

# SINGLE SUBJECT CREDENTIAL INTERN (GRADUATE)

## Program Description

Biola's California Single Subject Preliminary Teaching Credential program allows students to study in a fully online environment. The SB2042 Professional Teacher Preparation Program is available for Single Subject Credentials and is accredited by the California Commission on Teacher Credentialing (CTC) and the Association of Christian Schools International (ACSI). The Single Subject Credential (<https://www.biola.edu/degrees/g/single-subject-credential/>) authorizes instruction in the subjects listed on the credential in departmentalized classes at any grade level including preschool, grades K–12, and classes organized primarily for adults, but is especially appropriate for middle school and high school. This program authorizes you to teach art, English, health science, mathematics, music, physical education, social science, science or Spanish. This credential also includes authorization to teach English Language Learners within the content area.

The intern track involves successful completion of prerequisites and additional requirements followed by completion of online coursework while you are employed as a full-time Single Subject credential teacher under our intern credential.

The Single Subject Credential is primarily appropriate for middle school and high school teachers, but can sometimes be appropriate for elementary school teachers. As you develop a foundation in lesson planning, classroom technology, psychology and reading, you will have opportunities to observe and participate firsthand in the methods used by cooperating teachers during fieldwork placements. After completion of coursework and the associated requirements, you will be formally recommended for the California Preliminary Single Subject Teaching Credential. You can also receive your ACSI Teacher Certification while earning your California preliminary teaching credential by meeting additional requirements.

## Learning Outcomes

### Program Learning Outcomes

Biola University's graduate teacher preparation candidates are expected to exemplify the following outcomes upon the completion of the Single Subject credential, students will be able to:

1. Identify and articulate God's calling as Christian educators by reflecting on their spiritual journey and their educational preparation in a Biblically integrated essay, and demonstrate Christian attitudes and actions conducive to professional excellence and witness by maintaining high professional disposition marks in coursework and fieldwork (ULO 1, 2, and 3).
2. Examine and analyze their students' cognitive, social, and physical growth through the gathering of student profile data, monitoring their progress, and providing constructive feedback to maximize students' optimum development (ULO 1).
3. Demonstrate respect for diversity in cross-cultural and special population educational settings in order to promote equity and justice as exhibited in differentiated learning plans, response to profile data,

and high marks in professional dispositions throughout coursework and fieldwork experiences (ULO 1, 2, and 3).

4. Design and implement appropriate adaptations to ensure the attainment of a productive learning environment for each student enrolled in candidates' classes by focused evaluation and reflection of each student's strengths and needs. Candidates will also utilize developmental and learning theories, as a foundation for professional decision-making and reflection by identifying student learning needs and making appropriate adaptations to ensure student learning (ULO 1 and 3).
5. Design and implement developmentally appropriate lessons, by using the California state-adopted academic content and Common Core standards as a foundation for lessons that integrate aspects of God's natural revelation (ULO 1 and 3).
6. Design and implement appropriate and effective learning strategies by designing grade and subject-specific lesson and unit plans (ULO 1 and 3).
7. Design and practice strategies that foster a safe and equitable learning environment that encourages students to take intellectual risks by demonstrating their knowledge of a comprehensive classroom management plan (ULO 1 and 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (<http://catalog.biola.edu/general-information/>) section of this catalog.
