grade of 'B' or higher. Grade Mode: A.
Restriction(s): Must be Graduate Level.
Repeat Limit (total number of credits): 4.

SEED 575 - Coaching Clear Credential Candidates
Credit 1
Providing support for a Clear Credential candidate to develop a deeper and more complex application of skills and knowledge learned during the California Preliminary Credential Program. Assist the Clear Credential candidate to accomplish appropriate personal evaluation and setting of professional development growth goals and provide support for the Clear Credential Candidate to achieve his/her goals. Note(s): Special approval required; restricted to formal application and approval; must hold a California Clear Credential or its equivalent. Grade Mode: A.
Restriction(s): Must be Graduate Level.

SEED 576 - Preparing Textbooks for Publication
Credits 3
This course presents the complex relationships in writing student texts, teacher's editions, and ancillary materials for gifted, EL, and special needs students. Incorporates guidance in providing formal and informal assessment opportunities for teachers using the text. Acquaints curricula writers with concept presentation through visual display, page layout, graphics, color, and type and working with layers of editorial staff. Note(s): Certificate and Master of Science in Curriculum, Instruction, and Publication candidates must pass this course with a grade of 'B' or higher. Grade Mode: A.
Restriction(s): Must be Graduate Level.

SEED 577 - School Leadership and Professional Learning Communities
Credits 3
Focuses on the essential elements required for productive school leadership as well as those characteristics of leadership that should be avoided. Provides several models for instructional leadership including building professional learning communities, coaching, and clinical supervision. Note(s): Certificate and Master of Science in Curriculum, Instruction, and Publication candidates must pass this course with a grade of 'B' or higher. Grade Mode: A.
Restriction(s): Must be Graduate Level.

SEED 578 - Introduction to Autism Spectrum Disorders
Credits 3
This course offers an overview of student characteristics, theory and teaching applications for students with Autism Spectrum Disorders (ASD). Major theories, teaching approaches, trends, etiological and diagnostic issues, classroom structure and environmental arrangements, research-based instructional strategies, and family involvement will be discussed. Lecture/Lab Hours: A 10-hour fieldwork practicum component is required. Note(s): Education Specialist Credential and Certificate candidates must pass this course with a grade of 'B-' or higher; valid Certificate of Clearance and negative TB test results required for fieldwork; this course is waived if LEDU 369 was taken as an undergraduate. Grade Mode: A.
Prerequisite(s): LEDU 359 or SEED 559, LEDU 358 or SEED 558, and LEDU 359 or SEED 559.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream subscription required.

SEED 579 - Early Childhood Practicum
Credits 3
This course provides an opportunity for child development permit candidates placed in practicum sites to explore the relationship between theory and practice. Developmental issues, the role of the early childhood educator, and the relationships between programs and families will be examined. Child development permit candidates will explore and practice techniques for the observation and recording of behavior, examine environments; and plan, implement and evaluate developmentally appropriate, culturally relevant practices for your children. Lecture/Lab Hours: A 75-hour fieldwork practicum component is required. Note(s): Early Childhood permit candidates must pass this course with a grade of 'C' or higher; valid Certificate of Clearance and negative TB test results required for practicum. Grade Mode: A.
Prerequisite(s): LEDU 357 or SEED 557, LEDU 358 or SEED 558, and LEDU 359 or SEED 559.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream subscription required.

SEED 580 - Spiritual Formation for Young Children
Credits 3
This course examines biblical models for children's spirituality, historical perspectives on children in the church and school, parent child relationships and spiritual development, children's spiritual experiences, and spiritually nurturing practices for young children. Grade Mode: A.
Prerequisite(s): PSYC 200 (or equivalent), SEED 535, SEED 556.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.

SEED 581 - CalTPA Remediation
Credit 1
Course provides individual or small group assistance in understanding the expectations of the CalTPA tasks. Remediation is only offered to those who need to resubmit a task. Grade Mode: C.
Restriction(s): Must be Post Baccalaureate Level or Graduate Level.
Repeat Limit (after first attempt): 1.
SEED 582 - Consultation, Collaboration, and Communication for the Education Specialist  Credits 3
The purpose of this course is to prepare Education Specialist candidates to successfully consult, collaborate, and communicate with other professionals, families, and school systems to effectively educate and support students with high incidence disabilities. Seminar sessions are designed to present a forum in which professionals evaluate on-going program management and service delivery programs, new research findings, and emerging legal and ethical issues as they relate to working with individuals with high incidence disabilities. **Lecture/Lab Hours:** A 10-hour field practicum component is required. **Prerequisite(s):** LEDU 361 or SEED 561 (may be taken concurrently). **Restriction(s):** Must be Spec Education (SSSN, SSST, SSSI), Prlm Ed Specialist Inst Cred (SEST, SEIT), MAEd Prlm Ed Spec Inst Cred (Mi/Md) (SEPT, SEIS) or MAT Prlm Ed Spec Inst Cred (Mi/Md) (SEPC, SEPP); and School of Education; Post Baccalaureate or Graduate Level. **Course Fee:** $25. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 583 - Curriculum Design for Students with Mild/Moderate Disabilities  Credits 3
This special education methods course is designed to present research-based best practices for the instruction of diverse students with mild/moderate disabilities. Emphasis will be placed on instructional planning that permits differentiating for the student's IEP goals and objectives within the appropriate age and grade level related to the general curriculum. **Lecture/Lab Hours:** A 40-hour field practicum component is required, 10 hours for teachers under contract. **Prerequisite(s):** Special approval required; Education Specialist Credential (Mild/Moderate) and Certificate candidates must pass this course with a grade of 'B-' or higher; valid Certificate of Clearance and negative TB test results required for fieldwork. **Grade Mode:** A. **Prerequisite(s):** SEED 532, LEDU 361 or SEED 561, LEDU 362 or SEED 562, LEDU 363 or SEED 563, LEDU 364 or SEED 564, LEDU 369 or SEED 580, SEED 582 (may be taken concurrently). **Restriction(s):** Must be Spec Education (SSSN, SSST, SSSI), Prlm Ed Specialist Inst Cred (SEST, SEIT), MAEd Prlm Ed Spec Inst Cred (Mi/Md) (SEPT, SEIS) or MAT Prlm Ed Spec Inst Cred (Mi/Md) (SEPC, SEPP); and School of Education; Post Baccalaureate or Graduate Level. **Course Fee:** $100. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 584 - Student Teaching in Special Education I  Credits 6
The purpose of this course is to prepare Education Specialist candidates to teach students with mild/moderate disabilities in a variety of educational settings. Upon successful completion of this course, candidates will be prepared to teach students in K–12th grade with mild/moderate disabilities. **Prerequisite(s):** Special approval required; credential candidates must pass this course with a grade of 'B-' or higher; restricted to formal application and approval. **Grade Mode:** A. **Corequisite(s):** SEED 585. **Restriction(s):** Must be Post Baccalaureate Level or Graduate Level. **Course Fee:** $120. **Additional Fee(s):** Paid Taskstream subscription required.

SEED 585 - Student Teaching in Special Education II  Credits 6
The purpose of this course is to prepare Education Specialist candidates to teach students with mild/moderate disabilities in a variety of educational settings. Upon successful completion of this course, candidates will be prepared to teach students in K–12th grade with mild/moderate disabilities. **Prerequisite(s):** Special approval required; credential candidates must pass this course with a grade of 'B-' or higher; CalTPA #4; restricted to formal application and approval. **Grade Mode:** A. **Corequisite(s):** SEED 584. **Restriction(s):** Must be Post Baccalaureate Level or Graduate Level. **Additional Fee(s):** Paid Taskstream subscription required.
SEED 594 - Action Research Credit 1
Graduate students study student-, classroom- and school-based problems. Students set up action plans to study results of interventions leading to performance-based improvement. Note(s): Special approval required; a minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient); students entering Fall 2012 forward are required to register for 1 credit per semester; may take up to three terms to complete; this course serves as the capstone course for the Master of Arts in Teaching; restricted to petition to graduate. Grade Mode: V.
Prerequisite(s): SEED 553 or SEED 554.
Restriction(s): Must be School of Education; and Graduate Level.
Repeat Limit (after first attempt): 2.

SEED 596 - Professional Development Module Credit 1
Students explore their role as leaders in the educational community, examining the change process within the context of curricular innovations and moral leadership. Paths for the capstone process are examined. Note(s): A minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient). Grade Mode: A.
Prerequisite(s): SEED 553 or 554 (may be taken concurrently).
Restriction(s): Must be School of Education; and Graduate Level.

SEED 597 - Independent Studies Credits 1-3
Subject matter and credits earned by arrangement. Note(s): Restricted to School of Education approval. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.
Repeat Limit (total number of credits): 6.

SEED 598 - Curriculum Research Project Credit 1
Students may elect to complete an instructional development project under the guidance of a faculty advisor. This option requires a literature review and a curriculum development project. Note(s): Special approval required; sign up for one credit per term; may take up to three terms to complete; a minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient); restricted to petition to graduate. Grade Mode: V.
Prerequisite(s): SEED 501, SEED 503, SEED 524, SEED 553 or 554, SEED 596, and TTBE 732.
Restriction(s): Must be School of Education; and Graduate Level.
Repeat Limit (after first attempt): 2.

SEED 599 - Thesis Credit 1
Students may elect to complete a published thesis under the guidance of a faculty advisor. The thesis involves a literature review and qualitative and/or quantitative research. Note(s): Special approval required; sign up for one credit per term; may take up to three terms to complete; a minimum grade of 'B' required for Master's degree (a grade of 'B-' is not sufficient); restricted to petition to graduate. Grade Mode: V.
Prerequisite(s): SEED 501, SEED 503, SEED 524, SEED 553 or 554, SEED 596, and TTBE 732.
Restriction(s): Must be School of Education; and Graduate Level.
Repeat Limit (after first attempt): 2.

SEED 601 - Character Development and Spiritual Formation Credits 3
Based on Scriptural teaching about knowing God, this course explores the deepening of one's relationship with God and how both teacher and student character is developed in the classroom context. Reviews literature related to spiritual formation, child, adolescent, and adult spirituality, examining the influences of Christian teachers in school and society. Compares character development and spiritual formation movements. Grade Mode: A.
Prerequisite(s): SEED 502, SEED 554, and SEED 524 with a grade of 'B' or better (a grade of 'B-' is not sufficient).
Restriction(s): Must be School of Education; and Graduate Level.
SEED 607 - Induction IV Credits 3
Grads who are practicing teachers holding a SB2042 Multiple or Single Subject Preliminary Credential and who are in a CTC-approved district induction program may receive up to 12 credits of induction credit towards their M.A.Ed. or M.A.T. degree. Grads complete district requirements and meet with Biola professors for monthly support during their first two years of teaching. Note(s): Special approval required; tuition for induction credits is one-third the normal graduate tuition.
Grade Mode: A.
Prerequisite(s): Proof of current participation in an induction program.
Restriction(s): Must be Graduate Level.

SEED 611 - Intern Support Seminar I Credits 3
Taken each semester of enrollment in the Education Specialist Intern Credential option, this seminar is developed to provide ongoing support and guidance to on-the-job intern teachers serving mild to moderate populations. The Seminar focuses on developing a community of learners in special education classrooms that includes: IEP construction, fundamental organization, classroom management, instructional skills, use of assessment batteries, lesson/unit planning, and professional development. A major emphasis in this practicum will be sharing experiences and expertise so interns can learn from each other. Note(s): Special approval required; Education Specialist Credential candidates must pass this course with a grade of 'B-' or higher; valid Intern Credential and letter of employment from a participating district required. Grade Mode: A.
Prerequisite(s): SEED 518, SEED 530, LEDU 361 or SEED 561, LEDU 362 or SEED 562, LEDU 364 or SEED 564.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream Subscription required.

SEED 612 - Intern Support Seminar II Credits 3
Taken each semester of enrollment in the Education Specialist Intern Credential option, this seminar is developed to provide ongoing support and guidance to on-the-job intern teachers serving mild to moderate populations. The Seminar focuses on developing a community of learners in special education classrooms that includes: IEP construction, fundamental organization, classroom management, instructional skills, use of assessment batteries, lesson/unit planning, and professional development. A major emphasis in this practicum will be sharing experiences and expertise so interns can learn from each other. Note(s): Special approval required; Education Specialist Credential candidates must pass this course with a grade of 'B-' or higher; valid Intern Credential and letter of employment from a participating district required. Grade Mode: A.
Prerequisite(s): SEED 518, SEED 530, LEDU 361 or SEED 561, LEDU 362 or SEED 562, LEDU 364 or SEED 564.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream Subscription required.

SEED 613 - Intern Support Seminar III Credits 3
Taken each semester of enrollment in the Education Specialist Intern Credential option, this seminar is developed to provide ongoing support and guidance to on-the-job intern teachers serving mild to moderate populations. The Seminar focuses on developing a community of learners in special education classrooms that includes: IEP construction, fundamental organization, classroom management, instructional skills, use of assessment batteries, lesson/unit planning, and professional development. A major emphasis in this practicum will be sharing experiences and expertise so interns can learn from each other. Note(s): Special approval required; Education Specialist Credential candidates must pass this course with a grade of 'B-' or higher; valid Intern Credential and letter of employment from a participating district required. Grade Mode: A.
Prerequisite(s): SEED 518, SEED 530, LEDU 361 or SEED 561, LEDU 362 or SEED 562, LEDU 364 or SEED 564.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream Subscription required.

SEED 614 - Intern Support Seminar IV Credits 3
Taken each semester of enrollment in the Education Specialist Intern Credential option, this seminar is developed to provide ongoing support and guidance to on-the-job intern teachers serving mild to moderate populations. The Seminar focuses on developing a community of learners in special education classrooms that includes: IEP construction, fundamental organization, classroom management, instructional skills, use of assessment batteries, lesson/unit planning, and professional development. A major emphasis in this practicum will be sharing experiences and expertise so interns can learn from each other. Note(s): Special approval required; Education Specialist Credential candidates must pass this course with a grade of 'B-' or higher; valid Intern Credential and letter of employment from a participating district required. Grade Mode: A.
Prerequisite(s): SEED 518, SEED 530, LEDU 361 or SEED 561, LEDU 362 or SEED 562, LEDU 364 or SEED 564.
Restriction(s): Must be School of Education; and Post Baccalaureate Level or Graduate Level.
Course Fee: $50.
Additional Fee(s): Paid Taskstream Subscription required.

SEED 615 - International Comparative Education Credits 3-6
Graduate students travel abroad to study a particular educational system, including assessment, curriculum, sociocultural values, administration, leadership, finance, accessibility, and spirituality. Note(s): See advisor for details. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 616 - International Education—Fieldwork Credits 3-6
Graduate students collaborate with professors as they participate in K-12 schools and university settings, teacher conferences, or curriculum consultations in international and/or mission schools. Note(s): Special approval required - restricted to School of Education approval; fieldwork required, see advisor for details. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 617 - Educational Models for Cross-Cultural Communities Credits 3
Graduate students analyze effective educational models for cross-cultural communities nationally and internationally, including curricular and assessment issues related to sending and receiving countries, particularly as they relate to international and/or mission school settings. Note(s): See advisor for details. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.
SEED 618 - Educational Technology for Global Education   Credits 3
Graduate students analyze multiple models of distance education, particularly as it relates to serving international, multicultural, multilingual, and missions settings. Note(s): See advisor for details. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 619 - Homeschooling: Philosophy, Curriculum, and Practice   Credits 3
Study of the history and philosophy of homeschooling; current trends, models, and support organizations; curriculum; instruction; and spiritual development of the child in the homeschool setting. Includes national and international perspectives. Note(s): See advisor for details. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.

SEED 620 - Urban Education–Fieldwork   Credits 3-6
Graduate students collaborate with professors and identified urban school administrators to analyze critical issues within urban school settings and participate in teams to develop curriculum implementation strategies to improve the teaching/learning process. Note(s): Special approval required - restricted to School of Education approval; fieldwork required, see advisor for details. Grade Mode: A.
Restriction(s): Must be School of Education; and Graduate Level.
SCHOOL OF FINE ARTS AND COMMUNICATION

Mission
The School of Fine Arts & Communication is a community of artists, scholars and communicators committed to developing people who will explore truth and beauty and express what it means to reflect the Imago Dei.

Vision
The vision of the School of Fine Arts & Communication is to be a vibrant, interdisciplinary community that rigorously engages, confidently leads and humbly serves society in seeking the reconciliation of all creation to the Creator.

Overview
Every discipline within the School of Fine Arts and Communication is a channel through which students can impact the world and express their faith — with words, visuals and sound. This is where students explore new ways to create, tell and distribute stories. Through our programs, many of which are nationally ranked, students are given every opportunity to become proficient and powerful storytellers. The School of Fine Arts and Communication offers bachelor's degree programs in the following departments, as well as a master's degree program in the department of Public Relations.

Conservatory of Music
Biola’s Conservatory of Music is a vibrant community of diverse artists. Students, faculty, graduates and friends of the conservatory collaborate on compelling projects and attend and perform in the Concert Series, Music at Noon and other live musical events. Members enjoy a lifetime of professional networking, meaningful friendships and unique opportunities as a result of their experience at the conservatory.

Additional Education Opportunities and Distinctives
- Chamber Music Ensemble, Chorale, Percussion Ensemble, Symphony Orchestra, Symphonic Winds
- Semester Concert Series
- Annual Christmas Concert

Department of Art
The Department of Art is a vibrant visual arts community that offers a professional visual arts program with a rigorous curriculum that reflects a strong liberal arts emphasis and a solid Christian worldview. Our art professors are dedicated to mentoring our diverse student body and strive to create an academic and spiritual environment where students will become thriving servant-leaders who as artists and designers understand the complexity of the world in which they live. The Department of Art is committed to training well-equipped students with the aesthetic, technical, conceptual skills and the Christian worldview needed for professional success and impact.

The Department of Art is undergoing major renovation to be completed in Fall 2020. Some of the key spaces included in the renovation plan include:
- Student Art Gallery
- 40 Senior Art Studios
- Photography Dark Room/Light Room
- Painting Studio
- Drawing Studio
- Photo Lighting Studio
- Interdisciplinary Studio
- New Media Studio
- 2 Computer Labs
- 8 Faculty Offices
- Center for Christianity, Culture, and the Arts Office
- Gallery Director Office
- Art Department Chair’s Office Suite
- Dean of Fine Arts and Communications Office Suite
- Screened Outdoor Art Yard
- Rooftop Terrace
- Outdoor Exhibition Space incorporated into a new site landscaping plan

Department of Communication Studies
The Department of Communication Studies finds its roots in the desire of Biola’s founders to train students to reach the world with the message of the gospel. Our mission is to produce committed Christian graduates who are trained in the theory and practice of communicative arts and are masters at constructing and delivering ethically written and globally relevant oral messages, using all forms of popular and religious media.

Additional Education Opportunities and Distinctives
- Theatre majors at Biola have the opportunity to participate in dramatic productions through Theatre 21. This 94-seat performing arts venue can act as a launchpad for students’ creative and professional careers, as it is the primary home of Biola’s theatre program — ranked by OnStage as one of the top 25 programs in the nation.
- Biola’s ‘Curtain Time in London’ tour allows students to travel as a group to London, England, to visit theatrical venues and participate in acting workshops.
- Communication studies students have an opportunity to join Lambda Pi Eta, a national honor society, and work on service learning projects such as an AIDS hospice program.

Department of Digital Journalism & Media
Journalism is an important calling that involves seeking truth, exposing injustice, crafting compelling stories and maintaining high ethical standards. In Biola’s digital journalism and media program, you’ll learn reporting and storytelling from experienced faculty and media professionals. At the same time, you’ll gain cross-cultural understanding and real-world journalism experience in one of the world’s largest and most influential media centers. You will learn how words, photos, video and interactive media are part of the journalism world that is shaping
national and international politics, business, entertainment, sports, and ministry of all kinds.

**Additional Education Opportunities and Distinctives**

*The Chimes*

Biola University’s student-run, award-winning news publication serving the Biola community for over 80 years is produced weekly, online and in print.

*EagleVision*

Gain hands-on broadcast news reporting experience both on campus and in the Los Angeles area. Produce content and learn production work: editing, directing, camera operating and floor directing.

*The Point*

Biola University’s award-winning campus magazine produced each semester by students, for students, about college life and the world beyond.

*The Torch*

A student-run radio station featuring podcasts on a variety of compelling topics.

*Media Narrative Book Project*

Produced entirely by students in the Media Narrative course, these book projects feature cross-cultural encounters and in-depth journalism, encompassing reporting, research, writing documentary photojournalism, page and cover design and accompanying digital media.

*Study Abroad*

New York City Semester is a program with The King’s College, located in downtown Manhattan. Students will be immersed in a rigorous and engaging academic experience, learning from award-winning professors who epitomize committed Christian faith along with mastery in their fields. In addition to visits from industry professionals and the vibrant faculty lectures, students will take advantage of unparalleled networking opportunities, cultural experiences, and more.

**Department of Public Relations & Strategic Communication**

The Department of Public Relations and Strategic Communication is a community of faculty, staff, and students, all committed to the goal of developing leaders who are trained to leverage influence and power in organizations in order to pursue human flourishing and cultural transformation. Our community pursues this goal through a biblically-centered public relations education focused on cultivating leaders equipped with ethical courage, strategic creativity and digital media expertise that facilitates managing communication between organizations and the public in order to build mutually beneficial relationships.

**Additional Education Opportunities and Distinctives**

*6th Street PR*

Student work with real clients as part of a student-led, award-winning, nationally accredited public relations agency. One of only three PRSSA Affiliated Agencies on the West Coast.

*PRSSA*

PRSSA is the foremost organization for students interested in public relations and communications. The Biola chapter is a recognized leader in the organization. Students develop leadership skills, participate in national competitions, enhance their professional expertise and connect with networks to help them thrive in public relations.

*PR Fellows*

The honors program for our undergraduate public relations program designed to facilitate advanced mentoring, foster professional development and guide future PR leaders in strategic foresight for their career ambitions. Open by invitation only to a select group of undergraduate seniors who have displayed strong academic expertise, leadership within the PR program, and a character that evidences professionalism.

**Program Accreditations**

- National Association of Schools of Art and Design (1998)
- National Association of Schools of Music (1970)

**Program Affiliations**

- American Guild of Organists
- Associated Collegiate Press
- Choral Conductors’ Guild (California)
  - Intercollegiate Press
- Music Educators National Conference
- Public Relations Student Society of America (PRSSA)

**Faculty**

*Dean:* Todd Guy, Ph.D.

**Art Faculty**

*Chair:* Zehavi Husser, Ph.D.

*Professors:* Alecson, Callis, Puls

*Associate Professor:* Chang, Simonson, Swendsrud

**Communication Studies and Theatre Faculty**

*Chair:* Joy Qualls, Ph.D.

*Professor:* Muehlhoff

*Associate Professor:* Molloy

*Assistant Professors:* Bortot, Calley, Moe

*Visiting Professor:* Cole

**Digital Journalism and Media Faculty**

*Chair:* Michael Longinow, Ph.D.

*Associate Professors:* Kitada, Oleson, Welter

**Conservatory of Music Faculty**

*Director:* George Boespflug, Ph.D.

*Professors:* Boespflug, Denham, Feller, Hulling, Hung, Liesch, Robison

*Associate Professors:* Askew, Larson, Owen, Park, Stewart

*Lecturer:* Balzun

**Public Relations and Strategic Communication Faculty**

*Chair (B.A. & B.S.):* Anna Sinclair, M.O.L.

*Chair (M.A.):* Carolyn Kim, Ph.D.
Certificates
specializations in:
Public Relations and Reputation Management, M.A. with Graduate/Masters
Program Learning Outcomes

Instructor: K. Kim

• Music (MUSC) (p. 370)
• Public Relations and Strategic Communications (PREL) (p. 379)
• Theatre (THTR) (p. 382)

Graduate
• Public Relations and Reputation Management (PBRL) (p. 378)

Art, B.S.
Mission
The Department of Art is a vibrant community of artists and scholars who integrate faith and creative practice. Through an innovative and rigorous curriculum, we cultivate a student's ability to create and critically evaluate complex works of art in a mentoring environment. We foster curiosity through established and experimental mediums, methods, and theoretical perspectives.

Degree Program
The Bachelor of Science Degree in Art is offered for individuals who desire a liberal arts degree providing a broad foundation experience in art. There are two concentrations offered: Art Therapy (pending NASAD approval) and Studio Art.

Concentrations
The Studio Art concentration provides students with a broad foundation experience in art, and is specifically designed for students who want to graduate with a double major or an art major with a minor in another academic discipline.

The Art Therapy concentration (pending NASAD approval) is a pre-professional preparation program for students who plan to pursue a graduate degree program in art therapy. Our program is designed to meet the prerequisite requirements of nearly all graduate art therapy programs in the US. This degree program also prepares students to be hired in some post-bachelors level jobs that are social-services related.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Science in Art, students will be able to:

1. Conceive, design and create works of art in one or more specific fine arts fields that are technically and conceptually sophisticated (ULO 1).
2. Recognize, analyze, compare and evaluate historical and contemporary art movements and aesthetic philosophies, including both Western and Global material (ULO 1).
3. Recognize and identify a variety of professional practices, career/employment and graduate education opportunities and apply that knowledge by developing a personalized career plan (ULO 3).
4. Articulate a clear rationale for the production and evaluation of contemporary visual art that reflects an orthodox Christian value system (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admissions and Program Requirements**

The Department of Art has an open admissions policy. Incoming first-year students and transfer students from other institutions may declare an art major when they apply for admission to Biola University. Because of the rigorous schedule and amount of work required in the B.F.A. degree program, transfer students and Torrey Honors Institute students may need an additional semester to complete all of their requirements.

The Department of Art offers three degree programs. The Bachelor of Fine Arts in Studio Art is a professional degree program focusing on intensive studio practice and requiring an area of concentration; the B.F.A. is the preferred degree for students who anticipate having an art-related career, or who are planning to attend graduate school. The Bachelor of Science Degrees in Art and in Design contain a broader range of liberal arts general education courses, and allow students the option of choosing a wide range of general electives. The two B.S. degrees also allow greater flexibility for students completing a double major or a minor in another academic discipline.

Every year, all art majors participate in formal reviews to evaluate their progress in the department. Student portfolios are appraised using a variety of criteria, such as technical achievement, creative problem solving, and aesthetic/artistic development. Reviews are conducted at the end of the freshman, sophomore and junior years. Graduating seniors in the B.F.A. program are evaluated the semester before their thesis exhibitions.

All art majors are required to maintain a 2.5 GPA in the program. Any grade below a C- must be repeated.

In art and design studio classes, contact hours define the meaning of a credit hour. In these courses, one semester hour of credit equals two hours of class instruction with at least one additional hour of unsupervised laboratory work each week. Studio courses receiving three credits typically meet six hours a week for class instruction with the expectation that students complete an additional three hours of assigned laboratory work. Students taking ARTS 462 or ARTS 464, and independent studies, must complete a minimum of three hours of research/laboratory work each week during the semester for one hour of credit.

It is recommended that all Art majors own a Macintosh laptop. Contact the Department of Art office for recommended specifications.

Course Sequence  

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.  

Taking coursework during the summer session may also be an option to accelerate your degree path.  

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.  

- Art, B.S. Studio Art (p. 295)  
- Art, B.S. Art Therapy (p. 295)

Total Credits 30
Communication Studies, B.A.

Mission

The Department of Communication Studies provides a rigorous integration of academically strong and biblically-based study of communication. We engage with historical and cultural implications, develop identities, and analyze messages informed by foundational theories, contemporary research, and investigative methodologies. Our graduates are empowered to speak, write and problem solve ethically and with humility to impact local and global communities.

Degree Program

Upon completion of the University baccalaureate and major requirements, the Communication Studies Department offers the Bachelor of Arts degree in Communication Studies. Obtaining a degree with one of the four concentrations offered requires 45-48 credits, depending on the concentration chosen.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Bachelor of Arts in Communication Studies, students will be able to:

1. Describe the communication discipline and its central questions (ULO 1).
2. Engage in communication inquiry, employ theories, and critically analyze messages (ULO 1, 3).
3. Create messages appropriate to the audience, purpose, and context, and demonstrate self-efficacy (ULO 1, 2, 3).
4. Apply ethical communication principles and practices (ULO 1, 3).
5. Utilize communication to demonstrate cultural competency (ULO 2, 3).
6. Influence public discourse through framing, evaluating, and advocating for local, national, and global issues from a distinctly biblical perspective (ULO 1, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Writing Competency Requirement

Every Biola student must fulfill the Writing Competency Requirement (WCR). Students fulfill the WCR by passing ENGL 313 with a C+ or better. If they fail to meet this requirement, they must consult with their major advisor for an alternative WCR pathway. For more information, see the section titled ‘Writing Competency Requirement’ under the Admission, Enrollment and Graduation Requirements (p. 25) section.

GPA Requirements

Communication Studies and Theatre majors must achieve a minimum grade of a 'C' in all major courses taken at Biola. Anyone receiving a lower grade must repeat the course with a higher grade to receive credit for the course.

Total Credits 45-48

1 If students have already fulfilled the COMM Core Curriculum requirement, COMM 200 may be taken as a lower-division COMM elective.

2 Either COMM 465 or COMM 474 may be taken as alternatives to COMM 495.

Concentrations

Students must choose one of four concentrations under this major:

- Dramatic Arts
- Relational Communication
• Rhetorical Studies
• Organizational Communication

When students have completed any of these concentrations they should be prepared for employment in fields where excellent interpersonal and group communication skills are especially important. These concentrations are also excellent preparation for advanced graduate work in the discipline of communication studies. Many Communication Studies graduates have gone on to earn their M.A. and Ph.D. degrees in the field at other institutions. In addition, the Communication Studies degree provides excellent general preparation for careers in fields such as the ministry, human resources, sales, education or law.

### Course Sequence

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

- Relational Comm
- Rhetorical Studies
- Organizational Comm
- Dramatic Arts

Design, B.S.

Degree Program

The Bachelor of Science Degree in Design contains a broad range of liberal arts general education courses, and allows students the option of choosing a wide range of general electives while providing them with a strong foundation in general design. It requires the completion of 48 credits in core and elective courses, and gives students the flexibility to complete a double major or a minor in another academic discipline.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Bachelor of Science in Design, students will be able to:

1. Conceive, design and create works of art in one or more specific fine arts fields that are technically and conceptually sophisticated (ULO 1).
2. Recognize, analyze, compare and evaluate historical and contemporary art movements and aesthetic philosophies, including both Western and Global material (ULO 1).
3. Recognize and identify a variety of professional practices, career/employment and graduate education opportunities and apply that knowledge by developing a personalized career plan (ULO 3).

4. Articulate a clear rationale for the production and evaluation of contemporary visual art that reflects an orthodox Christian value system (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admissions Requirements

The Department of Art has an open admissions policy. Incoming first-year students and transfer students from other institutions may declare an art major when they apply for admission to Biola University. Because of the rigorous schedule and amount of work required in the B.F.A. degree program, transfer students and Torrey Honors Institute students may need an additional semester to complete all of their requirements.

Program Requirements

The Department of Art offers three degree programs. The Bachelor of Fine Arts in Studio Art is a professional degree program focusing on intensive studio practice and requiring an area of concentration; the B.F.A. is the preferred degree for students who anticipate having an art-related career, or who are planning to attend graduate school. The Bachelor of Science Degrees in Studio Art and in Design contain a broader range of liberal arts general education courses, and allow students the option of choosing a wide range of general electives. The two B.S. degrees also allow greater flexibility for students completing a double major or a minor in another academic discipline.

Every year, all art majors participate in formal reviews to evaluate their progress in the department. Student portfolios are appraised using a variety of criteria, such as technical achievement, creative problem solving, and aesthetic/artistic development. Reviews are conducted at the end of the freshman, sophomore and junior years. Graduating seniors in the B.F.A. program are evaluated the semester before their thesis exhibitions.

All art majors are required to maintain a 2.5 GPA in the program. Any grade below a ‘C’ (1.67) must be repeated.

In art and design studio courses, contact hours define the meaning of a credit hour. In these courses, one semester hour of credit equals two hours of class instruction with at least one additional hour of unsupervised laboratory work each week. Studio courses receiving 3 credits typically meet six hours a week for class instruction with the expectation that students complete an additional three hours of assigned laboratory work. Students taking ARTS 462 or ARTS 464, and independent studies, must complete a minimum of three hours of research/laboratory work each week during the semester for one hour of credit.

Curriculum Requirements

Program-Specific Core Curriculum Courses

Core Curriculum requirements for the Bachelor of Science Degree in Design must conform to the University standards for B.S. degrees. All B.S. in Design majors are exempt from the Core Curriculum requirement in fine arts. All B.S. in Design majors are required to take the following courses:

- PHIL 216 Introduction to Philosophy and Aesthetics
- BBST 465 Integration Seminar

The Department offers five areas of concentration:

- Broadcast Journalism
- Cross-Cultural Media
- Digital Journalism
- Visual Media
- Writing & Publishing

### On-Campus Study Opportunities

#### Biola Radio

Biola's award-winning student-run web radio programming gives students hands-on experience in reporting news and features, covering campus and regional sports, and creating talk-show format programming around Christian music and news trends. Student work takes place in an on-campus studio or in field-reporting.

#### EagleVision

Biola's student-run Webcast programming uses state-of-the-art studio and field equipment to cover news events, sports and trends facing the Biola campus and surrounding regions of southern Los Angeles and northern Orange County. EagleVision staff get practical experience in deadline reporting, script-writing, anchoring, editing and producing packages for Internet broadcast. EagleVision also uses CNN footage for localized coverage of world events. Talk-show studio formats are used to provide students experience with news-feature variety in programming.

#### The Chimes and Chimes Online

Biola's award-winning weekly newspaper, an independent media operation, provides deadline experience in reporting, writing, photojournalism, graphics design and multimedia for the Web. Editors and business staff, funded by payroll or scholarship, are chosen by competitive application a year in advance. Staff members are selected annually for expertise in select media areas (e.g. Advertising staff are selected for background in marketing). Staff training for the editorial and advertising staff provides students with incentives for excellence in pre-professional career portfolio material. Chimes Online, a stand-alone staff of writers, photographers, and multimedia producers provides daily, interactive news and feature coverage of the campus and the La Mirada region.

#### Media Narrative Project

In a program unique among Christian colleges and universities nationally, students in the Department of Digital Journalism and Media regularly produce a book-length inquiry into a cross-cultural topic. By means of in-depth reporting and documentary photojournalism, students use collaborative journalism and media techniques to take a concept from idea to finished product in one semester. Topics these books have explored include: street survival and ministry on Skid Row, after-school programs in the housing projects of Los Angeles; a non-profit organization's role in Santa Ana to prevent gang violence; the despair and hope of life in the Dominican Republic and in Haiti, and the pain of alienation and fear felt by migrants and their families on either side of the Tijuana border. These books, designed with student input, are produced through Biola Avenue Press, the department's imprint. The books are sold on Amazon.com.

### 6th Street Public Relations

Biola's student-run PR firm, 6th Street PR, is nationally affiliated through the Public Relations Student Society of America. With less than 40 schools having student-run firms that have achieved this status, Biola's PR students have the opportunity to work with real-world clients on strategic public relations initiatives. Building portfolio pieces and
leadership experience, 6th Street PR provides experiential learning right on campus for students who want to dive deeper into the world of PR.

The Biolan
Biola’s yearbook — one of the oldest forms of student media on the campus — provides students experience in magazine-style feature writing, feature and documentary-style photojournalism and four-color page design in a context that gives student journalists insight to careers in magazine production and book publishing. Editors are chosen a year in advance, but section editors are selected in Fall semesters to serve through the year.

The Point
This award-winning feature magazine is published at the end of each Fall and Spring semester. Work on The Point’s staff, some of it by competitive application only, gives students hands-on experience in production of a full-color, slick-page publication. Student editors choose each edition’s theme and select stories and photos from the best work of staff and student freelancers. Point staffers get training and experience in copy-editing, photojournalism and page design. Their name on the masthead of this publication, along with hard-earned skills, provide a leaping off point for magazine or publishing careers.

PRSSA
The Biola chapter of the Public Relations Student Society of America (PRSSA) builds ties between students and professionals in the Los Angeles region and nationally. Students in PRSSA do event planning, community service projects, and hear from guest speakers on best practices for developing into successful leaders and practitioners of corporate, non-profit or ministry-related public relations and marketing.

Journalist in Residence
Biola’s location in one of the nation’s top media markets makes it a crossroads for journalists and public relations professionals of national and international renown. The Department of Digital Journalism and Media invites selected professionals and successful alumni to speak on special topics in a one-credit course experience for students tailored to the trends and events of California, the Southwestern United States, the nation, and other parts of the world.

Off-Campus Program Opportunities
Biola offers several off-campus program opportunities geared to students earning a Bachelor of Arts in Journalism and Integrated Media. More information about these experiential learning programs can be found in the Study Abroad and Study USA (p. 51) section of this catalog, or on the Study Abroad website (https://www.biola.edu/studyabroad/). Students interested in any of these programs should consult with an academic advisor as early as possible.

American Studies Program
This program, set in Washington, D.C., is ideal for students who want a better grasp of communications within government agencies. The program, run by the Council for Christian Colleges and Universities, provides public policy discussion and coursework along with opportunities for both public relations and journalistic internships. See the CCCU website (http://www.bestsemester.com/locations-and-programs/washingtondc/asp/) for additional information.

New York City Study and Intern
Students in journalism have found success in the coursework and internships provided by the New York City semester in journalism offered by The King’s College. The program involves coursework from a biblical world-view with media opportunities in the nation’s number one media market.

Washington D.C. Journalism and PR opportunities
The Fund for American Studies and various other D.C.-based study and internship opportunities have been a successful fit for Biola Journalism students. These programs offer courses and internship opportunities that parallel elements of our majors. Many Biola grads in Journalism have made successful career entry in D.C.

Disney Internships
Biola’s campus, so near Anaheim, home of Disneyland, provides students many opportunities for internships that can provide networking for journalism careers. Students accepted for Disney internships complete coursework in leadership development and experience with public management. Students can also build ties to professionals in media properties owned by Disney, such as ABC News.

Field Production Trips
The Department of Digital Journalism and Media offers special-topic, elective workshops for variable credit during some semesters that provide students hands-on experience in reporting, writing or visual journalism. Recent workshops have taken students to New York and Washington, D.C. for insights into political journalism; other trips involved travel to central Mexico for documentary photojournalism projects, and to Texas for insights on business aspects of free-lance photography. Other means of providing students with practical off-campus media experience are Travel Journalism and Cross-cultural Storytelling Project, a course set either in the U.S or overseas, guiding students in feature-writing, documentary photojournalism, video work or audio projects.

Learning Outcomes

Program Learning Outcomes
Upon completion of the Bachelor of Arts in Journalism and Integrated Media, students will be able to:

1. Students will evaluate journalistic processes (ULO 1).
2. Students will analyze journalistic work that reflects biblical truth-telling within cross-cultural storytelling (ULO 1).
3. Students will evaluate journalistic processes (ULO 1).
4. Students will construct a digital presence showcasing their pre-professional expertise (ULO 3).
5. Students will create effective, journalistic writing pieces either expected of entry-level media professionals or about journalism (ULO 3).
6. Students will produce journalistic projects that are reflective of their concentration’s specialization of dynamic, journalistic storytelling (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.
Requirements
Senior Portfolio Review and Summit Presentation

All students in the Department of Digital Journalism and Media are expected to complete a portfolio review as well as a public presentation before graduating.

The portfolio consists of the student's best work, completed through coursework or internships during the time they have been enrolled in the major. The review will be completed by a committee of full-time faculty (with input from a professional outside of the institution) as well as by the instructor for the Senior Portfolio course during the selected semester.

The student's portfolio will be rated for competency or non-competency. Competent work can also be rated as exemplary. Students whose portfolio does not earn at least a competency rating must re-submit their portfolio to the Review Committee or retake the Senior Portfolio course (if the grade requires such).

Also as part of the graduation requirements as well as the Senior Portfolio course, students will prepare and submit a proposal to be approved for a public presentation (most likely at the department Summit) on a topic of expertise they have developed during their time as a student.

Timing of the portfolio review and public presentation is the semester before graduating (typically Fall semester of the senior year in a normal four-year undergraduate cycle). For December graduates, the review will take place during Spring semester.

Traditional students should schedule a preliminary portfolio review with their academic advisor at the end of five semesters to plan successful completion of the portfolio review and presentation. Transfer students should schedule a preliminary portfolio review after two semesters.

Scheduling of the Senior Portfolio review and public presentation will be completed as part of the Senior Portfolio course requirements. Any exception to this plan must be approved by the full-time faculty.

Internship

Internship, comprising a total of 3 credits, is required for graduation in the Journalism and Integrated Media major. Students will complete the 1-credit course, JOUR 344 Media Internship, as well as the 2-credit course, JOUR 444 Advanced Internship & Career Preparation. Students may take JOUR 344 multiple times to complete more internships for credit. Students, guided by their academic advisor, are encouraged to pursue other (non-credit) internships to gain as much hands-on experience as possible before their senior year. Students must take the internship courses as ordered by prerequisites, but internships (for credit or for non-credit) may be completed any semester or during the Summer under supervision of department faculty, guided by stipulations of the Internship packet.

No more than 6 credits of Internship may be applied toward major requirements. Total directed research and special topic workshop credits may not exceed 9 credits.

Curriculum Requirements

All Journalism and Integrated Media majors must achieve a minimum grade of 'C' in all major courses taken at Biola. Anyone receiving a lower grade must repeat the course and earn a 'C' or better. The total number of credits for major area credit from internship and directed research may not exceed 9 credits.

**Total Credits: 20**

### Cross-Cultural Media

Students in this concentration will complete 52+ credits, 24 of which must be upper-division. Instead of completing the Program Courses listed above, students will complete the following courses listed below.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INCS 420</td>
<td>Intercultural Communication</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 105</td>
<td>Foundations of Journalism</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 107</td>
<td>Introduction to Convergence</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 120</td>
<td>Writing Across Media</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 267</td>
<td>Media Career Readiness</td>
<td>1</td>
</tr>
<tr>
<td>JOUR 344</td>
<td>Media Internship</td>
<td>1</td>
</tr>
<tr>
<td>JOUR 387</td>
<td>International Journalism</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 390</td>
<td>Media Law</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 444</td>
<td>Advanced Internship and Career Preparation in Media</td>
<td>2</td>
</tr>
<tr>
<td>JOUR 464</td>
<td>Philosophy and Ethics of Media</td>
<td>3</td>
</tr>
<tr>
<td>JOUR 495</td>
<td>Senior Portfolio</td>
<td>1</td>
</tr>
</tbody>
</table>

Select 6 credits of electives from either Writing, Visual or Broadcast in consultation with advisor.

Select 3 credits of the following Media Essentials:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 220</td>
<td>Introduction to Visual Media</td>
<td></td>
</tr>
<tr>
<td>JOUR 231</td>
<td>Public Affairs Reporting</td>
<td></td>
</tr>
<tr>
<td>JOUR 235</td>
<td>Videography</td>
<td></td>
</tr>
<tr>
<td>JOUR 241</td>
<td>Audio Workshop (1-credit)</td>
<td></td>
</tr>
<tr>
<td>JOUR 243</td>
<td>TV Directing Workshop (1-credit)</td>
<td></td>
</tr>
<tr>
<td>JOUR 245</td>
<td>Video Workshop (1-credit)</td>
<td></td>
</tr>
<tr>
<td>JOUR 305</td>
<td>Database Journalism</td>
<td></td>
</tr>
<tr>
<td>JOUR 347</td>
<td>Photo Communication</td>
<td></td>
</tr>
<tr>
<td>PREL 249</td>
<td>Media Design Essentials</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following Cross-Cultural Media Experiences:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JOUR 486</td>
<td>Media Narrative Project</td>
<td></td>
</tr>
<tr>
<td>JOUR 488</td>
<td>Media Capstone</td>
<td></td>
</tr>
</tbody>
</table>

Select two of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 304</td>
<td>Ancient Near East</td>
<td>6-8</td>
</tr>

<td></td>
</tr>
<tr>
<td>ARAB 201</td>
<td>Arabic Language and Culture III</td>
<td></td>
</tr>
</tbody>
</table>

**Other Language Options**

Students may consult with their advisor and the Department of Modern Languages for arrangements to fulfill this requirement with any of the languages referenced below.
Biblical Hebrew or Russian are both currently offered at Biola and may be used to fulfill the language required for this concentration. Swahili, Modern Hebrew, Persian/Farsi, or Turkish; Korean; and Japanese may be taken for this requirement; however, they are not currently offered at Biola.

Total Credits 52-54

### Digital Journalism

**Concentration Courses**

Select one of the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>

</tbody>
</table>

Total Credits 20
### Course Sequence

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

- Broadcast Journalism (p. 308)
- Cross-Cultural Media (p. 308)
- Digital Journalism (p. 309)
- Visual Media (p. 309)
- Writing-Publishing

**JOUR electives should be approved by your advisor. See catalog.**

All Journalism majors must achieve a minimum grade of 'C' in all major courses taken at Biola.

JOUR electives should be approved by your advisor. See catalog.
### Music, B.A. Degree Program

The Bachelor of Arts degree in Music is offered upon completion of the University baccalaureate and major requirements. Total credits: 43 (57 for Commercial Music concentration). In order to graduate, 120 credits are required. Additional elective credits (music or non-music) may be needed to reach that total.

### Special Programs/Opportunities

**Ensembles**

The Conservatory provides opportunities for experience in several types of vocal and instrumental ensembles, including the Biola Chorale, Symphony Orchestra, Symphonic Winds, Jazz Ensemble, Women's Chorus, Men's Chorus, Vocal Jazz Ensemble and Chamber Music.
Ensembles. All are open to non-music majors as well as music majors by audition.

**Concert Series**
The Conservatory concert series features outstanding guest artists and student ensembles.

**Masterclasses and Artist-in-Residence Program**
Opportunities for participating in masterclasses with guest artists are available annually. Of special note is the ongoing series of masterclasses and recitals by world-renowned artists, including Menahem Pressler, pianist, Artist-in-Residence.

**Local Opportunities**
The Southern California area provides exceptional opportunities for hearing the world’s leading artists, as well as outstanding college and church music performances.

**Service Opportunities**
The Los Angeles metropolitan area offers many opportunities for remunerative service in music. There are frequent openings for competent church choir directors, soloists, accompanists, instrumentalists, and organists.

**Scholarships**
Music awards in varying amounts are available to qualified students. Complete information is available by emailing music@biola.edu or by writing:

Director, Conservatory of Music
Biola University
13800 Biola Avenue
La Mirada, CA 90639-0001

**Learning Outcomes**

**Program Learning Outcomes**
Upon completion of the Bachelor of Arts in Music, students will be able to:

1. Apply historical and theoretical understanding to the analysis of musical forms, processes, and structures found in masterpieces from the western art music tradition (ULO 1).
2. Describe how they intend to integrate their faith in their anticipated future professional activities (ULO 2).
3. Demonstrate basic musicianship skills in sight-singing, dictation, conducting, voice and piano (ULO 2).
4. Evaluate basic form, harmony, meter, rhythm, voice-leading and developmental techniques found in excerpts and entire pieces from the Western art music tradition, and will experiment with writing music in the same styles (ULO 3).
5. Apply their stylistic, theoretical, interpretive and technical skills and understanding to create and perform personal, communicative performances on their primary instrument (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admission Requirements**
All students seeking admission must demonstrate musical background and performance strengths necessary for successful completion of the stated curriculum. Admission into Biola University does not guarantee admission into the Conservatory as a music major. A student will be admitted to the Conservatory of Music after:

1. Meeting requirements for University admission.
2. Completing a Conservatory application with the required number of references.
3. Completing a Conservatory audition, including a basic musicianship examination designed to demonstrate university level music study readiness.

After acceptance and upon entrance, students will be given placement examinations and auditions in music dictation, keyboard skills and performance. These examinations are given for the purpose of validating prior study and determining proper placement in music courses.

Specific information concerning the content of these examinations and suggestions for preparation are available by contacting the Conservatory Office.

**Transfer of Credit/Advanced Standing**
With the exception of courses in music theory, sight-singing and dictation, keyboard skills, and individual performance, courses taken at other regionally accredited colleges and universities in the United States will be accepted on a comparable course basis.

Prior study in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance will be validated through placement examinations.

Advanced standing may be gained through placement examinations in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance; however, no credit(s) will be given for waived courses. Waiver of courses on the basis of placement examinations without comparable prior course credit will increase elective credits required.

Credit for courses taken at a non-accredited college or university will be granted only through placement or challenge examinations.

**Applied Music**
In order to graduate, music students must reach primary applied proficiency level standards designated for each degree program. Applied Music lessons are guided by faculty or studio artists who have expertise and professional experience in the voice or instrument under study.

Studio artists are affiliated with Biola via independent contracts and thus do not undergo the same process for hire as do faculty. The studio artists are all highly competent individuals who appreciate Biola and endorse the goals of the Conservatory, but their theological conceptualization has not undergone the same close review as that of the faculty. For more information, see the Conservatory Office.

**Integration Seminar Requirement**
Students enrolled in the Bachelor of Arts music degree program are required to take BBST 465 as ‘Redeeming Culture through Music’ (this course fulfills the integration seminar Bible requirement).
GPA Requirements
Students must maintain a 2.0 GPA in the major and receive a minimum grade of 'C' in each required music course.

Course Sequence
NOTE: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.
Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

**Music Composition, B.M. Degree Program**

The Bachelor of Music degrees are offered upon completion of the University baccalaureate and major requirements. The major requirements include completing a basic core of 30 credits of music and specific degree requirements of an additional 50 credits for Composition. Total credits: 80.

Students interested in pursuing this degree must demonstrate a high level of performance potential and commitment to music as a profession.
Special Programs/Opportunities
Ensembles
The Conservatory provides opportunities for experience in several types of vocal and instrumental ensembles, including the Biola Chorale, Symphony Orchestra, Symphonic Winds, Jazz Ensemble, Women’s Chorus, Men’s Chorus, Vocal Jazz Ensemble and Chamber Music Ensembles. All are open to non-music majors as well as music majors by audition.

Concert Series
The Conservatory concert series features outstanding guest artists and student ensembles.

Masterclasses and Artist-in-Residence Program
Opportunities for participating in masterclasses with guest artists are available annually. Of special note is the ongoing series of masterclasses and recitals by world-renowned artists, including Menahem Pressler, pianist, Artist-in-Residence.

Local Opportunities
The Southern California area provides exceptional opportunities for hearing the world’s leading artists, as well as outstanding college and church music performances.

Service Opportunities
The Los Angeles metropolitan area offers many opportunities for remunerative service in music. There are frequent openings for competent church choir directors, soloists, accompanists, instrumentalists, and organists.

Scholarships
Music awards in varying amounts are available to qualified students. Complete information is available by emailing music@biola.edu or by writing:

Director, Conservatory of Music
Biola University
13800 Biola Avenue
La Mirada, CA 90639-0001

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Music in Composition, students will be able to:

1. Apply historical and theoretical understanding to the analysis of musical forms, processes, and structures found in masterpieces from the western art music tradition (ULO 1).
2. Describe how they intend to integrate their faith in their anticipated future professional activities (ULO 2).
3. Demonstrate basic musicianship skills in sight-singing, dictation, conducting, voice and piano (ULO 3).
4. Evaluate basic form, harmony, meter, rhythm, voice-leading and developmental techniques found in excerpts and entire pieces from the Western art music tradition, and will experiment with writing music in the same styles (ULO 3).
5. Apply their knowledge of compositional techniques and the musical elements (form, melody, harmony, etc.) to write original compositions (ULO 2).
6. Demonstrate artistic maturity in terms of their craft creativity, clarity of expression on the written page, and efficiency in writing for established deadlines (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements
All students seeking admission must demonstrate musical background and performance strengths necessary for successful completion of the stated curriculum. Admission into Biola University does not guarantee admission into the Conservatory as a music major. A student will be admitted to the Conservatory of Music after:

1. Meeting requirements for University admission.
2. Completing a Conservatory application with the required number of references.
3. Completing a Conservatory audition, including a basic musicianship examination designed to demonstrate university level music study readiness.

After acceptance and upon entrance, students will be given placement examinations and auditions in music dictation, keyboard skills and performance. These examinations are given for the purpose of validating prior study and determining proper placement in music courses. Specific information concerning the content of these examinations and suggestions for preparation are available by contacting the Conservatory Office.

Transfer of Credit/Advanced Standing
With the exception of courses in music theory, sight-singing and dictation, keyboard skills, and individual performance, courses taken at other regionally accredited colleges and universities in the United States will be accepted on a comparable course basis.

Prior study in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance will be validated through placement examinations.

Advanced standing may be gained through placement examinations in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance; however, no credit(s) will be given for waived courses. Waiver of courses on the basis of placement examinations without comparable prior course credit will increase elective credits required.

Credit for courses taken at a non-accredited college or university will be granted only through placement or challenge examinations.

Applied Music
In order to graduate, music students must reach primary applied proficiency level standards designated for each degree program. Applied Music lessons are guided by faculty or studio artists who have expertise and professional experience in the voice or instrument under study. Studio artists are affiliated with Biola via independent contracts and thus do not undergo the same process for hire as do faculty. The studio artists
are all highly competent individuals who appreciate Biola and endorse the goals of the Conservatory, but their theological conceptualization has not undergone the same close review as that of the faculty. For more information, see the Conservatory Office.

**GPA Requirements**

Students in the degree program must maintain a 2.0 GPA in the major and receive a minimum grade of 'C' in each required course.

**Integration Seminar Requirement**

Students enrolled in the Bachelor of Music degree program are required to take BBST 465 as ‘Redeeming Culture through Music’ (this course fulfills the integration seminar Bible requirement).

5. Must be taken for a total of three semesters.
6. Must be taken for a total of 8 credits through proficiency: level 438.

Course Sequence

**NOTE**: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Total Credits 35
Music Education, B.M.

Degree Program

The Bachelor of Music in Music Education degree is offered upon completion of the University baccalaureate and major requirements. The major requirements include completing a basic core of 30 credits of music and specific degree requirements of an additional 51 to 53 credits for Music Education. Total credits: 81 to 83.

Students interested in pursuing this degree must demonstrate a high level of performance potential and commitment to music education as a profession.

Special Programs/Opportunities

Ensembles

The Conservatory provides opportunities for experience in several types of vocal and instrumental ensembles, including the Biola Chorale, Symphony Orchestra, Symphonic Winds, Jazz Ensemble, Women's Chorus, Men's Chorus, Vocal Jazz Ensemble and Chamber Music Ensembles. All are open to non-music majors as well as music majors by audition.

Concert Series

The Conservatory concert series features outstanding guest artists and student ensembles.

Masterclasses and Artist-in-Residence Program

Opportunities for participating in masterclasses with guest artists are available annually. Of special note is the ongoing series of masterclasses and recitals by world-renowned artists, including Menahem Pressler, pianist, Artist-in-Residence.

Local Opportunities

The Southern California area provides exceptional opportunities for hearing the world’s leading artists, as well as outstanding college and church music performances.

Service Opportunities

The Los Angeles metropolitan area offers many opportunities for remunerative service in music. There are frequent openings for competent church choir directors, soloists, accompanists, instrumentalists, and organists.
Scholarships
Music awards in varying amounts are available to qualified students. Complete information is available by emailing music@biola.edu or by writing:

Director, Conservatory of Music
Biola University
13800 Biola Avenue
La Mirada, CA 90639-0001

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Music in Music Education, students will be able to:

1. Apply historical and theoretical understanding to the analysis of musical forms, processes, and structures found in masterpieces from the western art music tradition (ULO 1).
2. Describe how they intend to integrate their faith in their anticipated future professional activities (ULO 2).
3. Demonstrate basic musicianship skills in sight-singing, dictation, conducting, voice and piano (ULO 3).
4. Evaluate basic form, harmony, meter, rhythm, voice-leading and developmental techniques found in excerpts and entire pieces from the Western art music tradition, and will experiment with writing music in the same styles (ULO 3).
5. Identify current ideas and issues in music education through reading of and responding to current journal publications and through involvement in a real-life music classroom (ULO 1).
6. Apply their knowledge of creating lesson plans and teaching music to groups of children in real-life situations and will reflect on teaching effectiveness (ULO 2).
7. Organize and direct a recital production demonstrating leadership and the ability to conduct an ensemble (ULO 3).
8. Apply their stylistic, theoretical, interpretive and technical skills, and understanding to create and perform personal, communicative performances on their primary instrument (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admission Requirements
All students seeking admission must demonstrate musical background and performance strengths necessary for successful completion of the stated curriculum. Admission into Biola University does not guarantee admission into the Conservatory as a music major. A student will be admitted to the Conservatory of Music after:

1. Meeting requirements for University admission.
2. Completing a Conservatory application with the required number of references.
3. Completing a Conservatory audition, including a basic musicianship examination designed to demonstrate university level music study readiness.

After acceptance and upon entrance, students will be given placement examinations and auditions in music dictation, keyboard skills and performance. These examinations are given for the purpose of validating prior study and determining proper placement in music courses. Specific information concerning the content of these examinations and suggestions for preparation are available by contacting the Conservatory Office.

Transfer of Credit/Advanced Standing
With the exception of courses in music theory, sight-singing and dictation, keyboard skills, and individual performance, courses taken at other regionally accredited colleges and universities in the United States will be accepted on a comparable course basis.

Prior study in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance will be validated through placement examinations.

Advanced standing may be gained through placement examinations in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance; however, no credit(s) will be given for waived courses. Waiver of courses on the basis of placement examinations without comparable prior course credit will increase elective credits required.

Credit for courses taken at a non-accredited college or university will be granted only through placement or challenge examinations.

Applied Music
In order to graduate, music students must reach primary applied proficiency level standards designated for each degree program. Applied Music lessons are guided by faculty or studio artists who have expertise and professional experience in the voice or instrument under study. Studio artists are affiliated with Biola via independent contracts and thus do not undergo the same process for hire as do faculty. The studio artists are all highly competent individuals who appreciate Biola and endorse the goals of the Conservatory, but their theological conceptualization has not undergone the same close review as that of the faculty. For more information, see the Conservatory Office.

Integration Seminar Requirement
Students enrolled in the Bachelor of Music degree program are required to take BBST 465 as ‘Redeeming Culture through Music’ (this course fulfills the integration seminar Bible requirement).

GPA Requirements
Students in the degree program must maintain a 2.0 GPA in the major and receive a minimum grade of ‘C’ in each required course.

The Professional Teacher Preparation Program leading to a California Teaching Credential at Biola University is subject to change in response to new legislation. Please see a credential analyst in the School of Education for current information on completing the requirements for a teaching credential. Students must consult with both their major advisor and a School of Education advisor.

Total Credits 16

---

1. A B.M. degree requires only 5 credits of math/science, so it is possible you will not need to take all three of the MATH 121/122/123 classes.
2. It is possible to complete LEDU 450 (6) & LEDU 452 (6) Secondary Student Teaching prior to graduation (cross-listed as SEED 514 & SEED 515 at the graduate level).

### Music Performance, B.M.

#### Degree Program

The Bachelor of Music degrees are offered upon completion of the University baccalaureate and major requirements. The major requirements include completing a basic core of music and specific degree requirements with additional credits for Performance. Total credits: 72 to 76, depending on the concentration chosen.

Students interested in pursuing this degree must demonstrate a high level of performance potential and commitment to music as a profession.

#### Special Programs/Opportunities

**Ensembles**

The Conservatory provides opportunities for experience in several types of vocal and instrumental ensembles, including the Biola Chorale, Symphony Orchestra, Symphonic Winds, Jazz Ensemble, Women’s Chorus, Men’s Chorus, Vocal Jazz Ensemble and Chamber Music Ensembles. All are open to non-music majors as well as music majors by audition.

**Concert Series**

The Conservatory concert series features outstanding guest artists and student ensembles.

**Masterclasses and Artist-in-Residence Program**

Opportunities for participating in masterclasses with guest artists are available annually. Of special note is the ongoing series of masterclasses and recitals by world-renowned artists, including Menahem Pressler, pianist, Artist-in-Residence.

**Local Opportunities**

The Southern California area provides exceptional opportunities for hearing the world’s leading artists, as well as outstanding college and church music performances.

**Service Opportunities**

The Los Angeles metropolitan area offers many opportunities for remunerative service in music. There are frequent openings for competent church choir directors, soloists, accompanists, instrumentalists, and organists.

**Scholarships**

Music awards in varying amounts are available to qualified students. Complete information is available by emailing music@biola.edu or by writing:

Director, Conservatory of Music  
Biola University  
13800 Biola Avenue  
La Mirada, CA 90639-0001
Learning Outcomes

Program Learning Outcomes

Upon completion of the Bachelor of Music in Music Performance, students will be able to:

1. Apply historical and theoretical understanding to the analysis of musical forms, processes, and structures found in masterpieces from the Western art music tradition (ULO 1).
2. Describe how they intend to integrate their faith in their anticipated future professional activities (ULO 2).
3. Demonstrate basic musicianship skills in sight-singing, dictation, conducting, voice, and piano (ULO 3).
4. Evaluate basic form, harmony, meter, rhythm, voice-leading and developmental techniques found in excerpts and entire pieces from the Western art music tradition, and will experiment with writing music in the same styles (ULO 3).
5. Demonstrate a knowledge of the important composers and their works on their instrument (ULO 1).
6. Demonstrate an understanding of different teaching approaches in their area (voice, piano, or instrumental) (ULO 2).
7. Demonstrate performance mastery on their instrument to the highest possible level given their talents and age (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

All students seeking admission must demonstrate musical background and performance strengths necessary for successful completion of the stated curriculum. Admission into Biola University does not guarantee admission into the Conservatory as a music major. A student will be admitted to the Conservatory of Music after:

1. Meeting requirements for University admission.
2. Completing a Conservatory application with the required number of references.
3. Completing a Conservatory audition, including a basic musicianship examination designed to demonstrate university level music study readiness.

After acceptance and upon entrance, students will be given placement examinations and auditions in music dictation, keyboard skills and performance. These examinations are given for the purpose of validating prior study and determining proper placement in music courses. Specific information concerning the content of these examinations and suggestions for preparation are available by contacting the Conservatory Office.

Transfer of Credit/Advanced Standing

With the exception of courses in music theory, sight-singing and dictation, keyboard skills, and individual performance, courses taken at other regionally accredited colleges and universities in the United States will be accepted on a comparable course basis.

Prior study in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance will be validated through placement examinations.

Advanced standing may be gained through placement examinations in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance; however, no credit(s) will be given for waived courses. Waiver of courses on the basis of placement examinations without comparable prior course credit will increase elective credits required.

Credit for courses taken at a non-accredited college or university will be granted only through placement or challenge examinations.

Applied Music

In order to graduate, music students must reach primary applied proficiency level standards designated for each degree program. Applied Music lessons are guided by faculty or studio artists who have expertise and professional experience in the voice or instrument under study. Studio artists are affiliated with Biola via independent contracts and thus do not undergo the same process for hire as do faculty. The studio artists are all highly competent individuals who appreciate Biola and endorse the goals of the Conservatory, but their theological conceptualization has not undergone the same close review as that of the faculty. For more information, see the Conservatory Office.

Integration Seminar Requirement

Students enrolled in the Bachelor of Music degree program are required to take BBST 465 as ‘Redeeming Culture through Music’ (this course fulfills the integration seminar Bible requirement).

GPA Requirements

Students in the degree program must maintain a 2.0 GPA in the major and receive a minimum grade of ‘C’ in each required course.

**Course Sequence**

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

¹ A B.M. degree requires only 5 credits of math/science, so it is possible you will not need to take all three of the MATH 121/122/123 classes.

Music Therapy, B.M.

Pending AMTA approval

Mission

The mission of the music therapy program is to prepare graduates, grounded in a Christian worldview, to use their musical gifts and skills, and therapeutic techniques to enhance the well-being of those with physical and emotional disorders.

Degree Program

The Bachelor of Music degrees are offered upon completion of the University baccalaureate and major requirements. The major requirements include completing 96 credits.

Students interested in pursuing this degree must demonstrate a high level of commitment to music therapy as a profession.

Special Programs/Opportunities

Ensembles

The Conservatory provides opportunities for experience in several types of vocal and instrumental ensembles, including the Biola Chorale, Symphony Orchestra, Symphonic Winds, Jazz Ensemble, Women’s Chorus, Men’s Chorus, Vocal Jazz Ensemble and Chamber Music Ensembles. All are open to non-music majors as well as music majors by audition.

Concert Series

The Conservatory concert series features outstanding guest artists and student ensembles.

Masterclasses and Artist-in-Residence Program

Opportunities for participating in masterclasses with guest artists are available annually. Of special note is the ongoing series of masterclasses and recitals by world-renowned artists, including Menahem Pressler, pianist, Artist-in-Residence.

Local Opportunities

The Southern California area provides exceptional opportunities for hearing the world’s leading artists, as well as outstanding college and church music performances.

Service Opportunities

The Los Angeles metropolitan area offers many opportunities for remunerative service in music. There are frequent openings for competent church choir directors, soloists, accompanists, instrumentalists, and organists.

Scholarships

Music awards in varying amounts are available to qualified students. Complete information is available by emailing music@biola.edu or by writing:

Director, Conservatory of Music
Biola University
13800 Biola Avenue
La Mirada, CA 90639-0001

Learning Outcomes

Program Learning Outcomes

Upon completion of the Bachelor of Music in Music Therapy, students will be able to:

1. Present themselves as skilled musicians demonstrating proficiency and functional therapeutic musical skills in piano, voice, guitar, and a major performing instrument/voice (ULO 3).
2. Utilize a variety of musical styles from various periods and cultures to facilitate therapeutic intervention (ULO 3).
3. Become effective therapists through self-inquiry, authenticity, and an understanding of the dynamics of the therapist/client relationship (ULO 1, 2, 3).
4. Demonstrate knowledge concerning the cultural, sociological, psychological, and biological perspectives of music as a phenomena of humanity (ULO 1, 3).
5. Accurately assess the needs of a variety of clinical populations and develop appropriate music therapy treatment protocols for individual and group settings (ULO 1, 3).
6. Develop an appropriate and effective clinical writing style to document client response and progress, and to contribute to the professional body of knowledge through research and scholarly publications (ULO 3).
7. Cultivate and shape an individual, unique therapeutic style through continual/ongoing personal and professional growth and development (ULO 1, 2, 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements

All students seeking admission must demonstrate musical background and performance strengths necessary for successful completion of the stated curriculum. Admission into Biola University does not guarantee admission into the Conservatory as a music major. A student will be admitted to the Conservatory of Music after:

1. Meeting requirements for University admission.
2. Completing a Conservatory application with the required number of references.
3. Completing a Conservatory audition, including a basic musicianship examination designed to demonstrate university level music study readiness.

---

1. The Core Curriculum requirement in Science/Math for the B.M. is 5 credits. For the B.M in Music Therapy, BIOS 254 is required (4 credits). The remaining 1 credit may be of students' choosing from other approved courses (see the department for advising).

2. Must be taken for a total of 4 credits through proficiency level 224.

3. Must be taken for a total of 4 credits through proficiency level 428.

4. Must be taken for a total of 6 credits.

5. Must be taken for a total of 6 credits.

**Course Sequence**

**NOTE**: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your courses.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Learning Outcomes

Program Learning Outcomes
Upon completion of the Bachelor of Arts in Public Relations, students will be able to:

1. Identify and discuss elements of leadership with the aptitude expected of entry level professionals in the public relations industry (ULO 1).
2. Design a definition of public relations that is reflective of their worldview and ethical framework (ULO 2).
3. Create public relations initiatives based on industry best-practices and principles (ULO 3).
4. Develop personal brand expected of entry level professionals (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Senior Portfolio Review and Certificate
All students in the Department of Public Relations and Strategic Communication are expected to complete a portfolio review as well as the Certificate in Principles of Public Relations examination prior to graduation.

The portfolio consists of the student’s best work, completed through internships during the time they have been enrolled in the major. The review will be completed by a committee of full-time faculty (with input from a professional outside of the institution) as well as by the instructor for the Senior Portfolio and Certificate course during the selected semester.

The student’s portfolio will be rated for competency or non-competency. Competent work can also be rated as exemplary. Students whose portfolio does not earn at least a competency rating must re-submit their portfolio to the Review Committee or retake the Senior Portfolio and Certificate course (if the grade requires such).

Also as part of the graduation requirements as well as the Senior Portfolio and Certificate course, students will prepare and complete the Certificate in Principles of Public Relations examination.

Public Relations Symposium
Students in the Department of Public Relations and Strategic Communication are required to attend the PR Symposium each semester. During this event, students will complete their academic advising, as well as participate in valuable conversations to their curricular and co-curricular experience within the program.

When a student is unable to attend the PR Symposium, they must complete a formal proposal for the absence, to the department, at least one month prior to the event. The student is responsible to obtain the required form from the department. It is also the responsibility of the student to complete and submit the form by the deadline.

Students who have an accepted proposal for absence are required to individually make up the missing information through additional meetings with one of more faculty, as well as other resource partners who share at particular symposiums. A written report is required from students, two
weeks before class registration, in order to complete their requirement for missing the symposium.

**Internship**

Internship, comprising a total of 3 credits, is required for graduation in the Public Relations and Strategic Communication major. Students will complete the 1-credit course, PREL 344 Media and PR Internship, as well as the 2-credit course, PREL 444 Advanced Internship & Career Preparation. Students may take PREL 344 multiple times to complete more internships for credit. Students, guided by their academic advisor, are encouraged to pursue other (non-credit) internships to gain as much hands-on experience as possible before their senior year. Students must take the internship courses as ordered by prerequisites, but internships (for credit or for non-credit) may be completed any semester or during the Summer under supervision of department faculty, guided by stipulations of the internship packet.

No more than 6 credits of Internship may be applied toward major requirements. Total directed research and special topic workshop credits may not exceed 9 credits.

**General Requirements**

All Public Relations majors must achieve a minimum grade of ‘C’ in all major courses taken at Biola. Anyone receiving a lower grade must repeat the course and earn a ‘C’ or better. The total number of credits for major area credit from practicum, internship and directed research may not exceed 9 credits. All Public Relations majors are required to take a Biblical Studies Integration Seminar (BBST 465). Contact the department for advising on the specific BBST 465 section required.

### 3+1 B.A. or B.S. to M.A. Program

The 3+1 program allows students to move at an accelerated pace through their undergraduate and graduate programs. Students who want to be admitted to the 3+1 program would apply after completing their 100-level courses in the major (PREL 104, PREL 105, PREL 107, PREL 110, PREL 111). Based on the application, reviewed by a faculty committee, students will be qualified to enter the 3+1 program.

Students who are accepted must meet the following standards:

- Students must maintain a 3.8 GPA in their undergraduate B.A. in Public Relations and Strategic Communication or B.S. in Public Relations and Reputation Management.
- Students must earn an A in the following courses: PREL 107, PREL 360, PREL 388/PREL 389.
- In addition, students in the 3+1 program will enroll in PBRL 500, which is cross-listed with PREL 460 (B.A.)/PREL 462 (B.S.) and PBRL 660, which is cross-listed with BBST 465 (B.A.)/PREL 465 (B.S.). Students must earn an A in these courses, as well as completing any additional assignments and work required.
- Also, students will be required to pass an advanced portfolio review of their work form these courses. The portfolio requirements and rubrics used to assess are available in the 3+1 information packet students receive when considering application to the program. The student portfolio pieces must meet competency, based on that rubric, in order to qualify for the 3+1 program.
- Students must still apply and be accepted as a student into the M.A. in Public Relations and Reputation Management, meeting all the requirements and standards of other graduate applicants.

When students meet the above criteria, they will be able to advance into the M.A., with an ultimate graduate credit total of 33. Students accepted into the M.A. from the 3+1 program will have already completed 6 graduate credits (PBRL 500 and PBRL 660) during their time in the undergraduate program.

While all students in the B.A. and B.S. programs in the Department of Public Relations and Strategic Communication are able to apply to the 3+1 program, there are certain concentrations and degrees that align more strongly to the curricular requirements of our 3+1 program. Students in the B.A. in Public Relations and Strategic Communication degree who are in the Advertising or Digital Management and Social Media concentrations or students in the B.S. in Public Relations and Reputation Management will have advanced competencies in digital communication, based on their degree requirements of PREL 107, PREL 307, and PREL 420. Students in these degrees and concentrations who also maintain an A in PREL 307 and PREL 420, as well as any additional assignments for 3+1 students in the courses, will be able to waive PBRL 560 in their graduate work. These students will be able to advance into the M.A., reduced to 30 credits, as they will have already completed 6 graduate credits (PBRL 500 and PBRL 660) during their time in the undergraduate program.

Students who are not in the B.A. in Public Relations and Strategic Communication degree/Advertising or Digital Management and Social Media concentrations or students in the B.S. in Public Relations and Reputation Management are able to pursue getting PBRL 560 also waived if: They gain approval from the 3+1 adviser in the department and they decide to take PREL 420 as an additional course during their undergraduate time, meeting the grade requirements as well as the additional work for 3+1 students in PREL 420.

For course sequencing in the 3+1 program, contact the department for advising.

### Course Sequence

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

- Advertising (p. 329)
- Agency & Corporation (p. 330)
- Digital Management & Social Media (p. 330)
- Entertainment & Events (p. 331)
- Media Relations (p. 331)
- Nonprofit & Ministry

All Public Relations and Strategic Communication majors must achieve a minimum grade of 'C' in all major courses taken at Biola.
Public Relations and Reputation Management, B.S.

Mission

The mission of the Bachelors of Science in Public Relations and Reputation Management is to develop competitive professionals who are skilled at managing organizational communication with stakeholder, providing a rigorous education the combines the Christian worldview with ethics, leadership, and creative strategies in order to effectively lead in leveraging influence and build relationship for organizations throughout the globe.

Degree Program

Upon completion of the University Baccalaureate and major requirements in the Department of Public Relations and Strategic Communication, students can earn a Bachelor of Science degree in Public Relations and Reputation Management. The Public Relations and Reputation Management major requires the completion of a minimum of 50 credits beyond the general education requirements, 24 of which must be upper-division.

The B.S. in Public Relations and Reputation Management is designed to champion ethical influence and to develop leaders. Equipping students to create engaging and innovative communication strategies, our program prepares leaders to be ethical counselors and relational artisans for organizations. Throughout each of the courses, students will be challenged to integrate their faith alongside their calling, recognizing that the work of public relations is a sacred space that brings together a powerful blend of communication, relationship management, strategic leadership, and creative innovation to leverage ethical influence for the good of society and culture.

Distinctives of the program are:

- The B.S. in Public Relations and Reputation Management is offered entirely online. Designed for flexibility, courses are offered throughout the year and are completely online, allowing for working professionals...
and those with busy schedules to be able to fully invest in their future no matter what their scheduling needs.

- Our program is highly invested in mentorship and personal networking. Students will have the opportunity to develop connections with peers and faculty throughout the program, as well as public relations professionals, equipping them to graduate with a strong professional network.
- This program blends theory and practice, meaning that in each class students are not only learning the foundational constructs and background for how public relations works - they are also applying this knowledge to projects with real-world clients. Students in our program have the potential to graduate with multiple portfolio pieces from clients, allowing them to showcase their expertise for future employers.

### Pre-Professional Study Opportunities
In addition to the numerous media opportunities available as part of the Department of Public Relations and Strategic Communication, public relations students have the opportunity to immerse themselves in activities uniquely designed to enhance their expertise.

#### Public Relations Society of America (PRSSA)
The Public Relations Student Society of America (PRSSA) is a nationally recognized association. Biola’s chapter of PRSSA is designed to enhance pre-professional skills and prepare students in the field of business, communications and public relations for their future careers. Biola PRSSA provides networking opportunities, workshops and events that encompass this goal as well as keeping community within our own chapter and chapters around the nation. With strong connections to the professional chapters of PRSA within Los Angeles and Orange County, our students regularly attend networking events and workshops designed to enhance PR expertise and the personal brands of our students.

**6th Street Public Relations**
Biola’s student-run PR firm, 6th Street PR, is nationally affiliated through the Public Relations Student Society of America. With about 40 schools having student-run firms that have achieved this status, Biola’s students have the opportunity to work with real-world clients on strategic public relations initiatives. Building portfolio pieces and leadership experience, 6th Street PR provides experiential learning right on campus for students who want to dive deeper into the world of PR.

### Learning Outcomes

#### Program Learning Outcomes
Upon completion of the Public Relations and Reputation Management, B.S., students will be able to:

1. Identify and discuss elements of leadership with the aptitude expected of entry level professionals in the public relations industry (ULO 1).
2. Design a definition of public relations that is reflective of their worldview and ethical framework (ULO 2).
3. Create public relations initiatives based on industry best-practices and principles (ULO 3).
4. Develop a personal brand expected of entry level professionals (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

### Requirements

#### Senior Portfolio Review and Certificate
All students in the Department of Public Relations and Strategic Communication are expected to complete a portfolio review as well as the Certificate in Principles of Public Relations examination prior to graduation.

The portfolio consists of the student’s best work, completed through internships during the time they have been enrolled in the major. The review will be completed by a committee of full-time faculty (with input from a professional outside of the institution) as well as by the instructor for the Senior Portfolio and Certificate course during the selected semester.

The student’s portfolio will be rated for competency or non-competency. Competent work can also be rated as exemplary. Students whose portfolio does not earn at least a competency rating must re-submit their portfolio to the Review Committee or retake the Senior Portfolio and Certificate course (if the grade requires such).

Also as part of the graduation requirements as well as the Senior Portfolio and Certificate course, students will prepare and complete the Certificate in Principles of Public Relations examination.

#### Internship
Internship, comprising a total of 3 credits, is required for graduation in the Public Relations and Reputation Management major. Students will complete the 1-credit course, PREL 344 Media and PR Internship, as well as the 2-credit course, PREL 444 Advanced Internship & Career Preparation. Students may take PREL 344 multiple times to complete more internships for credit. Students, guided by their academic advisor, are encouraged to pursue other (non-credit) internships to gain as much hands-on experience as possible before their senior year. Students must take the internship courses as ordered by prerequisites, but internships (for credit or for non-credit) may be completed any semester or during the summer under supervision of department faculty, guided by stipulations of the internship packet.

No more than 6 credits of Internship may be applied toward major requirements. Total directed research and special topic workshop credits may not exceed 9 credits.

### General Requirements
All Public Relations majors must earn a minimum grade of ‘C’ in all major courses taken at Biola. Anyone receiving a lower grade must repeat the course and earn a ‘C’ or better. The total number of credits for major area credit from practicum, internship and directed research may not exceed 9 credits. All Public Relations majors are required to take a Biblical Studies Integration Seminar (PREL 465) for Bible credit.

Total Credits 50

1. 3+1 B.S. students may use PBRL 500 to meet the PREL 462 requirement.
2. 3+1 B.S. students may use PBRL 660 to meet the PREL 465 requirement.

3+1 B.S. or B.A. to M.A. Program

The 3+1 program allows students to move at an accelerated pace through their undergraduate and graduate programs. Students who want to be admitted to the 3+1 program would apply after completing their 100-level courses in the major (PREL 104/PREL 105, PREL 107, PREL 110/PREL 111). Based on the application, reviewed by a faculty committee, students will be qualified to enter the 3+1 program.

Students who are accepted must meet the following standards:

- Students must maintain a 3.8 GPA in their undergraduate B.A. in Public Relations and Strategic Communication or B.S. in Public Relations and Reputation Management.
- Students must earn an A in the following courses: PREL 107, PREL 360, PREL 388/PREL 389.
- In addition, students in the 3+1 program will enroll in PBRL 500 (cross-listed with PREL 460 (B.A.)/PREL 462 (B.S.) and PBRL 660 (cross-listed with BBST 465 (B.A.)/PREL 465 (B.S.). Students must earn an A in these courses, as well as completing any additional assignments and work required.
- Also, students will be required to pass an advanced portfolio review of their work form these courses. The portfolio requirements and rubrics used to assess are available in the 3+1 information packet students receive when considering application to the program. The student portfolio pieces must meet competency, based on that rubric, in order to qualify for the 3+1 program.
- Students must still apply and be accepted as a student into the M.A. in Public Relations and Reputation Management, meeting all the requirements and standards of other graduate applicants.

When students meet the above criteria, they will be able to advance into the M.A., with an ultimate graduate credit total of 33. Students accepted into the M.A. from the 3+1 program will have already completed 6 graduate credits (PBRL 500 and PBRL 660) during their time in the undergraduate program.

While all students in the B.A. and B.S. programs in the Department of Public Relations and Strategic Communication are able to apply to the 3+1 program, there are certain concentrations and degrees that align more strongly to the curricular requirements of our 3+1 program. Students in the B.A. in Public Relations and Strategic Communication degree who are in the Advertising or Digital Management and Social Media concentrations or students in the B.S. in Public Relations and Reputation Management will have advanced competencies in digital communication, based on their degree requirements of PREL 107, PREL 307, and PREL 420. Students in these degrees and concentrations who also maintain an A in PREL 307 and PREL 420, as well as any additional assignments for 3+1 students in the courses, will be able to waive PBRL 560 in their graduate work. These students will be able to advance into the M.A., reduced to 30 credits, as they will have already completed 6 graduate credits (PBRL 500 and PBRL 660) during their time in the undergraduate program.

Students who are not in the B.A. in Public Relations and Strategic Communication degree/Advertising or Digital Management and Social Media concentrations or students in the B.S. in Public Relations and Reputation Management are able to pursue getting PBRL 560 also waived if: They gain approval from the 3+1 adviser in the department and they decide to take PREL 420 as an additional course during their undergraduate time, meeting the grade requirements as well as the additional work for 3+1 students in PREL 420.

For course sequencing in the 3+1 program, contact the department for advising.
Studio Art, B.F.A.

Mission
The Department of Art is a vibrant community of artists and scholars who integrate faith and creative practice. Through an innovative and rigorous curriculum, we cultivate a student’s ability to create and critically evaluate complex works of art in a mentoring environment. We foster curiosity through established and experimental mediums, methods, and theoretical perspectives.

Degree Program
A Bachelor of Fine Arts degree in Studio Art (B.F.A.) is offered upon completion of the University baccalaureate and the studio art major in one of the following concentrations: animation (pending NASAD approval), design, illustration (pending NASAD approval), painting, photography, sculpture and interdisciplinary. The professional degree program requires students to complete 72 credits in art, preparing them for graduate studies and professional art practices.

Learning Outcomes
Program Learning Outcomes
Upon completion of the Bachelor of Fine Arts in Studio Art, students will be able to:

1. Conceive, design and create works of art in one or more specific fine arts fields that are technically and conceptually sophisticated (ULO 1).
2. Recognize, analyze, compare and evaluate historical and contemporary art movements and aesthetic philosophies, including both Western and Global material (ULO 1).
3. Recognize and identify a variety of professional practices, career/employment and graduate education opportunities and apply that knowledge by developing a personalized career plan (ULO 3).
4. Articulate a clear rationale for the production and evaluation of contemporary visual art that reflects an orthodox Christian value system (ULO 2).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements
Admissions and Program Requirements
The Department of Art has an open admissions policy. Incoming first-year students and transfer students from other institutions may declare an art major when they apply for admission to Biola University. Because of the rigorous schedule and amount of work required in the B.F.A. degree program, transfer students and Torrey Honors Institute students may need an additional semester to complete all of their requirements.

The Department of Art offers three degree programs. The Bachelor of Fine Arts in Studio Art is a professional degree program focusing on intensive studio practice and requiring an area of concentration; the B.F.A. is the preferred degree for students who anticipate having an art-related career, or who are planning to attend graduate school. The Bachelor of Science Degrees in Art and in Design contain a broader range of liberal arts general education courses, and allow students the option of choosing a wide range of general electives. The two B.S. degrees also allow greater flexibility for students completing a double major or a minor in another academic discipline.

Every year, all art majors participate in formal reviews to evaluate their progress in the department. Student portfolios are appraised using a variety of criteria, such as technical achievement, creative problem solving, and aesthetic/artistic development. Reviews are conducted at the end of the freshman, sophomore and junior years. Graduating seniors in the B.F.A. program are evaluated the semester before their thesis exhibitions.

All art majors are required to maintain a 2.5 GPA in the program. Any grade below a ‘C-’ (1.67) must be repeated.

In art and design studio classes, contact hours define the meaning of a credit hour. In these courses, one semester hour of credit equals two hours of class instruction with at least one additional hour of unsupervised laboratory work each week. Studio courses receiving three credits typically meet six hours a week for class instruction with the expectation that students complete an additional three hours of assigned laboratory work. Students taking ARTS 462 or ARTS 464, and independent studies, must complete a minimum of three hours of research/laboratory work each week during the semester for one hour of credit.

All B.F.A. majors must declare an area of concentration before registering for the sophomore year. Students declaring the Interdisciplinary Concentration must choose two specific areas of concentration (design, painting, photography, or sculpture).

It is recommended that all Art majors own a Macintosh laptop. Contact the Department of Art office for recommended specifications.

Concentrations
The BFA major is designed to give art students flexibility in constructing their program which will include one of seven areas of concentration.

The Animation Concentration (pending NASAD approval) focuses on equipping students with central skills in the discipline of animation to prepare them for professional outcomes in the entertainment industry.

The Design Concentration integrates a fine arts perspective into a curriculum that promotes conceptual thinking and transdisciplinary investigation while developing technical proficiencies to engage a contemporary practice.

The Illustration Concentration (pending NASAD approval) develops students’ proficiencies in commercial applications of drawing, painting, and digital forms, as a means to prepare them for professional outcomes in various industries.

The Painting Concentration focuses on a wide range of painting practices including observational representation, figuration, and abstraction while engaging students in current discourses within the discipline.

The Photography Concentration focuses on integrating the skills of black and white darkroom techniques with contemporary digital color practices to produce conceptually-driven, photo-based art.

The Sculpture Concentration equips students to think creatively while developing proficiency in a variety of three-dimensional fabrication techniques — including additive and subtractive processes, modeling, carving, mold-making and casting.
The Interdisciplinary Concentration allows students to develop their interests in two of the above concentrations by combining key courses from each into a focused interdisciplinary concentration.

**Program-Specific Core Curriculum Courses**
Core Curriculum requirements for the Bachelor of Fine Arts in Studio Art must conform to the University standards for this degree. B.F.A. majors are exempt from the Core Curriculum requirements in fine arts and foreign language. The Core Curriculum requirement is reduced in history (only 3 of 6 credits are required — HIST 200 or HIST 201).

The following Core Curriculum courses have been designed for all art majors and are required for the Bachelor of Fine Arts degree:

- PHIL 216: Introduction to Philosophy and Aesthetics
- BBST 465: Integration Seminar (should be taken as 'Contemporary Art and Theology')

</tr>
</tbody>
</table>

Select one of the following:

- ARTS 307  Drawing II
- ARTS 408  Drawing III
### Studio Art, B.F.A.

#### Course Sequence

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

- Animation (p. 338)
- Design (p. 338)
- Illustration (p. 339)
- Interdisciplinarity (p. 339)
- Painting (p. 340)
- Photography (p. 340)
- Sculpture (p. 341)

Theatre, B.A.

Mission
The mission of the Bachelor of Arts in Theatre is to produce committed
Christian graduates who are prepared to express, represent, and
dramatize insights and ethical messages in performances. They illustrate
through acting, directing, design, and criticism insightful interpretations
of dramatic literature in performance, both popular and religious. These
graduates demonstrate proficiency in both theory and praxis of the
theatre arts discipline.

Degree Program
Upon completion of the University baccalaureate and major requirements,
the Biola Conservatory offers the Bachelor of Arts degree in Theatre.
Obtaining a degree with this major requires 44 to 54 credits, depending on
the concentration chosen.

Learning Outcomes
Program Learning Outcomes

Upon completion of the Bachelor of Arts in Theatre, students will be able to:

1. Demonstrate accurate critical analysis through the presentation of
oral and written critiques of texts and performances (ULO 1).
2. Identify and describe where and how the theatrical arts compliment, mirror, and are informed by biblical values and content (ULO 1, ULO 2).
3. Exhibit collaborative skills as members of a team in the creation of artistic endeavors (ULO 2).
4. Demonstrate knowledge of theatre history and literature, applying connections between theatrical practices and social contexts (ULO 2).
5. Integrate research and critical thinking skills towards excellence in preparation and presentation (ULO 3).
6. Apply experiential training in the art and business of the theatre production process, in the classroom and on stage (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Writing Competency Requirement

Every Biola student must fulfill the Writing Competency Requirement (WCR). Students fulfill the WCR by passing ENGL 313 with a C+ or better. If they fail to meet this requirement, they must consult with their major advisor for an alternative WCR pathway. For more information, see the section titled 'Writing Competency Requirement' under the Admission, Enrollment and Graduation Requirements (p. 25) section.

Curriculum Requirements

Under this major, students may choose from the four concentrations detailed below.

Acting for Stage and Screen

Students may choose a concentration in Acting for Stage and Screen with the completion of 50 credits (maximum 21 lower-division credits and 29 upper-division credits).

THTR 241 | Intro to Technical Theatre | 4
THTR 264 | Beginning Acting | 3
THTR 309 | Production Practicum III | 1
THTR 350 | Theatre History II | 3
THTR 353 | Textual Analysis | 3
THTR 369 | Intermediate Acting | 3
THTR 391 | Stage Managing and Directing Theatre | 3
THTR 405 | Dramatic Theory and Criticism | 3
THTR 409 | Production Practicum IV | 1
THTR 419 | Dramatic Design | 3

Elective Courses: Select 9 credits from the following (3 lower-division, 6 upper-division)

THTR 120 | Voice and Speech for the Actor | 3
THTR 215 | Makeup for Stage and Screen | 3
THTR 264 | Beginning Acting | 3
THTR 369 | Intermediate Acting | 3
THTR 410 | Advanced Topics in Theatre | 3
THTR 435 | Playwriting for Performance | 3
THTR 463 | Advanced Acting Workshop | 3
THTR 477 | London Theatre Study Tour | 3
COMM 470 | Communication Seminar | 3

**Elective Courses: Select 6 credits from the following: (3 lower-division, 3 upper-division)**

THTR 215 | Makeup for Stage and Screen | 3
THTR 232 | Costume Study and Construction | 3
THTR 345 | Lighting and Sound for Theatre | 3
THTR 391 | Stage Managing and Directing Theatre | 3
THTR 405 | Advanced Theory and Criticism | 3
THTR 410 | Advanced Topics in Theatre | 3
THTR 419 | Dramatic Design | 3
THTR 435 | Playwriting for Performance | 3
THTR 463 | Advanced Acting Workshop | 3
THTR 477 | London Theatre Study Tour | 3
COMM 470 | Communication Seminar | 3
Additional electives from CNMA, JOUR, PREL, COMM, and THTR by arrangement. Contact the Theatre department for advising.

## Course Sequence

**NOTE:** The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

- Acting for Stage and Screen (p. 344)
- Musical Theatre (p. 344)
- Production (p. 345)
- Theatre Design and Technology (p. 345)

**Worship Arts, B.M.**

**Degree Program**

The Bachelor of Music degree in Worship Arts is offered upon completion of the University baccalaureate and major requirements. The major requirements include completing 64 credits.

Students interested in pursuing the Worship Arts degree must demonstrate commitment to the pursuit of spiritual growth, musical excellence, and theological understanding.

**Special Programs/Opportunities**

**Ensembles**

The Conservatory provides opportunities for experience in several types of vocal and instrumental ensembles, including Worship and Popular music Ensembles, the Jazz Ensemble, Vocal Jazz Ensemble, Biola Chorale, Symphony Orchestra, Symphonic Winds, Women's Chorus, Men's Chorus, and Chamber Music Ensembles. All are open to Worship majors by audition. In addition, Worship majors may audition to lead worship in the Chapel Bands program.

**Concert Series**

The Conservatory concert series features outstanding classical guest artists as well as commercial musicians drawn from the recording industry.

**Masterclasses and Artist-in-Residence Program**

Opportunities for participating in masterclasses with guest artists are available annually. Of special note is the ongoing series of masterclasses and recitals by world-renowned artists, including Menahem Pressler, pianist, Artist-in-Residence.

**Local Opportunities**

The Southern California area provides exceptional opportunities for hearing the world’s leading artists, visiting diverse African-American, Latina, and Korean congregations, and visiting numerous churches and denominations of varying sizes. A unique Worship Forum with specially invited artists, clinicians, song writers, and worship pastors, drawn from the Los Angeles area, occurs weekly.

**Service and Internship Opportunities**

Volunteer and paid church positions are available for undergraduate Worship majors. Junior and Senior Worship majors experience a formal internship where they received hands-on mentoring.

**Scholarships**

Music awards in varying amounts are available to qualified students. Complete information is available by emailing music@biola.edu or by writing:

Director, Conservatory of Music
Biola University
13800 Biola Avenue
La Mirada, CA 90639-0001

**Learning Outcomes**

**Program Learning Outcomes**

Upon completion of the Bachelor of Music in Worship Arts, students will be able to:

1. Apply historical and theoretical understanding to the analysis of musical forms, processes, and structures found in masterpieces from the western art music tradition (ULO 1).
2. Describe how they intend to integrate their faith in their anticipated future professional activities (ULO 2).
3. Demonstrate basic musicianship skills in sight-singing, dictation, conducting, voice and piano (ULO 2).
4. Evaluate basic form, harmony, meter, rhythm, voice-leading and developmental techniques found in excerpts and entire pieces from the Western art music tradition, and will experiment with writing music in the same style (ULO 3).
5. Apply their stylistic, theoretical, interpretive and technical skills and understanding to create and perform personal, communicative performances on their primary instrument (ULO 3).
6. Demonstrate how they will connect mind and heart in order to provide spiritual leadership within the local church (ULO 3).
7. Demonstrate their ability to use contemporary music theory practices and worship-chart vocabulary by writing ‘take-down’ transcriptions and professional charts (ULO 3).
8. Demonstrate preparedness for the worship music field by addressing their personal philosophy of worship, demonstrated musical skills, and ability to effectively communicate with a congregation and church leadership (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

**Requirements**

**Admission Requirements**

All students seeking admission must demonstrate musical background and performance strengths necessary for successful completion of the stated curriculum. Admission into Biola University does not guarantee admission into the Conservatory as a music major. A student will be admitted to the Conservatory of Music after:

1. Meeting requirements for University admission.
2. Completing a Conservatory application with the required number of references.
3. Completing a Conservatory audition, including a basic musicianship examination designed to demonstrate university level music study readiness.
After acceptance and upon entrance, students will be given placement examinations and auditions in music dictation, keyboard skills and performance. These examinations are given for the purpose of validating prior study and determining proper placement in music courses. Specific information concerning the content of these examinations and suggestions for preparation are available by contacting the Conservatory Office.

**Transfer of Credit/Advanced Standing**

With the exception of courses in music theory, sight-singing and dictation, keyboard skills, and individual performance, courses taken at other regionally accredited colleges and universities in the United States will be accepted on a comparable course basis.

Prior study in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance will be validated through placement examinations.

Advanced standing may be gained through placement examinations in the areas of music theory, sight-singing and dictation, keyboard skills, and individual performance; however, no credit(s) will be given for waived courses. Waiver of courses on the basis of placement examinations without comparable prior course credit will increase elective credits required.

Credit for courses taken at a non-accredited college or university will be granted only through placement or challenge examinations.

**Applied Music**

In order to graduate, music students must reach primary applied proficiency level standards designated for each degree program. Applied Music lessons are guided by faculty or studio artists who have expertise and professional experience in the voice or instrument under study. Studio artists are affiliated with Biola via independent contracts and thus do not undergo the same process for hire as do faculty. The studio artists are all highly competent individuals who appreciate Biola and endorse the goals of the Conservatory, but their theological conceptualization has not undergone the same close review as that of the faculty. For more information, see the Conservatory Office.

**GPA Requirements**

Students in the degree program must maintain a 2.0 GPA in the major and receive a minimum grade of ’C’ in each required course.

**Integration Seminar Requirement**

Students enrolled in the Bachelor of Music degree program are required to take BBST 465 as ‘Redeeming Culture through Music’ (this course fulfills the integration seminar Bible requirement).

**Elective Courses**

Select courses based on a Specialization listed below:

- **Guitar Specialization**
  - MUSC 130 Advanced Guitar Class I
  - MUSC 134 Advanced Guitar Class II

Select 2 credits of music or non-music electives:

- **Keyboard Specialization**
  - MUSC 369 Survey of Contemporary Keyboard Styles and Techniques

Select 2 credits of music or non-music electives:

- **Vocal Specialization**
- **Ensemble Courses**

Select 2 credits from the following courses:

- MUSC 001 Biola Chorale
- MUSC 012 Women’s Chorus
- MUSC 014 Men’s Chorus
- MUSC 013 Worship and Popular Music Ensemble

**Proficiency Courses**

The following proficiencies are required in order to complete the program:

- Keyboard proficiency equivalent to three semesters of piano class:
  - MUSC 119 Keyboard III
Guitar proficiency equivalent to one semester of guitar class:
MUSC 104 Guitar Class

Voice proficiency equivalent to one semester of voice class, or one semester of private voice:
MUSC 102 Voice Class
MUSC 145 Applied Music

Total Credits 64

1 Must be taken for a total of 6 credits.
2 Must be taken for a total of 4 credits.
3 Must be taken for a total of four semesters.

Course Sequence

NOTE: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (p. 40) for a list of approved Core Curriculum courses.

Worship Arts, B.M.

First Year
Fall Credits Spring Credits
BBST 103 or 165 3 BBST 103 or 165 3
Music 9 BBST 209 or 210 3
ENGL 100 or 112 3 Music 6
GNST 102 1 Science (see Core Curriculum) 3
MATH 121 1

Total Credits 32

Second Year
Fall Credits Spring Credits
BBST 209 or 210 3 BBST 251 3
Music 8 Music 9
Communication (see Core Curriculum) 3 HIST 100 or 101 3
KNES 107 1

Total Credits 14 16

Third Year
Fall Credits Spring Credits
BBST 354 3 BBST 365 3
Music 10 Music 7
HIST 200, 201, or POSC 225 3 Behavioral Science (see Core Curriculum) 3
Writing Competency Requirement MATH 122 1
KNES Activity (see Core Curriculum) 1

Total Credits 16 15

1 A B.M. degree requires only 5 credits of math/science, so it is possible you will not need to take all three of the MATH 121/122/123 classes.

Applied Music Minor

Curriculum Requirements

For students in a Music major who are interested in a formal, cohesive study in a secondary instrument or voice, the Applied Music minor is available. The Applied Music minor requires 20 credits.

Art History Minor

Mission

The Department of Art is a vibrant community of artists and scholars who integrate faith and creative practice. Through an innovative and rigorous curriculum, we cultivate a student’s ability to create and critically evaluate complex works of art in a mentoring environment. We foster curiosity through established and experimental mediums, methods, and theoretical perspectives.

Minor Requirements

An Art History Minor is offered with the completion of 18 credits.

Public Relations and Reputation Management, M.A.

Mission
The Master of Arts in Public Relations and Reputation Management develops competitive communication leaders who are positioned to influence culture through a biblically centered public relations education focused on cultivating ethical courage, strategic creativity and digital media leadership.

Degree Program
The Master of Arts in Public Relations and Reputation Management is offered with specializations in:

- Digital Management (p. 351)
- Leadership (p. 353)
- Media Ethics (p. 354)
- Strategic Communication (p. 355)

Public Relations and Reputation Management, M.A. (Digital Management)

Mission
The Master of Arts in Public Relations and Reputation Management develops competitive communication leaders who are positioned to influence culture through a biblically centered public relations education focused on cultivating ethical courage, strategic creativity and digital media leadership.

Program Description
In an age of disinformation, there is a growing need for trustworthy voices — ethical counselors who can advise stakeholders and craft messaging that inspires trust. Biola's Master of Arts in Public Relations and Reputation Management is designed to equip students to lead the way in building strategic, mutually beneficial relationships between organizations and the public.

The Master of Arts in Public Relations and Reputation Management matches academic rigor with practical application — forming the way you develop strategies, communicate and understand your work.

- Leadership Development. Practical, professionally oriented coursework equips you to enhance your leadership capabilities. Your
studies culminate in a capstone project centered on applying you learning within public relations-specific positions.

- **Ethics Emphasis.** Go beyond considering how to ethically engage to ask why. As you integrate Christina perspective on human identity and work, you’ll see public relations as an opportunity to serve — a perspective that drives decision-making.

- **Relational Investment.** Small class sizes and community intentionality promote meaningful connections between faculty and students, creating relationships that will challenge you to excel professionally and academically.

- **Established Reputation.** Learn from award-winning faculty in a respected public relations program. Biola Public Relations has been nationally recognized for its student publications and initiatives and has created a legacy of motivated, high-achieving alumni.

- **Online Flexibility.** Biola’s Master of Arts in Public Relations is offered entirely online, empowering you to complete an advanced executive education from anywhere in the world in as few as 12 months.

### Learning Outcomes

#### Program Learning Outcomes

Upon completion of the Master of Arts in Public Relations and Reputation Management, students will be able to:

1. Students critique public relations leadership practices derived from ethical obligation within the profession (ULO 1).
2. Students will compare and contrast public relations practices from a judeo-christian perspective (ULO 2).
3. Students will create public relations initiatives based on industry best-practices using principles expected of management within their specialization (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

### Requirements

#### Admission Requirements

Admission into the M.A. in Public Relations and Reputation Management is competitive and based upon a committee review of each applicant’s fulfillment of the following requirements. Applicants must:

- Be a committed follower of the Lord Jesus Christ.
- Have an undergraduate degree from an accredited institution, holding at least a 3.0 GPA.

Students with non-traditional educational journeys and robust work experience are encouraged to apply.

- Preferably have professional experience when admitted to the program.
- A GRE score is not required for admission but will be considered if submitted.

#### 3 + 1 Program (B.S. or B.A. to M.A.)

Applicants who have received their Accreditation in Public Relations (APR) are able to reduce 3 credits of work (PREL 500), as it is a foundations course which addresses the competencies required to receive the APR. To receive this, applicants must submit official confirmation of their APR from the Universal Accreditation Board (UAB) with their application. When official documentation is verified, students will be able to complete the remaining units in order to earn their degree.

- Applicants who graduate from Biola with either a B.S. or B.A. in public relations are eligible for an M.A. of 30 credits based on set standards.
- Applicants who received a B.A. in Public Relations, or a B.A. in Journalism & Integrated Media, with a concentration in PR, may receive the 30-credit M.A. if they:
  - Are within 5 years of graduating with their B.A., and completed their program by Spring 2020.
  - Maintained a 3.8 in the PR program.
  - Maintained a 3.8 but are outside of this window for application may request a review of their records for consideration by a committee for the reduction.
- Applicants who graduate after Spring 2020, with either a B.A. in Public Relations, a B.A. in Public Relations & Strategic Communication, or a B.S. in Public Relations & Reputation Management may receive a 30-credit M.A. if they:
  - Are within 5 years of their graduation date.
  - Earned the Certificate in Principles of Public Relations.
  - Maintained a 3.8 in the program.

### Graduation Requirements

The Public Relations & Reputation Management M.A. has the following requirements:

- A common core of graduate courses (18 credits)
- Two courses within a particular concentration (6 credits)
- Two faith/discipline integration courses (6 credits)
- A capstone experience (3 credits)

A student must maintain a minimum 3.0 cumulative GPA, and no single grade lower than a ‘C’ to graduate and progress to any courses with a prerequisite.

### Calendar

The program utilizes three 15-week trimesters (Fall, Spring, and Summer). Each trimester is divided into two 7-week terms (for example, Fall Session A and Fall Session B). Students typically take one or two courses at a time in each 7-week section.

### Curriculum Requirements

Co-curricular requirement: Academic Strategy and Success module in the first 5 weeks of students’ first semester.

Program Description
In an age of disinformation, there is a growing need for trustworthy voices — ethical counselors who can advise stakeholders and craft messaging that inspires trust. Biola’s Master of Arts in Public Relations and Reputation Management is designed to equip students to lead the way in building strategic, mutually beneficial relationships between organizations and the public.

The Master of Arts in Public Relations and Reputation Management matches academic rigor with practical application — forming the way you develop strategies, communicate and understand your work.

- **Leadership Development.** Practical, professionally oriented coursework equips you to enhance your leadership capabilities. Your studies culminate in a capstone project centered on applying you learning within public relations-specific positions.
- **Ethics Emphasis.** Go beyond considering how to ethically engage to ask why. As you integrate Christina perspective on human identity and work, you’ll see public relations as an opportunity to serve — a perspective that drives decision-making.
- **Relational Investment.** Small class sizes and community intentionality promote meaningful connections between faculty and students, creating relationships that will challenge you to excel professionally and academically.
- **Established Reputation.** Learn from award-winning faculty in a respected public relations program. Biola Public Relations has been nationally recognized for its student publications and initiatives and has created a legacy of motivated, high-achieving alumni.
- **Online Flexibility.** Biola’s Master of Arts in Public Relations is offered entirely online, empowering you to complete an advanced executive education from anywhere in the world in as few as 12 months.

Learning Outcomes

Program Learning Outcomes
Upon completion of the Master of Arts in Public Relations and Reputation Management, students will be able to:

1. Students critique public relations leadership practices derived from ethical obligation within the profession (ULO 1).
2. Students will compare and contrast public relations practices from a judeo-christian perspective (ULO 2).
3. Students will create public relations initiatives based on industry best-practices using principles expected of management within their specialization (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (p. 8) section of this catalog.

Requirements

Admission Requirements
Admission into the M.A. in Public Relations and Reputation Management is competitive and based upon a committee review of each applicant’s fulfillment of the following requirements. Applicants must:

- Be a committed follower of the Lord Jesus Christ
- Have an undergraduate degree from an accredited institution, holding at least a 3.0 GPA

Public Relations and Reputation Management, M.A. (Media Ethics)

Mission
The Master of Arts in Public Relations and Reputation Management develops competitive communication leaders who are positioned to influence culture through a biblically centered public relations education focused on cultivating ethical courage, strategic creativity and digital media leadership.
Students with non-traditional educational journeys and robust work experience are encouraged to apply.

- Preferably have professional experience when admitted to the program
- A GRE score is not required for admission but will be considered if submitted

3 + 1 Program (B.S. or B.A. to M.A.)
- Applicants who have received their Accreditation in Public Relations (APR) are able to reduce 3 credits of work (PREL 500), as it is a foundations course which addresses the competencies required to receive the APR. To receive this, applicants must submit official confirmation of their APR from the Universal Accreditation Board (UAB) with their application. When official documentation is verified, students will be able to complete the remaining units in order to earn their degree.
- Applicants who graduate from Biola with either a B.S. or B.A. in public relations are eligible for an M.A. of 30 credits based on set standards.
  - Applicants who received a B.A. in Public Relations, or a B.A. in Journalism & Integrated Media, with a concentration in PR, may receive the 30-credit M.A. if they:
    - Are within 5 years of graduating with their B.A., and completed their program by Spring 2020.
    - Maintained a 3.8 in the PR program.
    - Maintained a 3.8 but are outside of this window for application may request a review of their records for consideration by a committee for the reduction.
- Applicants who graduate after Spring 2020, with either a B.A. in Public Relations, a B.A. in Public Relations & Strategic Communication, or a B.S. in Public Relations & Reputation Management may receive a 30-credit M.A. if they:
  - Are within 5 years of their graduation date.
  - Earned the Certificate in Principles of Public Relations.
  - Maintained a 3.8 in the program.

Graduation Requirements
The Public Relations & Reputation Management M.A. has the following requirements:

- A common core of graduate courses (18 credits)
- Two courses within a particular concentration (6 credits)
- Two faith/discipline integration courses (6 credits)
- A capstone experience (3 credits)

A student must maintain a minimum 3.0 cumulative GPA, and no single grade lower than a ‘C’ to graduate and progress to any courses with a prerequisite.

Calendar
The program utilizes three 15-week trimesters (Fall, Spring, and Summer). Each trimester is divided into two 7-week terms (for example, Fall Session A and Fall Session B). Students typically take one or two courses at a time in each 7-week section.

Curriculum Requirements
Co-curricular requirement: Academic Strategy and Success module in the first 5 weeks of students’ first semester.

**School of Fine Arts and Communication Courses by Discipline**

**Course Descriptions**

- ARTS: Art (p. 358)
- COMM: Communication Studies (p. 363)
- JOUR: Digital Journalism and Media (p. 365)
- MUSC: Music (p. 370)
- PBRL: Public Relations and Reputation Management (p. 378)
- PREL: Public Relations and Strategic Communications (p. 379)
- THTR: Theatre (p. 382)

**ARTS: Art Courses**

The Department of Art is accredited through the National Association of Schools of Art and Design (NASAD).
ARTS 116 - History of Western Art I: Prehistoric Through Renaissance  Credits 3
The first of a two-part survey of Western visual art and architecture, this course explores the ancient origins of Western art as well as its expressions in the Medieval and Renaissance periods. Works of art are discussed in terms of style, meaning and social context.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $30.

ARTS 126 - History of Western Art II: Baroque through Modernism  Credits 3
The second of a two-part survey of Western visual art and architecture, this course explores the great contributions to this tradition from the seventeenth century through the mid-twentieth century. Works of art are discussed in terms of style, meaning, and social context.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $30.

ARTS 210 - Sculpture I  Credits 3
Introduction to the methods, materials, tools of sculpture and general concepts of sculptural form. Core Curriculum: Approved for Core - Fine Arts.  Grade Mode: A.  Prerequisite(s): ARTS 116.  Restriction(s): Must be Undergraduate Level.  Course Fee: $90.

ARTS 211 - Ceramics I  Credits 3
An introduction to basic hand building and wheel throwing techniques. Formulation of basic glaze applications and ceramics firing processes are emphasized. Core Curriculum: Approved for Core - Fine Arts.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $100.

ARTS 213 - Painting I  Credits 3
An introduction to basic color theory and oil painting techniques. Emphasis on observational representation including still-life, landscape and figure. Core Curriculum: Approved for Core - Fine Arts.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $120.

ARTS 215 - Idea and Image  Credits 3
This course is an introduction to the foundational elements of image making. We will study the visual fundamentals by investigating visual principles and their relationship to meaning and language, concept and content, intention and audience.  Note(s): Studio (6 hours per week).  Grade Mode: A.  Restriction(s): Must be Art (ARTS); and Undergraduate Level.

ARTS 217 - Typography I  Credits 3
An introduction to a typographic practice which incorporates the technical craft of the discipline with the expression of the medium. The forms of letters, words and paragraphs will be used to study the basic principles of typography, while also considering its performance, aesthetics and behavior.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $100.

ARTS 220 - Professional Practices  Credits 3
An introduction to the concepts, skills and tools necessary to develop a professional art/design practice.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $90.

ARTS 221 - Photography I-Introduction to Darkroom and Digital Processes  Credits 3
A survey of contemporary art photography, introducing the practices of darkroom, digital, black and white, and color photography, with an emphasis on technical and conceptual aspects. Core Curriculum: Approved for Core - Fine Arts.  Note(s): Highly recommended that students own or have access to both 35mm film and digital SLR cameras.  Grade Mode: A.  Restriction(s): Must be Undergraduate Level.  Course Fee: $150.

ARTS 234 - Ceramics II  Credits 3
Continued individual development in all areas of ceramics. Introducing vessel construction from hand-built techniques, low fire glaze applications and an introduction in firing the kilns.  Grade Mode: A.  Prerequisite(s): ARTS 211.  Restriction(s): Must be Undergraduate Level.  Course Fee: $100.

ARTS 236 - Elementary Art Workshop  Credits 3
Developing and preparing art assignments suitable for elementary school pupils.  Grade Mode: A.  Prerequisite(s): LEDU 301.  Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level.  Course Fee: $90.

ARTS 305 - Sculpture II  Credits 3
Emphasizes sculptural aesthetics and appropriate technology. Focus on formulating a conceptual and technical basis for work.  Grade Mode: A.  Prerequisite(s): ARTS 210.  Restriction(s): Must be Undergraduate Level.  Course Fee: $100.

ARTS 306 - Drawing II  Credits 3
Exploration of the overlapping relationships of traditional and experimental methods of drawing to include processes, tools and surfaces. Concentration on issues of formal, narrative and symbolic development with emphasis placed on finished works of art.  Grade Mode: A.  Prerequisite(s): ARTS 107 or ARTS 108.  Restriction(s): Must be Undergraduate Level.  Course Fee: $100.

ARTS 307 - Painting II  Credits 3
Introduction to non-representational acrylic painting techniques. Emphasis on issues of color and design as applied to organic, geometric and pattern abstraction.  Grade Mode: A.  Prerequisite(s): ARTS 213.  Restriction(s): Must be Undergraduate Level.  Course Fee: $120.

ARTS 311 - Modernity: Realism to Surrealism  Credits 3
The history of painting, sculpture and architecture from 1850 to 1940. Major aesthetic issues that shaped 20th century art and influenced the early 21st century will be examined.  Grade Mode: A.  Prerequisite(s): ARTS 126.  Restriction(s): Must be Undergraduate Level.  Course Fee: $50.
ARTS 314 - Integrated Design I
This course is an introduction to the formal and functional elements of design. We will study the visual fundamentals by investigating the principles of composition, visual hierarchy, and explore form-making methodologies that will serve as a foundation to an art-making practice. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 315 - Contemporary Art Trends
A study of art produced since World War II, focusing on current movements within the international art community. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $120.

ARTS 316 - Photography II-Studies in Color
A studio exploration of color photography using digital and film techniques. Emphasis placed on color theory, contemporary issues, and the technical skills of artificial lighting and professional digital printing workflow. Note(s): Highly recommended that students own or have access to digital SLR camera. Grade Mode: A.
Prerequisite(s): ARTS 221.
Restriction(s): Must be Undergraduate Level.
Course Fee: $120.

ARTS 319 - Figure Studies II
Extensive investigation of the figure. Emphasis is placed on a broad approach to understanding and interpreting the human figure. Grade Mode: A.
Prerequisite(s): ARTS 108.
Restriction(s): Must be Undergraduate Level.
Course Fee: $60.

ARTS 321 - History of Design
This course is a critical survey of the development of design and illustration from early modernism to the contemporary. The evolution of these disciplines will be considered through their relationship with politics, culture and technology. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 324 - Illustration I
This course explores visual messaging through the investigation of materials and their native forms. Ideas of visual representation, expression and communication will be addressed from various perspectives. Note(s): Studio (6 hours per week). Grade Mode: A.
Prerequisite(s): ARTS 215
Restriction(s): Must be Art (ARTS); and Undergraduate Level.

ARTS 326 - Printmaking
An introduction to the history, principles and techniques of printmaking such as relief, letterpress, intaglio, monoprinting and alternative printing methods. Students will investigate print processes and materials in order to develop visual concepts and personal imagery. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $90.

ARTS 327 - Installation and Time-Based Art I
Interdisciplinary studio exploration in installation and performance studies. Course focuses on studio practice with an emphasis on the history of installation and performance art. Grade Mode: A.
Prerequisite(s): ARTS 112.
Restriction(s): Must be Undergraduate Level.
Course Fee: $90.
ARTS 341 - Animation I Credits 3
Interdisciplinary studio exploration in analog and digital animation. Course focuses on experimental and theoretical movement, and choreography systems investigating culture and identity. Grade Mode: A.
Prerequisite(s): ARTS 112, ARTS 330.
Restriction(s): Must be Undergraduate Level.
Course Fee: $90.

ARTS 344 - Contemporary Photographic Practices Credits 3
Advanced studio exploration in contemporary photographic trends, including mixed media, installation, collaboration and various new media. Note(s): Highly recommended that students own or have access to a digital SLR camera. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 348 - New Media Art I Credits 3
Exploration of new media art including formal, conceptual and narrative approaches. Emphasis on the use of new media as creative tools for personal expression. Note(s): Students are recommended to provide their own video cameras. Grade Mode: A.
Prerequisite(s): ARTS 112.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 352 - Installation and Time-Based Art II Credits 3
Advanced interdisciplinary studio exploration in installation art and performance art studies. Emphasis is placed on the architecture, choreography and psychology of body and space. Grade Mode: A.
Prerequisite(s): ARTS 327.
Restriction(s): Must be Undergraduate Level.
Course Fee: $90.

ARTS 354 - New Media Art II Credits 3
Advanced studio exploration in new media art. Emphasis placed on the history of video and film art. Note(s): Students are recommended to provide their own video cameras. Grade Mode: A.
Prerequisite(s): ARTS 348.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 356 - Art Therapy I Credits 3
An introduction to the theories, philosophy and practice of clinical art therapy. Topics include the history of art therapy, the role of art media in art therapy, utilization of the creative process in both diagnosis and treatment, as well as becoming familiar with post-bachelors steps such as graduate schools and professional requirements. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $60.

ARTS 401 - Seminar in Art History Credits 3
Individual or group study under faculty direction with an emphasis in art history, art theory and criticism. Note(s): Seminars may be taken multiple times for credit with different content for a total of 12 credits. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Additional Fee(s): May involve fee of $30-$60.

ARTS 405 - Seminar in Art History Credits 3
Gallery Practices introduces a variety of institutional models for 'the art gallery' and familiarizes students with a variety of careers in art galleries and museums through practical hands-on experience with curating, designing and installing art exhibitions. Grade Mode: A.
Prerequisite(s): ARTS 126 or ARTS 220 (may be taken concurrently).
Restriction(s): Must be Studio Arts (ARFA), Art (ARTS), or Studio Arts (ARRS); and Undergraduate Level.
Course Fee: $90.

ARTS 408 - Drawing III Credits 3
Extensive exploration in studio problems with emphasis on historical and current issues as they apply to individual direction and expression in drawing. Grade Mode: A.
Prerequisite(s): ARTS 307.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 410 - Seminar in Art Credits 1-6
Individual or group study under faculty direction with an emphasis in studio art and creative research. Note(s): Seminars may be taken multiple times for credit. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.
Additional Fee(s): May involve fee of $30-$60.

ARTS 413 - Painting III Credits 3
Extensive exploration in studio problems with emphasis on historical and current issues as they apply to individual direction and expression in painting. Grade Mode: A.
Prerequisite(s): ARTS 308.
Restriction(s): Must be Undergraduate Level.
Course Fee: $120.

ARTS 415 - Sculpture III Credits 3
Advanced sculptural concepts emphasizing individual development of style, aesthetic ideas, and continuation of media exploration. Grade Mode: A.
Prerequisite(s): ARTS 305.
Restriction(s): Must be Undergraduate Level.
Course Fee: $90.

ARTS 423 - Integrated Design II Credits 3
This course will explore and examine the notions of identity and systems as applied to communication design through the building of ideas and visual language. Using prescribed strategies, students will begin investigating creative processes that are informed through research, generating outcomes that communicate with specific intention and purpose. Grade Mode: A.
Prerequisite(s): ARTS 314.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.

ARTS 426 - History and Criticism of Photography Credits 3
A focused study on the movements, practitioners (both artists and inventors), and critical theories connected to the history of photography from its invention in the 19th century to the present day. Emphasis is placed on exploring photography’s enduring impact on the socio-political, philosophical, and cultural developments of the modern and post-modern era. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $60.
ARTS 428 - Web Design I
3 Credits
Exploration in studio problems with emphasis on the psychology of interactivity and interface design as they apply to individual direction and expression in web site production. Grade Mode: A.
Prerequisite(s): ARTS 109.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.
ARTS 429 - Integrated Design III
3 Credits
Students will cultivate their design practices by engaging advanced communication problems through the development of individual processes and the refinement of form. Grade Mode: A.
Prerequisite(s): ARTS 217, ARTS 423.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.
ARTS 430 - Global Art Paradigms
3 Credits
Investigation of non-western art and architecture in relationship to its currency within the global contemporary art scene. Emphasis is placed on the influence of major forms, functions and materials used by the peoples of Asia, Africa, Oceania and the Americas in regards to contemporary art. Grade Mode: A.
Prerequisite(s): ARTS 126.
Restriction(s): Must be Undergraduate Level.
Course Fee: $60.
ARTS 431 - Interdisciplinary Investigations
3 Credits
A cross-discipline studio and theory seminar focusing on individual and collaborative thematic investigations. Grade Mode: A.
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level.
Course Fee: $90.
ARTS 432 - Advanced Integrated Photography
3 Credits
Extensive exploration in studio problems with emphasis on historical and current issues as they apply to individual direction and expression in photography using either color and/or black and white photography. Grade Mode: A.
Prerequisite(s): ARTS 316, ARTS 334.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.
ARTS 433 - Global Art Paradigms
3 Credits
Studio course developing intermediate to advanced techniques in both digital and analog animation. Technical instruction in moving image strategies is accompanied by emphasis on concept, storytelling and creative communication. Note(s): Studio (6 hours per week). Grade Mode: A.
Prerequisite(s): ARTS 335, ARTS 341.
Restriction(s): Must be Art (ARTS) or Cinema and Media Arts (CNMA); and Undergraduate Level.
ARTS 440 - Senior Seminar
3 Credits
Senior-level cross-emphasis studio and theory investigation. Individual direction is navigated thorough critique and discourse. Grade Mode: A.
Restriction(s): Must be Senior Class; and Undergraduate Level.
Course Fee: $90.
ARTS 441 - Art Theory and Criticism
3 Credits
An intensive reading seminar focusing on writings that have influenced contemporary art criticism and theory. Course focuses on specific authors and/or themes that have impacted the production and discussion of art within the 21st century. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $90.
ARTS 442 - Web Design II
3 Credits
An advanced course in web site production emphasizing creative and technical skill development. Students examine current directions in web site management, user interface design, information architecture and scripting. Grade Mode: A.
Prerequisite(s): ARTS 428.
Restriction(s): Must be Undergraduate Level.
Course Fee: $100.
ARTS 449 - Authorship
3 Credits
This course will consider the activity of publishing as a critical act and provides opportunities to engage this action through self-initiated projects. Note(s): Studio (6 hours per week). Grade Mode: A.
Prerequisite(s): ARTS 324.
Restriction(s): Must be Art (ARTS); and Undergraduate Level.
ARTS 450 - Internship
1-3 Credits
Apprenticeship program designed to give students first-hand exposure to professional artists, designers and art institutions. Internships individually tailored to meet the needs of the student. Approved internship experiences require student to complete a minimum of 120 hours with one or more mentors or organizations. Grade Mode: A.
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level.
ARTS 451 - Interdisciplinary Art History Seminar
3 Credits
Interdisciplinary investigations with an emphasis in cross-disciplinary art historical special subjects and related historical and cultural subjects. Grade Mode: A.
Restriction(s): Must be a Minor in Art History (ARTH); and Undergraduate Level.
ARTS 462 - Advanced Studio Practicum
1-3 Credits
Independent research in advanced studio practices under the direction of a faculty member. Note(s): See academic advisor prior to registration; practicum may be taken multiple times for credit. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.
Course Fee: $60.
COMM: Communication Studies

Courses

COMM 100 - Introduction to Public Communication
Development of communication skills in public speaking. The course will include presentational skills, attention to multicultural communication encounters, audience analysis, speech opportunities, research, organization and critical thinking. Note(s): May count as a lower division COMM major elective only for Torrey Honors program students. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 170 - Small Group Communication
This course focuses on the individual’s communication in a group setting: leadership in groups; group communication norms and processes with emphasis on problem solving and conflict management techniques. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 200 - The Rhetorical Act
This course develops student understanding of rhetoric as the foundation to all effective communication. Based on a communication model that recognizes the rhetorical situation as a determining factor in all communication decisions, the course provides students with instruction on gathering, organizing, and presenting information appropriate for the audience, context, and purpose of the communication event. Students will understand their role as both communicator/audience and will be asked to deliver/critique oral and written products to demonstrate their development of rhetorical skills. Core Curriculum: Approved for Core - Communication. Note(s): Students should take this course in the second semester of their Freshman or the first semester of their Sophomore year at Biola; ideally, a student would have had a COMM 100 (public speaking) or other fundamentals of communication course as part of their high school curriculum; if students have already fulfilled the COMM Core requirement, then COMM 200 may be taken as an option for a lower division COMM elective. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 235 - Interpersonal Communication
This course focuses on developing communication skills in the dyadic setting including emphasis on essential preconditions, conflict management, interpersonal relationships, nonverbal behavior and creative supportive climates. Core Curriculum: Approved for Core - Communication. Note(s): Course has been revised and renumbered from COMM 270. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 254 - Communication Theories
Descriptions and applications of communication theories such as symbolic interaction, relational theories, narrative paradigm and selected group operational theories. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 272 - History of Communication
A historical and interdisciplinary analysis of the development of communication studies theories, concepts, and practices from the classical rhetorical tradition to the present. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 275 - Communication in the Workplace
This class is designed to help you succeed in your academic, professional and personal life, particularly by developing a practical and theoretical understanding regarding workplace communication. Each of you begins this class with your own, individual experiences, perspectives and expectations. Learning and growing in the concept of work-life will provide you with a practical “tool belt” of specific methods and critical thinking abilities to: (a) Develop your capacity to conceptualize and apply valuable workplace communication strategies, (b) Strengthen your analytical and critical thinking skills, (c) Increase your ability in writing and presenting your thoughts, including content organization and delivery, (d) Equip you with career essentials: creating and/or polishing your resume, interview competence and rhetorical sensitivity, and (e) Utilize library resources and develop effective researching approaches. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

COMM 280 - Oral Interpretation
Learning to read types of literature aloud in a manner that enhances and enriches the audience’s understanding and appreciation of that literature. Core Curriculum: Approved for Core - Communication. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
COMM 281 - Argumentation and Debate  
Effective oral communication: invention, analysis, evidence, methods of attack and defense and arrangement of ideas. Core Curriculum: Approved for Core - Communication. Note(s): Course has been revised and renumbered from COMM 181. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

COMM 282 - Intercollegiate Forensics  
Practical speech experience in debate and individual speaking events. 
Grade Mode: A. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (total number of credits): 4.

COMM 320 - Advanced Public Communication  
Additional experience in improving public speaking skills in power point presentations, critiquing of speeches, and groups presentations. Speeches include: Semiotics Analysis; Apologetics Speech; Tribute Speech; and Group Presentation. Grade Mode: A. 
Prerequisite(s): COMM 100. 
Restriction(s): Must be Undergraduate Level.

COMM 348 - Rhetoric of Media Studies  
Rhetorical criticism and evaluation of communicative messages in film, television, theatre, popular music, the popular press/books, and Internet. Note(s): This course has been revised and renumbered from COMM 469. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

COMM 368 - Methods of Communication Research  
Methodology for communication research, with attention to quantitative and qualitative research. Includes sampling, questionnaire design, introduction to statistics, ethnography, and other qualitative methodologies. Students conduct survey research projects. Learning to read and evaluate research components is an expected learning outcome. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

COMM 382 - Intercollegiate Forensics  
Practical speech experience in debate and individual speaking events. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (total number of credits): 4.

COMM 385 - Persuasive Communication  
Techniques of persuasive speaking and communication persuasion theories. Experience in the preparation and delivery of speeches. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

COMM 386 - Forms of Public Communication  
Application, practice and analysis of selected communication forms from a rhetorical perspective. Sections offered in political, social issues and nonverbal communication. Note(s): May be taken multiple times with different course content. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (after first attempt): 10.

COMM 387 - Organizational Communication  
The dynamics of organizational communication centering in systems, structures and patterns of work/workplace communication; the role of communication in organizational development. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

COMM 403 - Organizational Rhetoric  
In this course students will extend their development by engaging in seminal texts, discussions, and case-studies focusing on Organizational Rhetoric, the link between applied practices existing in organizational settings and the philosophical tenets of persuasion as identification, resulting in a mastery understanding of this area. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.

COMM 432 - Rhetorical Theories  
Major theories of rhetorical and public address from classical to contemporary periods. Grade Mode: A. 
Prerequisite(s): COMM 254. 
Restriction(s): Must be Undergraduate Level.

COMM 440 - Communication Internship  
For students prepared to gain practical experience. Usually off campus in a work situation. Grade Mode: A, C. 
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level. 
Repeat Limit (total number of credits): 6.

COMM 445 - Teaching Assistant  
Grade assignments and/or exams, learning how to use rubrics and to apply communication pedagogy in comments and marks. Proctor exams and assist with teaching, research, and administrative duties as needed. Note(s): Special approval required; contact the Communication Studies Office for details. Grade Mode: A. 
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level. 
Repeat Limit (after first attempt): 10.

COMM 450 - Communication Practicum  
Directed practical experience in the various fields of communication. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (total number of credits): 6.

COMM 465 - Rhetorical Criticism  
Evaluation and assessment of communication sources and artifacts. Application of critical methodologies (e.g., pentadic, narrative, feminist, metaphoric, generic) to generate scholarly commentary. Grade Mode: A. 
Prerequisite(s): COMM 254. 
Restriction(s): Must be Undergraduate Level. 
Course Fee: $100.

COMM 469 - Rhetoric of Media Studies  
Rhetorical criticism and evaluation of communicative messages in film, television, theatre, popular music, the popular press/books, and Internet. Grade Mode: A. 
Restriction(s): Must be Junior Class, or Senior Class; and Undergraduate Level. 
Repeat Limit (total number of credits): 6.

COMM 470 - Communication Seminar  
Various aspects and problems in the fields of communication. Note(s): May be taken multiple times with different course content; $70 fee may apply. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level. 
Repeat Limit (after first attempt): 10.

COMM 472 - Intercultural Communication  
Relationship between communication and culture with emphasis on factors affecting the quality and processes of interpersonal communication between persons of different cultures or subcultures. Grade Mode: A. 
Restriction(s): Must be Undergraduate Level.
COMM 473 - Communication and Diversity Credits 3
Study and analysis of intercultural communication and identity within the context of the United States. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $50.

COMM 474 - Advanced Studies in Communication Behavior Credits 3
Selected communication topics varied by semester. Sections offered include: gender studies, relational studies, family communication, leadership communication, and engaging worldviews. Note(s): May be taken multiple times for credit with different course content. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

COMM 480 - Directed Research Credits 1-3
Individual research in areas of communication determined in consultation with the instructor. Note(s): Special approval required. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 3.

COMM 495 - Advanced Methods of Research Credits 3
In this course students will complete a previous proposed research study. This includes: a) learning how to complete the NIH training and application to complete your research to the universities PHRRC (Protection for Human Rights in Research), b) building a robust literature review, c) collecting and interpreting data, d) submitting a research study to NCA (National Communication Association, and e) completing a full research study. Students will extend their development by reading previous studies, methods of communication research, and engaging in the link between communication and their research topic, resulting in a mastery understanding of this area. Grade Mode: A.
Prerequisite(s): COMM 368.
Restriction(s): Must be Undergraduate Level.
Course Fee: $50.

JOUR: Media, Journalism and Public Relations

Courses

JOUR 105 - Foundations of Journalism Credits 3
Overview of the influence of American media beginning with Journalism in the late 1700s, extending into convergent media of the early 21st century. The course examines the crafting and influence of media messages over time, including print, photo, audio, video, and interactive Web media. The course examines interplay of journalism and public relations over the decades, exploring the roots of, and ethical principles underlying, best practice(s). Students will juxtapose their biblical world-view with ethical decision-making seen in today’s national and international media. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $35.

JOUR 107 - Introduction to Convergence Credits 3
A course introducing students to fact-based storytelling that combines print and visuals in a Web format that meets the needs of students aiming at careers in the convergent media of journalism and public relations. Students learn convergence through readings, discussion, observation and project work. The course serves as a prerequisite to Convergent Media Production. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $50.

JOUR 110 - Contemporary Issues in Journalism Credits 2
Designed to help students thoughtfully explore the major issues of mass media in American society and in limited global contexts from legal, ethical, social, cultural, technical and fiscal perspectives. Students also explore the relationship of the press and religion. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 120 - Writing Across Media Credits 3
Instruction in writing for media ranging from print to photos, to radio to television, to social media. Lecture, discussion, and writing assignments of varying lengths and deadline ground students in crafting of narratives that inform, explain and illustrate ideas using facts, quotes, data, and background information. Basics of media interviewing and source attribution are introduced. The course emphasizes critical thinking, critical reading, and editing (alone and in groups) to find and eliminate errors in logic and meaning, but also in grammar, spelling and punctuation. The course grounds students in use of Associated Press style, but will also guide them into use of scholar and non-scholarly source attribution for scholarly writing about journalism and media.
Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 200 - Practicum Credit 1
Applied course in which students produce professional-level work in an area directly related to their major and/or concentration. Work in the practicum is designed as a springboard to competitive application for internships and career-entry in media and media-related ministry. Note(s): Students are not allowed to take Practicum credits simultaneously (in one semester); may be taken multiple times for credit. Grade Mode: C.
Restriction(s): Must Public Relations (PREL) or Journalism (JOUR); and Undergraduate Level.
Repeat Limit (after first attempt): 2.
Course Fee: $25.

JOUR 220 - Introduction to Visual Media Credits 3
An examination of the basics of photography-editorial, graphic and technical. This introduction presumes no previous knowledge of photography. Students learn to capture images based on the above criteria with standard digital photographic equipment (SLR based). Students also learn basic skills to edit digital photographs with the 'digital darkroom' and prepare them for publications and Web media. Grade Mode: A.

JOUR 231 - Public Affairs Reporting Credits 3
A laboratory-oriented course in public affairs reporting that puts students into the public affairs experience in print and electronic media. Emphasis is placed on research skills, interpersonal communication, and the basics of news writing. Practical experience is gained through internships and career-entry in media and media-related ministry. Note(s): No grade forgiveness; must be taken multiple times for credit. Grade Mode: A.
Prerequisite(s): JOUR 120.
Restriction(s): Must be Undergraduate Level.
Course Fee: $75.

JOUR 235 - Videography Credits 3
A course in broadcast journalism in which students learn the craft of shooting TV news and informational video. They also study the process of video storytelling and how to create a compelling news package. Course includes shooting stand-ups, interview, b-roll and voice-overs, with an emphasis on editing and production. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $80.
JOUR 236 - Introduction to Broadcast Journalism  Credits 3
Students learn basic techniques of broadcast news-writing, video shooting, editing and production. Classes consist of lecture/discussion and guidance in project work for telling visual and/or audio stories adapted to traditional broadcast settings as well as Web audiences.
Grade Mode: A.
Prerequisite(s): JOUR 105, JOUR 107 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.
Course Fee: $25.

JOUR 241 - Audio Workshop  Credit 1
Workshop course to provide an introduction to the field of audio production for radio, film and television. In this course students will learn and practice techniques for recording, editing, mixing and exhibiting radio, film and television sound. Introduces audio production techniques and equipment operation. Includes terminology, basic script writing, editing, producing commercials, public service announcements and news casting in a studio setting. Introduction to the place of sound (voice, music, sound effects) in radio, television, motion pictures, and the Internet. An overview of technology and its use in audio recording and editing; using analog and digital equipment. Grade Mode: A.
Prerequisite(s): JOUR 107 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.
Course Fee: $40.

JOUR 236 - Media Design Essentials  Credits 3
A course introducing students to digital approaches to design principles and techniques for visually communicating ideas. Fundamental principles of design and elements of line, form, color, texture, value, shape will be resourced in hands-on practice. Creating user-focused experiences on the web and in apps will be integral to the student design development. These digital designers will resource electronic procedures and tools to produce and edit websites and elements for online distribution, including landing pages, banners and ads, and email marketing collateral. They may work with Wordpress and in languages such as HTML5, CSS3 JavaScript. Students will understand and consider accessibility as well as functionality of design and systems. Materials they create, format, illustrate and design will be used for creative concept presentation to clients as well. This is an entry-level course, assuming students have little previous experience with coding, UX/UI, or tools for design which may include the Adobe Suite products. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 245 - Video Workshop  Credit 1
Students will learn the essentials in shooting, editing and streaming compelling video; preparing them for the other video courses in the broadcast curriculum. Also, students will learn about multi-media reporting and a convergent newsroom, shooting DV and editing on Final Cut Pro, all necessary skills to become a competitive broadcast journalist. Grade Mode: A.
Prerequisite(s): JOUR 107 (may be taken concurrently).
Restriction(s): Must be Undergraduate Level.
Course Fee: $40.

JOUR 249 - Media Design Essentials  Credits 3
A course introducing students to digital approaches to publishing, including basic principles of design and typography, hands-on practice with leading industry software and the ultimate production of publication material. The adobe suite of products (Adobe Illustrator, Photoshop, InDesign, and Dreamweaver) is used. Provides students with the opportunity to develop the use of electronic procedures to produce and edit publications and Web sites. Students create, format, illustrate and design print material and Web products. The course prepares students to produce such materials as newsletters, flyers, brochures, publication spreads and advertising materials. This is an entry-level course, assuming students have little or no previous experience with the Adobe suite of products. Grade Mode: A.
Course Fee: $20.

JOUR 250 - Digital Design Essentials  Credits 3
A course introducing students to digital approaches to design principles and techniques for visually communicating ideas. Fundamental principles of design and elements of line, form, color, texture, value, shape will be resourced in hands-on practice. Creating user-focused experiences on the web and in apps will be integral to the student design development. These digital designers will resource electronic procedures and tools to produce and edit websites and elements for online distribution, including landing pages, banners and ads, and email marketing collateral. They may work with Wordpress and in languages such as HTML5, CSS3 JavaScript. Students will understand and consider accessibility as well as functionality of design and systems. Materials they create, format, illustrate and design will be used for creative concept presentation to clients as well. This is an entry-level course, assuming students have little previous experience with coding, UX/UI, or tools for design which may include the Adobe Suite products. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 267 - Media Career Readiness  Credit 1
Practical study and experience in successful strategies for making the step from academia to media careers. Experiences in developing personal digital branding artifacts and self-presentation will be covered. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

JOUR 301 - Sports Journalism  Credits 3
Practical study and experience in successful strategies for covering youth, varsity and professional sports for deadline news media (print, broadcast and Web). The course will emphasize techniques for interviewing, reporting and writing about sports for print and online media, but will include elements applicable to video and audio components of a convergent approach to sports journalism. Ethics of sports journalism practice from a Christian world-view are applied to the media marketplace through discussion and project-driven experience.
Note(s): JOUR 220, JOUR 231, and JOUR 235 are recommended. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $10.

JOUR 303 - Convergent Production  Credits 3
Deadline production for the Web using news, features and sports reporting approaches. Students learn techniques for effectively combining writing, still photos, video clips, audio files, and interactive media elements to produce contextual coverage of breaking events and trends affecting the Biola campus and/or the surrounding region. Students rotate responsibilities for various pieces of the convergent product. Grade Mode: A.
Prerequisite(s): JOUR 105, JOUR 107.
Restriction(s): Must be Undergraduate Level.
Course Fee: $20.
JOUR 305 - Database Journalism  Credits 3
Laboratory, lecture and discussion course in advanced principles of identifying news, its sources and the connection of issues with trends. Course emphasizes in-depth (documentary-style) interviewing, variable deadline writing, introductory use of and analysis of online and retrievable databases, and other online resources for journalism and public relations. Grade Mode: A. Restriction(s): Must be Undergraduate Level. Course Fee: $20.

JOUR 307 - Social Media, SEO and Digital Strategy  Credits 3
An introductory course providing students with the media tools and grasp of marketing-related media theory needed for effective digital communications in businesses and organizations. Course content will cover the basic social media platforms and their uses from an organizational standpoint; Search Engine Optimization (SEO) tools and methods; and digital strategy for online advertising, analytics and website user trending. Upon completion, students will be equipped to create digital communication strategies, understanding the platforms and tools available along with methods to measure effectiveness for a variety of audiences. Grade Mode: A. Restriction(s): Must be Undergraduate Level.

JOUR 311 - Studio Production  Credits 3
Students will be part of a team that will produce a streaming weekly webcast featuring news of the Biola campus, surrounding community and Los Angeles. Practical skills of producing a TV newscast, the language of TV, writing a reader, a VO, a VO-SOT, a news package, incorporating sound bites, reporter stand-ups, and the timing and producing a newscast will be taught. A deeper understanding of multi-media reporting and a convergent newsroom, shooting DV and editing on Final Cut Pro will also be gained. Note(s): May be repeated for credit. Grade Mode: A. Prerequisite(s): JOUR 241, JOUR 243, JOUR 245. Restriction(s): Must be Undergraduate Level. Repeat Limit (after first attempt): 1. Course Fee: $100.

JOUR 315 - Religion, Culture and Media  Credits 3
An overview of the interplay of faith and journalism within urban and rural cultures in the United States. Students examine the ways media—Christian and secular—have told, and currently tell, the stories of people of faith and faith communities. The course emphasizes cross-cultural, racially diverse encounters for students, interaction of their Christian worldview with those of differing beliefs, and examination of journalistic approaches that are appropriate to truth-telling about the work of God in the world. Students' work in the course involves field observation in Southern California and emphasizes research, discussion, basic interviewing, writing and storytelling through Web media. Grade Mode: A. Restriction(s): Must be Undergraduate Level.

JOUR 322 - Publication Editing and Management  Credits 3
Exploration of aesthetics and design with emphasis on copy editing and marking skills necessary for quality presentation of material in newspapers, magazines, newsletters and other journalistic venues. Extensive practice of copy editing with attention to style, grammar, punctuation, writing headlines, cutlines, selection of type, use of color and art. Grade Mode: A. Prerequisite(s): JOUR 105 (may be taken concurrently). Restriction(s): Must be Undergraduate Level. Course Fee: $50.

JOUR 333 - Travel Video Practicum  Credits 3
Students learn storytelling based on insight into a unique location using interviewing and video editing techniques to make that location, its people and culture understandable and approachable to audiences. An understanding of on-camera interviewing, script writing, videography and video editing are necessary to begin this course, though those areas will be refined in this practical, field-work driven course. Grade Mode: A. Restriction(s): Must be Undergraduate Level.

JOUR 334 - Producing and Writing for Broadcast News  Credits 3
Students learn the nuts and bolts for writing and producing a television newscast. The course observes life behind-the-scenes in a television newsroom. Students study the format for writing for television news, as well as how to stack a show, assign packages and stories, and how to produce in breaking news situations. Students also study the writing format for television news, as well as how to properly write a television news package. Grade Mode: A. Prerequisite(s): JOUR 236. Restriction(s): Must be Undergraduate Level. Course Fee: $30.

JOUR 335 - Magazine and Free-Lance Writing  Credits 3
Principles of writing for targeted audiences that win readers and editors at niche and mainstream magazines. Students move articles from inception to querying through the revision processes of medium and long-form features and in-depth article writing. Course includes elements of business self-management, budgeting and copyright guidelines. Grade Mode: A. Restriction(s): Must be Undergraduate Level. Course Fee: $25.

JOUR 337 - Intermediate Broadcast Production  Credits 3
Students learn principles and practical application of television directing and the aspects of production that determine aesthetic quality. Techniques and concepts of video field reporting, production and video editing are introduced. Lecture, discussion, and projects give particular emphasis to developing critical and analytic abilities, and realizing practical applications of media ethics and aesthetics. Grade Mode: A. Restriction(s): Must be Undergraduate Level. Course Fee: $80.

JOUR 342 - Visual Meaning  Credits 3
A research and discussion course exploring theories of visual knowledge, the making of meaning through visual languages, and the ways journalists and/or public relations professionals negotiate visual symbols and paradigms within disparate communities. The course analyzes digital SLR imaging, video imaging, and the uses of complementary elements alongside visuals including, but not limited to, text, audio and graphics. Cross-cultural elements of visual meaning can be included depending on the semester. Grade Mode: A. Prerequisite(s): JOUR 105, JOUR 107. Restriction(s): Must be Undergraduate Level.
JOUR 344 - Media Internship
A portfolio-driven, introductive learning experience beyond the university classroom via working in a company, business or media-related organization. This course will allow students to explore their interest, aptitude and stamina for work within their chosen area of journalism or media-related organization or ministry. This course is aimed at providing students with a beginning portfolio of work suitable for applying to an advanced internship. **Note(s):** Sixty hours of internship are required for each academic credit; may be taken multiple times for credit. **Grade Mode:** A, C.
**Prerequisite(s):** JOUR 267 (may be taken concurrently).
**Restriction(s):** Must be Undergraduate Level.
**Repeat Limit (after first attempt):** 2.

JOUR 347 - Photo Communication
Explores reporting and documentation through the visual medium of still images. Students photograph assignments under working press conditions and advance their skills using the SLR camera. **Grade Mode:** A.
**Prerequisite(s):** JOUR 220.
**Restriction(s):** Must be Undergraduate Level.
**Course Fee:** $80.

JOUR 348 - Publication, Web and Media Design
Examines the trends in design as they impact newspapers, magazines, broadcast and promotional material in applicable print, online and mobile format. It is expected that students have a basic ability with the Adobe Suite of products. Emphasis is on the design of cohesive multi-page (print or digital) publications, sites and/or apps. Examines editorial operations, production procedures, and the role of the art/design director. In the class’ workshop setting, students are familiarized not only with theoretical ideas but also with practical considerations of design. **Grade Mode:** A.
**Prerequisite(s):** JOUR 249.
**Restriction(s):** Must be Undergraduate Level.
**Course Fee:** $35.

JOUR 350 - Cross-Cultural Storytelling Project
A travel course taking students to an area outside Southern California where they will investigate a problem or trend, illustrate and explain the political or socio-cultural background, current struggles or challenges and possible solutions for change. Involves use of writing and/or visuals adaptable to the Web in a final project that demonstrates students’ grasp of other cultures and the deeper issues behind trends or events. The course will periodically involve an international media project partnered with a missions organization or media outlet in another country. **Grade Mode:** A.
**Prerequisite(s):** JOUR 105, JOUR 107.
**Restriction(s):** Must be Undergraduate Level.

JOUR 351 - Broadcast Anchoring and Announcing
Students acquire the basic skills necessary to work as a television news anchor and reporter. Study of delivery topics including: breathing techniques, voice pitch, how to read the teleprompter, on-air appearance and one of the most important skills necessary as a broadcast journalist, how to deliver a live report. Class projects include mandatory appearances on Biola’s EagleVision newscasts, as both an anchor and reporter. May include a visit to a local television news studio. **Grade Mode:** A.
**Prerequisite(s):** JOUR 230 or JOUR 236.
**Restriction(s):** Must be Undergraduate Level.
**Course Fee:** $10.

JOUR 354 - Literary Journalists
Through written projects and discussion, this course helps students see the bridge between the best of American literature and the ongoing success of literary non-fiction journalism for such magazines as the New Yorker and Atlantic Monthly. By means of regular instruction and guest speakers, students learn to adapt theme, characters, plot and the pacing of narrative needed to develop stories that are both factual and dramatic. Students read and critique not only professionals’ work, but also their own. May include study of the bridge between literary journalism and script-writing. **Grade Mode:** A.
**Restriction(s):** Must be Undergraduate Level.
**Course Fee:** $25.

JOUR 386 - National Journalism
Seminar-style course that takes place in a major news market, focusing on broadcast and/or print news from a national perspective. Students examine national publications and/or news broadcasts over the course of the semester. A major focus of the course, in some semesters, is on political reporting. Guest speakers may include reporters, anchors, producers, writers and editors from the national media. **Grade Mode:** A.
**Restriction(s):** Must be Undergraduate Level.

JOUR 390 - Media Law
Study of theoretical approaches to the First Amendment as well as specific areas of concern to professional journalists such as defamation, privacy, fair trial, obscenity, copyright, shield laws, sunshine laws, etc. Exploration of applied professional ethics and contemporary professional issues of ethics for journalists. **Note(s):** This course was renumbered from JOUR 433. **Grade Mode:** A.
**Restriction(s):** Must be Undergraduate Level.

JOUR 421 - Documentary Journalism
Primarily geared towards broadcast journalism students, this course is an advanced-level investigative journalism course where students spend the semester exploring topics deeply to present in final video, documentary form. The class will focus on reporting comprehensive, balanced, fair and compelling visual stories with ethical journalistic integrity. This course takes students to the highest levels of identification of news by means of advanced investigation, interviews, use of extensive public documents and advanced forms of paper trail pursuit to report on people, businesses, organizations and institutions in video form. Students bring their mastered understanding of craft together with their developed ability to think critically to ultimately produce intensive documentary-style projects. The course’s approach incorporates consideration of the Christian worldview that sees truth-telling as a Biblical mandate. **Grade Mode:** A.
**Prerequisite(s):** JOUR 236.
**Restriction(s):** Must be Journalism (JOUR); and Undergraduate Level.
JOUR 431 - Investigative Reporting  Credits 3
Takes students to the highest levels of identification of news trends and the roots of news events by means of advanced database investigation, use of extensive public documents and advanced forms of paper trail pursuit to report on people, businesses, organizations and institutions. The course approaches in-depth investigation with a Christian worldview that sees truth-telling as a Biblical prophetic mandate balancing mercy and justice. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.
Course Fee: $20.

JOUR 433 - Media Law  Credits 3
Study of theoretical approaches to the First Amendment as well as specific areas of concern to professional journalists such as defamation, privacy, fair trial, obscenity, copyright, shield laws, sunshine laws, etc. Exploration of applied professional ethics and contemporary professional issues of ethics for journalists. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 444 - Advanced Internship and Career Preparation in Media  Credits 2
A portfolio-driven, rigorous learning experience beyond the university classroom via working in an advanced internship with a company, business or media-related organization. This course will allow students to refine their interest, aptitude and stamina for work within their chosen area of journalism or media-related opportunity. This course is aimed at providing students with an advanced portfolio of work suitable for applying to entry level positions in their field. Note(s): One hundred and twenty hours of internship are required for this course. Grade Mode: A, C.
Prerequisite(s): PREL 344.
Restriction(s): Must be Undergraduate Level.

JOUR 447 - Commentary, Opinion and Reviews  Credits 3
A lecture, discussion and writing course exploring the power and ethical implications of opinion in media. Students will learn how opinion journalism helped frame the cause of freedom in our nation's founding and how it has had a role in every major era in our nation's history. Students will also examine the role of opinion journalism today in social media, in public opinion polling, and in reviews of the Arts (e.g. music, dance, film, books, theatre productions) and of products in the marketplace (e.g. electronics, cars, hotels, restaurants). Students will examine, learn and demonstrate techniques for critical thinking in effective opinion journalism in forms ranging from news or sports analysis to blogs, tweets, and social media platforms that implement opinion alongside, or consisting of, photos and video. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 464 - Philosophy and Ethics of Media  Credits 3
A capstone course for journalism majors organized in a seminar style in which students review the philosophies of formative thinkers behind American journalism (print, broadcast and Internet), and examine the philosophy of a journalist whom they'll shadow. The course culminates in each student's examination of his or her own philosophy of journalism and sense of calling as a believer practicing journalism or public relations or as an influence in the marketplace of public opinion. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

JOUR 466 - Photojournalism II  Credits 3
Continues the exploration of reporting and interpreting the news through photos, photo documentaries, and photo analysis. Advanced techniques of visual reporting and interpreting news are explored. Working under deadline continues to be a part of the advanced course. Introduces the use of lighting techniques, including operation of portable and studio strobes. Grade Mode: A.
Prerequisite(s): JOUR 347.
Restriction(s): Must be Undergraduate Level.
Course Fee: $80.

JOUR 470 - Advanced Journalism Seminar  Credits 1-3
A rotating variety of topics and production experiences often employing special guests from within Journalism or Public Relations. Possible topics include, but are not limited to, Documentary Reporting, Political Journalism, PR Fund Raising, Event Planning, Cross-cultural journalism, advanced multimedia, or advanced photojournalism. Note(s): May be taken multiple times for credit. Grade Mode: A.
Prerequisite(s): JOUR 105, JOUR 107; JOUR 111 or JOUR 231 or JOUR 236 as pertinent to the seminar topic.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.
Additional Fee(s): May involve lab fees.

JOUR 480 - Directed Research  Credits 1-3
Individual research in an area of Journalism or Public Relations determined in consultation with the instructor. Note(s): Special approval required; may be taken multiple times for credit. Grade Mode: A, C.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (total number of credits): 6.

JOUR 486 - Media Narrative Project  Credits 3
Students in this mastery-level course will explore in-depth a topic using a team approach that moves their inquiry from a core idea into a multi-part exploration that, by the end of the semester, becomes a finished book published by the department through on-demand technology. Book topics will vary, but urban and cross-cultural themes will be emphasized, pointing towards the needs and solutions being sought to help the marginalized and alienated within and around the American evangelical church and/or internationally. Projects will include reporting through written and visual form, and as needed, video storytelling and web development that enhances audience understanding of the book's topic. Grade Mode: A.
Prerequisite(s): JOUR 230 or JOUR 231 or JOUR 249 or JOUR 347.
Restriction(s): Must be Undergraduate Level.
Course Fee: $50.

JOUR 488 - Media Capstone  Credits 3
A culmination of the journalism student's academic career. This course is the laboratory where students transition from student to master of their craft, bringing together journalism fundamentals, approaches to storytelling, and technology and techniques necessary to produce material in various and/or applicable forms. Students bring their mastered understanding of craft together with their developed ability to think critically concerning their faith and the world around them, to ultimately produce intensive final projects of their choosing. Students will consider business practices as they develop proposals, researching their areas of focus and considering experts and best practices for their final projects. Grade Mode: A.
Restriction(s): Must be Senior Class; and Undergraduate Level.
Course Fee: $100.
JOUR 495 - Senior Portfolio  
A course guiding students in preparation, management and presentation/defense of competency in the senior portfolio required for graduation in the major. The portfolio measures learning in pre-professional, presentation and convergence program learning outcomes. Students are advised to take this course in the semester prior to their intended semester of graduation. Note(s): Students must earn a 'C' or better in the course for it to count toward the major; students may have opportunity to revise the portfolio if its deficiencies are remediable and can be adjusted within the timeframe of the course schedule; students whose portfolios need more extensive revision may repeat this course if necessary; presentations as part of the public presentation requirement cannot be revised and failure to meet competency will require the student to retake this course. Grade Mode: A.  
Restriction(s): Must be Senior Class; Journalism (JOUR), Public Relations (PREL) or Journalism & Integrated Media (JOIM); and Undergraduate Level.

**MUSC: Music**

**Courses**

**MUSC 001 - Biola Chorale**  
Performance of standard choral literature representing a variety of styles and periods. Core Curriculum: Approved for Core - Fine Arts. Note(s): Membership by audition. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.  
Course Fee: $125.

**MUSC 002 - Chamber Music Ensemble**  
Encompasses a wide variety of chamber grouping and chamber music literature. The following ensemble combinations are commonly organized under this heading: brass quintet, woodwind quintet, flute ensemble, string quartet, percussion ensemble, piano chamber ensembles, small vocal ensembles, and worship bands. Core Curriculum: Approved for Core - Fine Arts. Note(s): Open to vocal, keyboard and other instrumental students by audition; piano accompanying is graded on a credit/no-credit basis. Grade Mode: A, C.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 003 - Symphony Orchestra**  
Performance of standard orchestral music literature encompassing a wide variety of styles and periods. Note(s): Membership by audition. Core Curriculum: Approved for Core - Fine Arts. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 005 - Chamber Choir**  
Performance of standard chamber choir literature representing styles ranging from the Renaissance through the 20th century. Core Curriculum: Approved for Core - Fine Arts. Note(s): Membership by audition. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 007 - Jazz Ensemble**  
Provides music majors and other interested students experience in jazz techniques and literature. A large volume and wide variety of literature is played, discussed and evaluated as to its prospective use at the various levels of secondary and collegiate education. At least one public performance per semester is scheduled. Core Curriculum: Approved for Core - Fine Arts. Note(s): Membership by audition. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 008 - Symphonic Winds**  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.  
Course Fee: $130.

**MUSC 009 - Handbell Choir**  
Performance of a wide spectrum of handbell literature as separate ensemble and in conjunction with other instrumental and vocal ensembles. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 010 - Vocal Jazz Ensemble**  
Performance of standard vocal jazz music representing the broad range of jazz styles which have developed over the past century in this country. Core Curriculum: Approved for Core - Fine Arts. Note(s): Membership by audition. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 011 - Women's Chorus**  
Performance of a variety of literature and styles from Renaissance through the 20th Century. Core Curriculum: Approved for Core - Fine Arts. Note(s): Membership open to all women students; no audition required. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.  
Course Fee: $40.

**MUSC 012 - Men's Chorus**  
Performance of a variety of literature and styles from Renaissance through the 20th Century. Core Curriculum: Approved for Core - Fine Arts. Note(s): Membership open to all male students; no audition required. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.  
Course Fee: $40.

**MUSC 013 - Worship and Popular Music Ensemble**  
Performance of popular literature, from both the Contemporary Christian/Worship and secular song catalogs. Note(s): Membership by audition; required for Worship Majors, Contemporary Worship Minors, and BA Music (Commercial Music concentration) Majors. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.

**MUSC 014 - Pep Band**  
An instrumental ensemble that performs renditions of popular songs to promote school spirit at athletic events and community functions. Note(s): Open to students by audition. Grade Mode: A.  
Restriction(s): Must be Undergraduate Level.  
Repeat Limit (after first attempt): 10.
MUSC 098 - Introduction to Music Theory  
An introductory course to acquaint incoming music students who possess little or no background in music theory with the fundamentals of that subject. These same fundamentals will be covered again in the first semester of Theory (MUSC 154), though at a much greater rate of speed. Topics for study include pitch names, clefs, scales, key signatures, intervals, and chords. **Note(s):** Available only online. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level.

MUSC 100 - Keyboard I  
Credit 1
Designed to develop general keyboard facility. For the music major, as preparation for entrance to MUSC 118. **Note(s):** Credits earned by the music major may not apply toward music degree requirements. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level. 

MUSC 101 - Music Appreciation  
Credits 3
Elements of music and media of performance in historical perspective. Provides basic background in music literature. Core Curriculum: Approved for Core - Fine Arts. **Note(s):** For the non-music major. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level.

MUSC 102 - Voice Class  
Credit 1
Basic vocal training. Open to non-music majors. Previous experience reading music or singing/playing an instrument is an asset but not required. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level. 

MUSC 104 - Guitar Class  
Credit 1
For the student with no previous training in guitar. Survey of different styles of playing, together with music theory as related to the instrument. First position chords, bar chords, right and left hand technique. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level. 

MUSC 105 - Foundations and Principles of Music Therapy  
Credits 3
Foundation and Principles of Music Therapy is an introduction to music as a therapeutic agent in the rehabilitation and reorganization of the human being into social life. A survey of the history of the American Musical Therapy Association is included as well as the processes and principles of music therapy as used by practicing music therapists. **Grade Mode:** A. **Prerequisite(s):** PSYC 200. **Restriction(s):** Must be Music Therapy (MUTP); and Undergraduate Level.

MUSC 115 - History of Rock: A Social and Musical Revolution  
Credits 3
This course will focus on popular music developments from 1950-1980 by examining the connections between rock and roll and black American culture, the impact of technology on rock, the economic climate and its affect on rock and the volatile relationship between politics and rock music, focusing on the music with social and cultural change. Core Curriculum: Approved for Core - Fine Arts. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level.

MUSC 118 - Keyboard II  
Credit 1
Keyboard technique and literature for the non-keyboard major. **Grade Mode:** A. **Prerequisite(s):** MUSC 100 or test score. **Restriction(s):** Must be Undergraduate Level. 

MUSC 119 - Keyboard III  
Credit 1
Keyboard technique and literature for the non-keyboard major. **Grade Mode:** A. **Prerequisite(s):** MUSC 118 or test score. **Restriction(s):** Must be Undergraduate Level. 

MUSC 120 - Keyboard IV  
Credit 1
Advanced functional keyboard skills for the composition major. Included will be such skills as the playing of four-voice progressions incorporating elements of chromatic harmony (secondary dominants, Neapolitan 6th, augmented 6th, etc.), as well as at-sight simple figured-bass realization, improvisation, and sight-reading from an open score. **Note(s):** Required for Bachelor of Music Composition students. **Grade Mode:** A. **Prerequisite(s):** MUSC 119 or test score. **Restriction(s):** Must be Music Composition (MUCO); and Undergraduate Level.

MUSC 126 - Introduction to Music Technology  
Credits 2
Designed specifically for Commercial Music and Worship Arts majors. An introduction to basic music notation software plus a solid theoretical/technical working knowledge of fundamentals used in both live and recorded music production. Students gain sufficient expertise to be able to notate songs, arrangements, rhythm charts, and lead sheets using the powerful, professional functions of Finale and other software. Students also gain enough expertise to understand basic sound theory, microphone designs and principles, and basic analog/digital music production theory. **Grade Mode:** A. **Restriction(s):** Must be Contemporary Worship Music (MUCW), Worship Arts (MUWA), or Commercial Music (MUCC); and Undergraduate Level.

MUSC 127 - Introduction to Music Production: Pro Tools  
Credits 2
Designed specifically for Commercial Music and Worship Arts majors. The goal is to give each student a solid theoretical and technical knowledge of Digital Audio Workstation recording and mixing. The class covers digital audio history, recording techniques, MIDI sequencing, and mixing. By the end of this course, students will have a working knowledge of the primary functions/features of Protools and will be able to record, edit and mix their own music. **Grade Mode:** A. **Prerequisite(s):** MUSC 126. **Restriction(s):** Must be Contemporary Worship Music (MUCW), Worship Arts (MUWA), or Commercial Music (MUCC); and Undergraduate Level.

MUSC 130 - Advanced Guitar Class I  
Credit 1
Studies in various scales, major and minor triad/sevenths; reading of standard notation in open through 5th position. **Grade Mode:** A. **Restriction(s):** Must be Undergraduate Level. 

MUSC 134 - Advanced Guitar Class II  
Credit 1
Studies in various modes: upper extensions of major and minor chords; reading of standard notation in positions 6 through 11. **Grade Mode:** A. **Prerequisite(s):** MUSC 130. **Restriction(s):** Must be Undergraduate Level.
MUSC 145 - Applied Music
Credits 1-4
Applied instruction in composition, piano, organ, harpsichord, voice, brass instruments, string instruments, woodwind instruments, percussion instruments, conducting, and improvisation. Note(s): Non-music majors are welcome to take applied lessons, see Conservatory for approval. Grade Mode: A.
Restriction(s):
Must be Undergraduate Level.
Prerequisite(s):
MUSC 153.

MUSC 153 - Sight-Singing and Dictation I
Credits 2
Sight-singing diatonic melodies, major and minor scales and triads using moveable tonic solfege. Transcribing basic diatonic melodies, cadences and progressions. Reading, performing and transcribing rhythmic patterns in simple, compound and irregular meters. Note(s): Students may test into an accelerated section of this course. Grade Mode: A.
Restriction(s):
Must be Music Performance (MUPR); and Undergraduate Level.

MUSC 154 - Music Theory I
Credits 2
The study of the following music fundamentals: elementary acoustics, keyboard layout, intervals, scales, key signatures, triads, figured bass, diatonic voice-leading, cadences, elementary harmonic progressions, meter, rhythm, time signatures and staff notation. Grade Mode: A.
Restriction(s):
Must be Music Department; and Undergraduate Level.

MUSC 155 - Applied Music
Credits 2
Applied instruction in composition, piano, organ, harpsichord, voice, brass instruments, string instruments, woodwind instruments, percussion instruments, conducting, and improvisation. Note(s): Non-music majors are welcome to take applied lessons, see Conservatory for approval. Grade Mode: A.
Restriction(s):
Must be Undergraduate Level.
Prerequisite(s):
MUSC 153.

MUSC 156 - Lyric Diction I
Credit 1
For students studying classical vocal technique whose vocal repertoire consists of foreign language as well as English, and who, therefore, must learn to accurately pronounce and articulate foreign languages. The International Phonetic Alphabet, as it applies to the languages studied, and the pronunciation of the Italian, German and Latin languages will be taught in this semester, as well as special considerations in singing in English. Note(s): Lyric diction is taught in two semesters; the two courses are 1-credit lab courses meeting two hours per week. Grade Mode: A.
Restriction(s):
Must be a Concentration in Voice (MUPV); and Undergraduate Level.

MUSC 157 - Lyric Diction II
Credit 1
For students studying classical vocal technique whose vocal repertoire consists of foreign language as well as English, and who, therefore, must learn to accurately pronounce and articulate foreign languages. The pronunciation of the French and Spanish languages will be taught in this semester. Note(s): Lyric diction is taught in two semesters; the two courses are 1-credit lab courses meeting two hours per week. Grade Mode: A.
Prerequisite(s): MUSC 156.
Restriction(s):
Must be a Concentration in Voice (MUPV); and Undergraduate Level.

MUSC 160 - Music Theory II
Credits 2
A study of common-practice diatonic harmony with emphasis on voice leading and harmonic progression. Includes part writing, non-harmonic tones, cadences, figured bass and Roman analysis. Grade Mode: A.
Prerequisite(s): MUSC 154.
Restriction(s):
Must be Undergraduate Level.

MUSC 163 - Sight-Singing and Dictation II
Credits 2
Using 153 materials as a foundation, this course encompasses the sight-singing and transcribing of diatonic and simple chromatic melodies with greater rhythmic complexity, triads in all inversions, dominant seventh chords and altered non-harmonic tones. Note(s): Students may test into an accelerated section of this course. Grade Mode: A.
Prerequisite(s): MUSC 153.
Restriction(s):
Must be Undergraduate Level.

MUSC 164 - Music Theory II
Credits 2
A study of common-practice diatonic harmony with emphasis on voice leading and harmonic progression. Includes part writing, non-harmonic tones, cadences, figured bass and Roman analysis. Grade Mode: A.
Prerequisite(s): MUSC 154.
Restriction(s):
Must be Undergraduate Level.

MUSC 180 - Performance Seminar
Credit 1
Group performance, discussion of performance practice and performance evaluation. Possible sections of voice, piano, organ and various wind and orchestral instruments. Note(s): May be repeated for credit in the same area of performance. Grade Mode: A.
Restriction(s):
Must be Music Performance (MUPR); and Undergraduate Level.

MUSC 181 - Introduction to Composition
Credits 2
A writing course designed to provide opportunity for developing basic skills in the manipulation of musical materials. Grade Mode: A.
Restriction(s):
Must be Music Performance (MUPR); and Undergraduate Level.

MUSC 185 - Worship Foundations
Credits 2
Survey of worship in the Bible from Genesis to Revelation. Study of key worship passages, biblical models of worship (Tabernacle/Temple, Synagogue, Pauline, Revelation worship) and their contemporary applications. Students visit eight culturally and ethically diverse church services and submit a report. Grade Mode: A.
Restriction(s):
Must be Music in Worship (MUWO), Music (MUWM), Contemporary Worship Music (MUCW), or Worship Arts (MUWA); and Undergraduate Level.

MUSC 200 - Concert Music
Credits 0
Attendance at specified number and types of concerts each semester. Note(s): Four semesters required for graduation. Grade Mode: A.
Restriction(s):
Must be Undergraduate Level.
Repeat Limit (after first attempt): 3.

MUSC 205 - Introduction to Music Education
Credits 2
Introduces prospective music teachers to the history, philosophy and function of music education. Students investigate and discuss current educational practice, including standards, testing and assessment, as well as current issues and concerns. Note(s): A 25-hour fieldwork practicum component is required; successful completion of this course constitutes one of the requirements for admission to the Teacher Preparation Program; CBEST must be taken during this course. Grade Mode: A.
Restriction(s):
Must be Undergraduate Level.

MUSC 211 - Improvisation for Non Keyboardists: Concepts/Practices
Credits 2
A skill improvement course focusing on rhythmic freedom and melodic embellishment. Hymns and worship choruses used as templates. Grade Mode: A.
Prerequisite(s): MUSC 163, MUSC 164.
Restriction(s):
Must be Undergraduate Level.

MUSC 217 - Improvisation for Keyboardists: Concepts/Practices
Credits 2
Focus on contemporary chords, voicings, and progressions; transposition; modulation; musical style. Hymns and worship choruses used as templates. Grade Mode: A.
Prerequisite(s): MUSC 163, MUSC 164.
Restriction(s):
Must be Undergraduate Level.
MUSC 218 - Music Therapy Methods and Techniques Credits 3
Music Therapy Methods and Techniques is a study of music therapy procedures used with individuals in aging adult settings and psychiatric settings and an examination of issues concerning the use of music therapy within these populations. Issues related to securing internships and employment in music therapy will also be addressed. Methods of instruction will include lecture, group discussion, experimental approaches such as demonstrations and role play, review of written material/texts, exams, and written assignments. Grade Mode: A.
Prerequisite(s): MUSC 105.
Restriction(s): Must be Music Therapy (MUTP); and Undergraduate Level.

MUSC 225 - Psychology of Music Credits 3
Psychology of Music examines music and the human psyche. Topics include auditory and musical perception, music cognition, creativity and aesthetic experience, listening styles and strategies, music and human emotions, and the social psychology of musical activities. In addition, the course will touch on aspects related to performance, music and the brain, and methodological issues in music research. Grade Mode: A.
Prerequisite(s): MUSC 105.
Restriction(s): Must be Music Therapy (MUTP); and Undergraduate Level.

MUSC 228 - Music Therapy with Various Populations Credits 3
Music Therapy with Various Populations emphasizes the potentials of music therapy with a variety of clinical populations. The course includes a survey of various populations with whom music therapists work, focusing on the characteristics and needs of each group, general treatment approaches, and general methods for incorporating music therapy. Students are introduced to the therapeutic traits and basic interaction skills involved in counseling. Grade Mode: A.
Prerequisite(s): MUSC 105.
Restriction(s): Must be Music Therapy (MUTP); and Undergraduate Level.

MUSC 251 - Song Literature I Credit 1
This is the first of two semesters in the survey of song literature from the Middle Ages through the 20th century. This course will cover the history of solo song literature from the Middle Ages through the Classical period, and the history of the German lied from Schubert to Schoenberg. Emphasis will be placed on how solo songs influence or are influenced by various musical periods and is influenced by major style trends of the various periods. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

MUSC 252 - Song Literature II Credit 1
This is the second of two semesters in the survey of song literature from the Middle Ages through the 20th century. This course will cover the history of French, British and American song from the 19th through the 20th centuries, as well as songs of prominent composers in the National schools. Grade Mode: A.
Prerequisite(s): MUSC 251.
Restriction(s): Must be Undergraduate Level.

MUSC 261 - Keyboard Sight Reading I Credit 1
Analysis of sight reading skills and procedures. Emphasis on development of ability to read with musical understanding and adequate fluency at first sight. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

MUSC 262 - Keyboard Sight Reading II Credit 1
Continuation of Keyboard Sight Reading I. Analysis of sight reading skills and procedures. Emphasis on development of ability to read with musical understanding and adequate fluency at first sight. Grade Mode: A.
Prerequisite(s): MUSC 261.
Restriction(s): Must be Undergraduate Level.

MUSC 270 - Song Writing I Credits 2
Craft imagery, rhymes, melodies; set words to rhythms; use power progressions, harmonic colors; achieve contrast within the verse, chorus, and bridge format. Grade Mode: A.
Prerequisite(s): MUSC 154.
Restriction(s): Must be Undergraduate Level.

MUSC 271 - Song Writing II Credits 2
Continuation of Song Writing I. Craft imagery, rhymes, melodies; set words to rhythms; use power progressions, harmonic colors; achieve contrast within the verse, chorus, and bridge format. Grade Mode: A.
Prerequisite(s): MUSC 270.
Restriction(s): Must be Undergraduate Level.

MUSC 280 - Performance Seminar Credit 1
Group performance, discussion of performance practice and performance evaluation. Possible sections of voice, piano, organ and various wind and orchestral instruments. Note(s): May be repeated for credit in the same area of performance. Grade Mode: A.
Restriction(s): Must be Music Performance (MUPR); and Undergraduate Level.
Repeat Limit (total number of credits): 3.

MUSC 281 - Movement and Dance for Musical Theatre Credit 1
The study of specific styles of movement used in musical theatre performance. Included will be tap, jazz and a combination of other basic dance styles common to musical theatre performance. This activity class requires a fee and does not meet the Core Curriculum requirement in Physical Education. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

MUSC 300 - Concert Music Credits 0
Attendance at specified number and types of concerts each semester. Three semesters of this course are required for graduation with a B.M. degree. Grade Mode: A.
Restriction(s): Must be Music (MUWM), Music Performance (MUPR), Music (MUSC), Music Composition (MUCO), or Music Education (MUED); and Undergraduate Level.
Repeat Limit (after first attempt): 2.

MUSC 307 - Music History and Literature: Medieval Through Early Baroque Credits 2
A historical and critical study of the period including important contributions in musical literature, theory and performance practice. Special attention will be given to the analysis of selected vocal and instrumental works. Grade Mode: A.
Prerequisite(s): MUSC 164.
Restriction(s): Must be Music (MUWM), Music Performance (MUPR), Music (MUSC), Music Composition (MUCO), or Music Education (MUED); and Undergraduate Level.
Course Fee: $43.

MUSC 308 - Music History and Literature: Mid-Baroque Through Classic Credits 2
A historical and critical survey of the period including important contributions in musical literature, theory and performance practice. Special attention will be given to the analysis of selected vocal and instrumental works. Grade Mode: A.
Prerequisite(s): MUSC 307.
Restriction(s): Must be Undergraduate Level.
Course Fee: $43.
MUSC 309 - Music History and Literature: Late Romantic Through Early 20th Century Credits 2
A historical and critical survey of the period including important contributions in music literature, theory and performance practice. Special attention will be given to the analysis of selected vocal and instrumental works. Grade Mode: A.
Prerequisite(s): MUSC 308.
Restriction(s): Must be Undergraduate Level.
Course Fee: $43.

MUSC 310 - Elementary Music Workshop Credits 2
Instruction in materials for teaching music in the elementary school.
Note(s): Non-music majors. Grade Mode: A.
Prerequisite(s): LEDU 301.
Restriction(s): Music Performance (MUPR), Music (MUSC), Music (MUWM), Music Composition (MUCO), or Music Education (MUED); and must be Undergraduate Level.

MUSC 312 - Music Theory/History and Literature of the 20th Century Credits 3
The study of 20th century theory practice and compositional techniques within the context of the broad range of 20th century music literature. Grade Mode: A.
Prerequisite(s): MUSC 309.
Restriction(s): Must be Undergraduate Level.
Course Fee: $43.

MUSC 314 - History of Film Music Credits 3
A chronological survey of how music and film have been paired together throughout the last 100+ years. Time will be spent analyzing various viewpoints, techniques, and concepts related to music and cinema, and how the practical outgrowths of those philosophies may have been influenced by certain events or artistic movements in modern history.
Note(s): This course is specifically suited for Music Composition majors and Cinema/Media Arts majors, but may also be taken by non-majors, with Special Approval by the Conservatory of Music. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

MUSC 317 - Survey of Western Music I: Classical thru Mid-Twentieth Century Credits 3
A historical and critical study of western music from 1750 to the mid-twentieth century with a particular emphasis on the sacred music of this period. Attention will be given to music literature, theory and performance practice, as well as the relevance of topics studied to modern worship services. Grade Mode: A.
Prerequisite(s): MUSC 164.
Restriction(s): Must be Undergraduate Level.

MUSC 318 - Survey of Western Music II: Medieval thru Baroque Credits 3
A continuation of MUSC 317 focusing on the late twentieth century and the Medieval, Renaissance and Baroque periods, with a particular emphasis on the sacred music of those periods. Attention will be given to music literature, theory and performance practice, as well as the relevance of topics studied to modern worship services. Grade Mode: A.
Prerequisite(s): MUSC 317.
Restriction(s): Must be Undergraduate Level.

MUSC 321 - Marching Band Lab Credit 1
Workshop in preparation for teaching marching band principles and techniques in the intermediate and secondary schools. Grade Mode: A.
Restriction(s): Must be Undergraduate Level.

MUSC 323 - Basic Conducting Credits 2
Basic conducting skills; the psychology of conducting; observation of choral and orchestral rehearsals. Grade Mode: A.
Prerequisite(s): MUSC 354.
Restriction(s): Must be Music Education (MUED), Music in Worship (MUWO), Music (MUSC), Music (MUWM), Music Composition (MUCO), or Music Performance (MUPR); and Undergraduate Level.

MUSC 324 - Advanced Studies in Conducting Credits 2
One or more sections offered periodically in the areas of choral and instrumental conducting. Continuation of the objectives of MUSC 323 related specifically to the technical and interpretative skills of either choral or instrumental conducting. Grade Mode: A.
Prerequisite(s): MUSC 323.
Restriction(s): Must be Undergraduate Level.

MUSC 326 - Influence of Music on Behavior Credits 3
Influence of Music on Behavior examines the psychological bases of music and human behavior. Study of music perception, cognition, response, reproduction, and creation. Grade Mode: A.
Prerequisite(s): MUSC 218, MUSC 225, MUSC 228.
Restriction(s): Must be Music Therapy (MUTP); and Undergraduate Level.

MUSC 328 - General Music Methods Credits 2
An introduction to teaching general music in both elementary and secondary school situations in accordance with national and state standards for music education. Grade Mode: A.
Prerequisite(s): MUSC 205.
Restriction(s): Must be Music Education (MUED); and Undergraduate Level.

MUSC 330 - Contemporary Music Issues Credits 1-3
One or more courses offered periodically in such areas as: arranging, songwriting, performance practice, electronic technology. An analysis and activity course that examines contemporary music as it relates to composing, arranging and performing in pop and jazz styles. Issues addressed will include pop and theatre songwriting, vocal and small instrumental ensemble arranging and the performance of contemporary styles as they relate to their use in school and church settings. Note(s): May be taken multiple times with different content. Grade Mode: A.
Prerequisite(s): MUSC 163, MUSC 164.
Restriction(s): Must be Undergraduate Level.
Repeat Limit (after first attempt): 10.

MUSC 332 - Music for Children Credits 2
Pre-professional course designed for music majors who plan to qualify for the state K–12 single subject teaching credential in music. Students learn and practice skills important for teaching elementary music lessons. Explores the history and philosophy of American music education, emphasizing influences of Dalcroze, Kodaly, Orff and Suzuki. Grade Mode: A.
Prerequisite(s): MUSC 205.
Restriction(s): Must be Music Education (MUED); and Undergraduate Level.

MUSC 338 - Secondary Music Methods Credits 2
Methods and materials for teaching secondary music in grades 6–12. Grade Mode: A.
Prerequisite(s): MUSC 205
Restriction(s): Must be Undergraduate Level.

MUSC 340 - Special Studies: Theory/Composition Credits 2-3
One or more courses offered periodically in such areas as arranging, jazz theory, advanced computer music. Grade Mode: A.
Prerequisite(s): MUSC 363, MUSC 364.
Restriction(s): Must be Undergraduate Level.
