

TTBE: BIBLE EXPOSITION

Objectives

While the entire seminary curriculum contributes to the goal of accurate exposition of Scripture, it is the purpose of this department to focus on the following:

1. Sound hermeneutics, which leads to accurate interpretation and application of Scripture.
2. Introductory issues for each Old and New Testament book which inform accurate Bible exposition, including authorship, historical and cultural background, theme and purpose, or unique theological contributions.
3. Synthesis and analysis, accomplished through biblical survey and analysis of selected passages and books, enabling one to interpret Scripture in light of the "big picture."
4. Exposition and application, providing examples of well-organized, relevant messages and Bible studies from the English Bible books studied.
