

PUBLIC HEALTH, B.S.

Mission

The mission of the Bachelor of Science in Public Health (<https://www.biola.edu/degrees/u/public-health-bs/>) program is to prepare Christian men and women to be public health agents of change: dedicated to improving population health, promoting disease prevention, and advocating health equality, through community health assessment, education, promotion, and policy development.

Degree Program

The Public Health major provides rigorous academic and practical experiences based on Biblical principles to prepare students for careers in various aspects of public health, including health care systems, health care policy and administration, occupational and environmental health, health promotion, and global health. The curriculum is designed with a foundation of core public health concepts, basic sciences, and behavioral health, focusing on public health principles and practice. In addition, there are three concentrations within the Public Health major that allow students to (1) have an emphasis on Global Health, (2) prepare for Pre-Health Professional graduate programs, or (3) complete both a B.S. then an M.P.H. on an accelerated track. The major includes quantitative and qualitative coursework that equips undergraduates with a broad understanding of the discipline, preparing them for careers in government health agencies, healthcare systems, and non-profit organizations, as well as graduate degree programs including the M.P.H., M.D., D.V.M., Pharm.D. or Ph.D. in health disciplines.

Learning Outcomes

Program Learning Outcomes

Upon completion of the Bachelor of Science in Public Health, students will be able to:

1. Identify and summarize information relevant to assessing and improving population health (ULO 1).
2. Identify data collection, analysis, and interpretation methods used in public health practice (ULO 1, 2).
3. Explain how biological, behavioral, cultural, and environmental factors impact the health of individuals and communities (ULO 1, 2).
4. Use the science of human health and disease to provide opportunities for promoting health and wellness. (ULO 3).
5. Explain how biblical principles relate to health, cultural competence, and community service (ULO 3).

Each Program Learning Outcome (PLO) listed above references at least one of the University Learning Outcomes (ULO 1, 2, 3), which may be found in the General Information (<http://catalog.biola.edu/general-information/>) section of this catalog.

Requirements

GPA Requirements

All major requirements must be completed with a "C-" or better grade.

Curriculum Requirements

The number of credits required to graduate with a Public Health, B.S is the university minimum of 120, and the degree offers two concentrations, Global Health or Pre-Health Professions, as well as a track to the MPH, all of which are detailed below.

Concentrations

Global Health

Code	Title	Credits
Program-Specific Core Curriculum Courses		
Public Health majors automatically meet the Core Curriculum requirement of 6 credits in science and mathematics.		
PSYC 200	Introduction to Psychology

KNES 330	Global Health Leadership	3
KNES 340	Health Policy and Ethics	3
KNES 355	Health Care Systems	3
KNES 475	Public Health Capstone Practicum	3
Concentration Elective Courses (select 6 credits)		6
INCS 345	Introduction to Development	
INCS 420 or COMM 472	Intercultural Communication	
INCS 430	Seminar: Topics in Intercultural Health Care ¹	
KNES 305	Principles of Epidemiology	
KNES 307	Measurement and Evaluation in Kinesiology	
KNES 315	Principles of Biostatistics	
KNES 320	Health Behavior and Health Promotion	
KNES 360	Applied Public Health Research Methods	
KNES 430	Current Issues in Global Health	
KNES 432	Global Health Ethics and Human Rights	
KNES 442	Global Communicable Disease Control	
KNES 460	Topics in Kinesiology and Public Health	
KNES 485	Internship	
PSYC 309 or PSYC 319 or PSYC 320	Introduction to Psychopathology Cross-Cultural/Ethnic Issues in Psychology Developmental Psychology: Lifespan	
Biology Requirements		
BIOS 236	Principles of Human Anatomy and Physiology	4

or BIOS 254	Human Anatomy	
or BIOS 281	Physiology	
BIOS 305	Global Development and Ecological Sustainability	3
or BIOS 353	Environmental Ethics	
KNES 325	Environmental Health	3
Math Requirement		
MATH 318	Biostatistics	3
or MATH 210	Introduction to Probability and Statistics	
Concentration Course Requirements: 40 credits		
Core Curriculum Requirements ²		61
General Electives ³		19
Total Credits		120

¹ Select from the following topics: Global Health Perspectives, Global Health Priorities, Global Health Begins with Personal Health, Communication in the Context of Culture.

² See Core Curriculum Program section (<http://catalog.biola.edu/general-information/undergraduate-core-curriculum-program/>) for details.

³ May be taken as additional Concentration Elective courses. May also be counted as prerequisites required for Concentration Elective courses.

Pre-Health Professions

The Pre-Health Professions concentration helps prepare students for seven different Health Profession graduate/professional programs: (1) Pre-Medicine, (2) Pre-Veterinary Medicine, (3) Pre-Dental, (4) Pre-Optometry, (5) Pre-Pharmacy, (6) Pre-Physician Assistant, and (7) Pre-Podiatry. Each Health Profession graduate/professional program has slightly different prerequisite courses that students in the Pre-Health Professions concentration may take. Students are guided toward graduate/professional requirements during individual academic advising with their faculty advisor.

Concentration Course Requirements: 57 credits**Core Curriculum Requirements**³ **61****General Electives**⁴ **2****Total Credits** **120**

¹ The prerequisite for CHEM 105 is a passing score on Chemistry Placement Exam or CHEM 107 with at least a "B-".

² The prerequisite for PHSC 111 is a passing score on the Physics Placement Exam or PHSC 092 with a grade of "C" or better or 3 or above on any Advanced Placement (AP) Physics.

³ See Core Curriculum Program section (<http://catalog.biola.edu/general-information/undergraduate-core-curriculum-program/>) for details.

⁴ May be taken as additional Concentration Elective courses. May also be counted as prerequisites required for Concentration Elective courses.

MPH Grad Track

Students will earn a Public Health, B.S. and advance to the Master of Public Health in one of two specializations offered by completing a minimum of 150 credits for both degrees.

The mission of the Master of Public Health (MPH) program is to provide rigorous academic and practical experiences to equip public health agents of change: dedicated to improving population health, establishing preventative measures, and promoting health equality, with careers in government health agencies, healthcare systems, and non-profit organizations.

The MPH program at Biola University is focused on preparing public health professionals who are ethical leaders equipped to serve local and global communities. Our MPH program allows students to focus on one of two public health specializations:

1. Master of Public Health in Global Health (<http://catalog.biola.edu/ssth/STPG-mph/>)
2. Master of Public Health in Epidemiology (<http://catalog.biola.edu/ssth/STPE-mph/>)

The Program Learning Outcomes (PLOs) for the Undergraduate portion of the MPH Grad Track are located on the tab of this program page. The PLOs and Admission/Graduation Requirements for the Graduate (MPH) degree can be found on the program pages for the Master of Public Health in Global Health and the Master of Public Health in Epidemiology.

CEPH Accreditation Status

The MPH program at Biola University is a pre-candidate for accreditation by the Council on Education for Public Health (CEPH). Biola University is working with CEPH towards obtaining Public Health Program (PHP) CEPH accreditation.

Graduate Level (MPH) Requirements

Public Health BS/MPH Advancement Requirements

In order to advance from the Public Health, B.S. to the MPH degree, students need to fulfill the following requirements prior to starting graduate course work (by the beginning of their last year).

- Complete Biola University's Graduate Education application
- Interview with an MPH graduate faculty
- Have a minimum 3.0 cumulative GPA on a 4.0 scale
- Students with a 2.8 cumulative GPA or higher will be considered but the decision is highly weighted on their graduate faculty interview
- Write a statement of purpose and objectives

MPH, Global Health Specialization

Below are the detailed requirements for the MPH, Global Health specialization. Four 500-level PHLT courses are taken in the MPH Grad Track students' last undergraduate year.

Code	Title	Credits
Global Health Core Requirements		
PHLT 505	Principles of Epidemiology ¹	
PHLT 510	Community and Global Health ¹

¹ Graduate MPH course taken in students' last undergraduate year.

Course Sequence

NOTE: The course sequence table is designed by the major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative or flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.

Taking coursework during the summer session may also be an option to accelerate your degree path.

See Core Curriculum Program section (<http://catalog.biola.edu/general-information/undergraduate-core-curriculum-program/>) for a list of approved Core Curriculum courses.
